(PeeWee) Long, superintendent of the plant, said Saturday he would estimate approximately 300 bales will still be harvested from the 1965 crop. The crop to date is 14,000 bales at the compress yard (2,000 bales have been shipped) from the 1965 crop (last year's crop was 13,500 bales). The compress receives cotton from four gins, Dougherty, Roaring Springs, Matador and East Afton, and is not representative of the cotton produced in Motley County, since none is received from Flomot or Northfield communities.

Fast Plymouth Cut Down Here

FASTEST stock car in its wheel base class, a 1965 Plymouth, owned by the Big I Racing Enterprises of Corsicana, that attained a speed of 144 MPH in one-fourth mile, had its wheel base cut down in Matador.

David Badgett, Matador automobile body expert, did the body work in shortening the fast Plymouth's wheel base. The car was brought here January 6 and it required about 20 hours of Badgett's time.

The complete job of shortening the wheel base was contracted by Chadwick & Hardy Racing Engineers of Floydada. Other work in shortening the car was done by Don Hardy of Floydada.

Rear wheels of the car were moved forward 18 inches and the front wheels were moved forward 14 inches, shortening the wheel base 4 inches.

Only a few places in the entire United States specialize in cutting down the wheel base of automobiles. The body work done by Badgett has won high recognition, even in Detroit where the same type work is done.

In the world of racing stock car owners, the shortening of the wheel base is vital to performance. The cars are raced in all areas of the country, some as close as Childress and Amarillo.

TRAIL DUST

By DOUGLAS MEADOR

The right of dissension is a precious privilege of freedom; the exercise of it must account to responsibility.

A bold start is admirable but it gives the critics an advantage of chopping at weaknesses before they can be concealed beneath reinforced strength.

When all the trumpets of truth have sounded, the weak and the meek will be assigned to different and distinct paths.

With all the worries fate has been able to conjure up for this country today, an abundance is obvious. If there is room for one more, however, it could be that someone is collecting used television commercials for re-runs a few years hence.

The sands of time are reluctant to cover footprints left by the heavy feet of shame.

Work is like riding a merry-go-round, and not entirely unpleasant, except for the constantly re-occurring scenery.

Great wealth and great wisdom can produce poverty and non-entity if they are left in their respective vaults.

Once the hounds of ambition pursue one evasive hare too far they may be unable to return to the hunter.

Temperament is what remains in a character after all the pretense has been drained away.

Matador Triumphs; Two Turkey Teams

by Karen Elliott

In a thrilling second half the Matadors wrung the Turks, 78-59 to capture their second conference contest victory in Matador, Tuesday night, January 11.

The carefree home team lagged behind throughout the initial quarter until with only seconds remaining, Pete Richardson, scoring for the first time, sunk a 25 foot shot from the right side of center to bring Matador within 3 points of their opponents, for a 13-16 first quarter score.

Once unleashed, Richardson was impossible to check. During the next three quarters he bombarded the nets for 31 points, while Charles Meador, with 11 steals paced the defense to establish a torrid pace which led to the lopsided victory.

At the beginning of the second quarter, Meador laid in 2 to tie up the game 22-22, before Harold Case dropped in 2 of his nights 27 tallies to regain the lead for the Turks.

The lead changed five times in the next five minutes before Meador stole the ball, passed to Moore and Moore put it up to slip out front 43-42. Immediately after the Turks brought in the ball, Moore blocked Case's shot, Bynum stole the ball, was fouled and dropped in a free throw to spark a scoring spurt that kept Matador out front for the remainder of the game.

In the final period the Matadors outscored the Turkey five, 26-15, the final two coming on another long shot by Richardson, with only three seconds left on the clock.

Richardson drilled 59% of his field goal attempts for 33 points to win game scoring honors. Meador connected for 17 points to rank second offensively.

Moore with 6 recoveries and 6 rebounds, Cox with 1 recovery and 6 rebounds, and Bynum with 5 recoveries and 3 rebounds were instrumental in holding Case, Turkey's big gunner, to only 9 in the second half.

"B" BOYS BASH TURKS

The "B" boys basketball team romped its way to a 34-23 victory over the Turkey "B" earlier in the evening.

Mark Hill and Coy Franks led the scoring with 10 points each and Don Cox contributed 9.

The boys turned an 11-11 half time score into the seemingly easy victory.

Girls Cagers Crop Turkey

by Ann Marshall

Powered by Ruby Storey, with 19 points and Karol King with 14, the Matador girls nudged Turkey 40-30, to claim their second victory in district play and establish a 2-1 record.

