

AFL Will Support Stevenson

NEW YORK (AP) — Delegates to the 71st annual AFL Convention gathered today to hear an opening-day address by President William Green, who has indicated the group will endorse Gov. Adlai E. Stevenson for president.

Decision on a presidential choice is expected to be made a week from tomorrow after the convention has heard addresses by Stevenson and his Republican opponent, Gen. Dwight D. Eisenhower. The general will talk Wednesday, and Stevenson next Monday.

The 752 convention delegates represent some eight million AFL members. The AFL's Executive Council filed a report last night in which it denounced the Taft-Hartley Act as a "dismal failure" and called the wage-price control program unfair to labor.

Green made it clear at a pre-convention news conference that if the delegates decide on a presidential choice it will be largely — if not entirely — based on the candidates' views and their party platforms regarding the Taft-Hartley Act.

Stevenson and the Democratic platform advocate repeal of the Taft-Hartley Act, and a new labor relations act. Eisenhower is against repeal, but has recommended revisions to improve the law without changing its "basic principles."

"This is bound to have an effect on the delegates," Green said. He added that they were waiting to "see what Eisenhower has to say."

If the AFL Convention formally endorses either candidate, it will be the first time in AFL history. The AFL in 1924 backed the late Sen. Robert M. LaFollette, the Progressive candidate. But the action was taken by a special committee — not by a convention as a whole.

The AFL's committee to oust racketeers from the ranks of unions began an investigation yesterday into the operation of some New York locals which reportedly have ex-convicts as officers.

The Executive Council's report said that while Congress has provided an effective wage control program, it has shown "complete disregard for the obligation to maintain equally effective price control."

"The facts on the record," the report said, "make crystal clear the conclusion that the Congress See STEVENSON, Pg. 2, Col. 2

More Cooperation Is Asked Of Tito By US

BELGRADE, Yugoslavia, Sept. 15 (AP) — The United States has asked Premier Marshal Tito of Yugoslavia for greater cooperation in the joint defense of the Southeastern Europe, including the use by American planes of air bases in this country.

From a responsible source, it was learned that Vice Adm. J. H. Casady, commander-in-chief of the Mediterranean-based sixth fleet, laid the proposition before Tito last week aboard the giant aircraft carrier Coral Sea during his visit to Split.

It was presented in the course of a special briefing, before the Coral Sea's sailors and aviators put on a demonstration of American sea and air power. Tito was shown charts outlining how and where carrier-based planes, operating from the Adriatic, could strike in Hungary, Romania and Bulgaria if Yugoslavia is attacked by the Soviet satellites.

Casady was quoted as paying a glowing tribute to Yugoslavia's resistance against Russian pressure since its break with the Soviet-led coalition in 1948. He expressed American gratification at this country's recent measures to increase defensive cooperation with Greece and Turkey.

But he said the United States would like even greater direct cooperation with Yugoslavia — cooperation already marked by increasing shipment of American arms to equip Tito's tough, well trained troops.

Casady reportedly offered two informal yet highly important suggestions. He said he would like to see: 1. Yugoslavians grant American fliers the right to operate over this country and to use Yugoslav air bases in order to become better

"Operation Mainbrace" This map shows the areas in which 160 Allied warships and supporting forces this week began 13-day war games known as "Operation Mainbrace." Naval forces (1) sailed from northern United Kingdom ports for exercises as far north as Narvik, Norway. After completing that phase, the units were to steam south (2) to join in exercises off Denmark and to protect Allied land forces (3) sailing from British ports for landings in Jutland, Denmark. Simultaneously, light forces from Denmark, Norway and Britain will hold exercises in the Kattegat and Baltic (4) under protection of submarine and coast defenses on Scandinavian shores. UN Jets Down Nine MIGs In Raid On North Korea Targets

By ROBERT B. TUCKMAN SEUL, Korea, Sept. 15 (AP) — U.S. Sabre jet pilots destroyed at least nine Communist MIG-15s today while flying protective cover for Allied fighter-bombers attacking Red targets deep in North Korea, the Air Force announced.

Eight MIGs were shot down, one maneuvered into crashing, another probably was destroyed and two were damaged in 11 separate battles. Fighting ranged from 30,000 feet down to tree-top level.

The fighter-bombers plastered a Communist industrial complex at Sinuiju, only a few miles from the Manchurian border. Targets included an oxygen plant, an alcohol distillery and a rope factory.

More than 80 MIGs roared across the Yalu River from their big base at Antung in an attempt to protect the sprawling targets. They ran into 104 swift Sabres and the opposing jets broke off into

a series of twisting, turning dog fights. The U. S. Fifth Air Force said the day's bag of MIGs brought to at least 41 the number destroyed this month. Forty were shot by Air Force pilots and one by a carrier-based Marine pilot. If the MIG which was outmaneuvered into crashing is officially confirmed, the total will be 42, within two of the one-month record of 44 racked up last April.

Allied losses, if any, will be reported later in a weekend summary. Twenty-four F-84 Thunderjets hit Sinuiju in mid-afternoon to get the assault under way. They dropped tons of high explosive and fired thousands of machinegun bullets into the targets.

Pilots reported dense clouds of smoke after the first bombing runs. The Air Force said the rope factory appeared to be destroyed.

"It went up in flames like a matchbox," said Capt. Peter B. Van Brunsell, 6741 S. LaFayette Ave., Chicago. Two nearby industrial buildings also were reported destroyed. Bombs from other Thunderjets flattened the oxygen plant, a T-shaped group of four large buildings. The bombs set off three roaring explosions, each of which erupted in huge clouds of smoke.

Allied pilots reported 14 direct hits on the alcohol distillery and direct hits on two structures near the oxygen plant.

In the only ground fighting of any size across the 155-mile battlefield Sunday, South Korean infantrymen fought in a savage attack to throw Chinese Reds off Finger Ridge on the Central Front.

The South Koreans smashed up the slopes with barred bayonets and flame throwers and grabbed the crest of the hill about 6 a. m. The Chinese lashed back with a counterattack several hours later and regained the position.

Saturday's naval air raid on Hoeryong was directed at a troop concentration area. In the follow-up raid Sunday the targets were industrial.

squarely between the two smoke stacks of the power house, pilots said. The explosion sent up a huge cloud of white smoke and a fire broke out almost immediately.

Other naval planes hit the nearby Komusan cement factory and a carbide plant.

The toll of 120 Red trucks reported by the 235 pilots indicates the Allies are shifting at least part of their aerial strength back to "Operation Strangle" in an effort to catch Communist supplies on the move.

Last spring U. N. warplanes concentrated on railroads, highways and vehicles. In the summer they directed their heaviest blows against power installations, munitions plants, factories and military installations.

Liquor Board Head Answers Jury Criticism

AUSTIN, Sept. 15 (AP) — State Liquor Board Administrator Coke Stevenson, Jr., cracked back today at criticism of enforcement activities in the Panhandle and West Texas.

Stevenson said undercover work by board agents produced evidence leading to indictment of seven persons by the Potter County Grand Jury in Oct., 1951.

"Only one defendant has been tried up to the present time," Stevenson said in a statement issued here today. "A Potter County jury gave him a two-year suspended sentence."

"Since October of last year, the board has taken administrative action on the licenses and permits held by the individuals who were indicted by the Potter County grand jury and resulted in cancellation of each and every license and permit held by such individuals, which orders of cancellation have been upheld by the Court of Appeals."

The Potter County Grand Jury sharply criticized enforcement activities of the board in a report issued last week.

It said "general statewide corruption" is resulting from administration of the liquor control act. It said a multi-million dollar bootleg syndicate operated in West Texas and was headquartered in Odessa and Big Spring, that some liquor board employees knew of it but that it continued to function through pay-offs and bribery to key employees of the board.

Stevenson said again today that the board welcomes investigation of its work in enforcing the liquor laws.

Stevenson's statement was dictated to his office here from Fort Worth. He said that the board has known for some time that bootlegging is going on in dry counties in West Texas and elsewhere and that its undercover agents are on the job.

Ike Sees Nothing Funny About Campaign Issues

Adlai Charges Taft Is Leading Ike's Campaign

By RELMAN MORIN SPRINGFIELD, Ill., Sept. 15 (AP) — Gov. Adlai Stevenson said today "Senator Taft has taken over" the presidential campaign of Gen. Dwight Eisenhower.

Stevenson told a news conference, which covered a wide range of subjects:

"This puts an entirely new aspect on the campaign and the election. Hitherto, I have had to address myself to the rival policies of both Republican parties because it was not certain whether Taft or the general would end up in the command post. It now appears brutally clear that Senator Taft has taken over."

Stevenson said he believed many people would be "genuinely alarmed" by the turn he said the Republicans have taken since the Friday conference between Taft and Eisenhower.

"Whose views will prevail," he asked, "because, clearly, they can not be reconciled. Senator Taft says he has not abandoned his views. Has the general abandoned his?"

Replying to questions, Stevenson also said:

1. He believes "substantial reductions" in the federal budget and taxes can be expected by fiscal 1955, depending upon the progress of the rearmament program and the international situation.

2. He has exchanged several letters and had telephone conversations with President Truman since he began campaigning. "The letters, were mostly very kind, expressing satisfaction and approval with my campaign to date."

3. He "certainly approves of anything" the President does in support of his campaign.

4. He does not believe he will propose the appointment of an ambassador to the Vatican.

5. He does not endorse all the Democratic candidates for election this year. "I will endorse individuals."

6. He does not know the points of disagreement between himself and Sen. Harry Byrd of Virginia. Stevenson expressed the utmost regard for Senator Byrd as a public servant. "I respect his anxiety to reduce the cost of government. I respect his integrity. I would be the first to assert his right to disagree wherever he chooses."

