

First Step Taken To Get Industry

"We want industrial development!" That was the cry of the citizens of Matador at a public meeting held Wednesday, February 10, in the Motley County Courthouse.

Nearly one hundred residents attended the meeting which was called by the Matador Community Planning Committee. The committee, appointed recently by city officials, called the meeting to see what the residents felt were the major needs of the town.

Because of a recent survey, in the form of a questionnaire, filled out by the residents, the committee had listed six major areas of concern. They were housing,

streets, industrial development, sewer, water and general appearance.

Mayor Kirby Campbell told the assembly, the number one concern should be an all out effort to get industry to come to the city, and most of the residents were in agreement according to a show of hands. However, County Agent Jerry Cummins pointed out there were things which had to be done before an industry would consider this area.

"The first thing an industry looks for is community improvement," Cummins said. This includes enthusiasm of people and physical

appearance. They are looking for a pleasant and attractive atmosphere.

Cummins said an industry would want to know about utilities, transportation, construction and insurance, sites, building and zoning, financing, labor supply and population trends, resources and services, education and training, government and taxes (want to know tax rate) and general living conditions.

General living conditions include housing, living cost, recreation activities, medical services and religious and civic organizations.

According to committee chairman Alan Bingham, SPAG has a program available to cities under 5,000 population. It is made available through Farmers Home Administration, and if Matador qualifies, the program could help the city with problem areas, such as street improvement, which was high on the

citizens lists of areas in need of attention. The city council and the county commission have pledged their support to the planning committee on whatever direction it takes.

It was also brought forth that the city had recently applied for a grant to improve the sewer system here, but Matador did not

qualify. Campbell said the council would keep trying to get the grant.

It was decided that in the areas of physical appearance, the residents would take it upon themselves to begin cleaning up their lots and around buildings and fence lines. The county and city governments said they would help

residents where and when they could. Community clean-up days may be organized in the future, the committee said.

Committee members were well pleased with the attendance and interest shown at the public meeting, and said they felt they had a starting point now to begin planning the

communities improvement in problem areas.

They also said they hoped an industrial team could be appointed soon to begin looking for prospects.

Special guest at the meeting was Sylvester Cantu, director of community development of South Plains Association of Governments.

Local Varsity Teams Capture District Crowns

The Motley County boys and girls varsity basketball teams have each won their District Championships, according to Danny James head coach of the boys varsity.

The girls will face New Home at Lorenzo at 7:30 p.m. Tuesday, Feb. 23, for the Bi-District title. The boys will face Smyer at 7:30 p.m. Monday, March 1, in Hutchison Center at Wayland

Baptist University in Plainview.

Each of the teams will play practice games before entering into Bi-District action.

The girls will play Roby at Guthrie on Thursday, Feb. 18, beginning at 6:30 p.m. The boys will face Roscoe in a practice game at Jayton on Monday Feb. 22, beginning at 7:30.

The girls team

finished the season with a record of 17 wins and six losses, while the boys turned in a 16-4 season.

Members of the girls' varsity are Jeanette Moore, Shelley Jackson, Kim Campbell, Vivian Sims, Darla Dempsey, Deanna Durham, Dixie Nimmo, Derinda Cruse, Carlene Luckett, Teresa Fore, DeAnn Phillips, Holly Hobbs and Renee

London.

On the boys team are Harvey Lee, Tim Shannon, Glen Calvert, Wesley Stafford, Darrell Moore, Jerry Long, Roy Thompson, Shawn Bearden, Brent Campbell, Bill Luckett, Clayton Sims and Kyle Hardin.

A Pep Rally has been scheduled for 3 p.m. Tuesday at the high school, and all Motley County fans are urged to attend.

PTA Makes Plans To Improve Playground

Plans for improving the playground, the project currently underway by the PTA, will be discussed at the February 22 meeting of the organization. An update on how the project is progressing will be given to members.

Playground committee members met with the city council this month to discuss the feasibility of closing the

street which runs east to west at the south end of the school during the hours of 11:00 a.m. until 1:00 p.m. on school days.

These hours are the time of day when all of the students in grades kindergarten through sixth have outside play time. Both the present playground and the vacant lot south of the street could be included in plans if this street

closing could be put into effect. The hard surface could then be used for skating and activities which require a hard surface.

