

Long Lieutenant Is Brought Into Probe

Former Levee Board Head Is Quizzed

Investigation Hits Naturalization Proceedings

NEW ORLEANS, Aug. 10 (AP)—A. L. Shushan, former president of the New Orleans levee board, arrived unexpectedly at the post office today to confer with postal inspectors who have been active in the federal probe of scandals in the state.

No comment was forthcoming from either Shushan or the inspectors. O. John Rogge, assistant U. S. attorney general in charge of the investigation, has said the grand jury this week would concentrate on investigation of alleged jury tampering in the income tax evasion acquittal won by Shushan in October, 1935, a month after Huey P. Long was shot to death in the capitol at Baton Rouge.

Shushan was one of the principal lieutenants of Long when the latter had his political dictatorship over Louisiana. The government had indicted Shushan and several other leaders of the Long machine for income tax evasion. It admittedly considered its case against Shushan the strongest, and when Shushan was acquitted the other charges were not pressed.

Rogge said the federal government's probe into Louisiana affairs was broadening to include false swearing in naturalization proceedings.

He declined to say who was involved or whether more than one person was involved but did reveal that the naturalization proceedings in question occurred recently.

Richard H. Hill, special attorney in the lands division of the department of justice, was scheduled to arrive here from Tyler, Tex., where he left a plane from Los Angeles yesterday to obtain some records to be used in the government's investigation of further "hot oil" leads.

September 5 had been set as the date of trial for Dr. James Monroe Smith, former president of L. S. U.; Seymour Weiss, hotel man and "No. 2" man in the state administration; Louis C. Leasing, suspended assistant to the president of the Standard Oil company of Louisiana; Monte E. Hart, electrical and general contractor, and J. Emory Adams, nephew of Mrs. Smith.

Sinclair Cuts Oil Price 20 Cents

Announces Slice To Offset Loss Of Company

NEW YORK, Aug. 10 (AP)—Two-fisted, 63-year-old Harry F. Sinclair, chairman of the executive committee of the Consolidated Oil Corp., chewed a cigar in the "front office" of the company here today, and awaited reaction of competitors to his sudden, overnight flat reduction of 20 cents a barrel in all grades of crude oil in the Mid-Continent area.

Poker-faced Sinclair, known as the "home wail" of the oil game, had given the industry plenty of warning what he was going to do.

At the last meeting of stockholders, he said either prices of gasoline and other refined products had to go up, or crude prices had to go down.

In June this year he boosted the company's gasoline price a cent a gallon in 42 states, but the markup was only about 30 per cent effective.

The Sinclair campaign to boost gasoline prices collapsed because competitors wouldn't follow the rise.

Meantime, losses continued to mount. Last night Consolidated Oil sent out its report for the first six months of 1939, showing a net loss of over \$872,000 for the period, contrasted with net profits of more than \$4,000,000 in the like half of 1938.

And just an hour or so after the report was mailed to stockholders, Sinclair slashed 20 cents from the company's crude prices. The reductions battered 36 gravity crude in Oklahoma and Kansas to 82 cents a barrel, the first time oil had been under \$1 since 1934.

POLICE SEEK FORMER SUITOR IN DEATH OF CAMDEN GIRL

CAMDEN, N. J., Aug. 10 (AP)—A former suitor of an unborn-haired Wanda Dvorak who once roomed in her home was sought in four states today as the slayer of the 17-year-old minister's daughter.

"We know who the man is," Chief County Detective Lawrence Doran announced, but refused to divulge the name.

The girl's body was found two days ago in a weed patch bordered by a dirt road where trying lovers often park. She had been choked with a grip that broke her breast bone. The murderer also beat her. A rose corsage adorned her rain-soaked black coat.

Pursuing an undivided lead he called "plenty hot," Doran sent detectives to several New Jersey communities and across the Delaware river to Chester, Pa., last known home of the suspect. The investigation also branched to Brooklyn, N. Y., it was learned, and a description of the man was sent to Florida police.

Detective Lieutenant Samuel Johnson predicted the "climax" in the case would come today "at the latest."

Doran said the girl was insured for \$2,000 and that in addition to the life insurance, she had a \$10,000 accident policy payable to her father as beneficiary under certain conditions.

He added the \$2,000 insurance was made up of these policies: \$445, beneficiary unnamed; \$250, mother as beneficiary, and two \$1,000 policies with her father as beneficiary.

Claims FD Trying To Control Pitt Demo Convention

"Purge" Victim Not To Speak During Parley

PITTSBURGH, Aug. 10 (AP)—Folmer Rep. John J. O'Connor of New York, new deal "purge" victim in the 1938 elections, charged today the Roosevelt administration was trying to control the convention here of the Young Democrat clubs of America.

The three-day meeting gets under way tonight with a keynote speech by Senator Claude Pepper of Florida. Meanwhile, electioneering for the presidency proceeded apace amid charges and denials of legal "vote-buying."

O'Connor, who said he was here representing a newly organized group known as the Young Democratic club of New York, asserted the new deal, through Thomas G. Corcoran, Roosevelt legal aide, was throwing its support to Homer Mat Adams, of Illinois, leading candidate for president of the Young Democratic clubs.

The New Yorker said Harold Moskowitz, New York director of the National Emergency Council and head of the affiliated Young Democrats of the state, was Corcoran's representative here to boost Adams.

O'Connor will not be allowed to speak before the convention, according to Pitt Tyson Maner, in-

Palming his bald head, Sinclair graphically states his case. Gasoline consumption is the highest on record. Crude oil production also is the highest on record. Yet the oil industry is losing money in the home market.

Deficiency Bill Signed

HYDE PARK, N. Y., Aug. 10 (AP)—President Roosevelt signed today the third deficiency bill appropriating more than \$180,000,000 for varied federal activities.

The largest fund in the bill is \$119,000,000 for the Commodity Credit Corporation, a sum which Secretary Wallace said recently was necessary to prevent a slump in farm prices to 1932 levels.

Oilmen Silent After Slash In Price

Majors Expected To Follow Action By Sinclair Unit

TULSA, Okla., Aug. 10 (AP)—Mid-continent petroleum chieftains were silently watchful today after a major buyer's abrupt slash dropped the crude oil price here below a dollar for the first time since 1934.

Sinclair-Pratt Oil Marketing company late yesterday announced a reduction, effective at 7 a. m. today, of 20 cents a barrel in the prices it pays in six mid-continent states.

The unexpected move was made known as oil offices were closing yesterday, and whether other major companies would follow suit was problematical.

A view expressed here was that the cut probably would be met unless a concerted protest developed.

Some Tulsa oil officials plainly were surprised and gloomy but none would comment. In Dallas, varying degrees of amazement were voiced.

Executives of most major companies headquartered at Houston said the reduction probably would be followed but many felt a 10-cent drop would have been sufficient.

Sinclair-Pratt Oil marketing company buys about 100,000 barrels of crude daily in Kansas, Oklahoma, Texas, New Mexico, Arkansas and Louisiana. The firm did not elaborate its announcement.

Recalled, however, was that Sinclair Refining company, a companion firm, had raised tankwagon gasoline prices one-half cent a gallon in its 42-state territory on June 14.

Price Cut Due To Cost State Much In Taxes

AUSTIN, Aug. 10 (AP)—The comptroller's department estimated today a general reduction of 20 cents per barrel in the price of crude oil would mean a loss to this state of \$150,000 to \$200,000 per year in revenue from the production tax.

The tax is 2 1/2 cents per barrel when oil sells for \$1 or less per barrel and 3 1/4 per cent of value when the price is above \$1.

Current posted prices in the East Texas field, major production area, is \$1.10 and a 20-cent decline in price would not bring a 20 per cent loss of tax revenue. Statisticians said such a reduction would reduce revenues in East Texas about \$45,000 and in other areas would increase the total to a possible maximum of \$150,000.

