Commissioner Precinct 3, Franklin

Jameson.

Other names on the Democratic ballot are State Senator District 30, Steve Carriker; State Representative District 85, James "Pete" Laney; U.S. Representative District 13, Bill Sarpalius; District Attorney, District 110, Becky McPherson.
Polling Places are Precinct 1, Ameri-

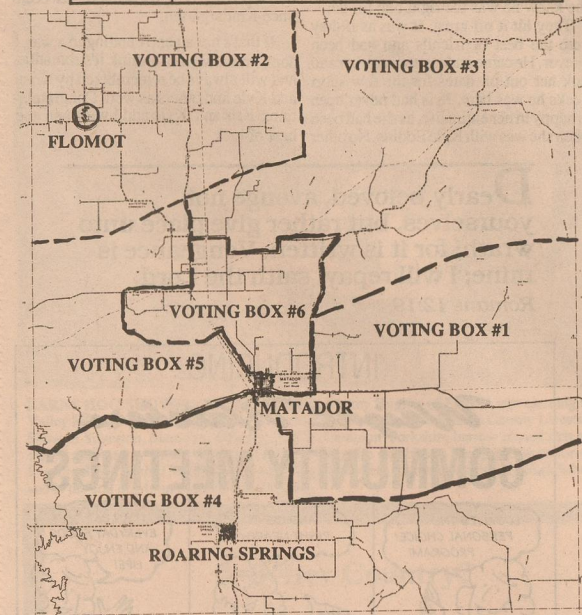

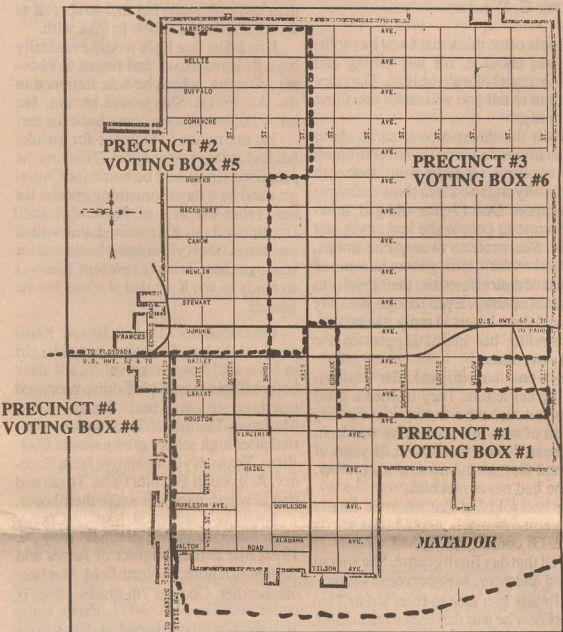

can Legion; Precinct 2, Flomot Community Center; Precinct 3, Northfield Community Building; Precinct 4, Roaring Springs Depot; Voting Precinct 5, Matador 4-H-VFW Building; and Voting Precinct 6, Motley County Courthouse. (Voting Precinct 5 & 6 are voting boxes for Precinct 2 and Precinct 3 elections.

PTO To Present M.A.D.D. Program

Motley County PTO will sponsor a M.A.D.D. Program (Mothers Against Drunk Driving), Monday, March 2, during H.A.T. Period, 1:26 p.m. at the High School Gym.

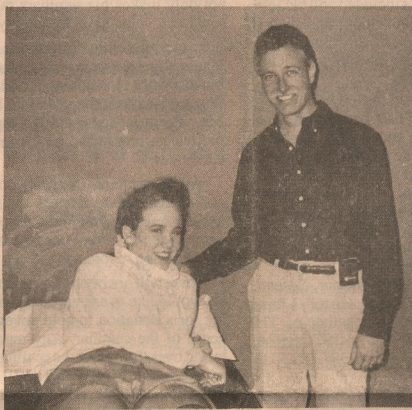

Two mothers from Lubbock, who have both suffered losses, due to drunk drivers will present the program, which will consist partially of some film footage.

The public is urged and welcome to attend!

Dr. Bill Barnhill Is U.S. Ski Team Physician

Brooke Brandon, Motley County High School Sophomore, and Dr. Bill Barnhill, following Brooke's knee surgery. Dr. Bill said he estimates 70% of his patients are age 20 or younger, mostly with knee and shoulder injuries. Brooke's injury occurred during basketball season in January.

NOTE: This article was taken from the *Amarillo Observer*, Feb., 1992. Bill is a doctor at the Panhandle Sports Medicine Institute in Amarillo. He is a 1972 graduate of Matador High School.

Muscle aches, sore throats and dislocated joints are realities that even world-class skiers have to deal with. To help with these and other medical needs, Dr. Bill Barnhill will be on hand in Morioka, Japan, this week, to act as the U.S. Ski Team physician at the World Cup Super G competition. This experience will prepare him for 1993 when he will travel back to Morioka for the world championships.

The U.S. Ski Team finished this year's Olympic events in France on February 22. The next day, they'll head to Japan —

and Dr. Barnhill will be with them. "At that time, I'll be acquainted with the health care facilities and people for the 1993 world championships."

Barnhill is excited by the opportunity — even though he'll have to bear the expense of the flight and his hotel accommodations. An avid skier himself, Barnhill enjoys associating with the nation's skiing elite.

"It's fun. We have dinner together. We go over race agendas. You're intricately involved in the effort, probably much more than a doctor on a professional football team," he says. "It's stimulating and different from coming to the office everyday."

Part of the stimulation is the challenge of treating skiers in a real-time situation.

