### Students Win In UIL Events

Winners were named in the University Interscholastic League contests of District 5-B, held at Jayton High School April 5. Jayton High School students won the meet with 249 points. Matador and McAdoo tied for second with 37 points and Guthrie was next with 30 points.

Elementary students held contests, but do not progress to regional competition. Patton Springs amassed 49 points to place first in elementary events.

Matador High School students winning events were, Peggy Marrs, 1st in informative speaking, girls division; Jeanette Day, 2nd in girls prose reading and Paula Pallmeyer, 2nd in type-writing.

In grade school, the boys volleyball team won district while the girls team placed 3rd.

In storytelling Sealy Smith, daughter of Mr. and Mrs. Clifton Smith of Northfield won third. Charles Giesecke, son of Mr. and Mrs. R. C. Giesecke won first place in number sense, while Charlotte Johnson, daughter of Mr. and Mrs. Charlie Johnson placed second in oral reading.

### Volleyball Team Loses Bi-District

by Brigid Barton

The girls volleyball team traveled to Jayton Tuesday, April 6 to meet Highland in a contest for the bi-district championship.

Much to the disappointment of the girls and their coach, Grace Timmons, the game never really went their way and they had to admit defeat after the first two games. The girls had traveled to McAdoo a few weeks earlier to capture the district trophy.

Girls going to Jayton were Olive Curlee, Bonita Hand, Brigid Barton, Debbie Smallwood, Charla Wason, Kay Cooper, Eva Marshall, and Cinda Simpson. Jeanette Day, Ann Brandon, Cindy Marshall and Ann Timmons went along with the girls to cheer them on to victory, but were assigned to certain jobs during the game such as line calling and scorekeeping. Mrs. Billy Wason and Mrs. Alfred Cooper also accompanied the team.

### FHA Kidnaps Sleepy Girls

Saturday morning, March 27, sleepy FHA members were herded to the home of Mrs. A. L. Fair,

sponsor, to breakfast on doughnuts and juice. This event suitably called a "Kidnap Breakfast," is held each year during National FHA week. The planning of the breakfast, which is kept secret, was conspired by Debbie Smallwood and Melisa Bailey, FHA third vice-presidents.

Only a few members were told of the up-coming breakfast so they could round up the girls. Rounding up was done by Debbie, Melisa, Jeanette Day, Evelyn Jones, Jan Keltz, Bonita Hand and Olive Curlee.

**FIRST GRADE**  
The first grade had a teacher visit them recently. She was Mrs. Max Bennett from Lampasas.

**FOURTH GRADE**  
The fourth grade had an Easter egg hunt on the north side of the high school. Prizes were awarded to the students who found the most eggs. Following the hunt the fourth graders were served refreshments by the room mothers, Mesdames Wayland Moore, Ted Green, Pat Green, Jim Cross, Louie Edwards and Joe Tambunga.

### COUNTY AGENT PALLMEYER SAYS:

Before long it will be time for mesquite control, but the following items should be considered before

treatment is started.

Phenoxy herbicides, including 2, 4, 5-T are classified as growth regulating hormones and must be translocated to be effective. Translocation of material is strongly related to growing conditions at the time 2, 4, 5-T is applied.

Experiences gained over a number of years indicates that mesquite kills by 2, 4, 5-T are best under certain conditions. Successful kills generally result when there has been plenty of fall and early spring moisture and the trees are actively growing. Best kills are obtained 40 to 90 days after bud break when mesquite foliage has matured and turned from light to dark green.

Conditions that result in poor growth of mesquite trees generally reduce the expected root kill. Rains during the spray season cause development of new growth and kills are reduced. Damage to the foliage from hail, frost or insects also lower the effectiveness of the herbicide. Results of spray treatment during a drouth period have been disappointing and cannot be recommended.

Ability to predict mesquite kills would be a real breakthrough for

producers. Research has been conducted to seek a solution to this problem and the following recommendations have been made. Optimum conditions for June spraying of mesquite would be: 1. Soil temperature at 18 inches deep, 82 degrees F.; 2. All plants have small seed pods developed; 3. Soil dry below 36 inches but with good moisture present in the 7-12 inch depth; 4. A deep lime layer present; 5. Sandy soil.

All of these conditions would be difficult to obtain at one time and in one place. But, an operator could improve the results obtained in a mesquite control program by meeting as many of these conditions as possible.

Keep up to date on herbicides and their use. As additional information is received, I will include it in this column.

# A way to get more retirement money for your retirement money.

Whatever you've saved toward retirement will probably be less than enough in the long run. Here's a new way to increase your retirement money even if you've already retired. Series H Bonds.

Series H Bonds are different from Series E Bonds (the kind most people are familiar with) in that you purchase them at face value. Then every six months you get an interest check in the mail. Money you can use for your day-to-day expenses.

