## 80th Birthday Is Observed by County Pioneer

A BABY BOY was born in a dugout on the banks of Teepee Creek 80 years ago Monday (October 26, 1884). The only attendant was his 2-year-old sister, Nora. The dugout was about five miles north of old Teepee City, which had been founded by A. B. Cooper, father of the infant boy.

building as a surprise prepared by his wife and family, Mr. and Mrs. J. B. Cooper and son James Nelson Cooper, 5, and Mr. and Mrs. Jimmie Worsam of Stinnett.

Jim Cooper could not see his friends for he has been totally blind for many years, but he was happy. He recognized most of them by the sound of their voices.

## Area Mourns Death Of County Pioneer

Another chapter was completed Sunday in the saga of West Texas pioneers with the death of Mrs. W. E. Reeves, resident of Motley County for over 70 years.

The first school building on Teepee was started in 1894 and Jim Cooper attended. He remembers that the first teacher was Miss Retta Snowden and that she was from Pennsylvania. She was a relative of the Tom Jeffers who lived five miles south of Teepee City. School usually lasted about three months, for there was little money to pay the teacher. Later Jim attended school a few months in each of the years, 1902-03-04.

## Voters Reluctant In Election Comments

ASK the average man (or woman) on the streets of Matador about their preference of candidates in next Tuesday's General Election, and the average answer is silence. Most opinion has gone underground, but voters are interested.

Johnson 2 to 1 lead over Goldwater. A few observers here have expressed opinions that Matley County may vote "close." On a state basis close observers of Texas elections down through the years expect an unusual amount of "ticket-splitting" Tuesday.

## Matadors Eclipse Roughnecks 20-7

by Tim Green

BY TRADITION when the chips are down, the Matadors prevail. It was that way Friday night at Sundown when the Roughnecks led 15-10 in first downs, but on the other hand the Matadors led 229-212 in total yards.

Members of both major parties may be affected, that is, "regular" Democrats may find that they want to cross the party lines to vote for one or more, but not all, Republican nominees; and vice versa.

The Courts have held, in effect, that there is no legal bar to ballot-splitting. Each voter has the right to make his individual choices, regardless of party, and this right cannot be limited by party action.

After taking the opening kickoff the Matadors were forced to punt on their first series of downs and Sundown took possession of the ball on their own 44 yard line. Led by a hard charging line and a powerhouse named Jimmy Morgan, the Roughnecks marched 56 yards for the initial touch-down, climaxed by a two yard plunge by Morgan Morgan also booted the extra point and Sundown led 7-0.

The mechanics of ballot-splitting are less complicated than the average voter realizes. To vote for a particular candidate for a particular office, the essential thing is to leave his name and mark out the name or names of his opponents in all other columns. Otherwise, the vote for that office cannot be counted.

In the second period the Matadors' linebacker Richard Campbell fell on a Sandown fumble at the Sundown 31 yard line. A pass interference penalty then helped set up the first Matador score. Kenneth Pitts drove the final yard for the touchdown. The try for points failed and Matador trailed 7-6.

## Youth Charged in Attempted Attack

### Clerk's Office Has Attempt at Break-in

Usually tranquil Matador has had its share of violence in the past few days. Charged with intent to murder is Latin-American Roberto Teniente, 19, after an attempted attack Saturday night on Miss Jewell Bridges, 20, of Matador as she sat in her car watching a movie at the Matador drive-in theatre a mile south of town.

get a couple parked in a car in Virginia Walton roadside park to drive him to town. They had refused.

Teniente filled the description of the wanted attacker, except he wore a white T-shirt instead of the blue shirt described by Miss Bridges and the youths who had seen him escape. He was unarmed when picked up.

### Miss Bridges was alone when the man entered her car. He pressed a small nickel-plated pistol to her throat and threatened to kill her if she screamed.

Approach of two white boys caused the attacker to flee. Miss Bridges leaped from the car screaming. Deputy Bobby Williams had just entered the driver's concession stand. The culprit ran south into a field. In a short time an extensive manhunt was in progress. At about the same time rain began falling.

Later officers found two filled automatic pistol clips near where Noles made the pickup. Sunday officers searched for the small automatic with which Miss Bridges' life had been threatened.

They found the pistol fully loaded and a cartridge in the firing chamber. They also found a muddy, blue shirt that had been discarded near the gun. David Teniente was also charged with illegal possession of fire arms when three pistols were found in his possession. He is declared a twin brother to the man charged with attempted murder.

