97TH YEAR—No. 26 MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, SEPTEMBER 5, 1963 PRICE SEVEN CENTS

Long Drought Broken

TRAIL DUST

The value of a man's statement is not fixed until he has been weighed against his usual respect for the truth.

It is possible to lose money by a hole in the pocket, but it is so improbable that few people would be impressed by the story.

Currently there is a mistaken concept which evaluates the attitude of a good sport with the extent he allows respect for common decency to be violated.

Gamblers in business are those willing to take a chance with their dreams, knowing full well that failure is branded as stupidity and success as genius.

The girl who used to blush now has a daughter whose face is red only when she is sunburned.

Greatness assumed without spiritual support is as the sound of empty drums in the wilderness, a toy balloon painted with gold.

Matadors Set for Season's Opener

Gnawing at the bit and raring to go is the attitude of the Matadors as they await their first encounter of the football season tomorrow night at Burleson Field.

Twenty-four red and black clad Matadors will take the field about 8:00 where a vastly improved Ropesville team will await them.

Ropesville, a push-over for the Matadors last year, has been ranked fairly high on the totem pole for the 1963 gridiron season. Little is known about the individual team members other than their line is basically the same size as the Matadors' and they have a fair aerial attack.

The Matador line will range from 140 to 230 pounds, while the backfield will vary from 140 to 210 pounds. The line will average around 180 pounds, while the backs will average about 165 pounds.

All in all, this should be one of the finer games this season and everyone is asked to support "Big Red" as they try for their 2nd straight region crown.

It was decided in district meeting Wednesday night to keep the admission prices: 50 cents for students and \$1.00 for adults.

Mesdames R. E. Donovan, U. L. White and B. F. Tunnell visited in Spur, Friday with Mrs. J. F. Hughes.

BOB STANLEY'S rain gauge Friday registered 1.20 inch, the largest amount of rainfall registered in Matador in 90 days. It was more rain than had fallen in 60 days. Saturday the gauge caught another .22 inch and Hackberry Branch of Ballard Creek flowed almost bank to bank under the Main Street bridge. Heavier rainfall was received north of the business section of Matador.

Roaring Springs received about the same rainfall as Matador but Whiteflat and the Barton community received more. Unofficial reports of more than two inches have been received.

The rains have been of incredible value to crops and range lands but the cooler temperatures that followed have been worth more to residents of West Texas. The mercury dropped sharply after the precipitation which was general in West Texas.

Crop conditions are uncertain at this point in the season. Whiteflat north through Flomot and Barton communities have excellent crops due to a series of showers which were not received by Matador and Roaring Springs south.

The big question mark today with farmers, ginners and businessmen is the amount of insect infestation. One farmer told the Tribune Monday that he had gone over his crop seven times in effort to bring the insects under control. He was not certain that he had been successful.

Another cool front is due over the week end which weather men predict may result in additional rainfall. Monday the mercury began to climb again into the 90's, but the wet earth reduced the "sling" as compared with the past 90 days.

MISS INGRID ROSEMEIER... found Matador charming

Matador Charms Charming Visitor

A charming visitor to Matador in turn has been charmed by this small West Texas community and would love to make her home here.

Miss Ingrid Rosemeier of New York City has been the recent house guest of Mr and Mrs. Lonnie Lynn. She and Mrs. Lynn, the former Marianne Hoffend have been close friends for about eight years. They are both from Koblenz, Germany.

Miss Rosemeier made the trip by plane, and when she arrived in Amarillo two weeks ago, the Lynns met her there. She thoroughly enjoyed the scenic drive from Amarillo to Matador. "It was so beautiful," she exclaimed. "I felt as though I were watching Bananza."

She had a "ball" attending Old Settlers.

"I met so many people I could not begin to remember all their names," she declared. "Everyone is so friendly here. In the city they do not care about you, unless you are a close friend... I wish I didn't have to go back. I like it here very much."

The visitor left Sunday to return to New York after her enjoyable vacation.

Miss Rosemeier came to the United States a year ago in June, to visit friends and secure work. Jobs were not as plentiful in her profession as a dental assistant, as she had expected, and it was over two months before she became employed.

Coach is Cautious In Season Outlook

School Enrolment Lower This Year

Matador Schools opened for a full class day Monday with a total enrollment of 288 students. The enrollment is lower than it has been for several years due to smaller classes in grade school.

Because of the fewer number of students, Supt. Bert Ezzell stressed the importance of a high daily attendance in order to be able to keep the present number of teachers.

Registering in high school were 18 seniors, 27 juniors, 20 sophomores, and 35 freshmen. Enrolling in grade school were 21 first graders, 22 second, 20 third, 23 fourth, 21 fifth, 24 sixth, 29 seventh, and 20 eighth graders.

