A Second Glance

By Leon Watson

One of the biggest things that bothers me about the present day America is the increasing attacks against Christ, and the "give in" attitude of many American Christians.

For more than 30 years the windows of Los Angeles City Hall were lit in the form of a cross during Easter and Christmas. Beverly Hills Jewess, Dorothy Metzger Fox brought a suit which resulted in the banning of the display.

The same thing happened in Chicago, but Chicago said "to heck with them" and the display continues there.

World War II has been over for over 30 years and yet a constant stream of anti-German, anti-Nazi movies pour forth out of Hollywood. When is the last time you remember seeing an anti-Communist movie on TV or in the movies? The last one I can remember was on Viet Nam with John Wayne. No one in Jewish Hollywood would touch the movie so Wayne paid for it himself. (Bully for the Duke).

NBC radio once refused to carry a broadcast of "The Lutheran Hour" because it contained a sermon opposing abortion. The boards of directors of NBC, CBS and ABC are "about 90 per cent Jewish," according to a nationally known Jesuit priest, who charges that "they don't give a damn about Christian values."

In 1976 five young women and a young man were driving through a Jewish neighborhood in New York on their way to a baptism. They were playing "Nearer, My God To Thee" on their tape player. Suddenly a car forced them to the side of the street and blocked their way. The driver, dressed in black with a black hat, jumped out of his car and ordered them to stop playing the hymn. The girls refused. More black robed and bearded men surrounded the car, shouting for them to stop the hymn. The girls rolled up their windows and the mob began shacking their station wagon and beating on the windows. They tore chrome off the side of the car. One girl rolled down a window to keep it from being broken and the Jews reached in and grabbed the hood release; they damaged the car's motor.

Another girl got out and demanded they stop, but she was attack. She was attack by hassidic rabbis. The situation was saved when police arrived and the mob ran in all directions.

The street is a main thoroughway and the girls said they had to drive it several times a week. "They just wanted us to stop playing the tape." One girl later said. "It is ironic because these are the same Jews that have the freedom to drive their motor homes with loud speakers around the city and preach for hours at a time. No one has ever tried to stop them."

This story was told by Lillian Beutler and verified by SPOTLIGHT newspaper.

GOT THE SPIRIT—The 1979-80 Motley County Cheerleaders won two excellent ribbons, three superior ribbons and a Spirit Stick at the cheerleading camp held at Cisco Junior College June 3-8. From left are Gwen

Calvert, senior; Gina Long, senior, head cheerleader; Shelly Jackson, sophomore; Linda Palmer, junior; and Kim Campbell, sophomore.

Cheerleaders Take High Honors At Annual Summer Camp

Five cheerleaders from Motley County High School attended the 16th Annual South west Cheerleader Camp held at Cisco June 3-8, and came home with two Excellent ribbons, three Superior ribbons and a Spirit Stick.

The girls were evaluated each night as they performed cheers they learned at camp, others

they brought with them from home, and songs and chants. They received five ribbons during the five evaluations. The Spirit Stick was given for having the most spirit of all the girls at the camp during one evaluation.

The instructional program for the camp was provided by the

National Cheerleaders Association, and Eris Ritchie was camp director.

During the week, the cheerleaders learned the latest techniques in leading yells, performing, gymnastics, doing skits and stunts, and also were taught a number of new chants and songs. Emphasis was on spirit

building—for the cheerleader squad, the school athletic teams, and the entire student body.

Attending the camp from Motley County were Gwin Calvert, senior; Head cheerleader, Gina Long, Senior; Shelly Jackson, sophomore; Linda Palmer, Junior; Kim Campbell, sophomore.

Youth Has Surgery Following Fireworks Accident

Ray Martin, son of Mr. and Mrs. Alvin Martin of Matador has returned home from St. Mary's Hospital, in Lubbock, where he had eye surgery on Friday, July 6, following an accident on July 4th.

Ray was struck by a sky rocket during the July 4th Celebration in Matador. He is reported doing better now. But will have to return to the hospital in about 2 weeks to have a permanent contact placed in his eye.

