Farmers Testing Guar's Value As Soil-Builder

Soil-building value of guar is being tested by Motley county farmers for the third consecutive year, according to James Priddy, work unit conservationist. He said farmer cooperators in the Upper Pease Soil Conservation District have planted approximately 200 acres of guar in the areas of Roaring Springs, Matador and Flomot.

He said most farmers felt that during the two past seasons, guar had little opportunity to show its worth. He said, however, that several farmers had noticed evidence of soil improvement in sandy areas.

Ben Hughes of the Folley community reported the harvest of 400 pounds of guar per acre on very sandy land, and he said he had not been able to harvest the seed near the bottom of the plant. Hughes said he had planted in the same field did not produce enough to harvest.

Among the farmers planting guar this season are W. H. Marshall and J. K. Campbell, Roaring Springs; Keith Patton, Mata-

dor; Wade and Herbert Martin, Ben Hughes, Furman Vinson, Richard Nall, W. L. Nall and Harmon Moseley of Flomot.

Blue Panic Harvest

Mr. Priddy said harvest is at hand for Blue Panic grass seed. He said approximately 240 acres are scheduled for harvest, including acreage produced by L. C. Harp, Ben Edwards, James Taylor, C. T. Jenkins, Mr. Jenkins will harvest from seed planted this year.

Dead Cover Advised

Sandy land which is to be planted in grass should have a dead cover, Mr. Priddy declared. Sorghums or millet should be drilled immediately.

"Dead cover for the planting of grass seed is as essential as the grass seed," he declared.

Two Whiteflat farmers, Joe Smith and C. H. Murphy have planted sorghums for dead cover. They will plant love or switch grass on the land next spring.

Texas State Fair Agriculture Show Has Circus Motif

The new Agriculture Show of the 1955 State Fair of Texas, October 7-23, will show how the consumer benefits through agricultural research to improve Texas crops.

"Your Stake in Agricultural Research" will be the theme of the show, which is presented by the State Fair in cooperation with the Texas A&M System. Circus-style decorations will carry out the motif of "The Greatest Show From Earth" under the "Agricultural Big Top."

Central features of the show will include a merry-go-round displaying the amount of different Texas agricultural products used by the average family in a year, and a "know what you're buying" demonstration on selection and preparation of foods. Outstanding 4-H teams from all over the State will put on demonstrations in the 4-H Club exhibit.

A "Menagerie" exhibit will offer a peek into the future of Texas agriculture, showing nine new and coming crops which have recently been produced or which are now being developed by research. Such unfamiliar crops as sesame, red grapefruit, hybrid onions, Southern peas

and coastal Bermuda grass will be displayed.

Individual exhibits will be devoted to grain sorghum, cotton, progeny testing of beef cattle, sheep and wool, poultry, insect control, disease control, farm mechanization, soil building, dairy management and forestry.

All of the exhibits will carry out the gay circus motif. For example, a fat cigar-smoking rooster will be the "barker" in the poultry exhibit, where cage-layers will be an attraction. A big elephant pulling a circus wagon will demonstrate that "it takes power to do the job" in the display on advances in mechanization. A magician with a wand will point out the magic of legumes in the soil building exhibit.

The Agriculture Show also will include exhibits of the Texas A&M System, Texas Technological College, Future Farmers and Future Homemakers. A king-size map of Texas will show the different types of soil common to the various sections of the state.

THE GREAT PLAINS LIFE INSURANCE COMPANY

HOME OFFICE — LUBBOCK

Is planning the establishment of a branch office in Matador to better serve our many policyowners and stockholders in this vicinity.

We are interested in interviewing men who might want to enter the life insurance business on a full time basis.

Men, who are between thirty and fifty years of age, who have been residents of the county at least three years, and of unquestionable moral character, only need apply for interview.

The Great Plains Life Insurance Company has one of the best training programs in existence and one that is continuous. Our financing plan for establishing men as career life underwriters is new but has already proved successful in practice.

Drop us a line requesting an interview that might be the opportunity of your lifetime.

From where I sit... by Joe Marsh

Modern Science Finally Catches Up With Grandpa

I got put in my place the other night. Deserved it too. My father-in-law said we were due for bad weather. "Birds are flying low," he reported. "That means a storm."

I started to joke with the old gentleman about being superstitious. Then my nephew Jim, on vacation from college, pipes up "Granddad's right," he says.

"At least, that's what they say at school," Jim goes on. "The heavy air you get before a storm forces insects down low—so high-flying birds have to swoop along the ground if they want to eat."

From where I sit, there's probably sound reasoning back of most old sayings... back of anything people have learned to believe in. Take the idea of a stitch in time saving nine—sparing rods and spoiling children—of drinking hot milk, or a refreshing glass of beer, at bedtime. You may not hold with any of these beliefs yourself... but it's not smart to give them the "bird."

