

County Finally Gets Engineer In G. E. Bean

Lubbock Man Gets Vacancy Which Has Existed Since '51

Howard County Commissioners appointed a county engineer Monday afternoon to fill a vacancy which has existed since Aug. 1, 1951.

The new county engineer is George E. Bean of Lubbock, who had submitted formal application for the post several weeks ago.

MacArthur Can Talk At GOP Meet

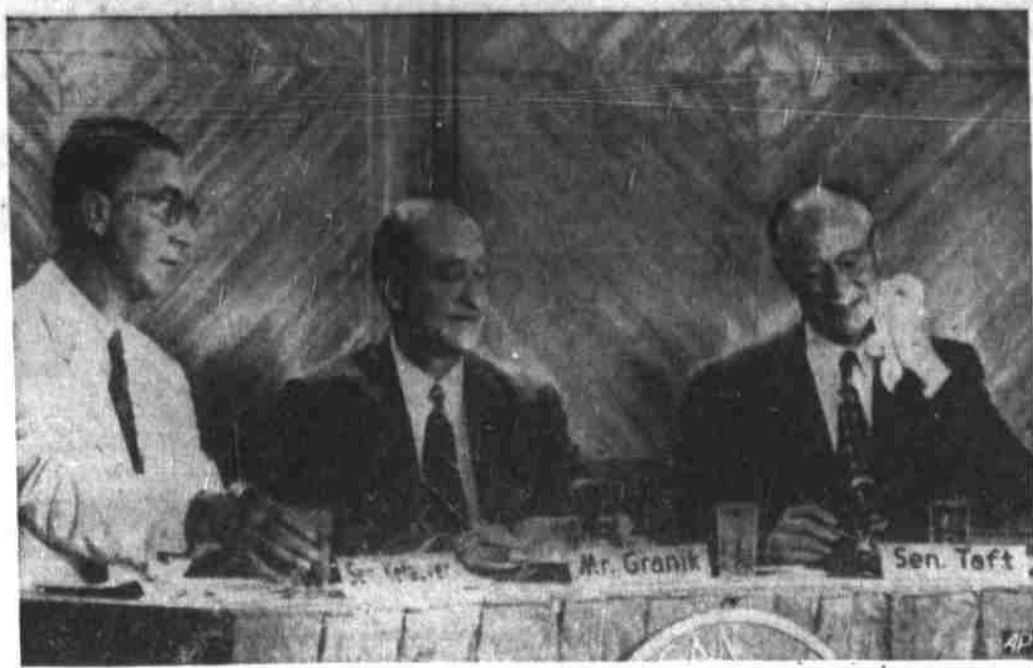

WASHINGTON, June 17 (AP)—The Army today ruled in effect that Gen. Douglas MacArthur is not subject to regulations banning political activity by members of the armed forces.

The Army didn't mention MacArthur by name, but it issued a statement discussing the status of five-star generals which made MacArthur's status clear.

Fierce Fights Rage Along Korea Front

By MILO FARNETI SEUL, Korea (AP)—Chinese Communists today shot off their big guns at probably the fastest clip of the Korean War.

THE WEATHER
BIG SPRING AND VICINITY: Clear to partly cloudy and continued warm this afternoon, tonight and Wednesday.

Taft and Kefauver Meet On TV Program

Senator Estes Kefauver (left) (D-Tenn) reaches for a glass of water and Senator Robert Taft (R-Ohio) (right) wipes his neck as they meet face to face on a radio-TV program "American Forum of the Air"

Jets Escort Swedish Planes, Told To Shoot If Reds Strike

By GUSTAV SVENSSON STOCKHOLM, Sweden (AP)—Infiltrated Sweden kept up her search over the Baltic Sea today for a missing transport plane and sent along jet fighter escorts with orders to shoot if the Russians attacked.

The traditionally neutral nation's stern action reflected the anger expressed by the government, press and people over the shooting down yesterday of an unarmed Swedish flying boat by two Soviet MIG-15 jet fighter planes.

The seven crew members—two of them wounded—of the downed plane were picked up from the sea by a small German freighter and taken to Hangoe, Finland.

UN Truce Talkers Stage A 'Walkout'

By GEORGE A. MCARTHUR NUNSMAN, Korea (AP)—United Nations truce negotiators walked out on the Communists again today as the senior Red delegate was talking. They said they wouldn't be back for three days.

U.N. fighter-bombers and tanks delivered answering fire. The Reds fired 18,500 artillery and mortar rounds at Allied positions along the 155-mile Korean Front Sunday night and Monday.

high Air Force officials. The seventh, who had been shot in the arm, remained in a Hangoe hospital.

THREE-DAY RECESS

UN Truce Talkers Stage A 'Walkout'

By GEORGE A. MCARTHUR NUNSMAN, Korea (AP)—United Nations truce negotiators walked out on the Communists again today as the senior Red delegate was talking.

Courthouse Bids To Be Open Today

Dozens of representatives of construction contractors were gathered this morning in preparation for opening of bids at 2 p.m. on a proposed new courthouse for Howard County.

Shrub Watering Schedule Receives Test Here Today

The city's new shrub watering schedule received its first test Tuesday. Residents of the area east of Settles Street were permitted to irrigate from 2 to 7 p.m. Wednesday.

Soviet Generals Reported Dead

MOSCOW (AP)—The Moscow press announced today the deaths of two major generals—Anisim Fyodorovich Kiselev, 51, and Nikolai Leporsky, 76. The latter had headed the faculty of hospital therapy at the Soviet Naval Academy since 1942.

Russians Offer To Return Ships Loaned By U.S.

Negotiations Over Other Debt Issues Remain Far Apart

By EDWARD E. BOMAR WASHINGTON (AP)—A surprise offer by the Russians to give back 186 American ships was regarded by State Department officials today as advancing negotiations for settling the Soviet Union's 11-billion-dollar World War II lend-lease account.

Moscow made the offer yesterday in an unexpected renewal of negotiations which have dragged on more than five years. The ships are among 670 turned over to the Soviets by this country during the war.

Plane Downed

The cross locates approximately area in eastern Baltic where an unarmed Swedish military plane was shot down by two Russian MIG fighters. The seven man crew of the plane was picked up at sea by a German merchant ship.

Sen. Brewster Defeated For Renomination

By W. C. LANGZETTEL PORTLAND, Me. (AP)—Owen Brewster, the Senate's fifth ranking Republican, was defeated yesterday for renomination by Gov. Frederick G. Payne by 3,000 votes in Maine's closest, most vicious primary in almost 30 years.

Urge Residents Attend Welcome Party For Airmen

Nearly 3,000 tickets have been turned over to Webb AFB personnel for admission to Big Spring's Welcome Airmen Party, to be held at 7 p.m. Friday in City Park.

Residence Damaged By Fire Early Today

Residence of A. F. Winn, at 1311 W. 2nd, was slightly damaged by a fire which destroyed a living room chair and radio early today.

Commission To Meet

City commissioners face a relatively light agenda for their weekly meeting today, City Manager H. W. Whitney reports. The commission meets at 5 p.m. at City Hall.

Ratifications Of Schuman Plan Are Now Completed

Stationary Cool Front Is Of Little Relief From Heat

Although a cool front has settled directly over the Big Spring area, citizens in the area can be expecting only a slight drop in temperature today.

### Boy Falls 1500 Feet And Lives

Ten-year-old Kenneth Wright of Compton, Calif., eats his first food after he fell 1500 feet down a mountain side near Lake Arrowhead, Calif. Kenneth's injuries were minor, said an attending physician. Barring complications he will leave the hospital in a matter of days. With him is his mother, Mrs. Kenneth Wright Sr. Hospital personnel said Kenneth "is a swell little fellow—hasn't whimpered once." (AP Wirephoto).

### Navy Jet Pilots Try To Recruit Needed Youth

CORPUS CHRISTI, June 17 (AP)—A team of acrobatic jet pilots, the Blue Angels, set out today to convince an apathetic younger generation that a Navy flier's life is one of glory.

Flying F9F-5 Panther jets, the re-born Angels previewed their precision acrobatics in formation yesterday for the press.

They streaked through slow rolls, Cuban eights and difficult reverse echelon rolls at more than 500 miles an hour.

"I think the entire appeal of aviation has undergone a change to the youth of the present day," said Rear Adm. W. E. Morehouse, commander of the Naval Air Station here.

"We don't have a waiting list and no one is begging for a chance to fly modern aircraft for the glory of it," he said. One of the Navy's answers is the Blue Angels.

First organized by Lt. Cmdr. R. M. (Butch) Voris, 32, of Santa Cruz, Calif., in 1946, the Blue Angels were disbanded in 1950 to fight in Korea.

Voris now has re-organized the famed Angels to attract potential pilots to naval aviation and to interest the younger aviators in the Navy in precision flying.

Most of the pilots in the outfit are old, experienced hands. Some of them are combat aces from World War II.

One is Lt. Cmdr. Ray Hawkins, 28, of Lufkin, who was credited with shooting down 14 Japanese planes during the war. He also sank the Japanese battleship Ise with a 1,000-pound bomb at the Kure Naval Base, Japan in 1945.

Other members of the Angel team are Lt. (jg) D. E. (Bud) Wood, 27, Columbia, O.; Lt. T. R. Jones III, 28, Savannah, Ga.; Lt. F. J. Murphy, 28, Brookfield, Ill., and Lt. (jg) Wallace (Buddy) Rich, 26, Santa Cruz, Calif.

Hawkins and Murphy are the only members who were with the Angels when they were disbanded in 1950.

All of them don't fly in each show. But all are trained to fill in where and when they are needed.

The Blue Angels have plans to

fly at several civic-sponsored air shows throughout the country this summer. They hope they can fulfill their important mission: To bring glory back into aviation for the youth of America.

### UN Flag Did Fly In Big Spring Saturday

At least one United Nations flag was on display in Big Spring Saturday, a date which doubled as U.N. and Flag Days.

Staff Sgt. Ross E. Howe, 300 N. E. 9th, a Webb Air Force Base airman, announced that his U.N. banner flew Saturday. He had

read an earlier report that no U.N. flags were visible here Saturday. Sgt. Howe formerly served as a military observer for the U.N. in Palestine and Syria. At present he is a member of the Refueling Section, Supply Squadron, WAFB.

### C-City Council OKs Phone Rate Increase

COLORADO CITY—In a called meeting, Monday night, Colorado City councilmen agreed to up phone rates—but not as much as requested by the telephone company.

The rate raise was a compromise, with the company asking for \$3.75, \$4.50 and \$9.00 for two party, one party and business telephones and getting \$3.75, \$4.25 and \$8.50. Present rates are \$2.25, \$2.75 and \$5.50 on the same services.

The rate raise lacks only confirmation by Southwestern Bell Telephone Company officials, and publication by the city council to become official. The council and

company expects that to be on July billings. In exchange for the rate increase, the telephone company promised to switch to dial within five years. The city bound itself to another increase when the conversion was complete.

The Southwestern Bell Company will build its own building before converting to the dial system. It now operates from a leased building on Second Street.

Pressed for a shorter time, E. J. Earnest, division manager said that the "nearest time we could expect on completion would be 1957."

"Is there a possibility that it could be completed sooner?" asked Leonard Henderson, Mayor. "Oh, there's a possibility both ways," said W. L. Blakeney, of Abilene.

Others representing the telephone company were, George Beard of Sweetwater, Truman Black of Snyder and A. C. Easter of Colorado City.

The council also opened bids to string water pipe under the highway 80 bridge. A bid of \$4,700 was submitted by H. S. Weaver, of Colorado City, and after considerable discussion, was accepted on a vote of three to two.

### Good Start For Govt. Borrowing

WASHINGTON (AP)—The government appeared off to a good start today, from a cash standpoint, on its biggest borrowing program since World War II as a program designed to help it meet defense-swollen expenses.

Proposing to sell on July 1 an issue of 3 1/2 billion dollars in six-year, 2 3/8 per cent marketable (re-salable) bonds, the Treasury opened subscription books yesterday morning, then sold out so quickly that it closed the books before midnight.

Indications were that banks and other investors snapped up the bonds with such gusto that their subscriptions exceeded the amount offered, making it necessary for the Treasury to ration the bonds among subscribers when the issue date arrives.

### Detroit Heat Strikes

DETROIT (AP)—Nearly 13,000 automobile plant workers were idled here yesterday by heat strikes.

The strikes, caused by a record-breaking 96 degree thermometer reading, idled 10,000 workers alone at the Hudson Motor Car Company. Others were out at Chrysler and Ford.

### Convicts End Strike After Warden Resigns

SANTA FE, N. M., June 17 (AP)—Warden Joseph Tondre of the New Mexico penitentiary resigned yesterday after convicts staged a six-hour sitdown strike and belabored his administration in a unique news conference.

He said he saw resentment growing among the prisoners and "I fully felt there would be trouble in there if I stayed on—that somebody might be hurt or killed or damage done to property."

"I resigned to prevent a possible tragedy."

The strike went on from about 9 a.m. (MST) until about 3 p.m., Tondre said. Part of it overlapped the news conference.

The announcement was made to the convicts in the prison yard by L. C. White, chairman of the prison board. The convicts then ended their strike.

Later, the resignation was announced publicly by Gov. Edwin Mechem, who said Tondre was replaced temporarily by Asst. Warden Morris Abram.

Tondre, Warden since Jan. 1, 1951, stated emphatically that no one asked him to resign.

Last week, the New Mexican, Santa Fe daily newspaper, demanded an investigation of prison conditions after guard Filemon J. Ortiz, 54, was slain by two convicts in a vain attempt to escape.

Tondre accused the newspaper of misquoting him in articles about prison conditions. Richard W. Everett, managing editor of the New Mexican, denied the accusation.

"The articles (in the New Mexican) started the whole thing going," Tondre said. "They were so unfair and unjust they built up this resentment among the convicts."

### Webb AFB Outfit Is Seeking Pool Table

The Food Service Squadron at Webb Air Base is seeking a pool table to complete its day room.

It would purchase one, if the price is not out of reason, and certainly would not turn it down if one were given or loaned to the organization.

Those who know of an available pool table can call Lt. W. R. Stewart, Extension 237, at the base.

Why be satisfied with less than Mercury's

# Style Leadership

\* BEATS ALL OTHERS IN FORERUNNER STYLING

Here's the big reason why this is the "hottest" car in our history. Mercury offers you something really new . . . in fact, everything new. And folks like you have been quick to recognize—and respond to—this fact. For this is no mere face-lift . . . no years-ago model with the chrome moved around. This car faces the future with fresh, buoyant styling that will stay in style—and protect your investment.

Standard equipment, accessories, and trim illustrated are subject to change without notice. White side-vent trim optional at extra cost.

# Proved Economy

\* BEATS ALL OTHERS IN ECONOMY RUN

You hear claims all around about economy. But who's the official champion, selected by the American Automobile Association in open competition? The record shows it's Mercury—twice the Sweepstakes champion against all comers in the Mobilgas Economy Run, three times champion in its class. Here's the car that has what you want that the others wish they had. Stop around soon for a no-obligation ride.

## Pulbic Should Beware Of Oil Promoter Offers

WASHINGTON, June 17 (AP)—The public should beware of promoters offering to help get oil and gas leases on government-owned lands in the west, Rep. Ken Regan (D-Tex.) said today.

As chairman of the House Interior Subcommittee which handles such matters, Regan said he has been deluged with inquiries from individuals throughout the country. The writers ask advice whether to put their savings into leases on the public domain.

A recent rash of advertising has offered the promoters' help to obtain 40-acre government leases at charges ranging from \$100 to \$200, Regan said in an interview. Yet the actual cost assessed by the government is only \$30.

In the oil business before coming to Congress, the Texas said the chances of people getting back their money under such indiscriminate investment was about one in 200,000.

"They'd have a lot more chance trying to get rich betting on horse races," he said, "and have a little fun a the same time."

The Interior Department is "taking steps to eliminate this get rich quick advertising" as soon as possible, Regan said. If it continues the House Interior Committee may conduct an investigation into the entire situation.

## Beckworth Predicts Victory In Drive To Gain Seat In Senate

By CLAYTON HICKERSON  
Associated Press Staff

Confident, youthful Lindley Beckworth—passing out his campaign handbills at midnight—predicted victory in his race for the United States Senate Tuesday and said his opposition was "becoming frantic."

Beckworth is opposed in the Senate race by Attorney General Price Daniel and E. W. Napier of Wichita Falls.

As the July primaries neared and the national conventions moved closer, politics was more and more the coffee cup topic of the moment across Texas.

This was the day the Republican National Committee was expected to decide how to handle the dispute over the 38-vote Texas delegation to the GOP convention.

While Governor Allan Shivers was making a speech praising Senator Marcell Neale of Carthage, his opponent for re-election accused the governor of "sitting idly by" while the GOP convention was held.

## Texas Tops Polio Cases Over Nation

HOUSTON, June 17 (AP)—William Lawrence McGinn said here yesterday that Texas has nearly one-third of all the polio cases in the country.

McGinn, chairman of the State Polio Planning Committee, spoke at a meeting of the southeastern conference of the committee.

big-time gambling flourished in Galveston.