The production tax for the first 10 months of the current fiscal year brought the state \$11,738,372, compared with \$13,173,144 for the same period a year ago. The reduction, comptroller's employees said, was due chiefly to price drops and lessened production.

FOUR DROWN AS BOAT CAPSIZES

CORSICANA, Aug. 10 (AP)—Four negro youths were drowned in the Corsicana Country club lake several miles north of town this morning about 9 o'clock. The fourth body was recovered shortly after 11 o'clock.

Officers were advised 11 negro caddies started across the lake in a boat that capsized.

Those dead are Carl Joyner, 13; Robert Sanford, 14; Clarence Mills, 15; R. P. Person, 19.

The Joyner boy's body was recovered by his father, Odie Joyner, an employe of the club.

Efforts to resuscitate the victims were futile.

High Altitude Flight To Paris Is Planned

WASHINGTON, Aug. 10 (AP)—The Civil Aeronautics Authority revealed today Howard Hughes, around-the-world flyer, had asked authority for a high-altitude trans-Atlantic flight to Paris.

A spokesman for the authority said Hughes intended to use a Boeing 307 plane, four-motor ship known as the strato-liner.

No further details were given out.

Youth, Confined To Iron Lung, Weds

CHICAGO, Aug. 10 (AP)—Courageous young Fred Snite, Jr., who has been fighting for life in an "iron lung" for three years, was married today.

The smiling 29-year-old infantile paralysis victim who has refused to let the handicap of an artificial respirator interfere with his many activities, took Miss Teresa Larkin, 25, of Dayton, O., for his bride.

The ceremony which united the widely known "bolter kid" with the Ohio girl was performed in the Snite suburban home in River Forest by the Rev. J. W. Morrison.

Young Snite was in his iron lung as the service was read. Announcement of the marriage was made by Snite's father, Fred, Sr., who said the young couple planned to take a short travel trip. Snite has a trailer specially equipped to carry the apparatus necessary to his life.

Nazi Leader Pledges Aid To Danzig If Attacked

DEATH OVERTAKES MOUNTAIN CLIMBER

ATLANTIC CITY, Aug. 10 (AP)—With all the fanfare of a world movie premiere, flying squadrons of Hollywood and Broadway stars came here today for a snowdown in the most bitter jurisdictional dispute in the history of American theatrical unions.

Led by Ralph Morgan, president of the Screen Actors Guild, they threatened a strike that might darken every theater in the nation unless the American Federation of Labor's executive council rejects an attempt by the stagehands' union to take in a block of dissident entertainers headed by Sophie Tucker.

William Green, AFL president, said last night he believed the executive council would hand down a "clear-cut" decision on the stars' demand that the AFL outlaw a charter issued by the International Alliance of Theatrical Stage Employees to the American Federation of Actors.

The I.A.T.S.E. granted the A.F.A. a charter after the A.F.A. had been expelled on charges of executive management from the Associated Actors and Artists of America, parent of a dozen radio, screen and theater actors' unions.

Both Sophie Tucker, president, and Harry Richman, a leader in the A.F.A. organization of 10,000 vaudeville, night club and circus performers, have been dropped by the A.A.A.A. They will go before

the council to demand that the A.F.A. members be allowed to remain in the I.A.T.S.E., the stagehands' union.

With Morgan in the Hollywood delegation opposing extension of the I.A.T.S.E.'s jurisdiction were Edward Arnold, Binnie Barnes, Jean Muir, Wayne Morris, Mische Auer, Henry Hull, Lucille Gleason and Larry Steers. They arrived at Newark yesterday by plane.

Broadway stars joining them in their planned concert protest included Tallulah Bankhead, Fredric March, Peggy Wood and others. They held a final conference last night with Lawrence Tibbett, radio and opera star, and Frank Gillmore, president of the A.A.A.A.

CONFESSES KIDNAP, SLAYING

POSSE HUNTS FOR ATTACKER

TERRELL, Aug. 10 (AP)—Foot-weary and sleepy after failing to trap their quarry during the night, state and local officers and incensed citizens kept up their grim hunt today for a negro rapist who stabbed and left his white victim for dead.

The woman was seized as she walked along the Able Springs road east of here yesterday afternoon, dragged beneath a culvert and assaulted.

Threatened with death and stabbed twice in the throat, she pretended to be dead until her assailant fled. Then she staggered to the nearby farm home of A. A. Elliott.

The woman was treated and released after four stitches had closed each wound.

News of the crime spread fast, feeling ran high, and soon the greatest manhunt in Kaufman county history was underway.

Bloodhounds placed on the trail by Sheriff Frank Wolfe picked it up but lost it. Captain John Draper of Dallas headed a group of state highway patrolmen and rangers commanded by Capt. Royal G. Phillips joined the search.

One negro established an alibi when captured shortly after the attack.

He said he killed Miss Dunn because she cried for help and became hysterical despite his pleas.

Missing Girl Found Dead

BACON RATON, Fla., Aug. 10 (AP)—A man booked as Charles Jefferson confessed to police today he had abducted two Miami high school girls with the intention of holding them for ransom, killed one and held the other captive until early today.

Leut. E. W. Melchen of Miami detectives announced the confession at the Boca Raton police station, where Jefferson was held after his arrest near the scene of the slaying of 17-year-old Ruth Frances Dunn.

Melchen reported Miss Dunn and Jean Bolton, 19, were bound in the man's automobile which he drove into a lonely beach section about 600 feet off the ocean highway between Miami and West Palm Beach.

Jefferson, also known by several aliases, admitted criminally assaulting Miss Dunn Monday night, the detective lieutenant stated.

"He said he killed Miss Dunn because she cried for help and became hysterical despite his pleas."

Soldier Is Jailed

NEW BRAUNFELS, Aug. 10 (AP)—Doris Scofield, 22-year-old Randolph Field soldier, was jailed early today on charges of assault with intent to rape a 17-year-old Randolph Field girl on a picnic party in Landa Park here last night.

The Comal county sheriff's department used bloodhounds to track the man after he had roamed hills above the park and returned an hour later to crowds in the amusement park.

One Killed, Another Near Death In Auto Crash Near Temple

TEMPLE, Aug. 10 (AP)—Mrs. R. T. Rogers of Austin, about 50, was fatally injured and Miss Mary D. Carlisle, 44, critically injured today when their automobile overturned on a curve a mile south of 85th on Highway 81.

Miss Carlisle, the driver, suffered a broken back, broken ribs and shock. Mrs. Rogers was dead when brought to Kings Daughters hospital here.

The machine, apparently out of control, plunged into a ditch and against a telephone pole.

Says Poland Has Incited Violence

Forster Declares That Germany Is Back Of Reunion Move

FREE CITY OF DANZIG, Aug. 10 (AP)—Nazi Leader Albert Forster told cheering throngs in Langer Market Place tonight that "Poland may rest assured" Germany and Adolf Hitler "are determined in the event of attack to stand at our side."

Speaking with the full authority of his conference earlier this week with the German Fuehrer, Forster declared:

"In a serious moment we have assembled in this historic market place in order to protest against the threats of war uttered by Polish papers and speakers."

His declaration that Germany stood solidly behind the Free City in the Nazi campaign for reunion with Germany was interrupted by cries of:

"One people! One reich! One Fuehrer!"

"We want to return to the reich!"

"The Danzig population has shown that it loves peace," he said. "If the Polish threats had not been so serious we should have been content to pass over them."

"The Danzig population has shown that it loves peace," he said. "If the Polish threats had not been so serious we should have been content to pass over them."

Forster got no farther when cries of "pftu!" reverberated throughout the square, but continuing, he said:

"Anybody who expected sensational announcements tonight was mistaken."

"Since these threats continued, however, and are even supported by official utterances, the time has come for us to bring our viewpoint to the attention of the world in no uncertain terms."

"It appears as though over in Poland there is no inclination to return to common sense."

