

NAZIS ATTACK IN FULL FORCE

Eight Dead, Property Badly Wrecked In Coastal Storm

Wind Abates, Heavy Rains Continuing

Georgia And South Carolina Bear The Brunt Of Blow

ATLANTA, Aug. 12 (AP)—Danger from the worst tropical hurricane to strike the South Atlantic coast in recent years passed today, after bringing death to at least eight persons, wrecking property, flooding highways and crippling communications.

The force of the storm spent itself inland, but heavy rains continued over Georgia and South Carolina.

Historic Charleston remained cut off from all communications after amateur radio operators were forced to abandon a station when water flooded a powerhouse.

Army officials at Fort Mifflin, S. C., said that radio operators had received no reports of severe casualties in Charleston.

Fort Mifflin gave refuge to some 600 civilians from Sullivan's Island, near Charleston, and most of the residents at other vacation resorts along the Carolina and Georgia coasts moved to points of safety ahead of the wind. Coast guardmen and other state highway patrols raved to ward all persons in exposed areas before the hurricane struck.

No word of casualties came from either Fort Mifflin, near Savannah, or Beaufort, S. C., where the storm and accompanying high tide struck in force. Military sources received no information of damage at the big Davis Island Marine base and announced they assumed personnel and escaped unharm.

Six of the deaths were reported by the amateur radio operators before they were forced off the air. They said the six drowned at near-by Folly Beach when their automobile plunged from a flooded highway. A negro woman was killed by broken glass at Savannah and a man died of a heart attack when a tree was blown down on his home.

A considerable section of Charleston was under water four to six feet deep. A number of persons suffered minor injuries from flying debris.

The Atlanta weather bureau said Wilmington, N. C., and Charleston, S. C., and Savannah, Ga., were unable to communicate their daily reports. Meteorologist George W. Minding declared he was confident the force of the wind was so spent as to offer "no further danger to any place in its path."

WHOZIT?
Born in Indian Territory at Pryor, Okla. (statehood did not come until 1907), this Mr. Whozit is remembered yet in the Missouri Valley football conference for his exploits with O. U. Graduating, he successfully stood the state bar examination but instead of practicing law played professional football with Kansas City, Providence, R. I., and Hartford, Conn. Said he decided to practice law but was immune from clients. Came to Big Spring in 1927, since his father had big oil interests here. Later ranped his father from kidnap-bankers in Mexico, became high school coach in 1931 and one of his teams reached state quarter finals. Although he will play golf anywhere with anybody, he doesn't claim it as a hobby. That goes to his penchant for helping boys go to college and he can count two scores he has thus helped. Mr. Whozit is a school trustee and a past chamber of commerce director. His business is insurance. See more of him and his associates later in the Herald Get-Acquainted page.

STOVE INCUBATOR SAVES "MIRACLE BABY"—Mrs. Monroe Sweeney is shown holding Yvella Marie Gampier beside the oven which she used as an incubator after a doctor said the premature-born baby could not live. Now 2 months old, the infant weighed 2 1/2 pounds at birth. She weighs 3 pounds, 3 ounces now. The doctor said it was a "miracle" that the mite survived.

Livestock For Rodeo Due In City Today

With several truckloads of salty broncs, Brahmas bulls and calves due here today, Big Spring began to take on new interest in the seventh annual rodeo scheduled for Wednesday and Thursday.

The animals were to be brought here by Red Lyon, Byera, in advance of the show so that they will be in top condition for the four performances.

Bids Listed On P. O. Work

Contracts may be let within a week or 10 days for alterations to the postoffice basement here, the Public Buildings Administration announced following the opening of bids for the job.

J. M. Morgan, Big Spring, was among the low bidders with a proposal of \$11,615. Other low bidders listed by the administration were Fletcher Construction Co. of Dallas, \$11,927; and Templeton-Cannon Co. of San Angelo, \$12,397. The latter firm constructed the building four years ago.

The administration previously had made an allotment of \$12,000 for the alterations which would provide half a dozen additional office spaces in the east half of the postoffice basement. That portion of the building was roughed in when the structure was erected.

Presumably the additional quarters would be used for federal agencies operating in Big Spring. First bids on the alterations, Postmaster Nat Shick was advised several months ago, were thrown out as being too excessive.

THREE BILLIONS DISTRIBUTED IN SOCIAL SECURITY IN 5 YEARS
WASHINGTON, Aug. 12 (AP)—The government's social security program, five years old this week, has distributed \$3,000,000,000 to the nation's aged and unemployed workers, and to widows, orphans and the blind.

Fight Spread Of Disease In Flood's Wake

30,000 Marooned Or Homeless, Property Loss Is Immense

LAFAYETTE, La., Aug. 12 (AP)—Weary relief workers and state police guarded today against pestilence and looting in the wake of a flood over southwest Louisiana's "rice bowl" which left an estimated 30,000 persons marooned or homeless.

