PRICE TEN CENTS

TRAIL DUST

By DOUGLAS MEADOR

Little concern is being expressed about the return to Standard Daylight Time since most farmers and ranchers usually work more by daylight than what is shown on the faces of watches and clocks. One exception is an acquaintance who never imbibes before five o'clock, and he is grumbling a little because he is going to lose an hour.

Memories are not always pleasant and many of the unpleasant ones linger longer than the other kind. Once as a boy I saw a man hold a lighted match to the petals of a flower and I can't forget the trivial experience. It was a revolting sight then and the revolt has remained.

With the return of cold weather again, I have remembered a car heater that was in use during the early Model A days. It was about the size of a coffee can and was placed under the dash on the right hand side. The heater burned gasoline and the flame was supposed to be completely enclosed, although I never understood its operation, since I did not have funds to buy one. The invention was very short-lived and vanished from the motoring world, apparently without leaving a trace.

This is the time of year when nature tells growing things that time is short in which to produce seeds. Careless weeds fruit when they are a few inches high and goat heads bloom shortly after they come out of the ground. Mankind is not so closely attuned to the changing seasons.

Controlled fire has so many blessings that we take them for granted. Civilization has advanced because of the flame that is brought into being and vanishes when its service is rendered. Perhaps one of the least appreciated services of fire is the destruction of rubbish, so essential in our modern, cluttered world.

It is almost impossible to deal with problems in their proper sequence because they do not have a fixed order of developing. Many of us allow them to pile up with the hope that they will go away or dissolve in their own juices.

Flags Fly for Veterans Day

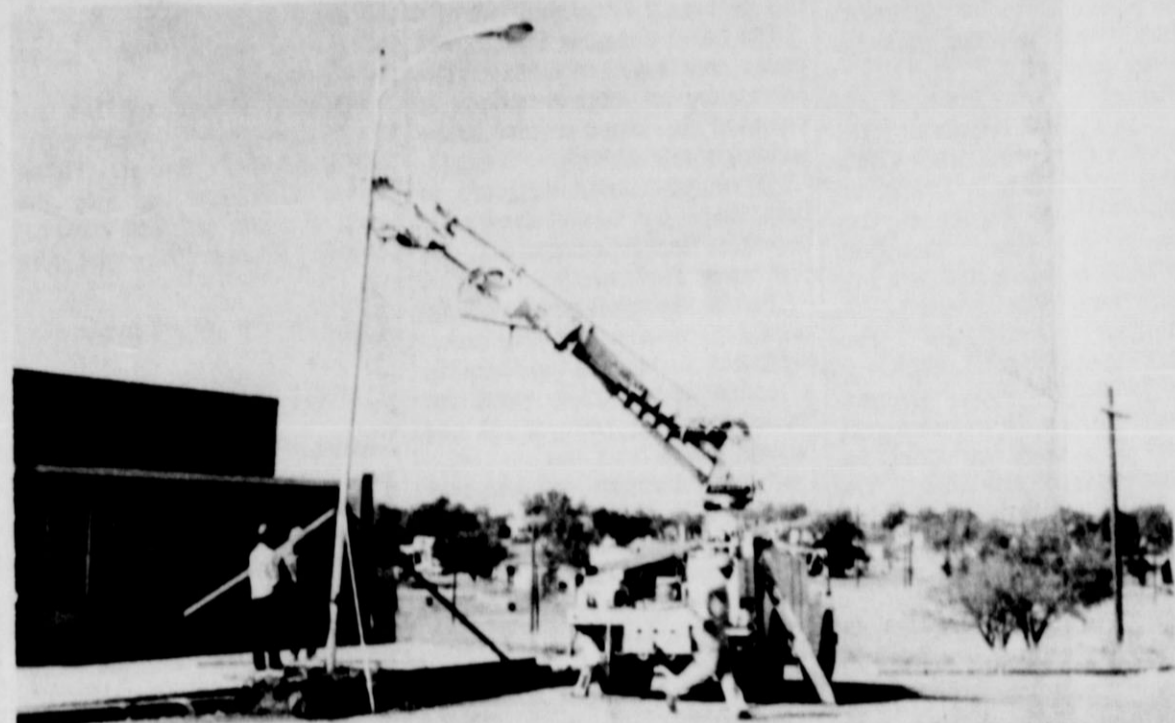

Flags were flown in downtown Matador, Monday in observance of Veterans' Day. First State Bank, the postoffice, City Hall and ASCS office all remained closed.

That was the extent of the observance in Matador.

The majority of local residents still prefer to observe November 11 as a day to pay tribute to men in the armed forces.