"It may be said that those who must bear the responsibility are those who for months have been inciting to violence."

The Danzig Nazi leader then cited numerous utterances of the Polish press seeking to prove that the Poles wish to establish a protectorate over Danzig.

More "phusi!"—the German equivalent of the Bronx cheer—greeted this passage.

As he spoke the crowd kept shouting "We want to return to the reich!"

Forster's reference to a much-quoted demand of the Polish newspaper Cas that "Guns of the Polish army are facing Danzig" drew even louder "phusi!"

The worst utterances of all, Forster said, was one by Marshall Edward Smigly-Rydz some months ago in which he is alleged to have declared that Danzig would be the

Says French Told Of Plot

WASHINGTON, Aug. 10 (AP)—Sumner Welles, acting secretary of state, disclosed today the French ambassador, Count Rene de St. Quentin, had voluntarily informed the state department last March of the misuse of French diplomatic pouches, as charged in a federal grand jury presentment yesterday at New York.

Welles said the French ambassador called at the state department in March on his own initiative and stated there had been a misuse of a French pouch.

The ambassador, Welles said, expressed regret and said an administrative inquiry would be made and disciplinary measures taken in France.

The grand jury presentment said the French ministry of foreign affairs conspired to smuggle commercial films into the United States.

The ambassador called on Welles this morning and discussed the situation with him.

St. Quentin told reporters he could not comment on the situation. He said with a smile, he was going out to luncheon "on bail."

Mrs. Victor Martin Entertains Club At Bridge-Luncheon

Pink and lavender asters decorated the table when Mrs. Victor Martin entertained the Ely See club at the Settles hotel with a 12:30 luncheon and bridge.

Mrs. Lee Rogers won high score and Mrs. Martin received second high score. Others attending were Mrs. Tom Ashley, Mrs. R. B. Bliss, Mrs. Jimmie Beale, Mrs. R. R. McEwen, Mrs. Elmo Wasson, and Mrs. J. B. Young.

If the local feminine population had their way, it would be a blue world, as far as colors go anyway. Selecting names at random we found about 90 per cent of the women like the color of blue better than any other.

Several were not quite sure why but blue remained their choice anyway. We always thought it was the men who liked the soft color but if the following people are any criterion, it is the favorite of the weaker sex.

The question asked was "Which color do you prefer?" MRS. M. K. HOUSE, housewife: "I prefer blue because it is a cool color and stands for sincerity."

MRS. CURTIS DRIVER, housewife: "Blue has always been my favorite color. I like to look at it." MRS. R. W. CURRIE, housewife: "I've been wearing navy blue lately because it is practical and conservative."

MRS. CHARLIE FROST, housewife: "I like blue, I suppose, but I really haven't much preference." MRS. ARTHUR WOODALL, housewife: "Blue is definitely my favorite color. I like it because I wear it better than any other color."

ROSEMARY LASSITER, student: "I like red because it attracts my attention. I just like the color."

MISS MATTIE LEATHERWOOD: "I like certain shades of green because it can be very soft and effective."

BOBBY TAYLOR, saleswoman: "Green brightens up everything and livens up dead colors."

King Cotton On The Move

King Cotton, whose westward march was halted by the government farm program in 1934, has gone back to his domain in the old South, to diepelt thoughts that the entire production might at some time move west of the Mississippi, and to cause the Southwest to wonder about the results of the government program as combined with its own farming practices.

Statistics released recently show government limitation of cotton planting had hit hardest in southwestern states, while in the older cotton areas of the Deep South the monarch's reign has been more firmly established in the past five years.

When Uncle Sam stepped into the picture in 1934 with acreage restrictions, the southwestern states, where cotton growing had been increasing furiously, reduced production by nearly one-third—Oklahoma by more than half.

In the older cotton areas, by contrast, production actually increased! Prior to restriction, the southwestern plains, leading themselves to high mechanization and low production costs, seemed to hold the future of the industry.

Even this year southeastern growers had gloomily predicted "we are through with cotton east of the Mississippi."

But last week the American Cotton Cooperative association released new statistics against these ideas.

The figures revealed that Texas and Oklahoma, which produced 40 per cent of the cotton grown in this country during the four years preceding government control, produced only 30 per cent in the first four years of restricted acreage.

The average production for the two states in 1930-33, inclusive, totaled 5,887,000 bales out of a national average of 14,270,000. In their 1934-37 period they produced an average of 3,849,000 out of 12,900,000 bales.

Although the ACCA tables included only the two four-year periods immediately before and after introduction of restrictions, government figures show that the same situation prevailed last year.

Ginnings from the 1938 crop as reported in the United States census were 3,650,456 bales for the southwestern states, or 30.5 per cent of the national total of 11,944,000 bales.

For the periods covered in the ACCA announcement the average crop in the two states was 1,210,000 for Texas and 628,000 for Oklahoma, or a total of 1,838,000 in the Southwest. Meanwhile the rest of the 10 major producing states hiked their net production by 130,000 bales annually.

A principal reason given for the great losses in the Southwest as compared with the Southeast was that improved cultural methods had raised the per-acre yield by more in the older states.

The quality of land taken out of production also had some effect. The Southeast had a larger proportion of worn-out soil, which had been producing so little anyway that its loss was scarcely felt.

George Tucker Man About Manhattan

NEW YORK—The man who makes certain debutantes what they are—and this means page-one celebrities with offers of Hollywood and New York contracts—is Chick Farmer, a pleasant young man who does it all in the interest of a night club. He had a hand in making Brenda Frazier the most talked of glamor-deb in America last year. Of course, a young lady must have plenty of money and must photograph well before Mr. Farmer will exercise his peculiar talents in elevating her to super-star roles.

The Stork club, El Morocco, and Twenty-one are supposed to be the three places which debutantes just can't resist. And the Stork club is their favorite hang-out. You walk in there at lunch time or around 5 o'clock in the afternoon, and the faces you see around the tables are an alphabetical representation of the money influence in the East. They're all young and they look older than they are. Through they have independent incomes, these 17- and 18-year-old girls are all talking about jobs. They seem to have a craving to make money—not money for money's sake, but they like to have a few dollars they don't have to ask their parents for.

For instance, I was talking to Chick one afternoon when a society reporter came in and asked him to make arrangements for some pictures with a well-known debutante. "Oh, sure," replied Chick. He signaled a waiter, who plugged a telephone into the wall and handed it across. Chick called the home of the debutante. (He pulled that number right out of his hat—he knows the number of every debutante in New York.) When the girl was on, he said, "Honey, want to do a little favor for Chick? She said she'd just love to do a favor for Chick. Okay, then, you be down here tomorrow at 3 o'clock so we can take some pictures. There'll be \$10 in it for you."

When he said \$10 you could almost hear this girl gasp. Chick says that 10-spot out of his pocket. Of course, he's on an expense account.

Right now Chick is intent on finding a successor to Brenda Frazier, whose name and pictures were plastered over America.

Why, it's lucky girl will be no one knows—yet. But 18-year-old Mary Biele of New York is getting a great send-off at the moment. She probably will be 21.

Man's best friend may be the dog, but I can't help wondering if Donald O'Connell will believe it after "The Light That Failed." The pooch in the picture is being sent to many homes as little Carolyn Lee purchased from Madeline Carroll in "Are Husbands Money?"

How To Torture Your Wife

Meet Mr. Lochinvar By Marie Blizard

Chapter 18 UNWELCOME EMBRACE I gave you the benefit of any doubts I had about your acting like a gentleman. Theatrical His face fell into lines of hurt surprise. "Didn't you think I was a gentleman?" "No," she said promptly. "The gentlemen I have known wouldn't take advantage of a girl the way you did."

Philip smiled and lit a cigarette slowly. "Cecily, my dear child, you must be fair. Have I implied any intimacy?" Cecily shook her head. He hadn't.

