Time Of Decision

By Dick ... Goodrow
The time has arrived for every citizen in every walk of life to take an intelligent and unemotional stand in regard to the civil rights bill currently before the Congress, because it is not only a national issue, but a Muleshoe one as well.

The citizen who cares about his nation, state, county and city is directly involved, and can not sit on the fence because, whether or not it is passed or voted down, the issue is here today and will undoubtedly change the entire sociological life of every town and hamlet in the nation — regardless of size.

In recent weeks citizens have been exposed to the most intense pressure — both for and against — ever mounted over a bill. Much of what the people have read is out-and-out propaganda definitely leaning to one side or another, depending on who wrote or paid for the space.

Because the Journal papers believe decisions, for or against any issue — local or national — can be based only on pure, unbiased and unemotional fact, it is printing the actual facts of H.R. 7152.

The Journal unfortunately does not have the necessary space to run the bill in full. Most readers — equally unfortunately — would not have the time to analyze it if we did.

The facts and only the facts are:

These are the major provisions of the House-approved civil-rights bill now before the U. S. Senate:

I — Voting Rights. This section — covering Federal elections — bars registrars from giving Negro would-be voters tougher literacy tests than whites or disqualifying them for minor errors. A man with a sixth-grade education would be presumed literate in court cases. The Attorney General could initiate voting suits and, as a speed-up matter, ask a three-judge U. S. court to hear them.

II — Public Accommodations. Among the most controversial in the bill, this title would ban discrimination by such businesses as hotels, motels, restaurants, lunch counters, theaters, sport arena, and gas stations, if they are in interstate commerce or if their discriminatory policies are backed up by some state action. (Exempted: private clubs, small boarding houses.) Either the person denied service or the Attorney

General could bring suit for an injunction.

III — Public Facilities. The section bars discrimination in public libraries, parks, swimming pools, golf courses, and the like. The U. S. could file suit if it were too costly or too risky for the complainant.

IV — Public Education. The government would be empowered to file school desegregation suits and allot funds to help communities plan for integration.

V — Civil Rights Commission. This would extend the chronological cliff-hanging life of the fact-finding commission for four years.

VI — Federal Programs. Another of the touchiest sections, this would empower the government to cut off Federal funds for state and local programs if the agencies running the programs practice discrimination. Among the programs covered: school and hospital construction, agricultural programs, vocational training, welfare. Among the safeguards: the Federal agency involved would have to grant a hearing and notify Congress 30 days before a cutoff, and the action would be subject to court review.

VII — Employment. This section — still another of the most controversial — bans discrimination by employers, unions, or employment agencies on grounds not only of race but sex, national origin, and religion (though atheists are excluded). It would apply to businesses or unions with 103 or more employees or members a year after enactment, scaling down after that to those with 25 or more in the fourth year. A five-member, bipartisan Equal Employment Opportunity Commission could try persuasion first, then file an injunction suit if that doesn't work. But only the courts — not the commission — could decide whether discrimination actually exists.

VIII — Voting Statistics. As a guide to the Justice Department, the Civil Rights Commission, and the nation, the Commerce Department would make studies or registration and voting statistics in areas selected by the commission.

IX — Civil Rights Case Appeals. This section is designed to clear up a cloudy area in existing law covering cases where a defendant in a criminal action seeks to have his trial switched from state to federal court.

HARMON GOES NATIVE—Harmon Elliott, president of the Muleshoe Rotary Club went native and joined the ranks of America's politicians who each year join various Indian tribes for some reason we're never quite able to figure out. Harmon isn't really going native or political — just getting into the feel of things after last week's special Rotary program on Early Bailey County. What's he looking for? Best letter to the editor included with any deposit receipt from the First National Bank wins a genuine free cup of coffee on Harmon.

'39-'63: A Chronological History Of The Muleshoe Library Push

Library service for the Muleshoe area has progressed far since its conception twenty-five years ago.

In observance of National Library Week, April 12-18, the step by step growth of library facilities is today appropriate for community review and commendation.

Inception was Feb. 23, 1939 when the Muleshoe and 1939

Study Clubs initiated plans for the first county library in Lela Mae Barron's Abstract Office. Later it was moved to a room in the Bailey County Court House.

A concentrated two year effort, by various organizations, and individuals, will be climaxed Wednesday, April 15, when the Multi-County Bookmobile Library demonstration of Texas Rural Library Services begins the first day of its first three-week scheduled tour.

Georgia Pena, librarian, and Larry Hartsell, driver, plan to leave at 8 a.m. Wednesday from the Muleshoe Area Public Library building, bookmobile headquarters, Bailey, Parmer, Cochran and Lamb counties have agreed to participate in the bookmobile program.

With the theme "Reading Is the Key", this week starts a new year round campaign for Muleshoe area library development. It is signified by the start of the bookmobile program, a new board of trustees, an active Friends of the Library, interest from individuals, organizations, households, school teachers, county and state officials, chamber of commerce, and the Journal papers, which have been instrumental in providing the library public relations work.

