**ALCOHOL AND DRUG ABUSE PROGRAM:** The Motley County PTO sponsored an Alcohol and Drug Abuse program at the School Cafeteria, Tuesday night. Brad Hagood, a recovering alcoholic and Drug Addict, presented a very enlightening program on the damaging effects of alcohol and drug abuse. After losing his family and his home, he realized he needed help. Mr. Hagood has been in a recovery program for the last 3 years and has also been sober and drug free for this time. Mr. Hagood is shown here discussing the program with Mr. VanHoose, Motley County ISD Principal. Teachers, parents and student attended the program. Refreshments were served following the program. The Motley County PTO hung posters at school this week, with pictures and stories of alcohol related tragedies. They stress — SAY NO TO DRUGS AND ALCOHOL!!

## Museum Receives Tributes to Community Leaders

Support for the Motley County Historical Museum \$2 for \$1 challenge grant climbs toward the \$6,000 local goal as this week's total reaches \$4335. The Meadows Foundation of Dallas, one of the largest private philanthropic organizations in Texas, will match and double all donations (up to \$12,000) which are received before February 1.

This week's benefactors include Dorothy Echols Porter of Houston; Mary Echols West of Gerogetown; Harriet Ann Marshall of Oklahoma City; Mr. and Mrs. James Moss of Lubbock; Mrs. J.N. Fletcher of Roaring Springs, Ellis and Leona Terry, Charlie and Viola Keith, and Dude Damron, all of Matador.

Judge and Mrs. W.R. Cammack are honored with a memorial by Cecil R. Cammack of Tyler. Warren and Faye Clements are remembered with a donation by Marion Clements Smith of Carlsbad, N.M.

Other memorials were received for Rufus Emmons, Reagan Bryan, and Caldwell Smith.

Former civic leader, scoutmaster, and fire chief Freddie Welling was honored with memorials from Mr. and Mrs. Larry Hoyle, Forrest Campbell, and others.

The museum received several memorials for Dr. Albert Traweck, including one from Mr. and Mrs. Larry Hoyle. One especially poignant tribute to the late "Dr. Albert" was offered by Mr. and Mrs. Hal Vance Campbell. Mrs. Campbell wrote, "This is in memorial to Dr. Albert

Traweck — he brought all my kids into this world and doctored our family as long as he was active. A great friend and doctor."

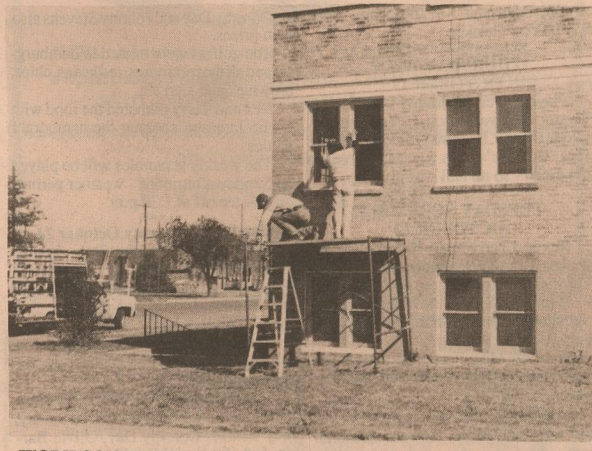

Dedicated to fostering "an appreciation by children and adults of the history and heritage of Motley County," the Motley County Historical Museum began in 1987 with the idea of a Lockney man to establish a Texas Cowboy Hall of Fame in the heart of Matador Ranch country.

Though that idea failed because of the restrictions tied to his proposed donation, the seed for a regional or county museum was planted in the minds of many.

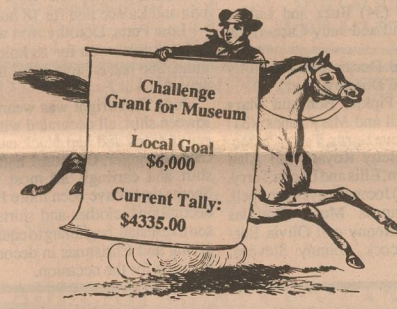

When the South Plains Provider Clinic vacated the Traweck Building in 1988, the Hospital Board was approached about using the building for a museum.

In a gesture of community spirit, Hospital Board Members, Larry Hoyle, James Stanley, Caldwell Smith, Darrell Cruse, and Lillie Crouch allowed that if support for the venture was forthcoming and progress was made toward the goal, they would consider donating the building for a museum. With hope of this bricks and mortar contribution, the museum idea moved closer to reality.

