MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, AUGUST 7, 1947

Vets Demanding Privilege to Vote

VFW UNANIMOUS FOR COLLEGE ELECTION

BATTLE-scarred veterans of World War II this week carried a petition asking that an election be called on the proposed plan to convert the Childress Army Air Field into a junior college for Motley, Hall, Childress and Cottle counties.

Meeting in front of the Fleming Post American Legion hall Tuesday night, Motley County Veterans of Foreign Wars voted unanimously to demand an election on the issue making known their renunciation of a group of citizens opposing the issue in an advertisement appearing in the July 24 Tribune. The explosive phrase in the opposing advertisement which drew fire from the foreign wars veterans' organization, read "We urge that if a petition is circulated asking for an election to create the district that you decline to sign it."

Albert Rattan, commander of the VFW post said following the regular Tuesday night meeting, "we have not gone on record as favoring or opposing the Childress college plan, but we are demanding the people of Motley county have a right to vote their decisions. We, as veterans of foreign wars, want to know if democracy is to be denied us after our fighting to preserve it. We were told that the very principles that this group would perpetrate against our people. We feel that the citizens of Motley county should have all the facts on this issue and the right to vote as they wish."

Only signature appearing on the advertisement in July 24 Tribune which brought hostile action from the servicemen's organization was "qualified tax paying voters of Motley county."

Tax-paying voters in every community in the county had yesterday signed a petition asking that an election be called. Remote Northfield community had Monday morning sent in a petition with 28 names without solicitation from the servicemen. Many tax payers who had signed the petition circulated previously opposing the college plan, signed the petition asking for an election.

Early this week the petition was carried by Furman Vinson and Joe B. Meador, both native sons of Motley county and both foreign wars veterans with Purple Heart honors.

FLOMOT BAPTIST TO HOLD REVIVAL SOON

Rev. J. E. Lee, pastor of the First Baptist church in Flomot announced Tuesday that a ten day revival of that church would start Friday, August 8.

Rev. Carl Lamb of Plainview will preach during the meeting and Leo Jorden of El Paso will be in charge of the song services. Morning services will begin at 10:30 and Evening services at 8:30.

Barn at Northfield Destroyed By Fire

Fire of an unknown origin Wednesday afternoon, destroyed a barn on the former sheriff H. H. Courtney farm and ranch in the Northfield community.

Courtney said he estimated the loss at \$2,000 and that no insurance was carried on the property.

Representative Of Social Security To Be In Matador Wed.

Elliott W. Adams, Social Security Administration Representative, will be in Matador at the First State Bank at 2:00 p. m. on Wednesday, August 13, 1947, for the purpose of answering any questions you may have on Social Security; discussing possible benefits and taking claims from persons who seem to be entitled to benefits; and taking applications for Social Security account number cards.

The Social Security Administration field office is an integral part of the community life of this city. The manager and his staff are prepared to answer at least 1,000 questions pertaining to the Social Security program. You are requested by Mr. Adams in charge of the Lubbock office to bring your problems to him.

Mrs. Lizzie Miller of Corsicana left Thursday after a three week visit in the home of Mrs. J. E. Poteet.

Opposition To College Is Strong

Opposition to the plan to convert Childress Army air field into a junior college for Hall, Motley, Cottle and Childress counties, is strong according to John Hamilton one of the leaders in the opposition movement, late yesterday.

Hamilton said that an earlier count of signatures on a petition against the movement had been in error and that the total was over 400 instead of 600 as first announced to a Tribune representative.

Number of counties sought in the college district was reduced from seven to four last week.

Hamilton said very few opponents were encountered. When intimated that Motley county VFW had voted unanimously to support a demand for an election, he said he had no further statement at the present time.

Lockney Man Buys Modern Cleaners

A deal was culminated early this week whereby L. L. Reece of Lockney purchased the Modern Cleaners dry cleaning plant from Wm. R. Cammack. Amount involved in the deal was not made public.

Mr. Reece said he would continue to operate his plant in Lockney and divide his time between the two towns, retaining for the present, the personnel of the shop here. He said he expects to install some new equipment here in the near future.

Mr. Reece has had 21 years experience in the dry cleaning business and said he was well pleased with the reception he had received since arriving here. He solicits a continuation of the shop's customers and welcomes the opportunity of meeting the people of this area.

Schools To Receive Machine Tool Items

The Matador schools will receive two special purpose machine tool items without cost as one of the successful applicants in the Grand Prairie War Assets Administration office's first war surplus donation program.

The schools will be the recipient of one hand reamer and one expansion reamer. Successful donees selected by means of an impartial drawing conducted by WAA's priority claimants division from a total of 108 applications submitted by institutions throughout Texas.

In all 284 machine tool items to be used in furtherance of vocational education will be distributed to 74 schools, colleges, and public institutions. A second donation program now under way closes August 16.

NEW AIRPORT PHONE

Here is a new telephone number to remember: Roaring Springs 801. It is the number assigned Buzz field, from which your flying friends may call in to Matador or Roaring Springs for transportation into either of the two towns.

