TO VALLEY PATRIOTS

Matadors Lose For First Time

The awesome Valley Patriots overpowered the undefeated Motley County Matadors last Friday 48-14 to become the 2-1A North Zone champs for the third straight year.

The Matadors, who have been impressive all year long and finished the season with a 9-1 record, found the going rough as they managed only 140 yards rushing and 71 yards passing. The Patriots rolled up 415 yards rushing and 21 passing.

Valley received the opening kickoff and moved to the 49 yard line. On their first play they tried a half-back pitch pass and it was

intercepted by Dwight Campbell on the Motley County 36.

The Matadors couldn't move the ball and punted. Valley got the ball on the 44 and drove all the way for a touchdown in 11 plays. With 4:34 left in the opening quarter Valley led 7-0.

Valley scored again on their next possession with 1:03 left after MC again could not move and punted. The score came at the end of a nine play drive when James McNary went nine yards to the end zone. Valley led 14-0.

In the second quarter both teams found the going tough and each team was forced to punt after two drives. Valley's McNary scored again with 2:04 left in the half from three yards out. The PAT failed but Valley had stretched the lead to 20-0.

After still another MC punt Valley drove 62 yards in 10 plays to score

when Ray Williams went in from a yard out on a fourth down play.

At the end of the first half the score stood at 27-0.

In the opening minutes of the second half the Matadors opened the game up with a fake punt which failed and Valley took over on the MC 26 yard line. But on the next play they fumbled back to the Matadors.

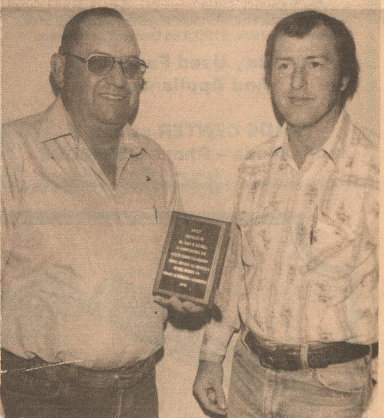

Shawn Bearden picked up one yard and then kept the ball again for a 44 yard gain to the Valley

28. On the next play he broke three tackles and went 28 yards for the touchdown. A try for the two point extra was good when Wesley Stafford completed a pass in the end zone from Bearden.

Valley took the ensuing kickoff, and 28 seconds later upped its lead 34-8 when McNary rambled for another score.

Three minutes later, Williams got into the act again. He took off around right end and outran

County Leaders Extension Honors

A select group of leaders from the Rolling Plains was honored at Vernon, Thursday, Nov. 6, at the annual meeting of the Rolling Plains Economic Program (RPEP).

Honored from Motley County was John M. (Sonny) Russell, one of 30 chairmen of County Program Building Committees honored by the Texas Agricultural Extension Service. Each received a plaque.

Program building is a continuous process by which representative county leaders, working with county Extension agents, other local agencies and resource persons, study the county situation, identify major problems and opportunities and plan and carry out a program of education and action to help the people reach their objectives. The program building concept is a key element in the Extension theme: "People helping people," said Ed Garnett, Rolling Plains District Extension

director. The salute to the 30 county chairmen was a feature of the annual meeting of RPEP. RPEP is a regional organization sponsored by Extension to promote economic growth and development and improved family living in the counties of the Rolling Plains.

Another feature at the meeting was presentation of the prestigious Kniapp-Porter Award for service to Texas agriculture. Rep. Jack Hightower, D-13th Congressional District, Vernon, received the award from Extension Director Daniel C. Pfanstiel.

Hightower and Rep. Charles Stenholm, D-17th Congressional District, of Stamford, cited the importance of agriculture in the nation's future and its role in America's foreign policy.

During the afternoon, concurrent seminars focused on cotton, small grains, sheep, beef cattle and range management, and home baking.

PTA To Meet Here Monday

Tom McGovern, a counselor with the Alcoholic Program of the Department of Psychology of Texas Tech Health Science Center will present a program on alcohol abuse to the Motley County PTA Monday, the 17th of November.