"You have to be able to ski wherever they ski to be able to get to them and treat an injury," he says, "and they are not exactly skiing on the bunny slopes." During the competition, team physicians are stationed at the top of the mountain with medical supplies (that are designed and supplied right here in Amarillo), and if an injury occurs, they can ski down to stabilize the injured competitor.

"We are available mainly to provide immediate on-mountain emergency treatment," says Barnhill. "The main thing you want to do is basic stabilization: open airways, check blood pressure, stabilize fractures and arrange for transportation, if necessary. You are actually on the slope, so it can be awkward at times."

In world class competition, helicopters are flown in if a skier has to be transported off the mountain. In the upcoming Japanese competitions, Barnhill

will need to be able to contact the people who would transport injured skiers, making it necessary for him to carry a walkie-talkie while on the slopes.

Although he is not tense about standing prepared on the slopes when the U.S. Ski Team competes in Japan, Barnhill does concede that Downhill and Super G competitions are the most dangerous of the snow races. Because skiers move at speeds approaching 90 miles per hour, a spill can result in catastrophic and sometimes fatal head or spinal injuries (although rare).

More often, he faces situations, such as a recent skier in Hinterux, Austria, who fell face-first into the snow, splitting open his nose. They took the skier back and actually sutured his nose in the hotel room. "That was interesting," says Barnhill.

Republican Primary

One County-wide polling place, 1307 Main Street, in Matador, at the Luther Green residence, will be open for Republican voting in the Primary Election, March 10. Polls will be open from 7:00 a.m. to 7:00 p.m.

Absentee voting will be conducted at the County Clerk's office until Friday, March 6, at 5:00 p.m.

Many people are in favor of limiting terms for elected officials. The Republican ballot has a proposed constitutional amendment which will give you an opportunity to express your opinion on this subject.

portunity to express your opinion on this subject.

Precinct conventions will be held at 4:00 p.m. on March 10. The meeting place will be at the Luther Green residence. Four precinct chairmen and the County chairman will be elected at this meeting. Other business will be conducted and resolutions can be made from the floor. All Motley County registered voters are urged to vote and attend the precinct convention.

CIVIL RIGHTS

A ruling by the Supreme Court required that a negro be on the jury commission, grand jury and petit jury for validity in a case where a negro was tried

for murder. Since the cases were not known in advance, it became necessary that a negro be placed on the jury commission, grand jury and petit jury, a requirement designed to prevent racial

discrimination.

So it was on the November, 1941 term of the Grand jury N.U.S. Lowe served on the jury commission; H.C. Beck served on the grand jury, and Roy Barrett, the petit jury.

In August of 1944, the Matador City Council published an ordinance calling for segregation of the Negro and White races, defining the boundaries of the eighteen block area of Matador reserved strictly for the people of the Negro race. Building permits for a residence, school, business house, or church, White or Negro, could be withheld if not built in the proper designated areas.

The ordinance stated that it was unlawful to construct or occupy a house outside the designated areas. Those deemed guilty of the misdemeanor violation faced a fine of not more than \$100. Not having an ordinance, claimed the four city council members, caused confusion and created an emergency and imperative public necessity. The councilmen and Mayor G.T. Edwards suspended the rule that ordinance be read at three meetings of the City Council.

The Motley County Democratic Convention condemned the Fair Employment Practices Committee, the CIO Political Action Committee, and efforts to kill the Jim Crow laws. The group drew up a resolution in July, 1946, opposing "the efforts being made to re-establish the so-called Fair Employment Practices Committee as being un-American and un-Democratic and as being a device of the northern politicians to curry favor with the Negro voters of the North and to

MODIFYING RECIPES FOR SODIUM

If you are suffering from hypertension, your physician may have told you to reduce sodium in your diet.

Sodium is found in salt (salt is 40 percent sodium); leavening agents (baking soda and baking powder); monosodium glutamate (MSG); condiments such as soy sauce, bouillon, pickles, and olives; cured meats; many canned vegetables and frozen dinners; and most cheeses, sauces, soups, and salad dressings. The general function of sodium in a recipe is that it:

- * Provides flavor
 - * Acts as a preservative in cured meats and in brined vegetables such as pickles and sauerkraut
 - * Controls action of yeast
- Once you have found what the sources are of sodium in the recipe, you can:
- * Eliminate it completely
 - * Reduce the amount
 - * Substitute a more acceptable flavor or spice.

To choose the best approach, follow these guidelines to decrease sodium:

- * Salt may be omitted or reduced in most recipes. Do not reduce the salt in cured meats or pickled or brined vegetables because it acts as a preservative. It is best not to omit the salt in yeast breads because it helps control the rising action of yeast.
- * Start with a gradual reduction. For example, if a recipe calls for 1 teaspoon of salt, try one-half teaspoon. If you reduce the amount of salt gradually, you'll soon adjust to the less salty flavor.
- * Choose fresh or low-sodium versions of products. For example, choose low-sodium soups and broths, soy sauce, canned vegetables, and tomato products.
- * Rely on herbs and spices rather than salt for flavor.
- * Use garlic or onion powder instead of garlic or onion salt.
- * Try fresh juice or wine for cooking liquid instead of broth or bouillon.

Roaring Springs Predicta Study Club Meets

The regular meeting of the Predicta Study Club was called to order by President Grace Zabielski, Thursday evening at 7:30 p.m. at the Roaring Springs Depot.

City of Roaring Springs plans and accomplishments for the present and future were presented to the club by Roaring Springs Mayor, Joey Thacker. The city has just been awarded a Community Development Grant of \$165,347 to upgrade and improve our sewer system, and the work will be done this summer. Also, currently being studied, with the help of Motley County S.C.S., is the flooding problem on 2nd St. Plans are to correct this problem now.

