## Local County and District Clerk Attends Seminar at College Station

About 500 county and district clerks and their staff members took part in the 18th Annual County and District Clerks Seminar in College Station March 19-21.

The seminar, "Back to the Basics", was designed to cover the major duties and responsibilities of both district and county clerks.

Lucretia Campbell, County & District Clerk for Motley County said highlights of the seminar included discussions on Civil Procedures, Criminal Procedures, Family Law Procedures and Texas Local Government Records Act.

Speakers from the areas of civil procedures, both criminal misdemeanor and criminal felony procedures, probate matters and family law procedures presented latest information as it relates to work of county and district clerks.

Clerks who attended all seminar sessions covering work responsibilities were awarded 11 hours toward the 20 hours of continuing education credit they are required to earn every two years. The educational credits were managed by the

Continuing Education Office of Texas A&M University.

The seminar was planned and conducted by the Texas Agricultural Extension Service's V.G. Young Institute of County Government in cooperation with the county and District Clerks' Association of Texas.

John A. Gilmartin, Extension Service coordinator for the V.G. Institute, and Joe Rothe, Extension Service specialist, ar-

ranged separate training sessions for county and district clerk groups and also helped arrange combined general seminar sessions.

The two specialists indicated the 1990 Seminar provided latest cutting edge information for county and district officials.

"The training effort was practical and dealt with timely topics. It was one of the best conducted," said Gilmartin.

## BASEBALL

### Sign-up to begin soon for Summer Little League

It's spring! That means it's time to start thinking about the M.C.Y.O. Summer Baseball Program. The two sign-up periods will be from April 2 through April 16. No one will be allowed to sign up after April 16. (The only exception will be someone whose family moves into Motley County as residents before the first half of the season is completed).

The sign up sheets will be handed out at school. When completed, they should be returned to the student's homeroom teacher. T-Ball is for students in grades K-3. Softball is for students in grades 4-8, as long as the student was not 15 before September 1 of the current school year. If there is enough interest by the students in

grades 9-11, we will have a softball division for grades 8-11.

If you have an eligible relative who will be staying with you in June and he/she wants to play, please contact Kathy Gillespie at 347-2208 to get a sign up form.

There will be a general meeting of the M.C.Y.O. on Thursday, April 19, at 7:00 p.m. at the baseball field. In case of inclement weather, the meeting will be held at the VFW/4-H Building. The baseball field clean up will be Thursday, May 3 at 7:00 p.m. Everyone is encouraged to attend the meeting as well as to help clean the field.

Texans return to the polls Tuesday, April 10 for round two of the 1990 election year nominating process. On that day, several statewide and local Democratic and Republican party primary runoff elections will be held.

On Tuesday, March 13, Texans went to the polls in record numbers to nominate hundreds of statewide and local candidates. The primary runoff elections will determine the outcome of those races in which no candidate received more than 50 percent of the votes cast.

It is imperative that Texas voters participate on April 10 as they did on March 13 when statewide primary voter turnout reached an all-time, non-presidential year high.

Many important decisions at all levels of government will be made in the runoffs, but, if history repeats itself, a relatively small number of Texans will make those decisions.

At the statewide level, Democratic Party primary voters will nominate candidates for Governor, State Treasurer; Justice, Supreme Court, Place 2; and Judge, Court of Criminal Appeals, Place 1, while Republican Party primary voters will nominate candidates for Agriculture Commissioner and Land Commissioner.

In recent years, the drop in voter turnout from the primary election to the runoff has been substantial. For example, take the 1984 Democratic Party primary race for the U.S. Senate when turnout dropped from 21 percent in the primary to 14 percent in the runoff. Another dramatic decline took place in the 1988 Republican Party primary for U.S. Senate when the turnout rate dropped from 10 percent to 2 percent.

We can and we must do better, particularly when you consider the importance of runoff elections. By not partici-

pating in this final round of the nominating process, we let others decide who will be on the general election ballot on Nov. 6.