Stevenson, referring to what he said has happened in the Republican ranks since the Taft-Eisenhower meeting, declared, "Senator Taft says he prepared his statement before he saw the general. This must be the first time that the vanquished dictated peace terms to the victor."

"From what I've read and messages I've received, I gather that the Republican Progressives who fought so hard for the general at Chicago are wondering what has become of the 'great crusade.' So am I."

Stevenson said that a campaign trip into Texas, and other areas of the South, is being planned. But he said he did not know the details of time or place. "I expect Texas, Louisiana and Florida all to go overwhelmingly democratic."

NAGO ALANIZ

Charges Dismissed In Floyd Shooting

By WILBUR MARTIN ALICE, Sept. 15 (AP) — Dist. Atty. Homer Dean today dismissed murder charges against Alfredo Cervantes in the assassination of Jake (Buddy) Floyd Jr., son of a prominent Alice attorney.

Dean would not immediately say why he dismissed the charges against Cervantes, sought since last Monday when young Floyd, mistaken for his father, was fatally shot.

At the same time, Dean filed new charges against Nago Alaniz, dapper young Alice attorney, and Mario (El Turco) Sapat, San Antonio bar owner.

The new charges specifically said that Alaniz and Sapat were not present at the shooting. But it charged them with aiding and abetting the unknown triggerman.

The elder Floyd has claimed that the bungled plot was politically inspired—that a group feared he planned to lead a write-in campaign Nov. 4 for Judge Sam Reams, defeated for re-election. Reams for years has been fighting the dominant political group in the Rio Grande Valley, as has the elder Floyd.

The new charges against Sapat and Alaniz signed by Sheriff Halsey Wright, say that a "person whose name is unknown to me" shot young Floyd, 22.

The complaints say Alaniz and Sapat "did prepare and furnish arms and aid in the attempted assassination of young Floyd, who has foisted upon the wage earners a shoddy price control program."

Carlson said voters were asked to name from a list of 10 their choice of the top issue. He said 27.4 per cent put Korea ahead of all others.

Eisenhower has accused the Truman administration of "bungling" its way into the Korean conflict. Stevenson has defended President Truman's actions.

Carlson, who served as the trouble shooter who brought Eisenhower and Taft together in a "unity" meeting last Friday, was expected to be assigned the task of attempting to get Morse back into camp.

As an indication of the strength of the new alliance between Eisenhower and Taft, Victor A. Johnson, field director for the GOP Senatorial Campaign Committee and a paid pre-nomination worker for Taft, turned up as a staff member of this political campaign train.

Eisenhower will leave the train at St. Paul, Minn., tomorrow to fly back to New York City to speak Wednesday before the American Federation of Labor Convention. Stevenson will address the convention Sept. 22.

The Republican nominee's backers say they expect the AFL to endorse Stevenson, but as Carlson put it: "We will get more labor votes than any Republican ever got before."

Eisenhower backers believe that See IKE, Pg. 2, Col. 1

General Opens Push Into 12-State Area

By JACK BELL ABOARD EISENHOWER SPECIAL, Sept. 15 (AP) — Gen. Dwight D. Eisenhower told a mildly responsive crowd at Fort Wayne, Ind., today that "I see nothing funny" about the issues of the presidential campaign.

Opening a 12-day, 12-state drive, the Republican presidential nominee said:

"I am in this business running for office because I believe America is in peril. There is nothing funny in that. Eisenhower was applauded by an estimated crowd of 5,000 persons as he jabbed at the levity with which his Democratic opponent, Gov. Adlai E. Stevenson of Illinois, has used in discussing some of the GOP reaction to political problems.

In an obvious effort to turn this satire against Stevenson, Eisenhower said solemnly:

"We are involved in a war in Korea without any plans for winning it. We have had 170,000 casualties in killed and wounded. There is nothing funny in that."

Eisenhower told the crowd that his greatest fun in campaigning is in making off the cuff speeches. He doesn't get much enjoyment out of so-called "major" speeches, he said.

Several Indiana Republican leaders, including Sen. William H. Jenner and Homer Capehart, joined the campaign train at a brief stop at Monroeville and in Fort Wayne.

Jenner, whose criticism of Gen. George C. Marshall as a "traitor for traitors" obviously has irked Eisenhower, was not included in the list of politicians scheduled to introduce the GOP nominee at seven appearances in the state.

Jenner and Eisenhower exchanged handshakes in the Fort Wayne station. "I'm glad to see you again," said the general, and then hurried on.

School kids perched on nearby housetops as Eisenhower spoke on the summit rail station.

Sen. Frank Carlson of Kansas, one of the general's top advisers, told this reporter the Eisenhower camp is convinced by a private survey of its own that Korea tops all other issues in eight Midwestern farm states.

Carlson said voters were asked to name from a list of 10 their choice of the top issue. He said 27.4 per cent put Korea ahead of all others.

MILK-ICE FUND REACHES \$608.

Acknowledgment of another gift for the Milk and Ice Fund is made today. The latest contribution, in the amount of \$5 from A. H. Haynes, brings the total to \$608.20.

Fire Chief H. V. Crocker and County Health Nurse Jewel Barton, who will direct distribution of milk and ice to families in need and with undernourished children, have expressed their warmest appreciation for the generosity of Big Springers. The fund is slated to provide sustenance through the winter for most of those in distress.

Colorado City Man Escapes Auto Hurts

COLORADO CITY, Sept. 14 — Robert Wood, 19, of Colorado City escaped serious injury Sunday morning about 11 in an auto accident that completely demolished his 1939 Chevrolet.

Wood was westbound on a farm to market road 15 miles northeast of Colorado City and struck a small bridge. His automobile overturned and skidded 200 feet to land right side up in a borrow ditch, according to Dan Nowlin, highway patrolman.

Texas Printers For Adlai And Sparkman

SAN ANTONIO, Sept. 15 (AP) — Some South Texas printers formed a "Texas Printers for Stevenson-Sparkman Club" here yesterday.

Former Rep. Maury Maverick of San Antonio made a speech in behalf of the Democratic presidential ticket at the meeting and urged all Democrats to "vote the straight Democratic ticket in November."

# Vealmoor Outpost Still Flows, Another Stepout Being Rumored

Rumors of an impending reef wildcat on the northwest side of the Vealmoor pool were heard as an outpost on the east side showed gradually growing strength.

No results were received in a drillstem test in southwest Martin County, and a straddle test in the reef in a northwest outpost in the Hobo field of southeast Borden, proved unproductive.

A northeast Borden venture in the Mississippian was flowing out load oil after fracturing. DeKalb staked another west outpost to the recent Seaboard No. 1 Bishop, a Wichita-Albany discovery southeast of Garden City. Duncan Drilling Co. of Big Spring staked another location on its R. L. Gillean lease south of Lee's.

## Borden

Stephens Petroleum No. 1 Bacon, C SE SE 40-25, H&TC, one mile northwest of the Hobo field, took a straddle test from 7,149-7,157 with the tool open one hour and 20 minutes. Recovery was 1.139 feet of heavily gas-cut mud, also cut with some oil and water. Operator now is circulating for orders. The test was not satisfactory. Further casing may be run to shut off water. Total depth is 7,216.

Superior No. 13-39 Lanham, C SW SW 536-47, H&TC, 2 1/4 miles north of Fluvanna, fractured with 4,000 gallons in the Mississippian and was flowing out to test. So far

## Japan Will Defend Hokkaido Isle With Some 14 Divisions

TOKYO (AP)—The Mainichi Shimbun today said the U. S. plans to turn the defense of Japan's Northern island, Hokkaido, over to a new Japanese army of 14 divisions within two years.

The Mainichi, one of Japan's largest national dailies, said the plan was contained in a highly classified letter from Lt. Gen. Doyle O. Hickey, Gen. Mark Clark's chief of staff, to Prime Minister Shigeru Yoshida. It did not say how it learned of the letter.

U. S. headquarters and the Japanese Foreign Office declined comment.

## Signs Of Depression Show In West Europe

UNITED NATIONS, N. Y. (AP)—A United Nations report says signs of depression—a slump in retail trade, more unemployment and reduced industrial production—have shown up in Western Europe.

The report by the Economic Commission for Europe, issued here and in Geneva last night, covered the first quarter of 1952. It said increases in defense production still were "insufficient to offset declines" in production of durable consumer goods both for export and for home consumption.

## IKE

(Continued From Page 1)

In his labor speech Stevenson will go further to what they describe as the "left." And in the Republican book that will be all to the good, so far as the GOP nominee is concerned.

In his current swing, Eisenhower is going into nine states which President Truman carried four years ago. They are Illinois, Minnesota, Iowa, Missouri, Kentucky, Ohio, West Virginia, North Carolina and Virginia.

He will visit three states which went for Dewey—Indiana, Nebraska and Maryland.

Before he left New York last night, Eisenhower said in a statement that he opposes what he called "socialized medicine."

Contending that federal control of medical care would lead to "assembly line treatment" of patients, he said tax bills also would increase, because "many" of the clerks would be needed to administer the program. Stevenson also has opposed federal control of medical care.

As Eisenhower's 18-car special train rolled into the areas where Sen. Robert A. Taft of Ohio got strong support in his losing battle for the GOP nomination, the general's aides met with silence the announced loss of Sen. Wayne Morse, Oregon Republican, as an active campaigner.

Morse, who previously had offered to campaign vigorously for Eisenhower, said in Washington Saturday that he would sit out this campaign. He indicated that, among other things, he doesn't like Eisenhower's "policy" of "letting many of Taft's friends out."