All donations to the museum are appreciated and will be publicized, as well as recorded in a book to be displayed in the lobby. Those donating \$100 or more may have their name or family name engraved on a plaque which will be hung in the lobby.

WORK CONTINUES on the old Traweck Hospital building, readying it to be the new Motley County Museum. Shown here are Plainview Plate Glass employees installing protective, tinted windows.

## Hamilton's Lose Home To Fire In Plainview

NOTE: This article was taken in part from the Plainview Daily Herald.

Plainview firefighters had to endure freezing temperatures Friday and Saturday as they fought a fire at the home of Tom and Jan Hamilton at 2010 Ennis.

Firefighters had to return to the residence twice after the blaze extinguished

Friday night reignited early Saturday morning.

The original blaze broke out at 8:09 p.m. Friday in the kitchen of the home. An electric grill caught fire and the blaze spread to the cabinetry and adjacent walls.

Firefighters returned to the home almost 12 hours later — 7:20 a.m. Saturday — when the fire rekindled. The blaze traveled through the walls and up into the

attic. It was tapped out about an hour later.

The home was a total loss, with damaged estimated at between \$25,000 and \$49,999 after the second blaze.

Tom and Jan are former Matador residents. Tom is the son of Mrs. Josephine Hamilton of Matador and Jan is the daughter of Mrs. Dan Barton of Matador.

## Roaring Springs City Council Meets

The Roaring Springs City Council met November 4 at City Hall at 6:30 p.m. All members were present to hear the reading of the minutes and approve them as read. Bills were read and approved.

A progress report was given by Joey Thacker, Mayor, on the waterline to Roaring Springs Ranch Club. The project is still on hold. Roaring Springs Ranch President, Bennett Reaves, said they were waiting on State regulations to be approved as well as the last easements.

Mr. Thacker reported he had met with the Dickens City Council concerning the

Dickens landfill use and also recently met with a landfill engineer in Austin. The engineer informed Thacker that the rural areas were exempt from the closure until October, 1993. Mr. Thacker is working with Dickens for the City of Roaring Springs to share with the Dickens landfill. He will know the final details by next meeting.

Frances Walters reported the new sewer line on the Springs Ranch road is completed, and the three properties are hooked up and operating.

Council went into closed session to discuss bids at this time.

It is hoped that this will not begin another bout of this wretched crime, poisoning family pets in their own yards, vehicles, etc.

If you have any information leading to the arrest and conviction of the person or persons responsible for the dog poisonings, please contact the Motley County Sheriff's office.

## Arts & Crafts Presented Christmas Delights Program

by Winifred Darsey

Motley County Arts and Crafts Club was instructed on Christmas Wall Hangings, Monday, November 4th, by Mrs. Lou Ann Jameson. The club met in regular meeting in the Senior Citizens Building.

The wall hangings were made of pinecones, raffia ribbon, holly leaves, and miniature gift boxes. They were very attractive and fun to make.

A delicious luncheon followed. Club President, Betty Simpson presided over the business meeting. Final

plans were made for the Christmas Bazaar, to be held November 16 at the Matador Auto building. The Bazaar will open at 9:00 a.m. A door prize will be given at the door. Coffee and cookies will be served to patrons and guests. Chances on our beautiful Centennial Quilt will be sold for the drawing to be held in December. Watch for the date.

Miss Patri Spurlen, Marketing Representative for West Texas Utilities, brought a most interesting program and display of Christmas Delights. Many lovely items of victorian beauty were shown, with burgundy trim on a green tree, bird cage

in white and green, canisters filled with candy, fruit cakes, and cookies. Even though "our hearts belong to chocolate", we still enjoyed the wonderful recipes.

Miss Spurlen, presented each member with West Texas Utilities "Holiday Delights" for 1991, and explained the items and recipes in detail. Thanks again to Miss Spurlen and West Texas Utilities.

Plans were made for the Christmas party to be held at Betty Simpson's home in Northfield.

Two new members were welcomed, Cassie Francis and Devonne Dillard. In

addition to our new members, the following were present: Leola McKelvey, Geraldine Key, Bonnie Edmondson, Lorene Lancaster, Joy Archer, Joyce Meredith, Lou Ann Jameson, Marion Woodruff, Pearl Rattan, Betty Simpson, Pauline Hand, Sue Seigler, Rhea Lawrence, Tony Fellows, Opal Pipkin, Bertha Stearns, Winifred Lee and Winifred Darsey.

