MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, MAY 23, 1963

## Welcome Rains Over Most of County

MOISTURE fell on the thirsty soil of Motley County Tuesday afternoon and continued most of the night. Here in Matador Bob Stanley recorded an even inch, and reports in dicate that the entire county received the welcome moisture. Some reports of more than one and one-half inch have been received north and west of Matador. The rain brought the year's total above the same date a year ago.

Last year the rainfall from the first of January until the 21st of May was 2.41 inches. The if it only possessed a rain Tuesday night brought this year's total to 2.98 inches. Rainfall on the same dates in 1960 was 5.09 inches and in 1961 it

MAN WHO CAME TO DINNER— Standing beside his helicopter in above photograph is Capt. J. M. Rogers of Camp Wolter (near Mineral Wells). Landing on the north end of Burleson Field here Friday noon, he merely had to cross the street to the home of his grandmother, Mrs. J. M. Jackson, and his mother, Mrs. M. H. Rogers. The unexpected visitor was in time for lunch. In the afternoon he continued to Lubbock where he was scheduled to take part in the -Tribune photo and engraving

# Farmers Refuse to

the newly proposed wheat plan, with a surprisingly large vote being recorded. The total vote in this county was 222 out of a possible 450.

### FIRST WHEAT IS HARVESTED

The wheat, delivered May 16, vas purchased by Braselton Grain Co. at \$2 per bushel (10c bonus above market price on that date). It tested 15.35 moisture and weighed 62 lbs. to the bushel.

S. J. Braselton, manager of the elevator, said it was the earliest wheat he has ever received. He said that because of dry weather conditions, he had thought earlier of not opening the elevator, but by Tuesday night he procured three carloads of wheat. He said there is more wheat in the county than he had first estimated.

Something new in REDARE refrigerators?

### YOU BET!

Think back over recent developments in flameless electric refrigerators. Freezing compartments have grown steadily larger reducing the refrigerated area. At the same time home freezers have gone into countless homes. Result? Lack of adequate refrigerated food storage space. Well...here's the answer ... Frigidaire's new "Mini-Freeze" refrigerator! It's designed strictly for the housewife with a home freezer, for it has 96% refrigerator space and only 4% freezer space for ice cubes and the like. This new innovation can be yours for a small down payment and sensible monthly terms - even less with trade-in. Call West Texas Utilities today - or better still, go by and see the sensational new Frigidaire "Mini-Freeze" refrigerator.