"But I am strangely tempted," he went on. "I'm only human, after all, and you've turned out to be a very attractive girl. Do I imagine it, or is there something different about you these last few weeks?" Cecily didn't answer but the warm blood rushed to her cheeks with the thought that came to her. "I don't know what you mean," she said in an embarrassed tone.

"I'm not sure I do myself. But there has been a change in you. You're softer....warmer. There's a glow about you as though your thoughts made you happy."

Chick, a blend of sudden knowledge and sudden embarrassment, enfleaded her. She had felt the strange alchemy in herself. She had felt a softness, a warmth that came from her heart. She had responded to all appeals to her senses within these last few weeks as she had never responded before. There was a greater depth to everything. Music felt more poignantly on her ears. Waking and sleeping were twin adventures—a call to something that was happening, the other to live her metaphors of what had happened. She had known it within herself, had heard the new note of spontaneity in her laughter, but she didn't know that anyone else had seen it. Or guessed its reason.

"Is it true?" Philip asked softly. Because it was true and because she was without guile, she lowered her eyes, not knowing that her confusion was an admission.

Philip reached over gently and took one of her hands. "I suppose I might be presuming to think that I might have anything to do with it?" She stared at him, wide-eyed. This was presumption!

"You're shy, aren't you?" "Not really," she said dryly. "I don't mean to rush you," he continued. "Only I've discovered that I...well, I'm crazy about you, Cecily."

Cecily wanted to get up, to escape from the room. But she was locked in her chair. "You couldn't push a man's knees out of your way and still accomplish a graceful exit."

Very quietly she said, "Please Philip, don't say anything like that or I shall be forced to tell Aunt Alvin the truth."

"The truth!" he explained softly. Then he bent toward her, commanding her eyes. "Why haven't you done it before, Cecily?" "I'm not quite sure," she answered honestly. "Since you've asked for the truth, I'll tell it to you. I do think it has been unspeakable of you to have accepted our hospitality for such a long time under such circumstances. I should feel no end embarrassed if I were you. When I agreed to the bargain, I thought it would be for only a matter of a few days.

pathy dissolved. "As a matter of fact, while we are having our rare little tete a tete, suppose we continue on a more personal basis? Have you ever considered me as a suitor?" "Never!" she replied with unflattering promptness.

Wave Of Dislike "You might," he answered blandly. "If you continue to grow any prettier, I'm going to find it hard to remember that you really aren't my little fiancée. As a matter of fact I'm not a bad fellow. Had you thought about it?" "I'm afraid that anything I might think about you would be colored by my first opinion," she said and pushed her chair back determinedly. It was a heavy chair and didn't move easily. Cecily lost her balance as she rose. Philip had got up at the same moment and Cecily found herself caught in his arms. She struggled backward, her arms pinioned in his grasp, and turned her head to avoid him. A wave of dislike engulfed her.

Then suddenly she felt his arms loosen, heard him laugh softly, apologetically. She turned her head when she was free and found Philip looking toward the door where she caught a quick glance of Olivia's disappearing train. "Fool!" she said.

He laughed again. "Don't be embarrassed, Cecily. It was only your aunt and she must expect that I make love to you sometime."

Cecily, her flaming head held high, had stormed out of the room. She didn't want to go up to her own room. She didn't want to face the others. She went out the back way and perched herself on a high bench overlooking the vegetable garden.

After a little while her sense of humor got the better of her. She thought: This is where I belong. When she returned to the house, the others were playing bridge. Gloria and Allene Bixby, who had

Hollywood Sights And Sounds

HOLLYWOOD—The mother of a swingstick adolescent had to chuckle the other day when daughter came home humming what she described as a brand-new red-hot five tune. The tune was "Martha," and daughter couldn't believe that mother—dear, antiquated young matron of a mother—had heard it before.

Mother said oh-yes-she-had, and she got out an old record marked "Marta—M'Appari—Sung by Enrico Caruso" and she played it and daughter listened quietly and at the end of it said that maybe that old music had something after all.

The youngsters are going to be bringing home a flock of other "new ones" from the movies pretty soon. The vogue for old-tunes-made-new that was started by "Alexander's Ragtime Band" and continued in "Rose of Washington Square" is by no means finished. There'll be songs to stir the memories of oldsters and the feet of youngsters in "The Star-Maker," in "Hollywood Cavalcade" (in which Al Jolson will sing "Mammy" just as he did for the first, talkie feature), in "The Roaring Twenties" (incidental to melodramatic action here, of course).

And "Babes in Arms" is using half-a-dozen old-tunes along with its newly composed numbers. Mickey Rooney, in a minstrel show sequence, introduces again "Shine On, Harvest Moon" and "Ida," both of which were sponsored originally by that grand man of minstrelsy, Eddie Leonard. You'll be hearing also "I'm Just Wild About Harry," and "Stumbling," and "Moonlight Bay."

It's the simplicity of the old tunes, their easy adaptability to modern dress and orchestrations, that makes them go. And then, they're really new to the youngsters who keep swing going.

As if in answer to all this, up steps Nelson Eddy, no swingaroo, on the "Balalaika" sound stage with the considered opinion that swing is on its way out. What Nelson, who spends about half his time on the concert stage, would be knowing about swing isn't at once apparent—but he says that on his last tour the requests for swing stuff were few compared to those on tours of three years ago.

Pretty soon it's going to be unanimous, this Swing-Is-Out opinion, and then where will Benny Goodman be? My guess is he'll be right at the same old stand, swinging along in the form of music that will be swing's successor—if any.

On the set of "Three Sons" the other week roamed three stray cats, not swing but selected by Propman Eddie Trickle for mousing duties among the sacks and barrels of flour, grain, corn, oats, crackers—props for an 1870 store owned by Edward Ellis as the founder of a department store dynasty.

Director Jack Hively had ordered the cats for mousing purposes only. But you can't keep a good cat down. Ellis was before the camera, leaning on a counter, when one of the cats appeared from nowhere, climbed slowly up his back to his shoulder. A little thing like that, not in the script, didn't faze Ellis—not even when the nice kitty began licking his nose during dialogue.

It was a laugh to everybody afterward, except Hively, who was too happy to laugh, and to Eddie Trickle, who was too bothered—until reassured by Hively that the scene was great and would stay in.

Preston Crover Washington Daybook

WASHINGTON—These are the days of the great congressional jitters. Brave senators who never have wined under the exchange of oratorical punches on the senate floor dread what they will find at home when they begin measuring the support they will have next year.

Some 435 house members return to the same situation. The reason for the worrying is this: While there are two summers between now and the 1940 elections, there is only one summer between now and the next primary. And that summer is the present one.

A few members of congress live in states where the primary comes late next year, so they will have an opportunity to put up a case after the 1940 session of congress. But most won't have any such opening. Any door-to-door and picnic-to-picnic visiting must be done this summer. Next year they will be tied up in Washington while the enemy is loose at home.

That situation really has the pudding up in the neck of whole clusters of members. Two-thirds of the senate can always laugh at the other third which comes up for election. They can laugh, but usually don't. They know how it feels to come up to the firing line and have to bid again for the old job.

ASHURST AGITATED

What they do chuckle at is the agitation of those members who never are in much danger and yet have the finest spells of pre-election torment. Senator Ashurst of Arizona is a sample. Outwardly he always is bubbling. But already his friends say he is worrying about little ripples of political activity out in Arizona, where he has not been beaten for the senate in his who's life.

Observers say there isn't a chance of upsetting him in 1940, but he is taking no risks. On a recent date he put into the congressional record 39 columns of speeches, articles, news clippings and other pro-Ashurst material that might be useful in saving his skin—even if it is not in danger.

In a somewhat frolicsome mood he urged the senate the other day to adjourn so the members could get back home.

