TRAIL DUST

By DOUGLAS MEADOR

We have put men in space and developed filter-tipped cigarettes, but in some fields our technology is at a standstill. The ordinary garden hoe has not been improved in half a century, and remains an efficient and selective implement of mankind. Its only drawback is the labor attached to its operation.

My mother used to expect a change in the weather when we heard coyotes howling after sunup.

If pioneer women had worn mini skirts, much of the time devoted to the operation of spinning wheels in producing ankle-length garments, could have been saved.

The blissful thing about an ignorant man is that he is never conscious of his position in society.

Influence is that degree of attention people pay to what you are saying.

The same science that developed rest pills could do this country a great service by producing some work pills.

Some people are worried because male and female Hippies look so much alike they can not determine one from the other. What possible difference could it make to anyone but another Hippie?

If we could refrigerate and preserve time when there is an abundance in youth it would be convenient in the later years when it is in short supply.

Scholarship Given To Mrs. McCallie

Mrs. Jack McCallie Jr., of Borger, the former Ruth Lynn, has been awarded an \$800 scholarship plus tuition in the field of Special Education, from Texas Woman's University in Denton.

These scholarships are given each year to outstanding senior students who are majoring in Special Education Requirements for the scholarships include good citizenship, at least a B average scholastically, and the student must agree to teach special education after graduation.

Mrs. McCallie is majoring in Special Education for the Physically Handicapped and Mentally Retarded. She will return to TWU in September as a senior.

To Hold Meeting

Minister Wayne Timmons of San Diego, Calif., will speak at the Matador Church of Christ in a series of gospel lessons beginning Sunday, July 21 and going through Sunday, July 28. Services will begin at 8:30 each night except Sunday when they will start at 7:00 p.m.

Mrs. Bennie Keltz Returns from Taos

Mrs. Bennie Keltz returned home Friday night from studying six weeks at Taos, New Mexico, with the Texas Tech Art Workshop, under the direction of Dr. Clarence Kincaid.

There were a total of 97 students enrolled in the workshop from Florida, Illinois, Oklahoma, New Mexico and Texas. The first session was from June 4-21, and the second from June 24-July 12. During the first session Mrs. Keltz took drawing instruction under Dr. Kincaid. The students sketched in the Taos and Rancho de Taos areas.

Mrs. Juanita Pollard instructed students in an advanced oil painting course during the second session. They also made sketching trips to Chimoya, Talpa and Arthur W. Hall's studio at Rancho del Rio.

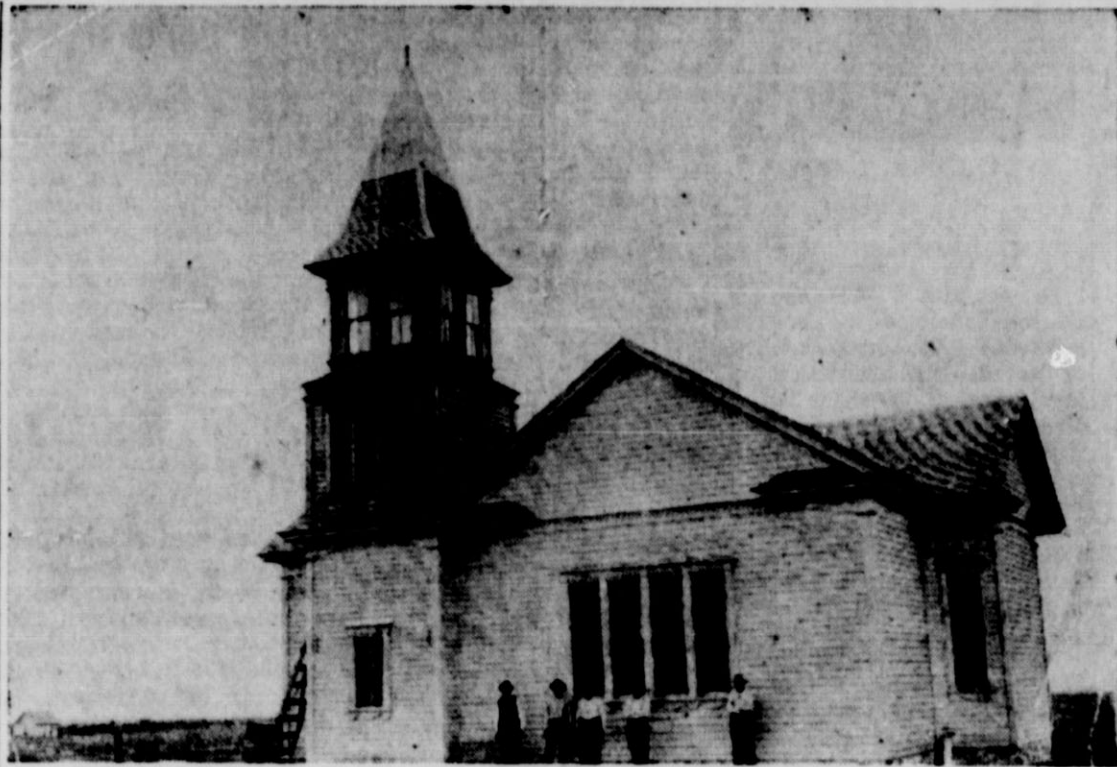

Local Taos artists gave a critique of the students' weekly work.

