PRICE SEVEN CENTS

TRAIL DUST

By DOUGLAS MEADOR

Satisfaction is the red berries that ripen on the vine of opportunity. The astute connoisseur of leisure knows that it is possible to loaf for a lifetime in a small town without once being arrested for vagrancy.

If babies could vote they would demand of Congress immediate settlement of outstanding debts made by generations preceding their own.

A friend says one of the most famous hospitals in the world gave him a stiff drink of whiskey each morning and evening during the period he was a patient. One man's medicine is another man's poison.

Personally, I am looking forward to someone qualified who will publish a work on abstract futility, like "Memoirs of a Weather Forecaster."

The fact that more men of all ages are wearing glasses is not as alarming as it appears. The mass faulty eye condition appeared about the time girls of all ages started wearing shorts.

Saving money is one of life's great accomplishments which is more frequently mocked than praised, except at the reading of a will.

Resourceful people have always found an implement to bridge the immediate crisis. Pioneers faced any contingency with hair pins and barb-wire, while their descendants are equally prepared with Scotch tape and facial tissue.

Program Launched For Worm Control

College Station—Texas' multi-million dollar screwworm control program is underway. It was launched February 14 when sterile male screwworm flies were air-dropped over Hays County.

The release—first of its kind in the Southwest—was timed to coincide with a meeting of the Southwest Animal Health Research Foundation in Austin. More than 400 livestock producers and sportsmen from Texas and adjoining states attended the kick-off meeting. The fly release climaxed the efforts of thousands of stockmen and sportsmen who have worked on the program for many weeks.

C. G. Scruggs, president of the SAHRF, said the program involves the U. S. Department of Agriculture, Texas Animal Health Commission, Texas A&M College and the research foundation. He reported that contributions by stockmen and sportsmen now totaled approximately \$1,400,000. An intensive drive will be continued, SAHRF officials said, until the \$3 million goal is reached. Scientists, capitalizing on freeze-out of overwintering screwworms in January, believe there is an opportunity for lowering—if not totally eradicating—screwworms from Texas this year.

The program will follow the pattern of the successful eradication effort in Florida and the Southeast. Millions of artificially raised sterile male screwworm flies, made sterile by exposure to radioactive material, will be released in the overwintering area in South Texas and in a "buffer zone" along the southern border of the state. A giant screwworm producing plant will be constructed in South Texas with an expected capacity of 50-75 million flies per week.

SCHOOL ALMOST FREE OF DEBT

A unique position is being attained by the Matador Independent School District. It is almost free of debt. Officials have announced that the total bonded indebtedness of the system is now only \$12,000, and believed to be one of the lowest in this area.

Financial affairs of the school are in excellent condition, and officials say the 1962 budget is being followed closely. Barring unseen problems the school system will be able to meet all its financial obligations without difficulty.

The Tribune believes it voices the sentiments of most of its readers in the district by paying tribute to the board of trustees, Supt. Bert Ezzell and others who may influence the purse strings. Certainly the school officials are to be congratulated for the healthy financial report which has almost become an oddity in news when related to bondable public institutions.

The financial position of Matador's school system has been attained without any sacrifice in plant, facilities or qualified teachers.

County Group 2nd In Grass Judging

A 4-H grass judging team from Roaring Springs placed second in a 4-H grass judging contest held in connection with the San Antonio Stock Show February 17.

Roaring Springs FFA team entered the FFA contest. The team included Rogene Swim, Joey Thacker and Don Tardy. Stacey Watson was alternate.

In San Antonio the group visited LaVallita, General Cos's house, the Spanish governor's palace and the Alamo. Transportation was provided by Bill Peacock, Roaring Springs v-o-a instructor, and County Agent Bill Pallmeyer, who are also coaches of the groups.

Lineup of the 1961-62 championship team is as follows: Thressa Richardson, Ruby Storey, Corlyss Lewis, Ella Brown, Caldonia Anderson, Janice Lewis, Elaine Thompson, Rose Johnson and Georgie Lewis.

GTC Accepts New Matador Building

Special to The Tribune

Completion and acceptance of General Telephone Company of the Southwest's new building to house Matador's future modern dial equipment has been announced by W. L. Frazier, district manager for the company.

The new building on Lariat Street was begun November 10, and will contain automatic electrical terminal per station equipment, part of which has already arrived.

"Installation, scheduled to begin in the immediate future, is of the most modern equipment available in the telephone industry and is being added to provide constantly improving service, as well as to meet increasing demands for all phases of telephone service, including both local and long distance facilities," Frazier said.

