PRICE TEN CENTS

TRAIL DUST

By DOUGLAS MEADOR

When winter is in the mood to flex its muscles, the audience becomes involved to varying degrees merely by being present.

Economists insist that it is impossible to purchase a bargain unless the article can be used, regardless of its price. It is not my intention to refute their opinions, but some of the best bargains I have ever found, have been stored as useless. There is always the possibility that I will need them but that is weakened by the probability that I can't find them.

If you shut your eyes to problems there is a danger of going to sleep and having them start a demonstration in your dreams.

★ ★
Vests are coming back into vogue but my anatomy has changed so much since they went out of style, that I am unable to kindle any enthusiasm.

A contemporary who has devoted years to research, but may be opinionated, says that as far as he is concerned, there are only two kinds of beer. Root beer and Budweiser.

Despite its apparent effectiveness, alcohol is not a practical detergent in which to wash the fabric of a conscience.

The latitude of a life is controlled by the attitude of the individual who lives it.

The effect of fertilizer on the bloom of a delicate rose presents a strong case against the common belief that environment affects the fruits of a life.

COME TO CHURCH SUNDAY

PROWLER HIT BY BIRDSHOT

A prowler received a charge of No. 6 bird shot in south Matador about 11:30 Monday night. Ted Green found the man at his back door and ordered him to stop. The man ran and Green fired a shot over his head. Green then fired the second barrel.

Shortly later the manager of a spraying service notified Sheriff J. D. Spray that an employee had been shot. Sheriff Spray met with the two men at Dr. J. S. Stanley's office where the birdshot were removed.

Charges of disorderly conduct were placed against Jerry Wayne Brittain, 19, of Vicennes, Indiana, and he was lodged in jail Monday he paid a fine in Justice of the Peace Warren Clement's Court, and was released.

Numerous residents had seen a man prowling the south Matador area, and Friday night Deputy Eddie Russell answered a call and found Brittain in the neighborhood. He told Russell that he was merely walking because he could not sleep. Later he was again reported in the same neighborhood but could not be apprehended.

One resident of the area had a shot gun and was waiting for Brittain to appear, when Green found him on his premises.

The manager of the spraying service said he had employed the man in Indiana and did not know anything about his background, according to officers.

Rains Plague West Texas

IF THE RAIN continues here the Tribune is considering asking the City of Matador for riparian rights along the banks of Ballard Creek. The stream has been flowing for two days.

After cautious weather forecasters had given per centage rain chances, the precipitation started Monday night. Heavy rain fell early Tuesday and most of the day. Most rain gauges here showed in the neighborhood of three inches late yesterday, and more was predicted.

Reports from Lubbock yesterday said approximately four inches of rainfall had been recorded in the city, causing water and mud

damage to some homes in low areas, and blocking some streets.

Two funnels nipped the outskirts of Andrews near 3 a.m. Tuesday, according to the Lubbock Avalanche. One of the tornadoes dipped down north of the city and took out nine telephone poles and a highway sign. Hail also fell there during the storm.

Rain here has been gentle in most instances, however some light wind has accompanied the passage of showers. A drizzle continued much of the time when showers were not falling.

No damage from the heavy rainfall has been reported except the delay in field work.

Labor Survey will Aid County Future

THE FUTURE of Motley County will benefit from the extensive survey now in process by the Texas Employment Commission's "Smaller Communities Team." The survey will compile the skill potential as well as other essential data that would be important to any form of industry that might be interested in locating in the county.

The team, which was started in 1962, has recorded the information on 30 counties and several

are in West Texas. The office is located in the basement of the courthouse, in the former space occupied by the ASCS office.

Gene P. Clements, supervisor of the team, was principal speaker Tuesday at the regular luncheon meeting of the Matador Lions Club. He explained in detail the operation of the survey and said it was designed to aid smaller communities to be represented in the relocation of industry.

"The bidding for industry is highly competitive," Mr. Clements said, "and more counties are seeking our services. At present eight counties are waiting for us to survey them."

All To Register

Mr. Clements urges everyone to register, to make the skill survey complete. Employed and unemployed residents of the county will need to give less than five minutes of time at the TEC office. The information is confidential and it is not available to any other agency.

The survey is county wide and will include each community, listing the facilities which it provides. Water, schools, churches, climate, transportation and other facilities will be listed.

"We do not operate on the chamber of commerce level," Mr. Clements said, "we record facts exactly as we find them."

He said the work was a survey of human resources and that at present 18 states are operating similar teams in the highly competitive effort to relocate industry.

