## **ZIP** Explained At Lions Meet

Explanation of the Post Office Department's new ZIP code system, by Matador Postmaster Charlie Scaff, was the principal feature of the regular Tuesday luncheon meeting of the Matador Lions Club held in the base

ment of the Methodist Church. Mr. Scaff said ZIP method of mail dispatch will save millions of dollars and greatly speed up mail service. He said from three to five years may be required before the method is completely established. At present 45% to 50% of the mail bears ZIP numbers. Texas will have 35 sectional centers, with mail in this area handled through Childress. Mc-Calls and Reader's Digest magazines will soon be addressed through the ZIP system, he said

What Must She Know **About Auto Insurance?** 

Very little, actually. When it comes to insurance protection, it's not how much she

knows, but how much she has. And that's where we come in. As an independent agency, we provide up-to-date protection to fit her family's need. We tailor the right coverages ... in just the right amounts

and at the best possible rates. She knows we're taking care of it . . . and it's taking care of her. Come to think of it, that's about all she needs to know.

## Texoma - Water Wonderland

This great lake lying in the romantic Red River Valley, is one of America's most popular resort centers, with favorite access routes through General Telephone towns such as Sherman, Whitesboro and Gordonville. Seventy million people visited it in recent years exceeding Yellowstone National Park attendance. More than 8000 boats from small craft to luxury yachts make highways of its sparkling waters. Its millions of visitors are attracted by facilities which range from convenient camp sites to luxurious resorts, with overnight lakeside accommodations for 1500 or more people. It is, in fact, a water wonderland for swimming, fishing, boating, skiing and all water sports - a shining example of fabulous places to go and things to see in General Telephone Country.
