"Top Kick" Visits With Curtis King

It had been a long time, eight years in fact, since they parted in Seattle, but there were many things to remember, when Sgt. C. J. Tevel Dahl visited Curtis King over the week-end.

Sgt. Tevel Dahl was King's first top sergeant when he entered the army. Within three years Tevel Dahl will be able to retire from the service. He was on his way to Baltimore, Maryland, accompanied by his son, Gary, enroute from the West Coast. "Remember the tavern that was always sold out of beverage, remember the steaks we used to eat together?..."

Kampus Klatter

FLASH: It's a boy for the Quinn Martins. He arrived at the Stanly Hospital, Sunday, April 26. The mother is the former Mrs. Johnson, our former English teacher and basketball coach.

The basketball girls surely are getting impatient—Aren't those jackets ever going to get here? Don't think anything about it if you see them wearing jackets in the middle of August over their swimming suits.

The Juniors and Sophomores have sent off the deposits for their pins and rings, now all they have to do is wait, and wait some more.

The Sophomores have decided that it doesn't pay to cut up in English class. Last Thursday they were cutting up and Mrs. Hurst popped them with a test. It was just an inventory test but it surely made believers out of them. She'll probably have a room full of angels from now on.

Mrs. Bill Waybourn has offered to give the basketball girls a "feed" again this year. Everyone is looking forward to it. It was grand last year.

Last week Mr. Ezzell gave the basketball girls a paper to sign stating that they had not smoked, drunk, or gone to a public dance during basketball season. Those dances surely caused a lot of blank papers to be turned in.

Well, there isn't much school left for this year, is there? So let's all be good little kids, no more hookey—please. We want to get out of school before August.

We're all wondering why Betty Ruth has been all smiles lately. Could it be that Joe's been down? That's reason enough, isn't it Betty?

We bet Mr. Word is wishing for a small New York Yankees baseball team or something similar. But maybe we can make out without them, hey C. H.? Why don't you change into

Bob Feller right fast, that would do.

Has anybody wondered why Jimmy Graham always gets personally on everyone's ideal boy? How much are you paying them Jim.

The students whose Fire Prevention posters are going to the State contest at Austin are C. H. Murphy's, Frances Traweck's Jimmy Graham's and Frank Traweck's. Sure hope one of them wins.

Since editor Emmie Lee Carson wasn't here during the week end, Carol Gordon has been playing editor. Don't blame this issue on her.

That's all that's going on around M.H.S.—See you next week.

Turkey Baseball Team Defeats MHS

Last Friday at 12:30 the M. H. S. boy's baseball team left to go to Turkey to tangle with their team.

C. H. Murphy started the game as pitcher against Paul Hawkins of T. H. S.

Matador was in town first but failed to score.

Dewayne Martin took over the pitching job in the seventh inning for Matador.

The final score was 10-1 in favor of Turkey.

Their next game is with Headley at Headley next Friday. Let's go boys—WIN THIS ONE.

Home Ec Department To Hold Style Show

When May 4 comes you will get a chance to see all the pretty dresses, skirts, blouses, etc., which the Home Ec girls have been working on, as a style show will be held on that date.

Each girl will model two outfits. Girls from the Home Ec I, II, and III groups will model in that order.

We've really been in a rush to get our costumes ready and some of them may be partially pinned on, come style show time.

The show will be in the High School auditorium on May 8, at 8:00 p. m. Oh yes, prizes will be given to the three best seamstresses of each class. We hope you'll all come—It's free.

Junior-Senior Banquet Date Set For May 5

The Junior-Senior banquet will be held May 5 at the high school according to present plans and arrangements.

Entertainment will be provided by the Sophomore girls, who will also serve. The program is to be a surprise (I don't think the Sophomores even know what they're going to do.)

The theme of the banquet will be Mardi-Gras and everyone will be in costume. Sounds like fun, doesn't it?

Freshman Class Enjoys Hay Ride

The Freshman class of Matador High school enjoyed a hay-

ride Friday night, going to Roaring Springs.

They were accompanied by their sponsors, Coach and Mrs. Ray Hopkins, and also Mrs. Albert Traweck, Jr., Mrs. Varner McWilliams and Mrs. Ted Steen. Approximately thirty students aft sponsors made the trip.

Work of A Thousand Years!**

Save Your Precious Soil

NATURE needed from 500 to 1,000 years to form one inch of top soil yet one heavy rain or sandstorm blowing across an unprotected field can undo the work of 1,000 years in a single afternoon!

Proper soil and water conservation methods suggested by proven authorities will enable you to conserve valuable moisture, organic matter and get greater crop yields.

DON'T LEAVE YOUR FIELD UNPROTECTED!

Don't burn cotton stalks or residue. Plant legume cover crops. Take advantage of the valuable service of your Soil Conservation Program.

Of the nation's present two billion acres of agriculturally useful land, 60% is either ruined or badly damaged. Despite soil conservation practices we are putting back into our land only one-third of the fertility which wind, rain and crops take from it each year. As your soil goes, so does your family, your country and your nation!

ARTHRITIS!

