

# Attendance Records Broken At Old Settlers

PERFECT WEATHER which followed the earlier threat of rain, aided in making the 28th annual reunion of the Motley, Dickens and Old Settlers, held at Roaring Springs, Thursday and Friday, the most successful in the organization's history.

Crowds estimated at between 10,000 and 8,000 attended the two-day celebration. Over 2000 people were used in the long parade which started at 10 a. m. Thursday in Roaring Springs business section and advanced to Pioneer park. Parade winners were: Wilburn Barton, most

typical old-time cowboy; Mrs. Britt Daniels, most typical old-time cowgirl; Slim Durham, most typical cowboy; Kelly Ann Green, most typical cowgirl; Mike Shanks, most typical junior cowboy; Glenda Flippen, most typical junior cowgirl; "Gay Nineties" best float; Floyd County's Sheriff Poose, best riding club.

Memorial services for deceased members of the association were held at the pavilion at 11 a. m. under the direction of former President C. C. Haile of Afton. Rev. Victor Crabtree,

Baptist pastor at Dickens delivered the memorial address.

Many declared the Thursday afternoon program one of the best ever presented by the organization. A group of Roaring Springs youngsters sang as the opening feature, which was followed by a colorful "Gay Nineties" program presented by ladies of Roaring Springs. Included in the cast were Mesdames Len Miller, Carl Tardy, Tom Yeates, Herman Havis, J. J. Braselton, Melton Thacker, Ezra Bowen, Duff Green, Ralph Long, Clyde Williams, Frank

Gillispie, Mike Hoyle, Merel Freeman and Mrs. Homer Kingery, accompanist. Mrs. Melton Thacker directed rehearsals and sponsored the group.

Three talented youngsters, children of Mr. and Mrs. Maurice Goodwin of Afton, sang a number of old-time, popular and western songs, accompanied at the piano by their mother. The three youthful singers were: Billy, 10, Martha Sue, 8, and Jane Ann, 6. Afternoon dancing followed by the Roadside Playboys of Lubbock. They played for both night dances at the pavilion and provided free music both afternoons.

The second afternoon program included an Old Fiddlers contest which was won by J. W. Dewbre of Matador (\$10) and second to W. M. Eckles of Roaring Springs (\$5).

An entertaining program of magic by Jim Dalton of Paducah followed. The business session concluded the second afternoon with the exception of dancing. The same group of officers were re-elected, including Douglas Meador as president, Mrs. M. D. Freeman as secretary-treasurer,

and the following directors: Herman Havis, H. Jackson, Demp Clifton, Fred Dawson and Clark Forbis. In a later meeting of the directors Fred Dawson resigned and Lee Marshall was elected to replace him. Mr. and Mrs. B. C. Cox, assisted by Mrs. Freeman and Curtis Martin were renamed as a committee to manage the dance program. At the directors meeting Tutt Garnett was named as vice-president of the rodeo association on the recommendation of president Ward Rattan.

Outstanding feature of the reunion was the rodeo. The

grounds were packed at every performance and rodeo fans declare it one of the best shows of its kind ever produced in this area. Former theory that a large carnival was needed to keep attendance up, was disproved. The largest crowd in the association's history enjoyed the visiting, dancing, programs and rodeo performances. A small carnival provided rides and other amusement for the younger set. The vast crowds were happy and orderly. Sheriff John Stotts reported that only two arrests were made as compared with some former years when the county jail had been filled.

## TRAIL DUST

By DOUGLAS MEADOR

Bewildered clouds climbed a bar of space to the mezzanine gathering storm. They were frightened children entering a vast and unfriendly room; silent, hesitant, yet driven by a commanding urge. Presently they were drawn into a turbulent ferment that consumed all trace of identity, and driven across the horizon with whips of the wind. It is with lives as with clouds, the material always fits destiny's patterns.

Ignorance is no longer humble. The man least able to earn because of his ability rides the heat at a lower tariff.

Too frequently the enduring and in people is discounted far below its actual value. Character does not perish because of a mistake; soil in the crumbling river bank is deposited elsewhere.