Miss Jerry Garrison, daughter of Mr. and Mrs. Carroll Garrison of Silverton, was Mrs. Keltz's roommate during the first session. In the second session Mrs. Pollard requested that Mrs. Keltz share her studio-apartment, which she did.

During the Fourth of July week end Mr. Keltz and son, Kelly, visited Mrs. Keltz. Then they all visited Mr. and Mrs. Norman Harp in Santa Fe.

Mrs. S. A. Swim of Fort Worth, formerly of Roaring Springs, also studied in Taos six weeks. Her husband joined her there the last three weeks of the workshop.

Former residents, Mr. and Mrs. Willard Young of Blanket, Texas, are visiting relatives here this week.

FIRST BUILDING was erected at a cost of about \$5000 and dedicated in 1907, on Dundee Street immediately east of Higginbotham-Bartlett Co. store. Land was donated by Mr. and Mrs. W. A. Walton (site of the present church plant was also donated by the Walton family). It was in the belfry of the above structure that the old bell tolled. The building was razed in 1938 after the new church plant had been erected on the present Main Street site.

4-H Dress Review Date Announced

Annual County 4-H Dress Review will be held Wednesday, July 24, in the Matador High School auditorium.

Judging will start at 1:30 p. m. and the program for the public at 2:30 p. m. The three divisions in which the girls will be judged include senior, junior and beginners.

Theme for the dress review will be Garden Party. Parents and friends are invited to attend and see the young ladies' accomplishments.

Crafts Exhibit

Any 4-H member who has been working on a crafts project this summer is encouraged to exhibit them at the dress review, however, they will not be judged. They should be ready to display at 1:30 in the high school; so they can be arranged before 2:30.

Girls who are working on record books are reminded that the books are due Friday, July 19, in the County Home Demonstration Agent's Office.

HOME FROM TRIP

Mr. and Mrs. D. E. Pitts returned Monday night from Lake City, Colorado, where they have been vacationing. En route to Colorado they visited over July 4th in Embudo, N.M. with Mrs. Joe Wason.

THE OLD BELL will echo again in the Matador community at 3:30 Saturday afternoon to officially begin the 75th anniversary observance of the founding of First Baptist Church in Matador. The observance will end Sunday.

LUBBOCK HIT BY FLOODING

A five-inch cloudburst flooded homes and streets in parts of Lubbock Sunday as heavy rains again soaked widespread sections of Lubbock.

Cars were tossed on lawns as torrents surged three and four feet deep down streets in western sections of Lubbock.

A taxicab was submerged to within a foot of the roof, with the dome light still burning.

One rain gauge in the western section of the city measured 4.62 inches, but the Weather Bureau, eight miles east of downtown, caught only .34.

The surprise deluge hit the city about midnight and lingered two hours.

Numerous homes were evacuated, but police and civil defense personnel were not needed for assistance.

12 inches at Wellington Wellington in Collingsworth county was struck with a 12-inch flood early Monday. About eight businesses and 10 homes were flooded, and water wells supplying municipal water, were severely damaged, according to the Amarillo Daily News.

Roving showers in this area Saturday afternoon registered .90-inch at the Elbert Reeves farm northeast of Matador, but only a trace here. It was reported that Roaring Springs received 1 1/2 inches at the same time. Showers early Monday registered .16-inch here by Bob Stanley's rain gauge, but much of the county did not receive moisture.

Hot, dry weather has resulted since the passage of the front which resulted in heavy rains and dotted showers.

ATTEND OPEN HOUSE

Mr. and Mrs. Eddie Russell and Mr. and Mrs. John Stevens attended the open house for the new wing of the Hi-Plains Hospital in Hale Center Sunday. Mr. and Mrs. Russell visited their son and family, Mr. and Mrs. Gordon Russell. Gordon Russell is an administrator at the hospital.

MOTHER HAS SURGERY

Rev. Larry Heard returned Wednesday from the bedside of his mother, Mrs. R. L. Heard, in Littlefield, where she had surgery Tuesday in the Medical Arts Hospital.

