STRAIGHT ROAD to the West is shown above in the new concrete and steel overpass on US Highway 70 just inside the Cottle county line. The overpass is part of new construction in straightening and widening the highway. The above picture is made from a point looking southwest where the highway crosses over the QA&P tracks. The old overpass and dangerous curve are located beyond the curve in the railroad track. The overpass is of the most modern construction. Steel piling penetrate the clay for 50 feet. The reinforced overpass "floats" on steel knuckles and is independent of the main roadway to allow for contraction and expansion. A new bridge has been completed on Teepee Creek, eliminating and has in the past, cost many lives. Traffic on Highway 70 has shown a large increase since the almost half-million dollars construction project was completed .- Photo by Douglas Meador.

My Thanks to the Voters

It is impossible for me to express the deep gratitude which I feel for the voters of Motley county who Saturday, nominated me for the office of Sheriff, Tax Assessor and Collector. I appreciate each vote cast for me and the efforts of everyone who aided my campaign in any manner.

I also want to express my most sincere appreciation to my opponent, J. D. Spray, for the high type of campaign which he conducted. I am certain no candidate ever sought an office under a fairer or more ideal relationship.