Crop damages were expected to reach millions of dollars, and relief officials said about 75,000 head of cattle and hordes and thousands of other livestock had been lost or were in danger of starvation.

Most critical areas was that embracing the cities of Crowley and Gueydan in the low, inundated flatlands southwest of here, leech with canals for the growing of rice.

Torrential rains, reported as heavy as 24 inches in 24 hours in some places, followed last week's tropical hurricane which came inland near the Louisiana-Texas border. The waters were receding slowly today.

Health authorities rushed physicians, nurses and serum to the stricken section to prevent epidemics. Drinking water was fouled and isolated reports of typhoid and diphtheria cases came from the flooded zone.

Governor Sam H. Jones, after an all-day inspection yesterday by airplane, boat and automobile, said "apparently the worst is yet to come."

"There is no widespread sickness yet," he added, however. "A few people have died but not many that we know of."

State police ordered Crowley evacuated, although many residents today still clung to the upper stories of their flooded homes. Railroad flat cars and boats brought approximately 3,500 refugees here from Crowley, 20 miles away. Its normal population of 17,000 was swollen to more than 15,000 last week as waters rose.

Coast guard cutters, flatboats and skiffs took hundreds of refugees, chiefly from Gueydan, into Lake Charles.

'SUBMARINE' AND 'HIGH WATER' BORN DURING THE FLOOD

CROWLEY, La., Aug. 12 (AP)—Two children born of southwest Louisiana refugees parents will have life-long occasion to remember the floods which inundated their homes in the summer of 1940.

A boy born yesterday in the city hall here was christened by his parents High Water Brownard, while the son of colored refugees, born about the same time, was named Submarine Johnson.

AERIAL ARMADA RAIDS PORTS; REPORTS ON LOSSES CONFLICT

Berlin Claims 164 RAF Planes Destroyed, While London Says Most Of Invaders Were Driven Off

By The Associated Press
Nazi warplanes by the hundreds—including a 200-plane armada in a single thrust—lashed with blitzkrieg fury against England today, attacking British balloon barriers, harbors, channel shipping and the great naval base at Portsmouth.

An unofficial German tally listed 164 British planes destroyed in the two-day assault—including 71 today—which opened Sunday with an intensity hinting that the long-awaited "zero hour" may now be at hand.

Only 17 Nazi planes were reported missing. Britain's defenders, on the other hand, again claimed a heavy toll of the Nazi dive bombers.

At least 18 and possibly twice that many were brought down in today's widespread air combats, the British said. (The Germans claimed 71 British planes for the day's toll.)

Chief targets of the German blasts were "a southern town" (identified by German dispatches as the great naval base of Portsmouth) and "a southeastern port" (which the Germans said was Dover).

Four waves of bombers smashed at the latter objective, the fourth coming late in the afternoon. The raids were continuing early tonight, with an ineffectual raid on another southeastern town.

The greatest blast, however, apparently was loosed on the "southern town" (Portsmouth), attacked at noon.

The Germans began their intensive aerial attacks on June 18, stepped up the assault last Thursday to the scale of 400 raiders and continued that pace yesterday and today.

Berlin dispatches said record-sized fires were started at Portsmouth, the base of the British home fleet, and that the Manston airport in Dorset Shire was left in ruins by a concentrated bombing attack.

The official German news agency, DNB, asserted that Hitler's air force had already begun to seize air superiority—the first step prelude actual land invasion in other Nazi conquests—and that British RAF planes were no longer attacking German raiders.

The British reported that RAF fighters broke up a mass flight of 200 Nazi planes and drove all but 55 back across the channel.

London dispatches said that by early afternoon at least 14, and possibly 16, German planes were shot down. The Berlin radio counter-claimed that 23 RAF planes were destroyed in the opening phase of the day's battles.

Italy Turns Her Attack On Greece

Mediterranean Nation Accused Of Aiding The British

ROME, Aug. 12 (AP)—Italy turned her propaganda guns ominously on Greece today, charging the Greeks with supplying oil to British warships and planes and conniving with the British in "plots" along the border of Italian-conquered Albania.

The reported beheading of an obscure Albanian miner leader by Greek patrol raiders touched off a violent press campaign reminiscent of those by Germany against Czechoslovakia and Poland.

Britain was brought into the picture by the newspaper Il Popolo Di Roma, which is close to the government, with a charge that British warships and warplanes operating in the Mediterranean against Italy were fueling at Greek bases.

Greece, neutral friend of Britain, received a pro-war British guarantee of her territory.

The Italian charges against Greece are the first to disturb relations between the two countries since the outbreak of the European war when both, declaring good will toward each other, withdrew their troops from the Albanian frontier.

This had eased the tension resulting from Greek fear of the Italians at the time of the fascist annexation of Albania in April, 1939.