Fellow Texans, I challenge you to return to the polls on April 10. Make your voice heard. If you are registered, but did not vote on March 13 you can still participate in round two on April 10.

The rules for voting in the runoff are simple. If you did not vote in either political party's primary, you can still have a voice in the nominating process by voting in the runoff elections. If you voted in one political party's primary, you can't vote in the other political party's runoff.

This year's primary runoff election officially gets under way with the Monday, April 2 opening of the extended absentee voting period. From April 2 until April 6, Texans who are registered to vote can appear at polling places across the state and cast absentee ballots.

In the most recent primary elections, approximately 15 percent of those who voted cast their ballots during the "no-excuse" extended absentee voting period.

On March 13, Texas recorded its highest primary election turnout ever in a non-presidential year. More than 2.3 million Texans cast ballots in the Democratic and Republican party primaries, a turnout believed to be the second highest total for any primary election in state history. We need to maintain that enthusiasm and continue the momentum as we approach April 10.

I have said this before, but I believe it bears repeating. Voting is one of the most - if not the most - important privileges of American citizenship. People throughout the world are bravely standing up and fighting for democracy, a right that many Americans so often take for granted. Let's show the world that in Texas, we practice what we preach by voting on April 10.

The bus went to Lubbock Monday with several people riding it and several doctor's appointments. The bus went to Plainview Thursday and there were seven people riding. Everybody seemed to have a good time and they all enjoyed both trips.

Friday, Monita opened the door for games and fellowship at 2:00 p.m. and there were several people come to play 84 and 88 and Dominoes and they had re-

We had our fourth Tuesday luncheon this week and had a good crowd. We ask everyone that can to come and eat with us and enjoy a good meal. Our luncheons are the second and fourth Tuesdays of each month. I think if you ever started coming, you would keep coming back. So come on out and be with us anytime!

## TIPS ON TAXES

by U.S. Senator  
 Lloyd Bentsen

Most people would rather do just about anything than work on their federal income tax return, but if you have to do it, there are some ways to make it a little easier.

Here are some tips from the Internal Revenue Service that may help you file your federal return.

First, the obvious, file as early as you can. It's to your advantage to do so, especially if you expect to get a refund. After all the government is holding on to your money and not paying you interest. But since April 15th falls on a Sunday this year, you will have an extra day (until Monday, April 16th) to finish your returns.

Second, before you start get all your tax information in one place. You'll need W-2 forms showing how much you earned in 1989. You will need information showing the interest and dividends you have received. And you will need records of any contributions to an Individual Retirement Account (IRA). Remember, you have until April 16, of this year, to make an IRA contribution, and, if you're eligible, you can still deduct that contribution on your 1989 return.

If you itemize your deductions, assemble records of all items you are planning to deduct. Some of the most common deductions taken are mortgage interest and property tax payments, as well as interest paid on credit cards. You may still deduct 20 percent of credit card interest payments for 1989.

What's new for 1989? One important change involves the Medicare Catastrophic Coverage Act, which was repealed late last year. However, since the current

tax forms were printed before this change, there is still a line on your tax form for reporting a supplemental Medicare premium. When you come to this place on your tax form, Line 54 on the 1040 Form or line 23 on Form 1040A, simply skip the line.

Here are some other changes for 1989:

\* The tax exemption for you, your spouse and dependents has increased to \$2,000. And the standard deduction has increased for most people, so you may want to take the standard deduction this year even though you have itemized deductions in the past.

\* The income limit for the Earned Income Tax Credit (EITC) has increased. To be eligible for the EITC a child must have lived with you. The income limit for 1988 was \$18,576, but if you earned less than \$19,340 in 1989, you may be able to take this credit. Check your tax instructions for other restrictions.

\* If you claim dependent exemptions for children age 2 or older, you must show each child's social security number on the tax return, which can be obtained by applying at a local Social Security office. If you do not have the number when you are ready to file your return, write "Applied for" in column three of the form.