The modern hanger located on Highway 18, only five miles south of Matador, has all conveniences and services. Buzz Field is now listed on all air maps. Elevation at the field is 2,612 feet.

Whee! the People

This is your invitation to "write a piece for the paper." If you feel that any issue or condition in the county needs to be aired to the public this is your invitation to write a letter to the editor which will be published.

The Tribune is a Democratic newspaper. It is privately owned but its policies are not controlled by any class, group or faction. Its services belong to all the people. It is not necessary that you be a subscriber.

Write with a typewriter if possible (one side of the sheet, double spaced) and sign your name. Remember that any position you take will be open to controversy, in event another reader desires to take issue with you. But it is not necessary that you use a controversial subject.

You may offer a suggestion for improvement of any condition in the county. You may commend or praise the Tribune, public officers, services, utilities or just write for the "heck" of it. No poetry will be published. Letters will be filed in the order received and published as space is available.

The first Federal grants extended to agricultural colleges were made in 1862 under an act of Congress known as the "Morrill Bill."

MATADOR NAMED FOR \$15,000 SLICE IN FEDERAL AIRPORT IMPROVEMENT MELON

Matador will receive a \$15,000 slice of the \$236,405 airport improvement melon ripening in Washington for the South Plains area according to Tuesday's Lubbock Avalanche-Slight catch in the gift is the obligation to meet it with the same amount in local funds. (It is not necessary that the full amount be used, but any amount used must be matched with local funds).

It is estimated in the news article that a total of \$136,804, 685 will be spent on 908 airfields in the nation.

If the amount provided for the South Plains is matched by

Dividend Of 5% Is Paid By Loan Firm

A dividend of 5% was declared Monday by the Matador National Farm Loan Association at a board of directors meeting. It was announced by J. W. LaBlanc of Houston who is serving as secretary-treasurer during the absence of Tom Hamilton, away on vacation.

The dividend will be payable to stockholders of record on June 30. Interest rate on loans made by the MNFLA is 4%. All of the 205 borrowers are stockholders. It is pointed out that the dividends paid by the association aid in further reducing the low rate of interest.

Highway Honestly Key To Vain Search Made By Diogenes

Diogenes, Greek cynic philosopher who lived about 400 years B. C., should have carried a spot light and traveled the automobile highways instead of wasting his time with a lantern hunting an honest man. In fact he should have sought an honest woman and it is probable his entire estimate of humanity would have been changed. At least his research would have been more interesting.

Don't believe all the unkind things you have been hearing about the world. There still remains a sprinkling of refreshingly honest people. Recently the Tribune published an article which told of a chest of fine silver being lost by travelers en route to Florida and its recovery through the honesty of a woman finder.

About 20 days ago, Mr. and Mrs. G. E. Hamilton left Matador for Bluefield, West Virginia. At Childress they were accompanied by Mrs. W. H. Tittle and Mrs. D. R. Edgar, sisters of Mrs. Hamilton. While traveling a detour between Sallisaw, Oklahoma and Ft. Smith, Arkansas, the luggage compartment of the car was jarred open and a suitcase belonging to Mrs. Tittle, was lost. The luggage contained all of Mrs. Tittle's clothing, except that she was wearing and about \$40 in cash.

As soon as the loss was discovered at Ft. Smith, Mr. Hamilton contacted the police department and wired the sheriff at Sallisaw. Nothing had been reported.

Upon reaching their destination in Virginia, Mrs. Tittle received a telegram and a letter. The letter contained \$40 in currency and the telegram told of finding the luggage. The luggage had been found by a woman whose home is in Muskogee, Oklahoma. Since it bore no address, she opened it and found a mailing envelope containing two pairs of nylon hose which bore Mrs. Tittle's name and address at Childress. The luggage had been delivered to Mrs. Tittle's daughter in Childress and the currency mailed to Virginia.

Journal Of Failure

The Tribune has failed its readers. It has fallen short of the responsibility vested in a newspaper to provide adequate information on an important issue and this editorial is an apology. It has neglected to take an open stand in favor of the proposed Childress junior college, which hangs in a precarious balance.

This is an apology to the servicemen of Motley county and the nation, who gave their strength and courage for the principles of democracy. This is an apology to the war dead of Motley county for not protecting their sacred rights with greater diligence, and allowing the threat of a closed ballot box to shadow settlement of an important issue. It is an apology to the average people of Motley county and to the little children who must look to the generation now in power for sufficient education to meet the demands of an exacting world. It is an apology to the boys and girls of Motley county who have finished high school but will never enter the portals of college unless some provision is made for them. The Tribune should have published more facts of the proposed Childress junior college plan. Democracy and the great principles of our nation and state have fallen into decay when any issue as important as that of education can be discharged without all the people knowing all the truth. The people of Motley county are sufficiently intelligent to vote and do not need to be protected from any danger they might meet at the polls. They are aware that the junior college will cost a certain amount of taxes but they have the right to determine whether or not the college's value will warrant the cost.