A high fascist source said Il Popolo Di Roma's charges thus far had not been officially confirmed, but that if the English were found to be using Greek bases, "Italy will go after them."

"Whoever touches Albania touches Italy," one authoritative fascist said in commenting on the reported "assassination" of Hapt Hoggia, an Albanian nationalist leader by Greeks on Albanian soil near the Greek frontier.

This source said Italy probably would protest to the Greek government and indicated "serious consequences" were likely to result from the incident.

CUDAHY LEAVES FOR THE U.S.

LIEBOW, Aug. 12 (AP)—John Cudahy, U. S. ambassador to Belgium, who was reprimanded last week by Undersecretary of State Sumner Welles for his comments on the situation in Belgium, left for the United States by clipper today.

Also on board the plane was Orme Wilson, American consul at Brussels.

Registration Each Year Is Barkley's Idea

WASHINGTON, Aug. 12 (AP)—Annual registration of all men from 21 through 44, to provide an index of the industrial as well as military power of the nation, was proposed today by Senator Barkley (D-Ky.) to supplement conscription.

"We ought to have information on the number of men who are available for noncombatant activities," he said.

WASHINGTON, Aug. 12 (AP)—Senator Norris (Ind-Neb.) told the senate today it was his "measured judgment" that peacetime conscription would lead inevitably to dictatorship in the United States.

Norris' voice was raised in opposition to the Burke-Wadsworth military training bill as administration leaders sought to push the measure to a final vote late this week.

Incorporation of Barkley's suggestion into the pending Burke-Wadsworth bill would entail some changes in the contemplated conscription plan, it was pointed out by Senator Sheppard (D-Tax.) floor manager of the measure.

Under the bill as approved by the military committee, only men from 21 through 30 would have to register. Senator Burke (D-Neb.) has offered an amendment to increase the bracket from 21 through 44.

Senate debate, resuming this afternoon, is expected to last about 10 days.

The house military committee will reopen its hearings on conscription tomorrow.

Assails Demo Advertising
COLORADO SPRINGS, Aug. 12 (AP)—Wendell L. Willkie says one of his first acts, if he is elected president, will be to prosecute all persons who bought or sold advertising in the democratic national committee's 1940 campaign book.

The republican nominee told a press conference yesterday that such advertising purchases were not only in violation of the Hatch anti-politics law but also overstepped the corrupt practices act.

FDR Sees Production Of Huge Torpedoes

NEWPORT, R. I., Aug. 12 (AP)—President Roosevelt inspected a main training centers and that work at the torpedo plant was well up to schedule.

He said his visit carried him back to 1917 when he was assistant secretary of the navy and the training station was turned into one of the navy's biggest.

He watched a regiment of 2-100 recruits step out in a snappy review. Earlier he saw work under way on big, destructive torpedoes.

Stopping first at the torpedo plant—one of the world's largest—on Goat Island, the chief executive completed his inspection in a matter of minutes, pausing to look at two ton-and-a-half torpedoes.

In an aside, a gob whispered "they spent all night polishing them." Mr. Roosevelt listened attentively while Captain Thomas Withers, in command of the station, explained the mechanism.

Absentee Voting Here Delayed

Howard county democrats who hope to cast absentee ballots in the run-off Primary on Aug. 24 still have a day or so to wait.

Although the state democratic committee canvassed and made official returns Saturday, there has been no certification of run-off candidates in state races to L. S. Patterson, chairman of the county democratic executive committee, here Monday.

He said he expected notice Tuesday morning, in which event he would immediately authorize the printing of ballots. When they are run, they will be made available for absentee voting.

PLANE BURSTS INTO FLAMES, ONE MISSING

CAPE MAY, N. J., Aug. 12 (AP)—A United States navy plane today burst into flames four miles offshore, its rescued naval reserve pilot said, and plunged into the Atlantic ocean as he and his companion bailed out. The other man was missing.

At a county clerk's office, many requests for the ballots were piling up. The total is expected to be considerably less than the approximately 500 cast in the first primary since voters will have only about a week for the absentee balloting.

MISS LANCOSUS NOTES

By Mary Whaley

We have discovered there is another tenderfoot in the family—Mother—who has never seen a rodeo! That discovery was made at the end of our vacation trip so we have, without too much coaxing, persuaded her to remain here for the events on Wednesday and Thursday.

It is going to be almost as much fun taking her as it was this time last year when we ventured out to see the rodeo performance in action for the first time.

Showing off newly-gained knowledge is one of the most satisfying experiences and one can be terribly wise about something one knows very little about—providing someone else knows nothing of the subject.

We figure on telling all we know and explaining the things that were explained to us with such an air that maybe even she will never know how ignorant we were and still are about rodeos.

With the city bedecked with flags and banners and the bright colored garb of local citizens, it hasn't taken us long to get the spirit of the occasion.

