## Drug Bust In Motley County

by Carla Jones

At approximately 5:20 p.m., Tuesday, September 9, DPS Officer Dude Speed was called by Sheriff Alton Marshall about an accident on Texas Highway 70, four miles south of Matador.

When Officer Speed arrived on the scene, he found a 1979 Mercury Cougar, occupied by Jack Lloyd Slate and Rickie Wayne Kilgore, who had been traveling south on Texas Highway 70, traveling from Kansas. Driver stated that they had a blowout, lost control of the car and went into a ditch.

Subject Slate was arrested for DWI and Subject Kilgore was arrested for Public Intoxication. Upon completion of investigation and inventory of vehicle, approximately seven pounds of

a green leafy substance, suspected as being marijuana was revealed in the trunk of the car.

Several other drug paraphernalia items were found, including syringes and an unknown white powdery substance.

Subject Slate is believed to have several aliases.

Vehicle and all contraband have been seized by the department of public safety.

The DPS Narcotics division in Lubbock has been notified.

Charges had not been filed at newstime, pending further investigation.

Both subjects were placed in Dickens County Jail, pending arraignment.

## Motion To Contract Tax Collection Dies in Commissioners Court

by Michelle Bearden

The Motley County Commissioner's Court met September 8, at 10:00 a.m. in the County Courthouse. Present were County Judge Billy J. Whitaker; Commissioners, John M. Russell, Bill D. Washington, Joseph Simpson, and Fraiser Watson; County Clerk Lucretia Campbell.

The minutes were read and approved. The bills were read and approved. Approximation of the totals were: General fund \$4991, Precinct I \$2601; Precinct II \$1939; Precinct III was \$2834; Precinct IV \$27,171. The Treasurer's Report showed a balance as of 8-31-86 of \$180,329.40. The Justice of the Peace Report showed a total collection of \$3224.50.

A motion was made and passed to validate the fact that the county treasurer has completed his hours for certification.

A motion was made and passed unanimously to pay the trapper \$900 per month for 9 months of the year - not paying for the months of June, July and August.

Library Board president Marisue Potts reported to Commissioner's Court the ongoing efforts to procure grant funds for a library building. A motion was made and passed to appoint Wilda Dixon of Whiteflat to the Library Board.

The County Judge and the Commissioners commended the Library Board from its inception for their foresight and planning within the limitations of economics of this county.

The court met with Sheriff Alton Marshall to discuss contracting out the County tax collection to the appraisal district. The plan to consolidate all of the taxing entities within the county into one office.

The sheriff is the elected tax assessor and collector. The assessing is already contracted out. The sheriff must approve the plan of contracting the collection responsibilities but is against doing so due to having less personnel in the sheriff's office and feeling that, under the law, he would still have the ultimate responsibility for the tax collection.

A motion was made to contract with the Appraisal district to do the tax collections for Motley County. The motion died without anyone to second the motion.

Bids for the microwave and TV were reviewed. A \$126 bid for the TV was accepted. Two identical high bids for the microwave will have to be resubmitted.

A motion was made and passed to keep the employee health insurance at status quo.

## Roaring Springs City Council Meets With Irate Citizens

by Michelle Bearden

The Roaring Springs City Council met September 2 at City Hall in Roaring Springs. Mayor Eugene Watson presided. Councilmen present were: Roy Hernandez, Gene Brannon, Ronnie Thacker, and Jean Adams; and city secretary Odessa Mullins.

Three citizens met with council members to question the validity of water meter readings. They described meters that were covered by dirt that had apparently not been disturbed for some time, one meter covered by grass, no meters at all at some places, etc. The crux of the complaints were disparaging increase of water bills. Councilmen reported that the minimum usage was set at 4000 gallons; that and 50¢ per 1000 gallons is charged over that minimum. One problem pinpointed by the council was that meters are, at times read several days after the previous meter reading, which throws the user over the minimum limit and thereby unnecessarily incurring higher rates.

Councilmen noted that complaints had intensified greatly in the last few months. In regards to the variants of meter placement, councilmen stated that they are placing (and replacing) meters as fast as the money is available to do so.

