### Schools Boomed in 1927

by Marisue Potts

The year was 1927, and excitement was in the air. Lucky Lindy, Charles Lindbergh, soloed across the Atlantic in his Ford Tri-motor airplane, making headlines all over the world. Automobile history was being made as the new sleek Model A Ford replaced the Model T Tin Lizzie.

At home the school bells were ringing in fourteen schools across the county for 1,684 students, five times the number registered in 1922.

In that pre-depression era, before the advent of good bus transportation over paved roads, a total of four students were taught in a one room school at the remote and isolated Bird Ranch.

With enrollment swelled by the children of farm laborers necessary for crops

which utilized mule and horsepower and required hand picking, tiny schools of two to four rooms nurtured 48 at White Star; 65 at Flag Springs; 42 at Darden Canyon; and 71 at Follie. Barton community boasted that 67 students were in attendance at the red brick school on the hill. Fairview counted 57, and Montgomery 19. Lambert had no students that year but the Northfield community school boomed with 105 students.

While both the Whiteflat and Flomot schools registered a number comparable to our entire county school today, 234 and 262, respectively, Roaring Springs and Matador each far exceeded the quota with 323 and 387.

During the year the Matador School system would purchase another frame building for the Colored School.

Looming in the near future was the

Stock Market Crash of 1929. Farmers compensated for the economic depression and falling prices by planting more crops. The county's school enrollment reached an all time of 1,821. However, an oversupply of cash crops forced prices even lower, creating a mass exodus of farm workers and farm families to the cities. The hand writing was on the wall, and the number of people in the county continued to decline, and with that the number of students.

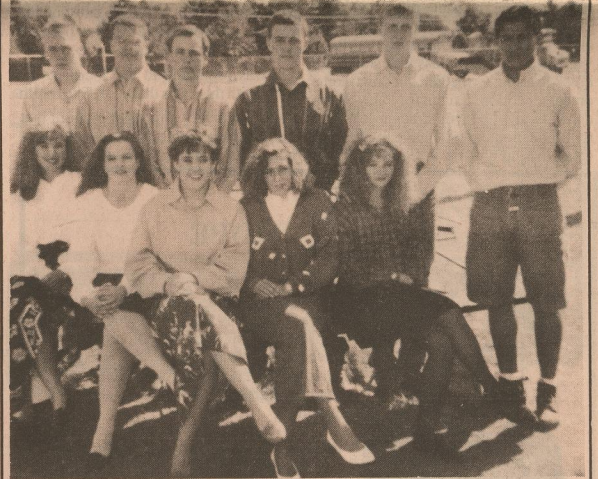

Today one county wide facility, the Motley County Independent School in Matador, gathers approximately 287 students from 991 square miles to attend the consolidated school.

Rebuilt after the devastating tornado of 1984, the modern air-conditioned building houses grade school and high school, divided by a combination gymnasium

and auditorium. Hot lunches have replaced the syrup bucket with a biscuit from home, and the uncomfortable school wagons have been superceded by streamlined buses. Yet educators face the age old battle of inspiring students to learn, just as they did in the one room school.

### Garland Cartwright Named As New Supervisor

Garland Cartwright has been named Road Maintenance Supervisor II of the Texas Department of Transportation for Motley County.

Cartwright worked part time for the Motley County Department since 1957 and full time since 1963. He has been Assistant Foreman since 1969. Cartwright is a graduate of Matador High School, Class of 1957. He is the son of Pearl Simpson of Matador. He and his wife, Judy, have one daughter, Mrs. Tina Bateman and one granddaughter, Christina, of Dallas.

MOTLEY COUNTY MATADOR, Jeremy Jones makes a tackle and puts a Lorenzo Hornet on his back in last Friday night's game at Lorenzo. Despite the Matadors loss to Lorenzo, they have plans to win their Homecoming game against O'Donnell this Friday night at 8:00 p.m. Pre-game activities will begin at 7:30 p.m.

### Community Health Center Week To Be Observed In Matador

According to polls conducted in connection with this year's presidential campaign, Americans worry about their access to health care. Their worry is not unreasonable. A recent study by the National Association of Community

Health Centers found that, in 1990, 51 million Americans were at risk for medical underservice, with 35 million having no insurance at all.

"During the past year we have seen an increasing number of families who have

lost their jobs and who cannot afford to pay for health insurance," said Henry Hawley, Executive Director of South Plains Health Provider Organization in Plainview, "but we know that there are a

## Revival Music Led By Richard Campbell

Music for Revival services on October 4-9 at Town West Baptist Church in Lubbock, will be led by Richard Campbell, music evangelist. Leading the services will be Rev. William M. McGraw, pastor of the church and a retired Air Force chaplain.

A native of Matador, Campbell is in demand over a wide area of the state, and beyond, as music evangelist. His witness is unique as he injects his personal testimony and expressions of praise in the songs he sings. He and his wife, Ann, are parents of three daughters and a son, and he is frequently accompanied by daughter Jana, on special musical occasions.

Richard is the son of Mrs. Lucretia (Estes) Campbell, and the late R.E. Campbell, Jr. He is a graduate of Matador

High School, class of 1965, and of Texas Tech University, where he was active in the Christian Athletes organization.

## Public Notice

Southwestern Bell Telephone Company has asked the Public Utility Commission of Texas (PUC) for approval to offer new optional call management services called Caller Identification Service (Caller ID) and Anonymous Call Rejection (ACR).

Caller ID is a new optional phone service which allows subscribers to see the phone number and/or name of most local calls before they answer the phone. Caller ID also allows the recording of the date, time, name and/or phone number of calls. Currently, Caller ID would work only on most local calls, not long distance calls. It would also require that a separate display unit be connected to the telephone. These units that attach to the telephone will be available from various retail vendors, including Southwestern Bell, at a cost starting at approximately \$50.

Southwestern Bell is also proposing that all customers be able to "block," or stop their name/number from being transmitted and displayed on a Caller ID device, free of charge. You would have this option of "blocking" your name/number on each call free of charge. There would be no need to subscribe to this service. All customers would have this capability when Caller ID is introduced in their area.