Farm Bureau Sponsors Volunteer Fireman

The Texas Farm Bureau insurance companies and the Motley County Farm Bureau are jointly sponsoring Alan Bingham to the 1979 Texas Firemen's Training School to be held at the Texas A&M University campus, July 22-27.

Bingham, who is a volunteer fireman with the Matador Volunteer Fire Department, will study modern fire-fighting techniques and disaster rescue opera-

tions, along with fire prevention procedures at this annual training school.

"Fire in rural areas have been reduced drastically through the earnest efforts of volunteer firemen over the years. It is our hope that this program will help the Matador Volunteer Fire Department to better serve the rural residents of Motley County," said Harold Campbell, county president.

Congressman Jack Hightower's Reaction To The President's Message on Energy

I will be anxious to hear the President's specific proposals. We must begin to solve the crisis we now face. The President's speech could be a turning point in the life of this nation. I hope we will move in new directions to deal with the problem of adequate energy supplies for America.

The American people must conserve our current energy supplies in every way possible in order for us to break the stranglehold the OPEC nations have on our country.

I supported legislation in the House last week that will pave the way for synthetic fuel production in this country. The Senate must now act to get this legislation on the

President's desk so that production plants can get underway.

I favor the President's proposal of setting import quotas on foreign oil—using the 1977 usage as a goal. I believe that it has become apparent that we must trust ourselves for the production of the energy we consume. We must follow a plan of conservation and bring about self-sufficiency once more.

Unfortunately, the OPEC nations have control over the price and supply of half our current needs and 26% of that is supplied by nations who are hostile to us—Iraq, Algeria, and Libya. The problem is not going to go away.

July 25—31 Proclaimed Farm Safety Week

County Judge Billy Whitaker has proclaimed July 25-31 as Farm and Ranch Safety Week in Motley County, at the request of Harold Campbell, Motley County Farm Bureau president.

The local farm organization is coordinating activities within the county for the special farm safety campaign. This year marks the 36th annual National Farm Safety Week, co-sponsored by the National Safety Council and the U.S. Department of Agriculture. This annual rural safety event was begun in 1944 to help reduce farm accidents impairing wartime food and fiber production.

The theme for the week is "Personal Protection - A Defense Against Injury." In his proclamation, Judge Whitaker said "for years many industries have relied on personal protective equipment (PPE) to help reduce the number and extent of on-the-job injuries. The proclamation also points out that farm safety leaders believe that had PPE --- safety helmets, goggles or safety glasses, gloves, safety shoes, and such -- been worn, it is estimated that more than four of every ten of these

injuries could have been prevented or reduced in severity.

"Most of us farmers wear "baseball type caps" that are given to us by feed, seed, fertilizer, farm equipment companies, etc., because they are comfortable to wear and -- free -- but give little head protection," Whitaker said. According to the Texas Farm Bureau Safety Department, you should: Protect your head with hard hat, bump cap when building, trimming trees, operating and repairing machinery, etc.; Protect eyes with safety glasses, goggles, face shield when welding, working in the shop, when applying ammonia, pesticides, working in dust; Protect hearing with muffs or plugs when running noisy machinery and tools, shooting, blasting, etc.; Protect lungs with proper respiration devices when working in heavy dust, applying pesticides, fumigating, working in bin, silo or tank, etc.; Protect hands with barrier cream, sturdy gloves (except near moving parts); Protect body and skin with impervious garments when handling agricultural chemicals; Protect feet with safety shoes on all farm jobs.

The Texas Farm Bureau Safety Department has tabulated farm fatalities for the past 12 years. An average of just over 200 non-traffic farm fatalities occur each year in well over 100 different counties. Although incomplete, records show that more Texas rural farm and ranch family members die as a result of motor vehicle traffic accidents than any other major cause category.

