TRAIL DUST

By DOUGLAS MEADOR

The depth of a muddy river is always in doubt, but the crystal stream conceals no secrets beyond the enchantment of tranquility.

Old roads are wrinkles on the countenance of memory like delicate figurines left in the crumbling playhouse of yesterdays.

Prayer was not intended to replace work for blessing sought.

Two waves, two clouds, two days alike and God might be displeased with the dilatory variety in patterns.

Gossip is the pithy portion of conversation that swells more through repeated chewing.

Howling coyotes stain the silence with eerie cries and leave the horizon haunted until gray dawn washes it clean.

To renege a promise is to mar the polished stature of character and break the golden chalice of faith.

Mother-Daughter Banquet To Offer Surprise Features

Many delightful surprise features are in store for mothers and daughters who attend the 23rd annual Mother-Daughter Banquet sponsored by Matador Parent-Teacher Association, on Feb. 14.

Decorations, program and menu committees are working diligently to arrange for another outstanding evening of entertainment for girls attending Matador schools, and their mothers.

Tickets will go on sale in the near future, and girls in the third grade through high school are eligible to attend.

It is hoped that every mother who has a daughter will accompany her to the banquet. In families where there are more than one girl, other women in the community will fill in as "adopted mothers." Those interested in "adopting" a daughter for the occasion should notify Mrs. D. L. Damron who will be in charge of ticket sales.

Quannah Banquet Speaker Says

Commie Theory is Disease of Mind

"COMMUNISM IS A DISEASE of the mind affecting the lives of approximately 900,000,000 people and it is spreading. It is here in the United States, in almost every branch of government service. The overthrow of our way of life is the openly declared goal of communism's leaders."

These statements and many more equally alarming were made Monday night at Quannah by Fred Koch, Wichita, Kansas industrialist, who probably knows as much about the communist and his insidious theory, as any third of the population in order to gain complete control. The same pattern was used in China and other countries which have fallen to communism. It is evident in Cuba. At present they are after control of the Panama Canal.

"I think the plan for some form of world government is very dangerous and would lead directly into the communists' plans. Equally dangerous is our pouring out billions to foreign aid which is in fact financing our own destruction."

Give China UN Seat

"I would give Red China a seat in the United Nations. Ours is the UN is a haven for subversion."

"The communist has infiltrated our school system, public offices, churches, television, radio, the screen, newspapers and magazines. They carry on their propaganda through these sources. Actors, writers and directors are aligned in their movement. Want to prove this? How many television shows, or motion pictures have you seen in which the communist was the villain?"

"We have played a large part in making communism possible," Mr. Koch said, "by actually financing their plans around the world because we were duped by their lies. They speak of peace but peace to them means communism. They are stirring up racial hatred and using every form of propaganda known to make us ridiculous to the rest of the world."

Home Destroyed In Negro Area

Fire destroyed a home in the Negro area of Matador about noon Monday. Fire Chief Freddie Welling said it was believed the fire may have been started from a wood-burning stove.

The house belonged to Donald Jeffery. The building and contents were a complete loss.

It is the second time within approximately one year that the Jeffery family has lost a home by fire.

Lions Will Hear "Boom" Explained

Several members of the Matador Lions Club are nervous and when the high flying jets break the sound barrier it is difficult to explain to them that Castro is not attacking. It is hard to explain a "boom."

But that is what Ray Cullin, well-known Amarillo KGNC's newscaster, and son of Lion and Mrs. George Cullin, of Matador, is going to do at the Tuesday luncheon meeting of the civic club.

The Flomot community received contributions totalling \$259.63, according to last reports. Whiteflat has reported \$85 contributed with more contributions expected.

1960 RANKED 3rd AMONG WET YEARS

IT REQUIRES a lot of patience to keep accurate weather records like those maintained by Pharmacist Bob Stanley. He has recorded every amount of moisture that would show in his rain gauge for the past seven years.

Last year (1960) the total rainfall was 31.29 inches, but 1957 was wetter, with a total of 32.62 inches (rainfall in 1941 was about 45 inches and before Bob started keeping records).