The Tribune should have cited the fact that Tech college at Lubbock, WTSC at Canyon and other colleges throughout the nation are moving the same type buildings as those on the Childress army air field, onto their campuses to be used as class rooms and as housing for veterans seeking education. It should have published the fact that junior colleges over the state are successfully transporting students distances equal to that between Matador and Childress.

Success of school busses in every county in the nation is a known fact. It is also known that children as young as six years of age ride through all kinds of weather and all climates, over thousands of miles of unpaved roads. Two fine, modern highways connect Matador with Childress.

Taxpayers and voters should have been acquainted with the fact that the 20c per \$100 county valuation levy cannot be raised unless it is voted by the majority of the people in the four counties. Motley county will have two members on the board, as will all other counties, except Childress, which will be represented by one. A raise in taxes could not be made possible until the election had first been ordered by the board. Leaders in the movement believe the levy can be cut to 12c within two or three years. College busses would be paid for and operated out of the levy without any cost to students. Tuition would be only \$50 per year.

The government classes buildings not of stone, brick or concrete as "temporary". Buildings at the Childress army air field were built of the best lumber available and constructed much better than the average home in the area. With average upkeep they will last from 20 to 40 years but they could be walled with brick, stone or slate shingles to more than double this length of service. There is no argument regarding the water system and the supply of water, the sewer system, lights and paved streets. The air field is four miles from the city of Childress.

The Tribune should have pointed out that much of the cost of operating the junior college would be deducted from the income taxes of property owners in the larger brackets. (All taxes are 100% deductible).

The Tribune is not certain that the Childress junior college plan is without fault but it is certain that it is a step in the right direction of better education for a greater number of boys and girls in the area. It is positive that education does not cost but always pays back more than its original investment. The higher the education level in any area the greater prosperity and progress. The children of today and unborn generations who will follow them will be affected by our decisions and their education deserves our most profound consideration. We must listen to the resolute little voices in our hearts and shut our eyes for the moment to the blur of the dollar sign.

PIONEERS ANNOUNCE DANCE FOR V-J DAY

Another dance has been announced by C. C. Haile, president of the Motley-Dickens Counties Old Settlers Association, for V-J Day evening (Aug. 14), at Pioneer pavilion, Roaring Springs. Proceeds of the dance, which will start at 8 p. m., will be used to help defray the expense of the annual reunion, he declared.

HOME FROM FRISCO

Lion Henry Pipkin, second of the Matador Lions three delegates attending the Lions International convention in San Francisco, returned home Monday.

He rode the special train from the coast to Lubbock and completed his journey home by bus. Howard Traveek, third delegate, is making an extended tour and vacation on the West coast. Douglas Meador returned by air last week.

Regular meeting of the Lions was postponed Tuesday for vacations. Next meeting will be held at the Methodist church basement, Tuesday afternoon, August 19th, at 12:30 p. m.

Vets To Study Plans For Lighted Diamond

Meeting of the Motley county Veterans of Foreign Wars held in the open air before the Fleming Post American Legion hall Tuesday, included consideration of a proposal to equip a lighted baseball diamond in Matador. Veteran Curtis King was named chairman of a committee which he will select to study the possibilities.

A motion was tabled to consider the fund-raising plan of offering an airplane as top award in a ticket-selling campaign.

ATTENDING CONVENTION

R. M. Stanley, manager of the City Drug store left Saturday for Fort Worth where he is attending the Texas Druggists' convention, opening August 3 and continuing through today.

During his absence from the prescription department, his work is being conducted by C. A. Craven of Paducah, retired pioneer druggist of the neighboring city.

The first Federal grants extended to agricultural colleges were made in 1862 under an act of Congress known as the "Morrill Bill."

TRAIL DUST

By DOUGLAS MEADOR

we could see ourselves thru eyes of others it is possible scene would be surprisingly interesting.

Within a few moments the plane had departed from earth like an anxious soul seeking its way to eternity. The position was rapid with fog pressing against the flexing great white world laid with a carpet of clouds. Below us lay a less tranquility; gossamer beauty and a serene loneliness. Billowing gold along the path, the hurried toward its rendezvous with night. The plane seemed suspended on a motionless swing in the sky. Purple shadows rose from the eastern horizon and the sun fell through gleams in the clouds. The plane snapped on and night had descended with the suddenness of an invited guest.

Beyond the outskirts of Guatemala City is a night club which once the home of a coffee plantation owner. It is old now, refuse, trying to hide with memories of more dignified days amid the tall, whispering palms. Only the dexterity and stamina of a Mayan taxi driver could find the dim road, like a whelp on the moon-bleached earth. The trip is like a tour on the brink of oblivion until scattering lights filter thru the lower floor seems lit with long, empty halls and with antiquated lamps. There are a few scattering tables where strange characters sip beer from tall green bottles. The lighting is fluorescent and leaves a ghostly cast on the walls like the ghastly whiteness of a corpse. Two juke boxes, ranged to fit the small Guatemalan nicker, provide the only music and the dancing of a few couples provides the club's entertainment. It is said only the happy and unlawful lovers of the customers.