Now is the time to emphasize the need for a better read, better informed citizenry. The need

New Resident Fights For County Progress

One year ago today a new resident came to Bailey County.

She immediately entered into all aspects of community life and made her presence felt for the good of the entire community. Her acceptance by her fellow residents and the respect accorded her words border on the phenomenal.

Since she has added her extremely vocal presence to the community many persons have fallen in love with her style, looks and consistently clear thinking. Many have given her bouquets. Just as many have castigated her.

She's made some enemies because she believes things can't be hidden under the carpet and because she's said some things politicians and other persons in the public eye have asked her to keep quiet.

She regrets the enemies and doesn't particularly like controversy, but doesn't avoid it when her duty is clear. She goes by the old adage "If it's fact, say it — and let the chips fall where they may."

She's independent and becoming more so as time goes on.

However, like all living breathing things, she makes mistakes. The mistakes are regretted with all her living presence, and she makes every effort to correct them by every means possible.

She has taken upon herself an impossible job — that of pleasing all. Most of the time she does not succeed, but it's not because she hasn't tried with all her heart and soul.

She attempts to examine all possible sides of any issue and generally thinks quite a while before speaking, but when she speaks, she speaks definitely and with force.

Her reputation for open-handed generosity is tops in the community. Without reservation, she gives more of her time to community interests than any other resident — with the possible exception.

Wheat Disposal Deadline May 1

Bailey County farmers have until May 1 to declare and dispose of excess wheat acreage under the diversion program in order to stay within allotments, according to the local office of the Agricultural Stabilization and Conservation Service.

Cattle may be grazed on the excess acreage, an official pointed out, since it is not specified in the program how the excess must be destroyed.

However, area farmers and ranchers, under the provision of the program, may not graze livestock on any land which has been declared as diverted acreage after April 3, the ASCS office spokesman noted.

Government's New Cotton Bill Will Not Reduce Acreage Here

There has been some discussion as to whether the total acreage planted to cotton on the High Plains might not be reduced under the revised Cooley Bill as passed by the Senate and due for consideration in the House this week.

The bill would not reduce cotton acres at all in this area.

The bill does not change the 16 million acre national allotment, but designates about two-third of those acres as "domestic" acres, calculated to be the acreage necessary to satisfy domestic demand for raw cotton.

The present release and reapportionment program is left intact. The loan price would be at 30 cents Middling Inch at average location, and the farmer who planted only his domestic allotment (about two-third of total allotment) would receive additional income through direct PIK certificates on his normal yield from domestic acres.

The bill specifies that this payment could not exceed 4.5 cents per pound, but the Secretary of Agriculture has indicated that the payment in 1964 would likely be 3.5 cents.

Talks with various producers around the 23-county area reveal that, already being equipped to produce cotton on their total allotment, most could not afford to either leave out or switch to another crop on one-third of their allotment. To do so in a large majority of cases would leave tractors, strippers, trailers, irrigation equipment and even manpower to operate at less than maximum capacity. Farmers realize that reducing efficiency in this way is a costly process.

Also, we asked John J. Seibert, extension farm management specialist, to draw up several examples of how the program would affect net income under varied conditions.

These examples show that on-

Beware April 15

As Julius Caesar was reminded to beware the "Ides of March" so should every owner of a registered vehicle in the State of Texas beware the "Ides of April". That is the final date for securing the inspection stickers required by state law.

If tradition holds true, there will be the usual last minute rush of people, who just couldn't find time to have the little chore done at an earlier date.

According to law enforcement officials, any vehicle on the public roads April 15 or thereafter, that does not have the 1964 inspection sticker will be operating in violation of the State Law.

Rumors Abound On Reasons For Delay In Hi-Way Plan; Progress Really Very Good

Rumors and counter rumors about various aspects of the current Highway 84 widening program are bouncing about Muleshoe with the abandon of ping-pong balls in a high wind.

They range from definite statements that certain parties have information that not enough money is available in the county's till to purchase the right-of-ways necessary to another that the county has private reasons for not progressing faster with its purchasing program.

The reasons for these rumors range from something to talk about over 10 o'clock coffee to real interest in the program.

One of the chief problems is that each time a Bailey County resident drives to Clovis he or she sees a brand-spanking new highway running through Parmer County and coming to an abrupt end at the Bailey County line.

The fact of this segment of the matter is that Parmer County

began on the project in 1958. Bailey County didn't start until 1961 — a full two years later.

The rumor about a lack of money seems to be totally unfounded. A check of the most recent appraisals in Judge Glen Williams' files shows that sufficient funds are now in the county's hands to cover the appraisal costs of the necessary property nicely.

There has, however, been a certain raise in land costs since the highway bond election about two years ago. The increase in costs is due to the natural increase in price of any land over a period of time in an expanding economy. But barring unforeseen circumstances there is enough money to purchase what land is necessary.

Another persistent rumor is that the county is dragging its feet in making the necessary purchases for the highway's widening.

Just the opposite is true of the situation.

To date the county has purchas-

ed five tracts, Memorial Park, H. M. Sheats, Ross Goodman and two others, which although they have been purchased can not under state law be published until the check is paid the owner.

