### TRAIL DUST

By DOUGLAS MEADOR

Destiny commands a fleet of vessels on the wide sea of human service, but the flagship is compassion.

A tree alone becomes more accustomed to stress and strain in the struggle for survival, and more important, there is never a question as to the breadth and length of the shadow it casts.

History has accumulated some impressive evidence to the effect that more men have submitted to defeat because of a smile than a curse.

Pity the puzzlement of archaeologists digging in the debris of the present world a few eons hence, when they find petrified airplanes in caves, and the unquestionable imprint of automobile tires on the roofs of buildings.

A contemporary has said he would not object to eating crow now and then had it not been allowed to dry so thoroughly in the kiln of a poor memory.

True knowledge may begin with the discovery that weakness, by its natural bent, precedes strength.

A quickie for the road may warrant further hospitalities, including a visit to the bar of justice.

Somewhere in the darkroom of tonight, tomorrow is being developed. We may look at the negative only with the light of another day.

It is ironic that failure produced an influence in shaping the successes achieved by a vast number of men and women. It might be compared to the hidden steel around which a skyscraper is built.

It is fitting to concede that many men find themselves after a woman has told them where they were lost.

## Walter Rogers Bill Would Reduce Tax

**EDITOR'S NOTE:** It will be welcome news to income tax payers that our own 18th Dist. Rep. Walter Rogers is continuing to introduce his bill to increase income tax exemptions, and thus reduce the amount of income tax individuals will pay. It is immediately apparent that his bill would give relief to most of us who are in the small income bracket.

Each week Rep. Rogers mails a special message to the newspapers in his district. Some of the larger papers are able to publish the message each week. The Tribune, which is strictly a local publication and rates above all others, has one of Rep. Rogers' messages set into type which it has been holding since the next week after the general election.

The following message, however, deserves immediate publication. It is the Tribune's obligation to inform its readers that their congressman in Washington is fully aware of their interests and problems and serving to the best of his ability.

May we also suggest that you write him a letter of encouragement. His address is: Hon. Walter Rogers, Congress of the United States, Washington, D. C. Here is his message:

**Bills in The Hopper**

The first days of the Congress always find a good number of measures being introduced. With 437 Members of the House of Representatives, if each Member introduced one bill and these bills were divided evenly among the legislative committees of the House, each committee would have approximately 22 measures upon which to hold hearings.

If each hearing required one week for the presentation of testimony, 5 months would be required in this process alone. The fact is that there will be a good many more bills introduced in the House than 1 by each Member.

During the last term of Congress, 13,304 bills were introduced. In addition to this there were 647 resolutions, 808 joint resolutions and 747 concurrent resolutions — a total of 15,506 measures.

Some of the bills that I have introduced in the new Congress were introduced during previous Congresses. One bill that I have introduced each year that I have been in Washington will be known this year as H. R. 153. It is a bill to increase the personal income tax exemption of a taxpayer and his spouse from \$600 each to \$1000, and increase the exemption for a dependent from \$600 to \$1000.

In previous measures I had proposed an increase in the exemption for a dependent from \$600 to \$800. However, the bill this year suggests that this exemption be \$1000.

In view of the number of dependents that I have had, some of the Members of Congress referred to this measure as a private bill for the benefit of Walter Rogers. However, each year that passes makes this argument less effective.

Jean and I have one less dependent this year than last. Our oldest son, John, has graduated from college and is now an ensign in the U. S. Navy on a tour of duty on the West Coast. Since our 6 children are so close together in age, each year will see a lessening of dependents on our income tax form.

I can certainly speak from experience when I say that a \$600 exemption for a child is not realistic. Hence, I shall continue to press for passage of this measure.

I have also introduced a measure to provide for the appointment of an additional District Judge for the Northern District of Texas.

Our present Federal Judges have been doing an outstanding job in handling the tremendous case load that has fallen upon them. The creation of additional judgeships is long overdue.

Our own Judge Joe Dooley in Amarillo has done an almost impossible task in meeting the demands upon him. This burden must be relieved if proper dispatch of business in the judicial system is to be had in the proper protection of the rights of American citizens.

**The Water Problem**

Two bills that I have introduced have to do with the perennial water problem. One of these is a bill to extend and expand the saline water conversion program to speed up development of practical means for the economical production of fresh water from sea or other saline waters. Success in this field would be the greatest contributions to peace in our time.