GARY CAMPBELL HAS SURGERY

Gary Campbell, son of Judge Forrest Campbell, underwent surgery to remove a metal plate from his arm, Friday, July 12, in Newman Memorial Hospital at Shattuck, Okla.

He left Monday to go to Arlington, Texas, where he will enroll at Arlington State College for the second summer semester.

Education Stressed As Vital to Future

ONLY about 30 years remain in which a decision will be made as to whether or not mankind can continue to survive on this earth. Fike Godfrey of Spur, first vice-president of the West Texas Chamber of Commerce, believes that man will overcome his problems through education.

Godfrey was the principal speaker Tuesday at the regular luncheon meeting of the Matador Lions Club. He is well known for his position in seeking excellence in West Texas education.

"Knowledge is doubling every ten years," Mr. Godfrey declared, "and we must have the very highest quality schools in the country, if we are to keep abreast of the changing world."

"We have 58 per cent of the area of Texas in the territory served by the West Texas Chamber of Commerce, and we have 490 high schools. We must have the highest standards in our schools, and money alone will not solve the problems."

"The situation is that 60 per cent of our high school graduates enter college, but 75 per cent of this number drop out by the first semester."

"The future rests in education, and there are few jobs in rural America. We need to stem the trend of youth to the cities, but only one farm boy in ten can make a living farming. We need more skilled labor, and we need more industry; we need to prepare a place for our young people."

Coach Is New Member During the meeting Coach Max Kennedy was welcomed into the club as a new member.

Boss Lion Ronnie Christian announced that the club will hold a pancake supper, Sept. 20, 6 to 8 p. m., evening of the first 1968 football game of the Matador Matadors, with the Crowell Wild Cats. A brief report on the Lions International convention in Dallas was made by delegate Lion Glenn Woodruff.

An automobile agency manager wrote a courteous letter to a customer who had purchased a rival agency's car. The result was that he later sold his make of car to the customer, and also received other sales as result of the letter.

All kinds of businesses can improve sales through better public relations and more attention to the customer. It is well known that all businesses must grow to survive. This can be accomplished if employees are skilled in the art of public relations. The cost is only \$4.

Johny Craven, son of Mr. and Mrs. Vernon Craven of Abilene, visited Sunday night and Monday with his uncle and aunt, Mr. and Mrs. J. D. Craven.

Land of Cottonpatch Romance Revisited 42 Years After Marriage

COTTON was good in the Flomot community in the fall of 1926, when Bert Keeney came here from Coleman County. He was 21 and had come to this area to pick cotton.

It was in a cotton patch that he met Voletta Childers, 16, daughter of Flomot residents, Mr. and Mrs. J. H. Childers, and it was there that a romance began.

Their first date was a Dr. Tate medicine show in Flomot (it was free) and after a five-week whirlwind courtship they were married here in Matador, December 1, 1926. The ceremony took place in the county clerk's office and was performed by the late Rev. C. D. Pipkin.

Mr. and Mrs. Keeney lived in New Mexico about 12 years and went to California in 1946. They are both employed in the clerk's office at Davis University. They have three sons and seven grandchildren. They lost one son in the Korean conflict. Another son is presently a pilot in Vietnam.

Mr. and Mrs. Keeney's address is 175 Gayway, Davis, California 95616.

CHECKING THE SOIL— B. L. Peacock, right, Roaring Springs Vocational Agriculture teacher, examines soil characteristics with Marjorie Porter, left, and Truman W. Kidwell, center, of Childress, during a field trip as part of the Land, Range and Pasture Judging short course, sponsored jointly by Tarleton State College and Bosque Soil and Water Conservation District. The short course was held July 9-10 at Stephenville.

Shower Honors Linda Seigler

Miss Linda Beth Seigler, bride-elect of Mr. Ed Herbert Smith Jr., was honored with a pre-nuptial shower Monday night at the home of Mrs. C. M. Barton Jr. Reception hours were from 7:30 to 9:00.

Sharing hostess duties with Mrs. Barton for the courtesy were Mesdames Odie Killingsworth, Ed Lee, John Irwin, J. S. Stanley, John Hamilton, Olive Russell, Frank Pohl, Edna Harp and Mike Hoyle and Miss Verlin Reeves.

Miss Seigler's chosen colors were featured in an arrangement of yellow gladioli and white pom-poms which centered the dining table, covered with a white net cloth trimmed with yellow ribbons. White candles in crystal holders complimented the punch bowl and other crystal appointments. Served with frosted punch were cookies and mints.

Mesdames Hoyle and Harp alternated in pouring.

The hostess' gift to Miss Seigler was a roaster-broiler.