Matadors Slide by Amherst Team 7-0

by Lance Jameson

ON RAIN-SOAKED Burleson Field the Matador Matadors climbed another step on the 2B Dist. football ladder Friday night when they defeated the Amherst Bulldogs 7-0.

First quarter, end Berry Bostick brought down the cheering section when he brought down a wet aerial bullet in the Bulldog end zone that was shot by quarterback Steve Stevens. David Martin aimed the glistening pigskin for a good P.A.T. and the Matadors led 7-0.

The last three stanzas was a good defensive war all the way despite the teams playing in rain throughout the game. The Matadors kept moving the ball close, but the Bulldogs' line would

stiffen inside the 20 yard marker and force the Matadors back from the goal-line.

The victorious Matadors picked up 10 first downs, 214 yards rushing and 101 yards passing for a total of 315 gained yards.

Thanks to Matadors' swarming defense there were no serious challenges made by the Bulldogs and they had only 4 first downs, 90 yards rushing and 0 yards passing.

B. Bostick stole two Amherst passes and claimed two Bulldog fumbles. Doug Meador also pounced on a loose Amherst oval ball.

The Matador Matadors will try to add another win on their Conference record Friday night when they meet the Nazareth Swifts in Nazareth at 7:30.

Thieves Miss Haul At Roaring Springs

SOMETHING went awry at Roaring Springs Tuesday night. Thieves were prepared to take an estimated \$3,000 worth of merchandise from Thacker Supply Co. when they were apparently surprised.

It is believed the break in occurred between 9 and 10 p.m. It was discovered when night watchman Clyde Clifton found the back door to the big store open. He called Jeff Thacker, son of J. M. (Buzz) Thacker, who called his grandfather, Melton Thacker, pioneer West Texas merchant. Sheriff J. D. Spray was summoned.

The merchandise was stacked, ready for loading at the back door. It included more than \$1000 worth of guns and ammunition, sewing machine, adding machine,

all the radios in the store, a color TV and other merchandise.

About \$15 in change from the cash register is believed to be all that was taken. Entry was gained by breaking a glass in the back door, opening the top bolt and prying open the bottom bolt.

A tape player and sewing machine were found across the alley from the back door of the store.

Texas Ranger Leo Hickman of Childress was summoned, but was unable to detect any finger prints. It is believed the would-be thieves may have been wearing gloves.

Sheriff Spray said late yesterday that a car found in the area may have been connected with the break-in, but that no direct leads have been secured.

"Buzz" Thacker is away on vacation.

Soaking Rains Boost To General Outlook

Cold Front Brings 2.41 in. Moisture

RAINFALL that started with a mist early Thursday, increased and continued intermittently over the week end, and greatly improved the outlook here. There was no wind and the precipitation fell slowly.

County Agent Bill Palmeyer said the official US rain gauge which he maintains registered a total of 2.41 inches. However, many unofficial gauges showed more than two and one-half inches and some sections of the county reported as much as three inches of moisture.

Observers say the rain resulted in little if any damage to the cotton, except possibly to delay harvest to some extent. The greatest advantage was to wheat and rye which was suffering from the dry period. Some was on the verge of being lost and other fields had failed to sprout.

The picture has changed since the rains and the winter pasture picture has greatly improved. Range conditions have also improved with the late fall rains, and grass in all areas of the county is excellent.

The soaking rains fell over most of West Texas, Eastern New Mexico and across much of Oklahoma. Cattlemen see a great advantage in the improved winter pasture conditions, keeping a strong demand for cattle to pasture and further supporting the booming cattle prices.

The raising of livestock is one of the most important factors in the economy of Motley County and continued high prices will offset much of the presently depressed prices of cotton.

ably received as in the Foothill Country, due to larger acreages of grain sorghums. Fields which had not been harvested will sustain loss, according to reports.

The cold front which resulted in the moisture dropped the mercury here from around 90 degrees daytime temperature to less than half. Night temperatures skidded to near 40 degrees.

Another front struck yesterday with a chance of more moisture predicted. Forecasters said, however, that fair skies were due to return today.

Peak Expected in Screwworm Cases

(Delayed)

MISSION — "If reporting of screwworm cases is anywhere near normal, we believe that the second and third week of October will be the heaviest infestation period of the 1972 screwworm outbreak."

This word comes from Dr. M. E. Meadows, Jr., who is in charge of the Screwworm Eradication Center at Mission.

"In five of the past 10 years, more cases were confirmed in October than in any other month of the year. With the exception of 1962 — the initial year of the eradication program — in every year when more than 400 cases were confirmed, October has been the worst month," Meadows said. A gradual reduction in case numbers should begin after the third week of October, he predicted.

