Cleaning**

Expert cleaning attention  
adds months of satis-

ment. The cleaning itself,  
by being more gentle and  
careful, does not harm fab-  
rics. By removing every  
trace of grime thoroughly it  
keeps dirt from wearing out  
your clothes. That's eco-

at the place games were enjoyed  
while a delightful dinner was be-  
ing spread by Miss Bess Medlen,  
sponsor of the class, assisted by  
Miss Mae Williams. A very en-  
joyable evening was spent and  
every one declared that this was  
one of the high spots in their  
senior year's program.

**Improvement Work  
Started By Scouts**

The local Boy Scouts began  
their work on the city parks this  
week. Scoutmaster Dick Lewis  
had the land plowed up and ar-  
rangements are being made to set  
a cactus garden and make flower  
beds. Rock walks are to be plac-  
ed across the parks so there will  
be no need of walking on the  
plants which are to be put out  
soon.

New Scout patrol leaders elect-  
ed Wednesday evening are: Rav-  
elle Hall, Billy Nichols and L. J.  
Hurst.

**School Building Sold**

The trades day program Sat-  
urday attracted a large crowd of  
interested spectators to our town.  
The largest prize of \$5 was given  
L. J. Harmon.

The Teepee Flat school house  
was sold by the school board to  
the highest bidder, who was Fred  
Henry.

A rodeo performance also af-  
forded thrills for those who en-  
joy good riding.

Every Saturday finds new at-  
tractions in entertainment and  
reduced prices by all our mer-  
chants. An invitation is extend-  
ed to every one to come with us.  
Enjoy an afternoon of visit-  
ing with friends and shopping in  
our town.

**We are in  
A New Automobile Era!**

Cars built since 1931 have twice the power and speed of ten years ago!

Continental offers you better lubrication for modern cars  
—an \*Alloyed Oil with twice the film strength of other oils!

IT'S hard to realize how improved cars of  
the '30s are over those we drove ten years  
ago. We are in a new automobile era! Power  
and speed have almost doubled in a decade,  
with little increase in motor size.

Increased power has brought enormous in-  
creases in bearing pressures and crankcase  
temperatures. In making motor parts that will  
stand up under these severe conditions, car  
manufacturers have turned to new alloy metals  
of extra strength and durability. For the same  
reason, you must have oil with enough extra  
oiliness and film strength to protect your motor  
under extreme pressures!

Yet motor oils generally have no more oil-  
ness and film strength now than they had ten  
years ago. New refining methods have recently  
come into use to make oils free from carbon  
and sludge. But these new refining processes  
have actually lowered instead of increased oil-  
ness and film strength!

There is one exception—Conoco Germ Pro-

cessed Motor Oil. It, too, is free from carbon  
and sludge troubles, as its users know after  
millions of trouble-free miles of driving. But  
more important, Timken machine tests prove  
that the new Germ Process\* puts into this oil  
2 to 4 times the film strength of any straight min-  
eral oil! That extra film strength protects your  
motor under the most extreme pressures and heat.

Germ Processing gives other valuable ad-  
vantages. Because Germ Processed Oil pen-  
etrates and combines with metal surfaces, a  
"Hidden Quart" stays up in your motor and  
cuts down starting wear. Germ Processed Oil  
gives longer mileage with greater motor pro-  
tection, as proved by the famous Indianapolis  
Destruction Test.

Plain mineral oils were all right ten years  
ago—today they are becoming obsolete. Say  
"O.K.—Drain"—fill with Conoco Germ Pro-  
cessed Motor Oil and drive with the comfort-  
able assurance that your oil meets your motor's  
needs!

There is one exception—Conoco Germ Pro-

Wife—Darling, can you pay me back that dollar you borrowed from me?

Hubby—Why, dearest, I have already paid it back twice. You surely don't expect it again.

Wife—Boo, hoo! Alright, I'll forget that you owe it to me, if you're going to be as mean as that!

said the teacher, "but your composition on the depression is very poor. The statements are not based on the facts, the style is very crude and even the grammar is bad."

"Dad'll be mad when I tell him what you said," replied Henry.

"But you can tell him you will do better next time," responded the teacher.

"Do better!" the boy exclaimed; "why, it was dad who wrote the whole composition and that's the best he can do."

The Public Works headquarters at Washington had just received from a man in the field the following letter, which explains itself: "I'm sending you the accident report on when Mike Casey hurt his foot when he hit it with his pick. The blank has a place for 'Remarks' but what I wish you would explain is whether you want mine or Casey's."

Miss Gushley—I just adore nature, don't you, Mrs. Hi-Hat?

Mrs. Hi-Hat—In moderation, yes. But as one acquaints a wild-animal cattyuh one comes to feel that nature was intended for the low-classes.

Helen—Do you think Uncle George understands women?

Toni—Well, he used to have money, and now he's broke.

A girl from the city was visiting on the farm and was watching with great interest a six

weeks old calf that was nibbling the grass on the lawn. "Tell me," she said, as she turned to the farmer's wife, "does it pay to keep such a small cow as that?"

Ginko—Money, after all, is nothing but trouble.

Gumbo—Yes; maybe that's why so many people have a habit of borrowing trouble.

Old Man (to Reporter)—Young man, you can put it in your paper that my secret of health and long life is to eat some garlic every day.

Reporter—Why do you refer to it as a secret?

Mother—Willie, I thought you said Jimmie McNutt was so rough you weren't going to play with him any more.

Willie—Well, I wasn't going to, but you see, today's his birthday, and his dad gave him a quarter to spend.

Mr. Groucher—Darling, I don't think you ought to give meals to all the tramps when they call here. We can't afford it.

Mrs. G—I know it, but you know it is such a great satisfaction

lon to me to see a man eat a meal without finding fault with the cooking.

Government Examiner—How did you come to mark this man's paper 101 per cent? Don't you know that nothing can be more perfect than 100 per cent?

New Assistant—Yes, but this man answered, one question we didn't ask.

Jack—Does Rannells own his house or does he rent it?

Toni—He rents it.

Jack—How do you know?

Toni—He scratches matches on the walls.