If you want to block your name or number, you need only press \*67 on your touch-tone pad (or dial 1167 from a rotary phone) before dialing the telephone number. The person you're calling would see displayed a message such as "private" or "anonymous" on their Caller ID display unit.

Southwestern Bell also proposes that qualified domestic violence and law enforcement groups have the option of free per-line blocking, or free per-call blocking.

Anonymous Call Rejection (ACR or "block the blocker") allows subscribers to automatically reject all calls that have been marked anonymous, or "blocked" by the person calling. It is not necessary to subscribe to Caller ID Name/Number to subscribe to ACR. With ACR, your telephone will not ring if the person calling you has "blocked" his/her name or number. The person calling whose identification is blocked will receive a message to hang up and call back with caller identification unblocked. Following are the proposed monthly rates for Caller ID and ACR.

Proposed Rates (monthly)*	Residence	Business
Calling Number only	\$6.50	\$ 8.50
Calling Name only	\$6.50	\$ 8.50
Calling Name & Number	\$8.00	\$12.00
Anonymous Call Rejection	\$3/\$1**	\$3/\$1**

\* These rates are in addition to the initial installation charges and monthly basic service rate. For residence customers, installation charges are \$2.70 per feature, with a maximum charge of \$5.40. For business customers, the charges are \$5.40 per feature, with a maximum charge of \$10.75.

\*\* Anonymous Call Rejection is \$3 per month if purchased without Caller ID and is \$1 per month when purchased with Caller ID Name or Number.

This proceeding has been designated Docket No. 11362, and a hearing on the merits has been scheduled for November 16, 1992. The PUC has jurisdiction to consider this matter pursuant to Sections 16, 18, 37 and 38 of the Public Utility Regulatory Act (PURA). This application was filed pursuant to the provisions of the PUC's Substantive Rule 23.24. Among the issues that will be addressed in this proceeding is the legality of the Caller ID device and service under Texas wiretap laws.

Persons who wish to intervene or otherwise participate in these proceedings should notify the PUC as soon as possible. The deadline to intervene is October 26, 1992. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the PUC Public Information Office at (512) 458-0256 or (512) 458-0221 teletypewriter for the deaf.

### MEDICAL NEWS

Mrs. Gid (Doris) Simpson was conveyed by ambulance, Tuesday, Sept. 22 to Methodist Hospital in Plainview after suffering a heart attack and stroke. She was moved from I.C.U., Saturday to room 222. With her during her hospitalization are husband, daughters, Mrs. Cindy Atkinson of Mineral Wells, Mrs. Belinda Smith of Paducah and Mrs. Merritt Smallwood of Matador.

Jack Green, a patient at Methodist Hospital in Lubbock, had kidney surgery, Monday, Sept. 28.

Mrs. Jimmie Don (Sarah) Hurt accompanied her grandmother, Mrs. W.T. Gwinn to Lubbock, Monday for a cardiac check-up. They visited Mrs. Larry Crouch and Ms. Michelle Bearden before returning home.

Mr. and Mrs. Mack Jacobs of Houston visited her last week from Sunday until Tuesday with friends and relatives. They were house guests of Mrs. W.N. Pipkin, sister of the late Vivian (Mrs. W.F.) Jacobs, and visited also with her other sisters, Mrs. Robert Darsey and Mrs. R.E. Campbell.

Mr. and Mrs. Charles Robert Keith of San Pedro, California were recent visitors here with his parents, Mr. and Mrs. Charlie Keith, who accompanied them to Georgetown to visit the former's daughter, Elizabeth and family, Mr. and Mrs. John Schmalstieg and four-month-old baby son, Jack. On Sunday, the group were guests of Mr. and Mrs. M.H. Half of Austin, Mrs. Schmalstieg's father and step-mother.

### FORMER RESIDENTS SEND GREETINGS TO FRIENDS

While visiting in Georgetown recently with their granddaughter and family, Mr. and Mrs. Charlie Keith also visited in Temple with former Matador residents, Mr. and Mrs. B.F. Harbour (Brunie and Jean), who sent greetings by the Keiths, to friends here. The Harbours were faculty members in the Matador schools in the late 1920s and early 1930s. The eldest of their four sons, Brian, is pastor of the First Baptist Church in Richardson.

They are residents of the Temple Meridian Retirement Home and Care Center, with Mrs. Harbour maintaining their apartment and he being cared for in the Center. Although in frail health, Mr. Harbour was able to visit and enjoy seeing their former friends from Matador.

Mr. and Mrs. Owen Strickland of Spring, visited during the weekend with his sister, Mrs. Edgar Lee. They were joined here by their son, Lynn Strickland, also of Spring.

Mr. and Mrs. Bert Ezzell and Johnny Bert of Abilene were visiting in Matador on Tuesday.

Mrs. Harold Campbell, State Scholarship Chairman, TFWC, and Mrs. Robert Dickson, Trustee Historical Foundation, TFWC attended Texas Federation of Woman's Clubs Fall Board Meeting in Austin, September 20-22.

Grant Carlson's sister, Frances Sherrod and a friend, of Lubbock, visited with him for the weekend. They also visited Mrs. Elga Evans and Roger.

And now abideth faith, hope and love, these three, but the greatest of these is love.

by Mary Hamilton Meason

It seems impossible that this class graduated from high school fifty years ago! To me, they are still the little children I taught in the third grade the very first year of my teaching career.

There are a number of the '42 class whom I did not teach as there are some who are transfers from other schools.

That first year of teaching was a nightmare for me, at least the first half of the school year. I was so afraid I would do something wrong, or that none of the children would like me!

And to make things worse for me, and for Dorothy Wason, also, - she fell off the merry-go-round and broke her arm. I was petrified and felt that I would be blamed, then fired immediately! That \$60 a month pay check looked very big. But her arm healed, I survived, and from that point on teaching became easier.

