Matador Churches Plan for Christmas

Churches of the community are making announcements regarding observance of the birth of the Saviour at Christmastime.

The annual Christmas Offering for the Methodist Home will have its kick-off date Sunday at the First Methodist Church, according to the pastor, Rev. L. W. Tucker.

"We hope that everyone will give as generously as possible for the 465 boys and girls who must depend upon our gifts for their support," he stated. "The Home, though it often receives gifts at other times of the year, is supported primarily by the Christmas offering made by churches throughout Texas and part of New Mexico."

The annual Christmas program at the Methodist Church will probably follow the usual custom of having a tree, collection of food for the needy and treats for the children. Plans and arrangements are being made by the Commission on Education, and the date for the program will be announced in the near future.

Plans are underway at the First Baptist Church for the annual Christmas program and tree for children, and committees will be at work during the coming weeks, according to Rev. Gene Hawkins, pastor.

Further observance of Christmas by the church will be a special service for December 21, at the regular evening worship hour. Rev. Hawkins also announced.

LIONS PLAN FOR CHRISTMAS FETE

Plans for annual Matador Lions Club's Christmas fete for children was announced Tuesday at the club's regular luncheon by Boss Lion Curtis Graham.

Members were assigned to various places in the annual program which includes distribution of candies, nuts and fruits to children of the community. Further plans will be announced later. Lion Graham said the club had earned enough (\$141.29) from its recent mop and broom sale to finance the Christmas program.

Members enjoyed a program Tuesday presented by students of Mrs. L. D. Wilkerson and Mrs. J. R. Whitworth, with school students cast in the various roles.

Members and guests enjoyed an excellent roast turkey luncheon prepared by ladies of the Methodist Church. The holiday feast was complemented by a dessert of home-made pie.

Guests introduced included Miss Ruth Wilson, Home Demonstration agent; Fred Stanley (who will become a new member); City employees, Odel Meyer and Sonny Jackson; and Bob Turner of Plainview, guest of Lion Forrest Campbell.

Four Boys Qualify For Marksmanship

Four Matador County boys have qualified for additional marksmanship awards in the program carried out during 1958 for 4-H members.

In addition to the twelve members qualifying for awards distributed at the 4-H Achievement Banquet, Morris Degan, Flomot; Tom Edwards, Harry Hamilton and Ed D. Smith Jr. all of Matador were awarded Marksmanship Medals and Certificates Tuesday at the regular Lions Club meeting. Presentation was made by County Agent Bill Palmeyer.

A total of 5 medals and 10 qualification bars can be earned by members who fire qualifying scores in the different positions that members are trained to use. Club enrollment will be reopened in the spring of 1959 for boys and girls who are 12 years of age or older by Jan. 1, 1959, and firing for record to start as soon as the weather permits.

Seed Truck Flips In Ballard Creek

A truck loaded with 37,000 pounds of cottonseed Monday afternoon crashed over a concrete bridge banister and flipped into Hackberry Branch of Ballard Creek near the west Matador city limits.

Driver Cecil Walters and companion Raymond Williams, both of Muleshoe, had parked the truck on the incline at Bob's Oil Well Cafe and gone inside to eat.

Air brakes on the big truck released their hold and it started rolling toward the creek. The driverless truck crossed US Highway 70 and flipped off the bridge on the north side with the engine and cab falling about eight feet. The rear end of the truck, pointed into the air, remained on the highway while a small mountain of cottonseed tumbled into the dry creek sand.

The truck was owned by Clyde Hare of Muleshoe. The load of cottonseed was being trucked to Vernon. Walters said it was the first accident he had ever had in his life.

In a period of 10 to 15 years, many cars and trucks have rolled away from the sloping drive and fallen into the creek.

Malador Besieged By Quail Hunters

Opening Monday of the quail season brought scores of hunters here and caused many local residents to brush the dust off shot guns and purchase fresh ammunition.

Some hunters report that heavy coverage of the past season makes it difficult to find the quail after they are killed. Others report hunting the best in many seasons.

Hunters from as far as Ft. Worth and Dallas were here for the opening day of the season, many as special guests of ranchers and farmers.

Also many homes have relative guests here to enjoy the hunting. Some observers say the number of hunters is the largest on record.