Candidate-for-Governor Ralph W. Yarborough said in a speech at Plainview Monday:

"The governor had the same constitutional powers to use the Rangers to stop big-time syndicate gambling in 1950 that he has in 1952. Why did the present governor sit idly by in 1950 and permit a big-time Galveston gambling syndicate to take two and one-half million dollars in unlawful rackets? Why didn't he use the Rangers to stop it?"

"Since he had been a guest of members of the syndicate in Galveston on numerous occasions prior to 1950, he certainly must have known what was going on. Why did he drag his feet on law enforcement in Galveston until this campaign smoked him out?"

Beckworth was in Dallas early Tuesday before starting another five-day campaign trek through Central Texas with his blaring sound wagons and tireless speaking voice.

In his stepped-up campaign for the Senate, Daniel spoke yesterday at Livingston, Lufkin, Woodville,

five weeks. I have spoken 185 times. I personally have talked to thousands of people and there is plenty of evidence that the opposition is becoming frantic.

"Perhaps they recall my six victories in my six contested races for Congress and my first political victory at the age of 23."

Beckworth was to begin his week's speaking campaign Tuesday morning at Grandbury, speaking during the day at Glen Rose, Walnut Springs, Meridian, Hico, Dublin, Comanche, and tonight at Hamilton.

At Lufkin Monday afternoon, Daniel said the taxpayer was the forgotten man these days and deficit government financing was the chief cause of inflation.

"The way to stop inflation and high taxes," Daniel said, "is for Congress to stop spending more than is being taken in. This can be done by eliminating the waste, extravagance and corruption which now plagues the nation."

In his stepped-up campaign for the Senate, Daniel spoke yesterday at Livingston, Lufkin, Woodville,

Naogdoches, Center and Carthage.

Meanwhile, the tiff between Texas Republican forces backing General Dwight D. Eisenhower and Senator Robert A. Taft continued.

San Antonio GOP leader Marrs McLean charged Eisenhower with backing out on his support of the states in the tidelands issue.

The veteran GOP fund raiser cited the general's remark Sunday that he now understands that the Supreme Court has ruled in favor of the federal government in the tidelands fight "and I am one who obeys the Supreme Court."

In Houston, Jack Porter, the state campaign manager for the general, was unavailable for comment on the Eisenhower statement. But campaign aides said they saw nothing to indicate that Eisenhower has changed his basic view of favoring state ownership.

Joe S. Sheldon, an Eisenhower delegate to the national convention, said the general's comment did not preclude his favoring congressional quietism legislation to settle the state's title to the submerged lands.

Gubernatorial Candidate Yarborough, increasing the tempo of his campaign made a speech via radio in Lubbock Monday night, repeated his platform, and moved across West Texas Tuesday.

Yarborough scheduled speeches during the day at Brownfield, Lamesa, Big Spring, Stanton, Midland, Odessa and intermediate points.

Big Spring (Texas) Herald, Tues., June 17, 1952

## Lively Debate Is Seen At Church Meet In Calif.

CLAREMONT, Calif. (AP)—Two major controversial matters are expected to stir up lively debate during the biennial Conference of the General Council of the Congregational Christian Churches, which opens here tomorrow.

Major interest will be focused upon a proposed merger of the Congregationalists with the Evangelical and Reformed Church. The other debate will concern the Council for Social Action of the denomination.

Lay and clerical opponents to the council charge that the social action group is too leftist. They

matter up a Saturday afternoon's session.

Although the merger question is expected to produce a lively Thursday morning session, any action taken at Claremont will not be binding upon the Congregationalist Church. The 1,500 lay and clerical delegates hope, however, to write a constitution that will prove acceptable to all sides in the merger dispute.

## AT DENVER

## Three Delegations Meet With General

By EDWARD O. ETHELL

DENVER (AP)—Gen. Dwight D. Eisenhower begins this afternoon his attempt to woo additional GOP National Convention votes from Western states.

Of three delegations invited to confer with him, one strongly favors him, one is split and one is committed to vote solidly for Sen Robert A. Taft of Ohio on the first ballot at Chicago.

The general first will meet the Colorado delegation, which is safely in his camp. It is scheduled to confer with him from 4 to 5 p.m. Eastern Standard Time. Utah will follow for an hour's conference and then Wyoming.

The Utah delegation is the one pledged to Taft. But State Chairman A. Pratt Kesler said last night at Salt Lake City that 33 Utah Republicans will accept the general's invitation. Among them, Kesler said, will be a majority of the 14 delegates and 14 alternates.

Of Colorado's 18 delegates, 15 have pledged support to Eisenhower, one to Stassen first and Eisenhower second, and two to Taft.

Wyoming is divided. An Associated Press survey showed six of the state's dozen delegates for Taft, two for Eisenhower and four uncommitted.

Earl Hanway, publisher of the Casper Tribune and one of the un-

committed Wyoming delegates, reported that more than half the delegates were planning to attend the conference.

Tomorrow, Oregon and Arizona Republican leaders have been invited to talk with Eisenhower.

No such visits are scheduled Thursday but Friday groups from Montana, Washington and Idaho are slated for appearances at Ike's hotel headquarters.

Eisenhower took his first day of rest yesterday since returning to the United States. But it was a day that would tax the average person's strength.

He appeared at a breakfast of farm journal editors, held a few staff conferences, played a round of golf at the tough Cherry Hills Country Club course, where he scored an 89 over a par-72 layout, attended a private dinner there given for him and a few friends and newsmen by Colorado Gov. Dan Thornton, and dropped in later on a local meeting of Sigma Delta Chi, professional journalism fraternity.

In a brief talk at the Sigma Delta Chi meeting, he said there is no more reason to fear the Russians "than there is to fear polywogs swimming down a muddy creek."

There is a lot of "scary talk about Russia," he said, "but I do not believe every Russian is 14 feet high."

The American people, working together, can conquer all the problems that face the nation, the general said.

"If we are deserving of the heritage of freedom, there is no more reason to fear 190 million backward people, living on the Eurasian continent, surrounded by captive and recalcitrant states, than there is to fear polywogs swimming down a muddy creek," he said.

In his earlier off-the-cuff address to the American Agriculture Editors Association he voiced tentative approval to a Midwestern Republican farm proposal calling for federal crop supports without controls on prices or production.

He said the plan, originating in Iowa and backed by GOP farm leaders from 10 Midwestern states, looked good. But he said he wanted to discuss it further with farm experts.

## Jump To Avoid Snake Only Brings On Broken Ankle

COLORADO CITY, After an encounter with a snake, L. C. Bryant, 50, of Ira, was admitted to the Root Memorial Hospital in Colorado City—suffering from a broken ankle.

Bryant, who lives one mile northwest of Ira, was doing the evening chores, with Bozo, the family hound alongside. As Bryant rounded the chickenhouse, Bozo loomed up, in the dusk, in hot pursuit of a large snake. With the snake almost under his feet, Bryant leaped into the air, came down twisting his foot.

"I'm not very scared of snakes," said Bryant, "but this one surprised me."

The accident occurred June 7, but first X-rays did not show the break, and Bryant has been hobbling around the farm without a cast. Pain increased until Bryant checked with doctors again and was advised that a few days in bed and a few weeks in a cast would fix things up.

## Eagles Club To Meet In Business Session

Fraternal Order of Eagles will meet in a business session at 8 p.m. today in the Eagles Lodge, 709 West Third.

In urging a good attendance tonight, President Paul Jacoby announced that membership team points will be tallied at the meeting.

Also, a delegation will be named to attend a district meeting to be held in Midland Sunday, at which time installation rites will be observed.

# US Welcomes Opportunity To Answer Charges

UNITED NATIONS, N.Y. (AP)—The United States says it welcomes an opportunity in the Security Council tomorrow to show up the "falsehoods" and "propaganda" in Russia's continued charges that the U.S. and the U.N. are waging germ warfare in Korea.

The American position was made clear in a short but sharp statement issued last night by Ernest A. Gross, acting head of the U.S. delegation, after Russia's Jacob A. Malik called the Security Council to meet for a round on germ warfare.

Malik's call for the meeting — he heads the council this month — actually did not mention the previous Russian charges. It asked the council to appeal to all countries, in or out of the U.N., to ratify the June 17, 1952, Geneva protocol prohibiting bacteriological warfare.

"The obvious purpose," said Gross' statement, "is to continue in a new forum the campaign of lies which charge the U.N. is employing bacteriological warfare in Korea. The Soviet leaders are trying to exploit whatever propaganda remains in these false charges. They will merely succeed in turning on themselves the spotlight of truth. We welcome the opportunity to show up again the Soviet falsehoods."

Other Western delegates with forces fighting in the Korean War endorsed the American statement.

## Chinese Make Press

HONG KONG (AP)—The English language Shanghai Daily News says a Chinese-made rotary printing press has been completed in the Red-controlled city, "eliminating the dependence of the domestic printing industry on foreign presses."

# Riding THE GRUB LINE With Franklin Reynolds

A Howard County dairyman reports that he and other producers have, in effect, been cut 35 cents per hundredweight on the price paid for four per cent milk.

For the first time since the 1930's, he says, Big Spring is without a processing plant, and that this 35 cents represents a charge being made against the producer by this particular plant, for hauling the milk to their processing plant in Midland. The processing plant here was recently closed down, and employees of the plant here said they were not in a position to either confirm or deny the dairyman's statement.

Howard County producers have been receiving \$7.22 per hundredweight. When the hauling charge is deducted they will receive \$6.87 which is approximately 19 cents more than is being paid for milk produced in the Dallas area. Howard County dairymen estimate that it costs them at least 70 cents more to produce 100 pounds of four per cent milk than it costs Dallas area producers, and that they are therefore netting approximately 49 cents less per hundredweight.

Because of the drought and the consequent lack of grass, West Texas dairymen say their milk-producing cost is the highest in the United States and higher than it ever has been here.

Several Howard County producers have indicated that a concerted effort will be made to have some company establish a processing plant in Big Spring. They say the future of their business, in view of the scarcity and high price of feed, is the most uncertain they have ever seen.

In commenting on the story on the Bollinger farm that appeared in the Herald Sunday, Mr. W. H. Cardwell, who owned that place from 1914 until 1942, explains that he put in the one mile of drainage tile through the sub-irrigated land,

and that he gave it a drop of five feet over the mile.

"We worked in knee-deep water getting that tile in," Mr. Cardwell said.

Large numbers of Howard County and other West Texas cattle have been shipped to the Blue Stem pastures of the Kansas Flint Hills and the Osage pastures of Oklahoma.

Reports over the week end say the cattle in both places are generally in very good condition and are making good gains, but the pastures are filled.

Kansas pasture conditions are described as very good. May rainfall was somewhat below normal, but abundant earlier rainfall gave ample moisture. The grass growth was late, but it developed rapidly in May and is of better quality than last year.

Reports from Oklahoma say grass growth started a little late but that it has made an excellent growth with adequate soil moisture. All water tanks and ponds are full.

In both Kansas and Oklahoma the pastures were fairly well stocked by shipments late last fall and during the winter. In both states there is an unusually large proportion of cows, calves and young cattle.

Roy Lockhart says he has put one over on the boys. Having worked cattle up and down the Colorado River from Colorado City to the headwaters for 50 years, and having always been a fisherman, he has slipped up to the site of the new dam and he says he has grabbed off the best fishing spot there for a camp. It is on the ranch of his old friend, Ed Murphy.

Mr. Lockhart says that if anybody else is interested in getting a good camp site he will be glad to give them the benefit of his experience with the river. He anticipates

it will be some time before he pulls the first fish out, however.

Many farmers, ranchers, cowboys, conservationists and other outdoor workers with whom the Grub Line Rider has talked agree that it is noticeable there are apparently fewer jackrabbits, prairie dogs, snakes, coyotes, quail and other wild life to be seen these days, a situation that can probably be charged up to the drought.

Farmers and ranchers can do a whole lot for the preservation of the quail, which are going to be hit mighty hard by this drought. If they will scatter some feed just as if this was a hard, snowed-over winter. If this feed is placed in the best cover available near tanks the quail will find it.

Those who have the time, and want to save the quail on their places, might even go so far as to put out some big pans of water, with feed, in cover not too far from the house.

1917 was tough on quail and there were far more quail then. 1952 may be much tougher. Conservation practices should include the quail as well as soil and water.

Several voters at the political rally at Lomax remarked that a candidate certainly could make a hit if he would pass out cigars to go with the matches that seem to be so plentiful.

It looks like Elton Gilliland and Gil Jones are trying to burn each other up. Both are putting out matches.

## TEXAS BRANDS

By JOHN M. HENDRIX  
T. D. Hobart originated the M Bar brand in Hemphill County in 1898. Mr. Hobart was a real Texas pioneer and did surveying work for early Texas railroads and land companies in the Panhandle. Hobart was also in charge of the JA ranch for a number of years, or until the present owner and manager, Monty Ritchie, assumed charge. A son, Fred Hobart, owns and manages the Hobart properties at this time and now makes his home at Pampa, Texas.

## Hopping Will Battle 'Navy Brass Hats'

SAN FRANCISCO (AP)—Wealthy Seaman Bruce Hopping, 30, awaiting a bad conduct discharge from the Navy, says he will continue to battle "the domineering Navy brass hats" when he becomes a civilian again. He says he wants to "work toward improving so-called Navy justice."

Hopping, vice president of a lumber company in Port Newark, N.J., is scheduled for discharge in a few days.

# Alabama Opens Drive Against Careless Drivers On Highways

By REX THOMAS  
MONTGOMERY, Ala. (AP)—A grim two-week siege of highway slaughter has touched off an unprecedented campaign against careless drivers in Alabama.

Even Gov. Gordon Persons, in his siren-equipped limousine, is patrolling the roads to see that officers carry out his orders to arrest all traffic law violators.

Accompanied by a state highway patrolman, Persons traveled through 14 counties Saturday and Sunday warning bad drivers, congratulating careful motorists.

The carnage started with the Memorial Day holidays and continued almost without letup until 39 persons were dead in 12 days.

To give the highway patrol more striking power, the governor has added 50 men to the 265 already in

uniform. In addition he has directed 125 liquor enforcement agents and Public Service Commission inspectors to make arrests on the highway.

Later, if it can be worked out, he plans also to deputize 120 game wardens and forestry patrolmen as road watchers.

On the highway patrol, Persons has broken up the familiar two-man teams and ordered the officers reassigned one man to a car. He figures that alone will put about 130 more cruisers on the highways. Fifty patrolmen will go back to riding motorcycles.

The governor has singled out speeders as the No. 1 hazard.

With that in mind, the highway patrol arrested 557 drivers for speeding in two days this past week end.

Persons put a speed limit into

effect on most Alabama highway seven months ago by executive order, pegging the lawful rate of travel at 60 miles an hour in the daytime and 50 at night. He has promised to cut it even lower if "these highway murders" continue.

# TEXAS ELECTRIC SERVICE COMPANY

R. L. BEALE, Manager

Phone 1144

Telephone work is a family affair for the Kincys of Dallas. D. W. Kincy (center) started it when he went to work for the telephone company back in 1898. Now retired, Mr. Kincy has seen two sons follow in his footsteps—Harrell (right), with 20 years of service, and Dan (left), 9 years with the company.

## ONE FAMILY—five telephone careers

A THIRD GENERATION OF KINCYS is now making a career in the telephone business. Dan's sons, Dan, Jr., (left) and Richard (right), heard so much at home about the advantages and opportunities in telephone work that they applied for jobs as soon as they were old enough. Both are telephone installers, and, at present, are on leave from their jobs, serving in the Army.

FUTURE "VOICES WITH A SMILE"? There's good reason to believe the number of Kincy telephone careers will grow. Harrell Kincy's daughters, 13-year-old Sandra (left) and 9-year-old Karen (right), expect to follow the Kincy family tradition as operators. Collectively, the Kincys look back with satisfaction on 80 years of telephone work—and look ahead to many more.

WHY HAS GENERATION AFTER GENERATION of Texas families like the Kincys chosen life-long careers in the telephone business? To begin with, it's important and interesting work — this job of supplying the world's best telephone service. It is an up-from-the-ranks business with good pay and plenty of opportunity for ambitious men and women to get ahead—the kind of career telephone people urge their children to carry on.

FOR FASTER LONG DISTANCE SERVICE ... CALL BY NUMBER

**BUSINESS INCREASES HERE**

**Retail Merchants Group Does Fine Job Of Aiding Citizens**

By DON HENRY  
Aiding a Big Spring citizen secure a courtesy card, okaying a newcomer's credit rating, informing merchants of a hot check operator, and helping newlyweds obtain a credit account are all in the day's work for employees of the Big Spring Retail Merchants office.

six full-time employees of the office are part of an international system to serve the merchants and citizens of their communities. The office's prime job is to keep the local merchants in their membership posted on credit ratings of citizens of Big Spring and the surrounding area and secure for them the information on persons outside of the area.