The 1978 total of 152 state-wide non-traffic farm fatalities was the lowest count on record. Other than traffic, two-thirds of all Texas' fatal farm and ranch accidents fall into five major cause categories. The 1978 major causes and number of fatalities are as follows: (1) fires & burns - 30, involving rural homes and buildings as well as unsafe use of flammable liquids; (2) drownings - 27, usually in a farm pond or tank; (3) falls - 23, including those at ground level as well as those from ladders, platforms, and farm machinery; (4) firearms - 22, with mishaps split between those occurring in the field and those occurring in and around the home; and (5)

Local FFA Youths Attend Annual Convention

Local FFA chapter members attended the 51st Annual Convention of the Texas Association of Future Farmers of America, July 10-13, at the Lubbock Memorial Civic Center. Attending the convention were Bill Lockett, Mark Wason, and Charles Cammack.

Mark Wason received his Lone Star Farmer Degree. This is the highest degree given at the State level. Other Motley County FFA members present were Bill Lockett, John Douglas Russell, Wesley Stafford and Charles Cammack. They were accompanied by Mr. and Mrs. Bill Moss.

At the Convention, awards, plaques and scholarships, totaling over \$320,000, were given to FFA members.

Addresses were given by national FFA Vice-President, Western Region, Elvin Caraway of Spur FFA, Texas Commissioner of Agriculture Reagan Brown, former Texas FFA President, and National Secretary, Fredrick McClure, a native of San Augustine, the retiring State Officers and others.

One of the highlights of the Convention was the Talent Contest. In the Sweetheart Contest, Mari Carlisle of Plainview was selected winner.

David Alders of Nacadoches FFA was elected State FFA President for 1979-80.

David Rattan of Boys Ranch FFA was installed as State Vice-President, from Area I. Mr. and Mrs. Ward Rattan of

Matador attended the Convention in support of David.

More than 5,000 persons attended the four day convention, the highlight of the year's activities in FFA. Some 1,600 voting delegates representing 917 chapters in the state were on hand to elect officers for the coming year and to honor outstanding members of the organization.

Texas is the state with the largest membership in FFA. There are more than 60,000 members and the national organization has drawn many of its national officers from the ranks of the Texas membership. The current National FFA Western Region Vice-President is Elvin Caraway from Spur.

Between the Lines

The Death of Senator Joe McCarthy

By Elvin Dick
 The late Senator from Wisconsin was the victim of "character assassination" by the "awesome power of the Communist Party in this country" and subsequent censor by his fellow Senators on June 7, 1952, but was that all?
 Just how did he die physically on that day, May 2, 1954, 6:02 p.m.? After some time in Bethesda Naval Hospital, he died. There are conflicting reports as to why.
 Dr. George Calver, Capitol Physician, said it was from Multiple ailments of the back, leg, liver, prostrate, lung, herniated diaphragm, obesity and alcoholism.

Time (5-13-57, p. 28): cirrosis of liver.
 Life (5-13-57, p. 38): acute hepatitis (liver affliction) and many ailments.
 Senior Scholastic (5-17-57, p. 16): acute hepatitis.
 American (5-18-57, p. 223): liver ailment.
 One thing which arouses suspicion is his age, just 48. Also, his statement of great health in 1954 just three years before death, "I will be around for some time and I will continue to serve the cause to which I have dedicated my life." Was there any inference of ill health here?
 With murder or assassination, there must be a motive. He signed his death sentence when he said in his U.S. Senatorial censure defense to us November 10, 1954, "If I succeed at nothing else during the rest of my life, I would like to impress upon you, my fellow Americans, the immense and awesome power of the Communist Party in this country."

Was he assassinated as were Kennedy, his brother Robert, King, Norman Rees (1976), our CIA agent in Greece (1976), Bulgarian defector Georgi Marcov (1978) or of late, our Ambassador to Afghanistan Adolph Dubs last February?
 KGB assassins use undetectable weapons like prussic gas, which