The mayor announced that all easements for the laying of the waterline to Roaring Springs Ranch Club have been

BECOME MORE ACTIVE

Start today becoming more active. Take a 20 to 30 minute brisk walk outdoors or in a local mall, sweep up the fall leaves from the sidewalk, dance in place to music, or pull the weeds. If you increase your exercise, you will help to increase your metabolic heart rate so that you burn up more calories.

REACHING FOR A SNACK

When reaching for a snack, do you find that you are reaching for a food characteristic such as crunchy or smooth rather than a specific food that appeals to you. When you have identified the food characteristic, reach for crunch fruits or vegetables, hot clear broths, munchy seeds, nuts, popcorn, low-fat cheese, thirst quenchers such as vegetable juice, fruit spritzer, or low-fat milk, and sweet stuff such as baked apples, gelatin, or fresh fruit.

HEALTHY CHANGES

Whether or not you are diabetic, have heart disease, or merely desire a healthy lifestyle, the dietary guideline recommendations for a healthy diet from all health organizations recommend that we adapt low fat, sugar, and sodium, and that we increase fiber in preparing foods for the family. So, as the food manager for your family, start now to make changes when you buy and prepare foods.

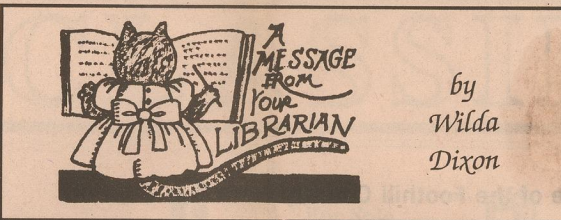

Educational programs conducted by the Texas Agricultural Extension Service are for people of all ages regardless of socio-economic level, race, color, sex, religion, handicap, or national origin.

THOUGHT FOR THE DAY:

Don't forget, "The World of Genealogy" by Ron Bremer on March 7, 1992 from 7:00 to 9:00 p.m. (See separate story for full details)

The World of Genealogy

On March 7, 1992 from 7:00 - 9:00 p.m. there will be a genealogical seminar held at the Motley County Library, 1105 Main, Matador, Texas. This seminar will be conducted by Mr. Ron Bremer of Salt Lake City, Utah. It will contain information for both the beginner and the more advanced. Topics included will be: Introduction and Organization; Speeding Up Your Genealogy; Little Known Sources; Laws and Rules of Genealogy; and Questions and Answers.

Born and raised in Southern California, Mr. Bremer first became interested in the fascinating endeavor of genealogy at the age of thirteen. Hence, he now has over forty years experience as a genealogist. He attended Brigham Young University and in 1961 attended the Eleventh Annual Genealogical Institute sponsored by the National Archives and American University.

Mr. Bremer is a former Research Specialist for the Family History Library in Salt Lake City and author of THE COMPENDIUM OF HISTORICAL SOURCES AND THE WORLD'S FUNNIEST EPITAPHS. He is also in WHO'S WHO and a contributor to numerous and genealogical magazines.

Mr. Bremer has personally visited the major genealogical record centers in every

state and province in North America! He is presently one of the most popular and sought after genealogical speakers in the country having lectured to most of the genealogical and historical societies and public libraries in the country. His ability to answer questions from the audience not only makes his seminars more personal but also he is frequently able to help each individual in attendance. His lectures are not only most informative, but also very entertaining. Lauded as the finest genealogical speaker of his time, Mr. Bremer consistently captivates, motivates, entertains, and instructs his audiences.

All those attending are encouraged to come prepared to discuss their genealogical research problems. Also you are encouraged to bring your tape recorders and/or video recorders.

There will not be an admission fee, but we would like to ask each person attending for a donation to help cover the expense of the seminar. Any money collected over the cost of the seminar will be added to the Motley County Library's Genealogical Fund. Also, it is our understanding that Mr. Bremer will have some materials available for purchase and some free handouts.

Robert Hamilton To Attend National Young Leaders Conference

Rob Hamilton

NOTE: Robert is the son of former Matador residents, Tom and Jan (Barton) Hamilton. He is the grandson of Dan Barton and Josephine Hamilton of Matador.

WASHINGTON, D.C. -- Robert Hamilton of Plainview has been selected to attend The National Young Leaders Conference from February 25 to March 1, 1992 in Washington, D.C. Having demonstrated academic achievement, leadership and citizenship, Robert will be among 350 outstanding high school stu-

"Have passport...will travel," this nineteen year-old English girl's resume might read. Georgina Brooks of Haslemere, Surrey, will arrive on Monday, March 3, to spend a month in the foothill country of Motley County.

An accomplished equestrienne, the well-mounted lass sails over the high hedges and hurdles of English competition, but seeks to hone and improve her Western riding skills during "Gap", the slack period between classes.

Miss Brooks' introduction to Motley County comes through her father's business connection with Billy Paul Campbell, both employees of an international chemical company, ICI Americas, Inc. During her working vacation, Georgina will be staying with a host family, Christy, Marise and Frank Potts, while looking for riding opportunities on area ranches.

"I'm really excited about the trip," she writes from Fender Grove of Kingsley

dents from across the nation at the conference sponsored by the Congressional Youth Leadership Council.

The theme of the National Young Leaders Conference is *The Leaders of Tomorrow Meeting the Leaders of Today*. Throughout the six-day conference, Robert will meet with key leaders and newsmakers from the three branches of government, the media and the diplomatic corps.