### Driveman Manager Wade Berryman and R. C. Giesecke had placed a rope across the exit road from the drive-in to screen departing patrons. A car ran through the rope but the license number was obtained. It was driven by a Latin-American Motley officers with the aid of Sheriff Jim Bridge of Dickens County, found the car in East Afton and arrested three Latin-Americans, David Teniente, 19, Ray Perez, 19, Juan Delao, 19 and Andres Pena, 18. They were arrested on charges of consumption of alcoholic beverages by a minor.

A checkup revealed that Roberto Teniente is wanted in Julesburg, Colo. on charge of armed robbery of a liquor store. Two of the youths, Ray Perez and Andres Pena, were released from jail here Tuesday after paying their fines. The Teniente twins remain in custody.

### ATTEMPT MADE TO ENTER COUNTY CLERK'S OFFICE

A brazen daylight attempt was made Monday afternoon to enter the office of County and District Clerk Pat Sheridan while the courthouse was closed during the funeral of Mrs. W. E. Reeves. The lobby had been left open.

When Clerk Sheridan returned after the funeral accompanied by County Attorney Howard Traveek, they found the opening handle to the vault door entrance to the Clerk's office had been shattered in an attempted entry. The combination, however, was intact and the door was opened by Sheridan. It was necessary to secure a safe specialist from Lubbock late Monday to repair the damaged door. Sheridan said only a small amount of money is kept in his office, usually \$10 to \$15.

It is commendable that clubwomen of Matador and Roaring Springs have been appointed to fill district offices, and especially one as important as that of Junior Director.

### WCS Study Taught By Church Laymen

Laymen of the Methodist Church have been assisting the Woman's Society of Christian Service in a recent study, "The United States and New Nations." "Foreign Problems" was the chapter taught by John A. Hamilton for the W.S.C.S. on October 13.

Mrs. N. B. McMahan read the scripture and the opening prayer was given by Mrs. J. R. Whitworth. A solo, "Cleanse Me" sung by Mrs. Homer T. Jenkins, was enjoyed by the group. The benediction was given by Mrs. Marvin Brotherton.

Furman Vinson gave the closing chapter of the study from the subject, "The United States' Future Course." A responsive reading was given by the group, led by Mrs. N. B. McMahan, followed by a solo, "The Voice of God is Calling," by Mrs. Wilbur Gaede. Closing prayer was in unison with benediction by Mrs. Harry Willett.

Refreshments of coffee, hot chocolate and cake were served by Mrs. McMahan, assisted by Mesdames Marvin Brotherton and Ethel Payne.

Others present for both meetings, in addition to the guest speakers, were Mesdames Maggie Hamilton, A. J. Daffern, Myrtle Stubblefield, John Hamilton, May Simpson, Sterling Price, Henry Ford, Bill Pipkin, W. F. Jacobs, Bryan Cammack, W. B. Vaughn and Frank Pohl, and Mrs. Mary Slover.

### HD Council Makes Plans For Holidays

The Matador County Home Demonstration Council met Wednesday, October 21 in the District Court Room with the following present: Mesdames Fred Bourland, Wilson Barton, Wade Martin, C. C. Jones, Ronald Clay, W. F. Sauls, Stella Tilson, Sam Ross and Scott Robbins.

The Council will sponsor a Tasting Tea, December 1, place to be announced later. Plans also were made for the Christmas party, and the date was set for December 16. The party will be at the home of Mr. and Mrs. Wilson Barton.

Officers for next year were selected as follows: Mrs. Fred Bourland, President; Mrs. Wilson Barton, Vice-president; Mrs. Sam Ross, Secretary-treasurer; and Mrs. Scott Robbins, THDA Chairman. A Council Delegate will be elected from each club to complete the roster.

For the program, a talk on cholesterol was given by Mrs. Wade Martin.

The next meeting will be November 18.

An educational tour of interesting places in Lubbock was made by a group of El Progresso Study Club members Thursday, Oct. 22, with Sue Glenn, chairman of education in the club, as director.

A picnic lunch was enjoyed in MacKenzie park. The day was warm and park was cool and green. They were watched very closely by the gray squirrels and enjoyed watching them.

After lunch the group visited the Texas Tech campus, colorful chrysanthemum gardens, two Tech dormitories girls, and the library. There the tour continued to museum and Garden Art Center.

Those making the tour were Misses Sue and Amy Glenn and Mesdames Forrest Campbell, J. L. Woodruff, Harry Willett, Warren Clements, W. Pipkin, Fred Simpson and Daffern.

