Strange? Not at all! One of our basic characteristics is desire for change. And your newspaper is dedicated to the daily satisfaction of this human need. Each day it is as new as that day's sunrise. Each day it is full of surprising things.

And nothing in it is newer in appeal or in opportunity than the advertisements. They are filled with facts about all the things you want today and will be wanting tomorrow. Always changing, to keep up with your own eternal desire for change, the advertisements in this newspaper are guide posts to happier living. Read them regularly—they offer opporutnities you should not miss,

How will you like your New Relations?

YOU are a bride whose days are filled with romance and practical problems! You have foods to buy. The spare bedroom needs draperies and blankets. You must have a telephone installed. There is the medicine chest to be filled with simple yet reliable supplies . . . insurance to think of. And the generous check from Uncle Michael ... you are planning on a new car or a grand piano with that!

When you make each unaccustomed purchase, you establish new relations. Whether they will bring you joy depends on your care and forethought in choosing the right relations.

But inexperience need not turn you timid. Read the advertisements in this newspaper. They will tell you what to buy, where to buy and how much to spend. They will bring you the knowledge you need. They will help you to find "new relations" that will become ready helpers and faithful friends.

Antitoxin must be administered promptly following the accident. Treatment after the disease develops is rarely successful. Prevenance of such wounds and proper medical treatment.

A few don'ts for the 4th July celebration would not

1. Don't be careless in the handling of explosives. 2. Don't look into firecrackers which have failed to explode. 3. Don't drive recklessly and a

xcess speeds. 4. Don't overdo in swimming, es-pecially in water of unknown depth.

5. Last and most important: Don't fail to get prompt medical attention if a wound is suffered.