Highlights of the conference will include welcoming remarks from a Member of Congress on the Floor of the United States House of Representatives and a panel discussion led by prominent journalists at the National Press Club. Students will also visit foreign embassies and receive a policy briefing from senior State Department officials. In addition, all participants will meet senior State Department officials. In addition, all participants will meet with their senators and representatives or designated members of their staffs.

Culminating the National Young Leaders Conference will be a four-hour *Mock Congress on Gun Control* during which scholars assume the roles of United States Representatives by debating, lobbying, and voting on proposed handgun legislation.

Founded in 1985, the Council is a non-profit, non-partisan educational organization committed to recognizing outstanding youth like Robert and providing them with a "hands-on" civic learning experience in the nation's capital. Over 375 Members of the United States Congress join in the commitment to educational excellence as members of the Council's Honorary Congressional Board of Advisors.

"I firmly believe that by touching one life, the National Young Leaders Conference enriches thousands more," said John Hines, Council Executive Director. "Scholars return to their schools and communities charged with the lifelong duty of leading all Americans to better understand their rights and responsibilities in our participatory democracy."

Green, "and can't wait to meet you all. Thank you all ever so much for making this trip possible for me..." No velvet bristles, Georgina confides that she is unafraid of hard work and seeks no pay, only experience.

With the busy branding season coming up, the potential for experience certainly exists, but the unanswered question remains, "who will be learning from whom?" Happy Trails to a spunky English lass.

A Love Wrote Down In History

Kyle Eddins & Kristi Timmons

by Amy G. Woolsey

People often think that a war has nothing good about it. It's just killing and fighting, right? Not all the time. The story I'm about to tell you will make you think differently.

When the threat of war came about and the troops had to be sent over to Saudi Arabia, people started writing letters to their family and friends to show their love and support. One 17-year-old girl, however, wrote to people she had never met before. She wrote to twenty-one troops, men and women, telling them how proud she was of their efforts and their loyalty to this great country. Even though she only received three letters in reply, she continued sending her moral support to the troops overseas.

This one man in particular kept answering her letters. They learned a great deal about each other throughout the long months of war. She learned he was from Childress, Texas; that he was 21 years of age, and that she even knew his mother, yet she had never met him.

He had told her that when he finally got to come home, he would take her on a date. Of course, she agreed.

Well that day finally came. She was so excited and very, very nervous. When they finally met face to face, Kristi Timmons knew he was the man of her dreams. She knew he was the right one for her.

They hit it off great. It was as if they were the best of friends and had been forever. He came and visited with her and took her out on dates for the few short weeks he was here. Kris had never been so happy in her entire life, as she had been when she was with Kyle Eddins. No other

man had ever made her feel so special as the man Kris had fallen in love with.

Kris knew that Kyle would eventually have to leave Texas and return to Phoenix, Arizona, where he was stationed in the Air Force. She would be sad, but knew he would soon come back for her.

He did return in October for awhile, but had to leave once again. This time he promised Kristi he'd be home for Christmas and he'd have something special for her. From the first of November until December 21st, Kris waited and waited and waited for Kyle to come home and for her to get her Christmas present. She was so ready to see Kyle that she was beside herself.

On December 21st at 8:30 a.m. Kristi received the best Christmas present a girl in love could ever receive. Yes, 4 days before Christmas, Kyle Eddins proposed marriage to my best friend, Kristi Mashawn Timmons. They will be married after high school graduation in Childress, Texas. Kyle will move from Phoenix, Arizona to Wichita Falls, Texas and that is where they will make their home.

Kristi is a senior at Motley County High School and will graduate May 30, 1992. She is the daughter of James and Janice Timmons of Northfield. She has one brother, Cody, a 7th grader. She is active in UIL, FFA, NHS, Paper Staff, and she's my best friend and has been since Kindergarten.

If that's not a happy ending to a war, I don't know what is. I think it's romantic, and will always be remembered by Kristi and Kyle and others as well. Congratulations Kris and Kyle and I wish you the best of luck.

Dearly beloved, avenge not yourselves, but rather give place unto wrath: for it is written, Vengeance is mine; I will repay, saith the Lord.

For with the heart man believeth unto righteousness; and with the mouth confession is made unto salvation.

Weight Loss Surprises Researchers

WASHINGTON --A nutrition organization was hopeful that a nutritionally complete "hi-tech" food tablet would help erase world hunger problems, until a study revealed that one of the ingredients could cause significant weight loss.

Although other studies and scientists may not agree, researchers in Europe found that the ingredient, a natural plant colloid, actually caused people to lose weight, even though specifically instructed not to alter normal eating patterns, according to one study published in the prestigious *British Journal of Nutrition*. Researchers in an earlier study had speculated that the weight loss was due to a decrease in the intestinal absorption of calories.

While the development of the product called Food Source One, a project of National Dietary Research, would not be used to successfully fulfill its original goal, the formula which has since been improved with other natural colloids has been a windfall for some overweight people. A Daytona Beach, Florida woman fighting a weight battle for 12 years used the product on the recommendation of her physician and lost 30 pounds. She stated, "Not only have I lost 30 pounds but my cholesterol has dropped from 232 to 143. I have two closets full of clothes which have not fit me in two years that I can now wear." In a separate interview, a telephone interview revealed that a Wilmington, North Carolina pharmacist lost 14 pounds in 3 weeks on the product and was never hungry.

Food Source One tablets are part of National Dietary Research's comprehensive plan to bring a rapid end to obesity in this country. A variety of nutritionally sound diet plans, specially prepared by NDR, accompany each bottle and provide a natural, drug free alternative for confronting the problem of obesity.

Gossip Is Tricky!