Judge Williams has opened negotiations with 11 other land owners. The negotiations range from letters to out of towners to make appointments to discuss the matter to dollar offers made and decisions of the land owners being waited for.

The five tracts already purchased and the 11 now in negotiation bring the total to 16, WHICH IS THE TOTAL WHICH THE STATE HAS APPROVED AND RETURNED TO BAILEY COUNTY THIS FAR.

If there is any undue delay in the highway program here the problem may lay with the state. However, the state usually proceeds with extreme care in the matter of appraising land which might possibly have to be condemned in court action.

In any case Bailey County must adjust itself to the fact that actual construction is not expected to start in the county until Spring of 1965.

Tulia Editor To Speak At Demo Meeting

H. M. Baggarly, controversial editor and publisher of The Tulia Herald, will be guest speaker at a Tuesday night meeting of Parmer County Young Democrats, April 14.

The meeting is open to the public, announces Joe Bullock, president of the organization. It will be in Hub Community Center and will begin at 8.

Baggarly, who has been described as being a Democrat, Democrat, is a former public school teacher.

His influence as a political writer is mirrored by the fact that the county in which his weekly newspaper primarily circulates, Swisher, invariably votes Democratic in contrast to many of its neighboring counties.

Local PT-A Members To Attend Conclave

The annual District 14 Spring Conference of Texas Parents and Teachers will be held April 21 at the First Baptist Church in Plainview. Mrs. J. M. Farmer, president of District 14 will preside.

Mrs. Ray Daniel, bi-county P-T-A (Bailey-Lamb) president will head a sizable delegation of local PT-Aers to the conclave. A list of those persons who will attend from Bailey County was incomplete at press time, but will be printed later.

"We the PTA Cooperate in the School Story" will be the theme of this year's conference, which opens with a coffee from 8:30 to 9:20 a.m., compliments of Hale Center PTA. Registration will be in effect from 8:30 to 2:30 p.m.

The formal opening will begin at 9:30 a.m. with the invocation by Virgil Trout of Lubbock, Character and Spiritual Education district chairman.

Also featured in the morning session, will be a panel moderated by the state president, Mrs. W. J. Danforth, entitled "Cooperating in the School Story". Serving on the panel will be Marvin Armstrong, State vice President and program chairman; Mrs. Angus McDonald, state chairman of Congress publications and magazines; and Nat Williams, state chairman of school education.

Conference luncheons will be at 1 p.m. in Edgemore Elementary Cafeteria for local unit presidents and school administrators and Estacado Junior High for delegates and visitors. The theme of the luncheons will be "Cooperation Points the Way".

Absentee Voting For Primaries Begins Monday

Absentee voting for state party primaries begins Monday.

Deadline for voting absentee for the May 2 elections is Tuesday, April 28, four days prior to the election.

Voters wishing to cast absentee ballots may do so at the county clerk's office at the courthouse in Muleshoe or they may have ballots mailed to them by the county clerk.

Following the official opening, welcome addresses, introduction of guests and district board of managers and reports of conference committees, Mrs. Chesley McDonald, a state vice president and the official state representative of Texas Congress of Parents and Teachers will speak on "The Bridge Between Home and

Lazbuddie FHA Observes Week

Over one-half million Future Homemakers of America in the states throughout the nation observe National FHA week April 5-11.

The Lazbuddie Chapter, whose leader is Mrs. Charley Walton, Home Economics teacher, celebrated the occasion with events each day.

Activities were: Sunday, United Worship Day, they attended church as a group, they went to Clovis for a luncheon. Monday was Patriot Day when flags were displayed in the school offices and at the beginning of the first period class, the sophomore girls led the class in the pledge.

Tuesday was "Youth Can Do Day" and they served coffee for the faculty and each girl dressed in an outfit symbolizing her life's vocation.

Public relations day was observed Wednesday and everyone wore red and white and the FHA emblems. Posters were shown throughout the day.

Assembly day was held Thursday when committees presented skits on habits that need to be corrected.

Next day was Friday when all girls wore dress clothes.

Saturday was dollar day when every member worked at home and contributed the money they made to the FHA treasury.

Activities which the Lasting Rose Chapter have participated in this year are selling cook books and dust cloths, adopting chapter grandparents, and honoring various organizations, selling Christmas Cards, TUBFIRM, I-NICEF, Rosy Newspaper, and various monthly programs carrying out the national program of work.

Officers are: Marianna Gammon, president; Gayla Seaton, vice-president; Twila Gallman, secretary; Pat Chitwood, treasurer; Charlotte Seaton, reporter; Bobby Jo Jones, parliamentarian; Katie Blackstone, song leader; Marsella Mayfield, pianist, and Linda Monk, historian.

Band Director Leaving Muleshoe

"I very deeply regret having had to hand in my resignation," Band Director Kathy Phillips said, "but after very long and careful consideration, I decided that I simply couldn't in all good conscience start another year knowing that I was not going to be able to do the job as it should be done."

"These four years that I've spent in Muleshoe have been most rewarding. I couldn't have asked for finer kids to work with, and I've been extremely proud of the progress they have made."