Lorene and Joy were hostesses for the day. Coffee, donuts and sweet rolls were served. A lovely time was enjoyed by all. Each had a new Christmas Wall Hanging, new cookbook and a dream of a white Christmas (maybe) to take home.

## Reader's Column

NOTE: The following poem is written by Donna G. Williams Nelson, a former Matador resident and a graduate of Matador High School. Ms. Nelson presented her poem at the 1991 Homecoming Program, held recently. Due to lack of space we will be printing this poem in three parts.

### A Tribute To My Hometown

by Donna G. Williams Nelson

The old hometown looked the same as I drove in from the plane  
Just in time for the Homecoming football game --  
And there to greet me was my Mama, without my Papa.  
He's gone on now - that gentle, loving face.  
You know he's the reason we were here in the first place;

The best thing that ever happened to me  
Was when Earl Stephens adopted me and my Mother,  
And gave me, a precious sister and brother-  
In-law; and Doc and Mary Helen gave me nieces and nephews of four  
who now have given us five more.  
It was in the school year '58-'59 your town became also mine,  
Changed my life, and sustained me time after time.

I want you to know as this message will show that my heart is aglow -  
because we learned a lifetime, at the right time,  
Giving us insight of what was right in spite of our plight,  
And I am so thankful for these lessons of mine;

We learned simplicity; we learned to share;  
We learned how to compete; we learned to care.  
We learned solid values; we learned how to lead;  
We learned excellence, and we learned manners we'd need.

We learned to love; we learned how to live.  
We learned the importance of faith and how to forgive.  
We learned how to laugh, and we learned how to smile.  
We learned positive thinking in just a little while.

Since to whom much is given, then much is expected in this life we are living -  
I wanted so much to have one more chance to let you  
know how you all touched my life, and to show  
You that it was caring well spent - those words of encouragement,  
and praise - memories of your kindness and belief in me have  
lengthened my days.

When overcome by conditions pretty tough, and situations mighty rough  
not worse than others have born, because we all are worn,  
but just enough...

To reach into the repertoire and reservoir of strength  
A family and friends have shared at length  
In your past ... is so precious!

It's what we're here for - what you're dear for!  
What I remember cannot be found.  
I know, because I've traveled the world round,  
And since we've mostly raised our families now, these special  
memories are even more important somehow.

It isn't just where you were born - it's where you're not when you  
want to be - that makes one forlorn

Just think on this and you'll remember the bliss:

It wasn't the Hard Rock Cafe - it was Waybourn's in our day!  
It wasn't Poison or Vanilla Ice on the Top 50 stats--  
It was our favorite music by the Hepcats!

It wasn't heading to the Bahamas on a jet--  
It was to Roaring Springs we needed to get!  
It wasn't concern over who was marrying Liz in a whirl--  
It was learning of the secret marriage of a Senior girl.

It was not about doing drugs. I was sitting at  
Stanley Pharmacy having cokes in mugs!

The biggest deal wasn't Donald Trump or great concern for space.  
It was playing bridge at Karmen's and trumping your partner's ace!

It wasn't Saks 5th Avenue in that time span. It was a homemade  
dress or one bought from Allie or Dan!  
It wasn't computers, Nintendo, or a special quirk -  
It was branding time, and everyone worked!

It wasn't the speed of Federal Express -  
It was Postmaster Scaff and a smile at the USPS.  
It wasn't dining on veal oscar and lavish caviar -  
It was chili over Fritos at the Dixie Dog stand in the car!

## Public Notice

On October 18, 1991, Southwestern Bell Telephone Company filed an application with the Public Utility Commission of Texas to add a new optional service offering called SmartTrunk™ Service. The application has been assigned Tariff Control No. 10687.

SmartTrunk Service provides access between the customer's premises and the serving Southwestern Bell central office for circuit-switched voice and data communications. This communication capability is provided where facilities are available using Integrated Services Digital Network architecture. ISDN services available with SmartTrunk Service use Primary Rate Interface (PRI) technology. SmartTrunk Service requires PRI ISDN compatible Private Branch Exchange (PBX) customer provided equipment registered under FCC Part 68 Rules. SmartTrunk Service employs a 1.544 Mbps facility (denoted as SmartTrunk Interface) typically divided into twenty-three B channels and one D channel. B channels are used for voice and data communications while the D channel provides out-of-band signaling.