Mental Health

by Ron Trusler

NOTE: Ron Trusler, M.Ed., L.P.C. is Assistant Executive Director Central Plains Center for Mental Health, Mental Retardation and Substance Abuse.

A good definition of gossip is - sharing harmful information with someone who is not a part of the problem or a part of the solution.

Gossip is probably more prevalent and more harmful than anyone realizes. In all honesty, gossip can be fun at times, except when you're the object of it. I've seen it ruin relationships, harm reputations and careers.

There are some sneaky ways to gossip - one way is sharing harmful information so the other person can "pray about it". Another pitfall is believing it is not gossip

when it has been told to you because you are "not going to tell a soul", or "I'm just concerned about the situation". Look back at the definition.

When someone starts telling you stuff and you know you are not a part of the problem or solution, you should ask them if they have gone to the person they're talking about. If not, you might encourage them to do so or ask them if they would like you to accompany them. If they have gone and are still talking about it, they haven't gotten it settled and need to go back.

If you listen to gossip or hang around a gossip, you will be known as one too. A gossip cannot be trusted. If someone is talking to you about someone else, you can rest assured, that person will talk about you at the first opportunity.

By the way, men are just as guilty as women. It knows no gender difference. Gossip is harmful in families, between co-workers, churches - anywhere there are people - it is usually present and doing its dirty work!

Betty's Tax Talk

It is time to render taxes again.

WHAT IS A RENDITION?

A rendition is a form you may use to report the taxable property you own on January 1 to the appraisal district. The rendition identifies, describes and gives the location of your taxable property. You also may give your opinion of your property's value on the rendition of their personal property. If they choose, other property owners may submit a rendition.

* Advantages - If you file a rendition, you are in a better position to exercise your rights as a taxpayer.

— Your correct mailing address will be on record so your tax bills will be sent to the right address.

— Your opinion of your property's value will be on record with the appraisal district. The chief appraiser or the appraisal review board must send you a notice of appraised value if either one puts a higher value on your home than the value you listed on your rendition.

* Deadline - File your rendition with the appraisal district after January 1 and no later than March 31. The chief appraiser will automatically extend the deadline to April 30 with a written request from you.

* Requirements - If you own tangible personal property that is used to produce income, you must report this property on a rendition form every year. Businesses, for instance, must report their inventories, equipment and machinery on a rendition.

If your property is appraised by more than one appraisal district, you will need to file a rendition in each appraisal district office. This can occur when your property is located in a taxing unit that is also in a neighboring county. If you have questions, contact the appraisal district in your county.

Any income and expense information that you file about your property is kept confidential by the appraisal district.

The opportunity is often lost by deliberating.

Black History

destroy harmonious racial relations in the South."

A few weeks later a mixed group of Negroes and Whites met at the Macedonia Baptist Church to hear the words of Rev. W.M. Carrington, "A Christian civilization is not based on race, but grace. It is not based upon white, but right; it is not based upon blacks, but facts." The seventy-two year old evangelist declared, "If anybody thinks we can be comfortable, I would ask him to change places with us. We are appealing to the White Christian people not for social equality, but for social justice."

Tracing the progress of the Negro race was Reverend Thorn, who was introduced by Reverend H.G. Verner, pastor of the First Baptist Church. Thorn related that the first Negroes were living in "African heathenism" 300 years ago and slavery 100 years ago, their progress since had been rapid. He advised the Negroes in the group to beware of fanatics who would lead their race astray.

In 1953 public restrooms, designed with separate facilities for both white and colored, were constructed on the north side of the square after complaints from Negro residents pointed out that public restrooms inside the courthouse were for white only.

During the weeklong celebration honoring Martin Luther King in January, 1991, Floyd Price of Lubbock recalled past times when black men couldn't eat in a restaurant or had to sit on the second floor in movie theaters. In those theaters there were no restroom facilities for his race. Things have changed in Lubbock, but he added, "We still have a long way to go. We don't see the racial tension between black and white like we did, but there are other things - political injustices, social injustices, and economic injustices." Price summed it up by saying that people need to start dealing with each other as people and look beyond their race.

SCHOOLS

The colored school was held in a small building near the railroad roundhouse. In 1921 Miss Mabel Brembray took the county school examination to begin her teaching career with 25 or 30 colored children. The school was moved to a church building in 1924.

Though she returned to college that year, Miss Brembray taught at Roaring Springs for the five month school term in 1925. The 1933 enrollment in Roaring Springs City Colored School was 16. Mrs. R.C. Barrett, formerly Miss Brembray, taught at Roaring Springs from 1944 until 1953. Mrs. Bobbie Ella Fluellen started with the Roaring Springs Negro in 1953.

The Matador school board purchased

a frame building in 1928.

The Matador Negro community pledged themselves to cooperate with the Board of Trustees and superintendent in securing a new school building in 1948. School board purchased eight barracks from Childress Army Air Field. A 20 x 100 building was designated for the colored school.

Describing the county fair exhibits in October of 1948, the Tribune wrote, "One of the outstanding booths at the fair was that prepared by the colored citizens of the community, which contained canned goods and handwork. One of the most interesting items displayed was a bill of sale for a slave." Mrs. L. Mitchell, Mrs. T.E. Norris, Mrs. Henry Charles, Mrs. Mable Barrett, W.S. Mitchell, Rev. C.J. Tisdales, and Beatrice Eubanks won prizes.

Matador schools opened on Sept. 1, 1949, with the exception of the colored school which opened Aug. 8, so that it might later dismiss for cotton-picking. The Gilmer-Aiken law went into effect, setting the tax rate at \$1.50 and implementing the merit and demerit system and corporal punishment for unruly students, if another teacher witnessed the punishment and proper precaution was taken to prevent injury.