Another group of Roaring Springs residents met with city council members to express their views of the recent petition on animal control within the city limits. These residents expressed vehement outrage to the subsequent involvement of the Texas State Health Department,

The GFWC Predicta Study Club, a veteran civic oriented Roaring Springs club has been instrumental in helping the city of Roaring Springs win the "Governor's Award" participant plaque along with 77 other Texas communities.

The city of Roaring Springs received this year's Governor's community achievement award in the largest litter prevention campaign in Texas history. "Keep Texas Beautiful" has recognized each participating city with a framed certificate which was presented at "Keep Texas Beautiful" annual meeting held in Austin August 13. Roaring Springs was primarily recognized for contributing to a cleaner, more beautiful Texas sponsored by the efforts of the Predicta Study Club.

Predicta Study Club president, LaVoe Thacker states, "The club has had several community projects in the last ten years starting with the City Park." Mrs. Thacker extends credit to her sons, Joey and Jeff Thacker for motivating other local business people and the city council to sponsor the wooden barrels in the downtown area with trees and shrubs in them.

A cooperative effort of city

leaders periodically replace flowers, shrubs, etc. as necessary. Mrs. Thacker stated that former city manager, Annie Alvarado helped the club gain recognition for their efforts.

The Predicta Study Club and the Roaring Springs Lion's Club are currently joint sponsors for a Parks and Recreation grant designed to beautify the city and its park. This grant is financed 100% through the cigarette tax.

Predicta Study Club also sponsored the Sesquicentennial Cookbooks through their financial backing. The club bought 500 of the cookbooks initially which provided funds to pay for the first printing. The Sesquicentennial Cookbook was begun to ultimately benefit the library building fund. Predicta's efforts in this project brought in more than \$1300 which was recently presented to the Library Board for the established building fund account.

Predicta's profit from the Sesquicentennial Cookbook sales went to benefit the Depot Fund. The Roaring Springs Depot was placed on the Texas Historical Register in 1977 as a result of the Motley County Historical Commissions efforts to preserve the unique Mission style building from demolition. The club spends a minimum of \$500

## Hospital Board Interested In Full Time Doctor

by Barbara Jameson

The Motley County Hospital Board met at Billie Dean's for their usual breakfast meeting. Those attending were Larry Hoyle president, Caldwell Smith, Buzz Thacker, Darrell Cruse, and Lillie Crouch, Secretary.

The bills were read and paid for August, for a total of \$3,633.97 for expenses, leaving a balance of \$13,577.68.

An appraisal board report was given in that Betty Luckett had been hired for that job and other decisions were still not final.

Due to article 25.20 of the Texas Tax & Code Law, a tax rate was discussed, motion made and seconded to lower the rate to \$0.09175 for 1987.

The Indigent Health Care Law was discussed but still no final word from Austin.

Crouch had a publication that lists doctors and what kind of

practice they want, where they would like to live, which the board could subscribe to for \$50.00. President Hoyle said that Pharmacist James Stanley had said he would also look for a doctor if the board wanted him to, Hoyle assured him they did. They discussed the feasibility of having a doctor in private practice and/or keep the South Plains Health Provider Clinic. Smith stated he is convinced we now have the best system possible for Motley County and that this is the reason they have updated the Ambulance service as they have, but if a doctor wanted to set up a permanent practice, he/she would be welcome. They are interested in a doctor, but it does involve alot of consideration good and bad.

They did vote to pay \$50.00 and subscribe to the Medical Publication.

## Library Notes

by Sara Hurt

Did you know that September is Adult Literacy Awareness Month? Starting in September, 1986 with the support of approximately 100 national organizations, the Public Broadcasting Service and the American Broadcasting Corporation will launch a major media campaign designed to raise awareness and initiate new programs aimed at the problem of adult literacy in the United States. This joint project, titled Project Literacy U.S. will kick off with an ABC news documentary on September 3 and continue through the 1986-87 broadcast

season. So be sure to watch for these special programs in the coming month.

The library board and myself would like to welcome our new Board Member, Wilda Dixon of Whiteflat. We know that she will be a great asset to our Board meetings.

We would like to thank our volunteers in the library this week, Earline Vaughn and Keith Patton. We really appreciate their help.

We thank Nita Hindman of Canyon for her donation of a book in memory of Lois Green.

### Plan Food Shopping Trips to Cut Costs

Are you one of those folks who go the supermarket two or three times a week "just to pick up a few things"? Do you get exasperated because you spent more on groceries than you intended and then wonder where they went?