"Based on the history of the eradication program, we had anticipated that September and October would be the heaviest months of screwworm infestation. However, it appears that September will show less confirmed

cases than August, based of course on fewer overall samples received," the Eradication Program director said.

This situation, however, is believed to reflect the generally poor reporting of cases by the livestock industry, rather than representing a reduction in actual cases, he added.

"We do believe that a significant drop in cases has occurred in the overwintering area, where the sterile fly release rate has been increased to 3,200 per square mile," Meadows said.

Additionally, he pointed out that the increased fly drop in this area and the onset of cold weather north of the drop area could result in rapid case reductions during mid-November and thereafter.

VISITS DAUGHTER

Mrs. Riley A. Day visited in Silverton from Sunday afternoon until Friday of last week, in the home of her daughter, Mrs. Ware Fogerson. She was accompanied home by her grandson and family, Mr. and Mrs. Stanley Fogerson as they were en route to Stephenville to attend Tarleton State Homecoming.

Sanders Challenges Two Tower Charges

AUSTIN — Barefoot Sanders, Democratic nominee for U. S. Senator, said at a reception at the Capitol for state legislators and senators:

"John Tower's charge about my absenteeism in the Legislature in the 1960's is as phony as a \$3 bill.

"Here are the facts. During my six years in the Legislature there were 5,576 roll call votes. I was present and voting for 93% of these votes.

"Compare this to Tower's attendance record in the U.S. Senate — far below average for nine straight years. In recent years he was absent 47% of the time

in 1967, 37% of the time in 1968, 22% of the time in 1969, 45% of the time in 1970, and 22% of the time in 1971. All of this is documented in the Congressional Quarterly.

"Equally phony is Tower's baloney that I voted against the Code of Ethics Bill. The fact is that I voted for the Code of Ethics Bill (page 1252 of the House Journal, April 1, 1967) and that the bill passed and became law.

"More important, I worked and voted for a lobbyist registration bill. Maybe that is what is bothering Tower and his sidekick, Ed Clark, Lobbyist Emeritus.

"Tower is simply trying to (Continued on back page)

Letter to the Editor

October 13, 1972

Mr. Editor,

This is an open letter to the eighteen year old readers of the MATADOR TRIBUNE. I would appreciate your printing it for me.

In November Americans will once again elect a president. For the very first time, however, the eighteen year olds will influence the outcome of the vote. This privilege should be utilized by the new potential voters.

According to recent figures released by the Capital National Bank of Austin, only 33% of this age group voted in the 1968 presidential election in the States where they were eligible. This compared with 68% voting for all groups of voting age that year.

For some time, the eighteen year olds have been pleading for the right to vote. Now that we have this privilege, we should use it to demonstrate our responsibilities as citizens. I would like to urge you new potential voters to go to the polls on election day. A large percentage of eighteen year old voters could prove to be the decisive factor in electing the next President.

Farm Bureau Seeks Cotton Price Boost

WACO (Spl) — The Texas Farm Bureau is requesting the government to purchase cotton to relieve "critically depressed" prices for cotton.

In a telegram sent Oct. 20 to Senator John Tower, Texas Farm Bureau President, J. T. (Red) Woodson said, "Texas Farm Bureau cotton producers respectfully request your personal assistance in expediting USDA purchases of cotton for current and future export sales."

The leader of the 135,000-member Texas Farm Bureau said export sales in volume are "urgently needed to relieve critically depressed prices for all grades and staples, and particularly for the shorter staples which predominate in Texas."

"Your positive response to this request," Woodson continued, "should prove extremely beneficial to Texas cotton producers and will be deeply appreciated."

HOW DO YOU THANK THE WORLD?

We are humble in the presence of the favors and honors bestowed on us Sunday, Oct. 15th, and preceding the observance in our honor.

We are grateful to the world but especially to those who worked so hard and gave so much toward the success of the observance.

We are also especially grateful for the many flowers and pot plants, for the cookies and for the services of those who prepared and served the coffee. We are grateful for the decoupage photo presented by Geneva and Jinks Wilson, which Geneva made.

We are grateful to Art Ratzlaff and his good musicians for the excellent music. We deeply appreciate the sponsors who made the 'underground' part of Oct. 12 Tribune possible.

We want to thank Mrs. Ola Stokes who so ably maintained the coffee detail; our own Mary Renfro, Linda Gossett, Hazel Donovan, "Little Doug" Meador and others who served, including Pat Seigler and Jessie Mae Tipton in making advance preparations for the open house reception.

We are indebted to so many for so much and to everyone who contributed in any way to the observance. Our special thanks to Harold V. Brown, who was responsible for starting the whole thing.