"I am advised today," he said, "that I have some political fences in a sad condition of disrepair." Senator Pittman of Nevada is another who always suffers pre-election panics but comes up with post-election majorities. He didn't fight to stay out in the forefront of the silver group for nothing. Silver is important politics in Nevada.

Senator Connally of Texas is another pre-election fretter. The old age pension movement has taken hold out his way. It helped elect Governor O'Daniel, the flour dealer. O'Daniel is a possible candidate for Connally's job. So you find Connally taking care of that situation by adding an amendment to the social security act designed to give two federal dollars for one dollar of state money in the lower pension brackets.

REASON TO WORRY

Of course there are some members who are expecting real trouble. Senator Truman of Missouri will be opposed for his party's nomination by popular Governor Stark, who rocketed to prominence as the result of exposure about the Pendergast machine in Kansas City.

In Wisconsin, the LaFollete organization was beaten last year, and next year "Young Bob" comes up for re-election. In Nebraska Senator Burke will get no support from the Independent Norris liberals nor from New Dealers. Senator Guffey once ruled high in Pennsylvania but is not so mighty now.

One of those who doesn't need to worry is Senator Hiram Johnson of California. They would elect him out there if he turned communal.

Marek And Walton Homer As Barons Defeat Lubbock

The Sports Parade

By HANK HART

They raised the 1938 pennant flag at the Lubbock baseball plant Wednesday evening and the Big Spring Barons dedicated the occasion by thumping the mighty champions and sounding warning that all is going to be different when playoff time comes around this year.

The Lubbock Yakes, a trim crew that hardly resembles last year's outfit, won the game, 6-5, and gained a permanent edge in season's play with the Hubbers. Having already won 11 of 17 games played to date with the Lubbockites, the Barons have but three more engagements with Harry Faulkner's bunch.

The Barons and the Pampa Oilers have been the only two teams in the circuit capable of playing better than .500 ball against the titlists. Apparently, both aggregations are going to land in the Shaughnessy playoff against the Hubs. There is a possibility that the Oilers and the Barons will meet in the first round of the playoff. Such would be the case if the teams finish the season as they now stand.

Borger is the present favorite to land the other position and the Gassers, in case you haven't heard, are tough customers, capable as is Big Spring and Pampa, of upsetting the champions' apple cart.

At any rate the champions can expect a much harder time this year than last when they romped through both Wink and Clovis in the playoff games with astonishing ease.

League President Milton E. Price, incidentally, paid Lubbock a visit to participate in flag raising ceremonies.

A 35-piece band from Slaton made music for the occasion.

Neal Rabe, disposed of as manager of the Amarillo Gold Sox last week, will finish out the season with Bob Seeds' crew as a catcher.

Rabe's wife has the concession rights to the Amarillo park and wanted to fulfill her contract.

Neal's team which will make the trip to Venezuela in the fall, incidentally, will be composed largely of players of Southern Association teams.

Ben Parrish, a pitcher whom Rabe suspended from the game while in reign, is back in uniform for the Amarillos but hasn't been very effective.

The Sox apparently have sewed up the cellar slot in loop standings.

They say one of the reasons R. M. Medley moved on to the coaching post at Southwestern university from McMurry college, Abilene, was because he liked to eat regularly.

The veteran mentor was said to have experienced some difficulty in collecting his pay.

The Abilene school officials will

Major League Leaders Exhibit Prowess With Convincing Wins

By JUDSON BAILEY

Associated Press Sports Writer

Everybody likes a good joke and it appears the Cincinnati Reds and New York Yankees are the jokers in baseball's big league deck.

Knowing they can control any track, this pair just lies back and waits for timely spots to trump.

The proper moment came yesterday and the Reds romped over the Chicago Cubs in a doubleheader, 7-5 and 11-3, while the Yanks exploded the Washington Senators' eight-game winning streak with a 12-8 firecracker.

The Reds staged a four-run assault in the seventh inning of the first game and crowded nine runs into the fifth frame of the nightcap.

Undaunted, the Cardinals stretched their string of consecutive victories to nine with a 5-3 triumph over the Pittsburgh Pirates.

This left the task of showing St. Louis the light to the Reds themselves, because the Cardinals were not scheduled today and tomorrow and their next opponents will be the league leaders at Sportsman's park Saturday.

In yesterday's only other National league activity, the New York Giants swatted Boston's battered Bees in both halves of a doubleheader, 5-4 and 6-5.

The Yankees made sport of their old rivals, the Senators, scoring 11 of their 18 runs in the first three innings as Joe Di Maggio and Frank Crosetti hammered with men on base.

Buddy Lewis, Washington third baseman, was hit on the head with a ball thrown to first by pitcher Red Ruffing and was taken to a hospital. He was not believed seriously hurt.

Johnny Marcum, Chicago White Sox relief pitcher, also was painfully injured when a liner batted by Hank Greenberg struck him in the face. Four stitches were taken over his right eye. The game was won by the Detroit Tigers, 10-3, behind the effective seven-hit hurling of Schoolboy Rowe.

Led by Jimmie Fox, the Boston Red Sox came from behind twice to sweep a bargain bill from the Philadelphia Athletics, 5-3 and 6-5. In the first Fox hit a triple and a home run.

Like so many players after being traded, Julius Solters arose to haunt the Cleveland Indians yesterday with three hits which drove in three runs, but the Tribe stopped the St. Louis Browns, 6-5, anyway.

ALL-STARS LOSE TO MCGEEHEE, 7-4

Red Denham Bests Bobby Savage In One Of Longest Games On Record

In one of the longest softball games ever played here, McGeehee Super Service scored four runs in the twelfth inning to defeat Bobby Savage's All-Star aggregation in an exhibition fracas at the city park Wednesday evening, 7-4.

The two-hour-thirty minute skirmish was a pitchers' duel between the Stationmen's redoubtable Red Denham and Savage, who pitched one of the best games on record here. Denham surrendered eight base hits but kept them well scattered while the Stationmen could collect but four off Savage.

Denham put the McGeehee team out in front as early as the third round when he homered with Blight on base and the Stationmen added to their advantage in the fourth when Hestman gained a life on Hank Hart's bobble in left field, stole second, went to third on an erratic heave and counted on Kendall's infield lick.

Denham apparently had the All-Stars blanked until Johnny Miller faced him as the leadoff man in the last round. An error by Kendall, who dropped Alton Bostick's throw at first started the fireworks. Chock Smith moved Miller to second as he rolled out to Bostick and Savage singled to score Miller. Morgan gained first on Kendall's miscue at first, scoring Savage who had stolen second and Howard Swatzie deadkicked the count by dropping a single back of second base to dispatch Morgan home.

Superb In Clutches

The All-Stars twice had a chance to win, putting runners on base in two different rounds but Denham was superb in the clutches and escaped trouble.

In the 12th, a walk to Blight led to Savage's downfall. Denham and Osborne struck out in succession but Herr pulled up safely at first when Swatzie tried vainly to catch Blight at second. Alton Bostick singled to cram the socks and Hestman followed with a single that counted Blight and Herr. Kendall put the game on ice when he contributed a two-run single, clouting it into right field.

Both Denham and Savage struck out 18 men during the long battle.

Aussies Square Off With Cuban's

SEA BRIGHT, N. J., Aug. 10 (AP) An athletic Australian tennis team and a Cuban trio unused to grass courts faced each other across the net at this colorful tennis spa today—meeting for what probably will amount to the right to challenge the United States for the Davis cup.

The Australians, favored not only this time but later when they meet the Yugoslavians team in the final interspersed match, were "ready to go" even though half the team—Adrian Quist—was suffering from asthma and a cold.

Quiet met Ricardo Morales while Jack Bromwich, the other half of the Aussie team, played Jose Aguiro in today's opening matches.