"A school band has a great responsibility, not only to its school, but to the entire community which it represents, and I sincerely hope that during these past years we have fulfilled our obligation by making a favorable enough impression to promote the name of Muleshoe."

"I feel that the whole Band program is getting on a sound footing now, and that, with the necessary support, the future possibilities are unlimited. My only regret is that I'm unable to stay around and see what develops from the promising material coming up through the younger bands."

"As for my plans for the future, I do not intend to teach any-

where next year, I am already committed to teaching in one of the Base Camps at Texas Tech in June, and would like to do a little traveling after that. But beyond that I'll have to wait until I get rested up somewhat before making any definite plans for the future.

"I would like to thank the schools, the Band Boosters, and all the individual citizens of Muleshoe who have done so much to help me and to support the Band program. It is really going to be a wrench to leave Muleshoe and the wonderful friends and students I've had here; but I shall leave feeling most grateful for having had the privilege of working at least this long with these marvelous kids, and the hope that I've been able to even come close

Holy Land Trip Is Program Topic

A trip through the Holy Lands was the highlight of the De Algodon Study Club when they met Monday night in the home of Mrs. Arlan Simpson.

Samuel Marino, Morton, presented the program and told of his visit to Jerusalem, Bethlehem, the scene of the crucifixion and burial of Christ and other points of Biblical background.

Marino made the trip last Spring. He came to the United States nine years ago.

At the conclusion of his talk, all questions concerning the trips and country were answered.

Guests from Morton were Mr. Truman Doss, Mrs. Elwood Harris and Mrs. E. O. Wellingham. Mrs. Sam Mayo served as co-hostess.

A meeting will be held in the Maple Cafe at 7:30 April 2 with Mrs. Mike Watts and Mrs. Charles Farmer as hostesses. The program "Our Little Folks" will be given by Mrs. Joe Gison.

Library--

(Continued from page 1) is ever more urgent. "Reading is The Key". We believe that the planning, hard work, community cooperation, and well-informed public interest is an all important part in continued library development successes for the Muleshoe area's future.

HISTORY TRACED

After research with known persons and documents, the earliest history of the first library, the Bailey County Library, unfolds as follows: Since 1939 the Muleshoe Study Club's project has been establishment of a Muleshoe community public library. Lois Lenua, Mary Hart and Eunice Florence were appointed to secure a place for the courthouse Mrs. Barron's office on Feb. 23, 1939.

Because there was no room in the courthouse Mrs. Barron's office was rented for \$5 a month, three days a week, all summer (Minutes: Feb. 23, 1939). The first library board was composed of Mrs. Lenua, Mrs. A.E. Lewis and Mrs. Clyde S. Holland.

In April 1939 both the 1939 and Muleshoe Study Clubs held a book tea with benefits given of the proposed library. Both women's clubs held fund-raising events, sometimes securing book-donations as admittance to events.

The Muleshoe Study Club membership in the past 25 years has continued, as a special project, support of the public library, and since 1959 also proposing the enlargement of the library. The club elected a treasurer-librarian and appointed a library advisory board each year.

The 1939 Study Club, under the presidencies of Mrs. J. Clyde Taylor, and Mrs. Ray Griffiths supported the library with club projects, including book reviews and parties, and purchase of savings bond. The groups last meeting was held on May 22, 1941 at which time the club disbanded for the duration of World War II and gasoline rationing.

The County Commissioners' Court with M. G. Miller, judge, on July 10, 1939, voted unanimously that the two Women's Clubs of Muleshoe be allowed to use the room commonly known as the Commissioner's Court Room for a library, provided the library be sponsored as a County Library and that a fee for membership be not more than 50 cents each six months per family.

The first record of a librarian's salary in county employee records show on Feb. 2, 1945. During Judge Cecil Tate's term, the librarian's salary was set at \$5 per month. In 1957, salary raised to \$30. per month. Currently the county contributes \$800. annually.

According to City of Muleshoe's audit records, the city joined in library support with \$195 for 1944-45, and in the 1945-46 budget commenced its present support of \$240 annually.

shoe Study Club with Mrs. Gil Lamb head of the club's library advisory board since 1960 at the helm, enlarged the Library board of trustees and held the first board of trustees at that time.

Mrs. Lamb and Lester Howard were co-chairmen of this first board and Mrs. T. R. White, who was later replaced by Bobby Aihart, as treasurer.

Members were Mrs. Horace Blackburn, Mrs. Cecil Cole, Mrs. Al Stovall, Mrs. Kenneth Precure, Mrs. John Charles Gilbreath, and Mrs. Ernest Martin, Mrs. Vera Engelking, Mrs. R. O. Gregory, Mrs. D. O. Burelsmith, Mrs. W. B. Kittrell, Neal Dillman, Pat Bobo, Tom Hunke. The board continued to expand to include Jay Spain, Mrs. Roy Daniel, Mrs. E. R. Wright, and others.

