## TAIL DUST

By  
DUGLAS MEADOR

Each star is a window in the lofty retreat where an esthetic, gently closes the silver shutters of time and with a soundless swish of her broad gown returns to a couch beyond the meter-lamp. Drastically she lifts the soft blanket of clouds to her chin and smiles as she gazes for the ecstasy of peace and dreamless slumber.

Poverty is the sharp and often careless shears that clip the wings of many youths after they have studied the height of walls surrounding home. Others build ladders from the tough ropes of their plans and climb over without ever looking back because there is no gammon to plague the course of one certain of his destination.

Yellow lamp-light lay against the mellow walls of the bright little kitchen still echoing of her hurrying steps, her voice and laughter and the same tea-kettle was singing over a wood fire which she might have kindled. Outside the wind in the cotton-woods sounded drear and familiar as if some leaves had been turned back in the book of life, or better, that they had never been turned fore, a vacant orbit humbled by the loss of its star—a deserted road where my mother had passed.

Perhaps some of the beauty of nature is hidden by its obviousness as a sky so blue as to be almost filled by the sun, yet sardonic plaques in founts of tragedy, may be covered by the dust of impatient feet. A small, quivering rabbit under the glaring eye of a black-tongued snake is the most terrifying view from that garish path beside the stagnant pools of fear. Frozen paws on the warm grass as the hypnotic eye of death moves steadily closer and the slimy body bends a blade of grass, then a choked squeal left to float in the thick stream of some unknown agony.

Some men are cowed by the glaring eye of life, as trembling, defenseless rabbits, as the monster comes closer.

There is no method to shut the transom of memory where a tall, dark man often looks through and his white teeth glisten like the bleached pate of a skull rubbed often with lime and wax. He stood grinning by the hog lot after white vapor rose from the big iron kettle and the empty barrel had been trenched in preparedness. He did not speak with the edge of a bright dirk in his hand until a shout was pointed out. The knife was between his teeth when he leaped the fence and in an instant he was twisting the fore leg of the doomed hog. The dirk flashed quickly before it plunged into the flabby throat. He released the hold and stood up, grinning; the white corn shocks were stained; the silence was torn with a soulless sound. The dark man wiped the knife on the leg of his filthy trousers. My hate for him has embraced the soil where ever his beastly feet have trod.

Love is a mighty power that often breaks the brittle timber of the heart, yet passes unseen as the wind.

Molten gold spreads across the flooded delta of time into a tramontane horizon from all roads that bear against the west and a crimson mist is suspended from nadir to that bright period closing the sentence of day. It is the same journeying west on Hollywood's Sunset boulevard, despite all the heedless years between, as this evening when a red disc buried half its surface in the center of a winding asphalt trail up the foothills of the Texas plains. The same blazing omega is on each western path at sunset as a symbol to those who dare to dream.

Happiness ripens best after it has been harvested to season in the shock of memories.

J. A. Bland, Fulkerson's companion who escaped with only minor injuries, said that Fulkerson lost control of the steering wheel when he was thrown against the top of the car and stunned as the vehicle jumped out of the dip at an excessive rate of speed."

is Improving

The Park Committee of the Matador Lions club, which is comprised of H. F. Pipkin, H. M. Cantrell, J. C. Peeler and Earl Laughlin, have begun work on a project to improve and further beautify the city park, located just north of the Methodist church.

More trees are being planted and flower beds are being prepared for planting purposes, as well as a general clean-up of the grounds. ## Luther Ellis Forgery Case Start Monday

### Only One Of Pair Is Left To Face Trial After Delivery

Luther Ellis, charged in connection with forging the name of a prominent Motley county farmer to checks which were passed to Matador merchants on December 19th in amounts totaling about \$130, will go on trial before the District court Monday. His companion, Roy Mooney who escaped from jail February 18, has not been apprehended. Mooney is believed to have stolen an automobile belonging to Foster Fulfer which was appropriated at the same time and later recovered at Enid, Oklahoma. The men had been arrested in San Angelo on January 9th and brought here to await the action of the court.

### Identification Declared

It is declared that the men were identified by local merchants who were defrauded of money and merchandise shortly before Christmas. The arrests were made by Tom Green county officers, after Sheriff L. A. Carlisle had learned that one of the two men suspected of the forgery maintained a home near San Angelo. Mrs. Ellis who was arrested with her husband, was brought here, but released after the examining trial.

The case has been set for Monday, March 22. District Court which is now in session, has a small docket this term, it is declared.

## AUDIENCE WON BY MERITS OF SCHOOL PLAY

### Three Act Comedy Is Well Attended; To Finance Trip

A three-act comedy, presented by students of Matador High School, under the direction of coach R. P. Terrell, won the favor of a large audience which witnessed the performance Tuesday night.

Many declared the play to be one of the best local talent productions ever to be presented here. The well-carried characters showed that they had spent much time in study and preparation and the result of capable direction was also evidenced. It was necessary at times to suspend continuance of the performance until laughter subsided to a place where the character's voices could be heard.