The city council plans to permit the school to close the street from 11:00 a.m. until 1:00

p.m., Monday through Friday, during this spring semester in order to test the effects of re-routed traffic. If no problems arise, they feel that by fall the street could be closed during this major play time for the children.

Notice Of Meeting

A regular meeting of the Motley County PTA will be held Monday night, February 22, at 7:00 p.m. in the school cafeteria.

On the agenda as old business will be the discussion and voting on the subject of dissolution of the chapter. It is important that all members be present for this vote to insure compliance with the national PTA rules for dissolution.

Junior High Cagers Win District Titles

The Motley County eighth grade girls defeated Patton Springs last Monday night to become the District Champs in Junior High School Basketball. The local young ladies finished with a 16-4 season.

Members of the championship team are Kim Hand, Kim Phillips, Tammy Brown, Danielle Wittler, Shawna Campbell, Koree Campbell, Dena Renfro, Loretta Cross, Selma Aguilar, Amy Miller and Janete Block.

The seventh and eighth grade boys team had a 9-win, 10-loss season but were 5-1 in district play to also become district champs.

Team members include Brandt Bearden, Cody Christian, Micky Zarate, Richard Potts, Darryl Perryman, James Bearden, Shannon Winn and Paul Block. Also on the team are Rodney Doran, Mark Roys, Jeffery Burkes, David Zarate, Shannon Vinson and Kenneth Garst.

HOME BURNS -- The home of Bill Martin, former Matador resident, was completely destroyed by fire Tuesday, after the family was reported to have "barely escaped". Martin's 16 year old daughter, Billie, is credited with saving the family after she awoke at 12:30 a.m. and heard the fire crackling. Other members, besides Bill and Billie, in the house were Mrs. Rose Martin and Ricky, age 10. Bill received second and third degree burns. The home was located on the Trammel Ranch at Hamlin. Persons wishing to make donations to help the Martin family may do so by contacting Mrs. Clayton Thomas.

A Second Glance

By Leon Watson

A new era may have begun in Matador last week as citizens met with the newly formed planning committee. The residents said they wanted Matador to grow, and now someone is doing something about it.

The city council and county commissioners were there and pledged their support to the committee. You got the feeling that the community was pulling together and determined to stand shoulder to shoulder to face common problems before them.

Everyone at the meeting wasn't in agreement, that was evident. But whoever wanted to could stand up and say his mind.

And ground was covered in leaps and bounds. Problems were discussed and I think a few eyes were opened.

I believe a new era of progress has taken roots here, all because some local people decided to take action. I just hope it is not the last community meeting, with city councilmen and county officials attending. But most of all "you" must attend. Without the citizens of Matador getting involved in this project it is not going to have the same great effect.

"You" the backbone of the city, must let your voice be heard.

Let us try to feed the flames of enthusiasm born last week.

Predicta Study Club Holds Regular Meeting

The Predicta Study Club met for regular monthly meeting in the Roaring Springs Depot on January 21. Mrs. J. M. Thacker, president, presided at the business meeting. Mrs. R. C. Clem gave a devotional. Mrs. Thacker read a poem about club women.

A workshop was conducted by Mrs. Thacker and Mrs. Clem on reporting. The chairmen of each

division was given help by other members, on preparing their reports.

Hostesses for the evening were Mrs. L. M. Miller, Mrs. Ossie Lee Brown and Miss Lula Swim. Delicious refreshments were served to the above mentioned and Mesdames Ruby Myles, Pearl Palmer, Lee Peacock, Venita Sedgwick, Joyce Smith, Lillian Thacker, Mamie Yeates and Miss Freda Keahy.

Bon Voyage Coffee Honors Mrs. Welling

A bon voyage coffee honored Mrs. F. H. Welling Monday, February 8 in the home of Mrs. R. E. Donovan, co-hosted by Mrs. Robert Darsey.

Centerpiece on the dining table was a beach scene, with a large coral shell holding a coconut palm tree, ship, hula dancer and ukulele player. It was flanked by a mermaid among various kinds and sizes of shells and sand (picked up by Winifred on the Texas Coast at Freeport). On the coffee table was an arrangement of wood roses accented by two Hawaiian figurines.

Guests were served Hawaiian lemon bread, finger sandwiches, marinated pineapple chunks, pickled mushrooms, sausage, spinach and cheese balls, and coconut cake (specialty of Winifred), coffee and tea punch.