Mrs. Lamb was instrumental in Charles Gholz, Texas State Library representative, coming to Muleshoe, Gholz, who will continue to serve as state representative to the bookmobile program, has assisted in the formation of the bookmobile program and Muleshoe area library plans.

Only one year ago on April 21, 1963, in conjunction with library week and in support of the Muleshoe Library Board of Trustees' program for expansion under the direction of co-chairmen Ola Bel-Lamb and Lester Howard, the ESA sorority, under the presidency of Marjorie Precure, with the volunteered assistance of Muleshoe Jaycees under president Jay Spain, announced a library benefit and fund drive, culminating on June 3 with \$2,000 check for the Muleshoe Area Library building fund.

A five-day "Fun Fiesta" featuring Sutton Imperial Shows along with amusement booths operated by local civic clubs and organizations, was sponsored by the Jaycees in August, 1963, to raise money for the improvement of the Bailey County Library. Organizations participating were EST, Scout Troop 620, Fire Department, Muleshoe Girl Scouts, Muleshoe Study Club, Athletic Boosters, Llano Estacado Civic Club, Rotary Club, Lions Club, Scout Troop 634, Youth Center, Chamber of Commerce and of course, the Jaycees.

Beginning with a handful of interested individuals and several pre-organizational meetings, a "Friends of the Library" organization was formed when 44 persons attended the first meeting Dec. 2, 1963, under the sponsorship of the Chamber of Commerce, and other interested organizations and individuals.

Officers were elected with Matilda Stemmmons, president; J. Frank Peery, 1st vice-president; David Branson, 2nd vice-president; Mildred Davis, secretary; and Opal Boothe, treasurer. FIA now has grown to approximately 600 persons, Melvin Evans, membership chairman. The Memorial Funds, under Rev. Peery, has about 25 names on the honor roll. The inter-county relations of FIA prepared for the bookmobile program. It was headed by Joe Harbin, and assisted by the chamber of commerce. Bailey County Commissioners approved the bookmobile program on Feb. 14, 1964, and were followed by

the courts of Parmer, Cochran and then Lamb counties.

The library building, 113 East Ash, was purchased in March to house both the bookmobile and public library programs, with assistance of Ronald Johnson, Roy Davis, Pat Bobo, and Charles Lenua.

The FIA finances are chaired by Mrs. Charles Lenua. Seven persons are already \$100 Life Members of FIA. Two fund-raising sales netted \$781.75 for library necessities, chaired by Mrs. Vic Benedict and Mrs. L. B. Hall.

The 26 units of modern adjustable shelving were a donation from Muleshoe Jaycees' funds. The Library Board of Trustees, upon the recommendation of FIA, reconstituted with seven members appointed as new board on April 6. The list will be submitted to city and county officials for appointment to the Muleshoe Area Public Library Board.

It is expected that this new board will meet in the near future to formulate and begin execution of its many duties as library advisors.

Items for action include library budget, funds, opening, operation, program rules, employment of a competent and qualified librarian, and remodeling plans.

Librarians include Mrs. Minnie Solomon, first county librarian; and Mrs. E. R. Wright, who has served since appointment on October 1941 to May 1964.

Progress--

(Continued from page 1) Her gratitude to those of her neighbors who have helped her establish herself in the community and have supported her civic programs is unbounded.

Her family, which is deeply involved and sometimes in disagreement with what she says, also loves her and give unstintingly of themselves for her and the community for which she works. She glad she came to Muleshoe and she's quite frankly in love with the area, its people and most of its customs.

Mel Sieber Transferred To Shaw AFB

SHAW AFB, S. C. - Airman First Class Melvin W. Sieber, son of Mr. and Mrs. Loyd T. Sieber of Muleshoe, Tex., has arrived here for duty following a tour of service in Okinawa.

Airman Sieber, a jet mechanic, has been assigned to the Tactical Air Command's 363rd Field Maintenance Squadron. The airman entered the Air Force in 1960. His wife, Lynda, is the daughter of Mr. and Mrs. Loyd Dotson of Spring, Tex.

Cotton--

(Continued from page 1) the 15 to 30 size category, any reduction in that range would be infinitesimal.

Selbert used average yields and average operating costs in his calculations without making allowances for the increased efficiency which normally accrues to the greater number of acres planted. Even so, net income in most instances came out greater for the farmer who planted his total allotment.

In addition to this the bill provides that the Secretary may authorize an INCREASE of up to 1 percent of a farmer's total allotment for export at world price.

There is, of course, no certainty that this would be permitted by the Secretary, but if it were it would tend to increase rather than decrease the total acreage planted to cotton on the High Plains. And, there has been hope that this extra production might also be allowed to go into new and non-textile uses such as cotton bagging or paper making. This possibility could really be a boon to the High Plains where large volume, low quality cotton can probably be produced as

cheaply as anywhere in the United States.

In making decisions as to whether legislation is either "good" or "bad" it would be foolish not to consider the alternative. In this instance the alternative to passage of legislation to reduce the huge cotton surplus is likely a forced, across the board cut in cotton acreage of 20 or 25 percent. It is impossible to predict with any degree of certainty the total acreage that would be planted to cotton under this legislation, but looking at the alternative it appears we would be taking a very small risk indeed.