Will Ramsdell Gains Mound Win No. Two

Tex's Blow In Ninth Is Victory Margin; Barons Home Friday

LUBBOCK, Aug. 10 — Jodie Marek's try for his 20th pitching triumph and his fourth over the Lubbock Hubbers was futile as he was routed by a Hubber outburst in the third but he did supply a second inning two run homer that kept the Big Springers in the ball game and that, combined with Tex Walton's magnificent circuit clout in the ninth round and the night-pref relief tossing of Will Ramsdell proved good enough to give the Regomen a 6-5 triumph.

The victory, which snapped the Hubbers' string of triumphs at 12 straight, was a sweet one for the Big Springers. It gave them their eleventh triumph of the semester over the champions, assuring them the advantage in season's won and lost records with the charges of Salty Parker.

Walton could garner but one hit off the combined offerings of Mel Kramer and George Amthor but that was good for four bases and the ball game. He hit the first pitched ball thrown to him by Amthor in the ninth.

The Barons unleashed a 13-hit assault off the two Hubber flingers with Pat Stacey's double and two singles pacing the parade. Every man in the lineup binged with the exception of Ramsdell.

Willie, coming to Marek's rescue in the third round, kept the champ well in hand thenceforth.

Bobby Decker and Don Wain had prominent parts in the Barons' bombardment. Decker contributed a triple along with a single while Wain added a double and a one base blow.

The two teams close out their series in the Lubbock park this evening, then move to Big Spring for two games.

SPOTLIGHT ON RIGGS-GRANT GO

RYE, N. Y., Aug. 10 (AP)—It may not be the best tennis match ever staged, but there'll be enough drama for a Pulitzer prize play in today's headline match of the quarter-finals of the Eastern grass courts tennis championship.

Bobby Riggs, Chicago's playful Wimbledon champion, and Atlanta's giant-killer, Wiley Grant, are the opponents in the Davis Cup Captain Walter Pate may get an eyeful before that one is settled.

Other headline bouts pit Henry Prunoff of Seattle, engineer of yesterday's biggest upset when he defeated Don McNeill, against Laddie Hecht of Czechoslovakia; Frankie Parker against John Hope Doer, and Welby Van Horn against Gil Hunt of Washington.

In the women's singles quarter-finals Alice Marble, the odds-on favorite, plays Mary Arnold of Los Angeles in the best-looking match.

Nelson, Picard Pitt Favorites

PITTSBURGH, Aug. 10 (AP)—The \$10,000 Dapper Dan open golf spectacle presented for charity today attracted a field of 171 topped by three National champions and virtually all the nation's name players.

Start of the 72-hole four-day battle had every aspect of a National open tournament.

National Open Champion Byron Nelson and P. G. A. titleholder Henry Picard were the pick of the field as the siege guns blasted away at Wildwood Country club. Former Open Champ Ralph Guldahl also was expected to finish high in the list along with dapper Dick Metz, who set a new competitive record of 270 in the St. Paul open and says he's hitting the ball "as well as I ever have."

The city of Butte, Mont., has ten times as many underground passages as it has streets. The tunnels are in copper and zinc mines.

THE RECORD... Facts That Concern You

\$2,132,891.90* TO THE RESCUE

AND that's just the beer tax revenue this state itself collects... to lift the burden of direct taxation from your shoulders. Nationwide, beer contributes over a million dollars a day to the cost of government. Think what that means in paying for relief, in public works, in old age assistance right in your own community.

Then think of the million new jobs that beer made. And then add to that a 100 million dollar market for farmers' crops!

How can we keep these benefits... for you and for us? Brewers of America realize this depends on keeping beer retailing as wholesome as beer itself. They want to help public officials in every possible way. They cannot enforce laws, but they can—and will—cooperate!

May we send you a booklet telling of their unusual self-regulation program? Address: United Brewers Industrial Foundation, 19 East 46th Street, New York, N. Y.

Government Struggles To Keep Domestic Price Up On Wheat

WASHINGTON, Aug. 10 (AP)—A wide assortment of economic measures is being employed by the government to keep the full impact of a record world supply of wheat from making itself felt on domestic prices.

Granaries throughout the world are bulging with grain for which there is no ready market. Nations which once imported large quantities of grain have stepped up their production. Power machinery has increased production in the agricultural countries.

As a consequence, world trade in wheat has shrunk almost 40 per cent since the World war. Production, on the other hand, has tended to increase. The result has been surpluses which serve to depress prices.

Prices in Liverpool—the world's key market—have slumped this season to the lowest level in modern times.

Chicago prices have been running about 10 cents the Liverpool market. Thus, American prices stand out as a peak above the plain of world prices.

Farm officials and economists explain that factors helping maintain American prices at the abnormal level include governmental policies of price-pegging and supply control.

The governmental policy of making loans to growers on their wheat at rates above world levels tends, they say, to put a prop under those prices. Thus, at the present time, many farmers are able to get more money for their wheat by storing it and obtaining a government loan than by selling in the open market.

As more and more wheat goes into storage under loans, the supply available for millers diminishes. Consequently they must bid up their prices in order to get grain.

FAVORS AWARD FOR 'BEST' BALE, NOT 'FIRST' BALE

ABILENE, Aug. 10—Substitution of a prize by the local communities of West Texas for the best bale instead of the usual prize for first bale is suggested by Dr. M. E. Heard, head of the textile engineering department of Texas Technological college. The suggestion is made in the August of West Texas Today, publication of the West Texas chamber of commerce.

Such a prize, Heard said, would encourage farmers to raise a better grade of cotton and would benefit the entire cotton industry. "On the other hand, he says, the first bale of the season has little meaning and usually is picked green and is of inferior grade."

Heard hopes that local chambers of commerce consider this suggestion and sponsor the prize for best bale.

SMOTHERS TO DEATH

HOUSTON, Aug. 10 (AP)—Four months old Aubrey Lee Hargraves of Fairbanks, Tex., smothered to death yesterday when he pulled a rubber sheet over his head in his crib.

Australia's population December 31 totalled 6,929,691—3,504,369 males and 3,425,322 females, an increase of 63,101 for the year.

FOR THAT DATE WITH \$40,000—There's action a-plenty when two Hambletonian stake colts rehearse at Good Time park in Goshen, N. Y., for the \$40,000 trotting classic Aug. 9. At left is Heish-Ho, owned by J. E. Lyle of Syracuse, N. Y., and driven by Fred Egan. At right, also intent on a win, is Tom McKinney, owned by J. J. Mooney of Fremont, Ohio, driven by Joe Brown.

Vacation Bible School Underway

Registration was begun this morning for the annual vacation Bible school at the East Fourth Baptist church with 140 present for the opening program.

Rev. Elmer Dunham, Baptist missionary of the Big Spring district, is acting as principal of the school, assisted by a corps of 30 workers from the local church.

After registration was completed, lemonade was served and the pupils were carried in parade through the business district of the city.

The school will be in session each morning from 8 to 10:30 o'clock.

Baptist Mission Revival Greeted By Good Attendance

The five mission meetings sponsored by the East Fourth Baptist church opened last night with a good attendance.

This plan of having simultaneous mission revivals is a unique method originated by the evangelistic committee of the Southern Baptist convention and has been used successfully throughout the South.

Services begin each evening at 8 o'clock.

Bombing Protested

PEIPING, Aug. 10 (AP)—The United States embassy office here protested to the Japanese embassy today the bombing of a house occupied by F. Tillman Durdin of Fort Worth, Tex., in a raid on Chungking Friday.

The house was damaged seriously but neither Durdin, a correspondent of the New York Times, nor his wife were injured.

Houston Strike Looms

HOUSTON, Aug. 10 (AP)—Ambulance drivers for two funeral homes today threatened to strike for more pay and fewer hours.

The drivers, who work for two of the city's largest undertaking establishments, want \$25 a week and 12 hour days.

At present, they claim, they work 12 hours and then are subject to call for 12 hours to handle emergencies.