\* To claim a credit for child care, or exclude employer-provided care benefits from your income, you must include some new information on form 2441. Be sure to read the instructions carefully.

One final tip, IRS officials advise that one of the most common mistakes people make when filing their return is failing to sign and date the tax form.

## El Progreso Club Travels to the Himalayas

Frances Traweck Morris is pictured here with some of the many items she has collected from trips to the Himalayas.

by Beverly Vinson

El Progreso Club met March 22nd in the First United Methodist Church for an International Affairs program featuring Motley County native Frances Traweck Morris of Houston. As guests and members entered the foyer of the church, Tibetan folk music was heard. The Himalayas has captured the imagination of mountaineers and explorers for over a hundred years. Its people have deep cultural traditions. Their music lends much to the aura of this part of the world. The music heard reflects the traditions of the Tibetan music which is prevalent throughout the Himalaya. Popular musical instruments are drums, cymbals, flutes, lutes, brasshorns, conch-shell horns, bone horns, the piwant (a fiddle made of yak horn) and the dulcimer. On display in the foyer were many varied artifacts and mementoes Fran had brought for the group to enjoy such as wearing apparel, musical instruments, etc.

As the group gathered in the sanctuary Mrs. Frank (Lola) Pohl played organ music followed by the welcome by club president Mrs. Joe (Loys) Campbell. Rev. Gene Louder gave the invocation.

A delicious buffet supper was served with Mrs. Bob (Nell) Clem, chairman and Mrs. Frank (Lola) Pohl serving on the committee. The tables were decorated courtesy of Matador Floral and Texas T's & Floral and were fitting in their Oriental appearance lending to the program to be presented. Lois Campbell welcomed the guests, Mr. and Mrs. Warren (Leta Jo) Haynic of Crowell, she serving Santa Rosa District as President, and Mrs. Ned (Fran) Morris.

Mrs. J.E. (Marge) Edwards as leader for the evening quoted Fran Morris' thought as taken from the caption in the club yearbook: "To climb a mountain must inspire such expectancy but oh! the exhilaration when the feat is accomplished." Introducing Fran, Mrs. Edwards told of her graduation from MHS in 1953, working in Glacier Park four summers while in college (U.T. where she graduated as an art major), was introduced to technical climbing by a friend in Glacier who was a Ranger on the mountain Rescue team. She attended California's Palisade School of Mountaineering in the High Sierras, Swiss Institute of Mountaineering, studied advanced climbing on snow and ice at the International school of Mountaineering (also in Switzerland), climbed a number of classic routes in Switzerland such as the Matterhorn during the late 60s and early 70s. In between times she taught art in one of Houston's inner city schools with pupils taking many art awards in overall Houston competition. In 1984 Fran was invited to become a member of India's International Himalaya Club. She enjoys writing, photography and painting while in the mountains. Her photos, articles and painting have been published in many Himalayan area magazines and numerous U.S. papers and magazines.

At the tables were beautiful orchid mountain cutouts with snow glittering on the peaks that were placecards on which Lola Pohl had written the names of members and guests in white ink. Beside each plate was a booklet made by Fran with the picture on the cover made from a wooden block which was purchased from a monk at a monastery in the area of Mt. Everest. The design was a langta or windhorse and is usually printed on strips of cloth and is carried by Buddhist devotees to be placed on high passes. These hundreds of prayer flags flutter in the winds carrying their blessing on the winds to all living things.

Ten years after beginning teaching, her first trip was to Calcutta and from

then on she was "hooked", making fourteen trips in the intervening years. Her treks have been with an organized group, an independent group and on her own and also one she organized. Countries travelled have been Tibet, India, Pakistan, Nepal, Sikkim, Bhutan. Quoting from Fran's booklet, "The Himalaya Ranges from a supreme mountain system containing some of the most spectacular scenery to be found on earth.