About twenty-five guests called during the morning. The hostess gift was a Travel Log.

Mrs. Frank Pohl

created a guest register in her inimitable style - each page with an appropriate song title and musical notes - for a tour of the islands.

Mr. and Mrs. F. H. Welling departed Wednesday morning for a ten day tour to Hawaii - with visits to three islands - a Christmas present from their children, Mrs. Wayne James (Peggy) of Arlington, Jimmy Welling of Broken Arrow, Okla., Frank and Ronnie of Amarillo and Gary of Paducah. The children planned a clever and unique way of surprising their parents with this tour.

On Christmas morning as presents were being distributed from the tree, there were several special boxes for Irene and Freddie. First was suntan lotion, in the second box were two woven fans, then a page torn out of a calendar with February 11 circled. Then Gary presented his parents with fresh flower leis. A tape recording of Hawaiian music was being played during this time. Finally the tickets, in travel folder envelope were presented. A great surprise from most thoughtful children.

Energy Saving tips on Electric Heating.

Check your thermostat setting. Recommended temperature setting for winter heating is 68°. Remember, the lower you set the thermostat in the winter the lower your energy cost.

Have your heating system checked regularly! Proper servicing is good preventive maintenance.

Keep filters clean. Check the filter every 30 days on forced-air systems. If filter is permanent, clean it by manufacturer's directions, if it's disposable, replace when dirty.

Have your home properly insulated! Adequate home insulation keeps the warmth in, cuts energy use... can pay for itself by lowering heating (and cooling) costs.

Use the warmth of the sunshine! On sunny days open the drapes. The sun shining through the glass will supply additional heat at no cost.

Remember, Reddy Supplies the Energy, only you can use it wisely!

Serve Rice In Many Ways On Different Days

One of the nicest things about that universal favorite—rice—is that it can be made into dishes to serve today, reheat tomorrow or freeze to be baked months later.

A grain that's been around for thousands of years, rice adapts itself perfectly to modern cuisine and modern cost-conscious food budgets.

You might like to try this nourishing dish that makes enough for a meal now and one for later.

BEEFY NOW 'N' LATER CASSEROLE

- 2 pounds zucchini, sliced (about 2 quarts)
- 1 pound lean ground beef
- 1 teaspoon salt
- 1/4 teaspoon each ground black pepper and garlic powder
- 1 cup finely chopped onions
- 3 cups cooked rice
- 1 can (4 ounces) chopped green chiles
- 2 eggs, slightly beaten
- 1-1/2 cups cottage cheese
- 2 tablespoons grated Parmesan cheese
- 2 cups grated Cheddar cheese

Beef, zucchini and rice make a hearty casserole that freezes beautifully for make-ahead meals.

Cover and cook zucchini in small amount of salted water about 5 minutes. Drain thoroughly and set aside. Cook beef, seasonings, and onions until meat is no longer pink and onions are tender crisp. Combine with rice, green chiles, and zucchini. Blend eggs, cottage cheese, and Parmesan cheese. Stir into meat mixture. Turn into two buttered shallow 2-quart casseroles. Top each with 1 cup Cheddar cheese. Bake one at 350° for 30 minutes. Wrap and freeze the other for later use. Each casserole makes 6 servings.

Bearden - Green Vows Exchanged

Mrs. Rickey Green
(Jackie Bearden)

Marriage vows were exchanged at 2:00 p.m. Saturday, January 23, 1982, between Miss Jackie Elizabeth Bearden and Mr. Rickey Norris Green in the First United Methodist Church, Matador.

Rev. Gary Hillyard, pastor of First Baptist Church, Matador, officiated the double-ring ceremony.

Parents of the couple are Mrs. Betty Bearden, Mr. Jack Bearden, and Mr. and Mrs. Ted Green, all of Matador.

Vows were exchanged before an arched rainbow centered with cherubs and wedding bells. Baskets of pink, yellow and blue carnations were placed on each side of the altar. The aisles were marked with pink, yellow and blue bows.

Guests were registered by Miss Deanna Durham of Matador.

Ushering the guests were Shawn Bearden, nephew of the bride and Keith Paschal, both of Matador, and David Seigler of Paducah.