Colored patrons were urged to cooperate with school board and Supt. Ezell in starting the 1951 term early, making possible the cotton harvest recess. Federal authorities stressed that the child labor law would be rigidly enforced.

Joint Baccalaureate services for Matador and Roaring Springs Elementary schools was held in Macedonia Baptist Church in May, 1952. Completing the eight grade were Mac Lene Hughes, Virdee Baily, and Helen Jean Brown, all of Roaring Springs, and Bessie Irene Ferrell of Matador. Teachers were W.S. Mitchell, Mrs. T.E. Norris, and Mrs. Mable Barrett.

The Roaring Springs Negro School hosted an area wide Negro Parent-Teacher Association training school in March of 1953.

That year Walter S. Mitchell, Jr., the son of Mr. and Mrs. Walter S. Mitchell, Sr. who taught at the Matador school, graduated from Prairie View A&M with a Bachelor of Science degree in industrial education.

In 1955 Matador colored school delayed opening until August 8, to allow children to aid in cotton hoeing. 34 enrolled in colored schools out of 800 total scholastics in the county.

Thirty students, accompanied by Mr. and Mrs. Hubert Fluellen, teachers at Roaring Springs, visited the Tribune to tour the newspaper plant and the Porter Ice Plant to see the local ice manufacturing industry in the fall of 1956.

The PTA sponsored a "live turkey" contest to raise money for basketball uniforms, according to teachers Mr. and Mrs. Hubert Allen. The prize turkey was awarded to Trubene editor, Douglas Meador, whose friends played a joke by penning the turkey tom in the newspaper office.

High School students from the Matador Colored School were transported by bus to Floydada to attend Della Plain School.

The county schools quietly integrated in September of 1965. Twenty Negro students in high school and forty in grade school enrolled without incident. The principal at Matador Grade School, Jake Edwards, stated, "There is no color or race distinction in grade school. We have a total of 223 students." High School had a total of 106 students. As former coach Charley Johnson took the helm as superintendent of schools, the Tribune reported, "Whatever integration might mean in other parts of the United States, it had been accomplished without a single incident in Matador's school system."

Jewell Storey, Ella Brown, and Ruby Storey graduated with the seventeen 1966 Matador High School seniors.

Jewell Dennis Storey, track and basketball star who went to state meets at least three times in both events for Della Plains High School, the black school at Floydada, graduated from Motley County High School in 1966. Ruby Jewell Storey placed first and second in state at track meets, was co-captain of Matador basketball team and All District selection in 1966.

In April of 1968 Dr. Martin Luther King, civil rights leader, was killed in Memphis, Tennessee, by an assassin's bullet. The flags at the post offices in Motley County were flown at half-mast in mourning for the popular Nobel Peace Prize winner. King was eventually to be honored with federal holiday on his birth date of January 21.

Mrs. Mable Barrett taught a pre-school Head Start program at Paducah first. In 1969 she started the program in Matador, holding class for 19 students for half a day, five days a week in the old colored school building. Ruby Lee Edwards, Zurline Lee, and Frances Anderson assisted the teacher. In 1971 twelve children enrolled. Mrs. Barrett also taught night classes for adults in the Community Action program and directed social programs on Saturday nights.

In 1971 Hattie Louise Brown graduated from Roaring Springs High School as Salutatorian. Vice president of the senior class was Darlene Cole. The following year the decision was made to consolidate Roaring Springs and all the other schools in the county into one school located at Matador.

Matador teachers were Jeannetta Brembray Davis, principal for about 20 years, died in 1953; Prof. Richard C. Echols, track coach, 1946; Prof. Echols, principal, 1947; W.S. Mitchell, princi-

Mark your calendar and make plans to attend the public hearings sponsored by the Texas Parks and Wildlife Department. Only two hearings are scheduled in our region! The first one is Monday, March 2, in the Potter County Courthouse starting at 7:00 p.m. The second is scheduled for Lubbock County Commissioners Court on Tuesday, March 3.

After listening to over 1,000 fishermen concerning the conditions at LAKE MEREDITH, listed below are some of the best suggestions on how to IMPROVE fishing in West Texas.

(1) STOP ALL COVE KILLS -- Historically, LAKE MEREDITH, claimed as "one of the most intensively managed lakes in the state," has the most cove kills, BUT the best local fishing lake is BAYLOR LAKE, which has NOT been subjected to a cove kill in ten years!

(2) ESTABLISH SANCTUARY COVES in the best spawning spots on each lake. From April till May, use buoys and signs to protect two or three prime locations from boating, fishing, water skiing and even disruption by TPW biologists.

(3) ADD BAIT FISH -- Try new varieties and stock them several times each year. Adding additional bait fish makes more sense than wiping out the population base of smallmouths or other gamefish. The rod and reel anglers do not find a surplus of gamefish in any of our local lakes!

(4) EXPERIMENT -- In LAKE MEREDITH, the very popular and easy-to-catch sand bass was not stocked by TPW! Desperate anglers, wanting something to catch, brought them in. Why not experiment with hybrids, stripers, Kentuckies, or even saugeyes? A good argument can be made for these cooperative and tasty fish.

(5) STOP USING MEREDITH AS A WALLEY HATCHERY. If TPW insists on making walleye the dominant gamefish, at least allow the walleye to spawn without disruption.

(6) STUDY OUR NEIGHBORS - In September of 1991, the taxpayes paid for a poorly drafted (but widely distributed) "misinformation" letter signed by TPW biologist JOE KRAAI in which he claimed, "New Mexico stocks no black bass in any of their lakes..." Despite other gross and flagrant errors in that official letter, the TPW officials closed ranks without ever checking the facts or publically acknowledging any mistakes.