State Game Warden Weldon Fromm has issued a warning to all hunters to obey hunting laws with regard to hours, gun requirements and bag limit, permits, etc. He pointed out that the game laws are designed in fairness to everyone, and to perpetuate the quail stock in such a manner that the number of quail will continue to grow. Violators of game laws are subjected to heavy fines when apprehended.

Testing of animals will be done at the owners' pens, and animals are to be kept up the day of the test. Animals to be vaccinated must be grouped at places where squeeze chutes are available, said Palmeyer.

Owners are urged to remember the deadline, as this is the last test to be conducted in 1958.

Rangers Drop Title to Gail Coyotes, 44-16

One of the finest exhibits in the main football played by the Gail Coyotes defeated the Patton Springs Rangers Friday night at Jayton 44 to 16 to win the Region I title.

Eddie James of Gail was a mature, seasoned, veteran that had not lost a game in two full years of 8 man football and at no time, during the four quarters, did they relinquish their control of the line for enough yardage to secure a 1st down. Doyle hit the line and ran left end for 2 yard thrust for a 1st down on Patton's 33 yard line. On the next play, Gail took to the air to lose the ball to Ronnie Ragland on an interception.

The Rangers worked hard for Blasingame carrying the mail, but bogged down on the next three plays. Ragland punted 25 yards to the Gail 25 yard line. Coyote Walton circled right end for 15 yards. Doyle and Walton each gained 3 yards through the line and Doyle picked up 5 yards on a short pass. Doyle hit the line for 6 yards and Staggs shoved over center for 2 yards. Patton knocked down an attempted pass. Doyle gained 4 yards over the line and secured the position of 1st down and goal to go. Two incomplete passes followed and then Walton rumbled the ball over the goal line for Gail's 4th touchdown. The conversion was nullified with the half ending shortly thereafter and Gail in the lead 28 to 8.

Third Quarter
Patton Springs took the 2nd half kick-off and returned it to their 25 yard line. H. Goodwin rushed the line for 4 yards and received a 15 yard pass to secure a 1st down, only to have it wiped out with a fumble behind the line which was recovered by the Rangers. The Coyotes smothered Patton behind the line and Ragland had to resort to a punt to place the ball on the Gail 9 yard line.

Walton covered 4 yards over the line and Doyle gained enough to count for a 1st down. Doyle cleared 4 yards off right end and then moved the ball to its own 30 yard line. A 5 yard penalty against Patton added up to the 35 yard line. In the next play end Lloyd Ramsey received a 25 yard pass from Quarterback Staggs and raced 20 yards for Gail's 5th score. Steadman converted. Score-36 to 8 in favor of the Coyotes.

Blasingame received the kick-off on his 20 yard line to return it to the 25. He followed with a 2 yard push over center. H. Goodwin was thrown for a loss, a pass fell incomplete, and Ragland was forced to kick. The Coyotes took the ball on their own 27 yard line and moved the ball swiftly downfield in a series of 1st downs. Larry Doyle and Wilson Baker accounted for one 1st down. Harold Steadman and Jerry Staggs covered the ground for two more 1st downs and the ball rested on the Ranger 17 yard line. Gail fumbled but recovered as the 3rd quarter ended.

Fourth Quarter
In the shadow of the goal, Gail moved quickly to score, as the 4th quarter opened. Staggs rushed the ball to the 5 yard line where he lost the ball on a fumble. The ball bounced into the air and fell over the goal line where it was covered by a Coyote for the 6th and final touch-

Second Quarter
Jerry Staggs kicked bounds on Patton's 12 yard line. H. Goodwin pushed 13 yards. Blasingame added 10, and Goodwin was stopped in his tracks on the 3rd. Ragland got off a 30 yard pass that eased the pressure, gave Gail the ball in mid-air and Walton rushed the

down for Gail. Doyle cleared the right end for the conversion. Coyote Staggs kicked off to H. Goodwin who took the ball on his 15 yard line and raced 35 yards, past the mid-stripe. He gained 5 yards over the line in the next play while Ronnie Mullins picked up 6 yards around right end. A 15 yard personal foul penalty was assessed against the Rangers which resulted in a touch-back and Gail was given the ball on the 15 yard line.

Steadman pushed over right guard for 5 yards and Baker added 2 yards through center to follow up with enough for a 1st down. Gail fumbled on the next play and Ranger Ronnie Mullins recovered the ball.