**Only Two Fields Out Of 60 Hurt By Weed Killing Chemical**

VICTORIA, June 17.—Only two of 60 cotton fields in Victoria and Jackson Counties appear to have been damaged by a weed killing chemical, an inspector said yesterday. Damage was believed at first to have been heavy in the area. O. C. Haworth, State Department of Agriculture Inspector, surveyed about 4,000 acres. He reported that only two fields are likely to suffer. A wind shift blew the herbicide 2,4-D over the fields as it was being used to kill brush several miles to the north. Haworth will return in 30 days for a recheck.

Big Spring Retail Merchants Association is a member of the state and also national organization. From the member-offices across the state, nation, and even some foreign countries, the local office can ask for and receive information on anyone they wish. Since the opening of Webb Air Force Base, they have had a tremendous amount of business and several of their recommendations on airmen and their wives have been from Alaska—part of the international system. The local office serves as headquarters for information on citizens of Forsan, Stanton, Knott, Ackerly, Garden City, Vincent and Coahoma in addition to Big Spring. The office, located in the Petroleum Building, has information cards on over 80,000 persons in its files and the number is growing by approximately 200 each month. Listed on the cards are information on the individual concerning accounts, former residences, age, job, and every past account the individual has carried. Cards are in the files on some

persons for over 25 years. Persons without a credit rating, especially young married couples, find it convenient to secure credit recommendations from the Retail Merchants office. Age, job, dependability of the individual's parents play a big part in the person securing the credit rating.

Monthly, the office sends bulletins to member merchants giving names and addresses of newcomers, names of persons leaving Big Spring, and any regulation changes pertaining to the merchants. Should any merchant notify the office of a hot check received, the office immediately calls its members, informing them of the identity of the giver and information concerning him. In one instance, Odessa police called, reporting a hot-check operator had left Odessa and they believed he was coming to Big Spring.

Their hunch proved right, because the Retail Merchants office here called its members and the man was caught in a local store less than 30 minutes after the call from Odessa had been received. In addition to giving information to local merchants, they frequently have requests from other citizens on local persons. Out-of-state requests are also received. Thus the office serves as a mediator between the local merchants and citizens and also as information bureau for out-of-town stores and Retail Merchants offices.

**Beauty**

Marcia Crane smiles happily after being chosen "Miss Florida" at St. Petersburg. She is a daughter of Roy Crane who draws the Buz Sawyer comic strip for The Herald. Marcia, who weighs 113 pounds and measures 5-foot 3-inches, will be Florida's standard-bearer at the "Miss America" contest in Atlantic City, N. J. She plans a musical career.

**Andrew Jones Is Coordinator For Radio Group**

A clerical error by the American Radio Relay League resulted here in confusion about an emergency coordinator for the Big Spring Radio Hams.

The league Monday advised that Andrew Jones, WSAQ, holds the post in which he has served for some time. A previous announcement of the appointment of Mel Boatman WSAWT to the task evidently resulted from a transposition of names in news releases.

About the same time as the original story was released, Boatman received word of his membership in the Century Club. This is a group made up of amateur radio operators who have had two way contact with those in at least 100 countries of the world. He was the 156th operator to achieve this distinction.

Jones, meanwhile, was re-appointed as emergency coordinator according to Communications Manager F. E. Hardy. His job is to perfect assignments for emergency radio communication by hams in case of natural disaster. This includes setting up procedures, spotting equipment and holding drills. Several of these have been held here by the local chapter over the years.

Part of the mix-up occurred in the regional office when certificates of the two men were mixed and each was named to the other's post by mistake.

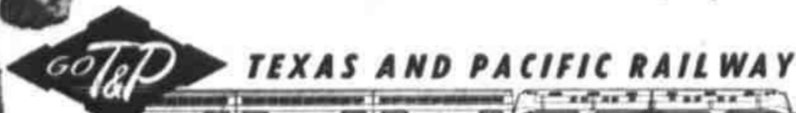

There are 165 daily newspapers in Great Britain.

HOW YOU CAN MAKE AMERICA STRONG — VI

**WANTED: ABLE AMERICANS FOR FULL-TIME JOB**

We're in trouble. We haven't yet won the peace. We're fighting a war that may get a lot bigger, fast. If there ever was a time when we needed real men and women in this country, it's now. Vigorous, clear-thinking God-fearing men and women, to roll up their sleeves and get us out of the trouble we're in. We don't need super-citizens. You... and your neighbors... can do the job. Words won't do it. Acts will. Work and prayer will. Thrift and the ballot will. Work, vote, save, pray! Here's something all of us can do—in or out of uniform—to make our nation strong again. We must work and pray harder than we ever have. Vote and save more. And we must start now. Sure, we've been through all this before. You're right, this is where we came in. Let's make sure though, that it's not where we go out.

Yours is the power to make us strong spiritually, morally, politically and economically. Write today for a copy of the article, "The Four Pillars of Freedom—Work, Save, Vote and Pray." Mail your request to: J. B. Shores, Public Relations Department, Texas and Pacific Railway, Dallas, Texas. No charge, of course!

# Circles Elect Officers And Conduct Studies

New officers were elected Monday afternoon at the meeting of the Future Homemakers of America at the home of Mrs. Marie Stewart, 1108 Wood.

They are Mrs. Stewart, chairman; Mrs. Winston Kilpatrick, co-chairman; Mrs. Jake Bishop, secretary; Mrs. Albert Smith, treasurer; Mrs. M. A. Cook, spiritual life leader; Mrs. H. G. Keaton, mission study leader; Mrs. Clyde Denton, general fellowship chairman; Mrs. H. H. Stephens, assistant general fellowship chairman; Mrs. Don Newsum, literature and publications; Mrs. A. C. Bass, status of women; and Mrs. Orval Strong, membership and visitation.

During a short business session over which Mrs. Stewart presided pledges were made to take care of local funds.

Mrs. Don Newsum and Mrs. Orion W. Carter were welcomed as new members.

Mrs. Bishop gave the devotional from the 23rd verse of the fourth chapter of Proverbs. Mrs. Smith discussed "Christian Ministry in Defense Areas" from the "World Outlook."

The next meeting on the second Monday in July will be held in the home of Mrs. A. C. Bass, 605 Main.

## Lunch Time Special For Summer Day

Mrs. E. B. Sulek was in charge of the music when the Reba Thomas Circle of First Methodist WSCS met Monday evening in her home.

Mrs. Charles Pruitt led the devotional on "Keep Thy Heart With All Diligence," and Mrs. Alsie H. Carleton directed the study on "How Our Bible Grew Up." Mrs. Pruitt gave a short biography of William Tyndale, and Mrs. W. S. Goodlett presided over a short business session, followed by a social period.

Refreshments were served to 10 members and three guests, Mrs. C. L. Smith, Mrs. Marie Lane and Mrs. O. W. Sparks.

New officers were elected Monday afternoon at the meeting of the Mary Zinn Circle of First Methodist WSCS in the home of Mrs. Jeff Walker, 1108 Donley.

They are Mrs. Walker, chairman; Mrs. A. D. Franklin, vice chairman; Mrs. Herbert Johnson, secretary and reporter; Mrs. B. Lamun, treasurer; Mrs. W. A. Laswell, spiritual life chairman; Mrs. Knox Chadd, status of women of Christian social relations; Mrs. Hugh Duncan, missionary education; Mrs. Frank Wilson, finance; Mrs. H. F. Taylor, literature and publications.

Mrs. Duncan gave the devotional of "Fruits of the Spirit—Diligence."

Refreshments were served to 11 members.

## Rawls Leave For Home In Kentucky

Mr. and Mrs. M. A. Rawls left Monday to make their home in Coahuila, Ky.

The bride is the former Mrs. Brownie Dunning, 206 E. 16th. The ceremony was performed in Lovington, N. M., June 6, in the study of the Rev. Watts, pastor of the First Baptist Church.

The bride wore a teal blue shantung dress with ecru lace trim and black accessories.

Mrs. Dunning has been associated here with the Southern Ice Co. for the past 33 years as office manager and bookkeeper. She is a member of the First Baptist Church and a past matron of the Eastern Star.

Her husband is a postal employee in Cerulean.

Members of the Past Matrons' Club entertained Mrs. Rawls with a surprise party in her home Saturday. A farewell gift was presented.

### MENU FOR TOMORROW

GUESTS FOR LUNCH  
Curried Chicken and Peas\*  
Chutney  
Steamed Rice  
Asparagus Salad  
Pineapple Sherbet  
Cake Squares  
Bread and Butter Beverage

Recipe for Starred Dish Follows:  
**CURRIED CHICKEN AND PEAS**  
Ingredients: 3 tablespoons butter or margarine, 3 tablespoons flour, 2 teaspoons curry powder, 1/2 teaspoon sugar, 2 cups chicken broth, 2 tablespoons tomato paste, salt (to taste), 2 cups diced chicken (well-packed and cut medium-fine) 2-3 to 1 cup cooked drained peas.  
Method: Melt butter in heavy saucepan over low heat; add flour, curry powder, and sugar; stir until blended. Remove from heat. Add chicken broth gradually, stirring until smooth after each addition; stir in tomato paste and salt. Cook and stir constantly over moderately low heat until thickened and bubbly; cook gently, stirring often, until sauce thickens a little more—5 to 10 minutes. Add chicken and peas and reheat. Makes 4 servings.

### Easy To Make!

Daughter's bloomeders play suit can be pretty as well as practical—Witness this version with double ruffle row! A sewing time-saver for checked or printed cotton—or feed bag fabric.

No. 2440 is cut in sizes 2, 4, 6, 8, Size 4, 2 1/2 yds. 35-in. Any of its sizes cuts from 2 100-lb. feed bags.

Send 30 cents for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU Big Spring Herald, Box 42, Old Chelsea Station, New York 11, N. Y.

## SS Class Meets In Richardson Home

Members of the TEL Class of the First Baptist Church met with Mrs. R. Richardson Monday evening for the monthly social and business meeting.

Mrs. W. E. Mann, class teacher, presided during the session.

Mrs. R. D. Ulrey offered prayer. Refreshments were served to 10.

## DESIGNING WOMAN Cover Drawer Fronts With Fabric For Custom Look

By ELIZABETH HILLIER

It's easier to change pattern and color when other fabrics are changed in the room. Cut cotton padding the size of drawer fronts and use un-quilted fabric over it that is cut enough larger to turn back over the drawer front edges. Miter the corners for a neat fit and tack edges down. Remove a little of the filling from the edges of quilted drawer front pieces so they will be less thick at the back of the drawers front, and miter and tack in the same way. Pulls must of course be removed before the drawers are covered and replaced as the final touch.

## WSCS Installs Officers At Services In Church

GARDEN CITY. (Sp) — Immediately following the worship services Sunday evening new officers of the Methodist WSCS were installed.

The Rev. J. P. Boswell was in charge.

Mrs. Tom Ashbill was installed as president and other officers include Mrs. W. K. Scudday, vice president; Mrs. D. W. Parker, secretary-treasurer; Mrs. Joy Wilkerson, secretary of youth work; Mrs. Max Fitzhugh, secretary of social relations and church activities.

Mrs. Edward Barfield left Friday for Ft. Hood, where her husband has been for the past two weeks with the National Guard Unit from Big Spring. En route to Garden City the couple spent the week end in Abilene with his parents.

Mrs. Robert Lawson is in Midland Memorial Hospital following surgery Saturday morning.

Mrs. and Mrs. Bill Stephens and their children and Mrs. George Stephens and children were in San Angelo Saturday afternoon to attend a barbecue given by the State Highway Department for their employees.

Mrs. Cal Pruett was in Midland Friday to see her grandson, Don Cox, who had been injured while playing baseball. Don is the son of Mr. and Mrs. Felix Cox of Midland.

## Mrs. Read Fetes Club; Presbyterian Women Meet

COAHOMA. (Sp) — The 1941 Study Club of Coahoma met recently in the home of Mrs. Norman Read in Big Spring for a tea, book review and installation of officers.

Mrs. Harwood Keith of Big Spring, president of District 8, was the installing officer.

Mrs. Melvin Tindol was installed as president, Mrs. Charles Read, vice president; and Mrs. Sam Armstrong, secretary-treasurer.

Mrs. Willard Hendrick reviewed the book, "Brand New Parson."

Guests were Mrs. Robert Stripling, Mrs. Willard Read, Mrs. Hendrick, Mrs. Hubert Stipp and Mrs. Keith, all of Big Spring. Twelve members also attended.

The club has disbanded until September.

Mrs. Hezzie Read was in charge of the program on "The Life of John Calvin" when the Women of the Presbyterian Church met recently in the home of Mrs. C. H. DeVaney.

Mrs. L. H. Stamps gave the devotional and Mrs. Charles Read, the opening prayer.

Others on the program were Mrs. H. T. Hale, Mrs. H. Noble Read, Mrs. Cora Echols, Mrs. Leroy Echols, and Mrs. Virginia Kidd.

The Summer Young People's Club met in the home of Mr. and Mrs. C. H. DeVaney recently for a picnic supper and outing.

Contests and games furnished the entertainment. Twenty-one attended.

Mr. and Mrs. Jim Loveless of Spade visited recently in the home of their children, Mr. and Mrs. Frank Loveless.

Mr. and Mrs. H. T. Hale and Rosalie DeVaney visited in Ballinger Friday in the home of Dr. Frank Hale.

Mrs. Bessie Williams of Nashville, Tenn. and Mrs. W. A. Miller of Big Spring were visitors in the home of Mr. and Mrs. J. D. Miller recently.

Mr. and Mrs. Truett DeVaney.

## Browns Entertain Double Six Club

Mr. and Mrs. John E. Brown were hosts Monday evening to members of the Double Six 42 Club at their home, 702 Luisa Rd.

Mrs. Charles Neefe and Raymond Frazier won high score, and Mrs. M. L. Kirby and John E. Brown were low.

Refreshments were served to 10 members and two guests, Mr. and Mrs. Frazier. The next meeting will be July 2 at 702 Luisa Rd., with Mr. and Mrs. Floyd Smart as hosts.

## King's Band Plays For Circle Eight

Lucien Jones and Wayne Johnston were masters of ceremonies when the Circle Eight Square Dance Club met Saturday night at the YMCA.

Jim King and his Cosden Playboys furnished music for the six square dance sets attending.

Callers were Garner McAdams, Oscar Nabors, Bill Cook, Easy Millam, Jimmy Feltz, C. A. Smauley, Charlie Blalock, Mrs. Ida Manuel and Mrs. Bill Still.

Three couples were welcomed as new members. They are Mr. and Mrs. A. Evans, Mr. and Mrs. Don Conway and Mr. and Mrs. Ennis Cochran.

Guests included Mr. and Mrs. R. B. Piper of Odessa, Mr. and Mrs. Winston Manuel, Mr. and Mrs. Bill Still, Mr. and Mrs. W. G. Johnson, Tullie Hayes, Bill Curtright, Mrs. Warren Skaggs and Charlie Blalock all of Midland.

Capt. and Mrs. Charles Maddock of Big Spring and Dewey Durrett of West Virginia.

The next hosts will be Mr. and Mrs. Easy Millam and Mr. and Mrs. Toby Keaton.

Visitors are welcome.

## Fruit Designs

Big red and yellow apples, red strawberries with green leaves are combined to make a beautiful design in three-colored, permanent dye transfers which will require no embroidery whatsoever. Just iron the fruits off onto your materials and the job is completed! There are 16 motifs in pattern; four 4-inch size, eight 1 1/2 inches, four of 3 inches—enough to pretty up some gift aprons, towels, a dinette cloth or curtains. You'll like them for quick gift making!

Send 25 cents for the APPLE and STRAWBERRY Color Transfers (Pattern No. 437 complete transfer and laundering instructions. PATTERN NUMBER to CAROL CURTIS, Big Spring Herald, Box 229, Madison Square Station New York 10, N. Y.)

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

Mr. and Mrs. Elliott Yell and Dolores and Mr. and Mrs. Tootie Witt; Helen and Juanita spent the week end in Corpus Christi attending the Motorcycle Gypsy Tour.

## Reception Will Fete Orion Carters

Big Spring District Methodist Ministers' Wives Association will honor Dr. and Mrs. Orion W. Carter at a reception Tuesday from 4 until 5:30 p.m. at the home of the Rev. and Mrs. Alsie H. Carleton, 101 Washington Blvd.

Dr. Carter is the superintendent of the newly-created Big Spring District.

All members of the congregation within the district are being invited to attend.

## Executive Meeting Set For Thursday

It was announced today that the executive committee of the United Council of Church Women will meet Thursday at 12 noon for a covered dish luncheon in the home of Mrs. John Hodges, 800 W. 18th.

Members of the committee and the presidents of all auxiliaries are being urged to attend.

## Community Projects Are Undertaken By Students

Members of the local chapter of the Future Homemakers of America have undertaken several community projects recently.

The girls have baked cakes and presented them to the patients of the VA and State Hospitals. They have entertained a group of needy children and given them dresses made by the students.

Several homemakers have also assisted in the Vacation Bible Schools of local churches.