**VOTE FOR THE TEXAN WHO LEADS THE FREE WORLD!**

For the past eleven months, for the first time in our history, a native son has led our nation and the free world. And every Texan can take pride that President Johnson has met the awesome burdens of the office with courage, wisdom and restraint.

**THE ISSUE TUESDAY IS SIMPLE: WHO CAN BEST LEAD OUR NATION IN A TIME OF CHALLENGE AND PERIL?**

To which man do you feel most comfortable entrusting the security and well being of yourself and your children for the next four years—

A man who wants to turn back the clock of achievement... a man who has worked consistently against progressive measures in the Senate... a man virtually untested in a time of crisis?

Or a man who has dedicated his entire life to public service... who has demonstrated, under five administrations, progressive leadership in working for a better way of life for all Americans. A man who has proved his courage under fire... has demonstrated his unwavering strength to meet any aggressor with firmness, yet restraint?

**PRESIDENT JOHNSON HAS PROVIDED RESPONSIBLE LEADERSHIP FOR MORE THAN A QUARTER OF A CENTURY**

For almost three decades, President Johnson has been a pillar of strength for Texas and the nation. As Congressman, as Senator, as Majority Leader, as Vice President, and now as Chief Executive, he has written a proud record of progress.

### Debate And Reports Provide Experience

by Nancy Bond  
The members of the senior class have been getting plenty of experience in public speaking the past few weeks. Mr. Johnson's civics class had a rousing debate last week on the presidential campaign. The class was divided into two camps, Republican and Democrat. Students plan to give the debate before the entire student body soon.

The senior English class, with Mrs. Timmons at the helm, have been giving oral book reports on English authors. Such writers as Thomas Hardy, Sir Walter Scott, Robert Louis Stevenson, and Charles Dickens have lived again in the reports of their glowing books.

The Seniors won't soon forget "the weeks of the orations" — it has been an interesting time.

by Stella Martin  
One of the many highlights which give variety to the pep rally are the Drum & Bugle twirlers. This year they are Janna Crenshaw, Pat Day, Shelley Stevens, and Olivia Campbell.

They spend many tedious hours learning a definite routine. During the half-time activities at the football games, they add a touch of glitter while marching with the Drum & Bugle Corps. At the pep rally last Friday, they performed a routine to the music of "Nut Racker."

Guest speakers for the pep rally were Coach Johnson, Luis Moore, and John Thomas.

## The 1965 Ford rides quieter than a Rolls-Royce!

Prior to the introduction of the 1965 Fords, the country's leading automotive writers drove the new models at Dearborn. Most of these experts remarked about the extraordinary quietness and smoothness of the Ford ride. An automotive writer, in *Mechanics Illustrated*, said, "If there is a quieter car made in this country, I haven't driven it."

Quiet Means Quality... Since quiet is a traditional measure of car quality, Ford engineers designed the '65 Ford for maximum quietness. To illustrate

New Rolls-Royce Silver Cloud III during series of tests.

this quality achievement, Ford chose to make a documented test against the world's finest luxury car—Rolls-Royce.

Bolt, Beranek and Newman, Inc., world's leading acoustic consultants to government and industry, conducted the tests under supervision of the authoritative United States Auto Club. All cars were tuned to factory specifications.

The Result... The Fords proved

to be slightly quieter at all speeds.

The official test report reads, in part: "At all moving speeds, on both courses, the Fords were quieter than the Rolls-Royces."

The Difference... The sound level difference, to be sure, is small—but it is there. At 60 miles an hour, Ford was actually 2.8 decibels\* quieter than Rolls-Royce. At 40, Ford was 5.5 decibels\* quieter. At 20, Ford was 4.9 decibels\* quieter. However small, these advantages over Rolls-Royce may be, they are significant evidence of quality—important to anyone buying a car in Ford's class.

When the house is closed up... and the kitchen's soot free

Flameless Electric Cooking is all it could be

During the winter months when the house is closed up, a flameless electric range is almost a necessity. Only an electric range can prevent the ugly, oily film on windows, walls, cabinets...everything in the kitchen and adjacent rooms, because there's no combustion. Since heat is delivered directly by metal-to-metal contact with the bottom of the utensils, you don't have to clean soot from pots and pans. There's no doubt about it...electric cooking is clean, accurate, fast, and by putting the heat into the food, not into the air...you don't have to pay for dissipated heat.

Visit an electric appliance dealer soon and bring home an electric range so you, too, can have a bright and shiny kitchen.

FREE WIRING — An extra for WTU customers. If you are a customer of WTU and purchase your flameless electric range from a local appliance dealer, WTU will install the wiring at no charge to you.