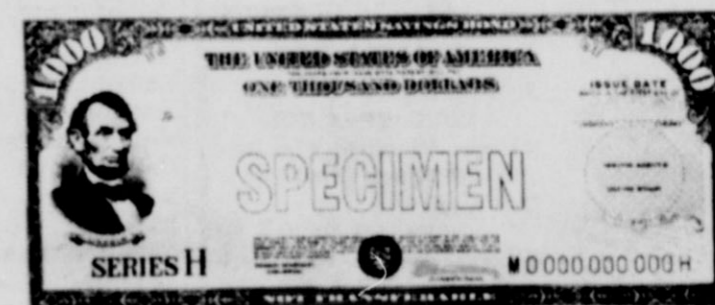

And if you need money for something special, you can cash your H Bonds in for the full amount you paid.

Your local bank will accept applications for Series H Bonds. They are sold in denominations of \$500, \$1,000, and \$5,000. They can also be issued in exchange for Series E Bonds, in

multiples of \$500.

And since all H Bonds purchased after June 1, 1970 pay a bonus, the interest checks after the first five years will be bigger. Rates now average 5½% per year when held to a maturity of 10 years.

So plan your retirement for the long run. Buy Series H Bonds, and get more retirement money for your retirement money.

Bonds are safe. If lost, stolen, or destroyed, we replace them. H Bonds are redeemable after six months. And always remember, Bonds are a proud way to save.

## Take stock in America.

Now Bonds pay a bonus at maturity.

# Texas Looks Good In 200-Page Book

Tribune, Matador, Motley County, Texas Thursday, April 15, 1971

COW POKES

By Ace Reid

"They say it's so dry that grass fires are startin' everywhere. I'm bettin' we're so short of grass we can't even start a fire."

This feature sponsored by THE FIRST STATE BANK

AUSTIN - "Texas has never looked so good."

J. C. Dingwall, State Highway Engineer, thus summarized the highway department's comprehensive new Texas tourist publication.

Titled TEXAS, LAND OF CONTRAST, the book fills 200 pages with the scenic, historic and recreational pleasures of Texas. It offers concise details in what to see and do, and illustrates the whole with a lavish selection of color photographs.

"Here between two covers is the complete travel guide to Texas," Dingwall said. "With this book, our out-of-state visitors will find points of interest to occupy their time in every part of the state. And they can explore everywhere, because the book contains both detailed section maps, and a statewide fold-out map at the back."

The new book is a consolidation of many formerly separate pieces of highway department travel literature. Combining tourist information about 371 cities and towns in Texas, it also lists state parks and major lakes, facilities in Texas national forests, national recreation areas, Big Bend National Park, and Padre Island National Seashore.

Special sections of the new book include a complete campground guide of publicly operated facilities, sections on Texas rocks and minerals, wild flowers, and birds. Basic hunting and fishing facts are told, along with information on major events, the Texas Travel Trails, highlights of Texas history and statistics, plus regulations on visits to Mexico.

Dingwall said, "We think this book will be the most effective tool ever produced for luring more new tourists, and stimulating travel throughout the state. By combining many separate booklets, folders and brochures we'll provide better service to all travelers, and incidentally save ourselves considerable labor, handling and mailing costs."

He likened the book's wide range of interests to a Sears Roebuck catalogue. "This is really a wish book," Dingwall said. "Anybody opening this book, anywhere in the world, is going to wish they were vacationing in Texas."

The new book culminates more than a year of research and production by the highway department. Dingwall said it involved the cooperation of many state offices including the Texas Tourist Development Agency, Parks and Wildlife Department, and State Historical Survey Committee, plus local chambers of commerce and others.

The publication will be distributed at highway department tourist bureaus on the perimeter of the state, and by mail in response to out-of-state inquiries. Due to the great demand for Texas travel information, Dingwall said the book will be reserved for single copy distribution only. He cited more than a million annual visitors at tourist bureaus, plus the department's responsibility for handling some 275,000 mail inquiries, including coupons from the state's travel ads.

The new book measures eight by eleven inches. The cover, a travel scene from the past, is a Frederic Remington painting of an old stage coach. In its topics ranging from caves to mile-high mountains, the book cites nearly 4,000 items of tourist and travel information. Some 400 color photographs illustrate the text, which is supplemented by 10 detailed section maps.

In its initial production run of 200,000 the book required more than 5,000 pounds of ink and 10 railroad cars of paper weighing 186 tons. Running feet of paper through the press totaled 19 million feet, or nearly 3,600 miles.

The River Nile is 4,000 miles long.

Girl Scouts were organized in 1912.

Texas has 115 colleges and universities.

## RETURNS HOME

**Can You Spot The Difference In INSURANCE AGENCIES?**

It's easy. If an agent represents many companies and handles all types of insurance, you know he is fiercely independent. He isn't tied to any one company and by representing many, he can place your business where it's best for you. Working on a commission basis he represents only your interests.

And if he lives in the community, he's local. A local, independent agent is hard to beat.