Participating in the activities are Della Reynolds, Nell Glover, Arlene Mitchell, Mary Della Garcia, Mary Jo Cochran, Viola Chandler, Patricia Graham, Joan McKenney, Mary Ellen Hayes, Janice Anderson, Joyce Anderson, Mary Lois Jernigan, Lou Curry, Barbara Elmore.

Lila Turner, Janice Nalley, Barbara Davidson, Pat Tidwell, Rhama Laitson, Ann Gray, Mary Ella Bigony, Nancy Smith, Juanes Rogers, Frances Bailey, Jann Bailey, Betty Early, Sonya Washington, Luas Brooks, Joan Lambert, Jo Ann Baker, Gay Nell Lane, Juanita Witt, Claudette Harper, Beatrice Yarber and Charlene Wasson.

According to the sponsors of the group, Mrs. Nancy Annen and Edna McGregor, a machine clinic will be held the last week in June.

## Mrs. Travis Davis Honored; Demonstration Party Given

KNOTT (Sp) — Mrs. Travis Lee Davis, the former Joyce Thornton, was honored with a bridal shower in the home of Mrs. W. A. Burchill recently.

Co-hostesses were Mrs. W. A. Jackson, Mrs. C. A. Nichols, Mrs. Lois Harrell, Mrs. J. B. Shockley and Mrs. L. V. Misk.

The refreshment table was laid with an ecru lace cloth and centered with a bouquet of summer flowers and a miniature bride and groom on a reflector. Plate favors were multicolored mints.

Arrangements of white flowers and ivy were used throughout the entertaining rooms.

The bride was assisted in opening and displaying gifts by her mother, Mrs. W. B. Thornton Sr., and the bridegroom's mother, Mrs. Doyle Davis.

Jerry Nichols presided at the guest book in which 110 registered.

Ila Herren and Mrs. J. W. Motley were co-hostesses at a demonstration party held recently in the home of Mrs. Alice Herren.

Mrs. Stella Cornell of Big Spring gave the demonstration and directed the game.

Attending were Mrs. Tom Castle, Mrs. T. D. Peacock, Mrs. Henry Sample, Joan Marie Castle of Houston, Mrs. Edgar Aihart, Mrs. Alaine Haddock, Bertha Simms, Mrs. Millard Shortes and Mrs. Herschel Smith.

Mr. and Mrs. T. J. Castle are in Dallas this week, where he is making recordings.

Joan Marie Castle of Houston is visiting Mr. and Mrs. Tom Castle.

Mrs. Rosa Hester of Lamesa is visiting her sister, Mrs. Luella Motney.

Mrs. A. M. Hoots of Winters is visiting her daughter, Mrs. Willard Rogers, and family.

John Webb Jr., Elmer Webb, Mr. and Mrs. Lee Hanson, Ann and Anthony all of Flower Grove visited recently with Mr. and Mrs. Willard Rogers.

## Potato Prices In Most Stores Of City Down

Big Spring retail grocers apparently patronize different wholesalers because a survey of stores revealed that prices of potatoes have both increased and decreased here since the government released the price control on the item June 5.

But according to a majority of the merchants contacted, the price of potatoes has gone down since the June 5 change. The ratio was five to three, leaning toward the drop in prices.

But, whether the merchants noted an increase or decrease in the price, all commented the quantity had increased. One manager added they are able to put potatoes back in their bins again while they kept them under the counter during the shortage.

While the conditions in the potato problem have gone in both directions, the prices on summer commodities — cantaloupe, watermelons, etc. — have dropped very little — and in some cases none — since they first reached the Big Spring market from two to four weeks ago.

Only one merchant noted that the price of cantaloupes had dropped from the fancy fee tacked on them when they first reached Big Spring. But several merchants noted that although the price had not changed to a great extent, the quality of the commodities has improved.

Thus it lowers the price from the standpoint of getting more for your grocery dollar.

## Employees Offered Unusual Proposal

LANCASTER, Pa. (AP)—Two unusual proposals have been offered to employees of the Bearings Company of America during negotiations for a new contract.

The company, which has not been struck, yesterday offered Local 1035, CIO United Steelworkers, a 5 per cent increase to male employees for each dependent child under 17, and a preferential hiring plan for widows of employees who die while actively working for the company.

There are some 350 production employees in the company's plant. The union did not indicate what action would be taken on the proposals.

## MANY WORKERS IDLE Steel Strike Hits Varied Industries

PITTSBURGH (AP)—The two-week-old steel strike slashed deeper than ever into the nation's economy today as some plants making war munitions reported curtailments near because of a shortage of steel.

In addition to the 650,000 CIO steelworkers who walked out June 2 when the U.S. Supreme Court ruled President Truman had no right to seize the industry, more than 100,000 workers in allied industries are idle.

These include nearly 50,000 coal miners in seven states and more than 30,000 railroaders employed by a dozen carriers.

Nearly 25,000 more are idle in industries dependent on steel.

These include sailors on Great Lakes ore boats, ore miners, coke workers, river boat crews, oil and gas pipeline workers, construction crews, and workers in other steel-related fields.

Announcements that three companies will be forced to stop making munitions this week came as the government and the United Steelworkers sought to work out a plan to start enough steel flowing from the struck mills to prevent a crippling halt in the production of weapons.

At Cleveland, Lemco Products, Inc., said it was forced to halt making mortar shells today because of steel shortages and to lay off 500 employees.

The Oldsmobile Division of General Motors said a shortage of seamless steel tubing will force it to shut down its 3.5-inch rocket plant at Lansing, Mich., on June 23.

In Detroit, it was reported the Ford Motor Company may be forced to close down rocket production before the end of the week because of a shortage of tubing.

Officials of the General Motors Cadillac tank plant at Cleveland said it has enough steel for from 10 days to two weeks of operation.

The government has been assured by Philip Murray, president of the CIO and the USW: "Count on us to produce the essential military products necessary to carry on our fight against the menace of Communist aggression."

Murray has directed a four-man committee of the USW to help work out an acceptable plan for defense needs for steel. So far the government has announced no specific way of achieving this output although it said a plan had been worked out to transport steel stored in struck warehouses to weapons manufacturers.

On other fronts, new idleness has been reported because of the strike. About 5,300 employees are out in five plants at Worcester, Mass., 300 more in three Boston warehouses, and 500 at one Pittsfield, Mass., mill, all due to steel shortages.

About 1,000 coal miners were laid off in Northwestern Arkansas and Eastern Oklahoma, as three big mines supplying coal to steel mills shut down.

In the St. Louis area, the first layoffs stemming from the strike are expected in 10 days to two weeks. All firms contacted in a week-end survey said they had a 45-day steel supply on hand when the strike started but some are running low on special types of steel.

## Witness Says Dr. Lindstrom Made Threats

LOS ANGELES (AP)—The woman Ingrid Bergman sent to ask Dr. Peter Lindstrom for a divorce testified he told her:

"By the time I get through with Ingrid, she will never be able to see Pia. I will blacken her name and Rossellini's in such a way that no court will ever allow her to see Pia."

The witness, Mrs. Marta Cohn, testified yesterday at the trial of Miss Bergman's suit for summer custody of Pia, her 13-year-old daughter by Lindstrom. The father opposes the suit on the ground that Italian movie Director Roberto Rossellini, who married the actress after she bore him a child out of wedlock, would be a bad influence.

Mrs. Cohn, wife of screen writer Art Cohn, was on the Mediterranean island of Stromboli when Miss Bergman fell in love with Rossellini while he was directing her in a picture.

She testified she contacted Lindstrom in Paris in 1949 and told him Miss Bergman loved him and their daughter, but wanted to marry Rossellini. She quoted Lindstrom as saying he would not consider a divorce. Lindstrom, however, later won a divorce and custody of Pia.

## Malan Supporters Break Up S. African Rally; 32 Hurt

JOHANNESBURG, South Africa. (AP)—Supporters of Prime Minister Daniel F. Malan's Nationalist government, battling with stones, iron bars, pickheads and nail-studded clubs, broke up a rally of the opposition United Democratic Front last night.

Thirty-two persons were injured. Two others were arrested after the angry mob stormed the meeting, attended by about 3,000, in one of Johannesburg's public squares. Torch Commandos — ex-servicemen pledged to oust the Malan regime — drove the Nationalists up

## A Bible Thought For Today—

That is what it takes, a sinner must turn around and go back home to his father's house. "I will arise and go to my father." — Luke 15:18.

## Fantastic New Weapons Might Be Ready For Use In Korean War

Marquis Childs, usually a very reliable and level-headed reporter, hands us what amounts to a sensational scoop respecting the situation in Korea.

He says the development and production of tactical atomic weapons have now reached the stage that they can be used in case the Reds decide to try to push the UN forces out of Korea. Moreover, these weapons and the men trained to use them are already in Korea, and they will be used if the Reds get gay. Since they will be used on troops concentrations and not on cities where many civilians would die, world reaction to their use is not expected to be as violent as otherwise might be the case.

Maj. Gen. Daniel H. Hudson, who commanded a California National Guard division in Korea and returned home a few days ago with some loose talk to the effect that the Reds could push us out of Korea any time they want to, has been called on the carpet, but stands pat on his original assertion.

Childs says Hudson had not been told

of our readiness to use tactical atomic weapons in case of a grand-scale Red assault. Seeing the general's inclination to air his views, it may be just as well he wasn't briefed on the exact situation.

In any case, Childs' revelation adds up to a sensational story, and if true it puts an altogether different light on the situation. So far as we know his story has not been denied officially; it would not be to our best interests to deny it, if true, and it serves as a powerful deterrent to renewed Red activity even if not true.

Where Childs got his information we have no way of knowing, but his reputation as a reliable and responsible reporter with important contacts leads us to believe there is solid foundation for his report.

The military made no bones about the success of the recent Nevada experiments in tactical use of atomic weapons. And in addition to this, as Childs points out, some of those "fantastic new weapons" of a non-atomic nature have been battle-tested and proved—well—fantastic.

## If You Plan On Holiday Trip, Then Plan Also To Live Longer

The National Safety Council takes time by the forelock by warning the American people now to prepare for the worst on Independence Day, and prepare themselves psychologically to guard against traffic accidents which make our principal holidays days of mourning for many American families.

The Council notes that in the last six years, 8,536 people have been killed in holiday traffic. That is almost three times as many as were killed at Pearl Harbor, had as many as have died on the battlefields of Korea.

Accidents happen so often and so many people are killed that the average person has become inured to the shocking news—unless or until it strikes close to home. Few people can imagine being included in such grim statistics, themselves. Yet in every gathering of a hundred or so people, there is someone present who will die eventually in a traffic accident.

Three hundred and sixty died on the holiday devoted to commemorate our war

dead—Memorial Day.

July 4 comes on Friday this year, which means another one of those long, gory holiday periods. For three or four days the traffic hazards will be intensified, and the death toll will rise accordingly.

Most accidents are the result of human carelessness or just plain recklessness.

A little forethought before starting a vacation or holiday trip can add greatly to your safety and that of your family. First, be sure your car is in good operating condition. Second, resolve to avoid high-pressure driving by starting your trip early. Third, don't try to drive too far at a single whack, but stop now and then to stretch your legs and take on refreshments (non-alcoholic). Finally, don't overload your car, and above all else make up your mind to be careful, alert and obedient to the laws of commonsense as well as the traffic laws.

Remember, the most dangerous person on your route is just as likely to be you as the other fellow.

## Merry-Go-Round—Drew Pearson

### New Attorney General Ought To Probe Rope Deals Aiding Soviet

WASHINGTON. — Attorney General James McGranery has now been in office long enough to pass a snap judgment on one of the most important cases handled by his predecessors, the American President Lines, and to settle it in favor of the man to whom he owes a great debt for ramming his confirmation through the Senate—Pat McCarran of Nevada.

Therefore, it's not unfair to call his attention to certain things that have been going on around him which he should investigate.

McGranery, when appointed, made eloquent promises of a corruption cleanup. Since his appointment he has made no moves in that direction, has appointed no one to handle a cleanup, and indicates he will continue the chief of the criminal division, James McInerney, who should have been prosecuting corruption all along, but didn't.

Accordingly, here is the first of some "Memos to McGranery" regarding smelly situations existing right under his nose which he should detect by the smell—if his olfactory nerves aren't deadened by long exposure to decay!

Take a look, Mr. Attorney General, at the manner in which 8,633,000 pounds of rope—all the surplus rope in the national inventory—was sold to Russia. Also, please take a look at how the man who sold it is now dealing with the Navy Department, has his wife on the Navy payroll, and entertains admirals and Navy officers at his home.

The man in question is Walter Lester Henry Beecher Van Dyke, a manufacturer's agent or "five percent," living at Vienna, Va., a suburb of Washington.

His purchase of rope for Russia included about all the Sisal and Henequen rope the Army had as surplus after the war, and it was sold in 1947, at a time when our relations with the Soviet were on the worsening side.

Unfortunately, your old colleagues in Congress, Mr. Attorney General were partly to blame for this, because they listened to the lobbyists after the war and passed a surplus property act requiring the armed services to sell off their surplus to the highest bidder. Russia came along as the highest bidder through Van Dyke, and so War Assets carried out the law.

In arranging the sale, Van Dyke worked through the Rogers International Corp., which operated for the Soviet. After the bid was accepted June 26, 1947, the Army quite rightly rebelled at admitting Russian inspectors into Army warehouses to look at the rope.

Therefore, Rogers International secured American inspectors to check the rope, rejected several thousand pounds, and tried to renegotiate the contract in order to buy at half price. The agreed price was only nine cents a pound.

Meanwhile, non-Communist Finland, which has a record of paying its debts to this country, started searching frantically for rope, which was hard to get. It offered 19 cents a pound in New Orleans, 25 cents in San Francisco, for the same identical rope for which the Russians were paying nine cents. In the end, Finland

managed to get the "damaged" rope, but the big bulk had already been shipped to "undesignated ports in the USSR" at half what the taxpayers had to pay and far less than the Finns were eager to pay.

The man who engineered this deal has now shifted his operations to the Navy. He had a natural "in" there because his wife, Mrs. Winifred Van Dyke, is a civilian employee at Navy headquarters. Her record at the Navy seems to be satisfactory, though she admits receiving calls for her husband over her Navy phone.

However, through his wife, five-percent Van Dyke was able to cultivate the Navy brass, until his private bar on Saturday night looked like a small edition of a Navy officers' club.

His home, now valued at \$75,000, features a sumptuous bar in the basement, and since he bought the place he has put in \$40,000 worth of improvements.

Here Van Dyke throws lavish parties, sometimes featuring such delicacies as pheasant, wild duck, and champagne. Here also Rear Adm. John Wood, chief of the Norfolk Supply Center, lived for several weeks last fall, while another high-ranking guest has been Capt. Fred Hetter, assistant chief of the Bureau of Supplies and Accounts.

Hetter, when questioned, denied knowing anything about Van Dyke's business, claimed the lobbyist had never discussed business or asked any favors from him.

Another Navy man in Van Dyke's circle of friends is Leon Godeby, who passes on electronics designs and recommends who should get Navy electronics contracts. While Godeby doesn't have final authority, his word can be persuasive.

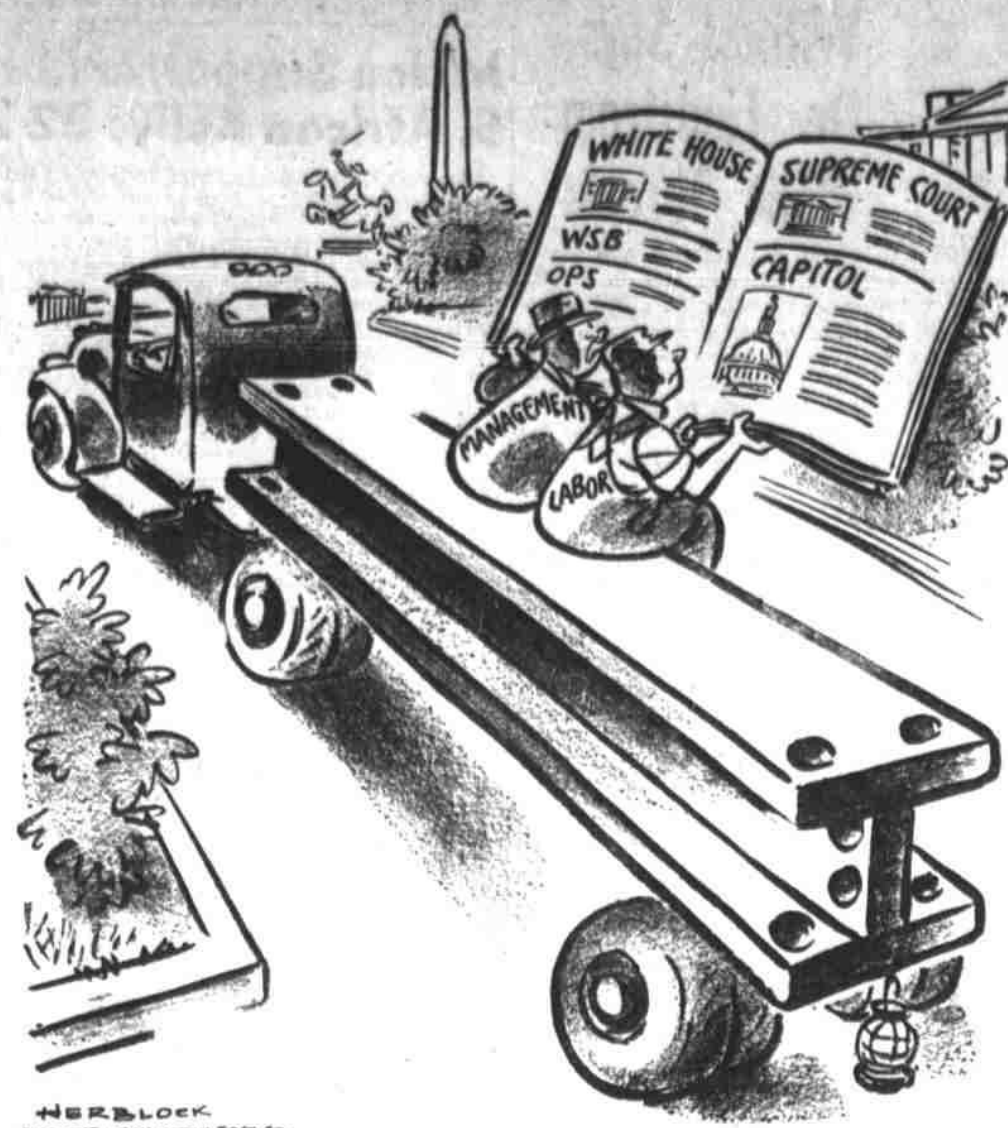

It's highly interesting, therefore, that most of Van Dyke's business with the Navy is negotiating electronics contracts. It's also interesting that Van Dyke's Navy friends have been developed in a short time. For instance, Godeby didn't meet Van Dyke until nine months ago. Yet, in that nine months, he got to know the five-percent so well that he asked Van Dyke to stand up as best man at his son's recent wedding.

