## TRAIL DUST

By DOUGLAS MEADOR

A Democratic farmer disenchanting with the farm program, wants to be put on the government payroll. He says he catches more bugs on the windshield of his pickup than some of the crews employed in the field.

One of the most important rules of selling is to know when to stop. Many sales are lost because the customer was oversold and the salesman did not know when to quit. The salesman often becomes the victim of self-hypnosis and continues selling himself without knowing he has lost the interest of the customer.

The grinding wheels of time have reduced many memories to dust in the almost three score years that have passed since the morning there was a knock on the back door of our unpainted house. A young Negro man stood trembling when my father opened the door, and there were tears in his eyes. He had walked from the town a mile away where he had hidden in the darkness until he could see his way. After the disturbance of the previous night he had been warned to be out of town before sunup. My mother prepared breakfast for him and his hands trembled as he ate. A great fear was in his heart. My father gave him \$2 when he left, a lonely figure walking the railroad track.

Almost all the rewarding things I have done in life have been accidents. Once as a young and extremely timid boy playing "Wolf Over the River," at school, I made a quick turn, directly into the arms of a chubby, red haired girl. The world spun out of orbit for an instant, then there was music in the sky that had suddenly taken on rainbow hues.

Several Texas leaders have realized that a bad reputation is something like toothpaste. Once it is out, it is extremely difficult to get it back into the tube.

Farmers are about the only gamblers willing to shoot it all on one roll of the dice, year after year.

## Payments Are Due To TV Association

## Jury Wheel Turns; 2 Lists Selected

History was made in Motley County yesterday when the Jury Wheel was used for the first time. County and District Clerk Pat Sheridan, and Sheriff J. D. Spray selected the two first lists of 50 names each, under the direction of District Judge L. D. Ratliff of Spur.

The wheel contains the names of all registered voters in Motley County. It has been used in the larger cities for some time but it is a first time in the smaller towns.

Judge Ratliff explained the only legal reasons for not serving on jury duty. This being over 65 years of age, and a woman who has legal custody of a child under ten years of age. All other competent jurors are liable for jury service, and the court shall not excuse jurors for economic reasons, the Judge said.

Persons over 65 or women with children under the age of ten, if called for jury duty, may file a written statement with the sheriff or county clerk, stating the nature of their exemption from jury duty. By filing, no card will be placed in the jury wheel for the ensuing year.

Persons with names drawn for jury duty will be notified by the sheriff's office.

The statute does not apply to the selection of a grand jury, Judge Ratliff said. As in the past a grand jury will be selected by the jury panel and not drawn from the jury wheel.

**SOMETHING TO THINK ABOUT**—When an inch of rain falls on a 160-acre farm, it delivers 4,356,000 gallons of water weighing over 18,000 tons. To transport this amount of water would require 544 tank cars or four trains, each over a mile long, according to the Soil Conservation Service. What happened to the water that fell on your farm during the recent heavy rains? Did it stay where it fell, or did you let a train load get away? Investigate what parallel terraces can do for you. —Soil Conservation Service photo

### School Adopts Grooming Code

Matador school officials have announced a dress and grooming code for high school and junior high school students (7th through 12th grades) along similar lines adopted by other schools in this area. Some phases of the code might be described as "liberal," in view of recent styles.

Following is the code as adopted by the school:

**BOYS**

Boys will keep shirts buttoned from first button below the collar downward. Shirt tails will be kept tucked in except when wearing a shirt that is specifically designed to be worn outside the trousers.

Boys will keep themselves neatly shaved and will keep their hair cut neatly. Extra long sideburns (below the bottom of the ears), and extra long hair will not be tolerated. Hair should be out of the eyes, off the collars, and neatly groomed.

Boys will remove hats when inside the building.

Boys will wear socks.

Cutoffs and shorts will not be permitted.

**GIRLS**

Girls may wear skirts and blouses, dresses, pants suits and pants to class and in the halls. Recreational garments such as pedal pushers, hot pants or other short-type garments may not be worn during the normal school hours.

