Roaring Spgs. Nightwatchman Abducted

MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, JANUARY 18, 1973 PRICE TEN CENTS

76TH YEAR--No. 46

Survival is a basic instinct in all things that live with a pur pose to endure as long as possible. From the blades of grass to mankind the pattern remains as one of struggle to continue a course in individual destiny. As with the black and white dog that sat by the side of the road in the winter storm and watched the few vehicles able to negotiate the snow and ice. The atmosphere was one of misery with hunger adding to the hopelessness of the destitute and unwanted animal. More snow continued to fall and the specter of early night was on the dim horizon. The vehicles passed like a slow-motion film and the dog watched each one until it vanished in the gloom. The emotions of dogs are not known but they may include some of those known to man and the knowledge of not being wanted may include more pain than cold and hunger and the adventure of freezing to death.

Christmas messages are a joy to most of us, and many of them are elaborate in designs and materials. One of the most impressive of the recent past season was extremely simple. It was a rubber stamp imprint on the outside of an envelope with these words: "To Brighten Your Day, Read First John

An old-time expression to evaluate a character was: "He is not worth his salt.

Snow is popular with many because it covers the earth and makes everything beautiful, including the many objects of ugliness. It might be compared with a love affair that thaws and brings reality back into focus.

When we are resigned to carry our burdens in silence, the weight has been lightened and more of the path may be downhill.

No research is in progress to subdue the cancer of hate, yet its misery and destruction of peace of mind leaves a streak of bitterness in a multitude of hearts

Another problem in becoming senile is the extra amount of time required to cover up an act of stupidity which might have been ignored in a younger person.

HOLIDAY VISIT IS PLEASURE-FILLED

Mrs. Bob Echols arrived home Friday from a holiday visit in Honolulu with her grandson and family, Mr. and Mrs. David Webb and sons, Patrick and Billy. Mr. Webb is Director of Marketing for Kentron Corp.

The visit was pleasure-filled, with tours over the island to numerous attractions. These included Black Sands Beach of Kaimu, which was formed by black lava rock being worn down to sand and washed ashore by the sea; the Iolani Palace, which is the only palace in the United States, and was built as a residence for the rulers when Hawaii was a (Mrs. Echols

MOUNTAIN OF SNOW in front of the Tribune Building made during last week's storm. City and State Highway employees kept the streets open by blading the snow to the centers. It was then hauled to vacant lots and placed on the courthouse square to melt. Some of the piles of snow were still in evidence Wednesday night, despite 65 degrees daytime temperature.

Heat Problem at School Is Cause of Extra Busing

ETERNAS CLUB TO SPONSOR DRIVE FOR MARCH OF DIMES

will again sponsor the annual March of Dimes drive for funds needed by the National Foundation for research and education programs to prevent birth

Committees, appointed by Mrs. Bundy Hal Campbell, president of the club, will make a door-to-door canvass of the town, Saturday, January 20, to solicit contributions.

"Even though science has made great strides in preventing and treating some birth for the future," Mr. Voss stated. defects, the fact remains that about 250,000 American babies are born with physical or mental defects each year," said George P. Voss, vice president for public relations of the National Foundation.

According to Arthur J. Salisbury, M.D. Director - of Medical Services for the National Foundation MOD, "We are 16th in the United Nations' ranking of infant mortality statistics...Of every thousand babies born alive in this country, almost 20 never reach their first birthday.

The March of Dimes originated in the 1930's when Franklin D. Roosevelt was president. It was first designed as a January birthday ball celebration in his honor to raise funds for

learned that many scenes in the Hawaii Five-O series is filmed here); the Japanese Byodo-In Temple: the National Memorial Cemetery of the Pacific and the U.S.S. Arizona Memorial at Pearl Harbor

She also visited the Mormon Temple and the Polynesian Cultural Center, which includes entertainment, exhibits and native crafts from Hawaii, Tonga, Samoa, Maori-New

Zealand, Fiji and Tahiti. One of the highlights of the visit was the elaborate fireworks display on New Year's Eve which attracted thousands of Japanese visitors who came principally for this event.