Mr. Clements said the high school junior and senior tests, which require 2 1/2 hours, have produced unusual skills of students. When the survey is completed in about six weeks, the information will be compiled and printed. One hundred copies will be given the county and more if needed. A Team of three men is engaged in the registration work in the office here.

Rally Stresses Pride, Not Pity

By Peggy Marrs

Self pride instead of self pity was the attitude taken by all who attended the Rochester pep rally, October 10.

This theme was stated in a speech by Mr. Moore and carried out in speeches by Larry Jameson and Randy Welch. They emphasized that even though the team had many injuries they

had enough self pride to go out and give it all they had.

The cheerleaders played a great part in giving the boys this outlook by leading yells such as "Look Out," "Ready Men," and "Come On Boys."

Skit girl of the week was Mrs. Timmons. Her skit was a take off on an incident which took place at the Jayton football game. Girls participating in the skit were Mary Baker, Jan Higginbotham, Ann Brandon, Charla Wason, Krista Price, Ann Timmons, Shane Stevens, Kay Cooper, and the cheerleaders.

Patty Edwards, accompanied by Mary Woosley, Shane Stevens, Kay Cooper, and Lou Anne Woodruff on the bells, closed the pep rally with the singing of the school song.

Editors Exchange School Newspapers

The "Matador Brand" and the "Floydada Whirl," respectively, are the high school publications of the two local towns. Laura Jacobs, editor of the "Brand" and Charlotte Decker, sports editor of the "Whirl" have been exchanging papers in order to get new ideas for their schools.

The following editorial, written by Editor Johnny Farris, was taken from the "Whirl."

ARE YOU A TEACHER HATER?

To some students, making enemies of teachers has become a hobby. They seem to feel that the only good teacher is a harassed one.

There are many ways by which one can accomplish his goal. Several of the most popular ways are as follows:

1. Chewing gum in class—This is a good way to annoy a teacher, for no one likes to address his students while looking at pearly white teeth smeared with chewing-gum gray.

2. Disrespect—A good way to get to a teacher is to show him that he isn't the boss. A few curt replies will suffice to provoke a teacher. However, if one really wants action, all he has to do is to use a pet name when addressing a teacher.

3. Cheating—To really bug a teacher, why not try to cheat and openly flaunt your ability to get away with it. Of course one might receive a few low grades,

but this doesn't phase a dedicated teacher hater.

4. Disorderly conduct—This is the most common attack on the teacher. The strategy is to make so much noise that the teacher can't get in a word edgewise. An emotional teacher could be driven to violent action. One could really gain glory by causing a teacher to some unorthodox action.

These ways are sure fire methods and there is little chance of their failing. To all who follow this advice, however, a word of warning is in order. My deepest sympathies go out to those who can't find any better pursuits. You will never realize, until it's too late, how much time has been wasted. Also your popularity with other students could decline.

Beginners Spotlight

By Debra Garrison

Dwight Campbell, first grade son of Mr. and Mrs. R. L. Campbell, is looking very promising to the football scouts. Although he is a very shy boy, he let us know quickly enough that his favorite activity is playing football and his ambition in life is to be a professional player.

Dwight's best subject in school is reading and his favorite color is orange.

LIBRARY LOG

By Rita Groves

There is a LIBRARY BILL OF RIGHTS. The Council of the American Library Association reaffirms its belief in the following basic policies which should govern the services of all libraries:

"As a responsibility of library service, books and other reading matter selected should be chosen for values of interest, information and enlightenment of all the people of the community. In no case should any book be excluded because of the race of nationality or the political or religious views of the writer.

There should be the fullest practicable provision of material presenting all points of view concerning the problems and issues of our times—international, national and local; and books or other reading matter of sound factual authority should not be prescribed or removed from library shelves because of parti-

san or doctrinal disapproval.

Censorship of books, urged or practiced by volunteer arbiters of morals or political opinion or by organizations, that would establish a coercive concept of Americanism, must be challenged by libraries in maintenance of their responsibility to provide public information and enlightenment through the printed word.

Libraries should enlist the cooperation of allied groups in the fields of science, of education, and of book publishing in resisting all abridgment of the free access to ideas and full freedom of expression that are the tradition and heritage of Americans.

The rights of an individual to the use of a library should not be denied or abridged because of race, religion, national origins or political views.

As an institution of education for democratic living, the library should welcome the use of its meeting rooms for socially useful and cultural activities and discussion of current public questions. Such meeting places should be available on equal terms to all groups in the community regardless of the beliefs and affiliations of their members."