The other bill relating to water has to do with the recognition of the authority of the States relating to the control, appropriation, use or distribution of water within their boundaries. As you know, streams are no respecters of State boundaries, and this has created some most serious conflicts between Federal and State laws. My bill has to do primarily with the protection of States' Rights in the water field.

Two measures which I have introduced propose amendments to the Constitution. One of these is H. J. Res. 69 which proposes an amendment to the Constitution with respect to the admission of new States as sovereign States of the U. S.

The proposal that a new State be admitted to the Union would require 2/3 of both Houses of Congress or an application of the legislatures of 2/3 of the several States.

Once such proposal is made as required, the admission of the proposed State would not be valid or effective until ratified by the legislatures of 3/4 of the several States or by conventions in 3/4 thereof as may be required by the Congress.

**RAPID improvement in the economic position of Motley County due to the excellent crop harvested in 1960, is reflected in the financial statement of the First State Bank published in this issue of the Tribune.**

The pioneer financial institution has gained more than one million dollars in deposits since the October 3 statement was printed. On that date the bank deposits were \$2,705,553.84. The December 31, 1960 statement shows \$3,764,610.43 on deposits.

The bank has had a higher deposit (in 1950) but the county at that time had more than 1,000 more population. In case you are curious as to the present per capita wealth of Motley County (based on the new census of 2,870) it is \$1,311.71. This means that on deposit in the bank is wealth equal to this for every man, woman and child resident. (We don't have ours, either).

**Director in Ambulance**  
Director's meeting Jan. 3 was unprecedented in the history of the bank. C. D. Bird, West Texas pioneer, who suffered a broken hip when he fell last fall, was brought to the meeting in an Eady-Seale ambulance. Mr. Bird, who is 94, is a patient in Stanley Hospital.

He was reelected chairman of the board at the directors meeting. Mr. Bird, a retired rancher, is a charter stockholder in the bank.

The First State Bank is the oldest institution in Matador. It was organized in 1907 and purchased a private bank which preceded it. The private bank was located on the south side of the courthouse square. Except for periods of rebuilding and remodeling, it has been in the present location since it was established.

### "Nativity Scene" Materials Return

As mysteriously as they departed, the "Nativity Scene" animals which were removed from the school campus during Christmas holidays were returned.

Many who were shocked at the desecration of the religious symbols depicting the Birth of Christ, have expressed hope that those responsible for the materials removal, may have absorbed sufficient Spirit of Christmas to prompt the return.

In the returned materials was found a "Wise Man" which had not been in the original scene. It had been taken from the Bob Stanley home and had not been missed until attention was focused on the return.

### PIED PINIONS

By Mrs. M.

Adversity seems to shadow some lives with such persistence that we are prone to question the bard's declaration that "Sweet are the uses of adversity; which, like the toad, ugly and venomous, wears yet a precious jewel in his head."

Late in November an accident on the Golden Gate Bridge disfigured almost beyond repair, the face of Jo Ann Edmundson, daughter of former county residents, Mr. and Mrs. Gordon Jackson of San Francisco, and a granddaughter of Mrs. J. M. Jackson of Matador. The father was reared here and the mother in Roaring Springs.

The young woman's sportscar spun out of control and into a railing. Her attractive face was smashed, and plastic surgeons worked during a four-hour operation to try to save one badly damaged eye, her smashed nose and cheekbones and her shattered jaw. The operation was the first of many that will be necessary to restore her to normalcy.

This tragedy in itself would be hard to bear. But misfortune for Jo Ann had stalked her life in another accident during her teen years, when she was struck by a streetcar and fell under the wheels. Both her legs were severed.

The girl's courage, coupled with an ability to sing won for her a spot on a radio program for a time, and she performed from a wheelchair while becoming adjusted to artificial limbs. She was later married, and is the mother of two small children.

When West Coast entertainment stars, including the Kingston Trio, learned of the recent tragic accident, they planned a benefit show at the Opera House for Jo Ann, according to a clipping from a San Francisco newspaper.

In the interim, while the milk of human kindness flows, one wonders about the jewels of adversity.