Look Up, Not Out, Correspondent Learns On Her Tour Of Colorado

This is one of a series of stories to be written by a Herald correspondent on a vacation tour of the northwest.—Ed

By MARY ALICE WOODARD

LAKEWOOD, Colo., Aug. 10—Six hundred miles from home, and not a mesquite tree in sight.

But what awe-inspiring scenery we have found already in the wonderland that is Colorado. Having left the unlimited sweep of the plains, we have found that up here you do not look out, you look up—and up.

One of the most striking vistas encountered is the approach to Colorado Springs from Pueblo. To the east are only high rolling hills and mesas. But towering above the city to the south and west are the mighty Rockies, whose grandeur cannot be told in words, for to attempt description involves the risk of sounding like a picture pamphlet.

Sunday we drove to Manitou Springs and "milled" around with some 10,000 other tourists from all parts of the nation. The place was "teeming with people"—Chinese, Japanese, Mexicans, Indians, Italians and many other nationalities along with just good old plain Americans. All seemed to be doing just like us, simply "milling."

In the vicinity of Broadmoor we saw the Will Rogers Shrine on Pikes Peak. The cenotaph is lighted at night and is visible for miles. One tiny light in the top never stops burning. Chimes sound but the hour.

Up 14,109 feet to the summit of Pike's Peak is another interesting experience. We made the trip in our own car and never had to take advantage of stations every mile or so for cooling car motors and adding water. The drive is 20 miles from entrance to peak and about three-fourths of the distance must be driven either in second or low gear.

The drive is a "thrill," for at almost any point one can look out over space or straight down for several thousand feet. At the top of the peak, a breath-taking panorama spread before us. Far below lay Colorado Springs, like a city in miniature, and on the other the range of mountains known as the Continental Divide. We watched the cog train rattle up the last incline and then started the decent in a heavy snowstorm.

Later we saw the Garden of the Gods, huge slabs of solid red rock jutting out of the ground, some of them shooting into spires several hundred feet above the earth. In the same area we drove through North Cheyenne cañon, a narrow way through sheer walls of granite. And now we are off to Salt Lake City and the northwest.

Gas Prices At High Level

TULSA, Okla., Aug. 10 (AP)—With gasoline consumption reaching unprecedented highs, the oil industry continued today to wrestle with the price problem.

The crude market was easier with the mid-continent area feeling the pinch of competition for markets from Illinois. Standard Oil Company of Louisiana posted a flat price of 80 cents a barrel for oil in the Magnolia pool of southern Arkansas. The company previously paid from 65 to 78 cents.

The Louisiana "hot oil" charges were the conversation piece of the industry. Some production men felt a "steering influence" might be reflected in the Louisiana area.

A touch of fear plagued some market observers over possibility of a crude price cut. Oklahoma conservation officials sought a sharp cutback from over production of the allowable. Kansas shaved its August allowable 1,880 barrels daily.

The Oil and Gas Journal reported for the last week, 580 wells were completed, compared with 538 a year ago and 499 for the same week of 1938.

LOCAL WOMAN'S BROTHER DIES

Mr. and Mrs. H. W. Leeper left today for Baltimore to attend the funeral services of Mrs. Leeper's brother, C. M. Linton, who died Wednesday night. The services will be at 4 o'clock today. They were accompanied by Mrs. M. H. Leeper.

New Food Store Opens Friday

Another new business makes its appearance in Big Spring Friday with the appearance of the H. & H. Food Store at the corner of 9th and Main streets.

In charge of the new institution will be H. Hanks, formerly of Midland where he operated a grocery concern for three and a half years.

Features of the store are a convenient spaciousness that permits an unlimited stocking of quality merchandise without a semblance of crowding, ample and unrestricted parking, refrigerated vegetables, and a modern meat department.

On Saturday free Folger's coffee will be served to everyone. Other attractions include cigars for the men, Bar's drinks, a glass of Banner chocolate milk and a Heinz food demonstration. An amateur contest will be staged by Gold Medal.

The store is housed in a building that provides 3,000 square feet floor space, handling seven tiers of display counters and shelves. Featured lines include Libby's canned fruits and vegetables, Peyton's baby beef and Bewley's flour and feed.

The manager is a son of L. L. Hanks, owner of the concern. He is married and one child has been born to the union. Mr. and Mrs. Hanks are active church workers.

Other staff members are Whitey Hudson, in charge of meats; Tom Fowler, Aubrey Schoolcraft and E. Ward. Hanks decided to enter business here because he believed "Big Spring to be one of the three best towns in Texas. And I visited practically all of them, too," he said.

Flow Of War Materials To Japan Should Stop, Says Schwollenbach

WASHINGTON, Aug. 10 (AP)—Senator Schwollenbach (D-Wash.) a member of the senate foreign relations committee, urged the state department today to take immediate steps to halt the flow of American war materials to Japan.

In a letter to Secretary Hull, Schwollenbach said this could be accomplished either by invoking an old wartime statute empowering the president to ban the export of any war materials in violation of law or by obtaining voluntary agreements of shippers to halt such exports.

"The object of this letter," Schwollenbach wrote, "is to suggest to you that there is available to the executive department of the government at any time the machinery by which the shipment of war supplies to Japan may be stopped."

He referred to an argument which he made in the senate last week that the United States was violating the nine-power treaty, which pledges respect of the territorial integrity of China, by "supplying 75 per cent of the more important materials used by the Japanese in the prosecution of the war against China."

Wall Street

NEW YORK, Aug. 10 (AP)—With fresh fears of another European "crisis" receiving the principal blame, stock market leaders today were shelved for losses of one to three points or so.

The list extended Wednesday's set-back moderately at the opening on meager dealings. Selling volume picked up before mid-day, but offerings subsequently dried up appreciably. Extreme declines were shaded in some cases in the final hour. Transfers approximated 700,000 shares.

Worries over a possible weekend Nazi coup, with Danzig as the focal point caused traders to lighten commitments in virtually all industrial categories, brokers said. Although business hopes at home were still high, it was thought they were hardly sufficient to entirely offset uneasiness regarding overseas potentialities.

Rails held fairly well notwithstanding last week's freight loadings were up slightly less than seasonal. Oils backed away as the price of mid-west crude was cut.

16 Demo 16
The four-way race for the presidency picked up momentum in the wake of a charge by Harry Shank of Ohio, one of the candidates, that \$10,000 had been spent, legally, to line up the New York and Illinois delegations for Homer Mat Adams, 28-year-old Springfield, Ill., candidate, Adams' lieutenants denied the charge.

Shank asserted that because of the organization's rule allotting one vote in the convention for each \$500 paid up membership, or 10 cents for each 1,000 members, \$10,000 had been spent to give New York and Illinois 105 votes, or more than one-fourth the total convention vote of 401.

IN DEATH OF
AGED WOMAN
MORRISTOWN, N. J., Aug. 10 (AP)—A motorist, who confessed he and a companion dumped the body of an elderly woman in woods after their car struck and killed her, was held in Morris county jail today as a material witness while police sought the companion, Raymond Lynch, 27, of Jersey City.

Norman Quay, 44, of Jersey City, led a searching party into the woods of Randolph townships last night after he walked into a Jersey City police station and told Sergeant Charles McGowan he was one of the men who dumped the body of Mrs. Bertha Ayres, 66.

Lynch drove the car.

wishing they were to remain quiet," he reported.

Nude and stabbed twice, the body of Miss Dunn was found beside a swampy creek this morning two miles north of Boca Raton, in Florida's gold coast winter vacation area.

Miss Bolton, pretty blonde, was under a physician's care at her mother's home. Her mouth bruised and in a highly nervous state, she told of having been bound and held captive since leaving her home Monday with Miss Dunn and Jefferson, who professed to be a "talent scout" for movie tests at Palm Beach.

Miss Bolton told an incomplete story of her experiences. She said Jefferson did not attack her but assaulted Miss Dunn and became enraged by her outcries. Miss Bolton was fed with crackers and milk during her captivity.