Guests were registered by Miss Gina Killingsworth. Attending from out of town were a sister of the bride, Mrs. J. L. Folmer and daughters, Elizabeth and Nancy of Houston, and Mrs. Ethel Brown of Roaring Springs.

July Marriage Is Announced

Miss Gloria Ann Amerin, daughter of Mrs. Lillian Amerin of Plains, Kansas, will be married to Mr. Danny Burkes, son of Mr. and Mrs. Noble Burkes of Matador, it was announced here this week.

The wedding will take place Saturday, July 27, at 2:00 p. m. in the Plains Catholic Church at Plains, Kansas.

HERE FROM FLORIDA

Mr. and Mrs. Lowell Barkley Jr. and daughters, Lynn and D'Ann of Titusville, Florida, visited here last week with his parents, Mr. and Mrs. L. J. Barkley, and other relatives. Mr. Barkley has been employed at the Cape Kennedy space launching site for the past four years.

Mr. and Mrs. Phil Green of Pampa, former residents of Matador, visited with relatives here during the week end.

MOST PARS

Play was for most pars and La Voe Thacker was winner with 5 pars. Others playing were Lillian Thacker, Tommy Edwards, Mickey Bostick, Opal Pipkin, Catherine Bird, Geneva Wilson, Winifred Darsey, Mary Meason, Billie Barnhill, Faye Clements and Hazel. This is the most we've had for play in some time. In the afternoon Lucretia Campbell and Opal Pipkin played a round.

Cathrine was playing with a new set of irons and enjoying them... especially the putter as she had only 11 putts!!! Play day will be at 8:30 a.m. through July and August.

Attending Golf School

Jeff Thacker and Mark Hill are attending Arnold Palmer's Golf Academy in Vail, Colorado, for three weeks. They were accompanied there by J. M. and Margaret Jane Hill who stayed several days and enjoyed playing on the beautiful course. The boys will play in Denver sometime during their stay. They like everything about the school except the food. When I saw Margaret Jane, she had just sent them a box of "goodies".

GOOD SCORES

Two local golfers are quite proud of recent scores. John Barnhill played at Plainview with J. S. Stanley and Bill Pipkin, and R. L. Brandon of Plainview joined them. John shot 31 on the front nine with a score of 69 on the course. (71 is par) AND Ben Edwards shot a 36 with the DROP-OUTS here.

Hereford Youth Wins West Texas Press Association's Scholarship

ABILENE—Tyler Vance of Hereford, who already has three years experience in high school and professional journalism, is the 1968 West Texas Press Association scholarship winner.

The first and second alternates, Benny Turner and Linda Kinsey, respectively, are both from Sweetwater.

The selections were made by the Scholarship Committee of the WTPA of which Ed Wishcamper, editor of The Abilene Reporter-News, is chairman.

The scholarship won by Vance is for \$800, to be applied \$200 per year over the four years of college. Vance said he plans to study journalism at West Texas State University, Canyon.

James M. Gillentine, publisher of The Hereford Brand for which Vance does part time work, described the 18-year-old youth as "a near genius" in photography. He also does news writing.

Gillentine told the selection committee he felt "there is not a youngster in the United States who can outdistance Tyler" in photography, "and in 30 years of newspaper experience I have had only one or two professionals who come up to his quality."

Vance began journalism work during his sophomore year in Hereford High School as a writer-photographer on the school paper, The Whiteface.

Later he went to work part time for the Hereford Brand and still continues on its staff while also working two days a week for the neighboring Friona Star.

Outstanding Student

Vance was named the Outstanding Industrial Cooperative Training Student of Hereford High School for 1968. In 1966 he won first place award in news photos in the Panhandle Press Association contests. This year he won first in Technical Information and second place as Out-

standing Photographer in Texas at the state meeting of Vocational Industrial Clubs of America.

His pictures also have won attention in national competition.

HUMOR ALONG WITH COST OF DEFEAT

A man in Beauregard Parish of Ward 3 ran for Police Juror and got defeated. He felt the defeat so badly that he wrote up the following article for publication in the newspaper.

Said he: "I lost four months and twenty days canvassing.

I lost forty acres of corn and many sweet potatoes.

I lost two front teeth and some hair in a personal encounter with an opponent.

I gave away two calves and five goats for barbecue.

I gave away five pairs suspenders, six ladies' dresses and fifteen baby rattlers.

I pulled 475 bundles of fodder and gathered two loads of corn.

I drew 24 buckets of water, put up 14 kitchen stoves, kindled 17 fires and kissed 115 babies.

I walked 9,080 miles, shook hands 16,002 times, told 10,001

lies and spoke enough to make several volumes.

I attended 26 revival meetings and was baptized four times by immersion and two times some other way; gave to home and foreign missions; MADE LOVE to nine grass widows; got dog bit 39 times, and then GOT DEFEATED!