Historians are going to have a merry time trying to explain this world's present madness after the dust of a few centuries has settled. We who have parts of the baffling charade don't understand the plot.

Ironic similarity gloves the hands of men remote in purposes. After the first appraisal of danger the brave man is no longer afraid, and after the first ink the wretched drunkard is no longer associated with poverty.

Of course it is too late now but some Washington bureaucrat should have put a fur coat in a deep freeze, and then enlisted in the Foreign Legion.

One old timer who remembers the era before window screens and DDT, says, "No wonder we never noticed the flies much, we smoked most of 'em."

While honesty is still the best policy, it is causing a lot of confusion in Washington.

Time is no longer slender with music in her laughter and a flower in her hair; time is heavy and solid in her girdle, climbing the stairway of days with a profound sympathy for the weariness of my feet.

Loneliness looks from little windows in the silent man's eyes and his face bears old scars of a secret pain and solitude. The hurt has healed as much as it can ever heal; some of a man dies when he loses the woman he loves. Fires he once tended with ashes swept by the winds and the pounding of seas are some out of his life. He sees on bright days and without a word the gesture, like a prisoner looking from his dark cell and seeing sunlight on the peak of a distant mountain.

SPRIT OF THE OLD WEST is reflected in the group of "Gay Nineties" ladies who won first place for the best float in the parade at the Dickens-Motley Counties Old Settlers reunion Thursday morning at Roaring Springs. They rode on a wagon drawn by two white horses, driven by G. W. Yandell, 40-year resident of Roaring Springs. Standing on the wagon are Mrs. Mike Hoyle and Mrs. Clyde Williams, Mrs. Duff Green, a charter member of the Old Settlers Association, who hasn't missed a reunion, shown here wearing her blue wedding gown; Mrs. Ezra Bowen, Mrs. Len Miller, and Mrs. M. S. Thacker. Five members of the "Gay Nineties" were not present when the picture was made. (Photo & engraving courtesy Lubbock Avalanche)

## Matadors Start Training, To Test Mettle With Spur

DESPITE THE HEAT Matador Matadors have started the grind to put a team in condition to face the powerful Spurs on Burleson Field Friday evening, September 7 for the season's opener.

The Matadors started training Monday in effort to get a machine in shape to meet the Class AA Bulldogs spiked by the 190-pound quarterback and passing wizard Charles Grimland who boosted the Spur team to a district title last year.

Coach Hopkins says he hopes to give the Bulldogs a play for their money despite the lack of experience at the command of his freshmen and sophomores. Most of the squad of 25 to 20 players is expected to see action in the opening game. Coach Hopkins sees a bright future for his charges after they have one or two years experience. Matador is now playing Class B football with Turkey, Quitaque, Silverton, Estelline and Lakeview for conference opponents.

A large caravan of Spur fans is expected to attend the opening game for both teams here next week. Matador fans and patrons of the team are urged to attend in support of boys first test under fire.

Not in recent years have businessmen shown such strong support of a football team. Lions athletic committee headed by Jack Norman and Bill Seale has done a commendable service in bringing up support. They have sold \$500 worth of advertising programs and at present they have picked the drive to sell season tickets for the home games. Lions members have been issued four season tickets (at \$3.50 each) and every member of the Lions club is a representative for the sale of season tickets. It is estimated that approximately \$300 worth have been paid for and the goal is 300 tickets. Tickets are on sale at most business places with headquarters at the Matador Implement Company. Every resident is urged to buy a season ticket.

### Town Turns Out In Response To Offer Of Fire Truck Ride

When Fire Chief Freddie Wellington made an offer last week to give free rides on the department's new red truck to kiddies, he little expected that all the children in town would want to ride. They did. Most of them were accompanied by parents and before half a dozen trips on the truck were completed most of the street between the courthouse and the fire station was filled.

The firemen were happy at the response and served free cones of ice cream to their young guests as an added attraction to the evening's entertainment.