Before the cutover to dial operation, telephone instruments will be changed out, all houses not having triple wiring will be rewired, and new telephone numbers will be assigned to all Matador customers. This is known as the ANC or "All Numerical Calling" plan. Each telephone in Matador will have the three numeral prefix of 893 followed by four assigned numbers. The new prefix will assign Matador to the national designation plan and no where else in this area will this combination of "893 plus" be found.

The date of the cutover to dial operation tentatively is planned for July 1, 1962.

Theme of the meeting was "Christian Education" and speakers were Rev. Floyd C. Bradley, pastor of First Baptist Church, Floydada and John Stapleton, lay-leader from the same church.

The conference opened at 5 p. m. with executive board and WMU meetings. Supper was served by the host church at 6 p. m. followed by the program.

Allan Benson, music director of the First Baptist Church, Crosbyton, led the song service and Mrs. Haywood Kube of Roaring Springs served as pianist. Scripture and prayer was by Rev. Haywood Kube, pastor of the Roaring Springs Baptist Church.

A film, "A Decade of Decision" was shown and a recorded message, "The Will To Live" by Dr. W. A. Criswell was given.

The subject of "Christian Education" was presented by the speakers, explaining the purpose of the \$28 million budget campaign which Texas Baptists have been asked to raise within the next four years for the support of Baptist schools and colleges in Texas.

Mr. Stapleton discussed "major gifts" and Rev. Bradley, "church phase" regarding the position of each local church in the financial program. The (Continued on back page)

Attend Rites For Former Resident

Algie Groves, Matador and Claud Groves of Wellington attended funeral services Wednesday last week, in Sulphur Springs for their cousin, Lonzo Groves, 45, formerly of Matador.

Mr. Groves, an employee of the Grocer Supply Company, died unexpectedly at his home at 4 p. m. Monday (February 12).

He was the son of the late Mr. and Mrs. Robert Lee Groves, one-time residents of this community. A native Texan, he was born January 25, 1917, and had lived in Sulphur Springs for 30 years.

He was a member of First Baptist Church, the Odd Fellows lodge and was a veteran of World War II.

He was married on September 4, 1936 to Miss Juanita Gulleddge in Sulphur Springs.

Lions Work Praised By Banquet Speaker

"NO OTHER GROUP has as much fun and does as much good as the Lions," Dr. Leon Hill of Amarillo, declared here Friday night. The famous after-dinner speaker, philosopher and evangelist made the principal address at the 25th annual Father-Son Banquet, sponsored by the Matador Lions Club. Approximately 250 fathers and sons roared in laughter as Dr. Hill told rapid-fire humorous stories in seemingly inexhaustible supply. Many of the incidents were aimed at him-

Wildcat Spotted

Pan American Petroleum Corporation has spotted the 5000-foot Permo-Penn wildcat between the Roaring Springs and West Roaring Springs Permo-Penn pools in Motley County as No. 1 W. A. Fremont, 1,870 feet from north and 330 feet from west lines of a lease in section 3, block 0-2, H. Haywood survey, six miles east of Roaring Springs.

Drillsite is 1 1/2 miles east of the West Roaring Springs pool and the same distance west of the Roaring Springs pool (from Ft. Worth Star-Telegram, Feb. 20 issue).

Braserton Implement Company of Roaring Springs will start clearing a location and building a road to the new well today. It is assumed that drilling will probably start next week. The well is half a mile north of the Farm-to-Market road.

Eiring Ranch well being drilled about 12 miles northwest of Matador is at about 8,000 feet.

self. Suddenly at the end of his address he became serious and said: "Why build cities glorious? What could be finer than fathers and sons associating in a meeting of this nature. What richer achievement can a man have than to take the hand of his son and grasp the hand of God?"

Many Lions who have attended all the 25 annual meetings since Lt. Paul Eubank organized the movement declared it among the finest banquets in a quarter of a century.

A former speaker, "Goose" Ramey of Dimmitt attended and gave a brief report on the banding of wild geese at Buffalo Lakes.

Jimmy Willson of Floydada was introduced and in turn presented gifts of the Lions Club to Cub Scoutmasters J. W. Hill and Dean McAnally.

Scout John Lynn Barnhill served as master of ceremonies and introduced the guests. Group singing was led by Lion J. R. Whitworth. Welcome and announcements were by Boss Lion Billy Wason and invocation was by Rev. Miller Robinson, pastor of the First Baptist Church.

PIED PINIONS

By Mrs. M.

Orchids to women of the community for the enjoyable banquet prepared for the girls and their mothers. An effort has been made through the years to give the girls equal recognition with the boys, and this year in the absence of a sponsoring organization, several groups including the "Stitch and Chatter" club and Eternas Study Club members, with others combined to hold the banquet.

Mrs. John Stevens extended the welcome in a cleverly arranged rhyme stressing "when to say yes and when to say no," and her oldest daughter, Sondra responded with an original verse written in a similar vein, in advice to mothers.