### Walter Rogers Pays Tribute to the Newspapers in Texas Panhandle

Congressman Walter Rogers sends a weekly newsletter to the papers in his district. Because of space limitations, the Tribune does not publish them regularly. The following article is, however, a tribute to the newspapers of the Texas Panhandle, on occasion of National Newspaper Week, Oct. 11-17, and is published as a delayed feature in the first available issue after it was set into type.

You will be reading this newsletter during National Newspaper Week, the week set aside each year for Americans to honor the great service they are rendered by our free press. Our newspapers do indeed serve us well; they inform, they entertain, they stimulate thought. They make an essential contribution to the democratic processes of our Republic. They help shape the development of their communities and generally do their best to stand firmly on the side of progress, justice, and morality, accepting responsibility the obligations freedom imposes.

Freedom of the press is one of the most basic American rights guaranteed by the Constitution. The First Amendment states: "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof or abridging the freedom of speech, or of the press." From the early days of American history the press has been attacked and criticized for alleged shortcomings, but the fact remains it is a great bulwark of freedom.

The foundations of press freedom were laid early. One of the significant events was the trial for libel, in 1735, of a New York printer, John Peter Zenger, who was accused of vilifying the tyrannical royal Governor, William Cosby. Zenger's lawyer was the elder Alexander Hamilton who summed up the printer's case for the jury in these words: "The question

before the court and you gentlemen of the jury is not of small or private concern, it is not the cause of the poor printer, nor of New York, alone; No! It may, in its consequence, affect every freeman that lives under a British government on the main of America. It is the best cause. It is the cause of liberty—the liberty both of exposing and opposing arbitrary power by speaking and writing 'Truth' in a great triumph for liberty, the jury acquitted Zenger. The Zenger trial through the years to follow was to have major influence on the feeling of the colonists as to the importance of press freedom and the general concept of liberty.

What is the right of the press? More than two centuries ago, the immortal English jurist Sir William Blackstone defined press freedom as "in laying no previous restraints upon publication, and not in freedom from censure for criminal matter when published. Every freeman has an undoubted right to lay what sentiments he pleases before the public; but if he publishes what is improper, mischievous, or illegal, he must take the consequences of his own temerity." These thoughts generally apply today.

Virtually all American presidents have been subjected to scornful and bitter criticism from some segments of the press. Stung by a succession of biting personal attacks, Thomas Jefferson said of the press of his day: "I deplore the putrid state into which our newspapers have passed, and the malignity, and the mendacious spirit of those who write them—these ordeals are rapidly depraving the public taste." But then, in the next breath, Jefferson said: "It is, however, an evil for which there is no remedy, our liberty depends on the freedom of the press and that cannot be limited without being lost." A century

later, Theodore Roosevelt was to say: "We have all of us suffered from the liberty of the press, but we have to take the good with the bad."

Based on my own experience, I would certainly concur with this observation by a noted Washington correspondent whose expression recently appeared in a national business magazine: "Not every reporter in the land can be portrayed as a pillar of detachment. The objective truth is an elusive quarry and one man's set of facts is another man's list of prejudices. Still, it can be maintained with assurance that the standards of integrity among men who communicate the news are as high as they are in more exalted professions."

In the Texas Panhandle, we are fortunate to have an excellent selection of daily and weekly newspapers doing their best to serve their readers and their communities. On this occasion of National Newspaper Week, I salute the men and women, the reporters and editors in the newsroom, the advertising people, the printers and the pressmen, and the carrier boys—who are doing their best in the service of the Nation's newspapers and our free press.

## World Tour Experiences Shared By Mrs. Harry Willett In Retrospect

(At the request of the Tribune, Mrs. Harry Willett is sharing her world tour made this summer, in a series of features beginning this week.)

When I presented my inch and a half thick ticket at the airline's counter at Lubbock, I was told by an amazed clerk that he had never seen such a long ticket. I had eaten breakfast at Lubbock before departure, was served another breakfast en route to El Paso, where I wandered through the beautiful new large airport, and another breakfast was served before reaching Phoenix.

At the International Airport at Los Angeles the clerk at the departure desk opened his eyes and commented on the unusual length of my ticket. By now I had become impressed, as I had not been before, of the adventures which might await me on this trip.

Before I could become bored in that magnificent L. A. airport and after I had partaken of tropical juices and tidbits in the Hawaiian Lounge, I boarded a Japanese jet and was off to Honolulu. Thus the first day of my three and a half months tour around the world was started at Lubbock, Texas at 8:30 a.m. and we arrived in Honolulu at 4:30 p.m. May 18, 1964.

