PRICE SEVEN CENTS

TRAIL DUST

By DOUGLAS MEADOR
If we pull the blanket of self-righteousness too far up over our heads, it is possible to shut out the entire vista of religion which begins with humility.

★ **Idleness is a form of decay** that slowly destroys the roots which nourish the vine of ambition. It can become a plague to smite an individual, a community or a nation.

★ Only the extremely agile can step from the speeding chariot of time without disaster, but to attempt to get back on is so ridiculous that it becomes tragic.

★ It seems never to occur to some people that if they are poor company to themselves, they must in turn be boring to others.

★ The night hides many a cloud that might otherwise bring a shadow to our lives, as silence conceals many secrets that have the potency of heartache.

★ Those who dance to the flutes of youth will curtsy to responsibility, astute and watchful from the podium of tomorrow, or become excluded from the society of destiny.

★ It is usually easier to keep your head when the issue is another's problem.

★ Unless a man seeks your council, he seldom needs it and more seldom will use it.

★ A scientist has announced that a new source of power may be obtained from noise. In event the discovery is practical, the Russians are in for a thaw in the cold war. We can take a few popular bands, some seasoned politicians and toss in a couple of singers, and have a permanent corner on power.

Mrs. Ted Elliott, president of the P.T. A. has appointed all committees, and arrangements are underway for the program, menu and decorations. Another outstanding banquet is in the making.

As in previous years, the entertainment will be all home-talent, with girls and their mothers participating. The banquet hall will be transformed into a land of make-believe by a corps of talented women, who yearly lend their decorative abilities to this end. Last year the decor featured a realistic marinescape as a background for the under-seas program theme.

Cultural Arts Program
The program given Wednesday for the Parent-Teacher Association was on "Family Ventures in Cultural Arts," and was presented by Mrs. Elbert Reeves. Entertainment was by students of the 7th and 8th grades.

Hostesses for refreshments following the program were Mesdames Dan Tison, Claude Matney, Stuart Dixon and Alfred Cooper.

Survey Included in Mothers Fund Drive

FACTS and funds are going to be collected Tuesday evening, Jan. 26, by the Mothers March of Dimes, according to Mrs. Freeman Thacker, chairman.

In addition to collecting contributions, the mothers will present each household with a copy of "Door Count," a concise fact-finding folder. In the folder the family may indicate if any of its members has a birth defect, arthritis or polio, and how many have had three or more Salk vaccine shots.

Each family record will be confidential, Mrs. Thacker said. "We hope the Mothers March door count will focus family and community attention on the majority of Americans still without Salk shot protection against polio," Mrs. Thacker explained.

"We have found that neighbor calling on neighbor is one of the best ways to remind the unvaccinated to start their Salk shots."

In past years the Mothers March of Dimes at twilight has been one of the most substantial factors in raising Matador's quota. Mrs. Thacker has not announced the names of workers who will go from door to door in collecting the contributions. It is probable they will be named next week.

Purpose of Survey
Mrs. Thacker said the house-to-house poll is in no way planned as a statistically valid survey. "The sum of information taken in the door count will help provide a working estimate," she said, "in our country of the number of persons suffering from arthritis; the number born with birth defects and the number who have been victims of polio."

CAMPUS CUES

By Carolyn Pohl

After the big snow the scenes around MHS changed. Students were seen with white all over them. They spent most of their noon hours outside. Mr. Johnson suggested that students not stand in front of the doors with the glass panes, because most of the students would forget about the glass until they had broken a window. No damage was done except maybe a few colds were caught and people wore wet clothing.

Our dear old building seemed to suffer from the snow, too. It sprung a few leaks when the snow began to melt, but now most of the leaks are fixed and everything is back to normal again.

Looking Yourself Over In New Year

The new year is as good a time as any for us to take stock of ourselves as individuals. It is a good time to check on the progress we are making in personality and character development. Each of us may well ask ourselves:

"Am I the type of person I'd like to be a good friend? Day by day, do my words and actions resemble those of people whom I respect and admire, or are they like those of persons I dislike and consider undesirable?"

Many of us can be very critical of our associates when we feel that they have or said something to our discredit or discomfort. We are quick to see faults in others, particularly if we are hurt by them.

When we are victims, all of us look unfavorably upon acts of dishonesty, disloyalty, unreliability, and thoughtlessness. Nor do we like gossips or troublemakers.

Unfortunately, it is more difficult for most of us to see any undesirable traits which we ourselves may possess. When we hurt someone else, or fail to be dependable or thoughtful or critical of ourselves as we are of our friends or acquaintances with the same faults.

If what has been said does not apply to you, forget it. If it does, you might profit by giving the matter a little thought. For instance, every time a friend of yours does something you don't like, think back as to whether you may have done the same thing to somebody else.

Try to be as critical in appraising yourself as you are in sizing up your associates. Try to see yourself as others do. (Written by Clay Coss, from Weekly News Review.)

HAL HINES

Hal Hines, son of Mr. and Mrs. Howe Hines of Dougherty, a former student in the Matador schools, is president of the Floydada High School Student Council, which is declared the No. 1 organization of the school. Hal has held many high honors during his four years in high school. He has been a member of the S C four years, during which he has held the office of vice-president. He has also held offices in FFA and served as president of this organization for the past two years. He has been voted class favorite, Most Courteous twice, Citizen of the Month, and Citizen of the Semester. He is also a three-year letterman in football. (Engraving courtesy Floyd County Historian.)

STUDENTS ENJOY HOLIDAY PARTIES

On December 23, MHS students were given a party at the VFW hall by Clem Edwards, Ed D. Smith, and Harry Hamilton.