Mrs. H. R. Jameson, pianist, presented traditional wedding music and accompanied Stanley Martin as he sang, "You Needed Me", and "The Twelfth of Never".

The bride, given in marriage by her brother, Billy Osborn, wore a formal length gown of white organza fashioned with a high Victorian neckline edged in Chantilly lace. The Empire bodice had an overlay of lace adorned with seed pearls. The full Bishop sleeves has scattered

lace motifs and wide bands of lace at the wrist. The A-line skirt had ruffles that cascaded into a chapel length train. The Juliet cap was of matching lace and pearls holding a chapel length, lace edged veil of imported illusion. She carried a cascading bouquet of baby's breath and pink, yellow and blue carnations.

The bride wore a pearl necklace belonging to her late grandmother for the traditional something old, something new was a diamond necklace given to her by the groom, something borrowed was her wedding gown and something blue was her garter made by Mrs. Morris Stephens.

Miss Sharla Green, sister of the groom, of Matador, was the Maid of Honor. Mrs. Dean Osborn, sister-in-law of the bride, of Floydada, was Matron of Honor. Bridesmaid was Miss Sherry Green, sister of the groom, of Matador.

They wore floor length dresses of pink, yellow and blue chiffon and wore matching flowers in their hair. They carried a single long-stemmed daisy.

Amy and Kayla Ramsey, daughters of Mr. and Mrs. Dwight Ramsey, and cousins of the groom, of Silverton, were flower girls. They wore floor length dresses of pink and blue and wore matching flowers in their hair.

Best man was David Green, brother of the groom, of Vernon. Groomsmen were John

Nimmo of Dallas and Kenny Rose of Amarillo.

The groom wore a pale blue suit and wore a white boutonniere. The best man, groomsmen and ushers wore suits of assorted colors and wore white boutonnières.

Mrs. Bearden, mother of the bride, wore a street length dress of orchid knit and wore a

carnation of pink, yellow and blue.

Mrs. Green, the mother of the groom, wore a street length dress of turquoise sheer crepe with long full sleeves, and wore a pink, yellow and blue carnation.

A reception was held in the Fellowship Hall of the church after the ceremony.

The bride's table was covered with a white lace cloth. The three-tiered wedding cake was decorated with pink, yellow and blue daisies and topped with the traditional miniature bride and groom. Punch, cake, nuts and mints were served from crystal and silver appointments.

Serving at the bride's table Miss Lucretia Johnson, of Vernon and Miss Darla Dempsey of Flomot.

The groom's table was covered with a white lace cloth and centered with a guitar-shaped chocolate cake made by Mrs. Billy Osborn, sister-in-law of the bride, of Matador. Serving at the groom's table were Mrs. Billy Osborn and Miss Lisa Payne, cousin of the bride, of Quitaque.

Others in the house party were Mrs. James Bearden and Mrs. Ros Bearden, sisters-in-law of the bride, Mrs. Olive Russell, and Mrs. Pete Williams, all of Matador, and Mrs. H. R. Jameson of Whiteflat.

For traveling the bride wore a pink cotton peasant dress with embroidered multi-colored roses with white

accessories.

After a wedding trip to Vernon the couple are residing in Matador.

The bride is a 1980 graduate of Motley County High School and attended Vernon Regional Junior College.

The groom is a 1975 graduate of Motley County High School and is employed with his father as a carpenter and painter.

Rehearsal Supper

A rehearsal supper was given by the groom's parents, Friday, January 22 in the Fellowship Hall of the United Methodist Church. The honored couple presented their attendants with gifts.

Attend Wedding From Out Of Town

Those attending the wedding from out of town were Mrs. Ocie Tomison and Bobby Tomison of Paducah; Bunnie Zabielski and James Stephens of Levelland; Jeana Smith, Mr. and Mrs. Allen Brummett, Mrs. Lonnie Payne and Linda, all of Quitaque; Mrs. Olene Edwards of Turkey; Mr. and Mrs. Dwight Ramsey and Bryan of Silverton; Mr. and Mrs. Don Green, Robby and Chad, and Mr. Dean Osborn, James, Robert and Casey, all of Floydada; Mr. and Mrs. Robert Pritchett of Lovington, New Mexico; Mrs. Ray Allen of Andrews; Craig Clifton and Randy Hunter of Vernon; Pam Francis of Lubbock, and Mrs. Carolyn Johnson and Kayla of Flomot.