To obtain instant comfort, a woman removes one and/or all of three items from her person: her ear clips; her shoes; her girdle.

miles between lubrications

30,000 is the most famous number of the year. It's every '61 Ford owner's license to save. How can Ford do it? Conventional chassis lubrication fittings have been replaced with metal plugs that help protect each lubrication point against abrasive mud, dirt and dust. And then, for only about \$4 and about 20 minutes your Ford is ready for another 30,000! This is just one of the many ways the '61 Ford is built to take care of itself. Your Ford Dealer can show you more.

**HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF**

Lubricates itself—You'll normally go 30,000 miles between chassis lubrications (which cost only about \$4.00 and take about 20 minutes) because Ford has replaced conventional grease fittings with a sealed-in lubrication system.

Cleans its own oil—You'll go 4,000 miles between oil changes because Ford's Full-Flow oil filter gives you filtration through fibres...trapping more dirt than any other type of filter made.

Adjusts its own brakes—New Truck Size brakes adjust themselves—automatically.

Guards its own muffler—Ford mufflers are double-wrapped and aluminized to last three times as long as ordinary mufflers.

Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.

Takes care of its own finish—Just wash and clean Ford's new Diamond Lustre Finish and it continues to gleen like new. It never needs waxing.

Only FORD is beautifully built to take care of itself

## CAMPUS CLIPS

By Donna Williams

Last week's semester tests were "whoppers" and made most of us wish that we had started studying at least a week earlier.

Hey Students! Do you realize that there are only ninety and one-half days left until school is out?

We'd like to congratulate Gale Stafford and Guy Campbell, who were chosen for the all South Plains football team.

Gale Stafford may not appreciate the congratulations since he has been convalescing from a virus.

Remember: success is still operated on the self-service plan! See "ya" next week!

1961 MERCURY MONTEREY 2-DOOR HARDTOP

**TRADITIONAL MERCURY COMFORT** Only Mercury has Cushion-Link Ride (standard on Monterey and Meteor 800)—a unique suspension system that absorbs jolts and jars that come through to you in other cars. It "gives" backward and forward as well as up and down. And Mercury has a longer wheelbase (120 inches) and greater weight (up to 241 pounds heavier) than other cars in its price range. Result: you enjoy a smooth, solid, steady big-car ride you'd expect to pay much more for. There's plenty of stretch-out room in Mercury, too—even more rear seat hip, shoulder and head room than in last year's spacious Mercury. Wider doors and more trunk space, too.

**TRADITIONAL MERCURY VALUE** There's extra value in Mercury's engine choice—all the way from the Super-Economy "6" (Mercury's first "6") to the powerful Marauder V-8's. And even the top-performing V-8's deliver up to 15% better gas mileage. There's extra value in Mercury's seven self-servicing features. From self-lubricating chassis to self-adjusting brakes, they save you money every mile you drive. Everywhere you look, the 1961 Mercury offers you traditional Mercury values. Now, for the price most people pay for a new car, you can own a Mercury. Take your pick of Mercury's three great series and drive it today!

#### ON SICK LIST

Several persons have been on the sick list recently. Included among these were Ray Perryman and Mrs. Jack Lawson, who have recently returned home from Spur Memorial Hospital where they spent some time.

Bobby Howard was hospitalized last week at Crosbyton, but is now at home and seems to be recovering nicely.

Mrs. Len Roberts has returned from a Houston hospital, where she received surgery and is now in Stanley Hospital, Matador, with her condition reported to be fair.

Alvie Pernel has been critically ill in Stanley Hospital.

Ann Martin suffered an accident last week, cutting her arm which required several stitches to close the wound.

#### NEW YEAR'S BABY

The first baby of 1961 born in Spur Memorial Hospital was a girl, born to Mr. and Mrs. Calvin Billings of Lubbock, on Sunday, Jan. 1. The baby weighed 9 pounds and 12 ounces and was named Lisa Caren. The mother is the former Barbara Paul Edwards, daughter of Mr. and Mrs. Elmer Edwards of Lubbock, formerly of Afton and Spur.

#### CLASS ELECTS OFFICERS

The sixth grade class of Patton Springs school held a called meeting January 2 to elect new class officers. Those elected were, James Morris, president; Cherrie Hughes, vice president; Delores McCarty, secretary; Shirley Hickman, reporter; and Nicky Pernel, treasurer.

Each month the class will call a meeting to elect new officers. The problem discussed was

whether or not to buy new library books for the class.