Garments which resemble dresses may be worn as long as they look like dresses from the front and back and are of the same length.

### COUNTY AGENT PALLMEYER SAYS:

These are troubled times, but I think these remarks by Reagan Brown, Extension Sociologist are worth your time reading.

THIS COUNTRY IS IN A MESS. Name one in better shape anywhere in the world.

THE BOYS AND GIRLS ARE GOING TO THE DOGS. There was never a time when our boys and girls were as sharp, smart, and making the contributions to the world they are making now. If you disagree, name the time when our present ones were surpassed.

WOMEN AREN'T LIBERATED IN AMERICA. Where do they have more opportunity? Is it pulling wagons in Europe; digging bog in Russia; or beating clothes on a river rock in Africa?

OUR CITIES ARE CRIME RIDDEN, SMOG FILLED, TRAFFIC CONGESTED. Look for the flowers. Millions from all over the world come to America to escape from conditions that are worse. The "huddled masses" longing to be free "have created a traffic jam, but at least they can blow their horn." No other country has as many beautiful cities as Amer-

ica possesses.

**NEGROES HAVE A LOT OF PROBLEMS IN AMERICA.** That's true, but look not where they are, but where they started. How far have they come, and then look at the difference in opportunities here as compared to other countries, and it's getting better for them every day.

**WE HAVE POLICE BRUTALITY.** I don't really buy this. Have you been mistreated more than you have been treated kindly. Remember some areas still chop off a hand for a minor offense. The Chinese are kinder. They use the water treatment, drop at a time, to beat out your brains. The Russian courts are much faster. They get you to Siberia in a day or two.

**OUR SCHOOLS ARE NOT UP-TO-DATE.** Have you driven around lately? Schools, beautiful, well equipped schools in every community, with great programs. Any American can receive an adequate education if he makes the effort.

**OUR CHURCHES ARE NOT RELEVANT.** Nuts. Drive around some Sunday morning. In all communities the church is the building with the "plus" sign and they are doing the ageold job of inspiring men and women to live better. They are better equipped, personnel are better trained, than at any other time in the history of organized religion. And in America, the "individual" alone determines if the church is "relevant in his own life."

**WELL, AT LEAST PEOPLE ARE TOO FAT IN AMERICA.** Yes, they are the healthiest, best fed, best doctored, best entertained, best educated group of people on earth, and I want you to know I have been hungry and fat and it's a lot better to be fat and unhealthy than it is to starve. And as I debate with you, I have come to a conclusion. You are like the manager of a large farm machinery company who looked for an analysis of his business to see why he was losing money.

After a careful study, he was told by the researcher, "Your mechanics are doing a fine job, your inventory is in good shape, the salesmen are doing an adequate job. We have come to the conclusion that the only thing wrong with this business is you." Maybe Mr. Critic, all that is wrong with America is you. We all admit that we have gross problems to solve in housing, pollution, human relations, and many other areas. But what country of the world doesn't?

Today we live in a country of a "homogeneous ethnic conglomerate" of Jew, Gentile, Negro, Indian, Texan, Yankee, and like the well-known soup label - 59 or more other varieties. Here we have dug and built, plowed and planned, conceived and created the world's greatest "arena of opportunity." In each of our hands is a part of our neighbor's destiny. We can feed him, kill him, we can respect of humiliate him. We can use the hypodermic needle to cure or enslave. As an educator, journalist, teacher, preacher, service station attendant, waitress, or what be you, we can motivate and inspire, we can degrade or upgrade, we can humiliate or praise, we can by example raise our neighbor's horizons to the zenith of the carot of his personality.

After careful consideration of my rebuttals and you still think our preachers, teachers, policemen, doctors, and other institutions are decadent and don't measure up, then if you get in trouble, call a "hippie" to help you. If he is a sincere "hippie" that really believes in love and is willing to help you, he probably won't have the resources to do the job. However, he can call the Red Cross, YMCA, any hospital, or a thousand and one other groups to come to your assistance. A lot of guys who may not like you or your "long-haired" friend will come a running and will line up to give you their blood. This is America, brother — and I love her.