Godeby, when interviewed, denied accepting any favors from Van Dyke, and denied giving him any inside Navy information. He admitted that Van Dyke had offered him a job and that he had considered going to work for him.

Since electronic devices are the most important secrets the Navy has ranking right next to the atom bomb, it would seem that Naval officers or Naval experts should not indulge in conviviality with a purchasing agent who arranged for the sale of all surplus rope to Russia, and that the whole matter should come under the eye of the new attorney general who has vowed so pleasantly but inconclusively that he would clean up Washington.

### Bridge Inflated

BRANTFORD, Canada (AP)—The bridge over the Grand River cost \$16,000 to build in 1908. Now the county council is putting in a new floor. Estimated cost of the floor alone is \$16,000.

### World Today—James Marlow

### General Eisenhower Going By His Own Rules In Search For Republican Bid

WASHINGTON (AP)—Sen. Taft has done all the things you could expect a professional politician to do. Gen. Eisenhower, the political amateur, has been going by his own rules.

Taft breezed into the presidential race with cocktails flying. He wanted the presidency. He announced for it last Oct. 17. He started to work for it right away, speechmaking, lining up support, surrounding himself with old-time politicians.

At that time the insiders probably knew where Eisenhower stood

but the public didn't even know whether he was Republican or Democrat. He didn't say openly he was a Republican until Jan. 7.

Now that he's back he's working hard for the nomination although six months ago he said he wouldn't.

In New York there's another Eisenhower headquarters, called "citizens for Eisenhower." Taft has similar headquarters in both places. And, in addition to volunteers, both men have key people working for them around the coun-

### Notebook—Hal Boyle

### Papa-San Losing Grip In Control Over Mama-San

NEW YORK, June 17 (AP)—Papa-San is taking it on the chin in Japan.

"Honorable father" is slowly losing his age-old power over Mama-San, or "honorable mother." The theory of male dominance is setting in the Land of the Rising Sun, just as it set in America a generation ago.

Soon the hand that rocks the cradle will rule the roost in Old Nippon, just as it now does in most of the western world.

The twilight of Far Eastern mandom was forecast in a recent dispatch from Futakawa village on the Japanese island of Honshu.

The village elders there, bowing to changing times, voted that women were to have a holiday the 15th of each month, on which day men will wash, cook, and do all the other household chores.

In a lame justification of this retreat from traditional masculine authority, the elders told the women they were expected to use their holidays to "elevate their cultural standards."

But if they really think Mama-San is going to spend her new leisure studying flower arrangements—well, they just don't know Mama-San.

I will lay these village wise men 3-to-1 odds that before the year is out Mama-San will be going into politics, organizing softball teams, and learning to play canasta and blow smoke rings through her nose.

The odds are heavy also that Mama-San will live up to an old Western proverb holding that if you give a woman an inch she will take a mile.

"Why should we have a holiday just once a month?" she will ask. "Let's put our foot down, girls, and get a holiday every week, plus half a day off on Sunday."

And before long Papa-San will be doing the dishes and diapers in dear old Futakawa, while Mama-San runs for public office to oust the village elders who voted her the first holiday.

But the step has been taken, and there can be no turning back.

Japanese men lost World War II abroad. Now they are losing the post-war war at home. "The Kimono Rebellion" by which women are gaining what they euphemistically call "equal rights."

But the successful revolt of Mama-San will give her new duties and insecurities. Many a woman may later wonder in Japan, as many do now in America, whether her new freedom really gives her more stature in terms of human happiness.

Traditionally, a Japanese wife was known as "the pearl of the Orient." She had no legal rights, ever, took the vicery's life after only seventeen months in office,

merely by writing her a three-line note, and when she went out with her lord and master she was supposed to walk two paces behind him.

A girl was taught subservience from birth. In a Japanese household even the youngest male child had his scrubbing before the oldest woman could take a turn at the bath.

A wife's place was in the home, but she had a fine title: "the honorable inner dweller." And a smart Japanese wife usually managed to be boss within the realm of her home.

The new Japanese constitution gives Mama-San many new rights and privileges. But this business of letting Papa-San into the kitchen, even for one day a month, opens a whole new world of Western woes. It means two bosses in the home, trying to share responsibility for menus and child care.

"Is this the best you can do?" Papa-San will grumble after every meal. "I can cook better sukiyaki than this with shoes on my hands."

If I were a young Japanese psychiatrist, I believe I'd hang up my shingle in Futakawa. The Mama-Sans, weighed with the strange new worries of leisure, ought to be a gold mine.

### Argentina Probe Of Incidents On Border Promised

BUENOS AIRES, Argentina (AP)—Argentina has promised Brazil to investigate thoroughly recent border incidents between the two countries that led Brazil to reinforce her frontier troops.

The Rio De Janeiro government had accused Argentine border police of killing and kidnapping Brazilian citizens in Brazilian territory.

The conciliatory Argentine reply yesterday said the incidents were due to "common faults" and may have resulted from the "energetic repression of crime." It promised to curb Argentine officers in the future.

Argentine police have been campaigning to stamp out smuggling between the two countries.

Noting the reinforcement of Brazilian frontier troops, Argentina said it hoped the present cordial relations between the two countries would not be harmed.

### Reds Try To Get New Anti-Western Group In Europe

VIENNA, Austria (AP)—U. S. sources said today that a Communist organization in Vienna is trying to rope Europe's wartime guerrilla heroes and a concentration camp victims into an international movement against the West.

The Kremlin front organization, these sources said, is the International Federation of Resistance Fighters. In a meeting here just ended, it called for an "International Combat Week Against Fascism and War" from Sept. 7 to 14.

These sources said the Red organization, established in Vienna several months ago, has been sending agents all over Western Europe to convince the remnants of wartime anti-Nazi guerrillas armies and those who were in Nazi prison camps that the West's new pact with the Bonn government threatens peace.

## Around The Rim—The Herald Staff

### Herb, Police Are Efficient, But Why Wear Ties In The Summer?

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

Mr. Herbert Whitney  
City Manager  
Dear Herbert:

Every day for about six months I was closely associated with your police department and its work, and five days a week over this period of time I attended the daily sessions of the Corporation Court, and heard a number of your officers testify in that court in the trials of men and women they had arrested.

I have been impressed by the number of defendants who have entered guilty pleas, which is evidence that your policemen are not given to making mistakes. I have been equally as impressed by the fairness of the testimony they have given.

Not but once have I heard a defendant say he was mistreated by any of them, and all anybody had to do was to look at this character to understand the situation. He had probably made the same charge against the police in a hundred different towns. Your policemen just didn't let him whip them when they arrested him on a drunkenness charge to which he confessed his guilt the next morning.

Never have I heard a person honestly charge that one of your policemen has been other than courteous and considerate. I have heard some of them very highly complimented by persons they have arrested or to whom they have given tickets.

My own checked career includes some work in law enforcement. I have had four

different such jobs in two states, I have been in a great many jails (as a visitor) and in two state penitentiaries (also as a visitor) and while in the Marine Corps handled a number of military prisoners. In the course of a few years I have known a great many law enforcement officers, some good, some bad and some just middlin—but never have I seen a police department with men of as high a type and fine character on the whole as the men (and the ladies, too) in the Big Spring Police Department. You are to be congratulated because I feel you, in a large measure, are responsible, since different chiefs have served under you.

But Herb, I'm not writing this letter to tell you what a fine fellow you are, and what fine fellows they are. What I started to say in the beginning and am just now getting around to is why in the h—do these fellows have to wear neckties all summer? Why can't they be given the break the rest of us get. Many of us don't work as hard as they do.

A necktie is nothing but a decoration anyhow. It serves no useful purpose at all. Not even work horses have to wear collars all the time, not besides men with hearts and heads and integrity like those in your police department don't have to be decorated.

How about it, Herb?  
FRANKLIN REYNOLDS

## Gallup Poll

### Ike Has Big Lead In 'Trial Heat' Run Against Governor Stevenson

By GEORGE GALLUP  
Director, American Institute of Public Opinion

PRINCETON, N. J., —The Institute's latest presidential "trial heat" in which voters were asked how they would vote if General Eisenhower were named by the Republicans and Gov. Adlai Stevenson by the Democrats shows Eisenhower with a substantial lead over the Illinois governor.

The figures are:

"Suppose Eisenhower is the Republican candidate and Stevenson is the Democratic candidate, which party would you like to see win the presidential election—the Republican party or the Democratic party?"

Eisenhower	58%
Stevenson	31
No opinion	10

Three points must be kept in mind in interpreting these figures:

1—Eisenhower is far better known to the general public than Stevenson at the present time. Were Stevenson to win the nomination, with all its attendant publicity, that situation would change almost overnight.

2—The undecided voter group in today's poll is predominantly Democratic in its "leanings." If these persons were to go over to the Stevenson camp, the race would be tighter than is shown above, although General Ike would still be well in the lead.

3—While the figures reflect current sentiment toward the two men, they obviously cannot indicate how the country might vote in an election five months from now.

General Ike's popularity also is reflected in another trial heat reported last week. When he was matched against Sen. Estes Kefauver the vote was:

Eisenhower	55%
Kefauver	35
No opinion	10

In short, Kefauver runs a somewhat stronger race against General Ike than Stevenson does.

Both "trial heats" were completed before

fore Eisenhower returned to the United States and began active campaigning.

The Divorce Issue

There has been persistent talk of a Stevenson draft even though the Illinois governor has said that he does not want to run.

When the Institute polled Democratic party chairmen, it found Stevenson the leading choice of those outside the South.

Some party leaders fear, however, that Stevenson's divorce might be a serious handicap to his possible candidacy. No President of the United States has ever been divorced.

Two other possible contenders for the presidential nomination this year have been divorced. They are W. Averell Harriman and Gen. Douglas MacArthur.

To find out how much difference the divorce issue might make, the Institute recently conducted a poll among a cross-section of the nation's voters.

It found only 14 per cent, or one voter in seven, saying that the fact that a candidate had been divorced would make a difference in their attitude toward him, assuming he was well-qualified to be President.

In fact, less objection was registered to a divorced man in the White House than to a military man. Twenty-five per cent, or one voter in four, said that the fact that a candidate was a military man would make a difference in their attitude toward him.

### Old Locomotive Still Busy One

ROCHESTER, N. Y. (AP)—Old 999 is busy going from party to party these days.

The old locomotive, spruced up in black and gold paint, is making appearances at fairs and community sequico-centennials and the like. She's still in her glory as she was before the turn of the century when she was queen of the New York Central.

Old 999 is the retired speed queen of the rails. Her record of 112 1/2 miles an hour set back in 1893 still stands.

## Uncle Ray's Corner

### Moth Tongue Is One Foot Long

Most moths fly in twilight or after the sky is quite dark, but several kinds go about in full sunshine. The most widely known of those which fly in the day are the hummingbird moths.

Hummingbird moths have good-sized bodies. Their coloring and fast, darting flight have led many persons to mistake them for hummingbirds. Like such birds, they go about in search of nectar which they can take from flowers. Many of them have yellow-green bodies, with a brown band at the middle and a bit of brown about the tail.

Moths which sip nectar have long, thin tongues. Except when they are in use, the tongues are kept in a curled position, Hawkmoths sometimes have tongues which they can stretch out to a length of five or six inches.

Even that is far from the limit for a moth's tongue. On the island of Madagascar, near Africa, are moths which have tongues twice as long!

It is an interesting fact that a scientist, Alfred Russel Wallace, guessed that those long-tongued Madagascar moths would be found. He based his statement on the fact that moths were known to take nectar from orchids of a special type. He measured certain orchid tubes and found that they had a length of a foot. He failed to see any moth sipping nectar from an extra-long orchid, but another scientist discovered a Madagascar moth years later with a tongue which could be extended 12 inches!

Certain very small moths are partners of the yucca plant. This plant has white blossoms, and provides the state flower of New Mexico.

Little white-winged moths go to yucca blossoms to lay their eggs. Before they

AT BROWNSVILLE

Wetback Detention Camp Is Planned

By The Associated Press Selection of an 18-acre tract at Brownsville as a site for a detention camp for illegal aliens held for deportation to Mexico was announced Monday in Washington.

Willard F. Kelly, head of the Immigration and Naturalization Service's Enforcement Division, made the disclosure shortly after the House sent to the President a bill authorizing use of agency funds on hand for building two detention camps.

Meanwhile an amused denial of charges that Texas keeps migrant Mexican farm workers in a concentration camp came from Fletcher Rawls, chief of the U. S. Border Patrol's McAllen District.

"I've heard everything else but that," he laughed when told at McAllen of the charge by a Mexico City newspaperman.

In addition to the camp at Brownsville, the Immigration Service plans to build a similar one at San Ysidro, Calif. The Brownsville camp will have facilities for handling 500 aliens at a time; that at the California border point will have a normal capacity for processing 400. Both will be able to handle twice as many in an emergency.

The Brownsville Chamber of Commerce has protested a previously announced plan to build a camp there. There has been no controversy about the San Ysidro site.

Kelly is awaiting a detailed report from field men at Brownsville. He said the site is on privately-owned land almost three miles from the Brownsville Airport in the direction of the Port of Brownsville. Payment will be \$100 per acre yearly with a renewal option.

Wetbacks who have slipped into this country illegally will be detained in the camps for only one to three days. The concentration camp charge was made by reporter Carlos Villanave in the newspaper Novedades.

Border Patrolman Rawls said that alien laborers are detained in an open-air wire stockade south of McAllen but that it isn't anything like what Villanave described.

Countess Krystyna Skarbek, 37-year-old Polish noblewoman with a brilliant record as a wartime spy for the British, was found stabbed to death in a London hotel.

Dress Review Set July 4th

Plans for Big Spring's traditional Fourth of July celebration will be co-ordinated at a meeting of Business & Professional Women's Club representatives Tuesday evening.

Principal features of the Independence Day program this year will be a dress review and fireworks display. Both will be staged in City Park.

Dress review plans call for girls from every community in the county to participate under individual sponsorship of merchants and businessmen.

The dress review is being held in lieu of the annual bathing beauty review which has become impractical due to lack of water for the swimming pool and limited accommodations for spectators.

Atomic Engine For Carrier Is Said Designed

NEW YORK (AP)—The Daily News said today it was informed that designs for an atomic engine to drive a supercarrier at a speed of 50 knots have been perfected and the Navy hopes to start building the ship late in 1953 or early in 1954.

This new carrier would be of the 60,000-ton Forrestal class, a Washington dispatch to the News by Jerry Greene said.

It would carry about one-third more planes than the largest present ships and—"with its little ball of plutonium as fuel"—could remain at sea almost indefinitely without refueling, the story said, adding:

The Navy has asked Congress for one more big carrier per year for the next 10 years and, it was reported, believes the atomic engine will be ready for the job to be laid down in fiscal 1954.

Regardless of what might happen in the way of appropriations and developments, the News was told, the carrier atomic engine will be ready for installation not later than fiscal 1955.

Present carriers admittedly can top 30 knots for a prolonged period and can go faster if they have to. But they require vast space for fuel and have to be accompanied by fleet oilers.

The atomic engine, with plutonium running a boiler to drive turbines, would save more than a third of the space in a conventional ship, eliminate the necessity for fleet oilers and furnish a vastly greater amount of power.