We suggested getting a rodeo shirt and neckerchief for Mother so she too would feel at home but she says that the brightest shirt in town wouldn't convince anybody that she was a native. Which may be true, at that, so we plan to stick around and close her mouth gently about the time she sees the first bronc-busting.

Hollis Ricker, who has been visiting relatives in Los Angeles, Calif., for the past month, returned home Sunday.

MURAL PHOTOS MEET MAGAZINE'S OK

Word that the plates he made of the Big Spring postoffice mural were all right was received by Fernand Bonges, who came here from his New York studios to take the photographs for Life magazine. Bonges spent the weekend in Big Spring awaiting word from his studios that the pictures were good. The oil fresco mural, created by Peter Hurd, is the only one in Texas being taken for life at this time.

Study Club For Women Is As Up To Date And Modern As Its Name

The modern woman is now pictured as a shrewd business woman in the home or in the office. Therefore it is only natural that this study club composed of teachers and business women should be called the Modern Woman's Forum which meets at night for the convenience of its members.

Years ago, in 1929 to be exact, right after the crash, nine women got together and formed a chapter of Epistol Sigma Alpha, a national sorority that furnished them with a study course that lasted over a three-year period. After the first period the members felt they could work out their own program by taking courses from the University of North Carolina. With the change in courses, the members chose a new name, the present, Modern Woman's Forum, which has remained the same since 1935.

At the first installation banquet way back in December, 1929, Mrs. Frank Etter was president and presided over Miss Edith Gay, Vallilia True, Mrs. Fox Stripling, Frances Milton (Mrs. Frank Doyle) Kitty Wingo, Georgia Kirk Davis (Mrs. Hutchinson), Lois Cochran and Mrs. W. J. McAdams.

During the eleven years that have rolled by membership has increased and many of the charter members are married but more than half of them still live in Big Spring and are active members in the club. Membership has increased from nine to twenty-five and there are three associate members. The aims and purpose of the club has changed very little during the passing years—the

modern woman is still very modern and businesslike.

Present members are Mary Burns, Mrs. Thomas J. Coffee, Mrs. Cecil Collings, Mildred Creath, Miss Ima Deason, Mrs. J. P. Dodge, Mrs. Ira Driver, Mrs. R. A. Eubank, Mrs. G. W. Felton, Miss Edith Gay, Miss Edith Hatchett, Mrs. Charles Koberg, Mrs. Bernard Lamun, Mrs. W. J. McAdams, Mrs. E. D. McDowell, Mrs. L. S. McIntosh, Mrs. G. G. Sawtelle, Mrs. Fox Stripling, Miss Marjory Taylor, Mrs. C. B. Verner, Mrs. A. B. Wade, Mrs. Cliff Wiley, Mrs. E. F. Willis, Mrs. W. F. Cook and Nellie Puckett.

Associate members are Mrs. J. W. Maddrey, Miss Roberta Gay, Mrs. Bill Earley.

PIONEER DRUGGIST OF ROTAN PASSES

Word was received here Monday of the death, at his home in Rotan during the morning of H. H. Phillips, pioneer West Texas druggist.

Mr. Phillips was a former president of the West Texas Pharmaceutical association, and served as a director of the organization for many years. He was widely known throughout the area.

Big Spring druggists, including Shine Phillips, an old friend, and Charlie Frost, president of the West Texas Druggists, planned to attend the funeral Tuesday.

Part of every Texas oil dollar finds its way

**INTO
YOUR
POCKET**

EVERY merchant in our State — every business and professional man — every worker, shares in Texas oil's huge expenditures.

Many Texas cities with all their varied businesses and employment exist and prosper today because of oil.

Last year petroleum created a direct buying power in our State of 550 million dollars.

Of this, Texas retail merchants received 324 million dollars, landlords 44 million, utilities 38 million and professional men 22 million, while 83 million more went for insurance and savings.

This huge sum is distributed and redistributed in an endless chain of income for our State and its people.

Texas oil payrolls are over 60 per cent of *all* the wages paid to *all* Texas workers.

Directly or indirectly, you get a part of your income from oil.

If you're a Texan, you're in the oil business.

Dizzy Hurls Good Game, But Loses

By the Associated Press

The once great Dizzy Dean is doing his part toward lifting the Tulsa Oilers into a berth for the Texas League playoff next month but his mates won't co-operate.

Diz hurred 11 innings of runless, four-hit ball against Rogers Hornsby's Oklahoma City Indians yesterday, only to see the Indians win, 1 to 0, in the twelfth after he had retired for a pinch hitter. Orville Grove went the route for the Red-men.

Hornsby's charges then made a sweep of the doubleheader by taking the nightcap, 4 to 3.