Choose a small Christmas tree and keep it outdoors until ready to use. While the tree is outdoors occasionally throw water over its branches to keep it fresh. When the tree is kept inside cut the base slantwise to open the pores, then stand in a pail of water.

Be cautious of some substances for "fireproofing" trees. If in doubt call the Fire Chief. Place the tree away from "hot spots" such as stove, fireplace, television set or radiator.

Never use untreated paper ornaments or untreated cotton. Cotton and other cotton materials can be made fire-resistant by dipping in a gallon of water mixed with nine ounces of borax and four ounces of boric acid.

Never use candles. Use only electric lights. Be sure the wires are good as frayed electric cords are a fire hazard. Never use an outlet or plug under the tree. Keep plenty of ash trays handy during the holiday season.

No Window Candles
Never use candles in windows. Keep curtains and other flammable materials pulled back at least six inches from light bulbs. Use glass or metal decoration and "fireproof" snow on the Christmas tree.

Fire Chief Warns Of Extra Hazards At Christmastime

Fire can easily turn a happy Christmas into one of mourning and sadness if the home is not properly safeguarded. Fire occurs from many hazards so common in the home during the Christmas season.

Fire Chief Freddie Welling and members of his department want this Christmas to be one of extreme happiness to everyone and cite the following warnings to keep the raging monster of fire out of Matador homes:

Choose a small Christmas tree and keep it outdoors until ready to use. While the tree is outdoors occasionally throw water over its branches to keep it fresh. When the tree is kept inside cut the base slantwise to open the pores, then stand in a pail of water.

Be cautious of some substances for "fireproofing" trees. If in doubt call the Fire Chief. Place the tree away from "hot spots" such as stove, fireplace, television set or radiator.

MERCURY SOLVED THE PROBLEMS MANY '59 CARS FORGOT

SOLVED: JACKKNIFE RIDE FOR "MAN IN THE MIDDLE"
The hump in the floor has been whittled way down in the new Mercury to provide more foot room.

SOLVED: LOOK-ALIKE STYLING. Mercury is the only car in its field that doesn't share its styling with any other car...doesn't use a dressed-up body of a lower priced car.

SOLVED: POOR GAS MILEAGE. All of Mercury's new Marauder engines (up to 345 hp) are amazingly efficient. And for top mileage and savings, Mercury offers a brand-new Monterey series that uses regular gas, not premium.

SOLVED: WHACKING YOUR KNEES GETTING IN OR OUT. Mercury's front doors are wider than those in the costliest cars. And the windshield post has been moved forward, out of the way.

SOLVED: TENSION WHEN PASSING. New Marauder engines react with split-second precision. You enjoy the difference between merely "enough power" and real peace of mind.

Brandenburg Gate is Portal Between Freedom and Iron Curtain Suppression

Hon. Walter Rogers, member of Congress, said the Brandenburg Gate has been the City of Berlin for 100 years, both in structure and in history. Erected in the early part of the 19th century, it was removed by the Prussian-French army in 1813 and taken to Paris. It was returned to Berlin in 1917. It is adorned by a quadriga drawn by four horses given by the Goddess of Liberty.

Brandenburg Gate today is readily recognized as the principal dividing line between the two sectors of occupation—the German Democratic Republic, or the Soviet Republic, and the Federal Republic of Germany, which is the Western Zone. Life is different on each side of the gate.

Address to the German people in Berlin, October 1945, Federal Minister for All-German Affairs described the conditions which prevail in the Western Zone.

In 1945, more than 11.5 million Germans from eastern and western provinces have entered the Western Zone as victims of Soviet Communism. They represent some 23 percent of the population of the Federal German government. Of these, about three million fled from the Soviet Zone, and in recent years they have numbered almost a thousand weekly.

HD Council Has Regular Meeting

(Delayed)

Motley County Home Demonstration Council met Saturday, Nov. 15 at 2:30 p. m. with Mrs. Bob Martin, president, in charge. Four of the county's five clubs were represented and made reports of their past month's activities.

It was decided to have the Council Christmas party on Dec. 12, in the home of Mrs. Martin, with husbands as guests. Plans include a turkey dinner and exchange of gifts.