(6) CHANGE THE TPW ATTITUDE as repeatedly expressed by Joe Kraai who claims the locals just don't know how to catch fish at Meredith. FACT #1. Locals are catching walleye at Lake Conchas. FACT #2. Locals are catching walleye and striper at Lake Foss.

The most important fact is that the locals are tired of spending their money driving out-of-state or down-state. They are ready for better fishing at local lakes...and they deserve better. See you at the courthouse.

WASTE PESTICIDE COLLECTION PROGRAM

The Texas Water Commission (TWC) in cooperation with the Texas Agricultural (TDA) has organized a Waste Pesticide Collection Program. The collection will be March 2, 1992 from 8:00 a.m. to 3:00 p.m. at the Farmer's Grain Co-op located 1 block east of the intersection of State Highways 277 and 222 in Munday, Texas.

There will also be a collection in O'Donnell, TX at the Farmer's Co-op Gin located off U.S. Highway 87 on Loop 76 from 8:00 a.m. to 3:00 p.m. on March 5, 1992.

There will be no fees charged, no questions asked and no signatures required from any participant in this program.

Waste pesticides eligible for collection will include: insecticides, fungicides, rodenticides, nematocides, bactericides, growth regulators, harvest aid chemicals, pesticides used on livestock, all formulations of herbicides EXCLUDING THOSE containing 2, 4, 5-Trichlorophenoxyacetic acid (2, 4, 5-T) and

unknown or unlabeled materials suspected of being one of the above mentioned eligible substances. Waste pesticides and products EXCLUDED from collection include waste oils, solvents, paints, explosive materials, herbicides containing 2, 4, 5-T and Silvex and fertilizers or nutrient materials that are neither hazardous nor contain pesticide admixtures.

Pesticide containers will also be accepted if they have been triple rinsed and punctured to render them useless and if they contained an eligible pesticide.

It would be wise to take advantage of this free program if you have old pesticides that need to be disposed of. The cost of disposing many of these chemicals is very high if you take them to a special waste disposal dump on your own.

If you plan to participate in this program please call the County Extension office at 347-2733 for further details on transport and safety procedures.

Fire Department Hears Weather Spotting Program

by Alan Bingham

Matador Volunteer Fire Department had its regular meeting, February 24, 1992.

President Craig Turner called the meeting to order. Fire Chief Rodney Williams introduced Gary Woodall from the National Weather Service of Lubbock, Texas. Mr. Woodall gave a slide presentation on weather spotting. More particular the program was directed at recognizing Tornadoes and Thunderstorms and

the severe weather that accompanies these storms such as hail, flooding, and wind.

The meeting included representatives from the Matador and Roaring Springs Fire Departments and E.M.S.

Training Officer Dude Speed handed out directories of the ten signals to be used in correct radio procedure.

Since the 1st of January, the Fire Department has responded to a 6 county calls and no city calls.

Being no further business, the meeting adjourned.

Basketball teams, the "Tigers" Basketball conference (Organized in 1947. 250 fans watched the Paducah and Matador colored teams play in the Matador school gym.)

MACEDONIA BAPTIST CHURCH

Macedonia Baptist Church was organized in Matador in 1921. Though the colored school in Matador was first held in a small building near the railroad roundhouse in 1924, it was later moved to the church building.

When Will Lewis, a resident of Motley County since 1900, died of a heart attack on Oct. 18, 1945, the church lost

one of its strong leaders. Lewis, born at Naple, Texas on March 5, 1878 had also served as a pastor of the colored Baptist church of Roaring Springs.

In 1943, the Rev. R.C. Barrett celebrated his 4th year of service to Macedonia Baptist Church. During that short time, the Negro religious leader was responsible for building a new church building, adding two additional building lots, and increasing his church membership from a handful to approximately 100. Four years later the construction of a parsonage was made possible by a revival meeting, which netted \$129.89.

An outstanding religious and civic Negro leader for 27 years was the Rev. N. Samuel Unis Lowe, nicknamed "Bud." A natural leader, he possessed a good education, a keen intellect and a love for good will. Born in Georgia on Aug. 13, 1871, he came to Corsicana with his parents. Bud Lowe died in Matador at age 80. According to the Matador Tribune, through Lowe's efforts, the relationship between the races here had always been removed from conflict.

In the summer of 1991, the Eastside Community Center held its 10th Annual Celebration with a variety of activities, including a baseball game, a barbeque, and dance. A Memorial Service was held at the Macedonia Baptist Church on July 7th.

Jessie Smallwood

Services for Jessie Wester Smallwood, 69, of Plainview were held at 2 p.m. Tuesday, February 25, 1992, in College Heights Baptist Church with the Rev. Don Robertson, pastor, officiating.

Graveside services were held at 4 p.m. Tuesday in East Mound Cemetery in Matador under the direction of Wood-Dunning Funeral Home.

He died at 4:55 a.m. Sunday in his residence after a lengthy illness.

He was born in Motley County. He came to Plainview in 1956 from Matador and was later a carpenter and building contractor in Plainview. He married Delores Brooks on Dec. 19, 1952, in Matador. He was a U.S. Army veteran of

World War II. He was a member of the college Heights Baptist Church, the Veteran's of Foreign Wars, the Plainview Rodeo Club and the American Quarter Horse Association.

Survivors include his wife; three daughters, Linda Ratcliff, Judy Matthews and Nissa Matthews, all of Plainview; his

mother, Osie Smallwood of Matador; two brothers, Clyde Smallwood of Liberal, Kan., and Herbert Smallwood of Iowa Park; a sister, Dollie Robinson of Pharr; four grandchildren; and two great-grandchildren.