Thank you so much for your vote and support.

And signed his name.

TAX MAN SAM SEZ:

TOPIC. PAYING ESTATE TAX

If we have accumulated a few thousand as the years go on, we start to worry about how much tax our children will owe when we die. There is an inheritance tax in the State of Texas, and a federal estate tax to consider. On the federal tax you do not have to file an estate tax return unless your estate amounts to more than \$60,000. If you own community property this goes up to \$120,000.

Publication No. 448, a Guide to Federal Estate and Gift Taxation, is available for 25c from the Government Printing Office. A 25c investment could help you avoid a lot of problems for your heirs.

Two Accidents For Past Month

The Texas Highway Patrol investigated two accidents on rural highways in Motley County during the month of June, according to Sergeant Floyd Etheridge, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed, three persons injured, and an estimated property damage of \$1,450.

The rural traffic accident summary for this county during the first six months of 1968 shows a total of nine accidents resulting in no persons killed, eight persons injured, and an estimated property damage of \$6,715.

"During the first six months of 1968 in Texas there were 1472 traffic deaths, or four less as compared to the 1476 traffic deaths for the same period of 1967," the Sergeant stated. However, if past trends continue the last six months will probably raise the 1968 total to one percent over the 1967 total of 3,367 deaths.

Mexican artist Juan O'Gorman painted a 130-foot mural adorning the facade of the Convention Center Theater at HemisFair '68.

COUNTY AGENT PALLMEYER SAYS:

With warmer weather, comes increased insect problems in the home garden. Knowing which kind of insect is giving you the most trouble can help you plan an effective control for the vegetable pests.

Sucking insects such as aphids, leafhoppers, thrips, psyllids, garden fleahoppers, and other "bugs" will cause yellowing, stunting, wilting and under severe infestation can cause plants to die. They can inject toxic materials into the plants and transmit diseases. Some excrete honeydew on which sooty mold fungus grows. Diazinon and Malathion are recommended controls for sucking insects.

Chewing insects are easily recognized. They eat holes in leaves, stems, and fruits. Beetles, grasshoppers, vegetable weevils, caterpillars, leaf miners, and leaf rollers are the most common pests of this type. Carbaryl, DDT, Diazinon, Malathion, Methoxychlor, and Rotenone are effective controls.

Soil insects are especially harmful to seeds and young plants. Common insects in this group include many kinds of maggots, wireworms, cutworms, white grubs, ants, and mole crickets. Treating the soil about four weeks before planting with 10 per cent dust and either wettable powder or 74 per cent emulsion in water will control most soil insects.

Checking the plants frequently and applying controls as needed give an extra measure of protection against insect damage.

It should be remembered that labels are put on containers of insecticides to be read: Rates, precautions, and compatibility of certain insecticides differ and should be checked each time a control is applied.

All food from the garden should be washed before it is eaten, and insecticides should be kept in a safe place, away from children.

Publication L-642, "Insect Control in the Home Garden," is available from my office, and re-

member, "One insecticide won't control 'all' insects."

For example, agricultural projects such as livestock, crops and marketing are designed for farm youngsters who make up about 39% of the national enrollment. Projects and activities in science, consumer education, home economics, health, safety, leadership and mechanics are suitable for all 4-H members. The projects are set up so the 4-H'er can advance in an orderly fashion under the guidance of volunteer adult leaders and experienced 4-H junior leaders.

When projects are completed, 4-H'ers are encouraged to evaluate their own achievements. Not only is it possible to compete with other 4-H'ers engaged in like projects, but there is a special program called "achievement" which considers progress in their total 4-H efforts.

It is the national 4-H Achievement program sponsored by the Ford Motor Company Fund. Annual awards are offered for the best overall records submitted in county, state and national competition.

Last year, for example, nearly 9,000 members in 50 states, qualified for county medal awards. The top state award is a trip to the National 4-H Congress held in Chicago the week after Thanksgiving.

From the 1968 state winners, 12 will be chosen for national \$500 scholarships. A special award of an engraved silver serving tray, presented in the name of the President of the United States, will be given to the highest ranking girl and boy from the national winners.

Ford officials are hosts to the achievement award winners and leaders during the national Congress, and also at a luncheon for the entire Congress delegation of some 2,000 persons. Ford has supported the 4-H program for the last two decades.

Achievement and all Senior records will be due August 12.

Buying fertilizer for the lawn and garden need not be a task. Saving money may be important, but the economics of buying a few bags of fertilizer are not as important as buying quantities. You can save by avoiding small packages.

You may pay 10 to 20 times more for fertilizer in the one-pound size compared to an 80-pound bag. Farm-sized bags of 80 pounds are not too much fertilizer for anyone with a vegetable garden, flower beds and a lawn.