I loved all these third graders but I never really enjoyed teaching that age group because the same thing had to be gone over and over, and repetition was always, and still is, boring to me. But I was fortunate. This class was smart and quick learning so that did cut down some on the repetition. Except for Patsy Sheridan. I thought he would never learn the multiplication tables! I gave up, his parents gave up and we decided he would

never learn them. But just as we gave up and considered him a lost cause, he came to school one morning and knew all the multiplication tables perfectly!

Ella Mae Chambliss had to miss many days of school, but she always made the very best grades. I could never understand how she did it, but she was certainly a good student.

Glen Allen was the clown of the class. He always brightened my day with his pranks and mischief, and kept me laughing at the things he would do and of course the whole class loved all his antics. One April Fool's Day I wanted to pull a trick on Glen, but as the day wore on I felt that my chance was slipping away, but finally he did something that I would never have punished him for, but I used it as the prank I wanted to pull on him. I called him up to the front of the room, had him lean over a desk, and drew back with the belt I used on such occasions, then said, "April Fool!" then turned the children out for an extra play period. Poor Glen, he was so pale and his freckles so prominent! All the children appreciated that prank.

I was promoted to the fourth grade along with this class that year. The fourth grade was a very important grade at that time, as more subjects were added and there was a more difficult change in

subject matter. But at that time, the pupils had learned phonics in the first three grades, they knew their multiplication tables through the twelves and were adding short three and four columns of figures and they could read very, very well. They could spell, too.

After that one year of teaching in the fourth grade, that grade was put into Departmental work, and I had the pleasure of teaching this class several subjects until they graduated from Elementary School.

Junior Pitts was the most stubborn child! Sometimes it would take a threat or two to get him moving in the right direction, but he was an excellent student every year that I taught him.

Jimmie Lee Guthrie was such a pretty little girl - the boys all thought she was, too, and she always made beautiful grades.

Now the three musketeers were something else! Billy Tunnell, Bert and Patsy, could always keep things stirred up, and where you saw one you saw all three together.

One morning Billy came to school with a "beaut" of a black eye and when I asked who gave it to him he said, "Bert did it." I didn't task, but I was sure they had fought over Dorothy Wason. You should have seen the stack of Valentines Dorothy got that year.

James Turner was my little loud mouth. I always thought he should have been a politician or a barker at a carnival.

When Phil Green was in the third grade I predicted that he would be either a banker or a mathematician. He could have three columns of figures added by the time I finished adding two columns. He became a banker. I believe he can!

have been an artist, too. Every paper he ever handed in to me had a horse's head drawn on it, and every head was perfect.

Jackie Catlin was another one that no teacher could ever forget! He was always doing something that he shouldn't have been doing and sometimes it would take a little persuasion to get him back on he right track! But he was a fun kid to have around - he broke the monotony of repetition.

James Lee Day was certainly a student. He didn't go in much for athletics, roller skating, marbles or tops, but nothing but A's ever showed up on his report card.

W.A. Rattan was such a handsome boy and he was smart, too. When he came to Matador to school he was just recovering from Polio. I remember how the children surprised me. They can be so cruel to other children sometimes, but one day on the playground someone suggested that

they play wolf-over-the-river, and another boy spoke up and said, "No, lets play something Dub can play." Evidently, W.A. was not supposed to run. The children always played their running games when W.A. was absent. Even though he was not crippled in any way, the children knew he wasn't supposed to run. That made me love them more.

Mavinee Russell was quiet and studious and made good grades. (A far cry from her brother, Lonnie, Little Chick). Mavinee could run like a rabbit and it seemed to me she was always the last one caught in the running games.

Frank Price was rather shy but I found out early that he was always ready for any mischief that others thought up. And what beautiful grades he made.

Johnnie Griffin was one of the happiest little girls I ever taught, and she was another one that was always ready for anything. I saw her last year for the first time since she left Matador and she was the very same Johnnie.

Wanda Nelson nearly scared me to death one time. She was asthmatic and up to that time I had never had any experience with asthma. One day Wanda had a very severe attack and I thought she was going to die before she could draw her next breath. Her mother had told me that if Wanda ever had an attack to get her sister out of high school and she would take her to the hospital. You can believe I did that very hurriedly.

Janelle Jackson was a very sweet and talented little girl with the bluest eyes and the blackest hair and she could sing like an angel. She entertained us in the third grade many times with her singing.

Dorothy Kingery was a little girl with the prettiest dark red hair and the brownest eyes. She was a sweet, easy going girl, but when she got mad she let everyone know it, and how those brown eyes would snap with anger.

Bennie Wayne Marshall was very quiet and easy going but if she became angry with someone she could put them in their place in a hurry!

Jimmy Joe Latimer was always so quiet that I hardly realized that he was in the room. But I found out that he was always ready for anything that the other children stirred up.

Marshall Lee Morton seldom caused any kind of disturbance, but if someone else started something that appealed to him even if it was good or bad, he was always ready to carry on with anything.

Billy Pharis was another quiet one but he could always help keep things stirred up if someone would just get it started. I'll never forget any of the children I have taught. I may not recognize you if I haven't seen you in many years, but forget you - never!

I've always said that teachers learn more about teaching by teaching than they ever learned in college about teaching. That is a case of where experience is the best teacher.

And Girls this is for the record - I did not like the boys better that I liked you!

I had two older brothers and no sister. I had no one to play dolls with, no one to cut out paper dolls to play with. But the truth is cutting out paper dolls was so boring. My brothers taught me to play baseball, football, marbles, tops, roller skate, outlaw and Sheriff. When I was the outlaw they taught me to smoke cedar bark and coffee. They also taught me how to shoot and how to track animals and birds and which track belonged to which animal or bird. I never got to play girl games.

But I want to remind you of the times I roller skated with you girls and the thousands of games of jacks I played with you sitting on those cold, hard concrete steps. And paper dolls! The year I taught Ann Harp, Patti Pipkin, Sarah Springer and other girls. I must have cut out hundreds of paper dolls! We must of had a very bad winter that year and the children couldn't go out and play so we cut out paper dolls! So won't you please quit accusing me of being partial to the boys. I was just partial to the games they played! Have a happy Homecoming and please speak kindly of me!