If approved by the Commission, the rates for each SmartTrunk Interface facility will be \$1,110 per month under a 36-month service contract or \$1,010 per month under a 60-month service contract. The proposed rate for the use of the central office varies from \$12.25 up to \$18.90 per month for each B channel depending on the rate group classification which is determined by the customer's location. Southwestern Bell estimates revenue of \$2.8 million from this offering during the first year.

Persons who wish to intervene or otherwise participate in these proceedings should file comments regarding this application with the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Public Information Office at (512) 458-0256. ## PUBLIC NOTICE

On April 16, 1991, GTE Corporation ("GTE") and Contel Corporation ("Contel") filed a joint petition for declaratory relief with respect to the obligations or requirements of GTE or Contel and/or any of its subsidiaries relating to the merger of GTE and Contel. GTE and Contel have requested a ruling from the Public Utility Commission of Texas that neither GTE nor Contel is required to report the merger of GTE and Contel pursuant to Section 63 of the Public Utility Regulatory Act ("PURA"), TEX. REV. CIV. STAT. ANN. art. 1446c (Vernon Supp. 1991), that no investigation of the merger by the Commission is required. In the alternative, GTE and Contel seek a determination that the merger is consistent with the public interest.

The Commission is investigating the merger between GTE and Contel Corporations to determine whether the merger is consistent with the public interest. In reaching its determination, the Commission shall take into consideration the reasonable value of the property, facilities or securities to be acquired, disposed of, merged or consolidated. If the Commission finds that the merger is not in the public interest, the Commission shall take the effect of the transaction into consideration in GTE Southwest Incorporated's and Contel of Texas, Inc.'s next rate-making proceeding and disallow the effect of such transaction if it will unreasonably affect rates or services.

This filing has been assigned Docket No. 10212. Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission. A request to intervene, participate, or for further information, should be mailed by 3 p.m., December 31, 1991, to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, TX, 78757. ## Amy's Anecdotes

by Amy Woolsey

The weather just fascinates me. It's so strange how one week the weather is ninety degrees and hot, then POW the next week it's twenty degrees, snowing, and we're all freezing to death!

I could not believe all that snow last Saturday night! I walked out of the house, it was falling so peacefully and it was beautiful! I was so excited! I was anxious to go snow sledding on Sunday! But when I woke up almost all the snow had melted and only mud was left!! I was mad, I really wanted to go snow sledding but the sun melted it all away!! I guess that's what I get for getting my hopes too high!

The only problem I have with this

kind of weather is that it can get icy and dangerous. That really scares me!

Another thing is that when the snow starts to melt then the roads get muddy and gross and I can't drive very well when they are like that! We have these kids on

our bus route and when it gets muddy, they can't get out an we can't get in. It's awful!!

I will say this, I do hope it snows again sometime, that way I can go snow sledding, but I don't want it to get icy and dangerous or muddy and gross. Maybe it will snow Christmas, I've always loved white Christmas, that just makes them more Christmasier!!

### Homeowners Prepare For Winter Weather Predictions

If the past record-hot summer is any indication of the seasons to come, homeowners may wish to consider hibernation before facing the next wave of utility bills.

There is a reason to stay out of the cave, however. Upgrading the fiber glass insulation levels in their homes can help provide a simple solution for homeowners to reduce their increasing energy costs.

"Insulation is America's best weapon in the war against energy waste," according to an independent study by Dr. Harry Brown of Drexel University, which asserts that America has a new "cold war" to wage.

According to the newest "General Weather Forecast" by the Old Farmer's Almanac, which is celebrating its 200th anniversary, some parts of the country will be less fortunate than others. November through March are expected to be much colder from the Rockies and northwestern Great Plains westward and slightly cooler than normal in the southwestern Great Plains through most of Texas.

So, while the weather can be predicted, it is often unpredictable how much energy will be needed to keep homeowners comfortable.

By insulating up to the recently upgraded Department of Energy (DOE) recommendations, which indicates the appropriate insulation levels for homes across the country, homeowners will not only realize immediate personal benefits, they will be prepared to save on year-round utility costs.

To find out more about the relationship between the weather and insulation, request a free copy of "The CertainTeed Old Farmer's Almanac Home Insulation Guide." Write to CertainTeed Home Institute at P.O. Box 860, Valley Forge, PA 19482.