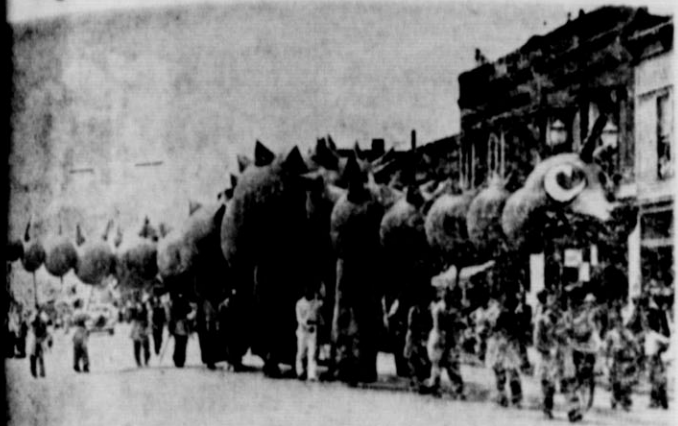

Religion is the most important device devised by society. It is the strength of the frequently neglected soul which may be sought before asking for food.

Along the coast the sea was rising up ladies of white froth spreading it on ragged rocks. The winding pavement led its way over the hills through orange groves, past like homes with windows to the sea. Busy little hamlets strung on the road like light ornaments on a ribbon. A kiss pressed the woman's cheek and she smiled. The woman's hand twisted the woman's hand as she slept. She was small and thin with cheap things wrapped about her. Jostled by the motions of the bus she rode in slumber a sack of soiled laundry into the double seat. At intervals she spread a thin coat over her shoulders and clutched it as if it were slowly to the floor. Once the bus stopped suddenly she rose on her elbows and smiled in the shoddy red purse a cigarette. She ground it with the heel of her scarred hand and slumped back into the seat. Bright, gay cars hummed their ways past the bus and young girls tossed their heads the California sunlight but a sleeping woman shaded her eyes with a wrinkled hand. A heavy bald man was waiting by the door with a man with eyes and worry on his face. He tried to embrace the man as she stepped from the bus but she twisted herself free and walked rapidly across the street to a beer counter. He held her for a moment, then he departed despairingly and walked away.

Little material is required to make a fool but a hundred bolts of golden fabric are not enough to make a man.

Life is good and sweet and so long as love is more important than the achievement of our own selfish desires.

Big Parade To Spike South Plains Fair

LUBBOCK, TEXAS — Dragons and serpents and other creatures of the barnyard, circus and zoo will walk the streets of Lubbock in a gigantic parade, opening day of the 30th Annual Panhandle South Plains Fair, September 29. Approximately 200 men will be required to handle the inflated rubber menagerie in the two-mile long parade. The rubber animals will also be on display at the Fair grounds all six days of the Fair. Pictured above is one of the late model dragons of the non-fire eating type.

Home Demo Council To Have Booth At Old Settlers Reunion

It was announced this week that the home demonstration council will sponsor a booth at the Old Settlers reunion on August 28-29. Home made pies and cakes will be sold. Money made from the sales will be used to send the three county Texas home demonstration delegates to the convention to be held in Galveston September 23 and also for the two girls and their sponsor who will go to the Texas 4-H round-up at Texas A & M college on September 3.

Glenn Woodruff Has Dinner Party Sat.

Glenn Woodruff entertained Tech students with a dinner party in his home Saturday night at eight o'clock following an enjoyable day spent at Roaring Springs. Those present were Miss Joy

Sawyer, Lubbock; Tom Haley, Eastland; Ted White, Byron Harris and Miss Jane Weir, Brownfield. Mr. Woodruff accompanied them to Brownfield and remained over Sunday.

Attends WTSC College Reunion At Amarillo

Miss Bobby Robertson attended a reunion of sorority and fraternity members of West Texas State College, Canyon, held in the Herring hotel, Amarillo on July 26. The affair was well attended and is reported as being one of the outstanding Canyon college social events of the year.

Mr. and Mrs. J. M. Thacker and Mrs. S. C. Phipps visited in Amarillo over the week end. Mr. and Mrs. Vester Shirley returned home Monday from California where they had been visiting the past week.

TVA May Face Big Interest Charge On Government Loan

The suggestion by Sens. Homer Ferguson (R. Mich.) and Henry C. Dworshak (R. Idaho) at a Senate appropriations subcommittee hearing on Tennessee Valley Authority finances that maybe the TVA ought to pay interest on the \$343,000,000 the Government has advanced for development of its power fac-

ilities seems to have thrown a chill of terror into the TVA camp.

The TVA enthusiasts went to the Senate committee hearing to protest the provision made by Republican majorities in the House that the \$343,000,000 must be repaid to the Govern-

ment over a 40-year period. Instead of encouragement to hope for reversal of the House demand for payment, they got this threat of interest charges thrown in their faces.

