TRAIL DUST

By DOUGLAS MEADOR

A patent desire to render service in any capacity, humbly and personally, is but one of the many colonies of friendship.

Home design has become a fluid concept that moves too rapidly to be contemporary. If yesterday's ultra-modern home looked like a buggy-shed with forced air heating, tomorrow's dream palace may copy the lines of an abandoned army barracks with Pullman doors and glassed-in bathroom on the front elevation.

The specter of tragedy in graveyards of wrecked automobiles writes the awful and futile message of twisted steel and faded upholstery fluttering between teeth of broken glass.

Religion has had many critics through the ages, and most of them have come from the ranks of skeptics who refused to give Divine faith a chance in their lives. Absence from experience will not tolerate commitments in achieving profundity.

One advantage of age is being able to discover new fields of comfort without any particular concern of the effect on personal attraction.

A friend who sustained a slight injury, looked at the dried blood on his hand and said he could feel compensation setting up.

Some men do not wait for their ship to come in. They swim out after it holding a tow rope in their teeth.

Large Crowd Makes Tour of Homes Sponsored By El Progreso Club

Progress of the community during the past several years is noted in the steady increase of new homes being constructed. Ten of these, built within the past two years, were visited recently in a Homes Beautiful tour sponsored by El Progreso Study Club. All of the homes with the exception of one, are in the south part of town.

A large group made the tour. Members of the club served as hostesses with the home owners, to conduct the visitors.

The tour began at 2:00 p.m. at the home of Mr. and Mrs. Freeman Thacker, which was remodeled last summer, and finished with brick. The homestead was formerly owned by the late Rosa Cammack and is located on Maine street across from Stanley Hospital.

The Glenn Woodruff home, completed in December, 1961 and included in the tour, is located on acreage on Tilson Avenue at the South end of Eubank street. The property is east of the J. D. Mounce home, formerly owned by the late Dr. and Mrs. E. W. McKenzie. The impressive brick home was the first in Matador to have a private swimming pool.

Two other new brick homes in the same neighborhood, but on the South end of Main Street which were visited were the W. D. Lipscomb and Alfred Barton Jr., homes, the latter a Medalion all-electric home.

A swimming pool has been added to the Floyd Henderson home on West Walton Road, which was completed last fall and was one of the homes visited.

The new brick home of their daughter and family, Mr. and Mrs. E. A. Day at the corner of Walton Road and White Street

was included in the tour, and Mr. and Mrs. Howard Traeweek were hosts at their new brick home on Bundy Street, east of the Matador schools, which was built last year. A spacious combined living room and den is one of the attractive features of the house.

Soon after selling her home on North Bundy street last year, Mrs. Bess Patton moved to a location on North Main, into a new ready-built home, one of those on the tour which has added a bright touch to the neighborhood with its white and pink decor.

Returning to South Eubank street, the group was conducted through the Alvin Stearns home, constructed of brick in 1961, and from there they went to the most recently built home on the tour, that of the J. L. Woodruffs, further down the street, south, where refreshments were served, and the tour ended.

The spacious ranch style home of Mr. and Mrs. J. Farris Fish, on Walton Road west of the J. R. Moore home, which has been under construction for several months, was not completed in time to be included in the tour.

Members of the tour committee joined Mrs. W. N. Pipkin, president of El Progreso Club in expressing appreciation to everyone who assisted in any way, with the arrangements and hospitality, and especially to those who opened their homes to be visited.

Recent visitors in the home of Mr. and Mrs. Bill Pipkin were a niece and her husband, Mr. and Mrs. Clifford Harding of Glorieta, N. M. They also visited Mrs. C. D. Pipkin.

FROM CALIFORNIA

Mr. and Mrs. Joe Holt of Sacramento, Calif. were recent guests of her parents, Mr. and Mrs. G. W. Brinsfield. From here they went to Arkansas to visit Mr. Holt's relatives and other short visit before returning home.

Mr. and Mrs. Edgar Lee and Mr. and Mrs. E. W. Smallwood attended funeral services for Edgar Smith, 74, Saturday in Quanah.