### To Finance Trip

The play, "Here Comes Charley" was offered to provide funds for members of the track and field team to take part in contests to be held in Fort Worth Friday and Saturday. The amount realized from box-office receipts was not made available but is believed to have probably been in the neighborhood of \$25.00.

The cast included Houston Schweitzer, Jr., Fred G. Simpson, Jr., L. C. Groves, Joe Berry Meador, Bob Gilmer, Elva Rhea Willis, Louise Edmondson, Louise Wright, Dorothy Gene Harp and Virginia Estes.

local trio, offered entertainment during the intermissions.

**IT'S ON THE LEVEL: MILE-HIGH MOUNTAIN PEAKS AT YOUR FEET.**

Imagine standing on the brink of a chasm 15 miles wide and a mile deep filled with mile-high mountains whose peaks are level with four feet!

That's the way Carveth Wells pictures the immensity of Grand Canyon—"greatest natural wonder on earth"—the southern rim of which he will describe in the Continental Oil Company broadcast, "Exploring America with Conoco and Carveth Wells," at 6:30 Saturday night over radio station WFAA, Dallas.

"Nothing in all my experiences can equal the tremendous spectacle of the Grand Canyon," declares Wells, who is famous for his world-wide explorations. "It is impossible to compare it with anything else on earth because there is nothing on earth that ever resembles it."

Exciting exploration, he says, can be enjoyed in Grand Canyon National Park, where "you can read a great chapter of the story of creation and even see the footprints of prehistoric dinosaurs that roamed Arizona a good many million years ago."

*Dress Up—It's Spring!* **ORDER A NEW SUIT TODAY** You will receive much pleasure and satisfaction from a new suit this spring . . . get that old dressed-up-and-going-places feeling which a new suit will bring . . . order now . . . quick . . . for Easter delivery and enjoy a suit that is made exactly as you want it made and of material from your own selection. To be well-dressed is to wear S. H. Churchill made-to-order clothes. Have your clothes cleaned and pressed for Easter. **Matador Cleaners**

**LEAVE OIL-JITTERS BEHIND** **GET CHANGED TO OIL-PLATING** Spring's here, but let's not put any loud "new suits" on all the old oil bogeymen. After all, botherless engine lubrication gets down to a few calm facts that are facts. No. 1 . . . You want to be certain that your engine doesn't grind every time you start, while oil is "coming up" from below. Oil-Plating, produced only by Conoco Germ Processed oil, can never lose time "coming up," because it's already there! For the patented Germ Process creates such a powerful attraction between oil and metal that the inside of your engine becomes *Oil-Plated*. And you know that platings aren't runny, but stay up in place. That's the way Oil-Plating will stay up to ward off all the worst starting wear you ever heard of. And No. 2 . . . Whether you've got a "good old car" or the latest thing, you want to make any driving schedule without being nervous about the heat indicator and the oil level. You can easily keep them where they belong. This is exactly why: the Germ Process creates a far stronger normal type of oil film and then checks friction still further by means of modern Oil-Plating—entirely extra . . . exclusive to Conoco Germ Processed oil. Costs no more when you change; costs you less all season. Continental Oil Company

their congregations, and join in early morning worship on this momentous occasion.

**Committees At Work**  
All committees in charge of arrangements under general supervision of Mrs. C. T. Jenkins are diligently at work with the several phases of the outlined program. Mesdames J. W. Ford and Scott Bolton who are in charge of a Junior Choir have begun practice with all children of the community of that age. Mrs. H. H. Schweitzer, chairman of the pantomime committee is working to assemble the cast for that feature, with other committees attending to the grounds arrangements.

It has been suggested that with the establishing of a first outdoor sunrise Easter service in Matador, the custom may continue as an annual affair, the feasibility of which will be determined by response given the service this year.

**YOU ARE DUE GOOD HEALTH, SUCCESS AND HAPPINESS**

But you cannot enjoy these things if you have allowed your system to lag to such an extent that your bowels and liver do not function properly, causing you to suffer with headaches, loss of sleep, backache, coated tongue, bad breath, rheumatic pains, biliousness and gas pains brought on by inactive clogged bowel organs. Lagatone is an efficient stimulant for increasing the flow of bile. Lagatone also stimulates liver action, relieving biliousness, worn out feeling and sick headache caused thereby. Lagatone acts on bowels as a laxative and helps clear out old decayed food waste. Lagatone is a compound of several ingredients. Thus Lagatone is like several medicines in the same compound. No wonder people begin to inform us of the good results they are receiving after using it a short time. If your system is lagging and run down, your food disagrees with you, if you are tired and sluggish and lacking energy, Lagatone will clean accumulated

poisons out of your system and restore your vitality, your appetite and your good health. Go to your druggist today and buy a box of Lagatone and if after you have followed directions, written on the box, for ten days, you are not pleased with the results and if you do not feel new pep and energy, go back for your money. Price, 1 box 36 capsules \$1; 6 boxes \$5. Lagatone is on sale with the City Drug Store in Matador. Please do not accept a substitute for Lagatone, for your own good.