EVA Chairman Gordon Clapp told the senators, according to a dispatch from Washington, that "the payment of interest in addition to principal would burden TVA with too rigid a fixed charge each year, preventing TVA from taking advantage of business opportunities as they arise in years of low income."

Now wouldn't that be just too bad! Of course private businesses which owe money have to pay back both the principal and interest and very often find that the rigidity of fixed charges prevents them from "taking advantage of business opportunities as they arise" in good years and in bad.

Wasn't the TVA established as a "yardstick" by which the New Deal Socialists were going to be able to tell how much the wicked power companies were robbing the people? What kind of yardstick is it that has all these extra inches? What do the TVA rates mean when compared with those of private companies if the TVA does not meet the same standards of honest practice that private companies meet.

The truth is, of course, that the yardstick theory has long since been meaningless and the TVA has been conducted as an out experiment in socialism. It is a shaft aimed at the heart of the free enterprise system by the enemies of that system.

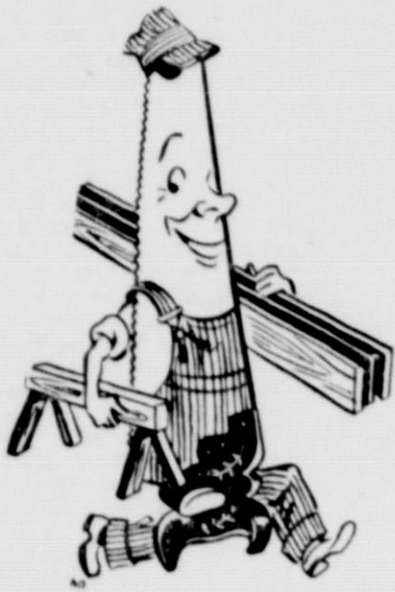

Sen. Dworshak wondered if western power projects which pay interest on the funds they receive from the Government are not being discriminated against in the TVA's immunity from such charges. Of course they are, Senator.

But that is just a minor discrimination. What about the discrimination against the great majority of the people who buy electricity from private companies and pay taxes which go to subsidize the TVA and other Government power projects. There is your real discrimination. Down here in the Tennessee Valley we are enjoying the TVA's celebrated cheap rates at the expense of those folks, our fellow taxpayers throughout the nation. If we were poor enough to need this charity that might be all right. But are we?

If the TVA can't meet ordinary business standards of financing and sell electricity at cheap rates, maybe it is not such a great improvement on perfection as some of its advocates would have us think. And maybe the private power companies are not such awful robbers, after all.

There is as yet no indication as to whether the senators will make any serious effort to make the TVA pay interest. There is no good reason why they should not, but, on the contrary, every reason why they should. Lending people money without interest is just the same as giving them money. The use of money is worth money.

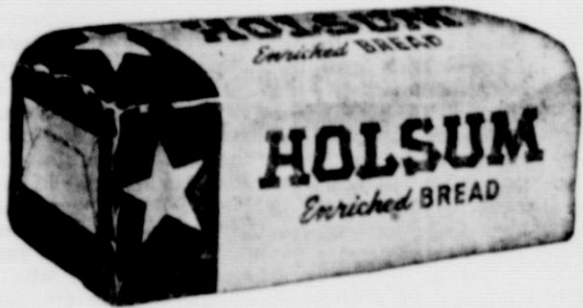

It is about time for the Government to make the TVA either admit it has to be subsidized with public funds in order to deliver the goods or quit stalling and deliver them without subsidies if it can. In order to do the latter it would have to advance to it, with interest, just like other business enterprises, including the western power projects, have to do. Even so, it would still enjoy many advantages from Government sponsorship.

WARNING

WHAT DID WE FIGHT FOR;

What Did Our Comrades Die For?

IF Democracy is dead in Motley county; if the right to vote is to be denied the people on any issue, then we, as Veterans Of Foreign Wars, struggled, and watched our comrades die in vain.

We challenge the authority with which any individual, group or "click" shall ask the people of Motley county to decline a petition asking for an election. We believe any issue as important as that of education deserves to be brought before the people and that they shall have the right to go to the polls and vote as they desire.

We have returned to our homes and asked no more than other citizens. We have tried to forget the pain, the bitterness, the heartaches and the tears of combat. We believed the people at home would always preserve the sacred rights of democracy. Through our efforts and the efforts of thousands who will never return, the rights of Democracy are still intact.

As members of this organization of fighting servicemen, we ask that you demand the right to vote and that you go to the polls and cast your ballots without the advice or interference of anyone.

We are neither for nor against the Childress Junior College plan. We ask only that you secure all the information possible and demand the right to vote according to your desires.

We Demand The Right To Vote On Any Issue

TWO GIRLS ARE KILLED IN TRUCK ACCIDENT

A Wednesday afternoon, July 30, tragedy at the new Baptist camp site 10 miles south of Ceta Glen took the lives of two young girls who, with their minister, his wife, and three other girls, were bound for a week's stay at the Baptist youth encampment.

Killed instantly was Wanda Fay Rasberry, 15, who was pinned beneath the cab of a somersaulting pick-up which plunged 70 feet into a ravine.