The guests were hilarious in their reaction to the three pairs of lovers and were delighted with the animation of the "marionettes." Lucretia (Estes) Campbell's hands were her "feet," and Rachel (Craven) Harrison provided the hands. Greta Smallwood furnished the hands for Lucretia (Edwards) Grundy, whose "feet" were her hands.

My reputation reached a new high this week when an envelope came from The Curtis Publishing Co., of Philadelphia, ad-

ressed to Mrs. Douglas Meador, Editor.

The communication was a news release concerning an article in the current (February 24) issue of The Saturday Evening Post on "The New Lyndon Johnson."

According to the author of the article, Ben H. Bagdikian, the office of Vice President has provided Lyndon Johnson with an acceptable way to continue his campaign to become President.

Author Bagdikian writes that "the upgrading of the Vice Presidency under Eisenhower has been accelerated under Kennedy. Where Nixon made good-will tours abroad, Johnson has been granted personal discretion to bargain on foreign missions."

The "new" Lyndon took time to evolve, Bagdikian's article says. "Old Lyndon was the Texas politician generally acceptable to the South," it states. "The new Lyndon had to be representative of all fifty states, sometimes a cting publicly against the habits of the South."

It also says: "Johnson himself discourages talk about the future. But he is only 53 and still hungers to be President. 'I talked with more than a dozen of the Vice President's

closest advisers and associates and all are certain that Johnson intends to become President. 'Some are mapping strategy for 1968, after President Kennedy would be barred by legal limit of two terms, assuming he is re-elected in 1964.'

The Eyes of Texas Are Upon You—Washington

Had you noticed the "continued story" plots used in comic strips? Rex Morgan, M. D. has solved medical and mental problems over a period of years. Beginning this week, Buzz Sawyer (by Roy Crane) is featured a story of "smuggling and the sinister machinations of a World Power to use the hypodermic needle for the more, subversion of peoples markets for conquest." According to the author, "The story is based on facts gathered during four months spent in the Far East."

Quoting the introduction: "This story begins with fields of beautiful flowers. From these flowers, the poppy, come opium, morphine and heroin."

Jackets Awarded To Football Boys

By Judy Hobbs

The Mighty Matadors, one by one, filed to the front of the study hall Tuesday, February 13, to receive the honorable football jackets that had been so long awaited with such eager anticipation.

Behind these jackets lies much more than meets the eye. Hours of long, hard work-outs, the glorious victories, and very painful losses are among the tender memories of the boys and coaches who made their school and town proud. The jackets are a symbol of their hard work and determination.

No one will ever know the joyous feeling that these boys have when the football jackets come in, and even if the weather is a little too warm, the jackets are worn with pride. So if you see a football boy who is all smiles, with a coat on in this no-coat degree weather, don't be alarmed. He's just a MATADOR, and mighty proud of it!

Limelight Lassie

A cute little brown eyed, brown haired baby was born on February 10, 1944, in Plainview, Texas. The baby's parents gave her the name of Christina Carter Damron.

Christina enjoys eating steak and likes to spend her spare time swimming. "Parrish" is her pick of movies while she enjoys seeing Carol Landsey and Gardner McKay act. If she had to pick a favorite subject, she would pick Texas History.

Christina has indefinite plans for the future.

Limelight Laddie
Jimmie Don Green was born on January 11, 1944, in Matador, Texas. He had shining green eyes and brown hair. Ev-

ery chance he gets, he grabs several big steaks to eat.

Jimmie Don's favorite movie is "To Hell and Back." Audie Murphy and Connie Stevens are his favorite actor and actress. Biology would be his favorite subject if he had to choose one, but Jimmie isn't too fond of school. His favorite pastime is talking to girls.

W. S. (Bill) Healty

Announcement For Re-Election Made By Bill Healty

W. S. (Bill) Healty of Paducah makes his formal announcement in this issue of the Tribune as candidate for re-election as District 82 State Representative, comprised of Motley, Donley, Hall, Cottle, Childress, Hardeman, Foard and Wilbarger Counties.

Healty, an attorney, farmer, rancher and businessman, has been in the Legislature since 1955, representing the 82nd District, until last year composed of Cottle, Hardeman, Foard and Wilbarger Counties. The re-districting added Motley, Donley, Hall and Childress Counties, now making the district, geographically, the second largest legislative district in Texas.

Healty is not new in service to the counties added to his district. In 1952 he served with other interested men from this area

on the first steering committee when the Greenbelt Municipal Water District was established. He was the attorney, without pay, for the association when the first presentation was made before the State Board of Water Engineers, when the State Board made the first reservation of the water rights involved in the Greenbelt District. Later, as a member of the Legislature, Healty assisted in the passage of the bill which established the legal body, the Greenbelt Municipal and Industrial Water District.