All fertilizer containers must be properly labeled. This means there is no excuse to be misinformed about the merits of the product, although you may be misled by extravagant claims in words and pictures. Read the label before you buy. Don't be misled by how many square feet a fertilizer will cover. What counts is whether you are applying enough of the proper material to give your plants the nutrients they need.

Soil tests can be used to determine the kind and amounts of plant food needed for lawns and gardens as well as for fields and pastures. Don't go by your neighbors' tests, as your problem could be different. A soil test is merely a description and for yourself I am sure you wouldn't want to risk using your

FHA Credit Aids In Two Counties

Credit programs of the U.S. Farmers Home Administration helped more than 173 families in Floyd and Motley counties improve their homes, family farms and communities during fiscal year 1968. Supervisor Alfred A. Harrison of the agency's county office in Floydada said today.

Farmers Home Administration loans in the counties totaled \$1,439,350 in 1968.

Harrison reported that the Farmers Home Administration, which supplements all other credit available to rural people, has added \$2,951,180 to the county resources with loans in the past two years through a range of programs.

With the turnover of funds invested by borrower families, associations and communities, the agency's work is estimated to have had a \$20,658,260 impact on the counties' economy during 1967 and 1968.

Harrison said that \$128,370 of the 1968 fiscal year lending total through his office was accounted for by Farmers Home Administration insurance of loans funded by private lenders.

An estimated 38 people benefited from loans for construction or improvement of 9 family homes in the counties during the year.

Family farmers who lacked other sources of credit turned to Farmers Home Administration for \$156,960 in loans to secure farm ownership and improve their farms and \$415,040 in loans for operating purposes during 1968.

Many of the 173 farm families served by FHA might have been forced off the land except for this last-resort source of financing," Harrison said.

The agency also loaned \$796,900 to 79 farmers in the counties to overcome losses suffered in natural disasters.

Economic opportunity loans, which enable low-income families to equip themselves for income-producing small enterprises—either farming, or non-farm production or services they can perform in their rural communities—resulted in small loans totaling \$5,240 to three families last year, and \$1840 to one cooperative group in Floyd County. Two cooperative group loans are pending in Motley County at this time.

GROUND COVER

A new permanent, flowering ground cover, developed for many uses, adds beauty to banks and slopes—and one planting is forever! Once in the ground, it requires no maintenance beyond a thorough watering during the first 15-day period, and never needs mowing.

Name of the plant is Penngift Crownvetch. These other advantages are cited: This tough perennial is winter-hardy and drought-resistant, chokes out weeds, grows well in full sun or semi-shade. Its pink, white and lavender blossoms increase in profusion from year to year.

Until recently, industrial users have snapped up all the Crownvetch obtainable. Now it is available in sufficient quantities to accommodate homeowners, too.

Tips Tell How To Modernize

Is a bathroom remodeling project on the agenda? Here are some tips.

1. In addition to the conventional three fixtures of tub, lavatory and water closet, more and more bathrooms are including bidets. This personal hygiene device, pronounced "bee-day," is installed next to the water closet.

For more information, write Plumbing Fixture Manufacturers Association, 1145 19th Street, N. W., Washington, D.C. 20036 and ask for free bidet flyer.

2. Top-quality bathroom fixtures are stain- and acid-resistant, easier to keep clean, maintain luster longer. For information on how to recognize quality, the Plumbing Fixture Manufacturers Association (address above) has a free flyer entitled, "What You Should Know about Plumbing Fixtures for Your Home."

3. Don't have space for a bathroom? Investigate the possibilities of a compact powder room. Most older homes have such space in a closet, under a stairwell or at the end of a hall.

A powder room can be installed in a space as little as four-by-five feet, says the Plumbing-Heating-Cooling Information Bureau.

Vanity Answers Rush-Hour Need

In most families, one of the chief causes of morning bickering and getting the day off to a wrong start is competition for the bathroom.

For those who aren't in a position to add one or more bathrooms in the immediate future, answer to morning and evening rush-hour problems can be a source of water in the bedroom, says the Plumbing-Heating-Cooling Information Bureau.

Instead of the china bowl and pitcher of yesteryear, today's convenience is a handsome vanity lavatory with hot and cold running water. The complete unit consists of one, or preferably two, lavatory bowls sunk into a generous countertop, with the whole mounted on a cabinet that provides storage space.

The vanities come in all decorator styles, so they can harmonize with the rest of the bedroom furniture—early American, French provincial, modern Swedish or whatever.

Colored lavatory bowls can add a bold splash of color where desired.