Morse said yesterday that for the present, at least, he plans to vote for Eisenhower.

In a telegram to an Oregon Young Republicans' Convention at Prineville, Ore., Morse added:

"You... know me well enough to know I will never sacrifice my independence of judgment or my principles and convictions in connection with any issue just to please partisan politicians in the midst of a campaign."

The Young Republicans had telegraphed to Morse asking if his decision not to campaign for Eisenhower meant that Morse would not cast his ballot for the Republican nominee.

In his reply, Morse said he would not repudiate the general if Eisenhower does not repudiate the sound Republicanism which constitutional liberals in the Republican party have been fighting for."

It is making only lead oil.

Superior No. 14 Jordan, C SE SW 536-47, H&TC, progressed to 5,677 in lime and shale.

## Dawson

Forrest No. 1 Henry, et al, 230 from north and west lines Section 5, Mungerville-Cunningham Survey No. 12, drilled past 5,940 in lime and shale.

Standard No. 1-4 Smith, C NE SE 3-H, EL&RR, north edge to the Smith Sprberry, drilled at 8,042 in sand.

## Glasscock

DeKalb No. 1-1 TKL will be another wildcat location in southeast Glasscock. It is to be 660 from the southwest corner of section 33-32-5, T&P, rotary to 6,300 to test the Wichita-Albany. This puts it a mile and a half southeast of the Seaboard No. 1 Bishop, a Wichita-Albany discovery. DeKalb had staked one a mile west and slightly north of the discovery on Saturday.

Meanwhile, Seaboard No. 1-A Bishop, C SW SW 29-32-5, T&P, northeast offset to the discovery, cored at 6,290. Phillips No. 1-C McDowell, C SW NE 31-32-5, T&P, four miles southwest of Lee's, was at 1,600.

Duncan Drilling Co. of Big Spring No. 1-A Gillean will be a Howard-Glasscock location 1,630 from the south and east lines of the west half of the southeast quarter of section 21-32-5, T&P, combination to 3,200. It is 12 miles south of Big Spring.

Singular No. 1 G. T. Hall, C SW NW 6-34-2, T&P, drilled to 10,330 in lime and shale.

## Howard

Crane Oil of Texas and Newman Bros. Drilling No. 1 Clanton, C NE SE 35-32-3n, T&P, a mile and a

half east of the Vealmoor pool, planned to wash over the hole with a small amount of acid. On Thursday it flowed 18 barrels, Friday 19, and Saturday 20, all through 1/4-inch choke.

Temperatures, however, were expected to stay warm—in the 80s and 90s again Monday—and forecasters doubted that the state would have any real cool weather before October.

Sunday maximum temperatures ranged from 102 at Presidio in the fabled Big Bend Country to 72 at Dalhart, high in the Panhandle.

It was summery weather over most of the state with 90 degrees at Dallas, 86 at College Station, Mineral Wells and Fort Worth, and 97 in Waco, Del Rio and storied Laredo.

A sprinkle of rain in the southernmost tip of Texas—at Brownsville—was all for the state Sunday, as the drought continued for most regions.

Meanwhile, the Hill country—hit hard last week by torrential rains that definitely broke the drought in that section—cleaned up the mess made by the floodwaters.

"Workers found the body of one of the nine persons killed. It was Aureliano Costilla, New Braunfels, who died when his car in which he was riding Wednesday night plunged into Comal Creek.

Practically no damage was reported Sunday when the Guadalupe River crested at 32 feet at Curo. Minor damage was expected to crops in the lowlands of the vicinity.

Upstream at Gonzales, the flood was leveling off. Army engineers had estimated damage for the Texas floods at nearly \$11,000,000.

"She seemed very happy to be going to a ranch," Salvation Army officials who have been caring for her said.

Doubts concerning Kim's claimed Indian origin were raised by Associated Press reports Sunday night that T. L. Bonnah, veteran Indian agent, had never heard of albino Iroquois which Kim said she was.

The wire service also reported that the girl's unpronounced name "was just so much Greek" to the Indians in the St. Regis, Quebec, area. Besides, they are Mohawks, Bonnah said.

Kim, who was found living in the woods near Benbrook Friday, said that she had hitchhiked to Texas from an island in the St. Regis River between United States and Canada peopled by albino Iroquois.

Yesterday she attributed Bonnah's lack of knowledge of her tribe to the fact that they "never go to him... never go to his reservation."

She said her tribe lived inland "way, way up into Alaska" and came to the island only during heavy snows and extremely cold weather.

Kim, who said she was 18, said she could speak Indian, French, and English learned in an Indian school on a reservation. She also plays the piano.

When picked up Friday she expressed disappointment that she had not seen any "hoax ranches" where she had hoped to obtain work.

The Bownen expect to restore her faith in Texas "hoax ranches."

L. L. Underwood, member of the County School Board, requested Monday that the County Court consider building a connecting road from the Luther Gln to the Vealmoor Highway.

The requested road would cover a distance of two miles. Underwood, joined by Carl Lockhart, stated that such a road would cut down the distance which the school bus has to travel.

Commissioners advised Underwood and Lockhart to circulate petitions in the area and look the construction of the new road under advisement. The road would directly connect the Luther community and the Knott community.

E. Micken searched for his father for 10 years and found him a day late—dead in a traffic accident.

The father, 61-year-old Matthew Micken, had been a commercial fisherman in Tampa for 20 years. Sgt. Micken, stationed at MacDill Air Force Base here since February, said he was an ardent sports fisherman and probably had been near his father many times without realizing it.

Micken was killed Friday night. The son read about it the next morning in a newspaper, checked with authorities and found the dead man was the father, who left his family in Superior, Wis., more than 25 years ago.

Kopke-News Agency said about 30,000 will be selected to take the place of men who left the reserve recently on completing two-year duty tours.

EL PASO, Sept. 15 (AP)—Gov. Edwin L. Mechem of New Mexico will be the principal speaker at the Eisenhower kick-off dinner here Friday night.

Cook Oscar C. Bohlin, in charge of the Eisenhower headquarters, said Maj. Gen. Patrick J. Hurley, Republican candidate for senator in New Mexico, also has been invited to speak.

In these latter days politicians promise us something for nothing. That kind of magic is fraudulent; you pay in self respect and manhood and liberty. Do not mistake bubbles for jewels.—"My son lead not a beggars life."—Ecclesiasticus 40:28.

### National Survival Ranks First Even When Costs Are Extreme

One of those offhand remarks that look good in print and tinkle upon the ear is attributed to Senator Edward Martin of Pennsylvania, to-wit: "It won't do any good to win against aggression if we go broke." When you stop to analyze it, that's an awfully silly remark coming from a man who has been a major general, governor of his state and is now a United States senator. National bankruptcy would be a pretty terrible thing, to say the least of it; but it doesn't compare with loss of national existence, individual freedom, private property, and the right to stand upon your hind legs and cuss out the government.

The nations now under the iron heel of the Kremlin not only "went broke" in a monetary sense, but lost the thing we hold dearer than chateaus and goods: freedom. Every individual in those countries lost not only liberty, but all his goods as well for the state controls everything, and individual property rights no longer exist. He lost the right to object to being robbed, to being shoved around like some domestic animal, to pick and choose his associates, to worship his God according to the dictates of his own conscience, to rear his children in a way contrary to the dictates of the state, to own and control and operate his property for himself and his family, to lie down at night with the feeling that the law protects him against the midnight knock on his door, to question the wisdom or honesty or authority of his masters, to assemble with his neighbors and friends or relatives to discuss what could be done to reverse some dictate handed down by those set in authority over him—in short, he lost the right to live like a human being.

### Cover Crops Might Well Be One Of Approved Practices Of PMA

When meeting last fall to select and approve the 1952 practices in which Howard County farmers and ranchers could participate under the Agricultural Conservation Program, the members of the Howard County committee of the Production and Marketing Administration has no reason to suspect such a ruinous drought as has fastened itself upon this community. Consequently, no provision was made for such a practice as the planting of cover crops for a conservation measure to prevent the blowing or precious topsoil. This coming winter and spring, the technicians of the Soil Conservation Service and common reason tell us, we may expect much more severe blowing and dust and sand storms than we had during the past winter and spring. They tell us further that there is approximately 100,000 acres of land that can be expected to blow this coming windy season that did not blow last year. This situation, they say, exists because there are no cover crops on these hundreds of thousands of

acres in the Martin-Howard Soil Conservation District which also includes Midland County. There will not be cover crops planted on much of this land this fall, even in event of rain, because there is no PMA assistance available for the program. Many of the farmers, who have been obliged to leave their farm homes and seek employment elsewhere, do not have the money to buy the cover crop seed. Moreover, they do not have the money to pay for the planting of these crops and cannot take time from their regular employment to do it themselves. At this time we don't have any reason to anticipate that the planting of cover crops will not be an urgent need again next fall. The Howard County Committee will meet within a few days to select 1953 practices. We understand 10 practices may be selected from the State Handbook. We cannot think of one that will be more important than cover crop plantings to be included in the agenda for next year.

### Merry-Go-Round—Drew Pearson

### Big-Time Gambler Frank Costello Was Influential On Capitol Hill

WASHINGTON.—One reason why Frankie Costello, kingpin of the gambling underworld, has not hitherto been deported probably was his friends in high places. Some of these friends in Congress have just been revealed through a little black book carried by Costello's Washington lobbyist, Murray Olf, whose job it was to defeat the anti-slot machine bill and block other legislation which would hamper gambling. The Justice Department has known, ever since it revealed it on July 31, 1947, more than five years ago, that Costello could be deported because he lied about a previous conviction when he took the oath as a naturalized citizen. Furthermore, I personally called this to the attention of Howard McGrath when he was attorney general, and incidentally to the attention of other Justice Department officials.