Here are three simple suggestions to help you stay out of the express lane at the supermarket as well as reduce your grocery bill.

\* Plan your menus, including snacks, for at least a week in

advance. Check to see what you already have on hand in your freezer and pantry, and use those foods as a basis for planning what to buy.

\* Make a shopping list. It's easy to buy things you don't need if you don't have a list. Also, with a list you won't forget the things you need and have to make an extra trip to the store. Keep a running list posted on the refrigerator or cupboard so you can add to it throughout the week.

\* Resolve to go grocery shopping no more than once a week. Frequent trips to the store add to your costs because it's easy to buy extra items each time. Try to shop without your children, since it's difficult to say "no" to their favorite foods. Don't go shopping when you're hungry because everything looks good and it becomes harder to stick to your list. And shopping in a hurry can cause you to overlook the best buys.

### R.S. CITY COUNCIL

continued from page 1 who had spot surveyed locations primarily used for large animal containment.

One council member responded that the council had determined that there was no way to implement an ordinance that would be fair to everyone. The council has obtained copies of animal control ordinances that small cities (Floydada, Ralls, Crosbyton, Spur, etc.) in this region utilized. Other city ordinances targeting for a loose degree of animal control is being studied by the council.

The City Council decided to formulate a question and answer poll regarding an animal control ordinance and submit to each resident. The council also found an animal control ordinance on city records dating 1940.

### PREDICTA

continued from page 1 per year on the Depot's upkeep. Predicta and the Roaring Springs Lion's Club continues to substantiate plans to establish a museum in the Depot.

An interesting note about the acquisition of the Depot by the city of Roaring Springs, was related by Joyce Smith when she was on a plane in 1976, which her seat mate happened to be Verlin Bigham, a former Roaring Springs resident. Their discussion of local events led to Joyce relating the city's problems trying to save the Depot. He

at Paducah, the gals were able to play Monday -- third time, indeed, "made the charm," as the "ole saying" goes. As one reported, "they played -- but not too well" -- any of them!

Seven players went from Springs went from Springs Ranch: Loys, Lucretia, LaVoe, Olivia, Geneva, Dorothy D. and Louise.

Doughnuts, cake, coffee and orange juice were served upon arrival, and a sack lunch was enjoyed at noon.

LaVoe was the only player (of ours) who brought home a glass won for low net in championship flight. Louise and Geneva tied for low putts (29).

The residents meeting with the council were invited to give their recommendations to the council regarding an animal control ordinance. One resident volunteered a suggestion: to simply drop the matter.

Fall clean-up day is being planned for the city of Roaring Springs, but has not yet been scheduled.

Discussion of consolidating the taxing entities within the county elicited a concern by one council member that delinquent taxes might not have as high a priority as the Roaring Springs council felt should be placed on it.

The Council discussed a 3% increase in city taxes which was voted on and passed. Councilmen discussed that Quail Pipe has increased city tax income by \$7000 per year.

responded that he knew a couple of the men on the Burlington-Northern Board, who owned the Depot at the time, and he'd just talk to them, which he

later did. They graciously handed over the deed to the depot to him to be given to the City of Roaring Springs. The Predicta Study Club and the Roaring Springs Lion's Club

assumed responsibility for the Depot's upkeep since that time. It was dedicated in memory of Melton Thacker in 1976.

# DON'T SHOOT AT POWER LINES!

**NEVER SHOOT AT POWER LINES** or the insulators that hold them, because the result could be a dangerous downed electric line. A severed line could cause a serious electrical outage, and the downed line itself could be extremely hazardous.

### ADDITIONAL SAFETY TIPS:

#### • Use Power Tools Wisely

Be sure wiring is in good condition and all circuits are grounded. Never use electric tools in the rain or on wet surfaces. Also, when buying new equipment, look for the "UL" seal of approval from Underwriters Laboratories.

#### • Keep Children Away from Electrical Outlets

Don't let small children play near electrical outlets. A child could put some object in an outlet when you're looking away. A wise safety precaution would be to put safety caps in all wall outlets.

#### • Always Disconnect Cords by Pulling on the plug

When disconnecting electrical items, be sure to pull on the plug -- not the cord! If you pull on the cord, you'll eventually wear it out and expose hazardous wires. Also, don't overload extension cords or outlets.