Miss Ruth Wilson, County Home Demonstration agent, introduced Mrs. Clifford Killingsworth of Paducah, 4-H Club leader in Cottle County, who gave a talk on the recreation camp held at Glen Lake Camp, Glen Rose, Texas each year. She showed colored pictures she had made at this camp. She urged the women of this county to take advantage of this opportunity for training in recreation.

Others present were Mesdames L. B. Turner and Joe Deagan from Flomot, Scott Robbins from Whiteflat, J. H. Harland and Alfred Dye from Roaring Springs, and Fred Simpson and Sterling Price from Matador.

Next meeting of the Council will be the third Saturday in January.

Under the future of these remaining in the East—some in light of these facts: January 1, 1958 to August 1, 1958, 813 medical doctors, 1,000 dentists—some with 250 during the period last year—and 115 dentists—as compared with 1957—fled from central and western parts of the Federal Republic, leaving numerous communities and hospitals temporarily without medical assistance. Early this year, more than 50 professors, instructors and assistants engaged in scientific research and teaching have fled to the Soviet Zone.

They all emphasized their dissatisfaction was not occasioned by political strain and that they were well. The prime reason for their defection was the "socialistic transformation" of the universities and colleges which has been energetically pursued in 1958.

The socialization demands of the professors, instructors and assistants an unequivocal and belief of materialism many cannot make believe they would be a part of Atheism.

A remarkable is the in-flight of teachers. They can also be blamed on individual political and psychological pressure. In August, 1958, 619 teachers applied for agency admission to the Western Zone. 412 of them received their education after the beginning of this year. More than 2,300 teachers fled from the Soviet Zone.

It is generally known in the Soviet Zone that additional classes of several semesters of such teachers in the Western Zone, and since the teachers have been employed for some time and married, it becomes even more apparent how distressing the conflict is which causes

Social Security Worker Scheduled

John G. Hutton, manager of the social security office in Lubbock, said today that a farm landlord may have his net earnings from crop production credited to his social security account. Hutton pointed out that a farm landlord who materially participates by agreement with his tenant in the production or management of production of products raised must file tax returns and report his net earnings in order to get social security credit.

Hutton emphasized that income from this activity after retirement can affect the farmers right to receive benefit payments for some or all months of the year.

The Lubbock social security office has information available concerning benefits under the program to self-employed farmers.

A representative of the Lubbock Social Security Office will be in Matador on Dec. 9, at 9:30 a. m. at the First State Bank and will be glad to assist in all matters pertaining to Social Security.

VI. Take not thy gun by the muzzle to draw it toward thee. Verily, some foolish human may love thee, and why shouldst thou die?

VII. Look not into the muzzle of thy gun whether it be loaded or empty. An empty gun shooteth out an inquiring eye, and the undertaker groweth rich thereby.

VIII. Thou shalt not carry thy gun cocked. Thou art a mighty hunter, but the hides of thy friends will not turn shot.

IX. Climb not fences with thy gun in thy hands. Put thy gun through first with the muzzle pointed away from thee and all living things. Better to miss a chance at one crow than to return to thy house with guilt in thy heart and thy friend's hind leg in a basket.

Bayou Pecan & Rice Dessert

The cook in the Deep South has used the home-grown products, pecans, rice and syrup to make a dessert so wonderful you'll never forget it!

1 1/2 cups water
1 1/2 cups salt
3 eggs, beaten
1 1/2 cups dark corn syrup
1 cup granulated sugar
3 teaspoons vanilla
3 tablespoons melted butter
1/2 cup milk
1 1/2 cups coarsely chopped pecans

INGREDIENTS:

2/3 cup uncooked rice
1 1/2 cups water
1 1/2 cups salt
3 eggs, beaten
1 1/2 cups dark corn syrup
1 cup granulated sugar
3 teaspoons vanilla
3 tablespoons melted butter
1/2 cup milk
1 1/2 cups coarsely chopped pecans

METHOD: Put the rice, water and salt in a 2-quart saucepan. Bring to a vigorous boil. Turn the heat down low. Cover with a lid. Simmer over this low heat 14 minutes. Remove the saucepan from the heat but leave the lid on 10 minutes.

While the rice cooks, mix together the eggs, dark syrup, sugar, vanilla and butter. After the rice cooks, stir in the milk. Cover and cook over low heat until the milk is absorbed. Stir occasionally. Press the rice over the bottom of a glass pie plate or shallow baking dish holding about 6 cups.