Dallas could do no better than break even with the cellar monopolizing Fort Worth Cats. The Cats scored four times in the tenth to take the first game, 8 to 4. Dallas copied the afterpiece, 7 to 5.

Beaumont and Shreveport broke even, Beaumont capturing the first game, 3 to 1, and Shreveport the second, 2 to 0.

Houston showed it's the class of the league by vanquishing runner-up San Antonio 4 to 2 and 3 to 1.

NEW YORK, Aug. 12 (AP)—Guess you noticed Mike Jacobs hasn't bought the Dodgers yet—and if you think he will, you've got a bet right here. Our Brooks still are in there punching, but from this perch it looks like Deacon Hill McKechnie's leads by at least ten games. (Remember that one.)

Ohio Staters to a man are crying into their beer. Reason: Rollie Hevan, Dartmouth trainer, who has been summering around Massillon, headed back east with George Slusser, Massillon's great high school halfback, in his pocket. Gents, that really hurt.

Jimmy Grippio (Melio Bettina's manager), who lost a wad of sugar betting against Billy Conn in his two fights with Melio, is trying to recoup by backing in Conn against Bob Pastor tomorrow night. He has laid out \$10,000 at 8 to 5.

By Hank Hart

(Shirley Robbins teeing off today for Hank Hart, who is on vacation).

If your ten best scores average under 100, you can consider yourself an average golfer. If your handicap is based on a scoring average below ninety, you are in golfdom's most expert 25 percent. If you can occasionally get around below eight, you are indeed an exceptional golfer because only two and one-half percent of America's country club golfers ever attain that record.

Such are the hard and cold facts about golf scores. To get these facts, four leading country clubs were visited and the handicap records of each carefully examined with the help of the club pro. All told, scores of 1,073 golfers went into the results. Yet in spite of the difference in courses and players, over forty percent of the members of each club shot between 91 and 100. The average score of all 1,073 players was 97.03 strokes.

At any rate golfers now have a standard by which to judge themselves. If you shoot below 97, you are a better than average golfer.

From all of this you can conclude that 97 strokes for eighteen holes is a pretty accurate appraisal of what the average golfer shoots when he's on his game.

After this why should any golfer complain when he has a bad hole and still comes in under 90?

Duck Season Lengthened To 60 Days

WASHINGTON, Aug. 12 (AP)—Secretary Ickes announced today the hunting season for ducks, geese, coots and jacksnipe had been extended to 60 days this year from the 45-day limit of last season.

Announcing regulations for shooting migratory waterfowl, the secretary said the extension was made possible by an increase in the population of these birds.

The regulations also lengthened the hunting day. Shooting may start at sunrise and continue until 4 p. m. for waterfowl and coot. Last year the hours were 7 a. m. to 4 p. m. Jacksnipe may be hunted from sunrise to sunset.

The bag limit on ducks remains at 10 a day.

Shorter seasons were provided, however, for woodcocks, and the bag limit on geese was reduced from 4 to 3 a day.

Shooting season on ducks, geese, coots and jacksnipe follow:

Northern zone from October 1 to November 19; the intermediate zone, October 16 to December 14; the southern zone from November 2 to December 31.

The intermediate zone includes New Mexico, Oklahoma.

The southern zone includes Arkansas, Louisiana and Texas.

The number of waterfowl that may be possessed at any time is limited to two days' bag but a new rule makes it possible to possess the legal limit for 20 days after the close of the season instead of 10 days.

The bag of canvasbacks, red-heads, buffleheads and rusty ducks is limited to 3 a day, of any one of these species. The regulations also provide that not more than 3 of this entire group may be taken in any one day. The possession limit on these birds also is double the daily bag limit.

Closed seasons throughout the United States and Alaska are continued on wood ducks, Ross's geese and swans.

The three-shell limit on repeating guns is continued.

AUSTIN, Aug. 12 (AP)—Extension of the duck season will especially benefit North Texas hunters, Secretary Will Tucker of the game, fish and oyster commission declared today.

The complaint of North Texas nimrods has been that the season which opened in Texas last year on Nov. 16 was too late for the flight of ducks in North Texas which department records show occurs principally from November 2 to 11.

Under the new federal regulation shooters in North Texas can blast away beginning Nov. 2.

Former Student Here Wins Honors In Aviation Test

A former Big Spring youth, James Grant White, will represent the Southwest at Washington Thursday in finals of the Shell intercollegiate aviation scholarship contest.

White, now a student in Daniel Baker at Brownwood, won the regional contest at Grand Prairie Saturday. Second place went to Connie Max Walton of Tyler Junior college, who was named alternate to White in the national competition.

Young White was graduated from Big Spring high school, and worked for a time here. His mother taught school at Forsan for several years. The youth is well known in Big Spring.