THE SOCIALISTS' OMNIBUS BILL OF 1963 NOW BEFORE THE SENATE

The American people are being set up for a blow that would destroy their right to determine for themselves how they will live. What is being piously presented as a humane effort to redress past wrongs — the 'Civil Rights' bill — is, in fact, a cynical design to make event the least of us, black and white alike, subject to the whim and caprice of government bureaucrats. Unless American workers, farmers, business and professional men, teachers, homeowners, every citizen awakens now, harsh Federal controls will reach into our homes, jobs, businesses, and schools, into our local and State elections, and into our municipal and State governments.

\$100 BILLION BLACKJACK

You should know, through this bill you are to be struck by a \$100 Billion Blackjack—almost the total Federal budget. Your tax money is to be used as a weapon against you. That is the meaning of the Civil Rights bill: (1) It would amend every Federal law (hundreds of them) that deals with financing so that each Federal department or agency could make its own regulations to manipulate Federal funds: Each Federal department or agency would define for itself what is "discrimination" and apply its own penalties (Sec. 601-602). (2) It would empower Federal political appointees—though the use of the blacklist, cancellation of contracts, foreclosure, and other punitive means—to use almost \$100 billion a year to force our people to knuckle under to Executive dictation (Secs. 601-602). You should know this.

TOTAL FEDERAL CONTROL

The bill now pending in the United States Senate would (a) Allow people to be jailed without trial by jury (Titles I, II, III IV, and VII). It would (b) Allow the government to hold Star Chamber sessions and to imprison those who disclose, without permission, what went on behind its closed doors (Sec. 501). It would (c) Deny an individual the right to freely seek employment without Federal interference as to race or religion — It would deny this right (Titles VI and VII). It would (d) Deny the employer the right to hire, fire, promote and demote without Federal interference as to race or religion — it would deny this right (Titles VI and VII). It would (e) Deny to School Boards (public and private) and to colleges the right to determine, unhampered by the Federal government, how their students and teaching staffs should be handled—it would deny this right (Titles IV, VI and VII). It would (f) Take from local and State officials their right, without Federal interference To handle local and State elections (Title I); To regulate local parks, swimming pools and other recreational facilities (Title II); To regulate hotels, restaurants, motion-picture houses, stadiums, etc. (Title III); and To regulate employment practices (Titles VI and VII).

THE MYSTERY WORD: 'DISCRIMINATION'

The bill now pending in the United States Senate would: (a) Allow each Federal department and agency to determine for itself what is and what is not "discrimination" (Titles V, VI, and VII)—the bill, itself, does not define the word. (b) Allow each Federal department and agency to determine for itself what is and what is not "race" and "religion" (Titles IV, V, VI and VII)—the bill, itself, does not define either word. Therefore, there would be no uniformity of interpretation. What might be classified as a "discriminatory practice" by one agency, might not be so classified by another agency.

OMNIPOTENT PRESIDENT

And always—if this bill becomes law—there will be the Omnipotent President or his appointees to rule, thumbs up, thumbs down. Sometimes, yes. Sometimes, no. Only a Dictator has such prerogatives. If follows, then, under the Socialists' Omnibus Bill—misnamed the Civil Rights Bill—those who enjoy political favor may expect political favors. Others may expect something else. Such is the significance of the bill now pending in the United States Senate: It would establish the Rule of Man and abolish the Rule of Law. Six members of the House Committee on the Judiciary, each an attorney and each an expert in this sort of legislation, has said: "The reported bill is not a 'moderate' bill and it has not been 'watered down'. It constitutes the greatest gasp for executive power concerned in the 20th Century."

Within The Coverage Of This Bill Federal Inspectors Would Dictate To—

SCHOOLS & COLLEGES:

- As to
1. Handling of pupils.
 2. Employment of faculties.
 3. Occupancy of dormitories.
 4. Use of facilities.

TEACHERS:

- As to
1. Their employment, discharge and promotion.
 2. Preferential treatment to minorities.
 3. Compensation, terms, and conditions of their employment.

HOSPITALS:

- As to
1. Medical and nursing staffs.
 2. Technical, clerical and other employees.
 3. Patients' beds and operating rooms.
 4. Facilities and accommodations.

HOTELS, MOTELS, RESTAURANTS:

- As to
1. Rental of rooms.
 2. Service of customers.
 3. Hiring, firing and promotion of employees.

STATES & MUNICIPALITIES:

1. State FEPC acts.
2. State Labor laws.
3. Handling of public facilities.
4. Supervision of private facilities.
5. Judges and Law Enforcement Officers.
6. Handling of elections.