Dodd -- Garriott Marriage Announced

Marcy Lynn Dodd and Robert Keith Garriott were married in a candlelight ceremony at 7:00 p.m. in the Rice Chapel, Houston, Texas, on January 9, 1982. Marcy is the daughter of Mr. and Mrs. William Hussey of Kirkland, Washington and the granddaughter of Mrs. Clay Gilbert of Matador.

Robert is the son of Mr. and Mrs. Owen Garriott of Nassau Bay, Texas.

The maid of honor was the bride's sister, Karen Rhea Dodd. Serving as best man was the bridegroom's brother, Dr. Randall Garriott.

The bride wore an ivory chiffon gown with chapel-length train, trimmed in Alençon lace. The bridesmaids wore rose and burgandy.

Following the ceremony a reception was held at Brennan's Restaurant.

Dominique Dotts, daughter of Mr. and Mrs. Burlie Bowen and cousin of the bride, presided at the bride's book.

Mrs. Robert Keith Garriott
(Marcy Lynn Dodd)

Marcy works for Bell Laboratories and Robert attends the Sloan School of Management, MIT.

After a honeymoon in Cancien, Mexico the couple are residing in Andover, Mass.

The couple each received Bachelor of Science degrees in electrical engineering from Rice University. They also received Masters of Science degrees from Stanford University.

Services Held For F. C. Childers

Funeral services for F. C. Childers, 69, of Afton were conducted at 2:00 p.m. Friday, in the Mt. Zion Baptist Church in Roaring Springs. Rev. J. C. Darty, pastor of the New Hope Baptist Church in Shallowater and Rev. B. L. Anderson, assistant pastor of the Mt. Zion Baptist Church, officiated. Burial was in the Dickens Cemetery under the direction of Seigler Funeral Home.

A native of Falls County, Texas, Mr. Childers moved to Dickens County in 1955 from Falls County. He was a farm laborer.

Mr. Childers married the former Minnie Royal in April of 1936 in Falls County. He was a member of the Mt. Zion Baptist Church and was a member of the J. L. Mann Masonic Lodge Number 1280.

He is survived by his wife, Minnie, and several neices and nephews.

Claude Harp Rites Held At Childress

Services for L. C. (Claude) Harp, 81, longtime Matador resident and former merchant, were conducted at 3 p.m. Sunday in Schooler-Gordon Funeral Chapel in Childress.

Burt Perry, minister of Fairview Church of Christ officiated and burial was in Childress Cemetery.

Mr. Harp passed away Friday, Feb. 12 in a Childress nursing home, where he had been a patient for several days. He had resided in Zapata the past 12 years, dividing his time between there and his home in Matador.

He was born July 9, 1900, in Wichita County and married Jewell Brown, January 13, 1920 in Wichita Falls. She passed away in July, 1954.

They moved to Matador in 1925 where Mr. Harp assumed management of Matador Hdwe. & Furniture Company. He later became owner, and operated the business until the early 1960's when he sold it to M.

S. Thacker. He was a life member of Matador Lodge No. 824, AF&AM, and a member of the Scottish Rite of Dallas Consistory. He was a member of Matador Church of Christ, and was a charter member of the Matador Lions Club.

Mr. Harp married Helen Howard in 1955, in Childress. Due to his health problems, they began going to Zapata about 20 years ago, and established residence there in 1970.

Survivors include his wife; a daughter, Ann Rondeau of Houston; a sister, Mrs. Ova Prior of Amarillo; three grandchildren and one great-grandchild.

Serving as pallbearers were Alfred Barton and Billy Wason, Matador; Bill Simpson, Northfield; Andy Harp, Joe Howard and Kenneth Ellis of Childress. Named Honorary Pallbearers were Jack Williams of Plainview; John Irwin, R. C. Giesecke and C. M. Barton of Matador.

Grassed Waterways Management Needed

By Rodney F. Williams

Grassed Waterway Management, in Motley County, is a needed practice on areas shaped and seeded to control water erosion. Many washes in cropland fields have been shaped to a stable grade through assistance from the Soil Conservation Service in Matador. These areas are shaped to carry runoff in a confined area in order to prevent wandering throughout the field and further erosion damage.

