76TH YEAR—No. 22

MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, AUGUST 5, 1971

PRICE TEN CENTS

## ALL TEXAS BRANDS TO REQUIRE RERECORDING

FORT WORTH — All brands and marks on Texas livestock must be re-recorded with County Clerks after August 30, 1971, according to a new law passed during the last session of the Texas Legislature, reports Frank H. Lewis, President of the Texas and Southwestern Cattle Raisers Association.

Producers will be given a six-month period (August 30, 1971 through February 29, 1972) in which to register these brands and marks and the location on the animal which they are currently using, he added. After this time, any unrecorded brand will be available for use on a "first-come" basis.

The law further states that all such brands and marks must be re-recorded every 10 years. Each County Clerk records for his given county only, so many producers may need to record their brands in additional counties if their operations are extensive.

The owner shall have the right during this six-month period to file the mark and brand now recorded in his name. In the event it cannot be determined from the records who first recorded the brand and mark in the county, then the person who has been using such mark and brand the longest shall have the right to have the brand and mark recorded in his name.

It should be noted that it is illegal to brand livestock without first properly recording the brand with the County Clerk in the county in which the livestock are held.

When the brand or brands are recorded, the location on the animal on which the brand is to be applied must be designated. If the brand is to be applied to more than one location on the animal, it must be recorded and each additional location for the brand on the animal shall constitute a separate recording of that brand.

There is no limit to the number of brands and — or marks which may be recorded in a county by a person as long as requirements of this law governing the recording and re-recording of livestock brands are met. Minors may have marks or brands separate from that of the father or guardian, which must be recorded or re-recorded as provided by the new law.

The County Clerk of each county shall have this act published in some newspaper of general circulation in the county for a period of 30 days. The act shall be published on the effective date, August 30, 1971, and thereafter for 30 days.

It is the obligation of the County Clerk to assure that no more than one brand of a kind be recorded on the same location of the animal in each county. Therefore, no two people in a county may record the same brand in the same location. It is also the responsibility of the County Clerk to make certain that in recording any brand for a person, that the part of the animal on which the brand is to be placed be designated. Failure to do so is punishable by a fineable offense of not less than \$10 or more than \$50. (Article 1486 P.C.)

The Law as outlined above applies to all counties in the state of Texas and shall take precedence over any special statutes heretofore applying to individual counties pertaining to recording and re-recording of brands.

County and District Clerk Pat Sheridan emphasizes that brands cannot be re-registered under the new law until September 1st, or after.

## TRAIL DUST

The forces of gravity, water, fire, the wind and many others which are well known, have been accurately measured and generally understood. On the other hand, another great force, the persuasive temptation of evil on the human heart has little recognition. Its presence is like the atmosphere and often escapes detection until its mission is accomplished.

**A lean hound dog lay curled on some soggy tow sacks on a rickety porch, and shivered. The animal listened for a voice he had not heard for weeks and would never hear again. Inside the old house a man lay on his crude bed, his eyes glassy and his skin taut, while relatives watched closely. On top of an ancient cabinet in the corner of the room, lay the man's favorite possession, an inexpensive guitar. It had not been touched for many weeks and the voice that accompanied the instrument had been silent. A clock on the wall ticked away the numbered minutes, when a strange sound invaded the silence. A string on the guitar had broken, as if it had been drawn too tight for too long. Those in the room looked at the patient and his eyes were closed. The sad eyes of the dog looked up as the doctor passed and climbed into his buggy.**

## All is Lost When Farm Home Burns

All the possessions of the Allen Bosh family were lost about 7 p.m. Monday when the Fred Dawson home burned to the ground about seven miles southeast of Matador.

Mrs. Bosh was in the house preparing supper when Clyde Clifton rushed into the house and told her it was burning. The entire roof of the house was in flames when he arrived.

Others arrived but it was too late to save anything except a television set and a few other articles.

Mr. Bosh is employed by the Matador Ranch and the family was living in the Dawson farm house. The roof of the house was falling in by the time the Matador Volunteer Fire Department truck could reach the scene, after the alarm was turned in here.

The Boshes have three children, Delaina, 8, Freddie, 2, and John, 7 months old.

Response to the family's needs was quick here. Residents brought garments for the children, bedding and other needs. The family is now located in the Roy Smith rent house, just south of Highway 70. Tuesday the Matador Community Chest presented Mrs. Bosh with a check for \$50, to help meet the emergency resulting from the fire.