## El Progreso Club Meets

El Progreso Club met Thursday, September 24, 1992 on the lovely patio at the home of Mr. and Mrs. E.A. (Dorothy) Day. The yard was manicured to perfection, the flowers were blooming in hanging baskets with greenery trailing throughout the meeting area. What a beautiful Fall afternoon to meet for the first time of the Study Club year.

The meeting was called to order by the club president, Mrs. Dale (Joetta) Bumgardner; announcements were made pertaining to a room to be furnished in the museum; the Santa Rosa District workshop to be held in Crowell at the Methodist Church on October 10; recipes to be submitted for a GFWC cookbook; and on October 16 the club will serve the County Clerks when they meet here. With Mrs. Harold (Grace) Campbell leading the Clubwoman's Song, the group enjoyed its tune and words. Mrs. Pohl accompanied the group on her Casio.

Mrs. Campbell, as leader gave a report on the TFWC workshop held in Austin, attended by she and Mrs. Bob (Jo Ann) Dickson. Mrs. Campbell serves on the State Scholarship committee relating that they would be less in number because of the smaller percentage the C.D.'s are drawing. She then introduced the Santa Rosa District president, Mrs. Juanita Davis, of Century Study Club in Quanah. Accompanying Mrs. Davis was Mrs. Leita Jo Haynie of Crowell Adlephian club and former district president. Mrs. Davis, a

retired teacher lives in an old home which she is remodeling/restoring and that takes much of her spare time. She does volunteer work at school reading to the young people, stating stories offer adventures to them. She now has a body-toning salon using passive exercise. While here, Mrs. Davis distributed the "Call" to the workshop to be held in Crowell going over the agenda. Mrs. Haynie told of the place where it is to be held and the food to be served, catered by a local person and declaring it will be delicious.

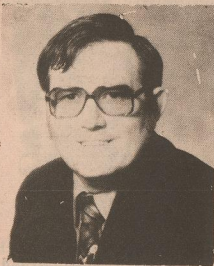

Mrs. Dickson stated how glad she was to be back in Matador and belong to this club again, although she was never off the roll, but now she can be active again with El Progreso.

The table under the umbrella was laden with finger food, brought by the officers of the club. No one went away hungry for there were many different types to be had, served with delicious apricot punch and coffee.

Those attending other than those previously mentioned were Mrs. George (Sue) Seigler, Mrs. Robert (Winifred) Darsey, Mrs. John (Josephine) Hamilton, Mrs. Frank (Lola) Phol, Mrs. Harry (Pearl) Patten, Mrs. Joe (Loys) Campbell, Mrs. W.N. (Opal) Pipkin, Mrs. Furman (Berferly) Vinson, Mrs. J.E. (Marge) Edwards and Mrs. R.E. (Lucretia) Campbell.

The meeting closed with all standing and reading the club "Collect".

### HOPE

There are few things more intangible than hope. Yet hope is that which quickens our setp, lightens our load, and lifts our eyes to see better and brighter tomorrows. Hope straightens the bent form, lifts the bowed head, and strengthens hearts which are fainting.

We are charged to "be ready at all times to give an answer to every man that asketh you a reason of the hope that is in you, with meekness and fear." (1 Peter 3:15). Surely it would be worthwhile to tell others that our Lord Jesus Christ is the hope of the world.

Our hope comes from the relationship with Jesus which we have through our faith and obedience. The Bible tells us in 1 Peter 1:3 that God "according to his abundant mercy hath begotten us again unto a living hope by the resurrection of Jesus Christ from the dead."

It would be impossible to convey all the blessings derived from hope. Our lives are molded and colored in so many ways by this intangible from the Lord. Hope becomes an anchor in this life. "Which hope we have as an anchor of the soul, both sure and steadfast." (Hebrews 6:19). Life is not brought to a sudden shipwreck where there is an abiding hope. The ominous foreboding of the present will not engulf us if we have a hope of something better ahead. As long as our eyes are fastened on heaven, the storms of this life will never drive us from our charged course. Surely we would want to lay hold on the "hope of glory" which is Christ in you. "Now the God of hope fill you with all joy in believing, that ye may abound in hope, through the power of the Holy Spirit." (Romans 15:13)

### THREE GOOD REASONS TO GO THROUGH CD WITHDRAWAL

1. RATES 2. RATES 3. RATES

How do you feel about locking in an interest rate when rates are at a 26 year low? In fact, when you consider inflation and taxes, the real return on your CD can be negative. With Delta tax-deferred annuities, if the rate Delta earns on your money goes up, the rate you earn goes up. Guaranteed.

## OPERATION WISE BUY: FINANCING COLLEGE.....

As the new school year begins, parents are more aware of the need to plan ahead for their children to get a college education. With the current low interest rates, it may seem like a futile effort to plan savings. However, there's one rather safe and attractive option consumers may be overlooking.

An option that's particularly attractive today is Series EE U.S. Savings Bonds, which earn at least 6 percent. Since 1990, interest on Series EE Savings Bonds may be exempt from Federal income tax if you pay tuition and fees at colleges, universities and qualified technical schools during the year the bonds are redeemed. The exemption applies to more than the education of your children. It can apply to your own higher education as well. That can be particularly valuable to adults thinking about career changes.

Series EE Bonds can be obtained as a payroll deduction, which makes saving easier for many consumers.

Buying early is buying wise. The minimum you can expect to accumulate by the time a child is age 18 is over four times as great by starting at age one rather than waiting until age 12. Buying a monthly Series EE Bond valued at \$50 will accumulate to \$17,356.08 by age 18. This compares to a savings of \$10,328.96 if you wait until age 6 when the child starts to school and the only \$4,226.88 if you wait until they enter middle school at age 12. If grandparents or a second parent match this with another \$50, the \$100 bond monthly reaches a value of \$34,712.16 over 18 years.

By the year 2006, a single year of higher education could range from \$17,000 to as high as \$37,000. Starting early and saving through a tax-saving option could be called "operation buy

wise" for educating children.

**Operation Wise Buy: Consumer Credit.....**

A new service is available to assist Texas consumers with credit questions and problems. Al Endsley, commissioner of the Office of Consumer Credit has established an 800 Consumer Credit Hot Line.