Psalms 37:1

Announcement of the preliminary Acreage Reduction Program (ARP) figure and the 1992 Loan rate topped off a hectic week on the High Plains of Texas. Aside from the USDA announcements the 25-county area also received its first killing freeze to bring the growing season to a very abrupt close.

The preliminary 10-percent acreage set-aside percentage doubles the 1991 set-aside of five-percent. According to USDA officials the ARP announced today should allow production in 1992 to meet the 30-percent stocks-to-use ration mandated by the 1990 Farm Bill.

The target price for the 1992 crop will remain at 72.9 cents. Also announced was a 1992 cotton loan rate of 52.35 cents, up from the 1991 base loan rate of 50.77 cents.

"The announcement of the preliminary set-aside figure of 10-percent, the new loan rate of 52.35 cents and the target price of 72.9 cents gives producers a pretty good idea of what to expect in 1992," explains Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton-Growers (PCG).

Aside from the USDA announcements there were several notable events that occurred on the High Plains during the last week of October. The most notable was the rather dramatic close of the 1991 growing season.

Temperatures across the area plummeted below the freezing mark on Wednesday and Thursday to all but halt the harvesting activities that had been picking up steam across the area. It also ended the progress the area's mostly late dry-land crop had made during October.

Overall it is expected that the icy conditions will not severely affect the quality of the crop in an adverse manner. Extension Cotton Specialist James Supak

notes that, following the freezing temperatures, an increase in harvesting activity can be expected in about a week to ten days.

The eventual size of the High Plains crop should be higher than first expected from the generally late crop. Favorable weather during the month of October allowed many of the area's cotton acres to make significant gains. The 25-county crop is still expected to fall below the USDA's latest 3-million bale estimate. A new crop estimate will be released by USDA on November 12.

With the end of the 1991 crop year just around the corner many producers are beginning to wonder what the final deficiency payment rate will be.

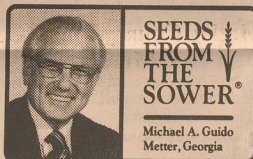

According to Lubbock-based Plains Cotton Growers (PCG) the average price received through the month of August shows that, in general, both marketings and prices are running slightly above last year's numbers. How the marketing year ends will have a big impact on the eventual size of the deficiency payment.

Through August marketings for the year total 5.873 million bales. This is 828,000 bales higher than the 5,045 million bales marketed through August in 1990.

Prices received on the 700,000 bales marketed during August also stayed higher than last year. The average price for cotton in August was 66.9 cents, 2.2 cents higher than the 64.7 cent average for 1990.

The preliminary volume of marketings and prices in cents per pound as reported by the National Agricultural Statistics Service through August appear below.

	Marketings (1000 Bales)		Price (¢ per lb.)		
	Monthly	Cumulative	Monthly	Weighted Ave.	
January	2823	2823	64.2	64.2	66.0
February	782	3605	67.9	65.0	66.1
March	424	4029	68.5	65.4	66.1
April	395	4424	70.8	65.9	66.2
May	285	4709	68.9

Fred Gilbertson of Oregon loved a certain girl, and he used a billboard to make it known, asking, "Cheri...marry me. Fred." Cheri passed that sign many times, but never read it. Finally friends told her about it, and Cheri said yes to Fred.

God loves you. He has used the Bible to make it known. But maybe you've passed it by and haven't read it.

The Bible says, "For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life."

You will say yes to God right now, won't you?

## Public Notice

On July 1, 1991, Southwestern Bell Telephone filed an application with the Public Utility Commission of Texas that proposes to delete Paragraph 3.4(G) from Section 3 of Southwestern Bell's intrastate Access Service Tariff, which concerns credits where a customer uses Switched Access Service to furnish a service which has been defined to be an exchange service. The application was assigned Docket No. 10463.

Because Southwestern Bell is not aware of any customers who presently use switched access service to furnish an exchange service, Southwestern Bell does not believe its revenues will be affected. However, certain interexchange carrier customers of switched access service have made claims under the aforementioned tariff. Such customers, but only to the extent they provide an exchange service using switched access, would be affected by this application. Based on claims made for credits (assuming such credits were allowable), Southwestern Bell's revenues would be affected by no more than \$1,168,962 annually, which is .037 percent of the Company's adjusted revenue for the 12-month period ending December 31, 1990. It is not possible to know how many interexchange carriers might believe themselves entitled to credits, but 189 carriers have registered with the Commission pursuant to PUC Substantive Rule 23.61.