Feller To Face Detroit In A Crucial Two-Game Series

Cleveland And Detroit Tied In American

By GAYLE TALBOT
Associated Press Sports Writer

Oscar Vitt was in the happy position of being able to send Bob Feller, the best pitcher in the business, to the mound today as his Cleveland Indians opened an important two-game series against the Detroit Tigers, at Cleveland.

The two clubs fought their way into a tie for the American League lead yesterday, each with 64 wins and 44 losses, and the outcome of their battles today and tomorrow night have a vital bearing on the race.

With Feller trying to rack up his 26th victory of the year, Manager Del Baker of the Tigers was forced to call upon John Gorenica who has won 7 and lost 5. He didn't have a veteran ready for duty.

The Tigers suffered two losses to the Chicago White Sox yesterday, each by scores of 4 to 3, to lose the leadership.

Cleveland gained a full game by splitting with the St. Louis Browns. Al Milnar scored his 15th win as the Indians took the first game, 12 to 4, but the Browns knocked Johnny Allen and Al Smith from the hill to capture the second, 7 to 6.

Young Sid Hudson of the Washington Senators beat Lefty Grove of the Red Sox, 2 to 1. Hudson gave five hits and drove across a run to score his 10th victory.

The Yankees made it three straight over the Philadelphia Athletics when Joe Gordon slapped a home run in the 11th.

Cincinnati's National League lead was whittled to five games as the champions bowed to the St. Louis Cardinals twice, 3 to 2 and 3 to 1. Mort Cooper set the Reds down with two hits to beat Paul Derringer in the first, and Lon Warneke cut them down in the second.

Brooklyn gained a game by splitting with the Boston Bees. Bill Posedel licked the Dodgers, 3 to 2, in the first, but Lefty Vito Tamulla blanked the Bees, 3 to 0.

Frankie Frisch's Pittsburghers scored twice over the Chicago Cubs, 7 to 3 and 5 to 1, vaulting into fourth place only two games back of the New York Giants. The Pirates have won 10 of their last 17 games. But they probably have too much ground to make up—some 13 1/2 games.

The Phillies and the Giants broke even. Kirby Higbe snapped a nine-game losing streak for the Phils when he beat the Giants, 2 to 0, in the opener. Hal Schumacher then pitched an equally artistic victory for the Giants, 8 to 2, as he set the Phils down with three hits.

TEXAS-OKLAHOMA TEAMS HAVE SHOT AT DENVER PRIZE

DENVER, Aug. 12 (AP)—It's up to either a Texas team or an Oklahoma outfit to stage a baseball version of the march through Georgia in the Denver Post's baseball tournament.

Otherwise, a fired-up Buford, Ga. aggregation will take back home the first championship ever won by a team from the deep south in this event.

Duncan, Okla., and Mount Pleasant, Tex., will clash tonight. The loser goes out while the winner plays Buford in a championship contest tomorrow night.

Bobby Riggs Proves Mastery Of Tennis In Downing Don McNeill

RYE, N. Y., Aug. 12 (AP)—Don't let Bobby Riggs' ridiculous duck waddle and his boyish manners disarm you. They hide one of the shrewdest brains in tennis.

Ask Don McNeill, who was almost ready to feel sorry for the supposedly-slipping national champion before they took to the courts for the eastern grass courts final yesterday.

For Don was the gallery idol, the man who was to deliver tennis from a champion who hasn't been overwhelmed with popularity. But Don was victimized by "Rudy Robert" 6-2, 3-6, 7-5, 6-4 simply because the little guy is able to visualize every opponent's weakness, and is fully able to rise to whatever occasion presents itself.

For a slagger like McNeill, the Riggs' brain has figured out the answer to his slugging. He covered worlds of court, returning shot after shot until Don's durability wore out.

Spectacular as Bobby was in the finals he wasn't in it with America's other champion, blond Alice Marble. With the loss of but one set the queen marched through the field, and crushed what may be the last serious bid of Helen Jacobs, four-time national champion, in the process.

The 6-1, 6-0 rout of Miss Jacobs impressed the swanky gallery with the fact that there isn't anyone on the horizon even able to extend Miss Marble.

Swearing Means A Slapped Wrist On This 'Championship Ball Club'

These two sluggers and Wilma's pitching make Alameda tough to best in any league.

ALAMEDA, Calif. — This challenges the fabulous record of those 1860 Cincinnati Red Stockings—straight games and is confidently forging ahead toward the 100 mark.

It's a girls' team, though softball, of course. As the record indicates, these girls claim national and international championships in their line. Lacking any commercial angel this season, they just go under the name "Alameda," County Supervisor Harry Bartell, father of Detroit shortstop Dick Bartell, scurries around and raises the money to keep them going.

Guiding genius of the club is a city fireman named O. W. Fisher who seems to combine the abilities of manager, coach and talent scout in remarkable degree. He was once a jockey and has never played much baseball himself.