Jefferson, guarded by detectives, was hurried to the West Palm Beach jail after his confession. Earlier he had told of an accomplice, but police said this was not verified.

He was unarmed when arrested while walking along a beach road at daybreak.

48 BODY OF MURDER 48
SUSPECT FOUND
CHICAGO, Aug. 10 (AP)—The body of Frank Japcynski, 47 year-old national guardman sought for questioning about the mysterious killing of a woman, was found today in Washington Park about three blocks from the armory where the woman was slain.

He had been shot in the head. Police found a pistol nearby.

Miss Elsie Doolerwald, 26, an attractive riding enthusiast, was found shot in the side and chest last night near the riding arena of the regimental armory on the far south side. One bullet had pierced her heart.

Private Charles Held, on guard duty, told investigators he admitted the young woman to the building after being told by Japcynski she would call.

Sergeants Albert Freeman and John Tillman said they were on the second floor when they heard a woman scream. Hurrying to the first floor they saw the girl resisting a man who was pulling her by the hand.

The officers said the man, whom they could not identify in the dim light, pulled a pistol, fired three shots and fled.

49 'Enemy' Craft Succeed 49
In London Air Raids
LONDON, Aug. 10 (AP)—A number of "enemy" planes—craft swept today in penetrating mock defenses as far as London in the third day of Royal Air force maneuvers.

The sky was overcast and umpires commented this condition assisted the "defenders" in some sectors. In others, however, the necessity for low flying made the raiders better targets for anti-aircraft batteries.

The vast network of the civilian air raid precautions system, meanwhile, was tuned up for a midnight blackout test over more than half of England. The scheduled test last night was postponed because of weather.

50 Begin Determining 50
Regulations For Cotton Contest
AUSTIN, Aug. 10 (AP)—Trustees of a \$10,000 state fund, offered to any Texan developing a new use for cotton resulting in increased consumption, began determining administrative regulations here today.

Meeting in Gov. W. Lee O'Daniel's office, Dr. Homer P. Rainey, president of the University of Texas, and Dr. T. O. Walton, president of A. and M. college, trustees, conferred with Burris Jackson of Hillsboro, chairman of the State-wide Cotton committee, on preliminary phases of the plan.

Clifford Jones, president of Texas Technological college, third trustee, was unable to attend.

Reduction In PWA 49
Personnel Made
FORT WORTH, Aug. 10 (AP)—Announcement of a 20 per cent administrative personnel reduction in the seven-state Public Works administration region with headquarters in Fort Worth, was made today by George M. Bull, regional director. Approximately 70 persons including 28 engineers, will be affected by the cut, effective September 1.

Bull said the reduction was ordered by the Washington, D. C. office of the PWA because of rapid completion of projects in the region, including Arkansas, Colorado, Kansas, Louisiana, Oklahoma, New Mexico and Texas.

Comparable reductions will follow in October and November as the 1938-39 PWA program is completed. The PWA setup, as it now functions, will pass out of existence July 1, 1940, as a result of congress' failure to provide additional funds.

Bull said that 50 field engineers already have been furloughed since the employment peak was reached in April. He also said site employment was down approximately 6,000 since late April.

Hope Revived For 49
Boy, Reported Dead
VINCENNES, Ind., Aug. 10 (AP)—Mrs. Edna Lawrence waited hopefully here today for definite word her 22-year-old son, James William, whom only yesterday she believed dead, was alive and well.

The young man, who left home a month ago, wrote last week he had a job picking peaches near Corning, Calif.

She received his card Monday. A short time later, a telegram arrived from Commerce, Texas, saying he had been killed by a train there.

Sorrowfully she offered his body shipped home and arranged a funeral for today.

Yesterday the body arrived. Mrs. Lawrence looked—and said it was not her son's.

The dead man's name, in his papers, was James William Lawrence. But his age was given as 39 and his occupation as mining.

Authorities here began efforts to reach Mrs. Lawrence's son through state police radio.

They expressed belief the confusion arose because both men had registered for work at Stockton, Calif.

James And Garner 49
'Ideal Nominees', Says Publisher
HARRISBURG, Pa., Aug. 10 (AP)—Col. Carl T. Estes, anti-new deal Texas publisher, said today Pennsylvania's Gov. Arthur H. James and Vice President John N. Garner "would be the ideal nominees" for president on the republican and democratic tickets in 1940.

"With their nomination," Estes said, "business would revive immediately and America would turn the corner."

WTCC Urges Formation Of Tax Groups

ABILENE, Aug. 10.—Organization of permanent local expenditure and taxation committees in every city and town in West Texas is urged by the West Texas chamber of commerce in a report issued by its public expenditure and taxation committee. James D. Hamlin of Farwell is chairman of the committee and signed the report.

For several years the regional

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

If you have an excess of acid waste in your blood, your 15 miles of kidney tubes may be over-worked. These tiny filters and tubes are working day and night to help Nature rid your system of poisonous waste.

When functional kidney disorder permits poisonous matter to remain in the blood, you won't feel well. This may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. If you have trouble with frequent or scanty passages with smarting and burning, these may be something wrong with your kidneys or bladder.

Kidneys may need help the same as bowels, so ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

organization has advocated abolition of the ad valorem tax for state purposes. This long advocacy bore fruit with the recent approval of S. B. 224 by the governor, officials pointed out.

The new law will, beginning in 1941, remit to the counties half of the ad valorem taxes collected for state revenue purposes.

In the 132 counties of West Texas, this will amount to a saving of more than \$2,000,000 annually.

For Howard county it will amount to approximately \$24,422.

The tax remission law, together with the new road bond assumption law which allots back to the counties one cent of the gasoline tax, and which will mean several million dollars more to the counties, offers a real opportunity for reduction in local taxes, Hamlin declares.

Principal function of local committees will be to work cooperatively with local public officials in an effort to bring about economies in government and in passing on the savings to the taxpayers. The report points out that 87 per cent of all public expenditures falling upon property taxes is for local government.

Service of WTCC committeemen and staff is offered to local WTCC directors in organizing their local committees.

come back to Maine a few days before, were playing with Olivia and Helene Fernandez. Manuel was deep in a newspaper. Philip was not to be seen.

Philip was waiting for Cecily at the turn of the stairs.

He had a subdued expression on his face. He rose at once and held out his hand. "If I say I'm sorry—and I am sincerely—will you forgive me, Cecily? You're so very pretty, I lost my head. Men do, you know. I promise you it won't happen again."

Cecily couldn't avoid his hand. "It's all right," she said. "Good night."

"Pretty. Appealing. Soft. Warm. The words rang over and over again as she pulled off her clothes, stacking them neatly on the chair beside her bed.

She tried to put them out of her

head as she got into her pajamas and wrapped herself in her woolly robe. She sat down before her dressing-table and dipped her fingers into the cold-cream jar. Then, in the light of her small kerosene lamp, she looked at herself in the mirror.

Her hair was tousled, framing her face softly. The pink of her robe warmed the color in her face. The lamps on a lower level pointed up the long lashes above her eyes, lent them sparkle.

"Cecily Stuart, you're conceited!" she said to the girl in the mirror. "You're a crazy little fool for thinking you're pretty. You've got freckles, and who ever heard of a freckled face being pretty?"

Her question led to another: Did she look as pretty as this to Locke?

Continued tomorrow.

Michigan Man Leads

SAN FRANCISCO, Aug. 10 (AP)—Don Sperry, Flint, Mich., skeet artist, yesterday tied for first in national 20-gauge championship competition, breaking 99 out of a 100 targets along with Dick Shughnessy, Dedham, Mass., defending titlist, and George Scott of Fresno, Calif.

In the shoot-off, Sperry knocked off 25 straight to win the national crown.

Bobby Parker, 15-year-old Tulsa, Okla., made the first straight 100 run of the meet to win the national junior title.