Wettest month in the past 84 was May in 1957 when the total rainfall was 9.47 inches. Second rank was last year when 8½ inches fell in October. Several months did not register a single drop of moisture. Last was Nov. 1960. Others were Feb. 1954, Dec. in 1955, Sept. in 1956 and July in 1957. A great many months registered only a small fraction of one inch.

The driest year in the past seven years was 1956 when Bob caught only 5.93 inches for the entire 12 months. The average rainfall for the past seven years has been 21.88 inches. May and June have been the big rain months on the chart kept by Mr. Stanley, but Sept. and Oct. have averaged fairly well. Jan., Feb., and March have been the dry months. December has also held a fairly good dry record, but caught 4.08 in 1959 and 2.61 in 1960.

The total rainfall for seven years that has been trapped in Bob's gauge is more than 12 feet, which is pretty impressive until it is spread over 84 months.

Here are the years: 14.51 in 1954; 20.20 in 1955; 5.93 in 1956; 32.62 in 1957; 19.67 in 1958; 28.92 in 1959; and 31.29 in 1960.

With time available the Tribune will tabulate the rainfall as recorded by Mr. Stanley during the period he has kept the record.

El Progreso Club Hears Discussion Of Latin America at Recent Meeting

Mrs. Bill McCaghren was hostess to El Progreso Study Club as it met in regular session on Thursday of last week. Miss Sue Glenn was leader of an interesting program on "International Affairs - Neighbors to the South," as the government, art and music of the Latin American countries were discussed.

Mrs. W. D. Lipscomb spoke on "Panama." She said the people of Panama were natural music lovers and famous for their creative dances. As for their government, their president is elective and they have free schools and compulsory education up to the sixth grade, attending school in the summer and taking their vacations in the winter.

Mrs. Joe Bloodworth spoke on Mexico, whose arts and crafts furnish a great contribution to American life. "They seem to have a natural rhythm, and dancing is native to the race," she said.

Mexico now enjoys a great amount of maturity, Mrs. Bloodworth told the club, having overcome many of their difficulties they have lighted the fires of hope for their 35 million people.

Speaking on Cuba, Mrs. Gene Hawkins pointed out that that country had never had a workable government.

"A former official of the Castro government was reported as saying in the January issue of U.S. News, that he was convinced that Fidel was determined to give over the 6 million Cubans to the service of Internal Communism," said Mrs. Hawkins. "We know of course that on January 3, 1961, our government broke off diplomatic relations with Cuba."

As for her arts and music, Cuba has had many great artists and painters, including Ponce de Leon, Amelia Pelaez, and Mario Carreno. Speaking of Cuba's music, Mrs. Hawkins described it as having indescribable charm. "It has no high-brow or low-brow," she said, "it is purely and simply the music of Cuba. The Havana Philharmonic has furnished many good musical programs."

The music committee furnished two enjoyable numbers for the club, brought by Mrs. G. E. Hamilton, who played "The Cubalero," on the piano and was accompanied by Olivia Campbell with the castinets. Cathey Clem of Roaring Springs sang "La Paloma," accompanied by Mrs. Hamilton.

In the business meeting, the

PIED PINIONS

By Mrs. M.

There once was a little ground hog . . . Who was made to feel like a dog . . . When his shadow he spied . . . (For Old Sol didn't hide) . . . And now he's an underground hog.

Orchids to Mrs. C. D. Pipkin, who passed her 82nd birthday Sunday, (Jan. 29). "Aunt Ida" to her relatives and close friends, came to Matador in the early days (1891) with her parents, the late Mr. and Mrs. T. N. Edmondson, from De Leon.

Three families, the Edmondsons, her brother, Joe Holland and his family, and the J. L. Burlesons came in a caravan of covered wagons. The Hollands became dissatisfied and returned to Comanche County, but the other two families remained, and Miss Ida Edmondson became the bride of a pioneer Methodist minister, the late C. D. Pipkin, at Matador in 1907.

Mrs. Pipkin, until few years ago, enjoyed a daily walk to the post office for her mail. Although not as active as formerly, she still enjoys attending church, and it has been noted on a number of occasions that she sings the hymns through, without reference to the hymnal, even when all five verses are sung.