Frisco To Honor 40-Plane Ace Of WW II And Korea

SAN FRANCISCO (AP)—San Francisco today acclaims Col. Francis S. Gabreski, 40-plane ace of two wars, with a parade up Market Street and a formal reception.

The 33-year-old fighter pilot bagged 6½ Communist jets in Korea to add to the 33½ German planes he K.O'd before he was captured late in World War II.

Gets Two-Year Term On Swindling Charge

STANTON — W. H. Peppers of Alvarado, who pleaded guilty in 118th District Court to a charge of swindling by worthless check, drew a two-year sentence Monday.

### Any Clothing Can Be Altered At Local Shop

Rips or bulges are fair game for the magic of the Alteration Shop, 112 1/2 E. 2nd.

"We can alter or mend everything about clothing that can be done machine or hand," explains Mrs. J. H. Routh, who directs operation of the unique service.

The service embraces any kind of material, fabric or leather. This is partly due to the use of the famous Necchi machine which does just as an effective job on leather or plastic as it does on wool, cotton or the synthetics. Adjustments can instantly shift the machine from conventional stitches into a zig-zag stitch. It sews clean and does not tear as some devices have been known to do. So effective is the instrument that zippers can be installed in leather jackets with the same ease that they may be applied to fabrics.

Another thing this remarkable machine can do is to make button-holes and even sew on buttons. Naturally, this means faster and even better service to you.

Mrs. Routh makes every effort to give almost immediate action on orders. One-day service on all military uniforms is a standing policy at the shop, and the growing number of military men who call there for alterations and repairs is proof of the increasing popularity of this thoughtfulness.

When customers face an emergency because of a tear of a garment that must be used but does not fit, Mrs. Routh sees to it that one-day service rule applies here, too.

All types of mending are done with the exception of weaving.

### Machines Are A 'Must' In Modern Office

Trying to run the modern office with such things as typewriters and adding machines is rather like trying to operate a motor vehicle without one of its wheels.

The place to buy high quality office equipment in Big Spring is the Thomas Typewriter and Office Supply, located at 107 Main Street.

Good equipment, of course, speeds one's work and business routine necessarily becomes faster in this modern age.

Royal typewriters of all kinds, from portables to electric models, are stocked by the Thomas concern, as are such equipment as Olivetti Printing Calculators, Precision adding machines and other nationally-advertised office equipment.

The Royal typewriter is the most popular machine of its kind in the world and demands of the public produces new manufacturing quotas on the Royal company regularly.

In addition to stocking that kind of equipment, Thomas' also maintains such hard-to-get items as desks, swivel and straight chairs, filing cabinets, safes, strong boxes, waste paper baskets, etc.

Too, the Thomas concern is the local headquarters for such supplies as all types of office paper, binders, pens and inks, paper clips, etc.

Those who desire to try out any of the Thomas equipment need only to contact Gene Thomas, owner and manager. His business telephone is 98.

### Highly Recommended Cosmetics On Hand

Cosmetics in two lines bearing the Good Housekeeping Seal of Approval and certified for purity by the American Medical Association are available at Colonial Beauty Shop, 1211 Scurry.

The cosmetics also are recommended by many skin specialists, Christine Coughlin, owner of the shop, points out. The two lines stocked at Colonial are the well-known Beauty Counselor and Revlon cosmetics.

Alterations Come Rapidly

Mrs. J. H. Routh, who operates the Alteration Shop, located at 112 1/2 East Second street, handles an order on the famous Necchi machine, which functions equally well on leather, plastic, wool, cotton, or synthetics.

### Special Offer Made On Seiberling Tire

Four premium Seiberling Safety Tires for the price of three is the offer being made from now until July 15, by Charlie Creighton and Glenn Thomason at the Creighton Tire Co., 203 W. 3rd.

This offer is in effect in observance of the 30th anniversary of the founding the Seiberling Tire Co., by F. A. Seiberling, who had previously founded the Goodyear Tire and Rubber Co., and who in 1922 decided to organize his own company.

There is an unlimited guarantee on this tire, as to time or mileage against road hazards. It is guaranteed to be a tire that like the famous "One Hoss" Shay" will actually wear out. Unlike that ancient vehicle it may not run for a 100 years to the day, but Glenn says that when compared with the average tire it will give the equivalent in service of that old shay immortalized in rhyme.

A great many motorists are having their tires balanced by the Mobil-Static Balancer which is exclusive with the Creighton organization in Big Spring. This is a tire balancing system the eliminates unsightly metal weights and that does not require that the tire be re-balanced every time a flat is repaired. This balancing is done by placing live rubber inside the tire and once a tire is balanced with this system it stays in balance for the life of that tire.

Creighton's is the Big Spring home of the Seiberling hand-built puncture proof tube, with its bulkheads of gum that make a puncture impossible, and that is coming to be so highly favored by physicians, firemen, policemen, ranchers and all others who prize the

### Jones Motor Has Answer To Truck Problems

Jones Motor Company's answer to business requiring trucks for frequent-stop operation is the Dodge "Job-Rated" route-van.

Jones, 101 Gregg, is dealer and service agent for Dodge cars and trucks and Plymouth cars.

The route-van, another in a long line of Dodge trucks, comes in three body sizes—to fit different jobs.

Smallest size is the seven-foot body sized-delivery unit. Load capacity of the small route-van is 253 cubic feet and the maximum load weight is 2,980 pounds.

With a nine and one half foot body, the medium route-van has a capacity of 348 cubic feet, while the largest route-van body measures 12 1/2 feet from rear of the driver's seat to the rear door.

All three styles are equipped with either sliding or folding doors. Easy handling is an added feature of Dodge Company's delivery truck. The design of the steering mechanism permits extremely short turning diameter, with the same turning angle, regardless of tire size.

Fluid drive is an available feature which enables the driver to leave the route-van in gear with the motor idling and the clutch engaged.

Following the delivery, the driver simply steps on the accelerator and continues on to the next stop, which makes door-to-door deliveries more convenient.

Additional features of the route-van are oversize parking brakes, two rear axles, and an engine set off to one side. The engine on one side gives additional front-end space.

Engines put in the route-vans are six-cylinder motors that have been selected from a wide range of Dodge truck motors because they best combine power and economy for frequent-stop operation.

All these factors go into the route-van one of the most usable trucks Dodge and Jones Motor Company sells.

### Drapes Are Made To Specifications

If you wish you could have that certain pretty material made into drapes, do something about it.

The alteration shop at 112 1/2 E. 2nd is the answer to your problem. Drapes are made there to your specifications. You select the material you like at your favorite store or shop and bring it to The Alteration Shop. From the lighter weights to the heavier class of materials, equipment and skill at the Alteration Shop combine with equal facility to give you a top quality job, and economically, too.

### Operators In Colonial Shop Skilled In Beauty Culture

"Head-turning beauty" is the slogan of Colonial Beauty Shop, 1211 Scurry, and the institution has the skilled operators and beauty equipment to provide just that.

Nothing is omitted in making Colonial the center of feminine beauty culture. Christine Coughlin, owner, has just had the entire beauty shop remodeled and fitted with new fixtures and equipment.

Completely new lighting, new mirrors, driers and reception room furniture have been added to Colonial's home. The building was given a complete outside remodeling job and interior has been redecorated. Nothing but the "latest and best" equipment was installed.

Colonial Beauty Shop has been in its present location for the past five years, earning a reputation as one of the most efficient concerns of its kind in Big Spring. It boasts a private facial vestibule and a beauty operator who specializes in facials and Parker Herxberg scalp treatments.

Permanent waves, including the Bayette and Helen Curtis types, are offered, as well as hair coloring and styling. A manicurist also is provided at the shop.

The beauty shop is completely

air conditioned for the comfort of patrons.

A special service for the convenience of Colonial clients is the gift counter operated in conjunction with the beauty service. Gift items available include ceramics, picture plates, copper and brass planters and costume jewelry. All purchases are gift wrapped at the request of customers.

Beauty operators at Colonial Beauty Shop, all experienced and skilled in their profession, are Idelle Ward, Jimmie Holloman, Maude Cole and Inez George.

# Deep Test Due In Mitchell, Howard Venture Has Free Oil

I. Welner of Big Spring said Tuesday that a farmout had been given on 5,700 acres and that an Ellenburger test would be sunk on the W. R. Powell land six miles south of Colorado City.

Reports, not made officially by operator, were that a small amount of free oil and some heavily oiled gas-out mud had been found in a test of the Stanolind No. 1-A Snyder, four miles southeast of Coahoma. The section tested is below 7,000.

A southeast stepout to the Von Reeder south extension in Southeast Borden yielded only mud on a test Monday and another was in progress in the reef today.

Two locations were staked in the Hobo pool of Southeastern Borden and a stepout to the Bredlove-Devonian field in Northwestern Martin County.

H&TC, Hobo Field, projected to 7,300 with rotary.

Phillips No. 4 Boedeker, 817 from the south and 666 from the east lines of section 38-35, H&TC, also will be a Hobo location projected to 7,300.

Sinclair No. 1 Reeder, C SW SE 410-97, H&TC, drilled to 8,110 in lime and chert.

east of Coahoma, took a drillstem test from 7,015-45 with the tool open 80 minutes. There was a strong blow throughout and recovery was 20 feet of oil and 100 feet of very heavy oil and gas-out mud. Operator prepared to drill ahead.

### Borden

Phillips No. 5 Boedeker will be located 670 from the north and 972 from the east lines of section 28-25, H&TC.

### Dawson

Cities Service No. 1 Dupre, C NW SE 67-M, EL&RR, progressed to 10,805 in lime and chert.

El Te No. 1-95 Classen, C SE SW 95-M, EL&RR, drilled to 3,970 in anhydrite and lime.

Sinclair No. 1 Scott, C SE SE 101-M, EL&RR, drilled past 9,151 in sand and shale.

### Lynn

Shell No. 1 Southland Royalty drilled to 8,381 in shale and lime.

### Red Cross First Aid Course Is Cancelled

The first aid course that was to be held under the sponsorship of the YMCA and the Red Cross has been cancelled, Nancy Lovelace, instructor, announced Tuesday.

Miss Lovelace stated that only two had registered to take the course during the past week. The course was to have begun June 9. One person arrived for the course that night and the course was left open for registrants until last Friday.

Since the number was not large enough to merit a course, Miss Lovelace commented it would be dropped.

### Glasscock

Sinclair No. 1 G. T. Hall, C SW NW 6-34-28, T&P, Northern Glasscock, drilled to 3,840 in sand and lime.

Sinclair No. 1 D. C. Clark, C SW SE 41-35-48, T&P, northeast outcrop to Spraberry location in Southwest Glasscock, was pulling packer to make more hole. Last reported total depth was 7,100.

E. G. Rodman No. 1 Edwards will be a Howard-Glasscock location 330 from the south and 990 from the east lines of section 17-33-28, T&P, 15 miles southwest of Big Spring. It is projected to 1,500 and elevation is 2,591.

### Martin

Pan-American and Forest No. 5 Bredlove will be a northwest stepout to the Bredlove-Devonian field. It will be 2,640 from the south and 5,280 from the east lines of league 258 Briscoe CSL. It is to go to 12,500 feet.

Phillips No. 1-C Schar, Section 324 LaSalle CSL, swabbed 12 hours above plugged back depth of 8,380. It made three barrels of oil and 30 of water. Operator is still swabbing.

### BY SENATE GROUP

# Faster Air Power Buildup Is Sought

WASHINGTON (AP) — The Senate Preparedness Subcommittee called today for a faster buildup of U.S. air power and cited testimony by the Joint Chiefs of Staff to support its stand.

The subcommittee, headed by Sen. Lyndon Johnson (D-Tex.), said everything must be done to step up rates of production in order to reach a goal of 143 wings as quickly as possible and overcome a "terrifying" Russian air superiority.

"To do otherwise would reduce our defenses below safe levels and be an invitation to disaster," the subcommittee said in a report dealing with the recent "stretch-out" decision by President Truman and his advisers.

The report said the subcommittee established that the Joint Chiefs of Staff, headed by Gen. Omar N. Bradley, recommended a 143-wing Air Force, consisting of 128 combat wings and 17 supporting wings, not later than the end of 1954, with mid-1954 preferable.

The report contained this testimony by Bradley:

"In general the effect of the stretch-out on security will be to postpone until 1956 the full realization of the United States military capabilities originally planned for achievement in 1954.

"Thus, the stretch-out program will seriously reduce the anticipated military capabilities of the United States and the North Atlantic Treaty Organization to withstand successfully any all-out attack on the part of Russia prior to 1956."

A further memorandum from the Joint Chiefs said:

"The Joint Chiefs of Staff desire to reaffirm that they consider the general period of 1954 to be the most dangerous for the security of the United States in the foreseeable future. Adoption of the reduced program . . . postpones our military capabilities to meet this threat."

In an accompanying statement, Johnson said:

"We certainly will never have a first-class Air Force as long as our only ambition is a second-class Air Force. Unless we raise our sights and raise them quickly, I am afraid that we will achieve nothing but inferiority."

The report described Russia's production and capacity for production as "shockingly high," adding:

"No decisive victory in the cold war is possible as long as the Soviets hold as terrifying an edge in military readiness as they do today. As long as this situation exists, there is little hope of peace in the world."

### Howard

Crown Oil No. 1 Brokhage, C SW SW 4-25, H&TC, 2 1/2 miles east of Vincent, drilled past 4,775 in dolomite.

Stanolind No. 1 Snyder, C NW NW 20-30-18, T&P, four miles south of Vincent, drilled to 7,974, the 5 1/2-in. at 7,972.

### Mitchell

I. Welner of Big Spring announced Tuesday that he had farmed out a large drilling block in Mitchell County for an Ellenburger test to be drilled six miles south of Colorado City. The Scurlow Oil Company of Houston is to drill the well, which will be the No. 1 W. R. Powell. Location is pegged at 1,980 from the east and 660 from the north lines of section 83-27, T&P. It is 2 1/2 miles southeast to an exploration, Seaboard No. 1 Powell, drilled to 7,630 in November of 1949 and two miles east of Shamrock No. 1 Powell, a wildcat which went to 3,445 in November of 1949. The spread farmed out amounts to 3,700 acres, said Welner.

Hunt Oil No. 1 Hodnett, C SE NE 89-97, H&TC, drilled to 5,256 in northwest Mitchell.

### MARKETS

NEW YORK, June 17 (AP)—The stock market was narrowly mixed today. Trading was on the quiet side.

Fractions either way was the rule. One exception was Dow Chemical which lost around 8 points in early trading. It was up 3 1/2 yesterday to close at 128.

Steel was a shade higher. Motors were steady along with utilities and most non-ferrous metals.

Balls were mixed. Also in that class were farm implements, distillers, and stocks making progress included U. S. Steel, Nickel Plate, Kennecott Copper, and International Harvester. Lower were Republic Steel, Standard Oil (Ind.), Anaconda Copper, and Union Carbide.

COTTON

NEW YORK, June 17 (AP)—Noon cotton futures prices were unchanged to 65 cents a bale higher than the previous close July 49 3/4, October 37 1/2 and December 37 1/2.

LIVESTOCK

PORT WORTH, June 17 (AP)—Cattle 4,900; calves 1,500; sheep 1,000. Good and choice slaughter steers and yearlings 229-232 1/2; common and medium 219-222; good and choice yearlings 229-234 with a few higher; good and choice calves 233-236; stocker yearlings 229 and stecker calves 217-221.

Hogs 900; butcher hogs 25-30 cents higher but closed 25 cents lower than on Monday. Early sales choice 180-340 pound butchers 420-25 with one load at 431; later sales at 420 were general; sows 414-417.

Sheep 7,300; wooled weak to lower. Good and choice slaughter spring lambs 229-234; or about 83 lower for two days; cull and utility lambs 219-222; a few about lambs and yearlings 219-222; two-year-olds 219-222; aged weathers 22-23; good short feeder lambs and yearlings 214-216.

### Cool Air Breaks Up Midwest Heat Wave

By The Associated Press

Mid-continent areas got welcome relief today from hot and muggy weather that has enveloped most of the Eastern half of the nation.

The mid-June blast of midsummer heat and humidity left a death toll of more than 125, including 19 heat prostrations and 109 drownings.

The break in the heat wave over the Midwest came after several days of temperatures in the 90s and above 100.

The cool air mass from the Pacific Northwest, with refreshing showers, first hit the Plains states and temporarily ended the more than week-long seige of collar-wringing weather. Temperatures were from 15 to 25 degrees lower yesterday from the Dakotas southward to the Texas Panhandle.

The heat-snapping air mass moved into other hot spots in the Midwest during the night. Chicago, limp from two straight days of 95 temperatures, received the cool air and showers shortly before midnight. The temperature dropped into the high 60s after the hottest day in nearly three years.

Scores of other cities reported heat marks for the date. Temperatures ranged from 90 to 100 degrees along and east of the Mississippi River to the Atlantic Coast with the exception of the New England states.