+ 616 Lose Lives

### On U.S. Roads

By The Associated Press

TRAFFIC accidents during the nation's three-day Labor Day weekend claimed at least 616 lives.

The National Safety Council estimated that the toll would be between 600 and 700 during the holiday period from 6 p.m. local time Friday to midnight Monday.

The Texas Department of Public Safety Tuesday counted 41 traffic deaths over the long weekend — 11 less than predicted on the basis of previous holiday highway slaughter.

## Cattleman's Needs Easy To Fulfill

By TANNER LAINE  
Avalanche-Journal Staff

**PART-TIME** cattlemen, "weekend" or "windshield" ranchers or what have you, have come in for lots of kidding lately.

A Houston Post writer even listed 20 things he thinks it takes to be a cattleman.

Mary Ann Sarchel, newspaper gal at Silverton, had nerve enough to return the big city concept, although she was quick to assure her real ranching readers it would be a tongue-in-cheek approach, which she didn't take seriously at all.

**Minimum Requirements**

We would have to say the same on account of our real rancher readers. But if a woman has the nerve to do it, so can we.

Here is the piece "Ten Minimum Requirements For Ranching" and "What It Takes To Be A Cattleman":

"A wide-brimmed hat, one pair of tight pants and some \$20 boots from a discount house."

"At least two head of livestock, preferably cattle — one male, one female."

"A new, air-conditioned pickup, with a automatic transmission, power steering and a trailer hitch."

"A gun rack for the rear window of the pickup, big enough to hold a walking stick and a rope."

"Two leopard dogs to ride in the bed of the pickup truck."

"A \$40 horse, and a \$100 saddle."

"A gooseneck trailer."

small enough to park in front of a cafe.

"A little place to keep the cows, on land too poor to grow crops."

"A spool of barbed wire, three cedar posts and a bale of prairie hay, to haul around in the truck all the time."

"Credit at the bank."

"Credit at the feed store."

"Credit from your father-in-law."

"A good neighbor to feed the dogs, and cattle, whenever the owner is out in Colorado fishing."

"A pair of silver spurs to wear to barbecues."

"A rubber cushion to sit on for four hours at the auction ring every Thursday."

"A second-hand car for going out to feed the cows, when your son borrows the new pickup for a date."

"A good pocketknife, suitable for whittling to pass away time at the auction ring."

"A good wife, who won't get upset when you walk across the living room carpet with manure on your boots."

"A good wife, who will believe you when you come in at 11 p.m., saying 'I've been fixing fences.'"

"A wife with a good full-time job at the courthouse."

My, my! We sure hope our friends at Matador, Spur and Post don't think we took that stuff seriously, either.

### Ruling Voids Those Under 21 For Jury Service

In an opinion dated July 20, Atty. Gen. Crawford Martin has ruled that persons under 21 years of age may not serve on juries and their names need not be placed in the jury wheel. All other names on the current voter registration list as of Aug. 1 each year must be placed in the jury wheel and no other names.

He also ruled that neither the district or county judge can excuse a juror before the trial unless the juror requests same in writing, giving the reason and making an affidavit and then neither judge can excuse for economic reasons until the day of trial and all attorneys must agree at that time on excuse for economic reasons before either judge can excuse a juror.

**TAX MAN SAM SEZ KEEP TAX RECORDS**

In the good old summertime Texans' thoughts turn to the swimming hole, suntans, and maybe watermelon, vacations, and lots of things, but most Texans don't think about keeping income tax records. Keeping tax records is a year 'round job and while you are enjoying the good old summertime you oughta remember how cold it will be next January when you try to remember how much that tax deduction was that you should have made a record of or put up the receipt on way back in the heat of the summer.