Countertops Are Do-It-Yourself

Now on the market is a new do-it-yourself kitchen countertopping which the homeowner can handle. It's pliable vinyl, which the manufacturer says is easy to cut, bend and adhere to old surfaces.

The vinyl is much like vinyl tiles that handymen have been putting on floors for years, only it isn't quite as thick, for ease of handling. Wearing surface is just as tough as the floor surface. The countertoppings have sculptured, textured and smooth surfaces, color-coordinated with vinyl floor patterns.

NEW, COOL DRINK RECIPES FOR SUMMER DAYS

The most welcome thing on a sultry summer day is a moment of leisurely relaxation with a tall, icy beverage.

Here are two new ideas for preparing summer drinks. They are quite easy, yet you make them yourself. It's more fun that way, and your family and friends will be far more pleased.

The use of convenience foods, such as lemon juice in bottles, in these recipes is your key to saving time.

RAINBOW JULEP

1 can (1 pound 4 ounces) pineapple juice (2½ cups)
¾ cup ReaLemon bottled lemon juice
¾ cup orange juice
3 tablespoons sugar
1 tablespoon maraschino cherry juice

Combine all ingredients; mix well. Pour over cracked ice and serve. Makes about 1 quart.

SPECIAL SUMMER LEMONADE

1 cup ReaLemon bottled lemon juice
1 cup orange juice
¾ cup light corn syrup
1 quart gingerale, chilled
½ pint fresh strawberries

Combine bottled lemon juice, orange juice and corn syrup. Add chilled gingerale. Serve over ice with strawberry garnish. Makes 6 tall glasses or 10 punch cups.

SUMMER FRUIT NOG

1 egg white
1 tablespoon honey
1 cup water
1½ cups orange juice
½ cup ReaLemon bottled lemon juice
2 tablespoons sugar

Beat egg white and honey until stiff. Turn into 1 quart jar. Add remaining ingredients; shake vigorously. Pour over ice and serve.

Postal Corporation Proposal Outlined

WASHINGTON —Warning of a crisis in the Post Office Department, a presidential commission Tuesday proposed that it be scrapped in favor of a nonprofit government corporation that could deliver the mail in a more businesslike way.

President Johnson called the commission's report "sobering" and Postmaster General W. Marvin Watson said it was "thought provoking." Both promised to give thorough consideration to its recommendation that the department be abolished as a cabinet agency.

In Congress—which the commission blamed for many of the post office's problems, the proposal's reception was lukewarm. Rep. Tom Steed (D-Okla.) the House's main postal expert, called the report "very good, but Congress will think for a

long time before it turns the post office over to a corporation."

The 10-member commission that studied the post office for more than a year recommended that it be placed under control of a federally owned corporation that would operate the postal service on a self supporting basis.

Its frequently critical report said there was widespread public dissatisfaction with the mail.

Frederick R. Kappel, retired American Telephone and Telegraph board chairman who headed the commission, said this undoubtedly would mean higher postal rates.

The post office now delivers 82 billion pieces of mail a year and runs a deficit in doing so that is more than \$1 billion.

Pat Boone to be Top Attraction At Panhandle South Plains Fair

LUBBOCK - Pat Boone, television, motion picture and recording personality, will headline the 51st annual Panhandle South Plains Fair here this fall, according to R. E. (Bob) Gee, president of the fair board of directors.

Boone, direct descendent of frontiersman Daniel Boone, has a number of Texas ties although he was born in Florida and now makes his home in California.

Charles Eugene (Pat) Boone is the first singer since Bing Crosby's emergence as a star in the thirties who enjoys the idolatry of teenagers, the approval of their parents and the admiration of the young adults.

He began to capture these audiences with the release of his first discs for Dot Records. His first records in 1955, each coupling a politely jumping number with an easy-going ballad, sold more than four million copies during the tidal wave of "rock 'n roll."

These established him as the champion of a new trend that restored smooth singing to its place at the top of the best-seller lists.

Instead of "knocking the rock," as censorious adults have done, Boone has shown youngsters that a gentle version of it can be just as enjoyable, or more so, and has given them more soothing, enduring songs.

Pat was an athlete and honor student in high school, and sang first in public at amateur shows. After emceeing a high school talent show in Florida for 1 1/2 years, he won top honors on the T. D. Mack Amateur Hour and the Arthur Godfrey Talent Scout Show.

He was signed to a recording contract in 1954 while studying at North Texas State College, Denton, and working as a Fort Worth disc jockey and singer for \$44.50 a week.

His wife, Shirley, is the daughter of radio, television star and recording artist, Red Foley.

In 1958, Boone completed a book he had written after carefully considering the thousands of letters which were sent to him from teenagers asking his advice on their respective problems.