James T. Clifton of Temple City, Calif., visited here this week in the homes of his mesdames, Mesdames Bill Pipkin, W. F. Jacobs, Robert Darsey and K. E. Campbell Jr.

Mr. and Mrs. James (Doc) Taylor have returned from a recent vacation trip to Las Vegas, Nevada, where they visited relatives.

Seniors Return From Class Trip

By Jill Scaff
 The Matador High School Seniors of 1963 returned from their annual senior trip last Monday, April 29.

The class, under the capable sponsorship of Mr. Wayland Moore, went to El Paso, Texas, Juarez, Mexico, and Carlsbad, New Mexico. They left at approximately 2 p.m. Friday, April 26, and drove to El Paso where they stayed in the Del Camino Motel. Saturday morning all the class members and sponsors went to the market in Juarez, Mexico.

Several members went to the horse races at Sunland Park in New Mexico Saturday afternoon while the rest stayed at the motel to swim and bowl. Saturday night the group was split again with some going bowling and others to the amusement park. The class did not get to see a bull fight while they were there, but they did take a very interesting guided tour of Juarez Sunday afternoon.

After the tour they drove to Carlsbad Caverns and then came back to Matador arriving about 9:00 p.m. All the class thoroughly enjoyed the trip and would like to express their appreciation to those parents who took cars and enabled them to make the trip. The ones taking cars were Mrs. Charlie Scaff, Mrs. C. R. Davis, and Mr. and Mrs. Alfred Cooper.

Matadors Beat Yellowjackets

By Gary Campbell

The Matadors weren't too considerate of their hosts Friday evening, April 26, as they defeated the Roaring Springs Yellowjackets 21-0, on the 'Jackets field.

Tommy Green pitched the shutout for M.H.S., and pitched one of the finest games of the season for the Matadors. He kept complete control of the Yellowjackets throughout the entire game which lasted only five innings. Tommy struck-out six; walked one; and gave only one hit while facing just 18 batters.

Tim Green and Richard Campbell led the hitting attack with two hits each, the latter hitting two long triples for the Matadors.

Matadors Win Over McAdoo 6-1

By Gary Campbell
 It was a do-or-die baseball game for M.H.S. last Tuesday, April 30, against McAdoo, and the Matadors did it with the aid of Tim Green's powerful pitch-

ing arm. The game was played on the local diamond.

At the end of the game the score was 6-1 with the Matadors on top. The victory placed Matador in a first-place tie with McAdoo, both having 4 wins and 1 loss. McAdoo will be playing Roaring Springs next Friday, while Matador will be toiling at Patton Springs in their last regularly scheduled ballgame of the year.

McAdoo's only marker came in the last inning with a combination of two errors, a hit batter and ground ball.

ODE TO THE BUS DRIVERS

By Jane Hamilton

In the early morn at the break of day,
 You look out the window, and on its way
 The school bus comes in steady tread -
 And with a terrible groan you jump out of bed.

You gulp your milk and comb your hair,
 Then quickly decide the clothes you'll wear,
 After washing your eyes that are stuck with sand,
 You run out the door with shoe in hand.

With a noisy sigh and a gruffy frown
 You jump aboard with a mighty bound.

The driver who's driven for many a mile
 Is the first to greet you with a smile.

"Good morning," he says with a grin
 And laughs at the tooth paste on your chin.
 Then finding a seat you settle down
 And enjoy the lengthy ride to town.

So each day just in time,
 You get to school at quarter till nine.
 The drivers deserve a pat on back
 For seldom this faith and cheer does lack.

Dear drivers we owe much thanks to you
 For safety, caution and patience too!
 'Tis true we'd hate to ride a mule
 In order to arrive each day at school!

It is time to take the dreaded physical fitness test. The P.E. girls moaned and groaned through the first day but managed to be on hand for the finishing test.

Lone Girl Lends Feminine Touch To Class of Four Flomot Seniors

ONE LONE girl has for several years been adding the feminine touch to Flomot High School graduating class of '63. She is Aleta Sheilene Neatherlin, daughter of Mr. and Mrs. S. O. Neatherlin, and Salutatorian of the class.