# WHAT IF?....

by Marisue Potts

What if...Motley County developed one of its greatest untapped resources by promoting tourism? The county possesses diversified natural assets which could put money in the pockets of its people with a little planning, promotion, AND a great change in attitude.

Farmers, ranchers, and local businessmen could quit crying the economic blues and start paddling their pocketbooks if they could tap the readily available markets of Lubbock, Wichita Falls, Dallas, and Ft. Worth vacation-goers.

Naturally, hunting is one of the first money makers that comes to mind, but other proven ways of tapping this market without a big investment are trail rides, history programs, prairie rock or arrowhead hunts, and "working" vacations, festivals, rock or arrowhead hunts, and wildlife photography safaris. Hunters would then become guides; ranchers become hosts; farmers become instructors; and housewives, recreational directors.

The rub comes from the independent nature of our people and their natural distrust of outsiders. A reclusive rancher is not likely to enjoy sharing his acreage or his wildlife with strangers. A shy and introverted farmer is not likely to enjoy playing nursemaid to soft city youngsters.

Although generally noted for their friendliness and helpfulness in time of crisis, some old timers make newcomers feel unwelcome. Out-of-towners have related to me what a neat and unique soda fountain Matador has and what a unfriendly coffee-klatch group guards it. I personally still remember the grilling we got from the sheriff and the curious open-mouthed stares we elicited when we returned here about fifteen years ago. (If we must stare, folks, how about a friendly little wave?)

But, with a different frame of mind, an attitude adjustment, think, what if...the Luther Greens

opened a bed and breakfast in their 1916 vintage home with six bedrooms. It certainly would be an unusual place to stay, and Luther tells a good story. The wide avenue would be inviting to walkers or joggers.

What if...Sonny Jackson furnished his hotel apartments with his unusual antiques and leased them out as condos on a time-share basis to hunters, rock collectors, or history buffs?

And what if...James Bearden hosted a Trail Ride (\$40 a head and bring your own horse) along the creek of the Bird Ranch where turkeys roost in ancient cottonwoods?

What if...James Gwinn "hired on" families who wanted to live and work on a farm for \$300 to \$600 a week, and put them to work in the hay field or in the barn milking Darla's cow?

Say, what if...Vann Francis put on a chef's hat cooked up some that beef he raises and charged fifty dollars a steak to well-to-do tourists/hunters who are roughing it in the bunkhouse?

Or what if...Coy Franks sponsored a riding clinic or roping school for out-of-towners at his excellent, well lighted arena, with competition on graduation night? (He already has two built-in instructors and a community of supporters.)

The "what-ifs" are endless, limited only by one's imagination. Family-oriented, three or fourwheeler ATV and motorcycle clubs seek ranch or farm leases in much the same way as hunters do. Landowners specify trails and limitations, while club members police themselves and enforce rules. Lucrative club dues and additional use fees make this alternative worth looking into.

We can keep growing cheap cotton, wheat or grain, selling for less than our harvest cost, giving away prime beef, begging for buyers; or we can diversify, change our attitudes, and relieve city people of a little of that extra cash they're ready to spend in the country.

## PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED

## CONSTITUTIONAL AMENDMENTS

GENERAL ELECTION

NOVEMBER 4, 1986

### PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 15 proposes a constitutional amendment that would permit the legislature to provide by general law for the apportionment of the value of railroad rolling stock among the counties in which the property of the railroad is located for purposes of property taxation, and would delete the requirement that the Comptroller participate in making the allocation. To comply with both statutory and constitutional law, the apportionment currently is being made by the State Property Tax Board in conjunction with the Comptroller.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to allow the legislature to provide by general law for the apportionment of the value of railroad rolling stock among counties for purposes of property taxation."

### PROPOSITION NO. 2 ON THE BALLOT

Senate Joint Resolution 33 proposes a constitutional amendment that would replace the constitutional requirement that the subject of a bill be expressed in its title with a mandate that each house of the legislature adopt rules of procedure that would require the subject of each bill to be expressed in its title in a manner that gives the legislature and the public reasonable notice of that subject. Determining compliance with the rule would be the responsibility of the legislature. Cur-

rently, a law is invalidated if a court finds its caption is defective. The amendment would provide that past and future enactments may not be held void on the basis of an insufficient title.