Only last week did new Attorney General McGrath finally announce that proceedings would be started to deport Costello. In view of this, Costello's lobbying set-up in Washington is significant, especially the manner in which his lobbyist was able to entertain certain congressmen at shrimp dinners and cocktail parties. The man who did this lobbying, Murray Olf's apartment. From there Olf was also made of Jake Guzik, served as a new center for Costello's and other gambling problems in Washington. He occupied a suite at the fashionable Congressional Hotel within a stone's throw of the capitol, where he held court for congressmen. He picked up tabs at the bar, loaned his phone for long-distance calls, and threw shrimp parties for congressmen every Friday night.

Meanwhile the nation's top mobsters also used his apartment for a hangout. There, Costello's partner, racketeer Joe Adonis, hid overnight while the Kefauver Committee was searching for him. There, Meyer Lansky, another notorious gangster, parked his car at the Congressional Hotel's garage and charged the bill to Olf's apartment. From there Olf was also on the phone to gangland chiefs throughout the country—"Dandy Phil" Kasel in New Orleans, "Greasy Thumb" Jake Guzik in Chicago, and Morris Kleinman in Cleveland. Meanwhile, congressmen were wandering in and out of Olf's room, or huddling with him at the congressional bar. Costello's lobbyist also had about \$60,000 in cash from the Costello treasury to distribute in the right places. No wonder Costello, sitting in New York, felt relatively easy about the possibility of being deported. Here is the rollcall of congressmen and other interesting characters who either frequented the Costello-lobbyist's parties or appeared in his little black book. All names of reputable people published below have been checked to make sure they actually did know Olf, and, in the case of the congressmen, this column was two years ago that he was Costello's lobbyist. Yet these congressmen continued to associate with him: Congressman Jimmy Morrison of Loui-

siana, Louis Rabaut of Michigan, Edwin Willis of Louisiana, Jim Murphy of Staten Island, N. Y., Chester Gorski of Buffalo, N. Y., and Phil Welch of Missouri. Gorski, who was defeated for re-election last term, used Olf's telephone freely to call his home in Buffalo. Questioned by this column, Gorski swore he always paid Olf back, though he had trouble explaining why he used Olf's phone in the first place, since he had a telephone in the same hotel. Edith Scheffer, secretary to Congressman Welch, borrowed money from Olf, and made long-distance calls to such places as Detroit and Madison, Wis. Though made from her own phone, she charged the calls to Olf's bill. When this column asked her for an explanation, she blurted: "I'm stunned. Where did you get your information?" However, she refused to comment until she "cleared it with the congressman." She never called back. Other names listed in the Costello lobbyist's little black book are Eddie Vogel, Chicago's slot-machine king (Buckingham 8873), Morris Kleinman of Cleveland (Main 8034), Jimmy Rutkin of Jersey City (Bigelow 3-8000), Emmitt Waring of Washington (Emerson 7525), Guzik's private Chicago number is listed under "Jack G." (Webster 9-0877). One of the most interesting names in the little black book was that of a federal judge, together with the telephone number of his former Washington law office. This column is not printing the judge's name because, after interviewing the judge, I am satisfied that he was not connected with Costello or Olf. The judge explained that at one time he defended one of Olf's friends, Al Bliekfield, and had met Olf himself on one occasion. However, the judge claimed he had never represented Olf and did not know him socially. As for the girls in the little black book, this column checked with several and found that, in many cases, they had met Olf at parties without having any idea of his underworld connections. In fairness to the innocent, this column will not publish any of the girls' numbers. However, Congressman Welch's secretary, Edith Scheffer, has been unable to explain why she borrowed money from the racketeer and charged long-distance phone calls to Olf's bill. This was at the same time her boss was attending Olf's parties in the Congressional Hotel. What the public has a right to know is why certain congressmen were so close to Olf, even after this column had identified him two years ago as an ex-convict, racketeer, and lobbyist for Frankie Costello.

### Grass Grows In The Streets Of Annapolis

ANNAPOLIS, Md. (AP)—Grass grows in the streets of old Annapolis. The city engineer said so in his annual report on conditions in Maryland's capital. "Residents have allowed weeds and grass to grow in gutters in front of their homes," the report said.

### World Today - James Marlow

### Better Labor-Management Relationship Urged By United States Steel Prexy

WASHINGTON (AP)—Benjamin F. Fairless expresses the concern of many people who have looked at union-management relations in this country and think it's time they were better. Fairless, president and chairman of the Board of Directors of the U. S. Steel Corp., thinks organized labor and management should improve their relations by themselves before the government does it for them in a way they won't like. Fairless has just come through a blazing steel strike which climaxed a dispute that started with the CIO steelworkers last fall and worked its way up through federal agencies and federal courts to the White House and the Supreme Court.

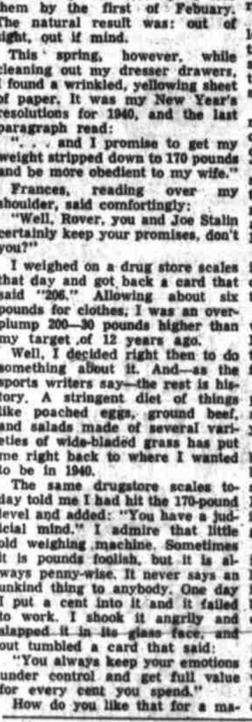

In a speech last week Fairless said it was high time the unions and management tried to work out their problems with a minimum of government interference. He said: "The American people are patient. But they will not sit by forever and permit strikes to endanger our national defense, to impede our industrial progress and to wipe out the savings of thousands of workers, many of whom in some cases—are not directly involved in the controversy." Fairless was talking of this growing realization: The more labor and management run to the government for special favors or intervention or laws against each other, and the more the government steps in—labor may win a round today, management tomorrow—the deeper the government becomes involved in the lives and activities of both. Each time it happens both sides have lost some of their old freedom. The longer this continues, the more everyone is conditioned into expecting and accepting government intervention. Still, no one likes to think of the ultimate government action: a ban on strikes.

Fairless said: "Ultimately the force of public opinion is going to compel drastic action in Washington—action which can only result in the further suppression of our precious liberties." Opposing a ban on strikes in national emergencies, Fairless said: "That way, I think, lies slavery, and I do not see how any thoughtful American can support such a proposal. 'Elsewhere we hear an increasing demand for government arbitration of labor disputes. That way, I believe, lies the eventual nationalization of industry and the murder of free enterprise.'"

### This Day In Texas

By CURTIS BISHOP With a minimum of formality construction workers on this day in 1950 poured the first batch of concrete for the Belton Dam. Several months previously work had started at the site on the 3,800-foot earth embankment. On the first day of concrete pouring some three hundred cubic yards of a type of concrete planned especially for this project were dropped into place by huge conveyor buckets holding two yards of concrete at once. Present for the event were two representatives of the Army Engineering Corps and a delegation from the Temple Chamber of Commerce. Winston Brothers of California and Minnesota held the contract for pouring the outlet works and control housing for the dam. When completed, this reservoir will have a capacity of 1,007,000 acre-feet for municipal water supply, power and flood control. Several nearby cities will draw part of their water supply from it. A recreation center is also planned for the site. Planned for many years, the Belton Dam became the subject of a minor controversy between nearby Temple and Belton over its name. Pending final choice of a name, citizens from the two communities finally agreed on "Belton Dam" as a sort of rd interim title. Senator Tom Connally declined to have the project named for him.

### Hot Stones Made Water Boil

At the "eastern entrance" of Canada is the famed province of Nova Scotia. Thanks to its position, it can boast many "firsts" in North American history. Later this week I plan to sketch the history of Nova Scotia, but today let us take up the original inhabitants. The first settlers appear to have been Indians of the Micmac tribe. The Micmacs belong to the great Algonquian group of tribes. There are about 2,000 of them living today in Nova Scotia. Others live in Newfoundland and New Brunswick. To a large extent they earn their living as fishermen and as guides for hunters and trappers. Some of them make curios for sale to tourists. Going back into history, we find old records which tell about their customs when they were visited by white men in early times. Most of the accounts have come down from French explorers. To obtain meat and furs for the tribe, Micmac hunters shot or snared such animals as rabbits, otters, beavers, foxes and porcupines. Sometimes their arrows brought down a caribou or black bear. Besides using bows and arrows, these hunters employed clubs, spears and stone-bladed knives. Dogs went with them on their forest trips, and helped them to track down game. When a bear or caribou was slain, the men would return to their wigwams and tell their squaws to go out and get it. The women would skin the game on the spot and would cut the meat into pieces. Then they would carry both meat and hide to the village. Later they used the hide to make clothing. The pieces of meat were placed in wooden bowls or other containers. Water was poured over the meat, and hot stones were

### Video Won't Hurt The Bald Pate Of Politician; It's A Good Help

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald.—Editor's Note. Not so many years from now, aspiring politicians who desire to become gainfully employed are going to have to take the gray stains off their ties, contain themselves in a prescribed area and refrain from serowling at some opponent who might have the floor. The reason: Television. Video, methinks, is going to have a revolutionary effect on campaigning. For one thing, it'd make some of the office seekers, those who are true hams at heart, better actors than they are. It's going to call for much more practicing in front of the mirror, better diction, more Peppodent smiles, cleaner finger nails and jokes and more formal attire. If the candidates are concerned with the effect of their bald pates, those not blessed

with an abundance of hair atop their heads, they can forget it. Learned individuals are reminding the politico that baldness has classically been associated with superior mentality. "Grass does not grow on busy streets," is the way Dr. Otto Rattiger, professor of dermatology at the Northwestern University's School of Medicine. At any rate, the game will be streamlined once the day images of the politicians are piped into the living room. The party running for alderman knows he cannot infringe upon the Lone Ranger without fear of having Junior angrily bounce him off the air, in his search of his idol. And, Junior, let it be emphasized, may swing the issue when it comes time for his elders to discuss the merits of the respective candidates. —TOMMY HART.