Also on the truck a group of young mothers were "taken for a ride." The firemen drove the big truck rapidly through town with siren open and blinker lights flashing. The mothers appeared grateful when their ride was over.

The Matador Volunteer Fire Department staged a water carnival with teams from the organization and entertained a large audience as a concluding feature of the evening.

Change Is Made In Place Of Meeting  
Joint meeting of P.T.A., faculty members, Lions and their ladies, announced for Tuesday evening, September 4th, will be held in the Legion hall instead of high school campus as previously announced.

The buffet supper and program will start at 7:30 sharp. Lion Forrest Campbell, chairman of arrangements, announced Tuesday. He said the change in place was made because of better facilities for the program which will include the initiation of several new Lions members in the joint Ladies Night affair. Lion Campbell said plans were being made to entertain approximately 160 guests.

AFRICAN EXPERT ON FARM SURVEY TRIP  
Brief visit in Matador Monday was T. K. Sansom, Chief Agriculturist of the Agriculture Department of Southern Rhodesia, South Africa.

Mr. Sansom was in Matador during the bus trip intermission enroute to Chillicothe. He had been visiting the Lubbock agriculture station and will go to Florida from Chillicothe, thence to Washington, D. C. He will sail for South Africa on October 6th.

The agriculture expert is studying grain sorghums and cotton in this area. He was greatly impressed with agriculture methods in Western Texas and with the friendliness of the people. He said they greatly resemble the British subjects of South Africa.

Mr. Sansom has recently visited Grand Canyon and Carlsbad Caverns and declared them far beyond his expectations despite pictures and literature of the natural wonders. He arrived in the United States on July 5th and has been making a survey of farming methods since that time.

BUGGIES WERE QUITE THE VOGUE in early days, and many memories of the late W. J. Whitworth were brought to light when the buggy which he drove for so many years, appeared in the Old Settlers parade Thursday. Riding in the buggy were Bill Smallwood, Joe Lancaster and Robert Smallwood. (Lubbock Avalanche staff photo and engraving).

PITCH FORK KID, above, was a typical cowboy. Born a Kansas City waif, "The Kid" came to West Texas in 1884 with a man named Lattimore and Frank Collison. Only 13 years of age at the time he adopted the name of Billy Parks but four years later when he went to Kansas City with a shipment of cattle, he returned with his real name, Billy Pardlow, which he had discovered through some friends.

He worked on the Pitchfork ranch in 1892, gathering Matador ranch cattle. One day Geo. Martin, who was with the wagon, saddled a horse and asked the Kid to "dust him off." The horse fell and Pitchfork Kid was injured permanently. Only 20 years of age at the time, the Kid remained unconscious for 19 days and was never completely normal again.

He made a top hand, however, and in 1897 won first roping money at the Seymour Cowboys Reunion.

He was killed in an accident in New Mexico and is buried in Amarillo. His name still remains on the membership rolls of the Matador Masonic lodge.

**Display At State Fair Will Feature Texas Agriculture**

The Rolling Plains area will have an impressive display of its own as part of the "Storybook of Texas Agriculture" at the 1951 State Fair of Texas, Dallas, October 6-21.

Figures of a farm boy and girl in a ranch-like setting will form the center of the large diorama devoted to the Rolling Plains, Extension District 3 of the Texas A&M System.

Miniature figures and photographs of beef cattle, varieties of grass, grain sorghums, cotton, alfalfa and wheat in a ranch-like setting will tell the story of the area's agriculture. Mesquite control will also be featured.

District 3 includes Briscoe, Donley, Collingsworth, Childress, Motley, Cottle, Hardeman, Foard, Wilbarger, Wichita, King, Knox, Dickens, Baylor, Archer, Kent, Stonewall, Haskell, and Throckmorton counties.

The Storybook of Texas Agriculture is a unique new type of agriculture show developed by the fair and Texas A&M. For the first time, every part of the state is represented in the show, through the 14 Extension Districts of the Texas A&M System.