The students were again entertained on Christmas night at the VFW by a dance given by Carol Campbell, Kay Rattan, Cheri Barton, and Sandra Stevens.

The Matador and Paducah Hep Cats, Pat Seigler, Mike Groves, Gerald Pipkin, Frank Frawcek, Jerry Floyd, Ronnie Richards, and Jack Long, added much to the enjoyment of the holidays on December 26, by playing for a dance for the students.

Miss Donna Williams was hostess at a New Year's Eve luncheon given in her home Thursday, December 31.

Those attending included Carolyn Pohl, Katy Rattan, Janie Waybourn, Cheri Barton, and Melanie Brown.

MHS students wish to express their thanks to the people who sponsored the parties and to the VFW Auxiliary for the use of the building.

JUNIOR NEWS

by Ida Fair

The junior class is happy to welcome a new member. He is Gary Lapham who came to MHS from Northwest High in Austin. Gary is six feet tall, weighs 140 pounds, has blue-grey eyes, and brown hair. He likes hunting, fishing, dancing, and working on cars. Gary enjoys football, and his favorite subject is English. He was a snare drummer four years in the Hanley High Band, Fort Worth. Gary can add his singing ability to MHS's talents.

Having survived the holidays, you may have done the same thing to somebody else.

Try to be as critical in appraising yourself as you are in sizing up your associates. Try to see yourself as others do. (Written by Clay Coss, from Weekly News Review.)

POLITICAL ANNOUNCEMENTS

The Tribune has been authorized to present the names of the following candidates for office, subject to the action of the Democratic Primary Election, Primary, May 7, 1960.

- For County Commissioner, Precinct 3: Boone Simpson (re-election), Allan Thomas
- For County Commissioner, Precinct 1: Clyde Gilbert (re-election)
- For Sheriff, Tax Assessor and Collector: Jinks Wilson (re-election)

there seems to be an extraordinary abundance of buoyancy and energy among the class members. Could this have anything to do with the snow? If you find the girls' hair a little straight, and everyone's clothes slightly soaked, look to the snow-ball scene for explanation.

With semester tests behind us, our worries seem small. That is until we start thinking of term themes, of course. But with our usual optimism we face the future with high hopes, happy hearts, and scowling faces.

MRS. ELLIS COX

Miss Anne Lee Is New Year's Bride Of Ellis Cox In Ceremony At Brownfield

Miss Norma Anne Lee, daughter of Mr. and Mrs. J. R. Lee of Albuquerque, N. M., became the bride of Lawrence Ellis Cox, son of Mr. and Mrs. L. D. Cox of Brownfield, Friday, January 1, in the home of the bridegroom's parents.

The couple exchanged double ring vows at 10 a.m. before the officiating minister, the Rev. Dr. Jones W. Weathers of Lubbock, former pastor of the Brownfield First Baptist Church.

Background for the ceremony was an arrangement of red roses flanked by white candles in candelabra. Miss Vicki Norris played the "Wedding March."

Escorted by her father, the bride wore a white velvet street-length dress which she designed and which was made by her mother. A Queen Anne collar was outlined with seed pearls and the short Chantilly lace jacket fea-

the bridegroom, lit the candles. Misses Callaway and Norris wore red dresses with corsages matching the one worn by the maid of honor.

Mrs. Lee wore a black dress with red accessories and the bridegroom's mother wore a navy blue dress with white accessories. Each had a corsage of red roses.

Miss Norman in Reception
Mrs. Beatrice St. Clair, sister of the bridegroom, and Miss Kay Norman of Matador assisted with the reception in the Cox home following the ceremony.

A centerpiece of red roses was in contrast to the white cloth covering the refreshment table. Red candles lighted the table and milk glass appointments were used in serving red punch with a three tiered wedding cake.

When Mr. and Mrs. Cox left for their new home in San Angelo, the bride was wearing a pink mohair suit trimmed with pink velvet. Her accessories were black and white.

Name Changed By Farm Loan Group

National Farm Loan Association of Floydada which has made and serviced Federal Land Bank loans in this area for 40 years has a new name. It is now the Federal Land Bank Association of Floydada. Jake B. Watson, who was formerly secretary-treasurer, is now manager, as result of the Farm Credit Act of 1959.

The new law also removes the \$200,000 loan limit. It also provides that sums lent to purchase capital stock in the Federal Land Bank Association can be

over and above the present loan limit of 65% of the normal agriculture value of the farm or ranch mortgaged.

Watson announced that the association is now servicing \$64 loans for about \$6,900,000 in the three county area serviced by the association.

In addition to Watson, other officers and directors in the association are J. T. Persons, Quataque, assistant manager; Raymond Rucker, Lockney, President of the board; Menard Field, Floydada, vice-president; Tate Jones, Floydada, Carroll Garrison, Silvertown; F. O. Ham Turkey, John C. Irwin, and Edgar Lee, Matador.

What Is The Current Price Of A Human Life? . . .

SENATOR KEFAUVER - - -

YOU have charged that the price of drugs is too high but unless you know the price of a human life and the number of lives that have been saved through advancement in the drug industry, you have no basis for the charge.

The drug industry, Senator Kefauver, is spending about 7 cents out of every sales dollar on research, which is more than twice the profit made from each sales dollar. Has it been successful? You know the answer. You know that statistics show that more than 3 million American lives can be attributed to the chemical revolution in medicine.

These lives, Senator, must be added, with relief of misery and distress, to millions, to the value the drug customer receives for his money. How much is human life worth? Do you want the drug industry to stop research and bring all advancement to a standstill? Have we saved enough death and misery?

Watch this space for further facts about drug prices!