Eternas Junior Study Club combatting polio, of which the

president was a victim.

As the fight to curb polio lessened, due to the success attained by medical science and research, attention turned to other needs, and for the past several years the March of Dimes has centered on birth

"In the past few years science and medicine have developed new, highly sophisticated techniques that hold great promise

"The Eternas Club will appreciate donations in any amount to contribute to this worthwhile cause," Mrs. Camp-

Four Receive

Four guests at the Matador Lions Club luncheon meeting Tuesday in the First United Methodist Church basement, were the winners in the club's annual Christmas lighting and decoration contest.

They were each presented with a plaque by Tail Twister Glen Brotherton. First place winner in the home decoration went to Mrs. D. C. Baker and second place in the same division went to Mrs. Kenneth Thompson.

Freddie Welling, manager of the West Texas Utilities Co. received the first place plaque in the business place division, and Mrs. W. F. Jacobs, owner of the Matador Variety, received the second place plaque.

CORRECT HOME INFLUENCE MAY PREVENT DELINQUENCY

A SURVEY has shown that the average parent spends only seven minutes each week with his child and records show that 77 per cent of juvenile children in Texas are from divorced

The startling figures are from an authority, Herman Fox, State Juvenile Parole Officer for a 16 county area, including Motley County.

He was the principal speaker Tuesday at the first 1973 regular luncheon meeting of the Matador Lions Club, and was introduced by Lion Judge Forrest Campbell.

Previous to his talk, Vice-President Ervin Willard acting as Boss Lion in the absence of President Pat Seigler, had announced that the club directors had voted \$40 to Girls

Fox said Boys Ranch is the greatest institution in Texas for boys under 14 years of age and that Girls Town is doing an equal job in restoring young girls to society. He said that Boys Ranch has a long waiting list and asked "What are you

going to do with a boy while waiting to get him admitted to Boys Ranch?'

The speaker said people need to spend more time at home with their children, and need to see that they attend school and church regularly. He placed great emphasis, based on experience, on regular church attendance, to prevent boys and girls straying into delinquency.

The dedicated young officer pointed out that young people who break laws become wards, first of the county and then of the state as their offences increase. He pointed to the danger of youngsters losing interest in school to the point where they are behind others in the same age group.

Following his talk he answered several questions from the audience.

He said the greatest increase in juvenile delinquency is among young girls and he

blamed it on the growing use of drugs, and the fact that more girls run away from home. In conclusion he said: "But kids are good generally, with only three out of every 100

becoming juvenile delinquents.

here Monday after a problem developed in the heating plant plant supplies steam heat for both the high school and grade school buildings.

School officials said a boiler in the heating plant had become 'foamed up' and refused to function. A boiler specialist started to work on the equipment and first gave it a 'dose'' of 100 pounds of soda and other ingredients. The boiler was not in operation by Monday, so other plans were made to keep classes going.

High school and junior high school students were bussed to the Roaring Springs plant. Grade school students were placed in class rooms in the First United Methodist Church and First Baptist Church here.

Adding to the problems was the fact that students taken to Roaring Springs were bussed back here for lunch and again taken to Roaring Springs for the remainder of the school day.

Then there was the problem of high school and junior high school students' books. They carried them in boxes and in their arms to the changed class rooms. Again there was the problem of books belonging to students living in Roaring Springs. It was necessary to take their books to them

Superintendent Charles Johnson said heat was restored in the grade school building for classes Tuesday and that the entire plant was again in operation for both buildings to resume normal functions by Wednesday morning.

MEET IN LUBBOCK

Mr. and Mrs. John Jackson of Harlingen were recent visitors in Lubbock, where they were joined by his brother and wife, Mr. and Mrs. Gordon Jackson of Emporia, Kansas, and his sisters and a brother-in-law, Mr. and Mrs. Pat Sheridan of Matador, Mrs. Mary Rogers and Miss Annie Mae Jackson of Graham, and Mrs. Blewett Davis of Torrence, Calif.

