Citizens Of Tomorrow Pictures Taken Today

Today is the big day set to take Living Color pictures of your little ones. The Tribune is having pictures taken of all children accompanied by their parents or other guardian to the American Legion between 12 and 7 absolutely free of any charge or obligation.

The Tribune wants to publish a picture of your child in a photographic feature series of local children entitled "Citizens of Tomorrow."

A professional

children's photographer will take the picture in Direct Living Color. We emphasize, therefore, that you dress the children colorfully so as to take full advantage of the beauty of Color photography.

No Charge To Parents

There is no charge or obligation for taking the pictures. Parents don't even have to be a subscriber to the Tribune nor even a reader.

You do not have to purchase pictures

either. Proofs will be shown in Color and you may obtain Color portraits by arranging direct with the studio representative if you want them. That is entirely up to you! The pictures appearing in the newspaper will be in black and white.

Good Pictorial Feature

In keeping with the quality Feature policy of this newspaper, we want to make this a memorable Feature. This means we want all the pictures of local youngsters we can get to run in the paper. Kiddies and parents alike will read no end of

fun and pride as the pictures appear in the paper.

Mothers and fathers of children in the area which this newspaper circulates, please help us and remember the date, Thursday, July 29th at the American Legion and bring your children to be photographed.

If you have not already made an appointment for this community event do it now. Call Sharla Green at phone number 347-2400 and avoid the possibility of a long wait.

GRASS FIRE -- The Matador Volunteer Fire Department has been called out several times during the past week to extinguish grass fires, including a major pasture fire Monday on Glenn Woodruff's ranch, which burned about 200 acres. It also extended onto Luther Lancaster's ranchland. Fire Chief Rodney Williams urges persons to use extreme caution when burning rubbish or trash because of dry conditions.

A Second Glance

The Proctor & Gamble Company filed suits against four additional individuals for circulating "false and malicious" statements about the company and calling for a boycott of P&G products. These actions are the latest in a series of steps initiated by P&G to stop the spread of stories associating the company and its "moon and stars" trademark with satanism and devil worship.

The company filed similar suits against a Pensacola, Florida, couple and an Atlanta, Georgia, man on July 1. Suits were filed recently against Guy Sharpe of Atlanta, Georgia; Elma Ed Pruitt of Clovis, New Mexico; and Sherman and Margaret McCord of Tullahoma, Tennessee. All four are charged with "libeling the character" of Proctor & Gamble by making statements or distributing literature which stated that P&G supported satanism and that its trademark is a symbol of satanism or devil worship. They also encouraged others to stop buying P&G products, the company said. The suits were filed in Federal District Courts in Atlanta, Georgia; Albuquerque, New Mexico; and Greenville, Tennessee. P&G is asking the courts to stop the individuals from circulating the rumor and for unspecified monetary damages.

Former U.S. Attorney General Griffin Bell of the Atlanta law firm of King & Spalding will represent Proctor & Gamble in the Georgia suit. Charles Larrabee

of the Albuquerque law firm of Rodney, Dickason, Sloan, Akin & Robb will handle the New Mexico suit. Richard Speight of the Nashville law firm of Speight & Parker will represent the company in the Tennessee suit.

P&G announced on June 24 that it was taking aggressive steps to stop the rumors after calls from consumers escalated sharply in April, May and June.

The company received more than 15,000 calls about the rumor in June and more than 12,000 in April and in May.

The rumors typically report that the company's "moon and stars" trademark is a symbol of satanism and devil worship and that a P&G executive discussed satanism on nationally televised talk shows. Producers of the shows mentioned have confirmed that no one from P&G has appeared on their programs.

The trademark, a circular design featuring a man-in-the-moon figure looking out over a field of thirteen stars, has been used since 1850 and was officially registered in 1882. The symbol started as simple markings on crates of Star Candles, an early Proctor & Gamble product, and evolved over the years to a formal design showing a man-in-the-moon, a popular figure of the 1800's, and thirteen stars representing the original colonies.

P&G said calls have dropped off since the first lawsuits were filed, but the company still is receiving between 200-300 calls per day on the rumor.