The display will give fairgoers an opportunity to see under one roof the complete, comprehensive story of the state's production. Products from the Rio Grande Valley to the Panhandle area can be seen side by side, with each area's products shown in their relative importance.

The glamorous, true story of Texas agriculture is told in a series of colorful, animated dioramas, each devoted to an Extension Service district. The dioramas are built like open pages in a giant book and the entire show covers almost an acre in the mammoth Agriculture building.

Central exhibit of the show will be a huge relief map of Texas on a revolving turntable. Major cities and products of each area will be pictured. On the reverse side of the map, a large ledger will list the impressive annual production and income figures that add up to a two-billion-dollar agricultural bonanza for the state.

We can see why pioneers living in the present do not have a hankering for a return to the "Good Old Days". A friend recently remarked that she had cooked with every kind of fuel ever used in this section: dried cowchips, wood, coal, kerosene, butane and electricity.

We grew up of course, during the wood, coal and kerosene eras, but missed the cowchips by virtue of not being a member of a pioneer family, living in West Texas.

Our modest admission that while we did not help settle the country, we did arrive in time to help develop it, has met with so much derision in certain quarters that our ego is stilled and we admit once more that we were born in Arkansas; and the fact that we own more than one pair of shoes can be attributed to a complex developed from going barefoot until we were grown.

Department store clerks AND native-born Texans, we might add, have a way of cowing us.

Fordomatic Drive optional. At extra cost on V-8 models. Excludes accessories and tire subject to change without notice.

Practically drives itself! Fordomatic thinks for you. It smoothly and automatically provides a countless number of drive ratios through which engine power is fed to the rear wheels.

You've boss every second. Step down on the accelerator and you get an extra spurt of power for hill climbing and passing. Going downhill you can shift to low at any speed for extra engine braking.

Easier rocking! It's even easier to "rock" out of sand, snow or mud with Fordomatic than with Conventional drive. Just move the selector back and forth between low and reverse.

It's a gas-saving powerhouse! Fordomatic's automatic intermediate gear provides smooth, fast, economical "getaway" without wasteful engine racing. Uses no more gas than the savingful conventional Ford.

# There Is a Difference in Ginning . . .

EVERY FARMER will tell you there is a difference in ginning. The great difference is the kind of a turn-out and the quality of the sample. The important difference to the grower is the extra profit he receives from each bale he markets.

Many factors enter into the proper ginning of cotton. A good, modern plant and experience contribute most to satisfied customers. Courtesy, fair treatment and sincere appreciation of patronage keep customers coming back season after season.

We are comparatively new to Flomot but we are not new to the ginning business. We have a first class plant and experienced personnel to operate it. We know how to please customers with the kind of service that will bring them back. We solicit a part of your business and extend in advance our gratitude for your friendship and patronage.

## FORMER RESIDENT ESCAPES DEATH IN FALL FROM CLIFF

Mrs. J. C. Meadows, 28, daughter of Mrs. Ruby Cooper of Roaring Springs and former resident, now of Yakima, Washington, was seriously injured and barely escaped with her life in an accident on the Olympic highway, August 12.

Mrs. Meadows was making a picture at a scenic point on the highway when the earth crumbled under her feet and she fell and rolled 500 feet down the rocky slope into the Quilcene river slope. Her sister-in-law, Mrs. C. B. Coan, 50, also of Yakima, fell down the slope when she attempted to aid Mrs. Meadows at the start of her plunge.

Both women were brought to the St. John's hospital in Port Townsend, Washington, following difficult rescue operations. Mrs. Meadows suffered a fractured skull and both women suffered from shock and were badly cut, bruised and scratched according to an article regarding the accident in the Port Townsend Leader, issue of August 14.

Forest rangers, peace officers and men employed by a logging company aided in rescuing the women, the newspaper declared. When the injured women were brought back to the highway they were administered first aid before an ambulance took them to the hospital. An excerpt from the newspaper article is as follows:

"Several hundred feet of rope was lowered into the canyon and a truck equipped with a winch was used to pull a stretcher up to the highway. Two stretcher trips were necessary to bring the Yakima women to the highway and the difficult rescue operations required more than two hours."