Her late husband, the oldest of seven brothers, had entered the ministry in 1899, and was the first pastor of the Methodist Church in Crosbyton, which held Homecoming, Sunday, January 22, for the consecration of a new Sanctuary. It was noted in a special feature in the Crosbyton review that the "First Methodist pastor (Charlie Pipkin) preached in a tabernacle with a leaky roof." Rev. Pipkin, who served a number of South Plains churches as a circuit rider preacher, returned to make Matador his home for a number of years prior to his death here in March, 1941.

Of their five sons, only one, W. N. (Bill) Pipkin still makes Matador his home. The others are, Earl and Cecil both of Lubbock, and Leslie, of Lamesa. One son, Clyde, is deceased.

The pleasure of having Mr. and Mrs. Morris Brooks of Long Beach, Calif., as their recent guests was heightened for Mr. and Mrs. G. E. Hamilton by the versatility of Mr. Brooks. He not only "played for his supper," but helped with cooking it as well.

Mr. Brooks, who is a musician, joined Mrs. Hamilton at her duo pianos in playing for a sing-song when a number of friends and relatives were invited in for coffee. Mr. Brooks also baked the cookies which were served. A native of Michigan, he enjoyed his first visit to Texas, and donned chaps and other cowboy apparel to pose for some snapshots.

Mrs. Brooks, a cousin of T. B.

Edmondson and Mrs. C. D. Pipkin, is remembered here as the former Lolita Coper Robinson. She lived here as a girl, and later moved to Childress to make her home. Following her husband's death several years ago, Mrs. Robinson went to California. It was there that she met and was married to Mr. Brooks.

Their trip to Texas was marred for the couple when an accident sent Mrs. Brooks to Methodist Hospital in Lubbock. After their visit to Childress, they returned here and continued to Lubbock to visit friends. There while making a tour through the beautiful First Methodist Church, Mrs. Brooks fell and broke her arm between the shoulder and elbow. She was dismissed just Monday and they are now continuing on their return to Long Beach.

Simpson, Duke Lipscomb, J. B. Cooper, Melvin Meason, Vance Gilbreath, Algine Groves, Charlie Scaff, and Curtis King and Misses Roberta Jameson and Jane Hamilton.

Mr. and Mrs. W. N. Pipkin attended the wedding in Lamesa, Sunday, of his nephew, Ronnie Leslie Pipkin, who was married in a double ceremony to Miss Wanda Kay Foster. Her sister, Miss Roy Nelle Foster and Richard L. Amos also exchanged vows in the ceremony.

The Misses Foster are the daughters of Mr. and Mrs. DeWane Foster. Ronnie Pipkin is the son of Mr. and Mrs. Leslie Pipkin of Lamesa, and parents of the other bridegroom are C. P. Amos, Lamesa, and Mrs. Metta Thompson of North Bend, Wash. Gerald Pipkin, Texas Tech student from Lubbock joined his parents in attending the wedding of his cousin.

Campus Blanketed With White Stuff

The MHS campus again changed colors recently. It slipped from the brown of dead trees and grass and the spots of green premature spring buds, into the dazzling white of a winter wonderland.

It seems there were a few complaints however, about the snow's texture. Instead of the usual moist "white stuff", this came in fine dry flakes (which any one knows doesn't pack into firm snowballs). It looks like in following the trend, the weather is being produced with "instants" too. For snowballs, just add water!

Of course the regular amount of horseplay (ganging up on teachers, rolling unsuspecting girls and slaughtering freshmen with snowballs) went on, but MHS weathered the storm and came through intact.

MHS New Year Resolutions

Here it is a new year! By now everyone should be in the swing of living up to his New Year's resolutions.

All teachers' demerit pads should be quite clean, for every one must have determined to behave better by making resolutions to: stop popping gum, and start blowing bubbles; stop throwing spit wads, and start throwing erasers; stop whispering while the teacher is talking; and start talking out loud; stop griping when given an assignment, and just not get it; and stop putting assignments off until the night before they are due, and start putting them off until the morning you have to hand them in. However, it seems that with these kinds of resolutions, the demerit pads would be full and the teachers grade books

have a few failing grades. Imagine that!