### Gallup Poll

### 25 Per Cent Of Democrat Voters Of 1948 Vintage Favoring Ike

PRINCETON, N. J., Sept. 15—Besides holding virtually all of the regular Republican vote, General Eisenhower at this stage of the campaign is attracting a substantial number of Democrats to his camp. One-fourth of the persons who say they voted for Truman, Wallace or Thurmond four years ago now they are supporting the Eisenhower ticket rather than the Stevenson ticket, judging by reports from Institute interviewers throughout the country. On the other hand, only about 6 per cent of those who say they voted for Dewey last time say they are planning to switch this year and support the Stevenson ticket. While the Eisenhower managers will undoubtedly find comfort in this survey, a note of caution must be sounded: Whether the 1948 Democratic voters who are now for Ike will stick with him to Election day is an open question. Past experience indicates that a substantial number may return to the party they have habitually favored. Their final decision will undoubtedly depend on whether Eisenhower's campaign during the next six or seven weeks is more effective than Stevenson's with this group. In conducting the survey the Institute asked all persons: "If the presidential election were being held TODAY, which political party would you like to see win—the Republican party or the Democratic party?" Here is the vote of those persons who four years ago cast their ballots for Truman, Wallace or Thurmond.

### Maryland Claims To Own The Original Flag, 'Old Glory'

ANNAPOLIS, Md. (AP)—Maryland claims to own the original "Old Glory." The flag, thought to be the oldest in existence made in accordance with the June 14, 1777 Act of Congress, is on display in the Statehouse. That's the oldest state capital in daily use, and the flag claim relies on a weekly newspaper that claims to be the oldest still published in the country. The State Department of Information says the first reference to a flag as "Old Glory" appeared in a 1781 issue of the Maryland Gazette reporting the battle of Cowpens, S. C. The term was attributed to William Bache, a Baltimore soldier who carried the flag at the head of the 2nd Maryland Regiment. The same regimental flag is the one now under glass in the Statehouse. It was carried again by Bache's son at the Battle of North Point when the British invaded Maryland in 1814.

### Asian Pilots Needed

SINGAPORE (AP)—The Malayan Auxiliary Air Force is short of Asians of a high educational standard to train as pilots, Air Marshal A. C. Sanderson told the Executive Committee of the R.A.F. to come forward and help in the training of the young pilots who will form the nucleus of the air force in the future independent Malaya.

**A Prize For The First**

The center of all this attention, John Craig Lawford, son of Staff Sgt. and Mrs. John P. Lawford, is oblivious to the sterling cup he is being awarded as the first baby born in the Webb Air Base hospital. Presenting the cup are members of the hospital committee of the Officers Wives Club, left to right, Mrs. Marshall A. Miner, Mrs. William S. Williams and Mrs. A. M. Connors, chairman. The curious little man is the baby's brother, Dewayne. Nathan's is awarding spoons and rings to all babies born at the hospital.

**It's That Time Again And Sufferers Moan**

Temperatures are hot, the weather is hot, the earth is dry and to add insult to injury hayfever sufferers are in for another siege. Apparently there isn't any justice. Because the drought that has plagued Howard County with its presence for 10, these many years hasn't lessened to any substantial degree, the suffering of hayfever patients.

That is unless the person is sensitive to grass alone. Then, of course, relief has already been felt. Those searing days of July and August have played havoc with the grass, much to the joy of grass-sensitive sufferers.

But the average connoisseur of nose drops and paper handkerchiefs is still sneezing and wheezing away. Dr. V. E. Friedewald, allergy specialist at Malone & Hogan Clinic-Hospital, explains it like this: "In a good year when the farmers have crops, weeds are, to a certain extent, eradicated. But now, when there are few crops nothing is being done to keep the fields free of weeds and hayfever sufferers are up against it."

According to Dr. Friedewald, careless weed pollen appeared two weeks early this year. But that's not the worst. If a person has suffered from hayfever before, chances are that the suffering will be worse this fall.

All because of the drought. Mountain cedar, which caused a run on drugs and Kleenex last fall is back early this year, Dr. Friedewald believes. Again, because the heat makes it pollinate early.

Still the most popular stock prescriptions to ease the misery for hayfever patients are phenegan, benzadryl, pyribenzamine and neoteragan.

"The newer drugs are doing a lot of good," says Dr. Friedewald. "But people are still relying on the more tried and true preparations that have brought them relief before."

If a person is the victim of seasonal attacks of an allergy, the best sure cure is to leave the country. However, if that is impractical or impossible then the next best thing is to stay close to an air-conditioner. The refrigerated types are best.

And remember all things come to him who waits. Even rain with its subsequent clean, pollen-free air.

**Floor Plan Helps Decide Size Of Rug**

By ELIZABETH HILLYER

The same floor plan that's such a help in plotting arrangements of furniture is just what is needed for determining the sizes of rugs. Handsome as they are, the new smaller rugs clutter a room if they're too small, too many and scattered—they must fit both the room plan and the exact spots where they're to go. If you're a room planner in the know you've already drawn the room on 1/4-inch squared graph paper, so that each square represents one foot of wall, window or door. And you've measured the furniture and made cut-outs to the same scale and arranged them on the floor plan just as the actual furniture is arranged in the room. Now make trial cut-outs of rugs in various sizes and shapes and try them on the floor plan, a much easier trick than trying actual rugs on the floor. There in black and white is the answer to what sizes of rugs to buy—if the cut-out seems right, so will the corresponding rug size, and you've saved time and trouble and perhaps costly mistakes.

**CHINESE SUPPER**  
Chicken Egg-drop Soup  
Crisp Crackers  
Oriental Pickled Pork\*  
Steamed Rice  
Bean sprout Salad  
Sliced Pineapple  
Beverage

(Recipe for Starred Dish Follows)  
**ORIENTAL PICKLED PORK**  
Ingredients: 1 egg, 1/4 cup water, 1 1/2 pounds fresh boneless pork, flour, 1/2 teaspoon salt, fat, 1 clove garlic (minced), 1 cup cider vinegar, 1 cup sugar, 1 tablespoon cornstarch, 1 cup mixed sweet pickles, 1 1/2 teaspoons soy sauce, 1 teaspoon salt.

Method: In a small bowl, beat egg slightly; beat in water. Cut meat into bite-size chunks; dredge with flour and 1/2 teaspoon salt. Dip floured meat in egg mixture. In a large heavy skillet, heat fat and cook meat until done through and golden-brown—about 15 minutes. Drain on absorbent paper. Drain fat from skillet; brown garlic in skillet for 1 minute; discard garlic. Add vinegar; mix sugar with cornstarch and add; stirring constantly, bring to boiling point. Add pickles, soy sauce, 1 teaspoon salt and meat. Heat thoroughly, stirring. Makes 4 servings.

**Elsie Willis Is Teacher Of Piano**

In an article on fine arts teachers and their pupils which appeared in Sunday's Herald, the name of Elsie Willis, piano teacher, was inadvertently omitted. Miss Willis, who has taught pupils of all ages here for a number of years, lives at 508 Runnels.

**County Improves Services As Result Of Youth Survey**

DR. MARTHA M. ELIOT  
Chief, Children's Bureau  
Federal Security Agency

A new interest in meeting the problems of young people has been created in Sheboygan County, Wisconsin, through a youth survey.

The survey was completed about two years ago with the help of citizens of the county and community services consultants loaned by the Division for Children and Youth of the State Department of Public Welfare.

It showed that there was a great deal of confusion on how to interpret state laws governing lollering by minors in establishments where liquor is sold. So opinions on the new law have been written for the sheriff and police departments by the District Attorney.

The survey showed the need for courses through which all law enforcement officers in the county could get training on matters affecting juveniles. The first such training session has been held; others are planned.

The study showed that there did not seem to be adequate supervision in dance halls. Now dance hall operators are required to provide supervision for dancers.

Literally dozens of ways in which Sheboygan County could improve the services it offered to its young people were highlighted by the youth survey.

In many specific cases, such as those cited here, the recommendations made by the youth survey have already been put into practice. But the survey also brought out the need for some advance planning for Sheboygan young people.

One of the recommendations of the survey was that the Council of Social Agencies take initiative "in developing a broadly representative community council." As a result, a newly organized Welfare Council has been set up, with definite programs for health, welfare and recreation.

A program for job training and placement of youth has been instituted through the co-operation of the Sheboygan Vocational School and the Rotary Club.

The Recreation Department is giving those who participate in such activities as leagues and tournaments a chance to help plan their own programs. A full time recreation director has been employed by the city council of Plymouth, one of the towns in the county.

Also, in Plymouth, another recommendation of the survey was carried out when the Plymouth school board made its school buildings fully available for use in connection with the recreation department.

One of the needs which those making the survey felt was that school curricula in Plymouth should be better tailored to serve the individual needs of students "particularly those who do not go on to college."

The Plymouth High School has now revamped its curriculum into four major courses: general, college preparatory, commercial and agriculture. It has added a unit on family life, has a full time guidance director and uses teacher committees to deal with student adjustment problems.