The seeding of the area after shaping and the management of the grass after a stand has developed is critical if the waterway is to work

as designed. Seeding of blown out areas or areas that did not establish is the first step. Fertilizer is also recommended to help the grass establish as quickly as possible.

Mowing of the grass is also recommended to create a cover of litter on the soil surface. This litter cover will help protect the soil from further washing and blowing. Weed control is also recommended when needed to allow the grass to grow with competition.

Assistance in Grassed Waterway Management is available from the Soil Conservation Service personnel in Matador.

Reduce Production Costs With Conservation Tillage

By Kevin L. Wright

Conservation tillage appears to be the most effective method of controlling erosion of the nation's cropland Norm Berg, Chief of the USDA Soil Conservation Service, said in an editorial in the January issue of *Soil and Water Conservation News*.

"Conservation tillage alone is not the total solution to erosion problems, but leaving adequate amounts of crop residue on the surface year round can reduce sheet, rill and wind erosion as much as 90 percent" Berg said. "Under some conditions, conservation tillage must be applied as part of a complete conservation system. It must compliment a system of terraces, grass waterways, diversions, and other needed practices in some areas."

headed technical assistance in many areas to get this practice started.

Kevin Wright, Range Conservationist for SCS at Matador said farmers in the local Upper Pease Soil and Water Conservation District who use conservation tillage can eliminate as many as four tractor trips to reduce production costs for a crop.

Several farmers have implemented conservation tillage systems with cotton. With the use of selected herbicides such as paraquat, farmers are sweeping interseeded rye and planting cotton directly into the crop residues. This eliminates costly tillage trips and reduces wind and water erosion. More research is needed to learn how to use conservation tillage systems and learn of their additional benefits.

The Chief speculated that some form of conservation tillage can be applied to every acre of cropland in the United States. He said there is a definite trend away from using the moldboard plow, and U.S. farmers seem to be increasingly aware of the benefits of reduced tillage systems.

Conservation tillage has grown from 26.7 million acres in 1972 to an estimated 98.8 million acres in 1981. The SCS has spear-

There are several conservation tillage systems available to farmers regardless of their crop. The foundation for practice, however, is to leave crop residues on the surface, and eliminate plowing and other soil preparation steps.

Growers interested in conservation tillage systems are advised to consult with the local Soil Conservation Service in the Motley County courthouse.

Selective Service Lists Available To The Public

The Selective Service System is continuing to make available for public inspection lists of registrants and their tentative local board assignments. This is in keeping with the intent of Selective Service that its procedures be open to the public.

The list may be viewed at the Motley County Courthouse.

The lists cover registrations processed through September 30, 1981, and include men born in 1960, 1961, 1962, and 1963. Local board assignments are arranged by ZIP code based upon the registrant's permanent address, according to Vann Francis.

The requirement to register applies to U.S. citizens, and to aliens residing in the United States, born on or after January 1, 1960. Men born in 1960 and 1961 were scheduled to register during July 1980; men born in 1962 were scheduled to register in January 1981; those born in 1963 were scheduled to

be registered during 1981. Men born in 1964 are required to register within 30 days of their 18th birthday. They may do so at any U.S. Post Office.

On January 7, 1982, President Reagan announced his decision to continue peacetime Selective Service Registration. In announcing his decision, the President declared a grace period during which late registration would be accepted without penalty. That grace period extends through February 1982.

Anyone who was scheduled to register previously but has not yet done so is encouraged to register immediately at any U.S. Post Office in order to avoid any possible penalty.

For further information on this subject, contact Paul D. Aikin, State Directors for the Selective Service System in Texas. He can be reached at telephone number 214/784-7593.

PIERCED-EAR PROBLEMS

Wearing earrings, or at least a single earring, has become fashionable for both sexes, and nowadays more and more people, both men and women, are having their ears pierced.

Piercing the ears is actually minor surgery, and in some states can only be done legally by a physician. Other localities have no restriction, and free ear piercing with the purchase of a pair of earrings is not unusual. From the customer's point of view, of course, the price is right, but bear in mind that a jeweler might be ignorant of sanitary precautions that are second nature to a physician.

OK, let's assume that you have to get your ears pierced or all your friends will consider you an old stick-in-the-mud—how can you protect yourself against possible complications?