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

Garden Club Hears Convention Report

Reports on the state convention of Texas Garden Clubs held recently at Houston, were made Monday of last week at regular meeting of Matador Garden Club, held in the home of Mrs. C. P. Waybourn. Delegates making the reports were Mrs. Freeman Thacker and Mrs. W. W. Clements.

Others who attended the state convention were, Mesdames L. C. Harp, Bob Martin and J. S. Stanley. The Matador group was written up in the convention bulletin for having so many delegates from such a small organization, and for braving the weather (it was near freezing the morning they left Matador) to travel so far. The membership of the local club is 24.

Flower arrangements for the meeting were by the hostess, Mrs. Waybourn who used giant tulips from her yard. Mrs. Harry Willett brought to the club, an unusual attraction which, on examination, proved to be a small cabbage which had sprouted petal-like leaves, while stored in the refrigerator.

Others present were, Mesdames G. E. Hamilton, Loyd Latimer, W. N. Pipkin, U. L. Willie and Seth Sager.

Members were reminded of the pilgrimage to the Santa Rosa Flower Show at Vernon on Friday, May 1st, and of the next regular meeting which will be May 18, in the home of Mrs. Freeman Thacker.

Creed of the Soil Conservationist . . .

I believe God created the earth by His divine processes for the benefit of man, not one man, nor one generation, but mankind for all time.

I believe the Almighty gave man an inheritance of the earth, not to be hoarded as a miser guards his treasure, but to be used with wisdom for the perpetual benefit of all men.

I believe all of mankind, regardless of race or creed, are entitled to a fair and equitable share of the earth's bounty commensurate with their own efforts. But in so believing, I hold the irrevocable conviction that man himself owes earth a debt of respect and fealty.

I believe that whatsoever a man soweth, that shall he also reap; that he who manages his fields, pastures, woodlands, and streams with respect and wisdom shall reap the bountiful harvest, and so shall his descendants, while he who uses them selfishly, thinking only of his own immediate gain, shall bring to grief his land, himself, and his children's children.

Therefore, I dedicate myself to the task of helping my fellow man realize his own personal responsibility in conserving the earth for the generations which follow. To this end I shall devote my best knowledge in guiding the efforts of others who used the soil so that the land which nurtures us shall be fruitful without end.

For truly, the earth is the Lord's and the fullness thereof, but the responsibility for its stewardship is vested in man.

MOBILGAS ECONOMY RUN FLASH!

FORD BEATS ALL IN ECONOMY!

MILEAGE MAKER "6" WINS SWEEPSTAKES!

Score a blazing victory for Ford's dollar-saving gas economy! Ford's high-compression Mileage Maker "6" with Overdrive beat every car entered in this year's Mobilgas Economy Run, regardless of size or weight, to sweep the sweepstakes! Ford's winning average was 56.70 ton-miles per gallon. * And Ford's high-compression 110-h.p. Strato-Star V-8 with Overdrive was right up there in economy, too, with a record of 48.55 ton-miles per gallon!

The winning Ford was a regular production car, just like thousands of other '53 Fords you see on the road today. This 1,206-mile trip from Los Angeles to Sun Valley covered all types of driving conditions. The route threaded through city traffic, where stop-and-go driving tests an engine's fuel economy under the toughest conditions . . . and out along the highways of four western states.

The Ford Mileage Maker "6" took all this in stride, maintaining a speed above the required 44.25 m.p.h. minimum, to finish 1st in the sweepstakes! What better proof is there that Ford is the thriftiest car of all? What better way to show why Ford is worth more when you buy it . . . worth more when you sell it!

OFFICIAL  **PROOF!**

FORD 101-h.p. Mileage Maker "6"
WITH OVERDRIVE

56.70
TON-MILES PER GALLON*

Ford is the first car in its weight class . . . in the history of the Economy Run . . . to win top honors in ton-miles per gallon over all other cars regardless of size or weight.

*The AAA Contest Board determines the winner by a "ton-mile per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles traveled, divided by number of gallons of gasoline consumed.

Happy Is the Room-Divided!

The problem of housing a boy and a girl in the same room may be solved for a while by constructing a modern storage wall. This may be made of a panel material that combines economy, good looks and long wear—Masonite tempered hardboard. The youngsters in the room shown now have their own closets with sliding doors made of a new material, Presply. Lumber dealers can supply the wood framing members, the tempered hardboard and the Presply, as well as the hardware and paint. **DULT HOME EC
CLASS TO STUDY
SHOP METHOD**

Home cooking is always at a premium, but "homey-looking" sewing is never to be desired. Women and girls of the community who are not enrolled in school will have an unusual opportunity this summer to improve their sewing technique, in an adult homemaking class which will be conducted by Mrs. L. Fair, High School Home-making teacher.

Mrs. Fair will employ the shop method of sewing in her class, she has announced. This is the method that stresses speed and proficiency in professional finishes on a garment, and emphasizes proper pressing and blocking during the making of garments, as well as careful measurements and accurate cutting.

Other phases of sewing to be taught will include putting in buttons from the inside, hemming by machine without attachment, and making smooth interfacing in suits.

The class will begin as soon as school is out, and all who are interested in enrolling are requested to contact Mrs. Fair at her home.