For information about consumer credit, help or advice about credit complaints or problems, call 1-800-538-1579. Service is available in Spanish and English.

To make the most effective use of the Hot Line, consumers should prepare for the call. If possible, have the following information in writing and at your fingertips when you call:

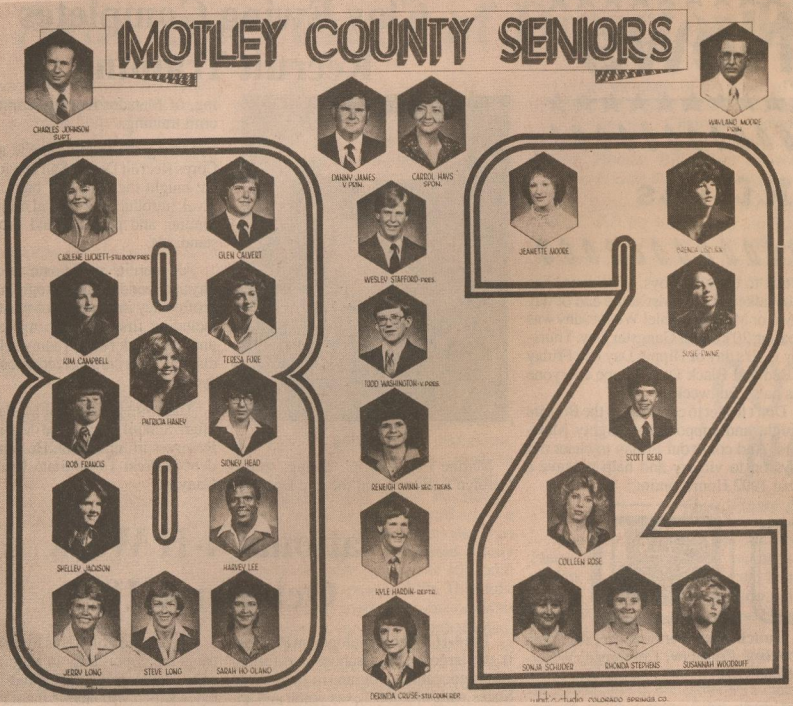

— A brief description of the problem...just the facts about what the problem is, when it happened, and steps you have taken to try to resolve the problem.

— Name, address and phone number of each person you have worked with to try to solve the problem.

— Copies of receipts and letters that document your view of the problem and steps you have taken to solve the problem.

Educational programs conducted by the Texas Agricultural Extension Service are for people of all ages regardless of socio-economic level, race, color, sex, religion, handicap, or national origin.

**THOUGHT FOR THE DAY:** Just for today - I will have a program. I might not follow it exactly, but I will have it. I will save myself from two enemies - hurry and indecision.

Library School will be October 13, 1992 at 10:00 - 11:00 a.m. in the Library. All pre-schoolers are invited to attend and parents are encouraged to come with the younger ones especially.

Recent visitors from out of town include the following: C.W. Berger and Geneva Bragg of Paducah, Texas; N. Crichton of Adelaide, Australia; and Charles and Joan Keith of San Pedro, CA. We appreciate these folks coming to visit our Library and encourage everyone to bring their visitors for a visit.

I would also like to thank Winifred Lee for putting in window displays and using the display case for a Homecoming theme. Come by and see our tribute to former students.

Remember adult education and GED preparation classes are being held each Monday night at 7:00 - 9:00 p.m. at the Library. These classes are free and are open to anyone that would like to work toward a better education.

1992 dues for Friends of the Library may be paid at the Library or given to Mary Meason, Treasurer.

# Public Notice

Southwestern Bell Telephone Company, in accordance with the rules of the Public Utility Commission of Texas (PUC), hereby gives notice of the Company's intent to implement a new schedule of telephone rates in Texas for optional Custom Calling Services and Touch-tone service, effective March 15, 1993, unless otherwise determined by the PUC.

These proposed rates will not increase or decrease the Company's overall revenues; the net effect will be neutral to the Company's annual revenues.

The Company proposes to decrease the rates for Touch-tone service for residential customers from \$1.00 to 68 cents, and also to reduce the Touch-tone rates for business customers from \$1.75 to \$1.70. In addition, the Touch-tone rates for business PBX trunks will be reduced from \$3.15 to \$2.18.

This proposal to decrease the rates for Touch-tone service does not change the commitment that the Company made in the Docket No. 8585 Stipulation to reduce the rates for Touch-tone service in 1993.

The Custom Calling Services affected by the Company's application are optional telephone service arrangements that provide the following features: Call Waiting, Call Forwarding, Three Way Calling, Speed Calling-8 and Speed Calling-30. Following are the feature combinations and their current and proposed rates.

One Feature per line	Residence		Business	
	Current Rate	Proposed Rate	Current Rate	Proposed Rate
Call Waiting	\$2.10	\$2.85	\$2.65	\$3.25
Call Forwarding	2.10	2.10	2.65	3.50
3-Way Calling	2.10	2.10	2.65	2.50
Speed Call-8	2.10	2.10	2.65	2.50
<b>Two Features per line</b>				
Call Waiting, Call Forwarding	3.75	4.25	4.75	6.00
Call Waiting, 3-Way Calling	3.75	4.25	4.75	4.75
Call Waiting, Speed Calling-8	3.70	4.25	4.75	4.75
Call Forwarding, 3-Way Calling	3.70	3.50	4.80	5.00
Call Forwarding, Speed Calling-8	3.70	3.50	4.75	5.00
3-Way Calling, Speed Calling-8	3.70	3.50	4.75	4.00
<b>Three Features per line</b>				
Call Waiting, Call Forwarding and 3-Way Calling	5.30	5.65	6.90	7.50
Call Waiting, Call Forwarding and Speed Calling-8	5.30	5.65	6.90	7.50
Call Waiting, 3-Way Calling and Speed Calling-8	5.30	5.65	6.90	6.25
Call Forwarding, 3-Way Calling and Speed Calling-8	5.30	4.90	6.90	6.50
<b>Four Features per line</b>				
Call Waiting, Call Forwarding, 3-Way Calling, Speed Calling-8	6.90	7.05	9.00	9.00
Speed Calling - 30 code capacity	3.20	3.20	4.25	3.20

Most of the Company's residence and business customers who subscribe to Custom Calling Features and Touch-tone service will be affected by the proposed rate restructuring.