Before Aleta joined the class in the sophomore year, it had boasted of having no girls. Since that time she has compiled an enviable record.

She has served on the Flomot Annual Staff for three years and was secretary during the current year. She was elected class secretary-treasurer three years, played basketball three years, was Class Favorite three years and served on the Student Council three years. Her senior year, she was elected Halloween Carnival Queen.

She was born June 23, 1945 in Memphis, Texas, and lived in Quitaque during her early life, attending school there through the freshman year. Her immediate future includes the continuation of her musical education in St. Louis, Mo. on a scholarship. Some time during the summer she hopes to find time for a wedding, a honeymoon, and a move to Pampa where she will

be looking after a college freshman, her husband.

Born In Paducah

RODNEY HAMMONS was born January 26, 1945 in Paducah. His family moved to Pampa for three years, and then to Flomot, which has been home to him since.

In September of 1951 he began his schooling in the first grade with Mrs. D. L. Damron as teacher, which led to High School graduation in 1963 with Valedictory honors.

At Flomot Rodney has taken an active part in all school and community activities. In addition to playing football one year and basketball two years, he ran track four years, and was an active member of the 4-H Club two years. He has served his class as president, vice-president, was Class Favorite, and King of the Halloween Carnival.

Rodney's plans for the future are many and include two years at Frank Phillips College to work on a degree in pharmacy. Regardless of his future however, his love of ranching and farming will never be completely removed from his life. He is the son of Mr. and Mrs. Harmon Moseley.

Native Of Flomot

DONNIE TURNER was born February 2, 1945, the son of Commissioner and Mrs. Malcolm Turner, the third of a family of four brothers. His home has always been Flomot and his first teacher was Mrs. D. L. Damron. Another teacher, Mrs. Lessie Pope remembers Donnie as being one of the most mannerly boys in her room.

Donnie has always taken an active part in school. He participated in football one year, basketball four years, track two years, was Class Favorite one year, and Halloween Carnival King one year.

His interests have always been in the area of farming and livestock. One of his shop projects his senior year was hand-tooled a western type saddle. His favorite subject has always been shop.

Joins Class Last Fall

NEWEST MEMBER of the Flomot senior class is Seab Washington, who joined the class in September, 1962, although he has never gone to another school. By taking one and one-half units of work by correspondence from Texas Technological College, Seab is graduating from high school in three years.

Mr. and Mrs. Gordie Washington became the proud parents of this young man on July 1, 1946. Having two older brothers didn't

seem to be much of a handicap. School was a breeze for Seab after entering Flomot Grade School in September, 1952. During his eight years in the elementary grades, Seab had no grades below B, except in writing and art. Both of these subjects seemed to be too slow to express his thought.

During Seab's three years in high school he participated in basketball and track, going to the Regional track meet two of those years. He served as president of the 4-H Club for two years.

The subject he likes best is mathematics, he thinks history is the easiest, and knows English is the hardest. His future plans include a degree from West Texas State University. When asked by one of his friends what he planned to study, Seab answered, "Girls, mathematics, and science."

Baccalaureate Services for the class will be held at 8:00 p.m., May 12, in the Flomot Methodist Church, with Commencement following Tuesday night, May 14 at the school gymnasium.

She attended Texas Tech in Lubbock, majoring in Home Economics, and has also attended summer sessions at Tech, taking Elementary Education. She was a member of the Home Economics Club at Tech.

Since being in Petersburg, she has received both her five and ten year teaching pins.

Miss Martin is a member of the Main Street Church of Christ and teaches a Bible class on Wednesday nights.

She is a member of the Texas Teachers Association, the Hale

"I believe the most challenging phase in working with these boys and girls is to strive to get each to work to his fullest capacity."

"Although I need no reward from striving to teach, the rewards of teaching are many. These may come, and do come daily, from both present and former students." — Petersburg News.