when used, is sprayed in the victim's face, he inhales it, it strangles his blood vessels, evaporates in 15 seconds, then the victim is thought to have died of a heart attack.
 Take the aforementioned Georgi Marcov who was jabbed with a poison tipped umbrella on a London street waiting for a bus, in hopes it would look like death from "natural causes." He died a slow death of blood poison. A broken needlepoint was found in his leg, point of contact.
 Our CIA conducted chemical research in the 1950's to search for ways to kill enemy agents in a way to look like death from "natural causes." According to the Amarillo Globe-News (4-2-79). One result was that beryllium causes cancerous tumors. If we have found this out, how much more has the Russian KGB found out?
 Solzhenitsyn, Russian dissident, experienced hostile use of drugs in Russian concentration camps like aminazin, sulfozin and reserpine.
 Aminazin causes violent muscle spasms, ulcerations and painful tumors.
 Sulfozin induces high fever, severe joint inflammation with excruciating pain, brain damage, increased blood pressure, chronic arthritis and heart damage.
 Reserpine damages brain cells, experiences cannot be described adequately by any words. All the distinctiveness of a person and his soul is slowly wiped away.
 The above mentioned Norman Rees was an American oilman and Red spy. He was supposed to have shot himself after turning states evidence to the FBI.
 Was Joe McCarthy assassinated? He was only 48, had stated he was in good health just three years before death and there was a sound reason or motive for the act if it was committed. And there have been many such acts committed. Evidences seem to point to the theory as being true. Is it? Was it true Kennedy's assassination by one and only one gunman, Oswald?

Students Attend Citizenship Seminar

Pam Francis, daughter of Mr. and Mrs. Vann Francis and Julian Zabielski, son of Mr. and Mrs. Ray Zabielski, are representing the Motley County Farm Bureau and the Matador Lions Club, respectively, at the 17th Annual High School Citizenship Seminar held on the Baylor Campus in Waco, this week, July 16-20.
 Speakers at this year's seminar include TFB President Carrol Chal-

oupka, TFB Executive Director Warren Newberry; Cleon Skousen, a noted lecturer on the U.S. Constitution; and Dr. Clifton Ganus, president of Harding College in Searcy, Arkansas.

The purpose of this seminar is to develop better informed young citizens through study of American heritage and principles of free enterprise.

Employer's Deadline to Report Quarterly Federal Tax Return Near

July 31, 1979, is the date by which employers must report on Form 941 Social Security and withheld federal income taxes for the second quarter of 1979, and pay any taxes due, the Internal Revenue Service said. If the quarterly liability (reduced by any deposit during the quarter) is \$200 or more, the unpaid balance must be deposited.
 This deadline does not apply to those employers

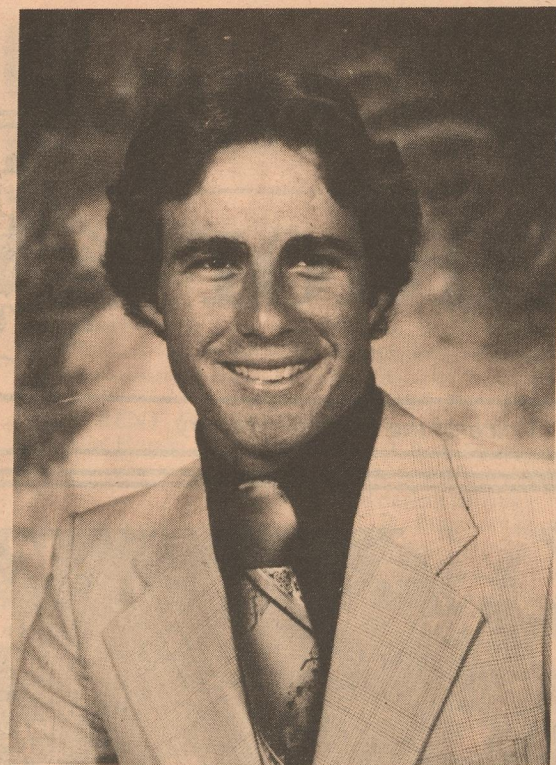

who make timely deposits of the full amount of tax due in Federal Reserve or approved commercial banks. They are allowed until August 10 to file Form 941, "Employer's Quarterly Federal Tax Return."
 If employers have not received Form 941 by mail, they can obtain one from local IRS Publication 15, "Circular E--Employer's Tax guide," is also available at local offices.