He called the book "Twixt Twelve and Twenty," but its appeal obviously hit not the youth alone. It soon rose to No. 1 on the non-fiction reading lists across the country and has been accepted by teachers, ministers and students alike. It has now sold over one-half million copies.

Boone also has authored "Between You, Me and the Gatepost."

Boone attends church with his

family three times a week, preaches guest sermons to Church of Christ congregations whenever he can, leads singing, as well as discussions at gatherings in his church in various sections of the country.

Leads Singing at ACC

Last December Boone led the singing for a youth rally at Abilene Christian College, opening ACC's 50th annual Bible Lecture-ship.

His sister, Judy, attended ACC as a freshman.

In addition to his records and television specials, Boone has nearly a dozen motion pictures to his credit, including such favorites as "Bernadine," "Mardi Gras," "Star Fair," and "Goodbye Charlie."

The fair is scheduled Sept. 23-28. The six-day run is expected to attract more than a quarter-million patrons and possibly will vie for another attendance mark.

The old record—262,355 persons—was established last year at the golden anniversary edition of the exposition, second in size and longevity in Texas to the state fair at Dallas.

TRACTOR TRAINING PROGRAM FOR YOUTH

An amendment to the agricultural hazardous-occupation order to permit the employment of 14 and 15 year olds to drive tractors and operate other farm machinery has been announced by the U. S. Secretary of Labor Willard Wirtz.

The change was effective June 6 and allows the hiring of these minors only after they have completed formal training in the safe use of such farm equipment. Written and practical tests will be given, County Agent Bill Palmeyer has been advised.

The training program will be operated through the U. S. Department of Agriculture's Federal Extension Service and its cooperative units which in Texas is the Agricultural Extension Service.

Under the amendment, farm employers hiring the 14 and 15 year old workers to drive tractors and operate certain other farm equipment will be required to:

Instruct the minor employees on the safe and proper operation of the specific equipment they will use.

Check on the youth at least three times a day, midmorning, noon and midafternoon to see that they are following the proper safety procedures.

Keep on file certificates showing youth have been trained; certificates must be signed by both the person conducting training and the county agent.

Previously, the order exempted only youth employed on a farm owned and/or operated by their parents or guardians and students under 16 enrolled in vocational agricultural program.

So that other youth may become qualified to operate tractors and farm machinery, a tractor school will be held for all that are interested. School census files have been checked and all eligible for the 1968 program have been mailed folders explaining the restrictions and provisions of this act.

An enrollment meeting will be held in the Matador Courthouse Thursday night August 1st starting at 9:00 p. m. At this time meeting dates will be set and a determination made on the type program to offer.

Assisting with this program will be Bill Moss, Matador Vo. Ag.; Bill Peacock, Roaring Springs Vo. Ag.; J. M. Thacker, Roaring Springs; Mike Hoyle and Billy Paul Simpson, Matador.

New Features in Texas Almanac

New information on recreational and historical attractions, election returns by counties, U. S. Census data on agriculture, population estimates and many other features are found in the 1968-'69 edition of the Texas Almanac, published by The Dallas Morning News.

Published since 1857 and called "The Encyclopedia of Texas," the Texas Almanac is widely used in schools, libraries, business and professional offices and home libraries. Newspapers, county farm agents, chambers of commerce, trade associations and many other Texas individuals and organizations contributed information for the new edition.

New and expanded features listed by Walter B. Moore, editor, in this edition include:

A history of the Texas Highway Department which is observing its 50th anniversary.

Descriptions of the principal birds of Texas, prepared by the Audubon Society of Dallas.

Expanded descriptions of Texas State Parks and major museums.

Individual pages devoted to historic attractions in the following counties: Anderson, Austin, Bell, Jefferson, Jeff Davis, Gil-

lespie, Medina, Tom Green, Webb and Young.

Economic pages devoted to the 23 Standard Metropolitan Statistical Areas, the larger cities in which 80 per cent of all Texans live.

Enlarged information on Texas as agriculture, including a history of the state's cotton industry.

Election returns, by counties, for two Democratic primaries and the general election of 1966 for the principal contested races.

Text of the Texas Constitution, including 20 amendments approved in 1965 and 1966. Twenty amendments on which Texans are voting in 1967 and 1968 are summarized.

New districts for Texas Senators and Representatives are listed and shown on maps.

Lists include state, municipal and county officials, state boards and commissions, statewide civic and business organizations and many others.

A calendar with phases of the

moon, and chapters on weather, geology, plant and animal life, minerals, banking and commerce, service industries and many other topics are found in the 704 pages of the 1968-'69 edition.

Moore said that the descriptions and economic information on all 254 counties are among the most popular features of the publication and expressed appreciation to the thousands of Texans who participated in compiling of the information.