Afton Community Joins Pioneer Couple In Celebrating 51st Wedding Anniversary

More than 100 friends and relatives gathered Sunday at the J. F. Young home about four miles south of Afton post office to honor the community pioneers in celebrating their 51st wedding anniversary.

Miss Rosy McCarty and John F. Young were married by lamp-light in the J. J. McCarty home, July 26, 1894, in what is now the Afton-Patton Springs community at the residence of the bride's parents, Elder Minor Wilson performed the ceremony. The bride was 17 and the groom 22.

Immediately after their marriage the young couple went to Oklahoma where they lived for a year and then they returned to the community where they were married. Mr. Young bought 232 acres of land from his father-in-law and built a dug-out home. They have lived continuously for half a century on the land and the comfortable Young farm home is only a short distance from where they were married.

Two of their four children are living. They are N. H. Young

who farms his father's land and Mrs. Mattie Speights of Dell City, Texas. The couple has 12 grandchildren and 6 great-grandchildren.

Mr. Young was born in Young county east of Graham, November 29, 1882. He moved with his family to Cottle county in 1899 and they arrived the day the county was being organized. Mrs. Young was born in Earth county and came to the Afton area with her parents when she was 13 years of age.

Mr. Young was a cowboy for a period before his marriage. He has served on school boards and rendered other community services during the half-century he has lived in the area. The couple's friends and neighbors brought gifts and their well-wishes throughout the day as testimony of the esteem which the community holds for the pioneers. Among the friends visiting the Young home Sunday was Mrs. Rosie Stark who lives in the area. She attended the wedding more than 50 years ago.

Flomot Club Plans Community Night

Plans for a "community night" were launched by Flomot Home Demonstration club in regular meeting, July 19, in the school gym, and date for the affair was set for August 19.

The club finished two quilts at the meeting last week, making a total of five quilts which have been completed for women in the community.

Present at the meeting were thirteen members, being Mesdames Harrison George, L. B. Isbell, Otis Calvert, Rob Martin, Malcolm Turner, Austin Tanner, Mack Trulock, Henry Gilbert, Jack Landry, Everett Shorter, George Pope, Alfred Martin and James Monk, and three visitors: Mrs. Mattie Gilbert, Bettye Ferguson and Miss Nova Dell Martin.

Everyone is invited to attend the community night entertainment which will be held in the gym building.

Informal Party Honors Visitor

An informal "get-together" of friends Sunday afternoon at the home of Mrs. W. W. Clements, was a courtesy for her daughter, Mrs. Ralph Horton of Carlsbad, N. M. Mrs. Douglas Meador assisted as co-hostess.

The affair was planned jointly for Mrs. Horton and Mrs. Meador's sister, Mrs. Jack Crider of Odessa, Texas. However, due to a change in plans, the latter's visit to Matador was postponed. Punch, cookies, mints and nuts were served the "gabfest" guests from 4 until 6 o'clock. The dining table was attractively appointed with crystal punch service and Cambridge Arm ensemble which held the mints and nuts and a vase containing a pastel floral arrangement. Assisting with hospitalities were Mrs. R. E. Donovan and Mrs. Bernice Knight, who alternated in pouring.

Mr. and Mrs. Horton and their children, Linda and Richard, were accompanied on their return home Monday, by Mrs. Clements, who will be their guest for about two weeks.

Mr. and Mrs. Henry Ford returned Sunday night from Los Angeles, Calif., where they spent their vacation.

BY MRS. J. M.

We don't think the following is syndicated. We hope it isn't because we want to pass it on to our readers. It is from Ruth Millett's "The Feminine Viewpoint":

What a world of difference a few years of marriage sometimes make.

Before marriage he was the "strong silent type." After marriage he "shuts up like a clam" whenever she tries to talk to him.

Before marriage he was "masterful." After marriage he is as "stubborn as a mule."

Before marriage he was a "sportsman." After marriage "he's out fishing when he should be at home mowing the lawn or helping take care of the kids."

Before marriage he was the "life of the party." After marriage "he has to be the center of attention or he isn't happy."

Before marriage he was "ambitious." After marriage "all he thinks about is that old office."

HE'S AS . . .

Before marriage "he had money in the bank." After marriage he is as "tight as the bark on a tree."

Before marriage he "liked to be alone with her." After marriage "he never takes her anywhere."

Before marriage he was "self-assured." After marriage "he won't take a word of criticism."

Before marriage he was "the kind of man you can lean on." After marriage "he doesn't think a woman ought to have a mind of her own."

Before marriage he was "easy-going." After marriage "he doesn't have any ambition."

Before marriage he was "the only man in the world." After marriage he is just one of the many men she might have married, and she isn't at all sure she couldn't have done a whole lot better.