The amendment also would eliminate the suggestion that the state's laws be revised every ten years, and instead would provide for continuing revision of state laws.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment requiring each house to include in its rules of procedure a rule that each bill contain a title expressing the bill's subject, and providing for the continuing revision of state laws."

### PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 73 proposes a constitutional amendment that would permit the Legislature to authorize any county, city, town, or other political subdivision to use public funds or credit to pay insurance premiums on nonassessable life, health, or accident policies. Due to the prohibition in the constitution against the lending of credit and granting of public money, political subdivisions currently are prohibited from becoming shareholders in associations such as mutual-insurance companies, in which policyholders are shareholders. A nonassessable mutual insurance policy does not allow a company to raise capital by assessing the policyholder an extra amount on a pre-

mium. This amendment will allow mutual insurance companies and stock companies to bid for life and health group policies of political subdivisions. Public liability will be limited to the payment of premiums specified in the contract.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment allowing political subdivisions the opportunity to engage in and transact business with authorized mutual insurance companies in the same manner as with other insurance companies."

### PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 4 proposes a constitutional amendment that would repeal the prohibition against branch banking by state banks and would allow state banks and national banks domiciled in this state to establish and operate banking facilities at locations within the county or city where they are domiciled. The amendment would also authorize the Legislature to permit a state bank or a national bank domiciled in this state to engage in business at more than one place if it acquires a failed state bank or national bank domiciled in this state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide that a bank may offer full service banking at more than one location within the city or county where its principal facility is located, subject to limitations and restrictions provided by law."

Estos son los informes explanatorios sobre las enmiendas propuestas a la constitucion que apareceran en la boleta el dia 4 de noviembre de 1986. Si usted no ha recibido una copia de los informes en español, podrá obtener una gratis por llamar al 1/800/258/8683 o por escribir al Secretario de Estado, P.O. Box 12887, Austin, Texas 78711.

## Terry Keltz Named Vice-President Of Lockney Bank

Terry Keltz

Terry Keltz has announced his resignation as Administrator of Lockney General Hospital. "After a great deal of thought and careful consideration, I have decided to steer my career down a different path. Following fourteen enjoyable years of service in the health care field, I have chosen to enter the banking profession. I have held a long-term interest in the financial industry and joining First National Bank in Lockney

will provide an excellent opportunity to develop that interest."

Keltz will be making the transition on October 1, when he will begin his duties as a Vice-President, Personnel Director, and Secretary to the Board of Directors of First National Bank in Lockney.

Following the completion of several strategic objectives, aimed at improving over-all efficiency and enhancing the ability to survive the current economic environment, the hospital is in a favorable position compared to other small and rural hospitals in the West Texas

area.

"Although I will be leaving the Lockney General Hospital as its manager, I will continue to be one of its' strongest supporters. I pledge my support to the continued success of the hospital and offer my personal time and resources to its future needs."

"It has been a pleasure to be associated with our fine doctors, nurses, administrative and allied staff, and the Board of Directors of Lockney General Hospital. The most difficult tasks I faced during my tenure were simplified by their unified cooperation and support."

Kim King, President and C.E.O. of First National Bank in Lockney stated, "The Board of Directors and staff are extremely excited and feel very fortunate that Mr. Keltz has accepted a position with the bank. He is a multi-talented individual whose innumerable accomplishments in hospital administration, combined with his outstanding educational background, make him a well-qualified candidate for the field of finance. Mr. Keltz is considered to be a strong community leader who is well respected in Lockney and in the surrounding area. We feel that he will be a tremendous asset to First National Bank and that Lockney will continue to reap the benefits of his community-oriented leadership."

"The bank, realizing the vital role Lockney General Hospital plays in the community, reaffirms its' support and encourages Mr. Keltz's future cooperation with the hospital's administration as may be requested. The addition of Mr. Keltz to our staff represents the continued emphasis that bank ownership places on maintaining quality management in adjusting to the needs of the community in an ever changing environment."

## Card Of Thanks

I want to thank each one of you so much for all the visits, calls, cards and flowers during my hospitalization. We appreciate each one of you.

Ruby Ellithorp

We want to express our appreciation to those who have shown us such love and care since the tragic death of our son Gary.