Tryouts Held for Drum Majorettes

Sandra Sandefer was chosen drum majorette for the Drum and Bugle Corps in tryouts held August 30. A sophomore she is the daughter of Mr and Mrs. Bob Mitchell.

Chosen also in the tryouts were Sue Stevens, Joyce Scaff, and Shelley Stevens as twirlers. Sue, a senior and a last year's twirler, and Shelley a freshman, are the daughters of Mr and Mrs. Johnny Stevens. Joyce, a senior is the daughter of Mr and Mrs. Charlie Scaff.

The first performance of the Corps under the direction of Don Ford, the new music teacher, will be Friday night at Burleson Field.

Childress Rites For W. P. Close

Services were held at 10 a. m. Tuesday in Childress, for William Pinkney Close, 85, long-time area resident who died Sunday night at Methodist Hospital, Lubbock, after a lengthy illness.

Burial was in Childress cemetery.

Mr. Close was a native of Tennessee. He was a retired farmer and moved to Kirkland 57 years ago from Coleman County.

COACH Chas. Johnson was cautious Tuesday as he went over the 1963 outlook for the Matador. Matador's grid season, team by team he went over the schedule from the Ropesville Eagles Friday night (here) followed by Knox City, Crowell, Rochester, Whiteface, Throckmorton, Estelline and finally Turkey. At no place in his talk did he give fellow Lions any encouragement of a "cinch."

His was the principal address at the regular luncheon meeting of the Matador Lions Club held in the basement of the Methodist Church.

Lions were intent on the details of his talk in which he said the positions of players were changed, some playing two or three positions. He declined to give a starting line up of players he might use. Lion Coach Johnson touched on "sideline coaching" when he said:

"It does not bother me, but later it is often difficult to convince a player that he is right, after a sideline comment" later in his talk he said: "Football makes a man accept his responsibilities as well as his mistakes. He can not evade these facts."

Coach Johnson commended the Lions for their "spirit" in football and said he felt it was largely responsible for the success of past seasons.

Lion Ronnie Christian had previously announced that the Lions "Red Hatters" had purchased red felt hats to signify themselves as boosters of the Matadors in 1963.

Captains David Rattan and Jack McCallie were guests of (Continued on back page)

CALL MEETING

Matador Masonic Lodge A.F. & A.M. has announced a call meeting for Saturday evening, September 7, at the Masonic Hall here. M. M. degree. All Master Masons are invited.

Mesquite Jelly Demand Growing

Matador may be on its way to becoming the Mesquite bean jelly capital of the world. Two weeks ago the Tribune reported that Mrs. J. D. Spray had made some mesquite bean jelly once made by pioneers in a land where fruit was scarce.

Because of the poorly written Tribune article some readers believed the jelly was for sale by Bob Stanley Pharmacy. What the Tribune intended to say was that a sample of the jelly was brought to the store (for sampling and conversation purposes) One or more customers tried to buy some of the jelly.

The following Monday Frank X. Tolbert commented on the item in "Tolbert's Texas" column in the Dallas Morning News. This week pharmacist Stanley received the following letter from Smithville, Texas.

"Dear Mr Stanley:

"I'm very much interested in the Mesquite Bean Jelly that Mr Tolbert mentioned in his column in last Monday's Dallas Morning News.

"You will find attached my check for \$1. Send me as many glasses of the jelly as you can after taking out the postage.

"Many years ago, out in the edge of West Texas (Brownwood) I walked many miles on my toes or heel after I had stuck a Mesquite thorn in said foot. Just wanted to know if something good can come from Mesquite trees. Thank you a lot in advance.

Chas. E. Ragsdale"

The order has been filed with the Mesquite Bean Jelly production department (Mrs. Spray). Question: How much Mesquite Bean Jelly do you get for \$1?

Emerald Isle Dogs Do Hilarious Tricks

Stephensons' doggy thespians from the Emerald Isle combine in a series of the most hilarious tricks ever seen in this country, and the troupe is one of the outstanding attractions of Ringling Bros. Barnum & Bailey Circus, which comes to the Lubbock Coliseum Sept. 17, 18 & 19 for six performances.

This handsome and wholesome Irish family appears twice daily in two types of acts. In addition to their dog act, the star of which is a French poodle named Finnegan, the family appears in two separate bareback riding turns.

Henry Stephenson, the uncle and head of the family, trained both dog and bareback acts, and supervises the performances. Active participants in the center ring dog act are nieces Diana and Florence and nephews Frank and Billy. The mother of the youngsters, Mrs. Louise Stephenson, appears in the dog act.

It is a high spot in the circus performance when the dogs appear in the center ring. These intelligent little animals perform incredible feats, climbing ladders and leaping into blankets held below and other such hilarious tricks. For their final trick, three dogs run in one direction atop the ring curb while three run in the opposite direction, leaping over the backs of their friends as they meet them.