The tariff, after suspension, is proposed to be effective May 1, 1992.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible, but no later than November 15, 1991. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Public Information Office at (512) 458-0256. The telecommunications device for the deaf (TDD) number is (512) 458-0221.

## Southwest Outdoors

with Mel Phillips

Take a look at your friends and neighbors. Are they in a good mood? Do they now laugh at jokes that last week brought only a smile? Well, you are witnessing the results of the arrival of hunting season. True hunters, both men and women, suffer through the summer doldrums waiting for the first hints of fall, knowing that soon it will be time to bundle up and go hunting.

Shooting doves hardly qualifies as real hunting because it is just too blamed hot. From my experience, the colder the weather the more the hunters enjoy their outdoor adventures. Their perfect day consists of a six-inch snow, threatening clouds, and a high temperature of twenty degrees.

Why does cold weather warm the hearts of the hunters? It's really quite simple. The deer are more active, the quail will form bigger coveys, the waterfowl will finally arrive from their northern ranges.

Yes, it's easy to spot the hunters. They have time for an extra cup of coffee and will leave a bigger tip. If you work for a hunter, it is not a bad time to ask for a pay raise. Just don't interrupt the hunting stories or you might get fired!

An Associated Press wire story at the end of October casts a dark shadow on the future of carefree hunting. Ask Marvin Cruse of Houston about his opening day of bow and arrow season. He was harassed by a flock of 'animal rights activists' lead by Dana Forbes, director of Fund for Animals.

It seems that the extremists follow a hunter into the field and form a semicircle and proceed to take turns loudly "explaining why they oppose hunting." FREE SPEECH?

Mr. Cruse captured the frustration of many hunters when he proposed "a tag on my hunting license that allows me to shoot one activist."

SPECIAL THANKS to GARY CARTER of Pampa for the terrific job of guiding me at the recent B.A.S.S. Region 806 Team Tournament held on Lake Baylor. Meeker and Campbell of Panhandle won. My 4.49 lb. bass won Big Bass and second place team honors. Expert anglers SAM TAYLOR and LONNIE COX of Canadian were third with 4.45 lbs. After hosting all the big Bass and Fun Tournaments, it was fun to be a competitor again.

Looks like BOB MOTE of Plainview will keep his "official" lake record largemouth bass for Lake White River for another year. Rumor has it that bigger bass have been caught at White River but since 1976 no one has filled out the proper paperwork to beat out Bob's 8.69 lb. black bass. It is one of the oldest bass lake records in Texas.

## Senior Citizens Report

by Nora Belle Dunning

The Matador Senior Citizens are trying to get a full time nurse to be in Motley County on certain days to give Blood Pressure and check on shut-in Senior Citizens on Tuesday, November 12th. We will have a government nurse from Plainview for lunch and see if enough would use her to be worth the time and effort to have one.

We need each of you Senior Citizens to get back to coming to our luncheon and be active in the activities of our center. All people need to get out and not stay at home and feel sorry for themselves, when they can have a good time with all of us. We need you, and you need us.

We will miss Lucille and Dr. Albert so much, but we know they are at peace and with the good Lord.

Come help our Senior Citizen Center be a help to everyone in our community. Don't say no, say yes!

## The Church-Going Habit

What underlies the church-going habit that some have? Is it the wishful hope that God's promises will in fact come true? Could it be mere custom, or sentiment? Perhaps it is the desire to be with a group? Maybe it is just a routine established long ago? What turns the steps of some people week after week toward the church building?

I believe it is the deep, unspoken longing, that somewhere in the services of the church, a vital contact with our Creator will be achieved. It seems that somehow, incredible as it might appear, Christ will be glorified. Our Lord will in some way use our service, with all their deficiencies, knowing our human inadequacy, for the fulfillment of His promise. Philip, of New Testament times, so long ago said it for us, "Sir, we would see Jesus."

We cannot live by bread alone, no matter how hard we try. We need our God. We need God and the power of His Word in our lives. We need the sweep of eternity in our minds. To place these words alongside of scripture, the Psalmist writes, "As the hart panteth after the water brooks, so panteth my soul after thee, O God." Our to the church-going habit? We go to the services of the church because we want whatever barrier should be brought down and then we could say, "Sir, I would see Jesus."