BERRY BOSTICK

Bostick Wins Class B Honor

By Lance Jameson Named to this year's Class B All-State team by the Texas Sports Writers Association, was Berry Bostick, son of Mr. and Mrs. Lewis Bostick, who was selected as an offensive end on released by the association, last were a portable TV, a stereo,

Bostick, a senior, was one of the offensive ends on this year's All-District squad and was the loss would probable amount chosen as a defensive linebacker on the A.D. second team. He amassed aerial yardage with his enveloped passes for the Matador offensive team and was consistent on defensive plays for the Matador

Other members of the District 2B football teams landed berths on the state team also. The three selections from Happy were on the first team, with Matador, Nazareth, Wilson and home Meadow placing gridiron players on the second team.

Store Here To **Observe 40th**

IT WAS 40 years ago when the late W. F. Jacobs purchased the present Matador Variety from Dick Speer of Spur. It was then operated as Speer's Variety

Anniversary

Mr. Jacobs had come to Matador in 1932 to close out Hanna Brothers Dry Goods store, which operated in the present location of Bob Stanley Pharmacy. It was drought and depression days but the young man was ambitious. He borrowed the money from Ted Hanna and bought the variety 2 p.m. Tuesday in the First store in January, 1933.

cattle were cheap. At the time officiating. there were no government subsidies in effect. The next year, however (1934) the government did aid. Because of the great drought the government bought the starving cattle at \$12 per head for cows. The in some cases and some meat from edible calves.

It was the same year that spawned the present Matador Tribune, also located at the Plainview for the past seven time in the Masonic Lodge years Building (space now occupied V "Bunch" Williams of Afton by the Rolling Plains Production Credit Association)

Mr. Jacobs had previously had experience in the dry goods business and combined the variety store with a line of apparel. The rains returned in 1935 and the grass returned. Farming improved with the advent of the tractor and the Matador Variety established.

When Mr. Jacobs came to Matador he was told it would require about six months to dren close out the Hanna Bros. store. He was to spend the remainder of his life, 28 years, here.

Mrs. Jacobs has continued to operate the business since her husband's death 12 years ago. continued operation in the same Mrs. David Keith of Lingo, New basket for 27 points and C. location, under the same name Mexico.

Thacker Supply is **Victim of Robbery**

LAW OFFICERS are looking up. They had discussed a for a white and red Chevrolet pickup belonging to deputy and nightwatchman Clyce Clifton of abandoned filling station where Roaring Springs. A lone bandit Mr. Clifton was later to be a held up and disarmed Mr. Clifton about 9 o'clock Tuesday night and forced him at gun point to drive south about two a lock had been broken. Sheriff miles to an abandoned filling Wilson drove Mr. Clifton back to station on the bank of South Roaring Springs. Pease River.

He then forced the nightwatchman to lie on his stomach his back, then after forcing him round into the old building, he bound Mr. Clifton's legs and tied the two bindings together, then left in the nightwatchman's pickup. Back in Roaring Springs the

back door of Thacker Supply Company was broken open and the entire collection (about 15) the second team. Names were of guns was taken. Also taken shot gun cartridges and other articles. J. M. (Buzz) Thacker said yesterday afternoon that

Kathy Gilbert, daughter of Mr. and Mrs. D. M. Gilbert of Flomot and a senior at Texas Tech University, Lubbock, was named on the Dean's Honor List for the fall semester, with a grade average of 3.25.

STUDIES ABOUT THE BIBLE

The English word "bible" is derived from the Greek word biblos," which means "a book." However, the great respect which the Bible enjoys in our society has elevated it to the expression "The Book." The Bible is the word of God; the inspired word of God.

The Bible has been an every-year best-seller for decades and has, in some way, touched the life of every individual on earth. It has been translated into all prominent languages on this globe and many of the lesser tongues.

Bible truths have become a part of the system of laws in nearly all countries of the world. Billions of individuals and many various groups and races of humanity have been lifted up by its teachings.