First of all, I advise strongly that you have the job done by a physician. Many have the same type of ear punch the jewelers use—the difference is that the doctor's is more likely to be surgically sterile.

After the "trainer" earring is in place there is bound to be some soreness and slight discomfort. This can be relieved by applying Campho-Phenique first aid gel, a soothing antiseptic preparation that is available without a prescription.

Twice a day, at least, wash the front and back of your earlobes with soap and water. Alcohol is not advisable.

You will be wearing the same earrings for about six weeks at first. Do not neglect to turn them several complete revolutions several times daily. A little Campho-Phenique at these times makes twirling the earrings more comfortable.

Finally, should there be any signs of infection, get medical help promptly. Most pierced ears heal uneventfully, but those that don't might indicate a serious disorder. Consult your physician at once.

Cities Receive Checks For Sales Tax Payments

State Comptroller Bob Bullock Thursday returned \$106.4 million in local sales tax payments to 954 cities who levy the one-percent local tax.

"This is the biggest single payment since city sales tax rebates began in 1968," Bullock said.

The \$106.4 million payment requires a 16 percent jump over last February's checks, which in turn had grown 16 percent over the previous February. Payments so far in 1982 are running 13.2 percent above last year's January-February total.

"This increase is higher than inflation and population growth put together," Bullock said, "and at least part of this rise has to come

from our work making sure these cities get every penny of sales tax that's coming to them."

Matador received \$3,548.55, compared to \$3,796.58 for this time last year, down 18 percent from last year.

Roaring Springs received \$2,325.04, and Quitaque received \$2,367.60 this period.

Paducah received a check for \$9,997.02 up 55.24 percent over last year. Floydada's check was for \$14,635.90 and Dickens received \$2,848.86 up 16 percent over this time a year ago.

The biggest check—\$22.4 million—went to Houston, up 23 percent over last February's check.

Dallas received \$11.1 million, compared to \$10.5 million for the same period last year.

San Antonio's check for \$5.7 million was up 16.9 percent from last February.

Austin received \$3.4 million, compared with \$3.3 million in February last year, and El Paso received \$2.4 million, up 8.9 percent from the check that city received in February, 1981.

Bullock also forwarded February rebates to the state's two Metropolitan Transit Authorities. The Houston MTA received \$24.9 million for the period and the San Antonio transit authority received \$3.3 million.

The city and MTA sales taxes are collected along with the state sales tax by merchants and businesses and rebated monthly to the cities in which they are collected by the Comptroller.

espresso FACTS & FANCIES

Espresso and other varieties of coffee hold a firm place high on the beverage list for most Americans. The average American drinks nearly three cups of coffee a day and the experts tell us that seven out of ten Americans over the age of ten prefer coffee, especially as a winter drink.

Coffee ground for making espresso is much denser than that for drip or percolator pots. The water is heated to a high temperature, then is forced under pressure through the grounds to the bottom of the espresso pot.

The British, known for its snap to bring a generations as tea drinkers, bit of Italy into your kitchen have slowly converted to a new Micro 21 coffee and one of the Espresso Coffee Maker. The world's highest arson rate is in the U.S. where 25% of all fires are intentionally started.

Fire experts estimate that more than 600,000 fires per year are the work of arsonists.

More than half of all arsonists arrested during the 1970s were under 18 years old. More than 10% of those were under age 10.

According to Figgie International's "Automatic" Sprinkler Corporation of America, less than 1% of all arsonists are convicted.

Quality care is...
Good, Home-Cooked Food

Food. It's such a simple thing, you probably take it for granted. But in our nursing home, we can't. We care about nutrition. We care about variety. About freshness. We care about serving a good breakfast, a hearty lunch and a solid dinner.

On our staff are people trained to develop a careful dietary plan for every resident. And we prepare our meals the way they're supposed to be. As good as home-cooked. Our food isn't just institutional food, because we are a home. We have to satisfy some of the most experienced cooks around — our residents.

Good food is only a small part of nursing home care. But it's an important part. For nutrition. For healing. For making our residents feel at home.

We try to put just as much care into everything we do. That's what total care nursing is all about.

Come and visit, and share a good home-cooked meal at our home.

The proposed changes in rates will affect all customer classes and are designed to increase the Company's intrastate revenue by 24 percent.

