PRICE TEN CENTS

TRAIL DUST

Advice is not only free, it is also exempt from tax, except the tax it places on the receiver's patience and civility.

As a boy I used to fear that all the gasoline would be consumed before I could possess an automobile. Now when I compute my monthly gasoline statements it is apparent that I must be receiving my share.

Sentiment pays dearly in time and tears at life's empty quays and in silent depots where the ghost trains of hope never stop. Surely destiny keeps no history lest it be written that pain is an ingredient in the balm of happiness; that the servant in serving rules his master.

A country editor is not qualified to evaluate the news that pours through the columns of the metropolitan press. His sphere of thinking is too limited to place the proper emphasis on the value of news events transpiring throughout the world. By habit he is forced to look upon the chain of events that will be in the wake of an incident rather than the factors which focused it to attention. He sees life from a different porthole than his metropolitan contemporary. As an example I would classify a news event this week second only to the birth of Jesus Christ. Most daily papers gave it space "below the fold" on page one. Other editors let it roam over the lonely inside pages of their big papers. The item said the free world's first commercial atomic electric power went "on the line" Monday at West Milton, N. Y., and one of its first uses was the grilling of a hamburger by a New York State housewife. A thousand things are important, peace, the meeting of world leaders, a nation praying, foods, politics, etc. but the item said a giant slave had come to work forever for mankind. A country editor should not read the daily press except with scissors in hand to clip the trivial items he can purloin for enough type to fill his own pages.

The importance of a human being is best measured by the duration of light in a room after an electric switch has been flipped. (Tribune files, July 21, 1955)

THE ARTIST AND HIS STUDENT - Jon Birdsong, artist from Hereford, instructs Mrs. John Barnhill in the techniques of water colors during the Workshop held June 2-6, in the Woodruff Building. Primary focus of the workshop was learning new techniques of water colors. Twenty-five people participated in the workshop conducted by Birdsong, who is credited with the honor of being the only person to have a painting accepted this year by President Gerald Ford. Birdsong pointed out that the President does not usually accept paintings, but a rancher from the Hereford area took the painting to the White House while on official business and the President did accept it. Birdsong is a native Texan, growing up in the Texas Panhandle. His art exposure came late in his college career, and only after graduating with a degree in Social Studies from West Texas State University did he go back and complete an art degree. He began teaching art in the Hereford public school system and resigned seven years later to devote full time to painting.

MRS. PETE DAVIS

Vows Exchanged In Twilight Setting

Within a spring decor and twilight setting, Kay Troutman and Pete Davis exchanged marriage vows in a double ring ceremony at 6:30 p.m. Saturday, June 7, in the First Baptist Church, Matador. The Rev. Carrol Green, pastor of First Baptist Church of Hale Center officiated.

Parents of the couple are Mr. and Mrs. F. A. Wheeler, Goliad, and Mr. and Mrs. C. R. Davis, Matador.

The church was decorated with a candle tree, winged with candelabras holding white tapers entwined with English ivy. The candlelit altar was flanked by baskets

of assorted spring flowers, including white gladioli, carnations, pompon mums, gypsophelia, roses, candy tufts and asters. The bridal aisle was marked with English ivy and satin bows of assorted pastel colors.

Tanya Tyer of Hale Center, fifth grade student of the bride, sang "We've Only Just Begun," accompanied by Ida Mae Powers of Plainview, organist. Mr. and Mrs. Jimmy Bennett, Afton, sang, "I Love You Truly," and ended the service with "Walk Hand in Hand," for the recessional. As the bride entered, she handed her mother a white rose, and as

the couple left the altar, she handed a white rose to the bridegroom's mother.

The bride was given in marriage by her father. She wore a Victorian wedding gown of white cluny lace over sky blue silk. A moulded bodice featuring a high wedding band neckline, was edged in bobbin lace. The long, slender candlestick sleeves were accented with wedding bell cuffs, and outlining the crescent waistline was blue and white French ribbon. The simple A-line skirt fell into a brush train at the back. The hemline was edged with a dainty lace ruffle matching the trim on the cuffs of the sleeves.

She wore a white Victorian cluny lace capulet embellished with seed pearls and a white illusion tiered bow from which fell her bouffant full chapel veil of white over sky blue imported English illusion. STUDIES ABOUT THE BIBLE

After Paul tells us how to share in the death, burial, and resurrection of Christ, Ro. 6:1-11, he then tells us what to do next.

Therefore do not let sin reign in your mortal body that you should obey its lusts, and do not go presenting the members of your body to sin as instruments of unrighteousness; but present yourselves to God as those alive from the dead, and your members as instruments of righteousness to God. Ro. 6:12-13.

Note the first clause in Paul's Spirit guided message. "Therefore do not let sin reign in your mortal body..." Most Students who have passed sixth grade English will recognize this clause as "imperative" and that the subject is "You." After becoming a Christian "You" must take control of your mortal body, guided of course by the Holy Spirit. "You" must take the initiative in this endeavor and God will be your strength.

God is the proponent of righteousness; Satan is the proponent of sin. "You" cannot serve two masters, according to Jesus.

"No servant can serve two masters; for either he will hate the one, and love the other, or else he will hold to one, and despise the other. You cannot serve God and Mammon. Lk. 16:13.

TEXAS TALK

Thickening the spread thins the profit. "Spread" is the farm-retail spread, i.e., the difference in what consumers pay and farmers receive for agricultural products. "Thickening" is the unusual increase the "spread" has gone through in the past year. In January of 1974, farmers received 46 cents of a market basket dollar... by December their share was down to 41... this year the figure could be less than 40. Growth of the "spread" is causing officials to launch specific investigations into agricultural marketing and distribution systems. Suggestions are being made to locate processing plants closer to the producer, to increase efficiency in food transportation, to locate major supermarkets in central-city areas and to take a second look at effects of labor unions. Success in shrinking the "spread" will work well for everyone. The producer will get a larger share of the money spent and the consumer will receive more product for his food dollar.