"When you have read the Bible, you will know it is the word of God, because you will have found it the key to your own heart, your own happiness and your own duty." -Woodrow Wilson

Why not make the Bible a Daily experience in your life? But the word of the Lord abides forever.' And this is the word which was preached to you." 1 Peter 1:25. (Bible quotes are from New American Standard Bible)

Advice Given When to File For Medicare

and

by Ray Purcell

Social Security Representative Q. I am already receiving my social security benefits, but I will be 65 in a few months. When should I file for Medicare as I have heard that everyone should file 3 months before they

A. Those of you who are already receiving social security benefits and are nearing 65 do not have to contact your social security office 3 months before you are 65. One, two or three months before you are 65. social security will send you a card asking if you want to enroll in the supplemental part of Medicare. All you have to do to enroll is check the block saying "Yes", sign your name and return the card in the envelope that is enclosed.

For more information contact your social security office at 1401-B W. 5th St., Plainview. If more convenient, meet with your social security representative. He is in Floydada at the courthouse on Wednesday morning, in Matador in the lobby of the First State Bank on the first Tuesday morning of each month, in Abernathy at the City Hall on the third Tuesday morning of each month, and in Paducah on the second and fourth Tuesday morning of each month.

COUNTY AGENT PALLMEYER SAYS

MP-339, Texas Guide for Controlling Insects & Mites on Sorghums, Small Grains and Grasses is available for assistance in making checks, identifying insects, and selection of control material to use.

Screwworm time should be forget to collect and mail a making it.

again during warm spells, and these ads will supply a list of animal, 0.25 lb. urea per day.) action taken now will just help companies that may (but

farmers should consider making arrangements with feedlots to obtain this material.

Nitrogen, phosphorus, potash, iron and zinc are found in the manure and all of these elements are needed in crop production. Also, when applied to alkiline soils (and most of ours are), manure acts as a buffering agent. In addition, such soil physical characteristics as porosity, granulation, water infiltration rate and moisture retention rate are improved.

Manure should be plowed under as soon as possible to retain nitrogen and start decomposition., and even though needed fertilizer elements are applied through the manure, tests have shown that the maximum net results are obtained when commercial fertilizer is applied also. This is because only half of the nitrogen contained in the manure is available the first cropping year, and other elements are also slowly

Even though manure is good for the land and will increase returns, there is one precaution to take. Check and see if high rates of salt are fed by the feedlot where you are obtaining the manure. Moderate amounts of manure (10 to 20 tons/acre) of manure low in salt should not present a problem, but large amounts of a animals which have not manure high in salt content can complicate our problem.

It's about time for this scheme to start making the rounds again. "Make big profits addressing envelopes at

Doctor's warning:

"Serious Birth Defects Can Result When Expectant Mother Has VD" Neglecting VD in the hope

on-March of Dimes, discusses dangers of VD with two healthy rhea not only pase severe visitors. Untreated syphilis and gonor health threats to adults, but an unborn child risks birth defects if a preg woman with VD does not have immedi-

by Virginia Apgar, M.D.

Medical Affairs The National Foundation March of Dimes

When a woman has venereal disease during pregnancy, there is double jeopardy. She not only injures herself, she exposes her unborn child to a damaged future.

It is not enough to measure the tragic cost of untreated venereal disease to the person infected. If unchecked, VD has a cruel impact: it can cause severe damage, even death, to an unborn child.

Hospitals around the country are reporting an increased number of innocent VD victims, babies born with venereal infections which can ipple them for life.

Prevention of birth defects is the long-range goal of the March of Dimes, and treatment of congenital damage an immediate goal. Every year in the United States, about a quarter of a million infants are born with physical or mental defects that can deny them full, healthy development.

In the majority of cases, scientists have not yet discovered the causes of these tragedies.

Grim Results

But the grim results of VD acquired at birth need not happen at all. Syphilis and gonorrhea, the two most common forms of venereal disease, can be cured quickly and easily if they are detected early and all infected people receive prompt medical treatment. Medical care in physicians' offices and at public health facilities is confidential and, in a number of states, it is no longer required to obtain permission of parents for the treatment of a minor

simplify the detection of gonorrhea in expectant mothers. Until recently, it was believed that gonorrhea never struck an infant until delivery. when it passed through the birth canal and became infected. Now we know that the disease sometimes can reach the fetus before birth if the mother's membranes rupture

ward development of a vaccine against gonorrhea. As a first

step, they are seeking a blood

test for the disease. If the test

is successful, it can greatly

well before delivery. Congenital syphilis is an even graver threat to the unborn child. Last year the number of cases in the newborn rose 31 per cent over 1970. After about the 18th week of pregnancy, syphilis can cross the mother's placenta and harm the baby in a number of ways. At times it may cause death in the womb.