The meeting will be held in the school cafeteria and will begin at 7:00 p.m. All community members and students are invited to attend. The program will be presented at the beginning of the PTA meeting in order for those who are interested in hearing McGovern to be able to attend.

McGovern holds a Masters degree in Theology from Saint Patrick's College in Ireland. He also holds a Master's Degree in History from Texas Tech and is currently working on a doctoral degree in Education.

McGovern is the President of the Lubbock Chapter of the Texas Association of Alcoholism Counselors and has done much pastoral counseling as a priest.

He currently works as an out-patient counselor in the department of Psychology. He also works with in and out patients counseling and as a family and marriage counselor.

The PTA would like to invite the community to attend the November 17 meeting on alcohol abuse.

Junior History Class Holds Recent Election

Voter registration began October 15 in the foyer of the Motley County High School. All students in grades 7-12 were encouraged to register so that on November 4 they could vote for the presidential candidate of their choice.

From the 123 students in the six grades participating, 100 students registered to vote and 98 students actually voted. When the votes were tallied, 60% of the student votes were for Ronald Reagan, 37% were for Jimmy Carter, and 2% were for John Anderson.

"The amazing thing was that even though the voters were much younger, the vote was almost the same as the vote in Motley County," Gene Griffin, teacher of

the Junior World History class said.

As part of their class work this six weeks, the students in this class prepared for and held this election. Seven students handled the voting and the registration, three students prepared notebooks on each candidate and his views, and all class members helped with voter registration and the counting of votes on election day.

The day before the election the class presented the views of each of the three candidates to the high school students in an assembly. The history students prepared speeches on five topics which they considered to be of major importance in the election. Fifteen speeches were presented, three on each of the topics of environmental problems, energy policy, defense policy, economic factors, and foreign affairs.

The official registration began early and was handled by the students in a manner as close to the real thing as possible. Students were given official registration forms, and were asked to sign a roll which contained their birth date, permanent address, sex, and signature. This registration roll was then checked as each student came to vote.

According to Griffin, the only problem arose when one student tried to register twice.

However, the student was caught, and perhaps the next problem for the Junior World History class will be a lesson on the criminal system.

Services Set Today For George Jeffers

Services for former 6666 Ranch foreman George H. "Coon" Jeffers, 72, of Paducah will be at 2 p.m. Thursday, (today) at Paducah First United Methodist Church with the Rev. Henry Salley, pastor, officiating. Burial will be in Garden of Memories Cemetery under direction of Seigler Funeral Home. Jeffers died Tuesday morning at Richards Memorial Hospital after a short illness. Jeffers, who was born in Motley County, grew up on the Matador Ranch as one of six sons of a pioneer family in the county, the late Mr. and

Mrs. Claude Jeffers. He married Johnnie Brasher December 25, 1937, in Paducah. The couple moved to Borger in 1949 where Jeffers served as foreman of the 6666 Ranch until his retirement in 1974 when he returned to Paducah. Survivors include his wife; a daughter, Linda of Tulia; and two brothers, Jim of Carrollton and Joe of Pampa. Pallbearers will be J. J. Gibson, Bobby Thompson, Dave Lane, Lathen Withers, Bill Hemphill and John Gaither. The family has asked longtime co-workers of Jeffers to serve as honorary pallbearers.

Methodist Church Plans Annual Harvest Festival

This Sunday, November 16, the First United Methodist Church will have its annual Harvest Festival. This is an important occasion in the life of the church; a time when the church members gather at the time of harvest to give thanks to God (whether it be a good harvest or not) and to give a portion of their bounty to the work of the Church.

The church members are aware that many members of the local community have given generously to the church in recent months, and it is hoped that all these persons consider themselves to be welcome and honored guests at this event.

The Harvest Festival will begin with a worship service to be held in the church sanctuary at 10:30 a.m. Following what is hoped to be a meaningful service, a huge covered-dish dinner will be held in the Fellowship Hall of the church.