Wheat Insurance Deadline Is Sept. 15

Wheat growers interested in All-Risk insurance for their 1983 crops should contact their insurance agent as soon as possible, according to F. W. "Ted" Crouch, Jr., All-Risk Insurance Field Operations Director.

Although the deadline to obtain wheat insurance isn't until September 15, Crouch suggests three reasons why growers should begin making their plans now. First, early consideration will provide additional time to develop a program of insurance coverage that best meets the individual policyholder's needs.

Secondly, it can be useful to farmers to have their insurance arranged before they visit with their lenders about production loans. Insurance helps to minimize the uncertainty involved in the

year-ahead cash flow projections that many lenders today require.

Third, an early application allows additional time for growers to verify yield records that may enable them to qualify for increased insurance protection.

Crouch points out that the expanded and revised wheat insurance program now in effect provides a variety of ways for producers to tailor their coverage to their needs for insurance protection and to their budgets.

For example, policies offer a choice of production guarantees as well as a choice of indemnity payments for each bushel of loss.

The ASCS county office has a list of local private agents who are handling the federally-backed insurance policies.

There will be a meeting July 29 (tonight) at the Courthouse in Dickens, at 7:30 p.m. to certify producers wishing to use the M-44 cyanide guns for coyote and predator control.

Phone Company Adds Extra Charges August 1

Beginning August 1, General Telephone customers in Texas will be charged for calls to directory assistance that exceed a 10-call per month limit.

"The increasing volume of calls to directory assistance is one factor that has made local basic monthly rates paid by all customers go up in the past," James H. Davis, operations manager - Western Division Operations for General Telephone, said. "With the directory assistance charging plan, the local rate increases recently placed in effect were less than what they would have been without directory assistance charging."

Davis pointed out that charging for calls to directory assistance exceeding a 10-call per month limit will have little effect on the majority of the company's customers, except to help keep basic rates lower than they would be without the charge.

"Our studies have shown that approximately nine percent of the total directory assistance users make nearly half of all calls to directory assistance," Davis said. "Under the previous method, the cost of providing directory assistance was spread among all customers, regardless of whether they use the service or not," the telephone company manager said. "Customers formerly could make an

unlimited number of calls to directory assistance without paying a separate charge.

"As a result, customers who never use the service or who used it very little were paying just as much through their local rates as the heavy users for this service."

Charging for excessive use will transfer the costs to those who use the service extensively, resulting in keeping basic local rates lower than they would be otherwise.

Each General customer will have a 10-call per month per line allowance without charge. The caller can also obtain a maximum of two telephone numbers during each call under the plan approved July 14 by the Public Utility Commission.

"We feel this will take care of new listings and number changes most customers will need during the course of a month," the manager said.

"After the 10-call limit, a 25-cent charge per request will be assessed."

Calls for which no charge would be assessed will be those made from coin telephones, from hospitals, by certified handicapped persons who cannot use a telephone directory, and calls for long-distance directory assistance which are offset by a long-distance call.

CAKE WITH GREAT FRESH TASTE

If you think homebaked cake is "invited" to special occasions only, take a homebaked Walnut Spice Creamy Cake to the weekday dining table and see what happens. An ordinary meal automatically moves to a super-delicious category because it's "frosted" with a new dairy-based frozen whipped topping. It all begins with a time-saving cake mix, too. The four-layer cake has a filling combination of applesauce and more rich, creamy whipped topping. Anticipate raves about the great fresh taste, and for good reason. The topping is made from an exclusive dairy recipe that includes 25% skim milk. Speaking of convenience, it's good sense to have an 8-ounce container of this new topping on hand in the freezer. After thawing, it keeps fresh in the refrigerator for up to 2 weeks. Best of all, you can use what you need and freeze for another time. Count on the rich, creamy taste and texture of this new dairy-based whipped topping to enhance all your favorite desserts.