Later Damage

If the infant survives, it may be born extremely small and look wizened or emaciated. Sometimes the skin is covered with sores. If bone damage has occurred, the baby can be crippled, or he may suffer from anemia, enlarged liver and spleen, pneumonia, meningitis, kidney disease, or a combina-

tion of these Frequently, congenital syphilis is not apparent at birth but creates serious problems later on. It can lead to deformities caused by bone damage, scarred skin, deafness, misshapen teeth, nerve damage, mental abnormalities and early death.

Many public health authorities urge repeated testings during pregnancy for both syphilis and gonorrhea because of the high incidence of reinfection.

A CRITICALLY ILL INFANT only hours old, is attended by Dr. August Jung, director of the Intermountain Newborn In tensive Care Center, University of Utah Medical Center, Salt Lake City. The baby was rushed for care by helicopter, part of a life-saving unit aided by the March of Dimes that serves the Rocky Mountain states.

Mrs. Ruby Nichols of Lubbock visited her sister-in-law and husband, Mr. and Mrs. Algie Groves, Sunday.

Program Set For Swine

Producers

A meeting for hog producers in Dickens County and area, is announced for Tuesday, January 22, beginning at 7:30 p.m. at the courthouse in Dickens.

The program will be presented by Dr. Gilbert Hollis, Swine Specialist from Lubbock and Norman Brints, Economist from Vernon, according to Dickens County Extension Agent Harry Campbell.

The information to be presented will include feeding out weaner pigs, cost and return analysis of feedout operations, and connon disease problems and prevention recommendations. Materials presented is free for anyone interested in hogs and is part of the Texas Agricultural Extension Service educational effort in this area.

Everyone interested is welcome to attend the meeting, which has been planned by the Dickens County Livestock and Range sub-committee of the Program Building Committee. Guy Goen is chairman of the sub-committee.

HOME FROM VISIT

Mrs. Hettie Davis arrived home Tuesday from Miami, Florida, where she spent the recent holidays with her son and family, Mr. and Mrs. Don Carlos Davis. She made the trip by plane from Lubbock and return, and was met at the Lubbock airport by her nephew and wife, Mr. and Mrs. Keith

Four Lone Star State 4 - H'ers Best in Program

been honored as state winners in their respective 4-H programs. They are among some 30 outstanding 4-H members who have earned 1972 state awards.

The four are: Becca Trietsch, 16, of Grapevine; Mike Noe, 19, Pearland; Danny Sena, 18, El Paso, and Hayden Haby, Jr., 16, of Rocksprings.

her award winning 4-H food preservation project as fun fresh, frozen and canned! Her efforts in the program have earned her a trip to the 51st National 4-H Congress held November 26-30 in Chicago. Her trip was presented by the Kerr Glass Manufacturing Corporation, donor of the awards in this program.

Enrolled in the food preservation program for six years, she has learned various methods for preserving all types of foods. Her honors include a variety of awards from county and district

Becca, a Tarrant County 4-H girl, is the daughter of Mr. and Mrs. J. L. Trietsch of

Mike Noe, 4-H youth from responded so well to training

Four Texas youths have Brazoria County, is the state winner in the 4-H automotive program. Mike will also travel to Chicago for the 4-H Congress in November, courtest of The Firestone Tire & Rubber Company, donor of awards in

this program. Mike has graduated in his automotive program from a used three-wheel truck, to a motor bike, to an antique car to a recent model auto-Becca Trietsch refers to mobile. All projects have proven to be a challenge, but the skills he has acquired through 4-H have made the

task rewarding. He has had an opportunity to race one of his vehicles on a straight track after modifying it to racing specifications.