For the 93rd consecutive tour of America, the Greatest Show on Earth has put together the most beautiful circus performance in its long history. President John Ringling North has scoured Europe and Asia for unusual acts.

Clowns, pretty girls, wild animals, elephants, thousands of beautiful and expensive costumes and four all-new spectacles combine to make the 1963 edition the most thrilling and beauty-packed performance to be seen anywhere.

Roaring Springs Started Without Band or Fanfare

On June 19, 1913, the day the QA & P Railroad came to what is now Roaring Springs, local and area people celebrated in quite a different way than the opening of most western cities.

One observer, Victor M. Chalk, of Dallas and Roaring Springs, can remember that it was a day when there was no band, no political speeches, no chamber of commerce fanfare. It was a day that a city was being born.

Sam Lazarus, of St. Louis, Mo., and Charles H. Sommers, of Dallas, both Townsite Company Representatives for the Frisco Lines had H. H. Black local field man with chart in

hand to explain what lots were for sale in a town that was sure to boom! The townsite, Old Section 29, was given the QA&P company by the Matador Land and Cattle Company, according to Chalk.

Mr. Chalk was interested as others who attended the 1913 event. People brought basket lunches and stayed to see the train come to the end of its tracks. Most of all they wanted to hear Townsite officials and read loads of literature about the proposed city.

When asked what he thought about Roaring Springs on June 13, 1913 Mr. Chalk said, "Of course I was only 23 years old and I really believed, as many other men that day, that Roaring Springs would grow into one of the major cities in West Texas. It didn't, but it is still a good place to live."

He had a hardware store that opened with the new town in 1913, which he ran for three years. He moved to Dallas in 1916 and operated an auto dealership.

Two Main Streets

There were two main streets in Roaring Springs after the town was platted, just as there are today. First businesses established on the west side running north and south included White's Grocery, H. O. Satterwhite Funeral Parlor, Roberts Drug Co., Home Mercantile Co., and the First State Bank. Crossing the present intersection and continuing south were Keahey Grocery, O. O. Love Dry Goods, Bon Ton Hotel and Restaurant, H. V. Bigham's Open Air Movie, and Johnny Langham's Confectionary.

From the present hotel and going west was the K Jones Globe Hotel, and crossing the intersection going west, Chalk Hardware, Postoffice, and R. D. Jones Lumber Company. The lumber firm sold to Higginbotham-Bartlett, and is on the same site. Just across the street to the south was Dad Hiffstittler's Livery Stable and Rooming House. A blacksmith shop was located a block east of the Globe Hotel.

According to information obtained in an interview with several "old timers," Joe Byron was the first banker, Joe Shelton, first postmaster, Jeff Bell

was manager of the Bon Ton Hotel, and blacksmith was Bill Holthead. (The Tribune is indebted to Joe B. Meador for this and several other features appearing in this issue.)

CORRECTION

Information concerning the picture of the Hupmobile owned by the late M. L. Patton, and its occupants, which was run in the Tribune's Pioneer edition last week, has been questioned and corrected. The young woman identified as Helen Keith is declared to be Lottie Davis, and the picture is believed to have been made several years later than 1910.

but she'd like it less if she studied by a kerosene lamp per granddad's era. In present day education Penny doesn't realize how much importance is placed upon adequate school lighting. Accident Victim Back In Winters

Mike Patterson, 16, of Winters, has returned to his home there from John Sealy Hospital, Galveston, where he had been hospitalized since July 2.

Young Patterson, nephew of Mr. and Mrs. Bill Seale, received critical burns over 67 per cent of his body when an oil storage tank exploded near Norton. He is the son of Mr. and Mrs. E. T. "Pat" Patterson.

Gathered at the Patterson home in Winters to greet Mike when he arrived, were approximately 150 classmates and friends, with others joining the throng. A huge sign, "Welcome Home Mike," hung from the eaves of the porch. Virtually every member of the Winters High football team was on hand, including head coach, L. G. Wilson.

The party was a surprise to the high school junior and 1962 letterman in the AA state semi-finalist football team. He hopes to be able to play football later in the fall.

Mike has been a frequent visitor in Matador in the home of his aunt and uncle, and during his hospitalization many friends here remembered him with cards and letters.

In appreciation for these messages, the family sends the following acknowledgement:

"We wish to express our heartfelt gratitude to each of you who remembered us with prayers, cards, letters, flowers, or in any other way during our time of anxious waiting. Hardly a day passed that we did not receive some message from Matador. We deeply appreciate your thoughtfulness, and pray that each of you may be blessed in a special way. Mr. and Mrs. Pat Patterson and Mike."