It was 104 in Springfield, O. St. Louis simmered through a second consecutive day of 101 degree temperatures. There was some

### Scurry

Magnolia No. 2-D Conrad, C SE SE 71-25, H&TC, was bottomed at 6,841 in reel lime. Operator took a drillstem test from 6,823-31 for an hour with recovery of 130 feet of drilling mud and no shows. At this point, it is about 100 feet low to the reef top in the Magnolia No. 1-D Conrad, half a mile to the northwest. Another test is to be taken from 6,823-41.

### Sterling

Tex Harvey No. 1 Chappell, et al, C SE SE 43-18, H&TC, drilled to 6,720 in sand and shale.

Humble No. 1 Davault, C NE NE 13-15, H&TC, drilled to 6,380 in shale.

Humble No. 1 Foster, C NW NW 4-31-48, T&P, in Northwest Sterling, was at 9,425 and operator expected to pick the top of the Ellenburger soon.

### CARD OF THANKS

We wish to express our deepest thanks and appreciation to our many friends and loved ones, during our bereavement, and loss of our companion and Father, May the Lord bless each one of you, is our humble prayer.

WEST TEXAS: Clear to partly cloudy Tuesday, Tuesday night and Wednesday. Not quite so warm upper Texas Valley Tuesday. Warmer Panhandle Wednesday.

## Mrs. McMahon Funeral Rites Set Wednesday

Mrs. Bonnie Lee McMahon, 37, wife of Clyde McMahon, died in a local hospital at 6 a. m. today.

Mrs. McMahon had been in ill health for approximately three and a half months.

She was a native of Mobeetie (Tex.) but had lived in Big Spring for the past 15 years.

Survivors include her husband, Clyde McMahon, Sr., a son, Clyde McMahon Jr., both of Big Spring, her parents, B. K. Hay of Austin and Mrs. Hay of Stanton; two brothers, Ross Hay and Cecil Hay, both of Stanton.

Also expected here for the funeral service are two brothers-in-law, Jim McMahon and Charlie McMahon, both of Lubbock; two sisters-in-law, Mrs. O. L. Click of Hereford and Mrs. Opal Dixon of Lubbock; and her mother-in-law, Mrs. J. P. McMahon of Lubbock.

Funeral services are set for 3:30 p. m. Wednesday at the First Methodist Church, with Dr. A. L. Carleton officiating. Burial will be in Trinity Memorial Park, under direction of the Nalley Funeral home.

Palbearers will be Jack Johnson, R. E. Palmer, W. D. Caldwell, Curtis Driver, J. A. Pruitt, Noble Glen, Sam Wilkerson and Ed Bloomer.

## Forsan Barbecue Tickets Lower

FORSAN—Prices on the barbecue tickets for the Howard County Democratic Candidates Rally here Friday evening have been reduced by a third.

Those for adults will be \$1 instead of \$1.50 as previously announced. Tickets for children will be 50 cents instead of 75. Time for the barbecue, which will precede the rally, has been advanced to 6:30 p. m.

The affair is scheduled for the Country Club and is sponsored by the Forsan Study Club and the Forsan Service Club. The latter organization is turning its part of the proceeds to the fire truck fund.

## Cub Leader Training Program Set Sunday

Jimmy Hale, scout field executive, announced Tuesday that a training program for Cub leaders will be held Sunday from 2 to 4 p. m. in the basement of the First Christian Church.

D. M. McKinney, District Cubing Commissioner, will be in charge of the program which will emphasize the operations of the dens. McKinney plans to have a demonstration of a den meeting and also a film on the subject.

Examples of handicraft will be shown at the training program. The meeting is for Cubmasters, Den Mothers and Cub Councilmen.

## D. C. Demos Get A Chance To Cast Vote

WASHINGTON (AP)—A Democratic primary in the nation's capital today elects a six-vote convention delegation and stamps "preferred" on a candidate for the party's presidential nomination.

It's a rare opportunity for the District of Columbia's normally voteless residents. They turned out in numbers estimated up to 3,000 last night to hear climax speeches by the two nominee-candidates whose names appear on the ballot.

The two, Mutual Security Administrator W. Averell Harriman and Tennessee Sen. Estes Kefauver, laid their programs on the line, took verbal swipes at each other and wound up with a handshake.

## Two Injured In Traffic Mishaps

Four traffic mishaps were reported in the Big Spring area Monday and early today, but only two resulted in personal injuries.

Highway patrolman said Robert L. Boykin of Midland was hospitalized after the car he was driving turned over five miles east of town on US 80 at about 8 p. m. Boykin was brought to a hospital in what the sheriff's department reported as a head injury.

Early Monday afternoon, L. M. Bankston was hospitalized when his pick-up truck was involved in a collision with a car driven by Herbert Bruton, Abilene Negro. The mishap occurred about 17 miles south on US 87.

No injuries resulted when vehicles driven by Elmer Taylor Tucker and Elvin Ezra Jackson collided two miles southwest on the old San Angelo road at 7:30 p. m., highway patrolmen reported.

The sheriff's department reported that a car driven by E. R. Patton turned over at 1:30 a. m. today about 11 miles from Big Spring on the Garden City road, but there were no injuries.

## Reclamation Act Is 50 Years Old Today

WASHINGTON (AP)—Federal reclamation is 50 years old today.

President Theodore Roosevelt signed the Reclamation Act of 1902 on June 17 that year.

That law is the basic authority under which the government has provided irrigation water for more than 6 1/2 million acres of land and installed about 4 1/2 million kilowatts of hydroelectric generating capacity.

## 12 Crewmen Lost In B-29 Mishap

TOKYO, June 17 (AP)—Far East Air Forces today listed as missing in action 12 crewmen of a B-29 weather plane which went down last Friday in the Sea of Japan between Korea and Northern Honshu Island. Two have Texas homes.

The list includes A-LC Leon F. Bonura, 6070 Veth Road, Beaumont, Tex., and A-2C Danney H. Pillsbury, 2022 16th St., Orange, Tex.

Others listed are: Maj. Samuel Busch, Philadelphia, Pa.; Lt. James A. Scully, Philadelphia; Lt. Samuel D. Service, Berkeley, Calif.; 2nd Lt. Robert J. McDonell, Oceanside, N. Y.; M-Sgt. William R. Homer, Jeannette, Pa.; S-Sgt. William A. Bilzard, Arlington, Calif.; S-Sgt. Miguel W. Monserrat, Philadelphia; S-Sgt. Eddie Roy Roscoe Black Duck, Min.; A-LC Roscoe G. Becker, Tillamook, Ore.; T-Sgt. David L. Moore, whose wife resides at an air base in Japan.

## Rev. Thompson Resigns As Christian Church Minister

Resignation of Lloyd Thompson as minister of the First Christian Church was accepted at a called meeting of the board Monday evening.

Justin Holmes, chairman, said that Mr. Thompson plans to re-enter the evangelistic field. The resignation, he added, "was accepted with much regret because of the fine leadership he has given us not only in our new building program, but in increasing membership and activities as well."

Although he will be headquartered in Fort Worth and in touch with the state mission society for his denomination, Mr. Thompson will do general evangelistic work throughout the Southwest. Before he came here, he was for four and a half years state evangelist.

During his pastorate, which began here Dec. 1, 1946, Mr. Thompson has been active in many affairs. One of the principal tasks was that of leading the church in its decision to build a new plant. Facilities had been over-taxed at the former plant at Fifth and Scurry and growth practically stymied. Within the past year, since the new church has been occupied, membership additions have amounted to 100, twice the previous average.

The church, besides adding much equipment and facilities, also has added a full time director of religious education.

Mr. Thompson had been vespers speaker for the state conference; was active in the youth camp work served here as president of the Big Spring Pastors Association; was a member of the Kiwanis Club; on the advisory board of the Red Cross chapter; and had been baccalaureate speaker on occasions for the high school and college.

His ministry had started in Okla-

LLOYD THOMPSON

homa where he served first churches at Nowata, Vinita and McAlester and the Capitol Hill Church in Oklahoma City. He also was seven years minister of the Morningside Church in Fort Worth before going into the evangelistic field.

Holmes said that a pulpit committee had been named and would begin immediately to search out the field for a successor to Mr. Thompson.

## Pennsylvania GOP Group Slates Meet With Senator Taft

HARRISBURG, Pa. (AP)—Backers of Sen. Robert A. Taft for Republican nomination for President believe that the Pennsylvania GOP delegation "will know precisely what to expect from the White House" if the Ohio senator is nominated and elected.

"Taft will answer every question in unmistakable American language" when he meets the Keystone state delegation on June 24, said Robert M. Fisher, state chairman of the Pennsylvania Citizens Committee for Bob Taft.

The meeting has been scheduled tentatively for nearby Hershey. Arranged by Gov. John S. Fine, the meeting is the second such session to be held for the benefit of the Pennsylvania delegation, which met Gen. Dwight D. Eisenhower last week.

## Old-Time Quicksilver Miner Is Found Dead

ALPINE, June 17 (AP)—E. A. Waldron, 80 when the last of the old-time West Texas quicksilver miners, was found dead in his home here yesterday. Officers said he apparently died of natural causes.

### LOOKING 'EM OVER LITTLE SPORT

West Texas State College officials think their football chances are enhanced, now that an Army Reserve Officers Training Corps Unit has been approved for the school.

The Sweetwater Braves of the Longhorn League have given up on Jesse Torres, a big winner with the team last year, and shipped him to the Evangeline League.

Tony Estrada, who won 15 games with the Sherman-Denison in 1951, has joined the Braves on option from Paris.

Juan Medina, the ex-Bronc, lost his job with Paris, incidentally, when Paris purchased Jim Kirby from Tulsa, has been sent to Decatur, Ill.

Two players who had great names in major league baseball some 15 years ago—Cecil Travis and Whitlow Wyatt—were the opposing managers of high school teams of a recent all-star game in Georgia.

Travis was with Washington Senators, Wyatt with Brooklyn.

**GAME IS ABANDONED**  
The 1952 Permian Bowl All-Star game, started in Odessa last year, will not be played, according to Jim Lundquist, the Odessa scribe.

The sponsoring organization, the Kiwanis Club, decided not to go against Texas Interscholastic League recommendations.

Vince Amor, who got his baseball start here a couple of seasons back, has been farmed to the Evangeline League. He was first with Paris, then with Texarkana.

A. D. (Shadow) Ensey was, naturally, tickled pink when his Odessa Oilers grabbed a big lead in the Longhorn League race.

Ensey felt like the club was playing above its head, though, and is due for a fall.

"We're simply not deep enough," Ensey said, or words to that effect. Time will tell.

There are those who will tell you that Odessa has only two top-drawer players, outside of Manager Pepper Martin, of course. That would be Barney Batson, the first sacker, and Rightfielder Leo Eastham.

Charley Weber and Roman Lyoko are, they add, journeyman ball players who have been playing above their heads all year.

When the District 9-AA baseball team was chosen recently, Bob Leach of Denison was named as a pitcher on the first team and an outfielder on the second.

He's the lad who wants \$50,000 from the Cleveland Indians to climb into an Indian monkey suit.

**Eagles Stage 7 To 1 Upset**  
The Eagles, coached by R. M. Kimman, sprang a mild upset when they defeated the Yankees, 7-1, in a Little League baseball game played here Monday evening.

Billy White hurled a superb three-hitter in keeping the Yankees in check. Dickie Madison hit a home run for the winners.

The triumph was the Eagles' fourth of the season and blighted the Yankees' chances to cop first place in the standings.

**Coahoma Fems Win Over Snyder Nine**  
COAHOMA — Coahoma nosed out the Fikes-Grimmet team of Snyder in a girls' softball game played here Monday evening. Final tab was 22-21.

Marie Shaffer went all the way on the mound for Coahoma. The Coahomans played the Merchants team of Snyder in Snyder this evening.

### FOR A BONUS

## Bucs Sign Dick Groat Of Duke

PITTSBURGH (AP)—General Manager Branch Rickey, who keeps saying he doesn't like bonus players, has just signed one of them to a Pittsburgh Pirate contract for a reputed \$75,000 plus.

The prize package is Shortstop Dick Groat of Duke University and Swissvale, Pa. He signed last night and is reported to be so good that there is a chance he may step into the team's lineup against the New York Giants tonight at the Polo Grounds.

Some see him as the answer to Manager Billy Meyer's prayer for an infield that really clicks. Others declare he is just one more item in Rickey's accent-on-youth movement, which the leader says will find fruition in a first division club in 1953.

Groat is a lanky 6-foot, 182-pound youngster with an infectious grin. He fields everything in sight and batted .373 for Duke last season. He is as sensational on the basketball floor as on the diamond and was a cage-all-America this year.

Rickey said that, personally, he'd like to see Groat work with the team two or three days before he starts a game but that it will be up to Meyer.

Meyer says he'll put Groat at short when he does start him. "After he plays there for a while, and if we feel he isn't the answer to that problem, I'll shift him over to second," said Meyer. "Other than for Groat, we will have the same club until August."

## Trio Of Yanks Still Active

TROON, Scotland, June 17 (AP)—Three American women moved into the fourth round on the British Women's Amateur golf championship today as the field was pared to 16 survivors on the wind-swept seaside course.

Polly Riley of Fort Worth, Mae Murray of Rutland, Vt., and Claire Doran of Cleveland were the winning Americans. Mrs. Frank Goldthwaite of Fort Worth, was beaten on the 19th hole by Arlete Jaquet of Belgium.

After lunch the field went into the fourth round where Miss Riley faced Jeane Bisgood of England, Miss Murray took on Philomena Garvey of Ireland and Miss Doran opposed Molra Paterson of Scotland.

Miss Riley, regarded as the major American threat, rallied to defeat Mrs. Joan Gee of England, 2 and 1 in her third round match.

Miss Murray scored an easy 4 and 3 win over Cella Nicholson of Scotland and Miss Doran eliminated Elizabeth Price of England 5 and 4.

# Guerra Gets Eighth Win As Rockets Fall

ROSWELL (AP)—The Big Spring Broncs uncorked a seven-run fourth inning to break the backs of Roswell and glide to an easy 9-1 win over the Rockets here Monday night behind the five hit pitching of Gil Guerra. Guerra picked up his eighth win.

The Broncs provided Guerra with all the runs he needed, two, in the third inning, but it was the big seven in the fourth that demoralized the Rocket squad and gave Big Spring the win.

A double by Wayne Crawford and a single by Bobby West in the second frame for one run was all the damage Roswell did to Guerra as Big Spring evened the current series at one-all.

Three snappy double plays cut down young Roswell rallies. Guerra was aided by overall good defensive play by his teammates.

Rocket Manager Al Monchak watched the game from the bench, out with a touch of appendicitis. It is not serious, however, and he is expected back in the line up soon.

Big Spring, notched their seven runs in the fourth inning on singles by Al Costa, Ozzie Alvarez, Witty Quintana, Pat Stacey and Juan Viss.

## BETSY RAWLS AIMING FOR CHICAGO PLUM

By JERRY LISKA  
CHICAGO (AP)—Betsy Rawls, golf's golden gal from Texas, today aimed to parlay medalist honors into a \$1,000 conquest in the 3rd Women's Western Open Tourney to swell her 1952 fairways harvest past the \$10,000 mark.

Miss Rawls, who yesterday fired a 1-under-par 74 to pace the qualifying field by two strokes, stormed into the 16-match opening round at Skokie County Club against a stern amateur, Mary Agnes Wall of Menominee, Mich.

Betsy, 24-year-old Phi Beta Kappa from the University of Texas, snatched the favorite's role from Defending Champion Patty Berg, who qualified two strokes behind with another slick pro, Louise Suggs, at 76.

Miss Berg and sidelined Babe Zaharias virtually own this meet with four titles each. Miss Rawls never has even threatened in the event.

Miss Rawls, who won the recent Weather-vane Tourney and has a current loot of \$9,450 as a pro sophomore, faces an 83 qualifier in Miss Wall, twice runner-up in the meet.

Miss Wall, a dogged match-play competitor, was open runner-up in 1941 and 1943, a semi-finalist in 1949 and three times a finalist in the Western Amateur.

Miss Berg, still a rugged contender mixed with two Rocket errors, three walks, a passed ball and two stolen bases.

Doubles by Guerra and Alvarez, a wild pitch and a long fly by Quintana gave the Broncs their two runs in the second.

The two teams are scheduled for the rubber game of the three-game series here Tuesday night and both managers are expected to go with their ace hurlers. Aramis Arenchiba is expected to be Big Spring Manager Pat Stacey's choice and Al Monchak will probably send Robert Weaver to the hill for Roswell.

**Mize, Tidwell Shine In Win**  
Cook's Appliance continued its quest for the second half championship in the YMCA Industrial Fastball League Monday night, besting T and P Railway 4-0 behind the 1-hit pitching of Cotton Mize.

The lone hit off Mize came in the fourth inning by Otis Frizzell. Derryberry was the losing pitcher.

James Tidwell knocked in three of the runs with a home run in the first inning. The ball which hit in the croquet court in deep right-center field was said to be one of the longest home runs ever hit in the park. Tidwell also hit a triple in the game.