Many other recommendations made by the survey are still being studied by citizens of Sheboygan County. Unquestionably many of these recommendations will be carried out in the future.

Those who participated in the survey believe it helped focus community attention on some problems and stimulated groups to concentrate on finding ways to solve them.

**Under Your Coat**

An old-fashioned "hug-me-tight" to wear snug and warm under your coat when the wintry winds are blowing cold—and colder! Just the right size and weight, too, for wear in the house when you are a bit chilly. Crochet it in wine, ecru, beige, navy, black, brown or in a shade of wool that exactly matches your winter top coat. A grand gift to an elderly person. Teenagers like to wear them with pull-on sweaters and slacks! Pattern includes sizes 32, 34, 36 and 38. Send 25 cents for CROCHETED "Hug-me-Tight" (Pattern No. 149) all instructions, illustrations of stitches used, materials required, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS Big Spring Herald Box 229, Madison Square Station, New York 10, N. Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

For a pleasant cold soup for a hot weather meal, combine a can of condensed cream of celery soup, and can of condensed tomato soup, and 1 1/2 cans (using soup can as measure) of milk. Chill for at least four hours and serve in chilled bowls. Garnish with minced parsley and accompany with cheese crackers.

**CAN YOU DELIVER IT RIGHT AWAY?**

How easy and quick it is to let a simple telephone call go shopping for you. Think of the time and steps you save by being within telephone reach of practically every business in your community. Yet—with all its worth—the average cost of a local call, including tax, is less than 3¢.

A bargain? One of the very best!

Every "hello" is a good buy

**Officers Wives Plan Bridge Party Thursday**

The Officers Wives Club of Webb Air Force Base will meet Thursday at 1:15 p.m. in the Academic Building for an afternoon of bridge. It was announced today. There will be a table for intermediates.

**Gayle Price To Leave Saturday For College**

Gayle Price, daughter of Mr. and Mrs. Lewis H. Price, 810 W. 18th, will leave Saturday for Christian College in Columbia, Mo., where she will be enrolled in a course in liberal arts.

Mr. and Mrs. Price will take Gayle to Dallas, where she will join a Texas party of students for the train trip to Columbia.

**Creole Wax Beans**

2 tablespoons chopped onion  
1/2 green-pepper, chopped  
3 tablespoons fat  
1 1/2 tablespoons flour  
1 1/2 cups tomato juice  
1/4 teaspoon salt  
1/4 teaspoon pepper  
3 cups cooked wax beans

Cook onion and green pepper in fat until onion is yellow. Blend in flour, add tomato juice gradually and cook 5 minutes. Add beans and seasoning. Heat.

**Freddie**

Think to ask for... **MRS. BAIRD'S SANDWICHES!** ...it STAYS FRESH LONGER!

See How It's Done

Mrs. Virginia Ferebee, new demonstrator at Texas Electric Service Company's display room demonstrating the electric range to Mrs. W. V. Griffin, 408 Runnels. Each afternoon Mrs. Ferebee demonstrates a different electric appliance.

## Texas Electric Demonstration Kitchen Shows How It's Done

You can see it work yourself in the Texas Electric Service all-electric kitchen.

Realizing that many people want to see electric conveniences and appliances actually in operation, Texas Electric Service has installed an all-electric kitchen and laundry in its display room at Fourth and Runnels.

The latest in appliances are permanently in place, arranged much as if they were in your own kitchen. Included are an electric range, dishwasher, garbage disposer, electric refrigerator, toaster, waffle iron, automatic coffee percolator and mixer.

In the laundry section is an automatic electric clothes washer, dryer and ironer.

Mrs. Virginia Ferebee, the new demonstrator in the Texas Electric kitchen, is well versed in electrical appliances and with their versatility and capabilities. She formerly was associated with Tennessee Power and Light Company at Nashville, Tennessee, in a similar capacity.

She actually performs various home-making tasks each afternoon in the Texas Electric display room and on Saturday mornings. One day she may bake a cake in the electric range; the next day she may show what consistently delicious coffee may be made in the electric percolator; or still another

she may show how a kitchen drudge can be changed to an easy chore with the electric dishwasher.

Similarly, Mrs. Ferebee steps over to the laundry section and puts out a wash or irons clothes while housewives watch how easily it is accomplished.

This is a public service of Texas Electric Service Company for the convenience of electricity users. A

variety of makes of electric appliances sold by Big Spring electric appliance dealers are used, and the patron is urged to make further investigation through his or her favorite appliance dealer. Mrs. Ferebee, of course, is delighted to answer any questions concerning the use and operation of any electric appliance. From time to time she will add the latest in electric appliances.

## Harland's Washing Service Back Again

Grady Harland, owner and operator of the Harland Magnolia Service Station, located at 1000 Lamesa Highway in Big Spring, is pleased to announce that the station is again offering the best in automobile wash jobs.

The concern was not able to offer such service as long as the water ban here was in effect, it continued to specialize in grease jobs, oil changes and etc.

When personnel of the Harland station undertakes a wash job on the family vehicle, the owner can rest assured that the vehicle is

cleaned on the interior as well as out.

The Harland station maintains a big, dirt-gathering vacuum cleaner which does a most thorough job on automobile seats and tops.

As the name implies, the Harland station deals in Magnolia products, including Magnolia accessories. The best in Magnolia gasolines and motor oil is kept in stock, along with such items as Mobil-Tires and tubes, batteries and other items.

The Harland concern offers its customers and callers service throughout the week and stands prepared to service an individual who might have experienced trouble at some out-of-the-way point in this season, with gasoline or a change of a tire.

If you're not sure what grade of motor oil to use in your car, the people to see are employed at the Harland station.

Business telephone number of the establishment is 9787.

## New Lightweight Cycle Is Popular

A new lightweight motorcycle model is the center of attention at the Cecil Thixton Motorcycle and Bicycle Shop, 908 W. 3rd.

The lightweight Harley-Davidson Model 165 is one of three 1953 H-D machines which went on display in Thixton's showrooms Saturday. It replaces the popular Model 125 with which Big Springers and other motorcycle enthusiasts have become acquainted in recent years.

In addition to the new motor, the motorcycling set may also view the Harley-Davidson Model K, the 45-cubic-inch side valve sensation introduced only a few months ago, and the 74 OHV "Big Twin," senior member of the H-D family.

The 1953 K Model features include a faster throttle, new colors and the availability of saddle bags and a new-model "buddy seat" for carrying passengers. Its "sprung" rear suspension is the talk of motorcyclists throughout the nation and its reception locally has been enthusiastic, Thixton reports.

The 74 OHV "Big Twin" incorporates new engine refinements with hydraulic valve lifters moved to the bottom of the push rods. Improved lubrication of the cylinder walls and rotating exhaust valves head the list of new features.

New colors for the lightweight model 165 are pepper red, glacier blue, forest green and metallic

glamor green. Colors for the "74" and the "K" are pepper red, glacier blue, forest green and brilliant black. Available at extra cost are metallic cavalier brown, glamor green and white.

Thixton Motorcycle and Bicycle Shop, which has served the Big Spring area for many years, also is headquarters for motorcycle and bike repairs. The firm maintains a large stock of parts and accessories.

Thixton has on hand number

Big Twin

Regarded as the world's most popular motorcycle, the Harley-Davidson 74 OHV "Big Twin" was one of three 1953 motorcycles which went on display at Thixton Motorcycle and Bicycle Shop, 908 W. 3rd, Saturday. Others being shown are the new model 165 and the H-D Model K.

of used motors and bikes in a variety of sizes and models. The popular Whizzer motorbike is also displayed and the motorcycle headquarters offers a lawnmower repair service.

## Butane Gas And New Stoves Will Dull Edge Of Winter

Before the colder weather sets in, it might be a good idea to check and see if you have proper heating in your home.

If you reside in an outlying or rural area, a butane fuel system might be just the thing to use. Such is both clean and economical, as well as easy to use.

A local concern dealing in such products is the S. M. Smith Butane Company, located at the edge of the city limits on the Lamesa Highway.

The Smith concern keeps in stock both heaters for the living room and bed rooms and Tappan and Roper gas ranges, perfect for use in the kitchen.

The Tappan and the Roper ranges, which have incorporated all the latest devices for improved baking and cooking, are perhaps ranges in the world and are popular both with natural and butane gas users.

In addition, the Smith concern checks and refuels butane and propane systems upon request. Any size unit, storing any amount of fuel, can be installed at any point within this area.

The establishment also keeps in stock such household accessories as electric refrigerators, deep freezers and hot water heaters. All can be seen on display at the Smith showroom.

Business telephone number of the Smith concern is 2032.

Yanks Appear To Have Another Title Cinched

By JOE REICHLER Associated Press Sports Writer

The New York Yankees appear to have their fourth successive pennant wrapped up. The fast-fading Brooklyn Dodgers are ready to be taken by the New York Giants...

That was the picture today following Sunday's activities which saw the Yankees win "the big one" from the Indians in Cleveland...

National League margin over the runnerup Giants when the third-place St. Louis Cardinals drubbed the New Yorks, 14-4.

In other results, the Philadelphia Phillies swept a twin bill from Pittsburgh, 5-2 and 2-1; Boston's Braves and Chicago's Cubs divided a doubleheader...

Philadelphia's Athletics took two from the St. Louis Browns, 10-5 and 2-1; Washington whipped the Detroit Tigers, 6-2; and Chicago's White Sox nipped the Boston Red Sox, 4-3 in 17 innings.

Casey Stengel wouldn't call his Yankees "in" and Al Lopez wouldn't count his Indians "out" but the cold facts state plainly that if the Yankees win only six of their remaining 11, the Indians must win eight of 10 to tie.