A party was enjoyed Friday evening in the home of Dickie and Carol Randolph.

#### COUNTY AGENT PALLMEYER SAYS:

##### INCOME TAX MEETING

Do you sometimes feel that you are paying more income tax than you can afford? If you do, there is no reason to become alarmed. You are just one among millions. What can you do to save tax dollars? Thousands of farm and ranch operators as well as homemakers are learning the answers.

Provisions for reporting farm and ranch income are spelled out in laws. Do you understand all of these laws? Chances are you do not. If you do not, there is an equal chance that you are paying more income tax than the law requires.

The amount of money you will be able to save depends on how you manage your operations throughout the year as well as how you list the income on the return forms.

Whether you fill out your own tax forms or employ the services of someone else, it is just as important, from a money saving standpoint, that you understand the interpretation of the tax laws.

Your County Agent has arranged an informative meeting for your benefit. Tom Hunter, District Extension Management Specialist from Vernon will be in Matador at 7:00 p.m. Thursday, Jan. 12th to assist in giving you tax management tips. He has been trained by members of the Internal Revenue Service from the Dallas District office.

The meeting in the Courtroom will be informal, thus offering you the opportunity to ask any questions you have on farm income tax or social security benefits.

The time that you spend at this meeting, will, in all likelihood make you more money than anything you have done during the year in the same amount of time.

##### WEEK END VISITORS

Miss Kay Stanley, West Texas State, Canyon, student brought as her guest Miss Betty Ann Troutman of Dumas, also a student at West Texas, for a week end with her parents, Dr. and Ms. J. S. Stanley. They were accompanied by other WT students, Franklyn Thrasher, Tommie Loveless of Farwell, and Quinton Eppinette of Dumas, who were guests of Thrasher's sister and family, Mr. and Mrs. Doyle Rose.

## THE '61 CHEVY BRINGS

### JET-SMOOTH TRAVEL DOWN TO EARTH

HERE'S WHAT GIVES CHEVY ITS JET-SMOOTH RIDE—  
Full Coil suspension—Chevy's one of the few cars with a coil spring at every wheel. Precision-balanced wheels—For smoother rolling with less vibration. Sound-hushing insulation—Sheet metal is carefully insulated against rumbling and vibration. 51 built-in "shock absorbers"—Cushion the chassis against shock and shake. Live rubber body mountings—Extra-large butyl rubber cushions that further isolate the ride from the road.

This is the Impala Sport Coupe—just one of 80 Jet-smooth Chevys!

Better just circle your dealer's block the first time you try a Jet-smooth '61 Chevy. Get anywhere near an open highway and he's liable never to see you again.

What we mean, Chevy's ride wheels your yen to travel. Wins you over with its delightful coil-spring smoothness, its hushed comfort and light steering. You find yourself feeling sorry for people who buy higher priced cars, thinking they have to pay premium prices for a luxury ride.

That may have been true at one time, but not any more. Chevrolet's ride, its roadability, just doesn't take second place to anybody's. Drive one soon and see.

**WALTER ROGERS...**

(Continued from page 1)  
**Bridle For Supreme Court**  
The other proposed amendment to the Constitution is contained in H. J. Res. 70. This proposal would authorize the Congress to limit the power of the Courts of the U. S. to determine that statutes of the U. S. or of any State are repugnant to the Constitution of the U. S.

The exercise of the authority by Congress would require a 2/3 vote of each House of Congress. Few people realize the full extent of the power of the Supreme Court.

The Supreme Court has the power to declare a statute of the U. S. or any State unconstitutional. Any effort by the U. S. Congress or by the legislature of any of the several States to rewrite the law could meet the same fate. Hence, the Supreme Court has the power to nullify the law on any subject.

It is my feeling that this power is too absolute and that there should be, under proper procedural limitations, the right to appeal to the Congress of the U. S. which is made up of the duly-elected Representatives of the people.

Another joint resolution, to-wit, H. J. Res. 68, provides for an extensive study to be conducted

as to ways and means of expanding and modernizing the Foreign Service activities of the U. S. Several of us feel that the representation of this country in foreign lands could be better accomplished if provision could be made to assist young people from many areas of this country, especially in the smaller towns, in entering the Foreign Service. In other words, we feel that a look behind the purple curtain that seems to enshroud our State Department would be good for this country not only at home but in many areas abroad.