A complete set of revised rate schedules has been filed with the Public Utility Commission at Austin, Texas, and is available for public inspection in each of the Company's Business Offices in the State of Texas. A summary of the Company's rate filing has also been sent to the Mayor's Office of each affected Municipality.

PUBLIC NOTICE

Notice is hereby given that Dickens Electric Cooperative, Inc. (The "Utility") intends to change rates for electric utility service effective March 1, 1982, or as soon thereafter as permitted by law. The changes are applicable to all areas to which the utility provides electric utility service. All classes of customers are affected by the proposed changes. The proposed rates will effect a 14.94% increase in the gross revenues of the utility based upon the twelve-month period ending June 30, 1981 as the test year.

The utility intends to change its service rules and regulations including rules relating to obtaining service, line extension and line extension charges, the provision of electric service, service fees, and discontinuance of service.

Implementation of the proposed changes is subject to approval by the appropriate regulatory authority. A statement of intent including the proposed revisions of tariff and schedules and a statement specifying in detail each proposed change, the effect the proposed change is expected to have on the revenues of the utility and the classes and numbers of utility consumers affected is on file with the Public Utility Commission of Texas.

The statement of intent is available for public inspection at the General Office of the utility located at P.O. Box 309, Spur, Texas 79370.

Peaches And Cream Fill Biscuits

If traditional peaches and cream are a favorite with your family, Creamy Peach Biscuit Puffs are sure to be a hit. Convenient refrigerated flaky biscuits enclose a cream cheese filling, flavored with peaches and pumpkin pie spice. The quick, simple dessert is glazed and topped with a peach slice, and can be served warm or cool.

CREAMY PEACH BISCUIT PUFFS

- 3/4 cup sugar
- 1 to 1 1/2 teaspoon pumpkin pie spice
- 8-oz. pkg. cream cheese, softened
- 3/4 cup canned peach slices, well drained and chopped (reserve syrup and 10 peach slices)
- 10-oz. can Hungry Jack refrigerated flaky biscuits
- 1 to 2 tablespoons peach syrup

Glaze

- 3/4 cup powdered sugar
 - 1 to 2 tablespoons peach syrup
- Heat oven to 375°F. Grease a cookie sheet. In medium bowl, combine sugar and spice; reserve 1 tablespoon. Add cream cheese to remaining sugar mixture; blend well. Stir in chopped peaches. Separate dough into 10 biscuits; press or roll each to a 5-inch circle. Spoon about 2 tablespoons peach mixture onto center of each biscuit. Pull edges of dough to top center; twist firmly and pinch to seal. Place on prepared cookie sheet. Brush top of each with peach syrup; sprinkle with reserved sugar mixture. Bake at 375°F. for 12 to 15 minutes or until tops are golden brown. Remove from cookie sheet while warm. Combine Glaze ingredients until smooth; drizzle over warm rolls. Garnish with peach slices. Serve warm or cool. Refrigerate leftovers. 10 pastries.

NEWS OF HEALTH

New Hope In Repairing Scarred Or Aging Skin

If you're one of the millions of Americans troubled by furrows between the brows, deep smile lines alongside the nose or depressed scars from acne, surgery or injury, there is some encouraging news. Now, a relatively simple doctor's office procedure can correct many such flaws. The medical breakthrough involves implantation of a collagen product that received marketing clearance from the Food and Drug Administration (FDA) in July, 1981, and has now been used in over 6,000 people. Plastic surgeons and dermatologists use collagen implantation to correct certain types of acne scars and to minimize some age-related wrinkles, such as deep frown lines and deep smile lines. They also use it to repair skin depressions resulting from trauma, surgery, birth defects and disease.

It is important to recognize that collagen implantation is for "spot work" on the face or body, not for resurfacing features. Although often used alone, it is not a replacement for skin, bone, tendon and standard procedures like face lifts, neck lifts and dermabrasion. When collagen implantation is appropriate, general area, smooth out the scar or wrinkle, and replace tissue are conducted at two-week intervals to achieve maximum correction.

Once implanted, the material becomes a stationary, flesh-like substance that is so well accepted by the body it is colonized with cells and blood vessels and becomes a living part of the skin. It is important to recognize that collagen implantation is for "spot work" on the face or body, not for resurfacing features. Although often used alone, it is not a replacement for skin, bone, tendon and standard procedures like face lifts, neck lifts and dermabrasion.