Lopat and Reynolds limited the Indians to nine hits. Lopat was given credit for the victory. Mike Garcia, who hadn't been scored on in 30 innings, gave up four runs in the third inning during a four-hit barrage to be tagged with his 10th defeat.

A pair of rookies with less than a month of major league experience were the culprits in the defeats of the Dodgers and Giants. A grand slam homer by Jim Greengrass, the first homer of his

Stranahan Now In Select Group

CHICAGO (U) — Frank Stranahan has carved a niche for himself in the Western Golf Association's hall of fame by winning the group's amateur championship for the fourth time.

He joins such old timers as H. C. Egan and Chick Evans as the only men to make such a monopoly of the coveted Western Amateur crown.

Shortly after the turn of the century Egan won it four times and then Evans captured it eight times. Stranahan, who has won about every amateur title but the National one, defeated Harry Ward of Atlanta 3 and 2 yesterday in a scheduled 36-hole windup of a 50th meet. He did it with spectacular recovery shots.

Ward, who walloped Frank 6 and 5 for the British Amateur title last June at Prestwick, Scotland, lost the first hole when the Toledo millionaire's son holed out a 40-foot eagle 3 putt. Ward never was able to take the lead or ever square the match thereafter.

After a blistering three-under-par 68 in the morning, Stranahan finished the 36 holes in even par while Ward was four over for the distance.

Local Linksters Win In Matches

A total of 169 were present for the annual barbecue of the Triangle League at the Big Spring Country Club Sunday night. Golfers attended from Sweetwater, Colorado City and Snyder.

Snyder and Big Spring played a preliminary round of matches Sunday afternoon with Big Spring winning, 44½ to 10½. Snyder had 73 players present and accumulated a total of 80½ points.

Standings in the Triangle League show Sweetwater first, followed by Snyder, Colorado City and Big Spring. The next tournament has not yet been set.

Seahawks Lick Galveston Nine

By The Associated Press The elements held up the Corpus Christi-Harlingen Gulf Coast League semifinal Shaughnessy playoff Sunday.

But at Port Arthur the weather was fine and the Seahawks took advantage of it to blast Galveston, 9-5, and even their series with the Whitecaps at 1-1.

Rain forced postponement of the Corpus-Harlingen battle at Harlingen.

The two teams planned to try again at Harlingen Monday night to take up where they left off with Corpus leading, 2-0, in the best four-out-of-seven series.

The Galveston-Port Arthur playoff switches to Galveston Monday night where Ray Woodward will pitch for Port Arthur against Ray Roger. Woodward will pit his 14-9 record against Roger's 16-5 win-loss showing.

Sunday three Galveston pitchers couldn't stop the determined Seahawks. Larry Fox started for Galveston but was relieved after the first four batters to face him scored. Then Joe Aguilar came in only to exit in the fifth under a four-hit, two-run attack.

Jim Logan finished for the Whitecaps, giving up two runs in the eighth. Les Kash hurried three scoreless innings of relief pitching to save the victory for Dinty Moore. Moore, who worked out of some early-inning jams, was relieved in the seventh.

All Lone Star Teams To Play

By The Associated Press All six teams in the Lone Star Conference do grid battle this week end and from the looks of things it won't be easy going for any of them.

Take East Texas State for instance. They'll be up against powerful Abilene Christian at Abilene Friday night and even East Texas Coach Catfish Smith said things look "critical."

"If we lose, we may not win more than three games all season," Smith says. "If we win, well, the Lions are heavily favored to win the 1952 crown."

Saturday night contests see Sam Houston State hosting Louisiana College at Huntsville, Stephen F. Austin entertaining Texas A&M at Nacogdoches and Lamar Tech in Lafayette challenging Southwestern Louisiana Institute. Also that night Southwest Texas State faces Trinity at San Antonio and Sul Ross State meets California Poly at Abilene.

Last week, Southwest Texas and Sul Ross opened their 1952 schedules. Southwest Texas lost to ACC, 20-7, at San Marcos and Sul Ross whipped McMurry College, 19-6, at Abilene.

Sooner State Loop Playoffs To Begin

McALESTER, Okla., Sept. 15 (U) — McAlester and Pauls Valley meet here tonight in a winner-take-all duel for the Sooner State League championship.

The Rockets won their second straight game from the Raiders last night, 7-3, at Pauls Valley, and knocked the seven-game playoff 3-1. The Rockets, who finished first during the regular season, are given the edge in tonight's crucial game.

The Pauls Valley defense cracked last night. The Raiders committed nine errors. McAlester sewed up the contest in the fourth, breaking loose for five runs on five singles, a walk, and two Raider errors.

Don Gibbs hurled shutout ball for eight innings, then weakened in the final frame and the Raiders pushed across two runs.

Former Texas Ace Wins Net Crown

HOUSTON, Sept. 15 (U) — A former University of Texas ace, Felix Kelly, turned back Sammy Giammalva, 7-5, 6-3, to win the men's singles of the Shamrock invitation tennis tourney here yesterday.

Kelley teamed with Ben Weil to take the men's doubles finals from Giammalva and Richard Schuette, 7-5, 3-6, 6-3.

Then the former Longhorn netter teamed with Peggy Vilbig to win the mixed doubles title, 6-2, 6-3, over Jackie Johannes of Dallas and Julius Heldman.

Snead Points To New Title

BALTIMORE (U) — Sam Snead has one new golf championship, the Eastern Open, on his victory belt today and has his deadly eye leveled on another.

Snead won the Eastern Open by a margin of two strokes in his first crack at it yesterday and he has the same designs on the inaugural National Celebrities Open starting Thursday in Washington.

Besides adding another tourney championship to a list which already is close to 100, Snead is interested in another \$2,400 first prize.

The Eastern Open check for that amount boosted his year's earnings to \$18,441. That leaves him only \$562 behind third-place Jack Burke Jr. among the leading money winners.

Burke is reported to have put away his clubs for the year to concentrate on getting married.

Snead, whose devotion to the dollar is a standard joke among the pros, has been first or second in the money list since he started playing professionally in 1937.

The 38-year-old Virginian showed he was in peak form by winning the Eastern Open with a record-breaking 275. He was four strokes under the record of the past two tourneys, 13 under par for Mt. Pleasant and two in front of second-place Ed (Porky) Oliver of Lemont, Ill.

Fire Sweeps Belmont Barns; 23 Horses Burn To Death

BELMONT, N. Y. (U) — Cracking flames swept through a Belmont Park barn last night on the eve of the famous race track's three-week fall meeting. Twenty-three valuable thoroughbred horses were burned to death. Another horse had to be destroyed.

Twenty-five horses were rescued, although the blaze engulfed the huge wooden structure in 15 minutes. Some of the rescued thoroughbreds also were injured.

Two nationally known horses stabled here for today's opening were among those saved. They were Primate, Kentucky Derby hopeful of last season from the Starmount Stable, and Navy Page, a stake race winner who ran with the top 2-year-olds at the recent Saratoga meeting.

Some of the horses that died in the fire were listed by track officials as Greensboro, a 2-year-old owned by E. B. Benjamin of New Orleans; Devil's Spy, Wild Jamie, Buzzing Bee and Tocoli, all owned by Willie Knapp; and Eraser, Big If, Ornament and Burladero, owned by J. T. Moloney.

Washington, trained by Morris Dixon Jr., had to be destroyed. The value of the lost animals was estimated to be in the hundreds of thousands of dollars.

A groom, Mike Novach, was taken to a hospital with smoke poisoning. Several firemen were treated at the scene for minor injuries.

The fire leveled the barn. Nearby is the wreckage of another stable in which a young groom and 21 valuable thoroughbreds were killed by fire last spring.

Cause of the fire was undetermined.

One way to save lives. GREY TRAFFIC LIGHTS. THE MEANS TO LIVE.

LAST CALL ON THOSE College Subscriptions

The Herald wants Big Spring college students to have that "daily letter from home," but can maintain its special bargain rate for just a few more days.

Before the youngsters leave, be sure and arrange for them to get The Herald for the full nine-month school term, at a campus address, for only \$5.50

A few weeks from now, the boys and girls away from home will be wishing they had the news from Big Spring. Anticipate this, and make a saving in price, by ordering the College Special now.

USE THE CONVENIENT COUPON. Herald Big Spring, Texas. Send the Herald at the special college rate of \$5.50 to: Name, Address, City, State, Start paper on (date), check enclosed, Send bill to:

Wildcats To Meet Lions On Gridiron

By The Associated Press
Every member of the Texas Conference will see action this week and as the loop moves into the 1952 football season in earnest.

Longhorns Preparing For Home Opener Against Angelo Bobcats

Coach Carl Coleman planned to trot his Big Spring Steer footballers onto the practice field for a "heavy" drill session today, as the Longhorns launched preparations for a Friday night invasion by the San Angelo Bobcats of District 1-AAAA.

It will be the home opener for the Steers who suffered a 33-0 reversal in Breckenridge last Friday night at the hands of last year's state AAA champs.

AAA on Saturday, and the Angelo eleven looked impressive. They rolled up a 40-7 advantage in the practice round, which was unrecruited under game-like conditions.

Even Of Nation's Top Teams Hit Grid

By ORLO ROBERTSON
NEW YORK, Sept. 15 (AP)—Games usually reserved for later in the season send the 1952 major college football season off to a roaring start this week with 11 of the nation's 20 top ranking elevens swinging into action.

Eight of the teams which finished among the first 20 in the Associated Press pre-season poll will play major opponents with defeat jeopardizing their chances of getting a post-season bowl bid.