Poloists Split A Pair At El Paso, Take On Juarez Four Today

EL PASO, Aug. 12—Big Spring's crack poloists today were to play their third game here in three days, when they oppose the Juarez, Mexico, four on the El Paso El Valle field.

Superbly mounted, the Big Spring quartet split a pair of games over the weekend with the El Valle outfit. El Valle won Saturday, 5-4, while the visitors took Sunday's match 7-5.

Dr. M. H. Bennett at No. 1 led the Big Springers with three goals. Dr. Goodwin topped El Paso in scoring by converting two penalty shots into goals.

Here for the matches from Big Spring are Bennett, Lloyd Wasson, Morris Patterson, Lewis Iux, Gus White, Sr., Gus White, Jr., and R. Fulkerson.

Two National Titles

The first year Fisher got his kang together was 1938, and they went to Chicago to capture the national tournament. Last year they took it again, though two 1-to-0 games gave them a fright.

Barring some upset in regional eliminations, they will be on hand when the international softball tournament opens at Detroit Sept. 7 to seek their third title.

Some of the things Fisher runs up against are different from problems of the manager of male teams. The star pitcher who lured the team to two championships got

who seems to combine the abilities of manager, coach and talent scout in remarkable degree. He was once a jockey and has never played much baseball himself.

The pitcher's box has been effectively filled this season by Wilma Turner, a 16-year-old high school girl of Hakersfield, Calif. She makes a round trip of nearly 300 miles to play in each game.

Pitching Star

"Wilma" was become of last year a tournament when her double broke up a 12-inning tie with Louisville, and now she has lived up to her reputation by pitching 22 straight games and winning them all. She is women's bowling champion in her home town—1 point for those who say bowling is a good practice for softball pitching.

The Alameda don't go in for sex appeal on the diamond by wearing the conventional shorts. They're ball players, and their attire uniforms are cut just like those of professionals.

They're nice girls and have a rule against swearing even in the hottest moments of conflict. An offender must hold out her left arm and let each teammate take a smack at it.

City Will Send Witnesses To Airline Hearing

Anticipating an announcement of a hearing before the Civil Aeronautics Authority soon on a proposed north-south airline through West Texas, the chamber of commerce directors Monday made provision for sending two witnesses to Washington if and when such a hearing is called.

The board indicated that J. H. Greene, chamber of commerce manager and who has been chairman of an intercity committee pressing for the service, would be one of two witnesses to go from here. The other will be a business man to be named later.

Other matters, including a suggestion that the paving committee cooperate with the city in a study of paving problems, were discussed by the board.

Acting in keeping with a current trend, the board also voted to establish a defense committee to function at such a time when it would be needed. The committee would be made up of citizens representing a cross section of the community.

MATERIAL BEING PREPARED FOR PORT RUNWAYS

WPA workers were engaged Monday in crushing rock and hauling it in place for runways on the second municipal airport project.

The project on which WPA is sued work order calls for improvements totaling \$66,177 and will provide for shifting up one end of the northwest-southwest runway and for taping a 100-foot width of this runway together with a similar strip down the east-west runway. This will give the muni port three all-weather landing areas and bring it within the CAA class three rating, one under the maximum rating possible.

Efforts are to be made to complete the improvements as rapidly as possible in view of the CAA preliminary and secondary flight training programs in progress at the port.

SIX BANDITS SOUGHT IN SLAYING OF TEXAN

RAYMONDVILLE, Aug. 12 (AP)—Investigators today followed the cooling trail of a six-man bandit gang which robbed and killed former County Judge W. H. Meade, 78, at his Santa Margarita community store northeast of here Saturday night.

A detailed description of four of the bandits was broadcast by South Texas police and commercial radios in the effort to locate the men who were last reported traveling in a 1933 model (Chevrolet) sedan.

Descriptions of the other two men were not available. Mrs. Meade told officers one entered the store at a side door and shot her husband while he scuffled with two others.

C. E. Maedgen Named New President Of South Plains Fair

LUBBOCK, Aug. 12.—C. E. Maedgen, president of the Lubbock National bank, was elected president of the Panhandle South Plains Fair association to succeed Sam C. Arnett. At a recent meeting of the board of directors.

Other officers to serve with Maedgen are Homer D. Grant and

M. B. Hilburn as vice president and C. E. Hunt as treasurer. Mrs. C. E. Luca was elected secretary.

Directors, other than the officers named, are Neil H. Wright, Joe Halbridge, J. A. Hodges and Charles A. Guy. Arnett, the past president, remains on the board.

Fair officials announced that automobiles and other prizes will not be distributed by the association during the fair. The practice was carried through sixteen years as an advertising medium. To take the place of the advertising derived through drawing of free prizes, fair officials approved a 33-1-3 per cent increase in the association's advertising budget.

Directors advertently approved a premium list equal to that of 1939, which approximated \$8,000. Premiums in the women's department are expected to be increased.