Understanding of Worldwide Problem Needed to Vote in Wheat Referendum

By Thomas E. Moore
Motley County ASC
Office Manager

The so-called European Common Market is not easy to understand. And, it seems, to the average Motley County farmer, to be something far away and for other people.

Yet this new European setup vitally affects the American farmer's pocketbook, exerting a considerable influence on this nation's wheat program particularly.

This is just another reason why we must have a sound grain program. American farmers have been selling approximately 50 million bushels of wheat to members of the new market alliance. How much we can sell in the future is anybody's guess at the present time.

American farmers are prone to believe that they alone suffer from government production controls. Yet 38 of the 42 wheat-producing countries of the world have some kind of price support program.

This includes member countries of the European Common Market.

In France, and to a lesser extent in other Common Market countries, production of wheat will be influenced greatly by the level at which prices are set under the Common Market agricultural policy. If the Common Market price levels are set near the German level of nearly \$3

per bushel, France is expected to increase wheat production significantly.

The Common Market then would reduce imports and increase exports of wheat for feed. This would adversely affect American markets.

Farmers should know the effects of a "no" vote on the International Wheat Agreement which has been in effect since 1949. The effects could be disastrous for the world markets.

The same applies to all exports. Motley County farmers must try to understand this complex problem, because it affects the prices they receive for the grain they produce.

Total U. S. exports, for instance, in 1961 amounted to 716 million bushels, the largest amount ever exported in one year by this country. Such exports are costly, due to partly to the export subsidy that must be paid for wheat, and due also to the inherent costs of shipping grain overseas.

The new program will cut down on surpluses, a higher percentage of wheat can be marketed at home, obviating the extra costs of shipping large amounts of wheat abroad.

That does not mean we want to reduce exports. We simply want to export more wheat without an export subsidy and reduce our need for sales under Public Law 480 in exchange for foreign currencies.

Rev. W. H. Hill of Lakeview has accepted the pastorate of the Roaring Springs First Baptist Church, and has moved here with his wife and son, Darrel, to make their home.

A noted Lubbock educator, C. L. Kay, Vice-president of Lubbock Christian College, was a guest speaker at the Junior-Senior banquet in Roaring Springs, recently.

The affair, held April 26 in the high school study hall, featured a Paris motif in colors of blue and silver. The delicious dinner included roast, gravy, potatoes, green beans, salad and cheese cake.

Invocation was by D. C. Coker, and entertainment was provided by Trudy Hand, Jan Brandon, Karen Williams and Shirley Stafford of Roaring Springs, and a guest, Richard Campbell of Matador.

Mr. Kay entertained his listeners with numerous jokes and anecdotes, then in a more serious vein, offered many incentives for aiming at a higher education.

The program was closed with the benediction by M. L. McSpadden.

The junior class received many compliments on the outstanding evening of entertainment in honor of the 1963 graduates. Class members and their sponsor, Dan Coker, expressed appreciation to everyone who contributed in any way, to the success of the occasion.

Roaring Springs FFA Judging Teams Hold Good Records

An outstanding record was achieved for the year by the Roaring Springs FFA judging teams in area and district contests.

The teams participated in the Texas Tech judging contest Saturday, May 4, in Lubbock, with the grass team placing 4th, Rogene Swim was 10th and A. J. Dye, 2nd in individual scoring.

Area 1 and Plainview district use the same scoring system as was used at Tech, and the grass team placed 2nd in area and 2nd in district, being nosed out of 1st place by the Tulia team. The crops team placed 3rd in district, making a total of four banners being bright home.

Students attending the Tech contests were Bill Dawson, Thomas Owens and Mike Garcia in livestock judging; Steve Bustamente, Fidel Garcia and Lonny Castleberry, dairy cattle judging, the crops judging team composed of Manuel Arenas,

Jerry McGee and Lawrence Brown, and the grass team, Don Tardy, A. J. Dye and Rogene Swim. They were accompanied by Veag instructor, B. L. Peacock.

This contest was the last judging contest for the school year, and the chapter expresses its thanks for the cooperation and help given the members during the year, by parents, the school administration and other interested patrons.