Other highly rated elevens warm up against minor opposition. At least it figures to be minor on the basis of past performances.

Two 'Ineligible' Teams Are Due To Show Power

By HUGH FULLERTON JR.
NEW YORK (AP)—Two colleges which aren't eligible for their conference championships this year are among the best bets to win sectional football honors this year.

They are Michigan State, a member of the Western Conference but not eligible to win the football title until 1953, and Maryland, serving a year's suspension from Southern Conference competition.

Those two, Georgia Tech and Oklahoma were the four institutions which dominated the Associated Press pre-season poll of newspaper and radio sports experts to pick the probable leaders in each section of the United States.

In some respects Coleman said he thought the Steers looked better against Breckenridge than at any other time since he has coached here.

Lubbock To Launch Grid Slate Friday

By The Associated Press
Baytown has already shown it deserves its rating, now Lubbock will try it this week in Texas schoolboy football.

Lubbock, the defending state Class AAAA champion, opens the season Friday against Plainview of Class AAA.

ing the schedule. Temple, heralded championship contender in its class, plays Sunset at Dallas Friday night.

Tyler Advances To Final Round

By The Associated Press
The Tyler East Texans won their first-round Big State League series, 4 games to 2, Sunday night by downing Texarkana, 5-1.

Other feature games of the week in AAAA send Tyler to Dallas to play Forest and Breckenridge, Champion of AAA, to Wichita Falls to tackle the well-drained Coyotes.

Indians Move To Loop Finals

By The Associated Press
The Oklahoma City Indians downed the Dallas Eagles, 4 to 1, Sunday night behind the five-hit pitching of Jim Atchley to win the first round of the Shaugnessy playoffs in the Texas League.

Notre Dame, picked first by two balloters, polled 43 points to lead the entirely independent Midwestern teams.

# Lewis Meets Policy Group On Strategy

By NORMAN WALKER  
WASHINGTON (AP)—With a possible coal strike only a week off, John L. Lewis huddles with his 200-man Policy Committee today to map negotiating strategy.

The contract between the United Mine Workers union and the Northern mine owners expires on Saturday. Since that is not a working day, the first opportunity for the miners to stay away from work would be next Monday.

Lewis' union members traditionally won't work without a contract. However, agreements with Southern soft coal operators and with the Pennsylvania anthracite, or hard coal, owners extend until Sept. 30.

The UMW Policy Committee, due to meet with Lewis in mid-afternoon, is the group Lewis usually consults when major union decisions are to be made. It always ratifies contracts before their terms are made generally known. It also helps draft strike plans.

John Busarello of Pittsburgh, head of the union's District No. 5, said over the week end he knew of no soft coal settlement in the works, but felt the calling together of the Policy Committee was a hopeful sign.

It was reported that some progress has been made in the soft coal, or bituminous, industry peace talks, but not enough to assure an agreement before a strike could develop. However, both sides were described as seeking to avoid a shutdown.

Lewis may meet during the day, too, or possibly tomorrow with Harry Moses, chief negotiator for the Southern Coal Producers Association.

Lewis has been talking with both men separately for some weeks. Their talks are reported to have touched on suggestions for higher wages, an increase in the 20-cent ton welfare fund royalty payments, and plans for more regular employment among miners.

Actually, an agreement was reported to be close in the anthracite industry. Representatives of the Eastern Pennsylvania hard coal operators are to see Lewis again tomorrow. A Lewis demand for a 20-cent boost in the present 30-cent royalty is the main issue.

# Lorraine Youth Drowns Sunday South Of C-City

COLORADO CITY, Sept. 15.—Delwin Scarborough, 17-year old Lorraine High School junior, drowned in Champion Creek Sunday afternoon between 5 and 5:30.

The accident occurred about 20 miles south of Colorado City on the Bob Fee Ranch.

Six boys from Lorraine were swimming in the rocky pool, and Scarborough was holding to a log. The log slipped from his grasp and the youth became tangled in brush lying on the bottom of the creek. Two of his companions made efforts to rescue him but were unable to release him.

Mrs. Cullen Payne, an aunt, said one of the youths was Raymond Turnbow, but the others were not identified.

The fire department from Colorado City went to the scene accompanied by Sheriff Dick Gregory and Police Chief Sam Hulme. Gregory found the body in eight feet of water and brought it to shore. Sheriff Gregory said the boy drowned about five feet from the bank of the little creek.

Dr. Kenneth Cowan gave the cause of death as "death by drowning."

Survivors include his mother, Mrs. D. R. Van Cleave of Wichita Falls, his grandparents, Mr. and Mrs. A. J. Scarborough of Lorraine, with whom he had lived since a small boy; two step-sisters, Lena and Lou Van Cleave of Wichita Falls and a step brother, Don Van Cleave of the U. S. Army.

Funeral services for Scarborough will be held Tuesday at 3 p.m. from the Lorraine Baptist Church with the Rev. Wayland Boyd officiating and the Rev. G. A. McGee, assisting.

Burial will be in the Colorado City Cemetery under direction of Kiker and Son.

Funeral bearers and flower girls will be his classmates. Another survivor is his step-father, D. R. Van Cleave of Wichita Falls.

# Prussian Kings' Remains Brought Together In Reich

HECHINGEN, Germany (AP)—The bones of Frederick the Great and his father, Frederick Wilhelm I, rested in the 1,600-year-old hilltop Hohenzollern Castle here today after seven years of wandering.

Members of the old imperial family brought the caskets of the two great Prussian kings from Marburg for reburial yesterday. The hallowed national relics will remain here, the family said, until "Germany will again be ruined in freedom."

The family hopes to return the bodies eventually to their former resting places at Potsdam, now in Soviet East Germany. They were removed from there during World War II and hidden in a salt mine in Saxony. The American Army later moved them to Elizabeth's Church in Marburg.

# Korean Artillery Barrages Among Heaviest Of War

NEAR CAPITOL HILL, Korea, Sept. 15 (AP)—South Korean infantrymen are bearing the brunt of Allied fighting for Capitol Hill but American artillerymen are backing them up with thunderous barrages around the clock.

And it's not a one-way proposition. Chinese Reds are countering with some of their heaviest big-gun bombardments of the war.

Two sergeants recalled a narrow escape. James L. Spurlock, Port Arthur, Tex., and Louis R. Bates, Apison, Tenn., volunteered to take badly-needed small arms ammunition up to South Korean soldiers attacking on Capitol Hill. After delivering their cargo, the two sergeants started down the hill in the midst of an enemy artillery and mortar barrage. Their weapons carrier broke down. The heavy vehicle would not move. "It couldn't have happened in a more inconvenient place," said Spurlock. "It was right in the middle of that holocaust."

The two soldiers spent the rest of the night dodging Chinese shells. An American half-track from their battery finally broke through and rescued the sergeants.

# Explanation Makes Comnies Feel Better

TOKYO (AP)—The Chinese Communist radio in Peiping tonight came up with a handy explanation for the Chinese soldier who crashed through a barrier in a jeep Friday and surrendered to U. N. guards in the Panmunjom neutral zone.

The Red radio verdict: He was a United Nations secret agent all the time.

# FORD'S FIRST with the MOST!

## FIRST in POWER!

Ford's 110-h.p. Strato-Star V-8 is the most powerful engine . . . the only V-8 offered in a low-priced car! Ford's 101-h.p. Mileage Maker Six is the industry's newest, most modern Six!

**FIRST in RIDE!** For the first time, in the low-price field, you can enjoy a truly fine-car ride! Ford's new Automatic Ride Control with its diagonally mounted rear shock absorbers and new spring suspension gives you a bump-leveling, highway-hugging ride.

**FIRST in VISIBILITY!** New Full-Circle Visibility gives you the only one-piece curved windshield, plus car-wide rear window, in Ford's field. New I-REST tinted glass . . . available on Custom and Crestline models . . . guards against glare and reduces heat.

**FIRST in CHOICE!** Ford offers the widest choice by far in the low-price field. 15 models . . . 11 body styles . . . 2 engines: V-8 or Six . . . 3 transmissions: Fordomatic, Over-drive or Conventional . . . and the most body, upholstery and color combinations.

**FIRST with the NEWEST!** You'll find Ford has made more advances for '52 than any other car in its price field. You get new features like Power-Pivot Clutch and Brake Pedals, suspended from above, to allow more foot room, eliminate dusty, drafty floor holes. You get Center-Fill Fueling for easier gas filling from either side. F.C.A.

**Test Drive the '52 FORD**

**Big Spring Motor Company, Inc.**  
V. A. MERRICK  
500 W. 4th

The '52 Ford brings you more power, more comfort, more "looks" and more "can do" than any other low-priced car! You can see it in Ford's new, longer, wider bodies of modern design. You can feel it in Ford's smoother, more level ride . . . in Ford's 25% easier steering. And, you can sense it in the more spirited response of the '52 Ford—whether it's the 101-h.p. Six or 110-h.p. V-8!

This longer, lower style leader has the newest, most advanced body in the industry! It's styled to stay beautiful for years, and it's quality-built to stay young.

Ford offers the widest choice by far in the low-price field. 15 models . . . 11 body styles . . . 2 engines: V-8 or Six . . . 3 transmissions: Fordomatic, Over-drive or Conventional . . . and the most body, upholstery and color combinations.

You'll find Ford has made more advances for '52 than any other car in its price field. You get new features like Power-Pivot Clutch and Brake Pedals, suspended from above, to allow more foot room, eliminate dusty, drafty floor holes. You get Center-Fill Fueling for easier gas filling from either side. F.C.A.