Here is a quote from J. F. K. that appears on the front of the October, 1969 Wilson Library Bulletin:

"If this nation is to be wise as well as strong, if we are to achieve our destiny, then we need more new ideas for more wise men reading more good books in more public libraries. These libraries should be open to all—except the censor. We must know all the facts and hear all the alternatives and listen to all the criticisms. Let us welcome controversial books and controversial authors. For the Bill of Rights is the guardian of our security as well as our liberty."

Conservation Units Installed in County

J. K. McIlroy in the Roaring Springs area is drilling test holes for a livestock well and Malcolm Jameson is preparing to parallel terrace a portion of his land in the Whiteflat community, Billington said.

VOTE AGAINST MORE TAX!

VOTE AGAINST THE TAX AND THE CREATION OF THE DICKENS COUNTY HOSPITAL

HERE ARE THE REASONS:

- (1) Taxes are too high and we should stop now levying new taxes.
- (2) Under the Act of the Legislature authorizing the Dickens County Hospital District, the Board of Directors can levy a 75c tax on \$100 valuation. The Hospital District does not have to use the County valuation, which is now approximately 25% of market value, but can appoint an assessor and collector of taxes for the District and value all of the property in Dickens County at 100% of its fair market value. See Section 15, Senate Bill No. 545, the bill creating the Dickens County Hospital District.
- (3) A hospital in this county cannot be successfully operated for lack of doctors and nurses.

Think of the answer to this question. Why did Spur Memorial Hospital close and why has it been closed for more than two years, if there is any chance for a successful operation of a hospital? Check with responsible people in adjoining counties that have tried to operate a hospital.

(4) How much debt is the Dickens County Hospital assuming? This question has never been satisfactorily answered. The voters are entitled to know this before voting for the taxes and the district.

(5) What is the value of the Spur Memorial Hospital? The voters have not been given this information from reliable sources.

(6) Why does not the city of Spur attempt to negotiate a sale or lease of the Spur Memorial Hospital to people who are in the business of successfully operating hospitals? If a hospital could be operated successfully, certainly some of these people would be interested in buying or leasing the Spur Memorial Hospital.

IF YOU CAREFULLY EXAMINE THE FACTS, YOU WILL VOTE AGAINST INCREASED TAXES AND THE HOSPITAL DISTRICT.

VOTE FOR THE BEST INTEREST OF THE PEOPLE OF DICKENS COUNTY BY VOTING AGAINST THE TAX AND HOSPITAL DISTRICT ON OCTOBER 25, 1969.

(Paid for by interested taxpayers of Dickens County.)

Mavericks Roll Past Jayton 28-0

The Matador Mavericks rolled past Jayton for a 28-0 victory Thursday night at Jayton.

The Mavericks took the lead with an 8-0 score when Castello Gonzales returned the opening kickoff all the way over the goal line. Extra points were successful with Jimmy Don Hurt running.

Again, it was Gonzales who scored after a Maverick drive. The extra points were not successful and the half-time ended with a 14-0 score.

Steve Stevens and Gonzales credited the fourth quarter with a touchdown each. The Jaybirds blocked one try for extra points, but the other try was successful. This was the final scoring of the game.

The Mavericks have beaten Jayton twice. Turkey accounted for their only loss with a 36-0 score. They play Turkey again tonight (Thursday) and have 4 more games scheduled.

Brush Control Tour Covers 1000 Miles

A group making a four day tour beginning in Vernon and covering approximately 1000 miles to study brush control and range improvement, eventually viewing work near Colorado City, visited Motley County, Thursday, Oct. 16. The Brush Control and Range Improvement Committee headed by Charlie Fisher of the Lubbock Experiment Station met in Matador and were shown mechanical brush control and range seeding carried out under the Great Plains Conservation Program on the Adams Ranch east of Matador.

The group, composed of between 30 and 40 ranchers and researchers, also toured the two-section test plot on the Matador Ranch near Russellville southeast of Matador. This stop included several plots of aerial brush control under the direction of the Spur Experiment Station headed by Doug Robison of Spur and Bobby Cross of Spur, son of Mr. and Mrs. J. C. Cross of Matador.

Members of the tour included Dave Birnie, local BCRD chairman, W. D. Lapscomb, SWCD Director, Ervin Willard of the local SCS, John Stevens, local rancher, and Richard Newman of the ASCS.

Other members of the tour were from Texas A&M University, Texas Tech University, New Mexico State University, and Utah State University, as well as adjacent county ranchers and researchers.

ATTENDS HOMECOMING

IN APPRECIATION

I wish to take this means of thanking friends in Matador and Roaring Springs for get-well cards, visits, telephone calls and gifts, and for food brought to our home during my recent illness. These tokens of your concern will always be remembered with gratitude.