It is expected that the restructuring of Custom Calling Features will result in a rate increase for approximately 2.9 million residence customers and 280,000 business customers. The reduction in rates for certain Custom Calling Services and Touch-tone Service will affect approximately 4.3 million residence customers and 1.7 million business customers.

This rate restructuring is expected to have a "revenue-neutral" effect on the Company's annual revenues. The proposed rate restructuring of Custom Calling Services will increase the Company's annual revenues by \$19.8 million; while the reduction in Touch-tone rates will decrease the Company's annual revenues by \$19.8 million.

This proceeding has been designated Docket No. 11382. Persons who wish to intervene or otherwise participate in this proceeding should notify the PUC as soon as possible. The deadline to intervene is October 30, 1992. A request to intervene, participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the PUC Public Information Office at (512) 458-0256 or (512) 458-0221, teletypewriter for the deaf.

## Robin's 'Ritins

This week has been filled with excitement! It's Homecoming week, and there are a ton of things going on! This week at Motley County, Student Council has thought up some fun things to do to help lighten up the mood during Six Weeks tests, and get everyone in the cheerful Homecoming Spirit. Monday we had Mr. Irristable; Tuesday was Miss Irristable. That's when every girl or boy (depending on the day) get five ribbons and tries not

to talk to the girls/boys. Who ever has been talked to the most at the end of day is Mr. or Miss Irristable! Wednesday was Roaring 20's day or Gangster Day. Thursday is 70's day or Hippie Day and Friday is Red and Black Day! I hope everyone has had a fun week!

Don't forget to come out to the Bonfire tonight and support our Mighty Matadors! And come out Friday to cheer our boys on to victory and help us have a great 1992 Homecoming!

Marine Pvt. Alan C. Ewing, son of Carolyn S. Ewing and the late Don Ewing, of Matador recently completed recruit training.

of Matador recently completed recruit training.

During the training cycle at Marine Corps Recruit Depot, San Diego, recruits are taught the basics of battlefield survival, introduced to typical military daily routine, and personal and professional standards.

All recruits participate in an active physical conditioning program and gain proficiency in a variety of military skills including first aid, rifle marksmanship and close-order drill. Teamwork and self-discipline are emphasized throughout the cycle.

The 1992 graduate of Motley County High School joined the Marine Corps Reserves in June 1992. He is now a student at West Texas State University in Canyon.

## National 4-H Week October 4-10

The 4-H Youth Development Program is the largest out-of-school non-formal youth education program in the United States with 446,000 Texas youth and approximately five million youth nationwide. Motley County boasts 56 youth and adult leaders. We are proud to be members of the largest out-of-school youth serving organization in the United States. The 56 Motley County 4-H members join hands with nation wide members to recognize all youth during National 4-H Week and invite all youth between the ages of five and nineteen to join.

The 4-H and Youth Development Program is dedicated to strengthening family relationships.

The mission of 4-H is to offer participants the opportunity to acquire knowledge, develop life skills and form attitudes which will enable them to become self-directing, productive and contributing members of society.

The 4-H Youth Development Program in Texas is administered by the Texas Agricultural Extension Service of the Texas A&M System, in a partnership with county, state and county governments. It encompasses all youth between the ages of third grade and nineteen, regardless of race, creed, place of residence or level of education.

For information call your County Extension Office in the courthouse in Matador.

## Thank You

Thank you for all your kind expressions of sympathy.

The James Gillespie family

I want to thank my many friends in Matador, Plainview, and Lubbock for your prayers, cards, calls and visits, and any act of kindness you have shown me while I was in the Hospital and since I have returned home. You are the best folks. Lets continue to pray for one another. To God be the glory!

In His name,  
Dan Barton

We are truly grateful for your prayers, special love and support during our time of grief. You have given us renewed strength and courage. Our prayers and good thoughts go out to those at the hospital, care center, those who prepared and served lunch, the ones who provided the loving service and friends and family members. Thank you! Mama Lennie prepared us for this time by providing such happy and lasting memories for us to call on in the future. God bless and keep you.

## Social Security Tips

by Mary Jane Shanes

### CHECK THIS LIST FOR THOSE TIMES YOU NEED TO CONTACT SOCIAL SECURITY

If you are one of the more than 40 million Americans who get Social Security benefits, you need to know about the events that need to be reported to Social Security. When you do your part to report changes to our office, we can do our part to make sure that your benefit check comes to you when it is due and that it is for the right amount.

Here are some of the most common changes that you need to report:

— Change of address - even if your checks go by direct deposit to a checking or savings account, we need your current address.

— Marriage or divorce - your benefit amount or your eligibility may change if you get married or divorced.

— Name change - if you change your name because of marriage, divorce, or

court order, notify us so we can show the new name on our records. We will also advise you what to do to get a Social Security card showing your new name.

— A change in your estimated earnings - if you are working and your earnings will be higher or lower than you expected or if you stop working, call us to file an earnings report.

— Beneficiary death - when the death of a beneficiary occurs, it needs to be reported as soon as possible. Family members should be aware of the need to inform a Social Security office. In situations involving direct deposit of benefit checks, the bank or other financial institution needs to be notified, too.

A complete explanation of reporting responsibilities is in the booklet sent to each beneficiary at the time Social Security benefits start. Replacement copies of information booklets can be sent to you if you call our toll-free number, 1-800-772-1213, any business day from 7 a.m. to 7 p.m. Or call our office at 293-9599.

*Enter his gates with thanksgiving, and unto his courts with praise: be thankful unto him, and bless His name.*

## William Morris

Tulia (Special) - Services for William A. "Bill" Morris, 83, of Tulia were held at 10 a.m. Saturday, September 26, 1992 in First United Methodist Church with the Revs. Tommy Ewing, pastor of First United Methodist Church in Memphis, and Ernest McGaughey, pastor, officiating.

