Gale Stafford

Stafford is Named "Linemon of Week"

by Johnny Ezzell

Gale Stafford was named "Linemon of the Week" by the Lubbock Avalanche-Journal for his play in the Rochester game. Gale is the 6'4", 235 pound tackle of the Matadors.

The paper said that he played a terrific defensive game, especially in the last half when he broke through the Rochester line to drop their backs for losses several times. He made thirteen or fourteen unassisted tackles during the game. Most of the Matadors offensive yardage was over him, also.

CAMPUS CLIPS

by Donna Williams

Senior students are causing a change in the atmosphere at MHS today as they adorn smiles for the Webb Studio photographs. Suit coats and ties and Sunday dresses have replaced the "usual attire." It certainly would be nice if senior pictures were taken every day, wouldn't it?

Following the past two football games, the Baptist Church has furnished refreshments for MHS and their opponent's football team and pep club. All attending have enjoyed this chance to get acquainted with the students of the other schools.

County businesses have been tormented by the La Arena business managers this past week

as they took subscriptions for annual ads.

The twirlers and drum major-ette of the Drum and Bugle Corps are wearing new costumes of red satin and white felt.

Loretta Welch, a student of Portales High School, visited MHS last week as a guest of "Yours Truly."

Let's keep the "ole school spirit" and I'll see ya next week!

Changes Noted in Lunchroom Decor

Soft breezes carry mouth watering aromas that entice the students of MHS to the charming stucco cottage behind the high school. On one side roses climb the walls to give a homey atmosphere. On the other bright flowers greet students as they enter. This is our school lunch room.

Upon entering, students will notice a change. New linoleum has been laid, so the cheerfulness of the lunch room can start from the bottom up.

Behind the counter, the lunchroom women are faithfully there to greet students with a bright smile and a happy word for everyone (despite the sounds of "don't gimme none of that.") These women are Mrs. Henry Thompson, head of the lunch room, Mrs. W. B. Wason, Mrs. H. Blevins and Mrs. Jim Dobbins.

A new face on the lunch room scene is Mr. Moore. Yes, it seems Mr. W. F. Moore wants his finger in every pie, so he is now keeping books for the food house.

Class Adopts New Program

by Sandra Stevens

MHS girls' physical education class, supervised by Miss Sturdivant, has a program set up on posture and body building exercises.

All the girls seem to be walking on stiff legs now, but by the end of the year they hope to be graceful young ladies. It seems the girls are "grannies" and Miss Sturdivant is a spry spring chicken.

Rally Spurs Team To "Get A Buffalo"

by Gene Spray

Go Big Red go! Get a Buffalo. These were phrases that were heard Friday, September 23, as classes went to the auditorium to participate in the pep rally.

The pep rally, led by the cheerleaders, started with "Mr. Touchdown" and was followed by other yells encouraging the Matador Matadors to play their very best.

The Matadors heard inspiring speeches from two senior football players, Jimmy Welling and Buddy Davis and, also Coach Macon.

The Spart-a-let, Cherri Barton, Judy Hobbs and Vada Nichols, sang "When a Matador Boy Walks Down the Street" and "Cheer, Cheer for Old Matador High."

Then everyone rose and sang the school song with a great determination to "Get a Buffalo!"

WITH WORK-PROVED INDEPENDENT FRONT SUSPENSION!

Chevy's '61 fleet swings in with a ready-made reputation as the trucks that are worth more because they work more... the latest editions of the haulers that scrapped the I-beam axle and proved the important advantages of independent front suspension!

You'll find new models for '61—long-wheelbase 4-wheel drive units—and thoughtful refinements throughout the line. But the big news for '61 is nailed-down proof (based on owner reports) that Chevy's torsion-spring design is the best thing that's happened to trucks in decades!

With Chevy's independent front suspension and Sturdi-Bilt design, you cruise over trails where other trucks creep. You feel the difference in low wheel lift and vibration. You can see why drivers are happier, why loads are better protected and why the truck itself will stand up to thousands of miles of more work. That goes for any size Chevy, too—pickups, tilt cabs, tandems, all of them.

COUNTY AGENT PALLMEYER SAYS:

BINDWEED CONTROL DEMONSTRATION PLOT

To assist Motley County farmers with bindweed control problems, a control demonstration plot was established on the Harold Campbell farm on the Roaring Springs - Dougherty road. Signs were erected to make the control plot noticeable for those interested.

Four treatments were used, each covering a square rod. Sodium chlorate was used on one test section at the rate of 6 lbs. per rod. Cost was 81 cents per square rod. Benzac 354 or Zobar was used on another rod tract, with cost being 64 cents per square rod. Trysben 200 or Benzac 1281 was used on the third square rod, at a cost of 64 cents per square rod; and Benzac 354 or Zobar was used on the fourth tract at a cost of 81 cents per square rod. By treating bindweed spots when they are small, the cost can be held down, but for an acre treatment, Sodium Chlorate or Benzac costs \$130.00 per acre, and Trysben 200 or Benzac 1281 and Benzac 354 or Zobar costs \$103.00 per acre. These figures represent cost of chemical only.

Application was made by County Agent Pallmeyer, and A. F. Wiese of the Texas Agricultural Experiment Station at Bushland. Date of application was Sept. 13, 1960.

Four cotton market news reports of interest to farmers and the cotton trade are available from the Agricultural Marketing Service, according to John L. McCollum, manager, Southwest Area, Cotton Division, Dallas.