ARRIVAL ANNOUNCED

Mr. and Mrs. Laynce Nix of Freeport are announcing the birth of a son, Laynce Micheal, who was born October 30 in Houston.

He weighed 7 pounds and 12 ounces. Grandparents of the new arrival are Mr. and Mrs. Vernard Alexander of Freeport and Mr. and Mrs. Floyd Nix of Garland. Great-grandparents are Mr. and Mrs. W. N. Pipkin of Matador.

The Dugout Announces Open House

Open House will be held at "The Dugout" on Saturday, November 15 from 10:00 a.m. until 5:00 p.m. The open house is being held to display the large new show room east of the Savings & Loan and also as the third anniversary of the business.

Barbara Jameson invites everyone to come by each day and register for free door prizes to be given away Saturday, November 15, and also to see the large selection of gift items, paintings and frame samples for custom framing.

ELIZABETH HUPFER AND BRYAN TIMMONS

Hupfer -- Timmons Announce Engagement

Mrs. John H. Hupfer of El Paso wishes to announce the engagement and upcoming marriage of her daughter, Elizabeth Leone to Bryan Reece Timmons of Matador. Elizabeth is also the daughter of the late John H. Hupfer. She is a recent graduate of West Texas State University with a Bachelor's degree in

Social Work. Bryan is the son of Jack R. Timmons of Matador and the late Grace Timmons. He is in his junior year at West Texas State majoring in Industrial Distribution. The couple plans to marry December 27 at the All Saints Episcopal Church in El Paso with the Rev. Robert H. Voight officiating.

PROPER INSULATION... Keeps in the warm air you've paid for.

The most effective defense against rising energy costs is proper insulation. Insulation keeps the heat in during the winter and out during the summer, so that both your heating and cooling costs will be less.

Insulation is measured in R-values and the higher the value, the more effective the insulation. R-values of R-30 in the ceilings and R-18 in the walls are now being recommended for new construction in this area.

Pipelines... make good neighbors

America has over 220,000 miles of petroleum pipelines carrying crude oil and products to refineries and storage terminals across the United States. Each day, more than 1.5 billion ton/miles of crude oil and products move through this network. These pipelines have a safety record second to none in the transportation industry . . . and we want you to help us keep it that way.

- liquids on or a mist above the ground in the area of a pipeline.
- Flames originating from an opening in the ground.
- If you become aware of a pipeline leak . . .
- LEAVE THE LEAK AREA IMMEDIATELY.
- Avoid driving into vapor clouds.
- Avoid direct contact with the escaping liquids.

GROUND MARKER

GROUND MARKER

CASING VENT

AERIAL MARKER

When you see signs like those shown above, they tell you that there's a pipeline nearby. If it's underground, you can't see it, of course. But it's there, working quietly to provide energy for you and other consumers throughout this nation.

Some of these signs list the commodity transported in the pipeline, the name of the operator, and a telephone number where the operator's representative can be reached at all times.

Although pipelines have an exceptionally good safety record, once in a while a leak can occur. Indications of a leak might include:

- A strange or unusual odor in the vicinity of a pipeline.
- A hissing or roaring sound (caused by petroleum or product escaping from a pipeline).
- A dense white cloud or fog.
- A spot of dead or discolored vegetation.
- An accumulation of petroleum

- Avoid creating sparks or sources of heat which could cause the liquids or vapor to ignite and burn.
- If you find yourself in a suspected vapor area, do not light a match, start an engine or even switch on an electric light.
- Notify the pipeline operator as soon as you reach a safe area. Call collect. Give your name, a description of the leak and its location. If you do not know who the pipeline operator is, call your local fire, police or sheriff's department, or the state police. Advise them of the nature and location of the emergency.

If you see someone digging near a pipeline or doing other construction work . . . or if you plan to do such work near a pipeline yourself . . . please call the telephone number shown on the sign and let the pipeline company know so damage can be avoided. It's in your interest . . . and the nation's.

America's Petroleum Pipelines

Pipelines are the safest way to move petroleum and products and you can help keep it that way!