Burial was in Rose Hill Cemetery under the direction of Wallace Funeral Home.

Morris died at 3:45 a.m. Wednesday, September 23, 1992, at his residence after a lengthy illness.

He was born in Elida, N.M., and moved to Tulia from Roaring Springs in 1957.

He married Geneva Montgomery on March 12, 1940, in Olton. She died on September 18, 1985. He was a retired farmer and a member of Tulia Masonic Lodge #733, Swisher County Senior Citizens and First United Methodist Church. A son, Jerry, died in 1962.

Survivors include two daughters, Glenda Ferguson of Tulia and Lillie Barrett of Kress; two brothers, John and Boyd, both of Tulia; two sisters, Lillie Tanner of Tulia and Dillie Garrett of Plainview; four grandchildren; and two great-grandchildren.

Nephews were pallbearers.

## John W. Smith

Services for John (Billy) W. Smith, 67, of Spring, Texas were held at 1:00 p.m. Thursday, September 25, 1992 at Lubbock Resthaven Funeral Chapel with the Rev. Lynn Lemon officiating. Burial was in Resthaven Memorial Park.

He was born and raised in Roaring Springs, the son of Leslie and Catherine Smith, and the grandson of pioneers of Motley County, Mr. and Mrs. John Smith. He was a member of the First Christian Church.

He graduated from Roaring Springs High School in 1942, and served in the Air Corp during World War II. He gradu-

ated from Texas Tech with an engineering degree, and was an engineer for General Electric for thirty years which carried him and his family to live in Europe and Japan for many years. He retired from GE and worked as a consultant for Stewart and Stephens in Houston.

He married the former Mona Casey in Lubbock. She preceded him in death in April, 1982.

He is survived by a son Eric of Spring; a daughter, Candace, and four grandchildren of Spring.

He was a brother-in-law of Joyce Smith of Roaring Springs.

## Fire Department Will Sponsor Homecoming Dance

The Matador Volunteer Fire Department had its regular meeting September 28, 1992. During discussion of the annual Homecoming dance, which will be held Saturday, October 3, 9:00 p.m. - 1:00 p.m., the department decided on the 3 Quarters Band to play for the dance. Committees were assigned to work each shift.

President Craig Turner called the meeting to order. Fire Chief Rodney Williams gave a report on the Canyon Fire School. He reported Les Woolsey, Randy Martin, Roy Moreno, Jade Jones and himself had participated in the school. Being no further business the meeting adjourned.

### Let it Rain

It has been raining here as if all the faucets in heaven had been opened full blast.

Before the steady downpour turned my vine-ripening tomatoes into soup, we had "frequent intermittent showers." Very frequent.

It is the sort of weather that tries a mother's soul, not to mention her patience and creativity.

After sacrificing June to summertime landscape and home-improvement chores, I had planned the rest of the summer around my favorite lounge chair at the pool. Instead, I have been searching for new answers to familiar questions.

"What can we do now?" "Do you think it will stop soon?" "Why can't we go to the pool?"

I went through every "rainy day" guidebook at the library, played more games of Monopoly than I can count and even reneged a little on our "no daytime TV" rule. And it's still raining.

This morning, in desperation, I discovered the solution. I sent the children outside to play.

"But Mom!" Julie cried. "My hair will get wet!"

"No wetter than at the pool," I noted, scooting my 12-year-old and her 5-year-old sister, Emily, out the door. Soon they were romping around the yard in their boots and slickers, having what the little

one called "an adventure!"

I realized then that my children had rarely, if ever, been "caught" in the rain. Rainy mornings before school, Dad drove them to the bus stop. Rainy afternoons, I picked them up.

The only firsthand exposure our children had to a rainstorm was a quick run from the store to the car — barely long enough to get damp.

Clearly, it was a major failing in their upbringing.

Watching Julie and Emily frolic in the puddles, I recalled the time at Girl Scout camp when my troop got lost in a storm after our leader decided to take a shortcut through the woods. There was no path and no indication that our drenched little bodies ever again would see civilization. Exhilarated, I wiped the water from my eyes to see the tall trees bend in the wind. What an adventure!

I recalled many days trudging home from school in the rain. Or standing on the corner in a downpour with my safety patrol flag, guiding smaller children across the street. Much later in life, the rain caused me little concern as we hauled and piled sandbags in our efforts — sometimes successful, sometimes futile — to contain the river that regularly threatened the tiny Appalachian town where I went to college. I realized today that I had done my children no great favor by protecting them from the weather. Learning to deal with — and respect — the elements is an important part of growing up.

The next time we have a deluge, which I'm sure will be soon, I plan to don my rain gear and join them in the back yard. ■

# Announcement of Director Election

An election of a soil and water conservation district director to serve in Zone 4 on the Upper Pease Soil and Water Conservation District is scheduled for October 6, 1992 at the Motley County High School Gymnasium announced H.R. Jameson, chairman of the board. The election will be held at approximately 9:00 p.m.

State law decrees that to be eligible to vote in a soil and water conservation district director election, a person must own agricultural land within the district

where the election is being held. The person must also live in a county all or any part of which is in the district and the voter must be 18 years old.

Legal qualifications state that a candidate for the office of a soil and water conservation district director must own land in the zone he represents, be 18 years of age and be actively engaged in farming or ranching. He must also live in a county all or part of which is in the district. Soil and water conservation district directors serve four-year terms of office.

Current members of the board of directors of the Upper Pease SWCD are: H.R. Jameson, Chairman, Matador; James Bearden, Roaring Springs; Coy Franks, Flomot; Billy Paul Simpson, Northfield; Gale Stafford, Matador.

The purpose of the Upper Pease SWCD, with the headquarters in Matador, is to promote sound soil and water conservation programs on farm and ranch lands within the district and to serve as a voice for farmers and ranchers on conservation matters.

The district board of directors coordinates the conservation efforts of various local, state, and federal agencies and other organizations and has authority to enter into working agreements with these governmental agencies and private concerns to carry out its purposes.