In the second game, the Veterans Hospital outsluged C. L. Rowe Humble 21-20. Hammonds was the winning hurler and aided his own cause with a three-run homer.

## Missouri Beaten By Holy Cross

OMAHA, June 17 (AP)—Missouri and Holy Cross clash on even terms tonight for the National Collegiate baseball championship.

Holy Cross, on the strength of five runs in the sixth inning, defeated the Big Seven champions 7-3 last night. If Missouri had won, it would have ended the tournament right there.

The Tigers had been undefeated in the double elimination play up to that time. But Holy Cross, which gained the finals by way of the loser's bracket, had already been beaten by Missouri, 1-0.

With both teams now down one the winner of tonight's game will take home the title.

**Bronc Schedule For The Week:**

WEDNESDAY—Artesians here  
THURSDAY—Artesians here  
FRIDAY—Artesians here  
SATURDAY—Roswell here

**SHADES OF 1951!**  
**Bobby Thomson Bashes Home Run To Give Giants Win**

By JOE REICHLER  
Who said everything happens in Brooklyn?

How about the Polo Grounds? Ever since Bobby Thomson cracked that pennant-winning home run in the final 1951 playoff game, the weirdest things have been occurring in the home of the New York Giants.

Look at what happened in the Polo Grounds last Sunday, for instance. The Giants were rolling along enjoying an 11-0 lead over the St. Louis Cardinals when suddenly the roof caved in on them. Before they realized what had happened the Cards had won 14-12.

Yesterday, just 24 hours later, the Cards were leading 7-4, when the Giants came to bat. Two walks, a single, an out and boom. Thomson practically duplicated his '51 feat, hitting a grand slam homer to beat the Redbirds, 8-7.

That's not all. Look at this believe-it-or-look-at-situation. Willie Schmidt, who tossed up that gopher ball to Bobby, made only one pitch—and he was charged with the defeat. The rookie righthander had been summoned to relieve Will Werle.

In contrast, the victory went to George Spencer, fourth Giant pitcher. He, too, made only one pitch. That was a double-play delivery to Del Rice to end the top of the ninth. So we have the unprecedented situation in which two hurlers make one pitch each, one of which is credited with the victory while the other is charged with the defeat.

Ironically, Thomson's game-winning homer came after the Giant third baseman had gone to bat 17 straight times without a hit. Eddie Yuhus, second St. Louis pitcher, set the stage when he walked Hank Thompson to start the last half of the ninth. Pinch hitter George Wilson lined to Red Schoendienst and Thomson moved to second when Schoendienst threw wild to first in a double-play attempt.

Davey Williams singled to send Thomson to third. Lefty Werle relieved Yuhus and walked Whitey Lockman to load the bases. Schmidt, a fast-balling righthander, took over. Thomson's belt went clear over the left field roof just

inside the foul line. The homer cut the Dodgers' first-place lead to three games, erased what looked like certain defeat for Sal Maglie and overshadowed homers by Wes Westrum, Al Dark and Williams for the Giants.

In the only other game scheduled in the majors, the Phillies edged out the last-place Pittsburgh Pirates, 5-4, to move into sixth place past the Boston Braves. A triple by Richie Ashburn and a long fly by Granny Hamner broke a 4-4 tie in the seventh.

**Anderson Fems Book Snyder**  
The Anderson Music Co. team will tangle with the Fikes segregation from Snyder in a softball match here Saturday night.

Starting time is set for 8 p.m. at the City Park diamond.

The Anderson team is still conducting workouts on Tuesdays and Thursdays at 6 p.m. at the Salvation Army diamond on West Fifth. Players interested in try-outs have been invited to report for the drills.

## Country Club Tournament Qualifying Opens Sunday

Qualifying in the annual Country Club Golf Tournament will get underway next Sunday and continue throughout the week, Pro Shirley Robbins has announced.

The tournament itself will be limited to two days. First two rounds of the meet will be conducted on Sunday, June 29. Semi-finals and finals take place on Friday, July 4.

Jake Morgan is the defending champion of the meet, having beaten Jerry Scott in the finals of the 1951 show, 4 and 3.

Robbins said a large number of Big Spring linksters will go to Sweetwater Sunday for their first Triangle League matches of the season with that city's representatives. Previously, local golfers have split even in two tests with Colorado City.

**Coaches Name All-West Zone Cage Quintet**  
The season has long since become history but the Western Zone coaches have finally gotten around to naming their 1952 all-star basketball team.

Bobby Maines, freshman from Big Spring, was the only HCJC player to rate the first team. HCJC won the Zone crown in a playoff with Amarillo.

Others named to the first team were Bob Patterson, Amarillo; Jerry English, Clarendon; Valton Tucker, Amarillo, and Charles Meadows, Frank Phillips.

The second team was composed of Robert Williams and Clarence (Casey) Jones, both of HCJC; Don Dorman, Clarendon; Ed Cornelius, Frank Phillips; and Dale Bradley, Clarendon.

Those gaining honorable mention included Charley Warren, HCJC; Vern Irwin, Amarillo; Rodney Beamguard, Frank Phillips; and Jim Burris, Amarillo.

**Robins To Meet Lamesa Sunday**  
The VFW Robins have booked a Lamesa independent team for a game in Lamesa at 3 p.m. next Sunday.

The Robins scored two victories over Ackerly the past week end, turning back the Eagles, 10-3, Saturday and again Sunday by a 17-13 count.

Jackson, Big Spring hurler, pitched a one-hitter until the ninth in the Saturday go. Nemoik collected two hits in two tries for the Robins.

Gross hurled the Sunday game and gave up eight hits. The Robins got a total of 20 hits in the two games.

**Tourney Re-Set**  
FORT WORTH, June 17 (AP)—The annual Women's Texas Open Golf Tournament has been reset for Oct. 20-27 at River Crest Country Club. Originally it had been scheduled to start Oct. 13.

**Anti-Aircraft Batteries Sent To Cover Strategic US Areas**

WASHINGTON, June 17 (AP)—The Army disclosed today it has sent anti-aircraft batteries to defensive positions about some strategic industrial plants, big cities and Air Force centers.  
An announcement said the move "has no special significance" but it came on the heels of Air Force orders for an around-the-clock watch for possible enemy planes.  
Civilian defense workers will keep the 24-hour vigil, beginning July 14, Maj. Gen. Frederic H. Smith Jr., deputy director of the Air Defense Command, said it is necessary because "the Soviets have had the capability for some time to attack us."  
The Army said it has deployed anti-aircraft units to field positions to provide "an increased state of operational readiness" for the nation's defenses.  
The exact locations of batteries were not disclosed, but the Army said they have been placed so as to "provide maximum defense against attack from any direction."  
The announcement continued:  
"The move to on-site positions is a step in continuing the deployment of the United States air defense system."  
"The Army emphasized that units had moved to these positions periodically for more than a year and that the current move has no special significance."  
Smith's assertion that Russia has the capability of attacking the U. S. was made at a Pentagon news conference late yesterday.  
To which Gen. Nathan F. Twining, acting chief of staff for the Air Force, added:  
"We can have no assurance of long-range forwarding of a decision by the Kremlin to attempt an assault on us. The lack of a thorough 24-hour watch is a weakness we can no longer afford."  
Twining said intelligence estimates credit Russia with being capable of launching at any time more than 400 four-engine bombers loaded with enough bombs—atomic and otherwise—to blast all U. S. metropolitan and industrial target areas.  
The start of "Operation Sky-watch" by the Defense Department after a conference of civil defense directors from all states and territories.  
Smith estimated from 50 to 80 volunteers will be needed to man each of the thousands of posts. Their special job will be to spot planes flying below 5,000 feet—those difficult to pick up on radar.  
The network of lookouts will be co-ordinated with the Canadian air defense program. Smith said sky-watching in Alaska and Hawaii is not linked with this continental organization but operates under local commanders.  
Observers will be spotted in 27 states. They are Maine, New Hampshire, Vermont, Massachusetts, New York, New Jersey, Connecticut, Rhode Island, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana, Michigan, Illinois, Wisconsin, Minnesota, Iowa, North Dakota, South Dakota, Montana, Idaho, Washington, Oregon and California.

**House OKs Social Security Increases**

WASHINGTON, June 17 (AP)—The House today gave its final approval to legislation increasing social security benefits at least \$5 a month for the 4 1/2 million Americans now receiving payments. It is expected to cost about 300 million dollars a year.  
A roll call confirmed yesterday's tentative voice vote of approval and sent the measure on to the Senate.  
Speaker Rayburn ordered the roll call at the request of Rep. Ford (R-Mich.).  
The measure's passage got many House members off a bad political "hook" on which they were snagged last month when they voted against a similar identical measure.  
Since then, the bill had been modified to meet objections of some members that it bore the seeds of socialized medicine.  
Sponsored by Rep. Doughton (D-N.C.), the measure would raise social security payments by an estimated 300 million dollars a year. The bill calls for:  
1. A monthly increase of \$5 or 12 1/2 per cent, whichever is larger, in payments to retired persons already on the rolls.  
2. A \$5 monthly boost above the present formula for persons who retire in the future.  
3. Proportionate increases for wives, widows, children and other beneficiaries of the system.  
4. An increase from \$50 to \$70 in the amount of earnings a retired person may obtain monthly and still receive all social security benefits.  
5. A freeze of the social security status of totally disabled persons—so their retirement benefits will not be diminished by a calculation of their non-productive years in figuring their benefit payments.  
It was the last provision which set off sharp criticism of the bill by the American Medical Association and Republican leaders as a step toward socialized medicine.  
The measure would allow the federal security administrator—Oscar Ewing has that job—to make rules covering the medical examinations of persons claiming total

and permanent disability so they may benefit from the freeze provision.  
Rep. Reed (R-N.Y.) paced the opposition, arguing that the provision would give Ewing too much control over the medical profession.  
Doughton denied that the measure has anything to do with socialized medicine which, he told the House, he "will never be for."  
The social security increase is being reconsidered by the House. Voting under a parliamentary procedure that required a two-thirds majority, the House rejected the measure recently.

**Conscription Of East Germans Set By Reds**

BERLIN, June 17 (AP)—Communist-run East Germany prepared today a law for conscription of a "People's Army" and for punishment of conscientious objectors as "enemies of peace."  
Apparently this is a trump card of the Russians in a move to force the Western Powers into a Big Four conference that might delay and strain the Western defense program.  
East Germany's 18 million people were told in an announcement by "the anti-Fascist Democratic bloc" of parties—the Communist-dominated bloc of the East Zone, that "whoever is not ready to take up arms against the attacker of peace encourages the attacker and endangers peace."  
The Communist premier, Otto Grotewohl, confirmed that rapid steps would be taken to set up East German national armed forces which will draw upon the already trained people's police, sea police and air police for the initial formations.  
Government sources refused to release in advance the full agenda of two-day session of the Volkskammer (People's Chamber) beginning tomorrow afternoon, at which the Army law may be introduced.  
The general outline of the legislation was approved last week by the five East German parties which are dominated by the Socialist Unity (Communist) Party. The law is certain of passage by the Volkskammer, whose 400 members never have cast a dissenting vote in the three-year history of the Chamber.

**Program Is Extended**  
WASHINGTON, June 17 (AP)—The House yesterday passed and sent to President Truman a bill extending until March 31, 1954 the program by which the government has been operating synthetic rubber plants.  
NEW YORK, June 17 (AP)—The Long Island Railroad, shut down by an engineers' strike creating one of the Metropolitan area's biggest commuter traffic jams, today tightened a freight embargo on its 400 miles of line.  
Notice of the embargo, a company spokesman said, has been filed with the Association of American Railroads.  
For more than a million persons on Long Island, who depend directly or indirectly on the busy line, there appeared no indication of an immediate settlement of the walkout, now in its second day.  
A company spokesman said another mediation session was set for today in an attempt to end the walkout, but time for the meeting was not definite.  
Federal efforts to settle the dispute broke down last night when representatives of the Brotherhood of Locomotive Engineers walked out of a meeting called by Ross Barr, a mediator for the National Mediation Board.  
The second day of the tie-up again filled Long Island roads with bumper-to-bumper automobile traffic. Transport officials sought to relieve the jam by increasing subway and bus service.  
On all parkways and main highways in Nassau County and in Queens County, the Automobile Club of New York reported, automobiles crept along in ever-increasing congestion.  
The Long Island is the nation's busiest commuter line, and the walkout hit the 100,000-plus passengers first. Many frayed bumper-to-bumper highways or crowded subways and buses to come to work yesterday, only to find themselves stranded at nightfall.  
Hotels were besieged. A spokesman for the packed 2,767-room Statler called it "the biggest jam New York hotels ever saw."  
Early today a Long Island official said the first day of the strike had caught about 3,000 empty and loaded freight cars in yards and on tracks of the LIRR.  
Although best-known for the 300,000 daily passenger fares it carries, freight accounts for more than 20 per cent of the road's revenue.  
A railroad spokesman said the Long Island moves raw materials to the Island's Republic, Grumman, and Fairchild aircraft plants, which have defense contracts. It also brings food, fuel and other supplies for the 800,000 residents of Nassau and Suffolk Counties and the thousands of New Yorkers who live in the boroughs of Queens and

**Competing Boy Lamas Have Buried Hatchet**  
PUSAN, Korea (AP)—A spokesman for opponents of President Syngman Rhee said today, "We are smothering now, withering away," and indicated readiness to accept a middle-of-the-road compromise.  
But there were reports that Rhee will reject the compromise.  
Middle of the road national assemblymen propose a compromise. They would accept Rhee's demands for popular election of a President instead of by the Assembly vote and for a two-house national congress. They also would give the Assembly power to throw out the Cabinet.  
**French Red Leader Demands Hearing On His Arrest**  
PARIS (AP)—Top French Communist Jacques Duclos, jailed on charges of plotting against the internal security of the state, today demanded a parliamentary hearing on whether the government had the power to arrest him.  
The under-secretary general of the French Communist party was nabbed May 28 during bloody Red demonstrations against Gen. Matthew B. Ridgway, new commander of Atlantic Pact forces in Europe.  
Duclos is one of the deputies representing the Seine district, which includes Paris, in the National Assembly. As such, he maintains the French Constitution prohibits his arrest.  
In a letter from his prison cell to Assembly President Edouard Herriot, Duclos demanded the right to appear before the Assembly to question the government on "the arbitrary arrest of an opposition deputy in violation of Article 22 of the Constitution."

**Freight Embargo On LIRR Is Tightened**  
NEW YORK, June 17 (AP)—The Long Island Railroad, shut down by an engineers' strike creating one of the Metropolitan area's biggest commuter traffic jams, today tightened a freight embargo on its 400 miles of line.

**Freight Embargo On LIRR Is Tightened**

NEW YORK, June 17 (AP)—The Long Island Railroad, shut down by an engineers' strike creating one of the Metropolitan area's biggest commuter traffic jams, today tightened a freight embargo on its 400 miles of line.  
Notice of the embargo, a company spokesman said, has been filed with the Association of American Railroads.  
For more than a million persons on Long Island, who depend directly or indirectly on the busy line, there appeared no indication of an immediate settlement of the walkout, now in its second day.  
A company spokesman said another mediation session was set for today in an attempt to end the walkout, but time for the meeting was not definite.  
Federal efforts to settle the dispute broke down last night when representatives of the Brotherhood of Locomotive Engineers walked out of a meeting called by Ross Barr, a mediator for the National Mediation Board.  
The second day of the tie-up again filled Long Island roads with bumper-to-bumper automobile traffic. Transport officials sought to relieve the jam by increasing subway and bus service.  
On all parkways and main highways in Nassau County and in Queens County, the Automobile Club of New York reported, automobiles crept along in ever-increasing congestion.  
The Long Island is the nation's busiest commuter line, and the walkout hit the 100,000-plus passengers first. Many frayed bumper-to-bumper highways or crowded subways and buses to come to work yesterday, only to find themselves stranded at nightfall.  
Hotels were besieged. A spokesman for the packed 2,767-room Statler called it "the biggest jam New York hotels ever saw."  
Early today a Long Island official said the first day of the strike had caught about 3,000 empty and loaded freight cars in yards and on tracks of the LIRR.  
Although best-known for the 300,000 daily passenger fares it carries, freight accounts for more than 20 per cent of the road's revenue.  
A railroad spokesman said the Long Island moves raw materials to the Island's Republic, Grumman, and Fairchild aircraft plants, which have defense contracts. It also brings food, fuel and other supplies for the 800,000 residents of Nassau and Suffolk Counties and the thousands of New Yorkers who live in the boroughs of Queens and

Brooklyn. A considerable amount of Long Island produce is moved to market by rail.  
Federal Mediator Ross Barr called the company and the union together for four hours yesterday, but the talks broke down when the striking engineers walked out. Barr said only that he hoped there would be new talks today.  
A company spokesman said the negotiations showed "no progress." A union official described them as "stalemated."  
Chief issues in the dispute are working conditions under a new national wage agreement of last May 23, which neither the Brotherhood nor the railroad have yet agreed to. The union also says it has many grievances outside of the agreement. Wages are not an issue.