Charlene Flora Whatley, 12, of Midway, died in Swisher County Hospital in Tulia early Thursday morning.

Injured were Rev. and Mrs. Joe C. Scruggs of Afton, and Mary Jo Harvey.

Rev. Scruggs and his wife were in the cab of the 1936 Ford pick-up, the girls in the back, when they started down what patrolmen described as "the steepest incline in West Texas".

The minister apparently lost control of the light truck while on the second turn of the corkscrew drive. The seven occupants rode the pick-up almost straight down to the bottom of a 70-foot canyon. The truck wedged between two boulders at the bottom of the ravine, officers said, pinning Miss Rasberry.

ry beneath it. Men who rushed to the scene lifted the truck in order to free her. Officers said the girl apparently was thrown in front of the truck and it crashed on her body.

Miss Whatley was taken to Swisher County hospital in a private car. She died about 2:30 a. m. Thursday.

Others injured, none of whom were thought to have been seriously hurt, were taken to hospitals in Tulia and Canyon.

Rev. Scruggs was quoted as saying brakes on the Ford were "not too good" and he put the pickup in second gear to make the descent over the new road leading to the new Baptist camp site.

Witnesses said brakes on the vehicle appeared to fail and the pick-up developed speed which prohibited successful negotiation of the turn.

Patrolmen said the truck, loaded with bedding and camping equipment, was completely demolished. "I don't see how any of them lived," a patrolman said. "The pick-up isn't worth the wrecking fee that would be charged for dragging it out of the canyon."

Several men at the top of the decline witnessed the accident. Some of them had been engaged to drive vehicles down the grade for motorists who chose not to make the descent.

The witnesses scrambled in the gorge and helped the injured to the road where cars waited to take them to hospitals. Patrolmen said a large group of men gathered around the wreckage to lift it off Miss Rasberry's body.

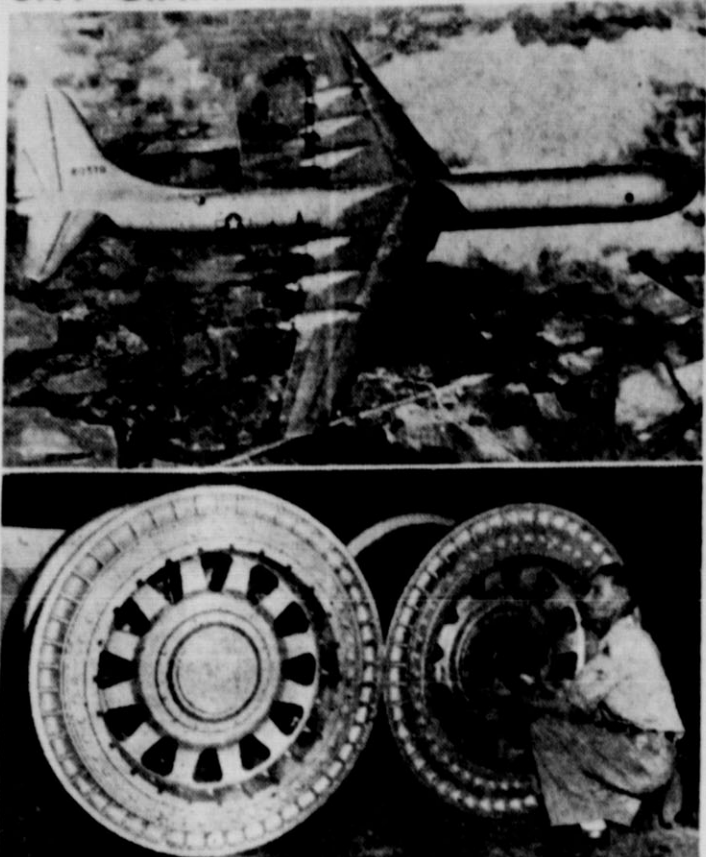

The truck landed on its top, crushing the girl beneath the cab.

Edna Nell Shaw was released from the Tulia hospital Thursday morning. All others, hospitalized in Canyon, were reported to have escaped serious injury. They were suffering from shock.

The accident occurred about 2 1/2 miles north of Wayside, some 30 miles southeast of Canyon, at about 3:30 p. m.

SKY GIANT ROLLS ON BEARINGS

The world's largest bomber, Consolidated Vultee's B-36, can carry an atomic bomb to any inhabited region in the world and return home without refueling, according to the AAF. The giant bomber carries 10,000 pounds of bombs for 10,000 miles, or its maximum bomb capacity of 72,000 pounds for a shorter range. When the B-36 was designed, Timken Roller Bearing Company was asked to put its engineers on the task of designing bearings that would enable the six-engine, 139-ton bomber, to take off and land safely. Top picture shows the B-36 in test flight. The bottom photo shows a Timken Tapered Roller bearing being fitted on a wheel assembly. Some idea of the size of the plane can be gained by noting the size of the man compared to the wheels.