The family suggests memorials to the building fund at College Heights Baptist Church in Plainview.

W. Duke Lipscomb

Services for W. Duke Lipscomb, 89, of Matador were held at 11 a.m. Monday, February 24, 1992 in the First United Methodist Church with the Revs. Mary Helen Cross, pastor, and Bruce Parks of Lubbock officiating.

Masonic burial services were held in East Mound Cemetery under direction of Seigler Funeral Home.

Lipscomb died at 5:45 a.m. Friday, February 21, 1992, in Crosbyton Hospital after a sudden illness.

He was born in Aspermont and moved

to Matador in 1949. He married Marguerite "Pete" Hart on July 10, 1922. She died on Nov. 10, 1976. He married Vena Lawson on July 29, 1979, in Garden City. He had ranches in Glasscock and Motley Counties. He was a member of Matador Masonic Lodge No. 824 and First United Methodist Church.

Survivors include his wife; a son, Wyatt D. Lipscomb Jr. of Odessa; a stepson, Robert Lawson of Midland; a half-brother, J. Brack Lipscomb of San Antonio; four grandchildren; and eight great-grandchildren.

Mattie Skinner

Funeral services for Mattie Smith Skinner, 93, of Quitaque were held at 3:00 p.m., Thursday, February 13 in Kingdom Hall of Jehovah's Witnesses with Virgil Lowery officiating.

Burial was in the Smith Family Cemetery near Flomot under the direction of the Moore-Rose-White Funeral Home of Floydada.

Mrs. Skinner died Tuesday in the Central Plains Regional Hospital in Plainview after a brief illness.

She was born in Fairmont and had

lived in Roswell, N.M. before moving back to Quitaque in 1976. She married Sebastian Walter Skinner on April 24, 1919 in Flomot. He died in 1982. She was a homemaker and a Jehovah's Witness. She was preceded in death by a daughter, Laverne Smith of Carlsbad, N.M., December 1991.

Survivors include a daughter, Ruth Lee of Flomot; a son, Ruel of Quitaque; 11 grandchildren; 18 great-grandchildren and a great-great grandchild.

Grandsons served as pallbearers.

Melba Jo Merrell

Funeral services for Melba Jo Merrell, 60, of Flomot, Quitaque Route, were held at 2:00 p.m., Friday, February 14 in First Baptist Church in Quitaque with the Rev. Cliff Cooper, pastor of O'Brian First Baptist Church, officiating.

The Rev. Rob Lackey, pastor of Quitaque First Baptist Church, assisted. Burial was in the Greymule Cemetery under the direction of Schooler-Gordon Funeral Directors.

Mrs. Merrell died Wednesday in the Methodist Hospital in Lubbock following a lengthy illness.

She was born in Briscoe County. She

was a homemaker and a floral arranger. She married Turman "Tubb" Merrell, June 10, 1950 in Silvertown. She was a member of the First Baptist Church.

Survivors include her husband; a son, Don Douglas of Lubbock; two daughters, Cheryl Cooper of O'Brian and Jayne Adams of Fort Worth; five sisters, Clara Davidson and Janelle Smith, both of Quitaque; Willie Mae Gregg of Roby, Mary Joyce Baca of Fairfield and Chlonce Starkey of Slaton; and four grandchildren.

Nephews served as pallbearers.

Thank You

Again, we are home after spending twenty-five days at the Methodist Hospital in Lubbock.

We thank all of you who have been so faithful to us with your prayers, visits, cards, telephone calls, flowers, and food.

Especially do we thank the members of the Assembly of God Church and the Baptist Church for keeping us on your prayer lists, and to Pastors Ernie Brown and Charles Fisk who visited us many times at the hospital and ministered to us. We know that God answers prayers, and we are so grateful for so much. Visitors are welcome. Thank all of you.

Sincerely,
Mary & Grady Webb

A Better Country?

The hope of many of us that are Christians is for a better place than this world offers. Abraham, Isaac and Jacob also hoped for a better place than the land they traversed as "sojourners." The Bible states that they "looked for a city which hath foundations, whose builder and maker is God." (Hebrews 11:10). They were not satisfied with this world. To read from Hebrews 11:16, "But now they desire a better country, that is, a heavenly: wherefore God is not ashamed to be called their God: for he hath prepared for them a city." That would be a better country in every way. Can you imagine it?

In the words of our Lord, "In my Father's house are many mansions: If it were not so, I would have told you. I go to prepare a place for you." (John 14:2). To be in mansions in the home of God, and to be with our Lord! What better country could there be? Yet the Apostle Paul assures us that this is true: "For we know that if the earthly house not made with hands, eternal in the heavens," (II Corinthians 5:1)

The Lord Jesus Christ left heaven and came to this earth to present to us these "better things." We can obtain these blessings by faith. All that Christ has promised, He has promised to all who obey Him. Read of this in Hebrews 5:8-9. Do you believe enough to obey the Lord, and thus lay hold on these better things?

SEEDS FROM THE SOWER
Michael A. Guido
Metter, Georgia

After the coronation of Edward the 6th, a procession started for the banquet hall.

In front of the ruler were three soldiers carrying swords that represented the countries of England, Scotland and Wales.

"But," said Edward, "there's one more sword which should be with them. It's the Bible, the sword of the Spirit."

At his suggestion, the Bible was placed at the head of the parade. Now, at every coronation, the Bible is presented to the King with the words, "This is the most valuable thing the world affords."

As you start out in life, put the Bible first. Read it, obey it; then you'll be successful in all that you do.