A starched square of domestic cut with pinkish shears, contained the birth announcement of the newcomer at the Skeet Jameson home last month. Typed on the unique announcement was the following message: "I'm a new little farmer; I just arrived this June 16, 1955. We're happy, yes siree! New Tenant: Clifford Lance; weight 7 lbs. 14 ozs., Landlords: Mr. and Mrs. Skeet Jameson."

"We don't know of a nicer young couple this little tenant could have drawn for landlords!"

The Cliffhouse Restaurant, facing Mackenzie State Park, Lubbock, is a good place to eat, if you have business in that growing metropolis. The food and service are excellent, and it is conveniently located on the outskirts of the city, especially if you enter Lubbock from this direction. If you are entering from the other direction, via the airport, Walden's Restaurant is our choice.

Bob and Jean Johnson are managers of the Cliffhouse, which, incidentally, is located on grounds of Parkview Lodge, and that enterprise is owned and operated by a former Motley County girl and her husband. They are Mr. and Mrs. C. L. Vaughn. Mrs. Vaughn is the former Amy Seigler, daughter of Mrs. G. W. Seigler, and the late Mr. Seigler, who were pioneers of the county.

Receive Friends In Morning Party

Friends were received in a morning party, Tuesday at the home of Mrs. Bill McCaghren and Mrs. H. S. Watson, as a courtesy for their sister and daughter, Mrs. Jack Edwards, a visitor from Amarillo, and former resident of Matador.

Bottled drinks and coffee were served with crackers, potato chips and other tidbits arranged on a lazy Susan.

A variety of garden flowers decorated the house in attractive arrangements.

VISITING PARENTS

Mr. and Mrs. Eddie J. Leary, Odessa were visitors last week with her parents, Mr. and Mrs. Curtis Graham, here, and at Northfield with his parents, Mr. and Mrs. Marvin Leary. They arrived Sunday from Las Vegas, Nevada, where they spent a week of their vacation.

Visiting here from Baytown last week in the home of Dr. and Mrs. A. C. Trawick, Sr. were a daughter and family, Mr. and Mrs. Ralph Dockendorf and daughter, Martha. They left Friday to continue their vacation trip in New Mexico.

FORMER RESIDENT VISITS

Joe Williams of Palmdale, Calif., visited in the homes of Mrs. W. M. Graham and Mr. and Mrs. Curtis Graham, recently. Mr. Williams is a former resident of the county.

Government To Pay Share Of Planting Soil-Saving Crops

A share of the cost of planting soil-saving cover crops will be paid by the federal government, according to James H. Priddy, ASC Unit Conservationist. The county committee has announced the summer and fall program for seeding grain sorghums, sweet sorghum, sudan, millet, barley, oats or rye, as cover to control wind erosion.

The federal share of the seeding is as follows: Sorghums, normal rows \$1.20 acres, 20" rows \$1.90 acres and drilled as broadcast \$1.90 acre.

Millet, drilled \$1.75 acre small grains, drilled \$2 acre.

Very limited grazing is permitted. Land-owners interested in the program may inquire at the ASC office.

"This appears to be a practical cover crop program," Mr. Priddy declared, "since it provides for late summer crops that do well on sandy land, offering protection from wind erosion and also providing dead cover for the planting of love and native grasses next spring."

He said it also offered an opportunity to cover acres left unplanted as the result of overplanted cotton. Mr. Priddy said those interested in planting rye or other small grains should inquire about the availability of seed.

The county ASC committee includes Delmont Hays, Ben Edwards and Loyd Stafford. Tommie Moore is administrative officer.

Health Department Advises Pre-School Physical Check-up

AUSTIN—Parents, has your child had a physical examination this summer? In just a little more than a month he will be starting school, and if he is in good health he will have a happier, more profitable year. It's up to YOU to give HIM a healthful send-off, says Dr. Henry A. Holle, Commissioner of Health.

After he has his check-up by the family doctor, be sure to take him to the family dentist.

Teeth are mighty important, and decayed ones often cause a heap of trouble. They may start infection in other parts of the body. Strong, healthy teeth add attractiveness to appearance and personality. Help your child to grow up with good teeth . . . see that he has a dental examination twice a year.

Sometimes children need glasses and their parents don't realize it. An examination by an eye specialist is important. A child who needs glasses, if taken to an eye physician now, will have time to get used to them before school starts.

When children are grouped together in a classroom, they expose each other to communicable diseases. Has your child been immunized against diphtheria and smallpox? Does he know he should use only his own drinking glass? Does he know he should avoid boys and girls who are victims of colds? Do you keep your child at home when he shows signs of a cold?

Plenty of exercise and recreation, the right kinds of foods daily, and 12 hours of sleep a night, are necessary for a child of elementary school age.

Get your child an appointment for a check-up today . . . the first day of school is not far away!

Soldiers break their step when crossing a bridge because of the swing of their bodies and the impact of their feet in rhythm would cause the bridge to swing and eventually to break.

It is wise to keep on good terms with your stomach, your conscience and your wife.