With an eye to the future, the AAF has ordered an undisclosed number of the bombers. Rot on late peaches, plums, apricots and related fruits can be controlled with a spray consisting of three to five pounds of wettable sulphur in 50 gallons of water.

John Adams was the first President of the United States to occupy the White House, into which he moved in 1800.

WHY THROW 75c AWAY!

The 75c Bottle of **DURHAM'S RESORCIN** must relieve your itching scalp, dandruff or falling hair better than any \$1.50 tonic ever used or your money back. Worth \$1.50 but costs only 75c at your Druggist or **MATADOR DRUG**

The size of the original capital building of the United States was 332 feet 4 inches in length and 229 feet in depth. It was built of Aquia, Virginia, sandstone, secured from quarries the United States owned. The forests of Arkansas contain a large variety of both hard and soft wood valuable for lumber. Consequently the manufacture of lumber and lumber products is extensive and valuable.

At present prices of cotton and cottonseed, no grower can afford to lose the one bale out of seven which insects normally steal.

Adjustment Of Ice Prices

Our ice prices have not changed in ten or more years. Most ice companies advanced their prices last year. Everything we use in the production of ice has advanced from 10 to 100% which necessitates the adjusting of our prices to meet the present conditions. The following prices will be in effect August 1st, 1947.

DOMESTIC ICE	CASH ICE DELIVERED	DOCK ICE	COMMERCIAL ICE
2500-lb Ice Book 60¢ per 100lb	100lb 65¢	100lb 60¢	2000-lb Ice Book 55¢ per 100lb
1000-lb Ice Book 70¢ per 100lb	50lb 35¢	50lb 35¢	All Cash Commercial Ice 60¢ per 100lb
500-lb Ice Book 70¢ per 100lb	25lb 20¢	25lb 20¢	
	12 1/2 10¢	12 1/2 10¢	

We Pledge Our Customers To Lower Prices As Soon As Conditions Will Permit

LEON ICE COMPANY

WARNING

Tell your fortune?

"Such a lucky lady—with a pretty house, nice husband and children—lots and lots of servants!"

"You're wrong about the servants. I live in a 6-room house, and balance a budget!"

"But, Madam, you have servants to help you in every room! And you pay them very little, indeed. You have a servant to assist with your laundry. Another to help cook your meals. A third to protect your food. A fourth to clean. More to heat and light your home, and entertain you when you're bored. You have electrical servants, Madam—the most willing and dependable servants in the world!"

"Of course, I have electricity, but I never thought—"

"This army of domestic help costs you less than a bottle of milk a day! So you see electric service is not only high in efficiency, it's low in cost! Twenty years ago the average family got only half as much electric service for the money as it gets today. And think how many more jobs electricity does around the house in 1947! Yes, Madam, yours is a very good fortune, indeed!"

Roaring Springs NEWS

By LULA M. SWIM

Mr. and Mrs. B. L. Stevens and baby of Los Angeles, Calif., are visiting her parents, Mr. and Mrs. J. D. Green this week. Mr. and Mrs. Bascom Nelson and family of Dimmie visited in the home of Mr. and Mrs. J. T. Swim Sunday. He is the publisher of the Castro County News.

Gus Cooper of Fort Worth visited his parents Mr. and Mrs. J. W. Cooper over the weekend. Also visiting in their home Sunday were Mr. and Mrs. Willis Cooper and family and Mr. and Mrs. Melvin Meason of Matador and Miss Jean Hamilton of Seattle, Wash. Miss Hamilton is visiting in the home of Mrs. Melvin Meason.

Mr. and Mrs. Earl Van Camp and daughter Mr. and Mrs. Lou Sarrett and baby of Amarillo visited in the home of Mr. and Mrs. J. T. Swim Sunday.

Mr. and Mrs. J. A. Brawley and Archie of Littlefield visited in the home of Mr. and Mrs. Martin Smith of the Duncan Flat Community and also visited friends here Sunday.

Mrs. George Turner and Arlene of Lockney, and Mrs. Johnnie Williams and children of Hale Center visited in the home of Mrs. M. E. Turner Monday.

Mrs. Guy Whitaker and children of Houston returned home Tuesday after staying with her parents, Mr. and Mrs. I. L. Sanford the past three weeks. L. M. Miller carried them to Wichita Falls where he will meet accompany Mr. and Mrs. Homer Sanford here for a visit.

Miss Charmaine Merrill arrived home Monday from Orangeburg, N. Y., for a visit in the home of her parents, Mr. and Mrs. I. D. Merrill. They plan to leave Wednesday for Young, Arizona to visit two sons and their families.

Miss Bessie Medlen left Monday to visit her sister in Abilene this week.

Mrs. John Smith left Wednesday to visit her sister, Mrs. Jackson of Young, Arizona.

Willis McCaslin of Fort Worth is visiting in the home of Mr. and Mrs. W. C. King this week.

THIS TIME FOR KEEPS—Texas Welterweight Champion Johnny Dabbs (above) says that there will be no room for aibis from the contender when he squares off against Ben Evans in Amarillo's Municipal Auditorium on Friday night, August 15th. Both fighters were ordered to again fight for the title when Evans complained that he had been the victim of a "local decision" when he fought Dabbs for the title in the Champ's home town last January.