WALNUT SPICE CREAMY CAKE

- 1 package (2-layer size) yellow cake mix or pudding-included cake mix
- 1 cup fine graham cracker crumbs
- 1 teaspoon cinnamon
- 1/4 teaspoon each nutmeg and cloves
- 1 container (8 oz.) Birds Eye Cool Whip extra creamy dairy recipe whipped topping, thawed
- 1 cup applesauce
- Walnut halves

Prepare cake mix as directed on package, adding crumbs and spices to mix before beating and baking in two 9-inch layer pans. Split cooled layers to form 4 thin layers. Combine 1 cup of the whipped topping and the applesauce. Spread about 1/2 cup applesauce mixture on each of three layers and stack; top with fourth layer. Frost sides and top with remaining whipped topping. Garnish with walnut halves. Chill 1 hour before serving. Store any remaining cake in refrigerator.

GTE Customers To Pay Late Charges

General Telephone business customers who do not pay their telephone bills on time will be charged a late charge fee on past due amounts effective August 4.

The charge will apply only to business customers in accordance with Public Utility Commission of Texas rules.

The fee will be equal to five percent of the delinquent amount. The late charge will apply if the bill is not paid by the due date shown on the bill.

James H. Davis, general manager - Western Division Operations for General, said the late pay charge is designed to place the costs associated with collecting past due business account bills on those customers causing the costs.

"It is not fair to

customers who pay their bills on time to have to pay higher monthly local basic rates because of customers who do not pay on time," Davis said. "Another advantage will be to reduce the amount of uncollectible bills since those business customers who will pay their bills will now have an incentive to pay it before the late charge is assessed. We will be in a better position to determine the bills that may never be collected and take action sooner to reduce losses," Davis said.

"Our late charge policy serves to protect customers since uncollected bills are the related costs are an expense item paid by all customers. By keeping uncollectible bills as low as possible, we can help keep local basic rates lower than they would be otherwise," Davis said.

Thank You

The family of V. C. Spraberry would like to thank all their friends for the lovely floral arrangements, abundance of food, prayers and love expressed at this time of sorrow.

Your thoughtfulness will always be remembered.

Strake Talk Keeping In Touch

This is the first of what I intend to be a number of weekly columns from me, discussing various topics of importance to Texans. During the coming weeks, we will discuss such things as President Reagan's "New Federalism" proposal, the need for better laws dealing with drunk drivers, illegal aliens, the education of our children, and a host of other issues that will be on our political agenda.

I believe these columns will provide a unique opportunity to stimulate public discussion on these important issues. Indeed, this may be the only way. I have challenged my opponent, Mr. Hobby, to a series of free-wheeling debates on political issues, so both our views could be put before the people of Texas. We met in a debate one time in Houston. In the view of all observers, Mr. Hobby lost and he has announced that he will not debate again. So I have chosen this route to try to let you know my position on the

issues. I feel you are entitled to know that before you make your decision in the November election. Additionally, I hope you will let me know your views. They are important to me.

The office of Lieutenant Governor is exceedingly powerful in Texas. It affects all our lives. In addition to presiding over the State Senate, the Lt. Governor appoints all Senate committees, their chairmen, and assigns all legislation to the committee of his choice. He presides over the Legislative Budget Board, which significantly shapes state spending. It is an office all Texans ought to be concerned about. I hope you will watch for this column. Tell your friends and neighbors about it. Discuss the issues. Together, we can make a contribution to the political processes, and hopefully improve all our lives. Let me know your views on the issues I discuss in the weeks ahead. Just write me at 1213 W. 34th, Austin, Texas, 78705.

Safety Tips

It's What Up Front That Counts

A study of more than 900 motorcycle accidents in southern California has shown that most accidents happen right in front of the rider. In fact, only seven percent occur from the rear. Unfortunately the biggest problem for motorcyclists is other drivers—they just aren't looking out for riders.

The best tip for motorcyclists is always be on the watch-out for potential problems. But there are ways riders can make themselves more visible to other drivers, according to the Motorcycle Safety Foundation:

- Ride with the cycle's headlight on at all times. Most new cycles come from the factory with a headlight that shines when the ignition is turned on.
- Wear bright colored clothing—especially on the upper part of your body—when you ride. Army green and denim blue may be the fashion but it's hard for drivers to see you in surrounding traffic.
- At night put reflective material on your helmet, jacket and cycle. A cycle's smaller silhouette is even more difficult for drivers to see at night.