Although the guards held the opponents' forwards to a mere 15 points during a fast first half, the Turkey defense manag-

ed to refute Matadors scoring efforts and hold the home team to only 21 points.

Both teams slowed the ball down in the second half. The offense increased their accuracy and the defense thwarted a weak rally spearheaded by Turk, Karen Arnold, to again outscore the Turkey team 19-15 and produce the 40-30 win.

Senior Spotlight

by Karen Elliott

Danny Ray Davis, a tall personable senior and the son of Mr. and Mrs. Homer Davis, is a popular young man around MHS.

Born March 1, 1948, in Wellington, he attended school in Northfield until 1958, when he enrolled in the fifth grade in Matador.

Danny's ability and his love for football have made him an outstanding player. This year the Matador co-captain was given honorable mention as end on the All-District team.

He enjoys agriculture and was vice president of the Matador Chapter of the Future Farmers of America last year. One of his most important honors while in high school was being chosen by the sister organization as FHA Beau in his junior year.

Danny enjoys trig, western music, car racing and all sports. He is undecided about what he would like to do after graduation from high school.

FHA To Pack Box For Vietnam Boys

by Shelley Stevens

In connection with an Area and State project, the Matador Chapter of the Future Home-makers of America voted to send a gift package to Americans in Viet Nam for Valentine's Day. Plans were made at the monthly meeting Wednesday, January 12, in the high school auditorium.

The group agreed to contribute the money individually for the postage on a package of food, magazines and other articles, which they would provide themselves.

Following the business, program chairman Jana Jones introduced a group of freshman girls who presented a skit en-

titled "Stay in School." Participating were Barbara Slover, Judy Marrs, Brenda Moore, and Kate Thompson.

A second skit giving the denotations of colors was presented by Joanie Barton, Pat Day, Karen Elliott, Wanda Lapham, Janie Killingsworth, Carolyn Perkins and Sharon Martin.

Flomot Trowned Matadors Tumble

by Karen Elliott

The Matador boys basketball squad squelched Flomot, 78-33, as it invaded the Flomot gym, Friday night, January 14.

The red and black grabbed a quick 22-10 first period lead which they increased to a 43-13 half time score.

The varsity played only three minutes of the third quarter before the second team took over and scored another 35 points to produce the 78-33 rout.

Pete Richardson was the big man on the boards both offensively and defensively, scoring 17 points and bringing down 11 rebounds.

Right behind Richardson in the scoring parade that featured every member of the team was Charles Meador with 14, Larry Bynum with 12, Dick Moss with 9, Dickie Shead with 8, Ronnie Cox with 6, John Shead and Don Cox with 4 each and Luis Moore and Jessie Perkins with 2 points each.

The team hitting 48% boasted two boys, Larry Bynum and Ronnie Cox, who hit 75% from the field.

FLOMOT FEMS FALL

The girls basketball team had an equally successful night, as they trounced the Flomot fens 52-25.

The trio of Matador forwards, behind the 18 point shooting of Karol King, had little opposition from the Flomot defense as they advanced from an 18-8 first quarter lead to a 30-21 half time score.

Guard Sharlene Berryman saw both ends of the court and scored 4 points for the Matadors while on offense.

Ruby Storey with 13, Shelley Stevens with 12, and Ella Brown and Glenda Sanderfer with 2 each rounded out the scoring.

Literary Land

by Larry Elliott

The late Ernest Hemingway, product of a shockingly middle class home, molded by the turbulent post war years, and spokesman for the "lost generation" of returning war veterans is one of the most controversial of modern authors.

His books are the leitmotif of the aimlessly drifting young people of the 1920's and 30's and have strongly influenced other authors; indeed, more beginning authors have copied Ernest Hemingway's style than any other writer's.

Hemingway has two main objectives in writing: to present

the crux of emotions affecting his characters at the time of the story, and to show that the irreplaceable qualities of manhood are not obscured by hard times or the hammer blows of an unsympathetic world. One of his themes which may be found in almost all his work is that the highest achievement of a lackluster life is to face death unflinchingly because death is a victory in that it is the final blow at a world which struggles to break good men. This theme is carried out in **A Farewell to Arms**, the story of a wounded soldier who receives a medal for bravery which he did not deserve because he was "blown up" while eating a piece of cheese, thus showing Hemingway's contempt for worldly fame.

The **Short Happy Life of Francis Macomber**, a short story which chronicles the saga of a man's battle to become a man, is often compared with Stephen Crane's **The Red Badge of Courage**. Another of his most outstanding works is **The Sun Also Rises**, which depicts three men and a woman searching for the true meaning of life without really looking.