All conservation programs managed by the district are of a voluntary nature to the landowner or operator.

# PCA To Sponsor Ag Employers Seminar

A seminar on employment taxes and reporting requirements for agricultural employers will be held Tuesday, October 6, in the Childress City Auditorium. Beginning at 7:00 p.m. a free catered meal will precede the program. The program and meal are sponsored by Rolling Plains Production Credit Association.

Speakers will be Mr. Don Cobb of Stamford and Mr. Jan Larson of Abilene. A partner in the Clark and Cobb accounting firm, Don is a Certified Public Accountant in addition to his farming and ranching interests. He has been a member of Rolling Plains PCA since 1970. Mr. Cobb's ag and accounting background

ensures a presentation uniquely benefiting ag employers.

Mr. Larson represents the Texas Employment Commission in Abilene. He is an Employment Tax Auditor and has also served as a Workmen's Compensation Auditor. Both speakers are well versed in the implications of the new tax laws and reporting requirements and will present a program of particular interest to ag employers.

Reservations are requested for the catered meal and can be made by calling Rolling Plains PCA's Childress Office at 817/937-2553 or the Matador Office at 806/347-2226.

## Community Health Week

continued from page 1

lot more people in the community who are not seeking medical care they need because of financial worries. The situation is the same all over the country. That is why we are joining in sponsoring Community Health Center Week, October 5-10. We want people to know that quality health care is available to them regardless of their financial situation."

South Plains Health Provider Organization is one of approximately 550 health care organizations throughout the nation who are part of the Community Health Center Program. This is one of the few successful programs remaining from the mid-1960s and the War on Poverty. More than six million people are now served by this system of private, community based health care facilities. Their federal grants mandate that services be comprehensive and delivered in ways that are sensitive to local community customs and needs. A unique feature of the program is that a

majority of health center board members must be persons who use the center's services for their own health care.

Motley County Clinic is just one of the eleven clinics under South Plains Health Provider Organization in Plainview. Gerry Jones, Clinic Supervisor, has been with the organization for six years and is a certified Family Nurse Practitioner (FNP). A Family Nurse Practitioner is a registered Nurse (RN) who has also been certified through a recognized family nurse practitioner program of advanced education and expanded skills. This additional training enables the nurse practitioner to work very closely with the doctors and other health professionals to provide health care services for the entire family. Many services are offered through Motley County Clinic, such as diagnosis and treatment of acute and chronic disorders, Electrocardiogram services, foot care, family planning, immunization, grontology, laboratory services, and weight management. Medicare and Medicaid, as well as private insurance is accepted for health services. For more information concerning the services of the Clinic, please call 347-2641 or come by 1224 Main.

FROM PLAINS COTTON GROWERS, INC.

Production estimates for the High Plains of Texas seem to be caught in an endless downward spiral as the beginning of the 1992 harvest season draws near, according to Lubbock-based Plains Cotton Growers (PCG).

PCG officials, citing the two most recent USDA estimates, say that with each reduction in the estimates a clearer picture of the extent of this year's crop losses develops.

"Without the benefit of an acre by acre accounting there is really no way to accurately predict the outcome of the 1992 crop," explains PCG Executive Vice President Donald Johnson. "We truly won't know where we stand until the last bale is ginned. The one thing we do know is that the 1992 ginning season will be significantly shorter than what we would have predicted earlier in the year."

As usual the primary factor determining the eventual size of this year's crop will be the weather. Farmers with cotton in the field are hoping for a somewhat normal freeze date at the end of October or early November in order to give the crop a few extra weeks to mature. An early freeze could well mean the difference between a crop close to the USDA estimate of 1.24 million bales or a crop well below the one million bale mark.

A 1992 High Plains crop below one

million bales would be the first not to reach the million bale level since the area produced 858,480 bales in 1950.

This year has been unprecedented in the number of acres we have already accounted for as lost, notes Johnson. The limited number of acres not only affects this year's bottom-line, for most producers it will also affect the availability of planting seed as we get ready for the 1993 crop.

\*\*\*\*

According to Lubbock-based Plains Cotton Growers (PCG) the month of September is closing on a hectic note with several meetings set for the last few days of the month.

Of primary interest to producers across the area is a meeting scheduled for 1:00 p.m., Tuesday, September 29 at the Lubbock Plaza Hotel. The Texas Seed Trade Association is holding a "Seed Law Forum" featuring discussion of a number of topics dealing with the Plant Variety Protection Act, Texas A&M University's seed release policies, and what may be a renewed effort to restrict the ability of producers to sell excess planting seed among themselves.

The meeting should prove to be very informative and those who would like to learn more about these issues are invited to attend.

## NOTICE OF PUBLIC HEARING ON TAX INCREASE

The (Motley Co. C.E.D.) will hold a public hearing on a proposal to increase total tax revenues from properties on the tax roll in (Motley County) by ( 10 ) percent. Your individual taxes may increase at a greater or lesser rate, or even decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property.

The public hearing will be held on ( October 7, 1992 ) at ( 7:00 P.M. ).

FOR the proposal: Potts and Franks  
AGAINST the proposal: -  
PRESENT and not voting: -  
ABSENT: -

(Names of all members of the governing body, showing how each voted on the proposal to consider the tax increase and, if one or more were absent, indicating the absences.)

The statement above shows the percentage increase the proposed rate represents over the ( 74.5 ) tax rate that the unit published on ( September 5, 1991 ) ( ). The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

	Last Year	This Year
Average home value	11,000	11,000
General exemptions available (amount available on the average home, not including senior citizen's or disabled person's exemptions)	5,000	5,000
Average taxable value	6,000	6,000
Tax rate	.7450	.8238 (proposed)
Tax	.4470	.4942 (proposed)

Under this proposal taxes on the average home would ( increase ) by \$ ( .0472 ) or ( 10 ) percent compared with last year's taxes.

Comparing tax rates without adjusting for changes in property value, the tax rate would ( increase ) by \$ ( .0788 ) per \$100 of taxable value or ( 10 ) percent compared to last year's tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.