Mike, the son of Mr. and Mrs. Frank W. Noe, Jr. of Pearland, is looking forward to a career in sales. Danny Sena, the Texas

winner in the 4-H dog care and training program is the recipient of a transistor radio for his efforts. The radio was presented by the Ralston Purina Company, donor of awards in this program.

His first dog, a registered white German Shepherd,

that Danny then acquired a Chihuahua, and two English Sringer Spaniels. Wanting to pass on his knowledge of training, he became training director for the junior members, an effort which gave him great satisfaction. His many trophies and ribbons attest to his success.

Danny, son of Mr. and Mrs. H.A. Sena of El Paso, plans to study for a career in veterinary medicine.

Hayden Haby, Jr. has captured the state award in the 4-H sheep program, and for his efforts has received a \$50 U.S. Savings Bond donated by Wilson & Co., Inc. The son of Mr. and Mrs. Hayden G. Haby, he has been involved in the program seven years. The Haby's are residents of Rocksprings.

He has an outstanding record of accomplishments which have won numerous awards. The Edwards County youth also sold some of his Rambouillets for shipment to India.

The winning projects were supervised by the Cooperative Extension Service and the awards programs arranged by the National 4-H Service Committee.

A four-page story including Goodnight is also narrated, and five full color pictures in the the author describes the wildlife January issue of Southern and facilities now available at Living magazine features Palo the state park. Duro Canyon, with mentions of Canyon and the musical-drama

'Texas. Entitled "The Grand Canyon of Texas," the article deals in some depth with the history and beauty of the canyon. It is written by Caleb Pirtle III.

Chairman of the Board of City Development here, Raymond Raillard, said the article is particularly significant because Southern Living magazine has a circulation throughout the country of about 900,000. The article is illustrated with

a full color picture of the lighthouse formation in the canyon and several other shots taken on the canyon floor and from the rim. It describes the discovery of

the canyon by Coronado and his men and adds details of the Indians who made the canyon

Several paragraphs are given to description of the last Indian battle in Texas fought by GeneralRanald MacKenzie in 1874 in Palo Duro Canyon.

The arrival and establishment of a ranch by Col. Charles

He also gives considerable space on the summer musicaldrama "Texas."

CARD OF THANKS

May we take this opportunity

The Family of Glen Bird and about my stay at Lubbock.) and the Hal Courtney Family

I want to thank all of my friends for remembering me in so many kind ways during my recent illness in the hospital, and since my return home. Your cards, flowers, prayers, visits, phone calls and other kindnesses are deeply appre- a gratitude.

IN APPRECIATION

Very sincerely, Lois Cooper

THANKS TO FRIENDS

I am very thankful to all who remembered me while I was confined to my home because of lameness, and wish to take this means of thanking each of you who ministered to me in any way. It is such a comfort to know that I have such lovely and thoughtful friends, as well as family. May God's richest blessings rest on each of you. Mrs. Ben Keltz

IN APPRECIATION

We wish to take this means of expressing our deepest gratitude to friends and neighbors for your many thoughtful deeds during Roy's illness and hospitalization. We appreciated very much, the cards, flowers, calls and your prayers while in the hospital, and the food, visits and everything that has been done for us since returning home. May you be richly rewarded for your goodness to us in our time of need.

Hightower gets **Short Capsule**

Senator Jack Hightower of Vernon drew capsule number 24, giving the seasoned senator two year term. Senators ciated. Polk joins me in sincere drawing even numbered "pills" had two year terms as opposed to four year terms for the odd

> The drawing, held in the Senate Chamber Wednesday morning, is required by the state constitution following the redistricting of the senate districts by the last legislature. The drawing sets one half of the Senate faced with elections in two years while the rest will serve four years. This procedure was provided to give the upper house more stability than the House of Representatives (1) whose members face re-election every two years. Senators normally serve four year terms.

> > This will be the third two year term for Senator Hightower, first elected to the state Senate in 1964 from the 23rd district, Hightower was re-elected from the new 30th Senatorial district 1966. The Senator was re-elected in 1970 and 1972 without opposition.

Senator Hightower serves as Chairman of the powerful Senate Administration Committee and as a member of the Finance and Natural Resources Committees