Just before baking, pour the egg-syrup mixture over the rice. Sprinkle with the pecans. Push the pecans into the syrup mixture.

Bake uncovered, in a pre-heated 350° F. oven 40 minutes. Serve warm. Top with vanilla ice cream or whipped cream, if desired.

This recipe makes 8 generous servings.

sauce over layered mixture. Mix crumbs and parsley. Sprinkle over top of casserole. Bake in moderate oven (350 degrees) for 25 minutes. Makes 4 servings.

It's wise to buy a turkey large enough to provide meat for several meals. Serve it first as a roast. Later serve some of the sliced meats in sandwiches for snacks or lunchboxes. Not only does this save time but it is economical also.

About Your Health

A weekly public service feature from the Texas State Department of Health.
Henry A. Holle, M. D., Commissioner

"An ounce of prevention is worth a pound of cure," goes an old truism. This is especially true in health matters.

In most medical diseases there are warning signals, often recognizable by the untrained eye, which give ample time to consult your physician for treatment. And thus avoid spending costly time in a hospital.

The same applies to mental illness, with the difference being the inability of the untrained person to recognize the signs of an approaching mental disorder.

We are all blessed with varying amounts of the wisdom of hindsight, but a recently published research project of the Division of Mental Health, Texas Department of Health suggests ways to put this hindsight to work.

How many mental patients were previously known to local community health and welfare agencies? Have certain types of agencies been in touch with certain kinds of patients before they are admitted to the State Hospital? How many of their

families have had these previous contacts?

These and related questions about 148 residents of Travis County admitted to the Austin State Hospital during a single year, were answered by the Study.

The study concerned patients who were admitted for care for the first time.

Dr. Wallace Mandell, research consultant directed the study, assisted by Isabell Cromack.

By checking the record of 11 agencies ranging from the City-County Hospital to the Salvation Army, they found that 46 percent of the newly hospitalized patient had direct or indirect contact (through their families) with one or more of the agencies.

In addition several other facts were discovered opening new vistas of study in mental illness prevention. For instance, it was found that half of the 148 first admissions to the State Hospital had eight years of schooling or less. However, only one-fifth of all Travis County residents had eight years or less of formal schooling.

What does all this and other new-found facts mean?

According to Charles Mitchell, director of the Division of Mental Health, "It points out a need for available trained personnel in key points where they can help health and welfare workers recognize persons with borderline nervous disorders in time to keep them out of hospitals."

FROM SAN ANTONIO

Rev. and Mrs. Murray Johnston and children, Albert and Alice Mae, of San Antonio, spent Thanksgiving here with her father, Homer Sheats, and joining them for the visit was Mrs. Johnston's sister, Mrs. Alma Hoyt of Arlington and her

daughter and husband, Mr. Mrs. John Sheets of Denton. The Johnston were accompanied Saturday on their return to San Antonio, by Mr. Sheats, will remain with them for indefinite visit.

Mrs. Jack Crider and children, Donna, Dale and David of Osa, were accompanied Thursday by a niece, Miss Fulkerson of Lubbock, for a day visit in the home of Crider's sister and husband, and Mrs. Douglas Meador, with their mother, Mrs. A. Tipton.

Test Operations Set For King, Motley County Sites

Semi-wildcat operations were scheduled last week for King and Motley counties.

In northeastern King, about 17 miles northeast of Guthrie townsite, Pan American Petroleum Corp. operating from Abilene will drill an offset to discovery and lone producer in the Juniper-Penn (gas) pool.

New operation, designated the No. 16 R. B. Masterson, will go down 2,100 feet from north and 2,180 feet from east lines of Section 41, AB&M survey. Depth objective of 6,000 feet will test upper Pennsylvanian. Same operator opened the pool several months ago with its No. 14A Masterson. It was completed as a shut-in gas well.

To the northwest in Motley County P-M Drilling Co. and McGehee Prod. Co., both of Wichita Falls, will seek Permian Pennsylvanian production about mid-way between the Roaring Springs and Roaring Springs, West fields.

Located in the southern sector of the county some four and one-half miles east-southeast of Roaring Springs townsite, the effort is to be drilled as the number one well on the Phipps lease. Drillsite is 1,980 feet from west and 660 feet from north lines of Section 11, Block 04, WTRR survey. Rotary depth objective is 4,600 feet.