More about Easter birthdays... Those having birthdays on April 5, which fell this year on Easter Sunday, will not experience this again until sometime past the year 2000, according to a calendar which Mrs. Colquet Warren has in her possession.

"fill'er up... with GUNPOWDER!"

He might just as well order that as gasoline because his speeding automobile can be as dangerous as a loaded gun! Accident reports show that speeding is the most frequent cause of motor vehicle deaths. Make it a point to drive at safe and legal speeds. Always! CAREFUL DRIVERS LIVE LONGER!

April 5th for their birthdays are Karmen Jenkins and Patti Craven, who are practically twins, having been born an hour or two apart 12 years ago; and Dean Stotts, who celebrated his 19th birthday this year.

People born on April 7, will have an Easter birthday in 1985 and again in 1996. The last time that date fell on Easter was in 1910. April 9 was Easter Sunday in 1950, but this will not happen again during this century.

Painting by Fred Stanley which won for him the award of "Who's Who" in the art department at San Marcos Academy, is on display at Stanley Pharmacy. It is an excellent pastoral landscape, reflecting a meditative mood.

Fred began his art training under Mrs. E. J. Barker of Floydada three years ago. Mrs.

Barker says he was outstanding in his drawing, and later ink work and etchings before he began oil paintings and originals. Fred studied with Mrs. Barker until last September when he entered the academy.

Recent visitor in Matador was Mrs. Louise Allen, head of the Journalism department at Texas Tech, Lubbock, who authors the column, "Lipstick Logic" which appears in a number of daily and weekly newspapers in this area. The column has a popular following and is widely quoted by papers other than those using it as a regular feature.

Violets and pansies furnished us by Fred G. Simpson, Jr., and roses brought by our next-door neighbor, Mrs. Hawley Plemons have kept our breakfast table cheerful and our spirits both buoyant and humble at this thoughtful sharing of nature's

handiwork by our friends. We are constantly reminded that "A thing of beauty is a joy forever".

A cute and chatty letter from Cpl. and Mrs. Leo Archer tells us how much they are enjoying the Tribune and also tipped us off to the fact that Tresa McDonough had been a recent visitor to the coast. The Archers are comfortably situated at 1901 1/2 North Main, in Santa Ana, Calif., where they are dreaming of the day in October when Leo will receive his discharge from active duty in the Marine Corps. Mrs. Archer—the former Joyce Martin was our Girl Friday here at the Tribune for approximately two years, during which time we grew to love and appreciate her in all of her various and interesting moods.

It is often stated in these dry,

West Texas parts that it rains so seldom that small children do not recognize the falling water. This actually happened. Our small nieces Donna and Dale, coming here from an even dryer section in the Permian Basin, were visitors when the last sudden rainstorm hit recently. Watching the rain as it poured off the eaves, Donna seriously asked, "Uncle Ben, is it real water?"

"Is the money for the Confederate soldiers?" asked Toni Sheats of her Aunt Nell when the collection plate was passed in church recently.

CHALLENGE TO THE INDUSTRY
-the new GMC 400-27 that outpowers and outclasses its field

GMC's new 18,000 GVW hauler not only dwarfs trucks of 16,000 and 17,000 GVW, but overshadows—and underprices—those rated at 19,000. In fact, the GMC 400-27 is designed to outhaul any truck up to 19,500 GVW. Its new engine of progressive design is stripped of excess weight, yet built stronger to absorb the stress of really high compression. It gives you brisk

response, more power and mileage from regular gas. It includes, as standard equipment, many features that are optional at extra cost on other trucks. As a tractor—or as a truck—it can increase your hauling ability, give you impressively better equipment—and save you both purchase and operating money to boot.

130 GROSS HORSEPOWER—on money-saving single carburetor. Valve-in-head engine, 270 cubic inch displacement, 7.5 to 1 compression ratio.

13,000 GVW—137" or 149" wheelbase in tractors; 161", 179" or 197" wheelbase in trucks (9- and 12-foot platform or stake bodies optional).

Rev. L. W. Baker, pastor, conducted the services. Pallbearers were Austin Tanner of Flomot and Guy Smith of Quitaque. Flower girls were Virginia McGann, Beverly Purvis, Jean Green and Judy Gunn.

Popular TV Number Was "In The Book"

The Tribune regrets that lack of space prevented using the entire cast who performed in the eighth grade television program. Remainder of the story is as follows:

Bringing the program to a foregone conclusion was Glynda "In The Book" McWilliams.

Commercials had spots on the program, all very convincingly and personally sung.

Television parts were pantomimed to the accompaniment of recordings, with Sue McCabren as announcer. Technicians were, Charles Renfro, Barbara Waybourn, Clay Jameson and Donald Green, and Mrs. Bennie Keltz was the artist responsible for the colorful marine "props".

Mrs. J. E. Edwards, class sponsor, directed the performance.

Mr. and Mrs. Warren Tilson of Lexington, Va., were visitors here Monday of last week. They were accompanied from Denton by his mother, Mrs. W. R. Tilson, and visited here with another of her sons, Tom Tilson.