Dictatorial Attorney General

This bill would make the Attorney General a virtual dictator of America's manners and morals. It would grant him unprecedented authority to file suits against property owners, plain citizens and State and local officials, even though the supposed grievant has not filed suit. The Attorney General would become the grievant's lawyer at the taxpayers' expense. The bill grants to the Attorney General— (1) The unprecedented power to shop around for a judge he prefers to hear a voting suit (Title I). (2) The right to sue an owner of public accommodations before the owner is accused of a "discriminatory practice" (Title II). (3) To sue State or local officials concerning public facilities, without an individual having filed suit (Title III). (4) To sue local school boards, although no suit has been filed by any school child or other person (Title IV). Last fall, when broad authority to sue in Civil Rights matters was first proposed, the Attorney General said: "Obviously the proposal injects Federal executive authority into some areas which are not its legitimate concern and vests the Attorney General with broad discretion in matters of great political and social concern." This bill falls within that condemnation.

STATE CAPITAL
Highlights
AND Sidelights
by Vern Sanford
 TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — A mighty head of tension which had built up at the state capitol eased as the Houston federal court agreed to postpone effect of its congressional redistricting order until the next elections.

Top Democratic officials and members of the Legislature kept close watch on the news wires out of Houston as they sweated out the decision following four days of hearings and arguments.

Their optimism had wilted in the last 24 hours before the ruling was announced. More than one legislator reportedly had his bag packed ready to return to Austin for a special session.

Gov. John Connally apparently had indicated he would call the session immediately if the court stuck by its original October 19 order for at-large (statewide) elections in all districts unless the Legislature adopted a redistricting bill.

As it is, although the court postponed effective date of its ruling, it kept the case on its docket and will take further action if a constitutional districting bill is not passed by August 1, 1965.

Major officials applauded the ruling.

Republicans who brought the original suit, was disappointed that the equal-population-for-each district order will not take effect until congress after next. But they took comfort in the fact that their principal goal was achieved.

Governor Connally said redistricting will be given "highest priority" in the 1965 Legislature and "every attempt will be made to have a thorough redistricting consistent with the opinions of the Supreme Court and (the Houston) federal court."

Frank C. Erwin, Jr., State Democratic Executive Committee Chairman, said redistricting will be the main plank in the State Democratic platform this year.

An "entirely satisfactory" solution will be found by the Legislature next year, predicted Lt. Gov. Preston Smith.

George Bush, Republican U. S. Senate candidate from Houston who filed the suit with four other GOPs, said the group would file no appeal since "further delays . . . would lead to turmoil."

Democrat Congressman - at-large candidate Bob Looney, an intervenor in the action, didn't agree and promised a new appeal to the U. S. Supreme Court for redistricting this year. He also called on Texans to petition Governor Connally for a special legislative session on the subject.

For all practical purposes, the judicial chapter on redistricting is closed for the year. Congressmen will run in their old districts one more time.

Major surgery must be performed at the districts next year. And while they are carving, state legislators in all probability will have to re-divide their own districts. Another suit is pending to force state legislative reapportionment. For lawmakers, that will be even more painful.

RECORD VOTER LIST—There are more Texas voters this year than ever.

A record total of 2,888,183 have paid poll taxes or obtained exemption certificates, the State Comptroller reports.

That's 293,929 more than in 1960, the previous record year, and 533,024 more than in 1962. Even so, the report does not include the free registrations for federal elections or voters over 65 who do not have to get exemptions because they live in cities of less than 10,000 population. Addition of these two categories could swell the qualified voter list to more than 3,000,000.

Eighty-eight percent of the qualified voters cast ballots in the 1960 presidential election. If they turn out at the same rate in this year's presidential general election, will be cast.

Texas Republicans, aiming at getting a larger share of those votes, say they will have at least one polling place in every county for the May 2 primary.

SALT WATER POLLUTION — Texas Railroad Commission is putting more teeth into its orders against unlined earthen surface pits for salt water disposal.

At least 30 oil leases in the Hubbard Creek watershed have been severed because operators failed to comply with the Commission's no-pit order which became effective for that area on March 1.

Commission says it will inspect every lease in the watershed. Oil cannot be moved by pipeline or

truck while the leases are severed.

TEXAS SAVINGS BONDS — Secretary of State Crawford C. Martin has been named chairman of a payroll savings campaign for the purchase of U. S. savings bonds by state employees.

Governor Connally, honorary chairman of the Texas Savings Bonds Committee, named Martin to the post of coordinating efforts of state agencies to encourage their employees to buy savings bonds through payroll savings plans.

PARKS AND WILDLIFE — Texas game wardens and biologists are making a spring survey of wild turkeys in many parts of the state, to get an idea of their population trend. They also have begun their spring squirrel census in counties where the squirrel is an important game species.

Two key regulations for state parks will (1) Permit camping and shelter occupancy for a 14-day limit during the regular park season between May 1 and September 13, and (2) Make radios, recorded music and musical instruments subject to a 10 p.m. curfew in picnic, camping, shelter and other overnight facility areas. However, they will be permitted in concession buildings and immediate areas until 11 p.m.

Sheldon Reservoir, a 1,200-acre lake 15 miles northeast of Houston, has been opened to boat and wade fishing.

CANDIDATES POLED — Texas State Teachers Association polled legislative candidates on their stand on education and reported they endorsed a \$45 per month pay raise for school teachers and strongly favored five other measures which would benefit Texas schools.