ARIZONA BANS COMMUNIST FROM TICKET

PHOENIX, Aug. 12 (AP)—The secretary of state's office banned the communist party from the September 10 primary and November general election today.

As formal notification of the action was dispatched to Morris Gram, executive secretary of the party in Arizona, Governor Bob Jones expressed "100 per cent approval."

Dan Garvey, assistant secretary of state, said the only way the communists can get on the ballot now is to bring mandamus actions against the secretary's office and the 14 county boards of supervisors.

Mattress Program Due To Start Soon

Possibility that the mattress making program for low income farm families in Howard county might get underway soon came Monday with receipt of an invoice on 2,200 yards of ticking.

Although cotton for the program had been shipped here nearly a month ago by the surplus commodities corporation, the project of building 220 mattresses had been held up pending receipt of the ticking.

Says Time Is Big Factor In Defense

WASHINGTON, Aug. 12 (AP)—Robert P. Patterson, new assistant secretary of war, said today that consolidation of American industry for defense purposes would take at least a year.

"And a year is a luxury that we may never enjoy," he added in an address welcoming a group of officers who will study at the army industrial college.

"We are still far from our goal of adequate preparedness on our supply front," Patterson said. "Our principal enemy is time. At the present rate, we cannot achieve our armament objectives in days, weeks, or months."

Asserting that procurement plans had been well drawn, he continued: "We believe that in an emergency free men can forego personal advantage and unite in a determined effort to win common gains. The keynote of our program, therefore, is not compulsion but cooperation."

MARKETS Wall Street

NEW YORK, Aug. 12 (AP)—Quiet resistance of steel and other selected industries steadied the stock market today after considerable volatility attributed to nervousness over fresh war developments.

Prices edged forward at the start, but soon backed away as intensification of the air battle over England caused many traders to lighten commitments.

A modest recovery got under way after mid-day and, at the close, forenoon declines of fractions to a point of so were reduced or transformed into modest advances.

Transfers were around 275,000 shares.

DEFENSE FACTORIES SOUGHT IN MIDWEST

WASHINGTON, Aug. 12 (AP)—Fourteen middle western senators called today upon William S. Knudson, production chief of the national defense commission, to urge that defense factories built or subsidized with government funds be placed in their section of the country.

One of them, Senator Miller (D-Ark.), told reporters afterwards the conference was "very satisfactory."

Miller said quite an expansion of the aircraft industry was planned in the middle west. Other members of the group said it was thought this area would obtain other factories.

Barrage Balloons, New Guns May Be Answer To German Dive Bombers

ON ENGLAND'S SOUTHEAST COAST, Aug. 12 (AP)—The men who man the ships which guard and feed Britain believe the British have found or are finding an answer to the dive bomber.

These men see the British reply to the German Stukas as two-fold. The barrage balloons being tried out by the shipping command to keep the bombers high enough to prevent accurate aim.

A new, multi-barrelled anti-aircraft gun which nails the bombers if they come in low.

This new gun is a pom-pom which fires shells an inch or more in caliber, constructed so delicately they explode at the slightest contact. British who have seen the guns in action praise them highly.

The barrage balloons, among the targets of yesterday's heavy Nazi aerial attacks, are said to be a big help in warding off the bombers but do have their drawbacks.

They are vulnerable to the cannon-fire of the German Messerschmitts, are a drag on the ships which tow them and thus slow down the convoys, require a certain amount of "babysitting" and expert handling, and are hard to maneuver in the stiff winds which frequently whip over the English channel and the North sea.

The height at which they are flown depends on the wind currents. The balloons fly then when they ride most easily and then, when the need arises, by them up to the most effective height, aiming either to get the bombers caught in the balloon cables or to make the planes fly too high to be able to aim their bombs with full effectiveness.

Texas GOP's Optimistic

BEAUMONT, Aug. 12 (AP)—Bubbling with optimism at party prospects this year, Texas republican leaders massed for a meeting of their executive committee today and state convention tomorrow.

Not since 1928 when Herbert Hoover carried the state has the republican outlook in Texas been so good, in the opinion of R. B. Cropper of Brownsville, veteran national committeeman.

A combination of Wendell Willkie, the new dem and President Roosevelt he indicated was the reason for an upsurge of republican strength in this traditionally demorable banner state.

He expressed the opinion Texas not only might go republican nationally but also would give the republican opposition to Governor W. Lee O'Daniel, a demoralizing vote.

He asserted a "tremendous wave of anti-new deal, anti-third term" sentiment was sweeping the entire country.

"I am beginning seriously to think there is a strong possibility Texas will go for the republican electors this year," he said. "While I am not prepared as yet to make an absolute prophecy, best reports from all over the state, difficult as it is to believe, cause me to think the republicans have a real chance."