Mrs. Cooper, who returned Monday to Roaring Springs, said her daughter was recovering rapidly and had returned to her home in Yakima. Mrs. Cooper was in Washington on vacation at the time the accident occurred.

## RANCH IS...

(continued from page one)

ed deeds for 65,358.4 acres. The former Matador Land and Cattle Company rendered for taxes in Motley county 252,121.6231 acres according to county records, which is slightly less than 40% of the county's 647,040 acres.

Seven other cattle corporations (making a total of 15) have filed deeds on the property here and on the Alamositas branch. All the corporations are chartered in Delaware. Titles to all the motor vehicles owned by the former ranch here have been transferred to the Rodatam Cattle Corporation.

A news article in the Amarillo Globe News says filing of the deeds merely completes the mechanics of the transfer which was completed July 24 when the British owners of the Matador and Alamositas ranches agreed to sell their stock in the 800,000-acre empire for about \$19,000,000.

Individuals controlling the American syndicate have not been identified. At the time of the sale the Amarillo Globe says there was no mention of the ultimate aim of the syndicate. Rumors said the buyers planned to dissolve the company and sell the land. Both ranches are under lease for oil exploration.

## UNITES HELD FOR MRS. TOM ROSS

Death Friday claimed the life of Mrs. Tom Ross, young mother of 22 years of age, who had been waging a losing battle at Tra-week Hospital, the past three weeks. She was brought here from her home at Muleshoe, for treatment of a condition diagnosed as virus pneumonia. Later a kidney block developed which she could not overcome in her weakened state.

Funeral services were held Sunday at 2 p. m. at First Methodist Church, by Rev. L. W. Baker of Whiteflat, assisted by Rev. Marvin Brotherton, local pastor. Interment was in Matador East Mound cemetery under direction of Eudy-Seale Funeral Home. Pallbearers were: Sidney Carver, Jr., Willow, Okla., L. C. Carson, Jr., and Joe Hysinger of Olton; Clifford Martin, Whiteflat; Carlos Leggett of Plainview; James Moss, Roaring Springs.

Mary Jaunice Wilkinson was born at Whiteflat, Texas, July 3, 1929 and died August 24, 1951, age 22 years, 1 month, 16 days. She attended grade school at Whiteflat, and graduated from Matador High school, later attending North Texas State Teachers College at Denton, and Texas Tech, Lubbock. On February 14, 1948 she was married to Tom Ross, Jr., and to this union was born one child, Pamela Jan, who is 3 months old.

Besides her husband and daughter, she is survived by her mother, Mrs. Pearl Wilkinson of Whiteflat, 1 brother and three sisters: Levi and Rita Wilkinson of Whiteflat; Mrs. Bill Schmidt of Spur and Miss Gwendolyn Wilkinson of Lubbock, many other relatives and a host of friends. She was a member of the Methodist Church.

## Bill Fish Breaks Same Arm 4th Time

QUANAH, August 28—A Matador youth is now recuperating in the Memorial Hospital here from an accident which has plagued him during every third year of his 12 years.

During each third year of his life, Bill Fish, son of Mr. and Mrs. I. W. Fish, owners of the Fish Ranch northwest of Matador, has broken his right arm.

When he was three, Bill tumbled out of a wagon and broke his right arm. During his sixth year, he fell off of a porch and broke the arm in a different place. Shortly before his tenth birthday, the boy was standing on a cliff with his father and brother when the ledge gave way and dumped him down the embankment. The right arm was broken in a third place.

Last week Bill accompanied his father to work on some water gaps following a heavy rain. Another rainfall started and Bill leaped upon his horse to race its footing and fell on him to send him back to the hospital for the fourth time. He is suffering a double compound fracture of the right arm.

When he broke his arm the third time, it was two days before school opened and the cast was not removed until shortly after school closed. His last accident has occurred only a few days before the opening of school and doctors said that he would have to wear a cast for at least a year.

Bill is making plans to be mighty careful during his fifteenth year.