Healty is 49 years of age and has resided in Paducah with his wife and three sons since 1947. He is an elder of the First Christian Church of Paducah and is now serving as chairman of the building committee. Healty has served as president of the Paducah Lions Club, as a member of the Texas Commission on Alcoholism, is presently a charter member of the board of directors of the newly-created Paducah Chamber of Commerce, and has served in many other important civic and fraternal capacities. He is a member of the Knights of Pythias of Childress. He owns his home in Paducah and farms and ranches in Cottle and Dickens Counties, and has first-hand knowledge of the problems facing the landowners and taxpayers.

Healty attended public school in Mart, Texas, where he was reared on a farm. He later attended Decatur Baptist College and after graduation, enrolled in Baylor where he received his AB and LLB degrees in 1936.

As a member of the Legislature during the last four terms of two years each, Healty has served as chairman of the State Affairs Committee and Appropriations Committee, probably the two most important committees in the Legislature. He has also served on the Legislative Budget Board, the Legislative Council and the Legislative Audit Committee, the three most important between-terms activities of the Legislature. He has also represented Texas many times at various sessions of the Southern Regional Education Board,

an activity of the Southern Governors Conference.

On his return to the Legislature, Healty will find fewer than ten members out of 150 who will have been in the Legislature longer than the eight years he will have served. This seniority will stand him in good stead in serving the people of Motley County and the southeast panhandle and north central Texas.

During his tenure in office, he has gained the recognition as the ardent foe of legalizing gambling in Texas, as well as the leader in attempting to equalize the tax on beer with cigarettes and gasoline. Beer pays only 3% sales tax while gasoline pays 18% sales tax and 27 1/2% sales tax on cigarettes.

He has succeeded in his attempt to defeat the legislation that would have legalized gambling in Texas in the past regular session and has had some success during the 54th Legislature in equalizing tax on beer along with the aid of Senator Grady Hazlewood of Amarillo.

He was one of the authors of the House version of the Farm to Market Road bill that was passed during the last Special Session, and has always voted for all of the constructive legislation affecting the farmer and cattleman and will continue to support such constructive legislation.

He has at all times voted to maintain the operation of Rural Electrification and will continue to support legislation to maintain it.

Healty declares he feels that some inequalities exist in the insurance rating system and that after the study committee reports, the inequalities should be corrected.

Healty says that 85% of all the money spent by the Texas Legislature, is spent on the following: education, both public and high level, highways, mental institutions, welfare, and penal and reform schools.

During his tenure in office, he has supported all constructive measures which have aided in elevating the standards of both the public schools and colleges, and will continue to sup-

port such measures.

He points with pride, to his work on our hospitals and special schools in elevating them, thereby helping many unfortunate people who have become afflicted. Healty has also been a supporter of the M. D. Anderson Hospital in Houston that has the responsibility for the care, treatment and research of cancer.

During his tenure of office Healty states that one of the major accomplishments and perhaps that which he feels the best about, is the fact that he has had the opportunity to assist many boys and girls to obtain part-time employment at the state supported colleges in order that they might further their education.

Healty is a Democrat, and states if re-elected the democratic nominee again for the position which he seeks, he will continue to give the people of this district a completely sober representation at all times.

Now that the district contains eight counties, Healty hopes to be able to get around to see all the people, but by this announcement earnestly solicits each voters' vote and influence.

WHAT? BUILD A PICKUP TRUCK SPECIALLY FOR TEXAS?

YES SIR—THE '62 FORD!

IT STARTED IN TEXAS—when Ford engineers came here to track down exactly what Texans need in a pickup. They drove Texas roads... talked to Texas truck owners... and produced a truck that fits Texas to a "T." Drive the '62 Ford pickup and you'll agree!

The wheelbase is long—114 easy-riding inches (122 for 8-foot bodies). There's little chance of bumper-scraps on inclines because of the short front overhang—and more ride stability. The ride is smooth-soft. To the long wheelbase, add easy springing—and the ride's as soft as a Texas draw!

The frame is strong. It's built to stand the twisting of high-crowned Texas roads.

The savings are BIG—and they start right today! You save now on Ford's pickup prices—the lowest of any leading make. And you save from now on! Save on gas with Ford's modern engines, Six and V-8. Save on oil—go 4,000 miles between oil changes, thanks to Ford's Full-Flow oil filter. Save on tires because Ford's I-beam suspension keeps front tires tracking true. In certified tests against pickups using independent front suspension, Ford front tires lasted up to 83% longer!

Stop in and drive a '62 Ford pickup today. It's built for Texas, built in Texas. Let us show you why Ford's full-time economy only starts with low price!