Mrs. J. T. Swim returned home Monday after receiving medical treatment in the Quanah Hospital the past week. Mrs. J. N. Fletcher accompanied her home.

Mrs. M. D. Freeman visited her brother and family in Quanah Monday.

Veteran Land Bill Stymied By Senate

Texas Veterans' Land Program, authorized by a constitutional amendment adopted by the people last November, has been delayed two years through failure of enabling legislation to receive Senate floor recognition, some 10,000 veteran applicants were advised recently by Bascom Giles, Commissioner

of the General Land Office of Texas. The same information was given to all American Legion and V. F. W. posts.

Giles explained that he is notifying the veterans of the status of the bill because he is continuing to receive a large volume of mail daily from veterans lauding the program as one of the best offered in the nation and expressing a desire to participate.

"Many of them apparently believed the amendment adopted by the voters last November was self-enacting and cannot understand why they have not already been permitted to a small farm or ranch home from the State," he said.

"I am explaining to them that while the necessary enabling legislation was passed in the house by a vote of 124 to 9, it failed to receive recognition for Senate consideration. Despite every effort to get it up for passage in the Senate, where we had been assured of a majority favorable vote, its supporters were unable to do so, even with the intercession of the largest veterans' organizations in its

behalf."

As written, the bill would have permitted any World War II veteran to select his own land for purchase by the Veterans' Land Board and resale to him with ten per cent down and the balance to be paid in forty years at four per cent interest.

made a business trip to Lubbock last week.

Miss Ruby Burton of Amarillo is visiting her mother Mrs. J. C. McBride this week.

Mr. and Mrs. Shorty Bearden and daughters, Dorothy and Jeanie, returned Friday from a two weeks vacation in Salida, Colorado.

Mrs. F. Z. Martin left Tuesday for Amarillo where she will visit relatives this week.

Mr. and Mrs. J. C. McBride and daughter Ruby, Shorty Bearden, Ruth and R. H. Stafford and Earl McBride attended the McBride reunion held at Sweetwater Park Sunday.

Clifford Webb who has been visiting his parents, Mr. and Mrs. L. D. Webb returned to his home in Los Angeles, California Monday night. His family will remain here for another week.

Albert S. Terry of Sulphur Springs is visiting in the home of his brother and family, Mr. and Mrs. Ed Terry of Whiteflat.

LOCAL ITEMS

Mrs. H. E. Adkins and W. M. Calvert both of Las Cruces, N. Mexico, visited in the home of Mrs. M. Dirickson last week. Mrs. Adkins is Mrs. Dirickson's sister and Mr. Calvert, her father.

Mrs. Dick Groves and Mrs. Judd Neighbors made a business trip to Lubbock Wednesday.

Mutt Berryman and Mr. and Mrs. John Briscoe returned this week from a vacation in points in New Mexico.

Mrs. M. Dirickson, accompanied by her daughter June, and sister, Mrs. H. E. Adkins,

ADVICE ABOUT KEEPING WELL

★ "The man who thinks to conserve his health by uselessness and ease does not differ from him who guards his eyes by not seeing, and his voice by not speaking. . . . Least of all is it to be assumed that laziness is healthful, if it destroys what health aims at; and it is not true that inactive people are more healthy."

This excerpt from Plutarch's essay *Advice About Keeping Well*, written over 2,000 years ago, might have been written yesterday. Had medicine and pharmacy been as well developed then as they are today, we are certain he would have stressed the value of a periodic physical examination by a qualified physician. By the same reasoning, it is wise to take your prescription to a registered pharmacist for expert compounding. We are prescription specialists.

OF THE LOWER PANHANDLE

Greatest asset of the Lower Panhandle is its youth. No other wealth can be compared to the boys and girls who are finishing high school with courage and ambition to secure more education. Many of them will never have an opportunity to attend college if the Childress Army Air Field is not converted into a junior college. The responsibility is ours today; the opportunity will not return. A large part of the cost would be paid in income taxes. (All taxes are 100% deduction).

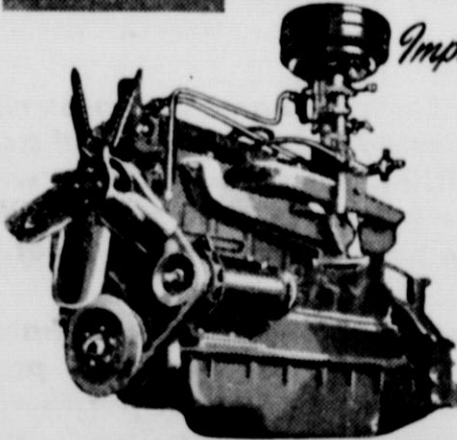

There Is No Compromise With Education

Statistics prove that wealth and progress of any area rise with its educational level. Civilization is demanding that men and women be trained. More boys and girls must receive college training in the future or forfeit their opportunities of a rightful place in the world.