Our christian friends and their prayers have strengthened us and in time our precious Lord will heal our broken hearts. Your presence at the memorial service meant so much to us. We know many unable to attend were praying for us. May God bless you is our prayer.

Donnie & Birdie Howell and family

The surviving family members of Buck Hughes, disabled Vet of WWII, express with deep gratitude and thanks to the following members of the VFW post No. 6286 of Matador, for performing military rites at Buck's funeral: Luther Green, Commander; Ron Richards, Bugler; John Briscoe, U.S. Flag; Dan Brandon, VFW Flag; Larry Norris, Rifle; Charley Johnson, Rifle; Billy Wason, Rifle; Bill Smallwood, Rifle; Bud Barton, Rifle.

## WTU: News Release

West Texas Utilities customers this month are receiving refunds and also paying less for the electricity they use.

The double-barreled relief comes from a continued decline in the Company's boiler fuel costs, which by law are passed on to the customers. The Company is refunding over \$5 million--an average of about \$11 per customer--in retail revenues collected in excess of actual fuel costs over the past several months. At the same time, the amount charged customers for fuel is being reduced.

The fuel cost refund is the third within about a year for WTU, thanks mainly to the decline in the price of natural gas, WTU's main boiler fuel. A further decline in fuel costs is expected when WTU's new coal-burning Oklaunion Power Station goes on line late this year.

"The cheaper coal should partially offset an anticipated increase in base rates necessary to pay the plant's construction costs," Don Welch of Abilene, vice president and director of customer services, said.

Welch said the new fuel cost factor, which was set by the

Public Utility Commission at WTU's request, brings, WTU's standard residential summer rate down below average for investor-owned utilities in Texas.

WTU customer now will pay \$72.59 for 1,000 kilowatt-hours, compared to \$80.01 under the old fuel cost factor, and \$40.55 for 500 kilowatt-hours compared to \$44.26. The average reported by the PUC for eight investor-owned utilities in August was \$76.55 for 1,000 KWh and \$40.72 for 500 KWh.

WTU's average rates for an entire year now are even lower. Including both summer and winter rates, the 12-month average would be \$68.84 for 1,000 KWh and \$38.67 for 500 KWh. The summer rates run from May 1 through October and were established by the PUC to encourage energy conservation during hot weather.

Coal deliveries are now being made to the Oklaunion plant, which is nearing completion eight miles southeast of Vernon. WTU's share of the plant's generation will be equal to about one third of the company's total existing generating capacity, which comes from eight major gas-fired power stations.

### NOTICE OF RIGHT TO NOMINATE BY PETITION

The Farmers Home Administration (FmHA) is accepting nominations for County Committee elections for Dickens County. This notice is issued to inform eligible voters of the right to nominate candidates by petition. Copies of the petition and instructions on its completion can be obtained from your local FmHA office.

Persons nominated should be currently engaged in the operation of a farm, have their principal farming operation within the County of area in which activities of the County or area Committee are carried out, derive the principal part of their income from farming (that is more than 50 percent of their gross income must come from agricultural production), be a citizen of the United States or an alien lawfully admitted to the United States for permanent residence, not have an FmHA insured or guaranteed loan, and be well qualified for committee work. Nominations must be received in the Spur County Office no later than September 16, 1986. FmHA committee elections are open to all eligible voters without regard to race, color, religion, national origin, age, political affiliation, marital status, sex, and/or handicap.

## Booster Club News

The Motley County Athletic Booster Club met Monday, September 8, for its first meeting of the year. The club reported a total profit of \$819 from both the Exes Football game and the concession at the Claude scrimmage. Proceeds from the two events will be used to help benefit the school's athletic program.

Kenneth Marshall was re-elected president and Jan Azevedo was elected to serve as secretary-treasurer. Other officers will be elected at the next regular meeting, Monday, September 15, 7:00 p.m. in the social studies room.

All parents and friends of students participating in all Jr. High and High School Athletics are welcome. For more information call Kenneth Marshall, 347-2455 or Jan

Azevedo, 348-7239.

A limited number of red and black Motley County caps are being sold by the Booster Club. The cost is \$6 and can be purchased from Guys and Gals, Matador Motor, or at the first home football game.

