By Douglas Meador

Candles are yet burning behind the gray curtains of his eyes and there is a pink glow in his cheeks as the coals in an old camp-fire when fanned by the breeze at dawn. Wealth has cushioned the path for his shiny boots, now that they have only a short distance to travel, but he does not seem happy as he listens to the ivory radio on his library table.

Perhaps in the silence at the touch of his fingers, there is a the studios of memory. Cowboys saddles as they ride into the clatter of hoofs and jingling spurs touched by a sage brush on en-chanted prairies. Coyotes shattering the vase of silence holding the starless night and thirsty cattle bellowing through the dust in saddle leather near a tarpaulincovered bed at the change of guard on night herd when the sleet is driven as broken glass tossed by a norther against the side of the chuck-wagon.

One of my pampered aversions is the frequent necessity of shaking hands with a woman. It is management association, inditaste to be haunted by the specter desire to join their neighbors to five percent of the producers base of torn-off calander leaves flut- protect, conserve and increase the production. The payment will tering in a forest of buggy-whips and high laced shoes.

The prevalent courtesy belongs inside the battered walls of that fishes, etc. in a cooperative effort. narrowed stockade with the few They solicit the cooperation of the remaining survivors of a man's world and deserves its faded chevrons of service to the species. For only a man is able to assay the varying contents of character in the rough ore of acquaintanceship when balanced in the scales the wildlife resources of the state. of a handshake.

Like unwanted pieces of driftwood eddied in a pool beside the stream of life, the shanty houses of a town lift their shaggy roofs bravely toward the sky. Perhaps their lights burn less brightly than other homes, but their little fires are warm to a sleeping

TRAIL DUST Plan Started For Interest Of Wild Game

Benefit Of Quail Is Cited; Meeting Set **Tuesday Night**

Fearful of the fate of valuable wild game, landowners of Motley county are actively pushing a more wholesome program from movement for better protection. A meeting of all landowners in singing from choir chairs of their Motley county has been called for 7:30 Tuesday night, September breaking light of a new day, the 28, at the Courthouse, for the purpose of organizing a game management association. A large attendance of enthusiastic landowners is expected.

The movement for protection of wild game is being developed by landlord, date of sale, number of shallow waterholes—or creaking landowners in cooperation with the A. & M. College Extension Service plan. This plan has proved very popular with landowners and sportsmen over the entire state, and millions of acres of land in Texas are already included in game management demonstrations.

In preparing to set up a game vidual landowners indicate their desirable wildlife species of game birds, non-game birds, game animals, fur-bearing animals, adapted Texas Game, Fish and Oyster Commission. the United States Biological Survey, the Texas A. & M. Barbecue Supper

The barbecue supper, prepared by Lion DaFoe Pipkin, in the city park, was greatly enjoyed shortly after the hungry Lions arrived and registered. Lion Pipkin spent almost an entire day barbecueing half or a beef for the meal. Other items on the menue included red beans, hot buns, onions, pickles,

pie and coffee. One of the future activities discussed was an increased group attendance. It was suggested that a "goat plan" be adopted whereby the club showing the poorest attendance at a group meeting would be required to return home with a special attendance goat, keeping and feeding the animal until the next meeting.

NEW YORK FAIR 1939 IN CONSTRUCTION STAGE

NEW YORK (Special) .- The \$900,000 Administration Building of the New York Fair is under roof some 22 months in advance of the exposition's opening date and in August will be ready for occupancy by the hundreds of specialist workers who conduct the business of the "industry" and advance development of the \$125,000,000 world event. The corner stone of this first major Fair building was laid on April 27 in the presence of many notable figures in national life.

The Administration building, shown as progressing in actuality and by an artist's sketch, is the Fair Corporation's workshop and showroom. While the 12161/2-acre site of the exposition is today the scene of much and varied activity, with several exhibit pavilions going up this year, the majority of the 300 buildings necessary to housing the exposition are scheduled for construction in 1938. By midsummer of next year, it is estimated, fully 15,000 persons will be employed in building activities where only a year ago there was nothing but waste land.