Even though you still don't see too many halos after these resolutions, what would New Years (and teachers) be like without them. . . better maybe?

The girls took a close 34-30 victory over Quitaque in the opening round but Clarendon topped them 41-34. The loss ended a 15-game winning streak for the girls.

The Quitaque boys and Clarendon girls won the tournament championships.

Sophomore Scoop

Preregistration time is here for the sophomores and this is the main topic for conversation among the class members. Some are still undecided which subjects or how many they want to take. This will be one of the biggest decisions they have to make since becoming high school students.

One member, Gary Lancaster, has been missing from the sophomore classes. If anyone knows of his whereabouts, please notify one of the other members.

JUNIOR JOBS

by Vada Nichols

The junior play committee has been busy picking out a play. Everybody is excited over the event and looking forward to its production. Of course, all juniors are hoping they will get a part.

The class has only four weeks

now, until term themes are due. Each student has picked his subject, and the typing students have been introduced to the form and the pattern that will have to be used. It looks like the juniors will have their turn at studying hard now!

WHY SPORTS?

Let's go gang! Let's have a basket! Make that touchdown! Hit a homer! All the way big team! These are phrases that you hear during a basketball, baseball, or football game. Many other similar expressions are heard. Why? They are to encourage the players as they participate in the varied sports.

Why should there be so much interest in sports? What is the importance of athletics? Some people believe that sports are of little importance, but most realize their true value. A ballgame is like one's everyday living.

There are many ups and downs, and although sometimes the player would like to give up, he knows he must keep working if he is to win. One game in itself not only prepares the players to cope with daily problems, but prepares him for the whole season. Just as one has to work hard to get a job, a player must work long and hard to acquire a position on the team. In this big cruel world where people must learn to work together, a player develops this ability as he participates in athletics.

Not only do sports help players make preparation for the problems of life, but they use up their nervous energy and their time is put to good use. In this manner there is no time left for him to get into serious trouble.

The standing of sports is of great importance and should never be underestimated!!!

Childress FFSLA Assets Growth Up Over 40% in 1960

Despite general leveling off in home building in 1960, First Federal Savings Loan Association of Childress had an excellent year, with assets increasing

to \$3,185,787 or 40% above the figure in 1959, Russell V. Jones, Executive Vice President has announced.

Writing in the institution's annual report, Jones said the year was marked by record gains in savings and savers, with many individuals and families stepping up their savings programs, "in part because of caution, but also because they have developed systematic savings habits."

The high savings level, coupled with ever increasing repayments on outstanding mortgages, assures an ample supply of home mortgage money for home buyers in 1961, he said.

He listed highlights of FFSLA's 1960 operation as follows:

1. Net savings increase by \$838,923 or 44%, boosting total savings capital to \$2,749,521 at the year's end.
2. Savers increased by 317, or 42%, and total savings account holders now stand at 1077.
3. Dividend payments to savers totalled \$95,490, and 61% above the 1959 figure, and an all-time high.
4. The dollar value of the home loan portfolio increased to \$2,628,523 at the year's end or by 31%.

Looking ahead, Jones predicted even greater gains as First Federal continues its expansion program over a wide area.

A BANG-UP SALE TO CELEBRATE!

3 BIG DAYS!

Thursday, Friday and Saturday, February 2-3-4

ALL SALES CASH

NO REFUNDS

NO ALTERATIONS

DURING THE PERIOD of almost 28 years in which my late husband W. F. Jacobs (deceased November 4, 1960) operated the Matador Variety, he did not conduct a store-wide clearance sale. It was his plan, however, to announce a sale in January or February, this year.

I will continue to operate the store under the same policies my husband established. I will continue to offer quality merchandise at the smallest margin of profit consistent with sound business.

For obvious reasons it is necessary that I completely close out some lines which Mr. Jacobs sold. During this three-day sale I have marked down every item. Many are at cost and some are below cost. Some of this merchandise is brand new, purchased by Mr. Jacobs on his last trip to market. I truly believe you will find some of the best values ever offered in this area. I want to urge you to come early for best selections.