Coach Eddleman announced the first Jr. High football game will be held at home this Thursday, 6:00 p.m. with the Spur Bullpups. The high school varsity will travel to Spur, Friday night for an 8:00 p.m. kickoff.

Members enjoyed a film review of the Friday night game between Motley County and Whiteface. Coach Hollenback encourages all fans to travel to Spur to support the Matadors. These young men train very hard and **community support** is the basis of reward for any school athletic program.

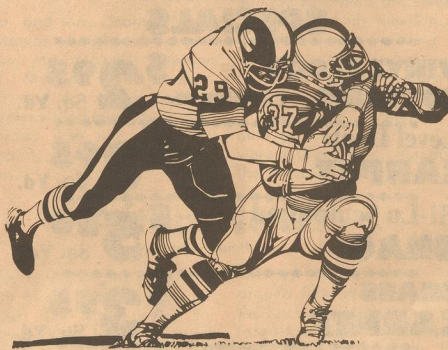

### ATTENTION GRADES 6-12

The "5th Quarter" is coming to Motley County. At the First Baptist Church basement, Friday, Sept. 19, after the first

home game.

There is another get-together planned at the First United Methodist Church after the next home game.

Hope to see ya'll there.

## Football News

by Chip Hollenback

Offensive turnover and defensive breakdowns led to a 45-6 loss for the Motley County Matadors in their opening game of the season against the Whiteface Antelopes.

We were very disappointed in the outcome of the game. We felt it would be a very close game, and in many respects it was. But the offense lost the football too many times with fumbles and interceptions and the defense gave up too many big plays because of mental mistakes. Consequently, the score was very one-sided.

There were some bright spots for the Matadors, however. Rodney Doran had a very good game on defense, recording 12 solo tackles, 1 interception, 1 recovered fumble, and 1 caused

fumble. Brent Marshall recorded 11 solo tackles, 1 caused fumble, and several big hits. Jeffrey Burkes had several good runs from the quarterback position in offense and the offensive line continues to show improvement.

We are a very young team, but we have a lot of potential. As a team, we need to hang together and keep working to improve.

We need to identify our mistakes and then work to make sure that we do not make the same mistakes again. We have to remain positive and not get down on ourselves.

This week the Motley County Matadors will travel to Spur to take on the Bulldogs at 8:00 p.m. Spur features a wide open offense with an outstanding quarterback in Dale Matlock and a speedy wide receiver in Randell Courtney. Motley County will need to work hard this week on their pass defense and not turning the football over on offense. The team expects to have a large group of fans in Spur to cheer them on to victory.

## ACT Test In Focus

As the new school year begins, more than one million high school juniors and seniors across the nation are preparing to take the ACT Assessment.

The ACT Assessment, which consists of four academic tests that measure educational development and a detailed questionnaire that collects information relevant to educational and career planning, is recommended or required by more than 2,700 postsecondary institutions and scholarship programs.

Most students take the ACT Assessment during junior year or early in senior year, so their results will be available in time for use in planning for postsecondary education and careers.

High school guidance offices have the information and forms students need to register for the ACT Assessment. ACT also provides free copies of the booklet, **Preparing for the ACT Assessment**, which contains information about getting ready for the examination, plus a complete practice test.

The basic registration fee for the Assessment is \$10.50. Late registration will be accepted for an additional \$10.00 late handling fee. For 1986-87, ACT has established this test date schedule:

**Test Dates:** October 25, 1986, December 13, 1986, February 7, 1987, April 11, 1987, June 13, 1987.

**Registration Deadlines:** September 26, 1986, November 14, 1986, January 9, 1987, March 13, 1987, May 15, 1987.

**Late Registration Deadlines:** October 14, 1986, December 2, 1986, January 27, 1987, March 31, 1987, June 2, 1987.

It takes about three hours to complete the four ACT examinations in English, Math, Social Studies, and Natural Sciences. The Assessment also includes a two-part questionnaire that students complete at home when they register. It focuses on interests, academic and nonacademic accomplishments, and vocational and educational plans and needs.

Colleges use information from the ACT Assessment for academic advising, admissions counseling, course sectioning and placement, student services, and institutional research. ACT Assessment reports are sent to students, their high school counselors, and the institutions and agencies the student specifies.

The ACT Assessment is a major service of The American College Testing Program, which has national headquarters in Iowa City, Iowa.