Some critics feel that Hemingway's books will soon decline in popularity because he relies too heavily on emotionalism. While it is true that if the reader fails to grasp the emotion which Hemingway has endeavored to convey, he will miss the theme of the book and think of Hemingway as merely a shallow writer. It is a lack of emotion on the reader's part that results in dissatisfaction with books such as **The Sun Also Rises**.

At any rate, if Hemingway is not remembered as the Homer of our time, his terse journalistic style and vivid pictures of the average man, bewildered by an unsympathetic world, will continue to have a paramount effect on the authors of this generation as well as be an inspiration to his readers.

Mavericks Nudge Childress Kittys

by Shelley Stevens

Matador's Mavericks met the Childress Bobcats, Monday night January 11, in the Matador gymnasium to offset the opposers' 37-30.

The Maverick boys outscored the Bobcats in all but one quarter, the third, in which the "Kittens" made 13 points to their 9. In the first quarter the Mavericks made 8 to Childress' 5; in the second, 9 to Childress' 6 and in the fourth 11 points to the "Kittens' 8."

Top scorers were Ronnie Wellington with 10, Jackie Bynum with 9, Don Ray Sims with 8 and Darrell Cruse with 7.

Exciting news from FRIGIDAIRE ELECTRI-CLEAN OVEN!

From dirty... to clean AUTOMATICALLY

- Q. What happens to the dirt?
- A. The Electric-Clean oven heats up to about 900°. At this temperature oven soil is turned into a loose ash and vapor. The vapor is vented thru a special air purifier.
- Q. How can it clean the racks & drip bowls?
- A. Frigidaire uses a special heat resistant porcelain enamel for both the oven liner and cooking and drip bowls. The racks get cleaned right along with the rest of the oven.
- Q. Is there any hand cleaning left to do?
- A. Possibly there will be a small amount of loose ash that may remain after cleaning. This can be whisked out easily.
- Q. What about safety features?
- A. As soon as the temperature rises above broiling heat, oven double locks itself. It can not be re-opened until the temperature returns to conventional oven heat. Frigidaire uses extra insulation and its electrical system and high heat process are UL approved.
- Q. How expensive is it to operate?
- A. This full-size oven cleans itself for about the price of a cup of coffee—much less than the cleaning cost of special chemical oven cleaners.

This unique Frigidaire Range may seem too good to be true. But, true it is and you may see it at your nearest WTU showroom.

COUNTY AGENT PALLMEYER SAYS:
ECONOMIC OUTLOOK FOR HOGS IN 1966: The June-November 1965 pig crop, which provides most of the slaughter supplies in the first part of 1966, is probably down 7 to 8 percent from a year earlier. Supplies may further be curtailed as producers hold back large numbers of sows and gilts for breeding during the early part of 1966. However, poultry supplies are expected to be up substantially during the first half of the year putting some downward pressure on hog prices. Supplies of meats other than pork are not expected to be much different from last year, and it appears that prices during the first half of 1966 will average above the same period in 1965.

For the last half of 1966, hog producers may be halting the downsizing in production. Producers reported intentions on Sept. 1, 1965 to have the same number of sows farrow during Dec. 1965-Feb. 1966, as in these months a year earlier. This is a marked change from the reduced production so far in 1965. A further indication of a production expansion is the recent drop in sow slaughter. In recent months, sow slaughter has been down about 25%.

Hog prices later in 1966 will depend primarily on how quickly the apparent expansion in hog production develops and how large it is. If there is only a modest increase over 1965 farrowings in the late spring of 1966, there would be only a slight increase in production by late 1966. Prices would likely decline slightly below the levels of the fall of 1965.

Based on past patterns in production cycles, there is a real danger of over expansion and low prices in 1967. If producers increase farrowings late in the spring and in the fall of 1966

by 10% or more, hog prices likely will drop sharply by late 1966 and in 1967. * Provided by John McHaney, Extension Economist.

The best time to prune trees depends on the reason for pruning. Deadwood can be removed from trees at any time without injuring them. Spring pruning, however, is recommended when doing correctional pruning, since the wounds heal faster than at other times of the year.

If your objective is to increase fruit and bloom set, prune before the blossoms form in mid-summer. If you want to decrease the number of blossoms, prune before they bloom after the blossoms have set.

Pruning in the early fall tends to reduce plant hardiness and in general, is not a good practice. Evergreens should not be sheared in late summer or fall as the cut ends will not heal over until spring. Dead branches can be removed now.

I have a supply of the 1966 edition of Farmers Tax Guide, which are available for the asking.