Social Security Tips

By Virginia DeWitt
Social Security Representative

QUESTION: When I became eligible for Medicare, I decided not to take the medical insurance part. Now, I've changed my mind. Isn't there a special time of year when people can enroll in medical insurance?

ANSWER: Yes People who turn down Medicare medical insurance during their initial enrollment period and then decide they want it later can sign up during a general

enrollment period--January 1 through March 31 of each year. If you enroll during a general enrollment period, your protection won't start until the following July and your premium will be 10 percent higher for each 12-month period you could have been enrolled but weren't.

For further information regarding Social Security benefits please contact the Social Security office, 1401-B West 5th Street, Plainview, telephone 293-4371.

Editor
Matador Tribune
Matador, TX. 79244

Dear Editor:
If she had faults, they were the excusable type, those that accompany zeal and excessive enthusiasm. What made her a great lady in my eyes was her love of ideas and her ability to entice the mind to venture out into unexplored territory rather than huddle in the dark corners of ignorance. All those who have been her students at Matador certainly feel a debt of gratitude for the services of this lady. But for Grace Aaron Timmons teaching was more than a service; it was a way of life and an adventure of the human spirit. She loved the poetry of William Wordsworth and at her death I recalled a few of his lines:

Though nothing can bring back
The splendor in the grass, the glory in the flower,

We will grieve not
Rather find strength in what remains behind.

What remains of Grace Timmons in me and others can only give us strength to search out the imaginative possibilities of life. I, personally, am greatly indebted to her, for her example not only led me into teaching but also showed me how to love it. Her death robbed us of much, but it left us with much also.

Birthday Party

Christie Pierce, daughter of Mr. and Mrs. Larry Pierce of Roaring Springs, celebrated her 3rd. birthday, with a party in her home, Saturday.

Games were played and a Mickey Mouse cake, beautifully decorated by her mother, and Kool-aid was served to the children while the mothers were served iced tea and lemonaid.

The house was decorated with lots of balloons and streamers. Favors of balloons tied to paper feet, were given to each child.

Christi received lots of gifts, with a big smile on her face as she opened them.

Guests were Jeremy Jones, Renee and Cheryl Davis, Bradley Thacker, Theri Long, Robin Long, Clell McCauley, Lacey and Kasey Parks.

Special guests was her grandmother Mrs. Lillian Kruger.

Other guests were Carla Jones, Britta Allen, Karen Davis, Pam Thacker, and Barbara Parks.

tractors - 18, most of which included over-turns on both the same level and different level, run over by and fell from the tractor. The 12 year study revealed that over 2,400 Texas rural farm and ranch family members suffered fatal accidents, excluding automobile accidents. Only 20 counties, representing less than 2 1/2 percent of the state's rural popula-

tion had no fatal accidents. The largest number of rural farm and ranch fatalities in one county was 29, excluding traffic. During 1978, one county recorded eight, on-the-farm non-traffic fatalities which included five fire deaths in the same farm home; one asphyxiation from butane gas; one home fall and one gunshot (hunting).

FARM SAFETY WEEK
JULY 25th - 31st

farm carelessness costs you!

Why pay the price? Carelessness can happen anytime...any place on the farm...but a watchful eye can prevent many potential accidents. Spend a few minutes a day making safety checks. Educate each and every person on the farm as to the possible hazards, and how to avoid them. Farm safety works when you work at it!

Public Notice

Notice is hereby given that a public hearing will begin at 9 a.m. on July 24, 1979, in the offices of the Texas Public Utility Commission in Austin, Texas, on a proposal by Southwestern Bell Telephone Co. to make certain changes in the format of selected Texas telephone directories.

The principal proposed changes are: (1) to separate business and residential listings in the white pages, with residential surnames listed once in boldface type followed by the alphabetical listing of the individuals' given names in regular type; and (2) to add, in addition to the "white pages" business and residential listings and the Yellow Pages business listings, a third set of "blue pages" listing the numbers of selected governmental and public service agencies.

Inquiries may be addressed to the Texas Public Utility Commission, 7800 Shoal Creek Blvd., Austin, Texas 78757.