Replies to the questionnaire sent by TSTA's magazine "Outlook", came from 26 of the 35 Senate candidates and 169 of the 406 House candidates.

ED — Governor Connally approved of regents of Midwestern University, Wichita Falls. They are R. Clay Underwood, Marvin Pierce and James Barnett of Wichita Falls and Mrs. Macon Boddy of Henrietta.

Connally named H. D. Fields of Saint Jo to the Red River Authority board of directors to fill the unexpired term of C. O. Glenn of Nocona, extending until 1967.

Sgt. Willard E. Hale of Houston is the new inspector of the Inspection and Planning Division of the Texas Department of Public Safety.

HIGHWAY PROJECTS — Texas Highway Department tentatively approved a \$33,400,000 freeway, Interstate 20, through the Fort Worth-Dallas area.

Dallas, Houston and Fort Worth delegations asked approval of

highway projects costing \$42,000,000.

A Rusk County delegation sought \$16,000 worth of improvements and a Dawson County group asked the Highway Com-the Lamesa area.

INDUSTRY RESEARCH CENTERS PLANNED — Governor Connally's committee on Education Beyond the High School has taken a look at plans to use Texas industries as "great research centers" and to launch brand new types of graduate degree programs.

Committee studied these proposals and 14 others in a recent session as it continued to seek ways to achieve top ranking for the Texas college system by 1975.

Its final meeting, before writing a tentative report, is scheduled for April 18.

THEY'RE SMOKING AGAIN — Texans, who showed signs of slowing down on their smoking in February shortly after medical scare reports, are now at it again as heavy as ever.

Tax revenue from cigarette sales, which dropped sharply soon after the federal report on smoking dangers was released, March, according to State Treasurer Jesse James.

"It looks like they have gone to smoking," shrugged James. "At least, there's not any big wholesale quitting."

Comptroller Robert Calvert said it worked out about the way he had figured — smoker would go back to their cigarettes after the first shock of the warnings faded.

BAR SEEKS TO BAN BELLI — Fed up with the antics of bell-cos California lawyer Melvin Belli, the Texas State Bar Association is seeking an order from the State Supreme Court

to keep him from practicing law in Texas.

Claimed the Bar, in requesting an injunction against the onetime chief defense counsel for slayer Jack Ruby, "(Belli's) conduct has been so grossly and flagrantly unethical, intemperate and abusive in nature as to weaken the administration of justice and to lessen public respect for the courts and laws of this state."

Belli has displayed no remorse for his tirades against Dallas and the trial court since his former client received the death penalty.

SHORT SNOITS — Texas Liquor Control Board reports that collections for the entire state totaled \$36,454 in February, as the result of 712 convictions and 49 jail terms with just 54 dismissals and 5 acquittals. . . . Texas business activity hit a new high during February, University of Texas Bureau of Business Research reported. . . . A new calendar of tourist events is available from Texas Highway Department. . . . Mrs. Grace M. Martin of College Station has resigned as women's activities consultant in the Civil Defense and Disaster Relief office. . . . State Department of Banking received an application for a state bank in Lake Gardens, Tom Green County. . . . State Savings and Loan Department is pondering rival applications of Kendall Savings Association for a new charter at Boerne and Community Savings and Loan Association of Fredericksburg for a branch office in Boerne. . . . State Supreme Court rejected appeals of Dist. Atty. Hulon Brown of Jacksonville and Justice of the Peace Curtis Lacy of Austin for places on Democratic primary ballots in Angelina County and Travis County, respectively.

South Plains College Choir Coming Here

South Plains College Choir is preparing a two-day tour of area towns April 20-21.

The group of 32, under the direction of Harley Buisl, will travel to Muleshoe for a program in the high school at 9:30 a.m. April 20.

The program will open with

"Sound of Music," followed by "O, Magnify the Lord;" and "Lord Make Me An Instrument of Thy Peace."

Julane Tichenor, coloratura soprano of Lubbock, will sing "The Alpine Shepherdess;" and Marcheta Ownbey, contralto of Levelland, will sing "Granada."

Both the men and women's quartets will present special numbers.

The choir will sing a negro spiritual and a novelty folk song and the program will close with "The Lord Bless You and Keep You." This closing has been a

tradition with the SPC choir since its beginning.

JFK PROBE HALF OVER

After 3½ months, a Presidential commission appears to be about halfway through its quest for all that can be learned about the assassination of President Kennedy.

The commission, created by President Johnson five days after Kennedy's death, has no deadline on its report. After the evidence is all in it will then be necessary to write the report.

100% cool

When the temperature soars, 100% cotton's the coolest. That's because cotton "breathes," absorbs and evaporates moisture, helps keep your body temperature down. Cotton never clings. It's never clammy. It's the most comfortable way to go through summer. And cotton is so easy to care for. Wash it in the hottest water (cotton comes out truly clean). Dry it any way you please (cotton isn't fussy). Iron it without worry (cotton won't melt, discolor or pull at the seams). Even after repeated launderings, cotton things bounce back looking fresh and new, without dinginess or odor buildup. When you shop for clothing, play it cool. Insist on 100% cotton.