### Holiday-Vacation Land

Excluding the new additions of great magnitude and expenditure, Honolulu was the same holiday-vacation land, with its Wakiki Beach and people from every country and clime, but all attired in the most informal Hawaiian type of clothing as seen no place else in the world. The new Ala Moana shopping center is immense and quite modern in all aspects. It was easy to get lost going over its two-story streets. The revolving restaurant, La Ronde, which is 308 feet above sea level, was an excellent place to have lunch while getting an excellent and complete view of Honolulu and Oahu Island. As elsewhere there is a great building boom in the Hawaiian Islands.

Our tour as a unit began with the flight from Honolulu to Tokyo, Japan. On this plane

the sixteen tour members and the Tour Director became acquainted. The Tour Director was making his 25th trip around the world. I was the only Texan.

Before we returned home we traveled between 30,000 and 35,000 miles, going ever westward, flying in approximately 50 planes, and staying in about 50 hotels, most of which were quite nice.

Every day brought new wonders which I invariably thought exceeded the experiences of the day before. Of course after starting out some days at 8:00 a.m. and on occasion much earlier, riding in a bus, walking, climbing innumerable steps or steep inclines, and listening to lectures by our native guide about his country's history, culture, customs and topography, that night we would question ourselves why we ever left home. But after a good night's rest, sometimes on beds whose springs were no more than interlaced straps of woven material, with pillows which might be the size of and just about as limber as a folded towel, or again as hard and large as an oversize suitcase (but we always had our private baths) next morning we would be eager to seek and view any marvels of history, architecture or nature which the day would offer.

### Western Civilization

The first six or seven weeks of our tour were spent in countries which were predominately Hindu or Buddhist. With the exception of a portion of India, I am not writing of these Buddhist countries at this time. In this article I am telling of those countries, predominately Moslem which embrace that part of the world known as "the cradle of Western Civilization," Mesopotamia.

Through the centuries this area has been a battleground many, many times, with hundreds of conquerors being conquered. At the present time so much of this region, both plains and mountains, is a vast desert. But, as in West Texas, add water and the very fertile soil has great productivity. There may have been more water there in the centuries past. For what

HONORED GUEST — Dist. 21-1 Governor James Wheeler of Amarillo (center) was here October 6 as honored guest at regular luncheon meeting of the Matador Lions Club. In above photograph Secretary Lion Elbert Reeves is at the left and club President Freddie Welling is at the right.

ever reason, this land has been coveted throughout the ages.

We saw ancient cities and buildings, very ancient ruins, customs which are ancient and outmoded by our standards, but are the only methods known to the present-day inhabitants. In progress are enormous building programs in highway construction, airports, government buildings and especially apartment houses and housing units, which are badly needed to take care of the ever-increasing teeming millions of brown skinned people.

However, we went through country after country where there was no mechanized or motorized farm equipment. Indeed we would scarcely call a crooked stick or a wooden plow even with a metal point, equipment. Human beings, men, women, and children, usually with large baskets or burdens on their backs and shoulders are the beasts of burden. The workers probably feel fortunate, if perchance they have so much as a wheel to give assistance.

In fact the lowly wheel-barrow seemed to be an unknown item. Even the material for the highway construction is carried in shallow baskets about 18 inches in diameter, by the workmen.

### Primitive Laundry Method

The usual method of laundry is beating the clothes or

linens on the rocks in the shallow water at the banks of the muddy rivers, where many people will be lined up. The clothes are then spread to dry on the ground or on the steps leading to the laundering area. I do not know the methods used in the commercial laundries, but we saw large areas covered with sheets, towels, etc., hanging on lines of what-have-you, for drying. In one or two hotels we wondered if our linens had gone through any formality whatever.

## "REMEMBER THE ALAMO"

— the cry that fanned Texas' defeat to victory!

On March 1, 1836, thirty men from Gonzales broke through the lines of Mexican Army Commander Santa Anna to increase the Alamo's defenses to 187. This little band of heroes held the Alamo against overwhelming odds for five more days in one of the most heroic struggles to be found in the annals of man.

On March 6 Santa Anna with over 4,000 troops stormed the Alamo, and the last of the heroic band of Texans died fighting. Names like William Barret Travis, James Bowie, Davy Crockett and James B. Bonham became immortal.

The massacre at the Alamo inspired General Sam Houston's men at the battle of San Jacinto. Crying "Remember the Alamo!", the Texans sprang upon Santa Anna's soldiers and in a swift bloody fight won Texas its freedom.