Also, in this space, I want to thank the people of Matador and surrounding area for their years of loyal patronage, and to assure you that I will attempt to the best of my ability to follow the policies upon which Mr. Jacobs built the goodwill and patronage of the Matador Variety. I will truly appreciate your continued patronage.

Sincerely,

Mrs. W. F. Jacobs

COMMIES . . .

(Continued from page 1)
 ing the hearing in which youths were led by communist agitators. The mobs stormed the hearing room, defied the police and witnesses refused to give testimony. The crowd hearing Mr. Koch almost doubled the original plans for 300. The meeting was moved from the school cafeteria to the gymnasium which was filled to capacity. Attending the banquet from Matador were Jim Cross, manager of the Matador Ranch and Douglas Meador, editor of the Tribune.

Congressman Here; Seeks Senate Job

A Congressman visited Matador during the blinding snow storm Friday afternoon. He was Jim Wright of Fort Worth, the aggressive young West Texan, who six years ago spent most of his campaign funds to buy a large space in the powerful Ft. Worth Star-Telegram (which editorially opposed him) and won his race for Congress by a 15,000 majority.

He is now a candidate for the U. S. Senate seat vacated by Lyndon Johnson and is one of the 16 men (and one woman) in the race.

Jim Wright, now 37, a veteran of World War II, is among the youngest members of Congress. He was reared at Weatherford and later served as the city's mayor at the same time the Tribune's editor Douglas Meador was mayor of Matador. Wright has been reelected to Congress twice (without opposition) and the Ft. Worth Star-Telegram is now supporting him editorially for the place as U. S. Senator from Texas.

Stopping here en route to Memphis where he was principal speaker at the annual Chamber of Commerce banquet, Congressman Wright visited the Tribune, and later with Rev. Gene Hawkins and County Judge Elbert Reeves. In demand as a public speaker, Congressman Wright has made more than 500 speeches in the past six years and is engaged to make more in West Texas before the special election, April 4th.

the firm will observe its first birthday in Matador with a store-wide clearance sale continuing for a week.

M. S. and Joe (Buzz) Thacker, owners of the store wish to advise customers and friends that the sale applies only to the Matador store, and that regular prices prevail at their Roaring Springs store.

IN STANLEY HOSPITAL
 Mrs. B. C. Cox entered Stanley Hospital Sunday, suffering an attack of flu. Also a patient in the hospital and described as being in a serious condition, is G. D. Wolf.

Former Resident Seeks Relative

A pioneer resident of Motley County, Almie C. Barnett, 1714 West Spurgeon Street, Ft. Worth 15 (telephone WA 4-7893) is seeking the whereabouts of missing kin, and in a letter to Kim Wilkinson, asked that he deliver the following message to the Tribune editor:

"Dear Sir:
 "I resided in your fine county from December 1907 through 1911.

"My brother, Lee L. Barnett married Miss Pearl McClendon, who resided in the Whiteflat community. They later moved to New Mexico, near Des Moines.

They were separated in 1911. They had one son whose name was Raymond. It is important that I get in touch with him. He goes by his stepfather's name.

"Anyone knowing the whereabouts of any of the McClendon family (John, Henry and Carrie) please get in touch with me at once."

Mr. Wilkinson said he had been advised that Carrie McClendon married a Silverton man and lived somewhere in that area.

Range Conservation Stamp is Issued

Conservation leaders are looking forward to issuance of the world's first range conservation postage stamp today by the Post Office Department in Salt Lake City.

The commemorative 4-cent stamp, printed in 3 colors, will be issued at the American Society of Range Management's annual meeting at Salt Lake City.

The stamp will go on sale at the Post Office here Friday. The stamp is in two parts. One part is a reproduction of the famous drawing, "Trail Boss," by Charles Russell, the distinguished artist of western life. The other part shows a modern range conservation scene.

The new stamp symbolizes the development of range conservation from the pioneer days of the open range to today's scientific management techniques.