Ancient trade routes and pilgrimage sites abound beneath the snowy summits. These trails take you through magnificent alpine terrain. They lead toward passes at extremely high altitudes. There, glaciers must be crossed, and the trails just become a general possible way, where landslides and snow bridges present potential danger. Streams and rushing torrents become problems to solve. These trails lead to mysterious monasteries high on remote crags and to valleys inhabited by many fascinating races and clans.

The journey may be arduous, but the adventure, sense of discovery, and the reaching of a deeper understanding of our world and its people is a priceless reward.

The slide presentation offers a glimpse of lands trekked and a technical climbing expedition. They were collected on 14 expeditions, beginning in 1963. It encompasses a 1500 mile span of the range, including Tibet."

The slides Mrs. Morris presented were fascinating to behold showing the ever famous Mt. Everest with the snow blowing off toward the east (a way of recognition), the barrenness of much of the country compared to the growth of trees and plants of the mountains below timberline, the primitiveness of living but the peace and happiness on the faces of the natives of the area. Monasteries were numerous (upward of 3000) with very few occupied (less than 10) It was noted that a baby's first outing is to the temple to be blessed, protecting him from any evil that may await him.

Many months of planning was necessary for the treks Fran has taken. There were numerous papers and forms to fill out, fees to be paid in order to climb the mountain she had chosen as her goal. One fee was paid for a climb to a certain altitude, and more of a fee to climb higher. Most climbers travel in early morning for avalanches occur around noon or later when the snow and ice have had a chance to melt. On one of the trips made by Fran she was alone for some hours, no TV, no radio, no telephone, alone to think, write, read and meditate in complete silence. She brought out her paints and put onto canvas what she had seen and was seeing. Those paintings depicted the beauty of the snow and ice, the vastness and loneliness felt, with contrasting colors of rock and sky.

For the closing Inspirational Thought Mrs. Edwards quoted from General Douglas MacArthur, "Years may wrinkle the skin, but to give up interest wrinkles the soul."

Members and guests attending were Mr. and Mrs. Joe (Loys) Campbell, Rev. and Mrs. Gene (Mary) Louder, Mrs. Robert (Winifred) Darsey, Mr. and Mrs. Harold (Grace) Campbell, Mrs. J.E. (Marge) Edwards, Mrs. L.B. (Lucretia) Campbell, Mrs. R.E. (Hazel) Donovan, Mr. Carl Pierce, Mrs. Edgar (Winifred) Lee, Mrs. W.D. (Vena) Lipscomb, Mr. and Mrs. E.A. (Dorothy) Day, Mrs. Katherine King, Mrs. Ted (Bailey) Elliott, Mrs. J.D. (Opal) Craven, Mrs. Melvin (Mary) Meason, Mrs. Barbara Jameson, Mr. and Mrs. Frank (Lola) Pohl, Mrs. Bob (Nell) Clem, Mr. and Mrs. Furman (Beverly) Vinson, Mr. and Mrs. Warren (Leta Jo) Haynic, Mr. Bill McCaghren, Miss Rachel Patton, Mrs. Ned (Fran) Morris.

## Dunlaps buys Plainview Clotheir

Gabriel's Department Store, which opened its doors in Plainview 30 years ago this month, has been sold to The Dunlap Company, parent of Stripling & Cox, of Fort Worth, effective Monday, March 12.

The announcement was made by Reg Martin, chairman of the board of The Dunlap Company, and by Frank and Max Gabriel of Plainview who plan to pursue other business interests.

DUNLAPS, is a family-owned company which owns numerous stores throughout the Southwest. In keeping with its philosophy of local autonomy for its stores, Dunlaps plans no major changes in the operation of the Plainview store, which will retain the Gabriel name, according to Martin.

Announcement of new store management at Gabriel's likely will come next week and Dunlaps plans to retain the firm's 15 employees, said Frank Gabriel.

The history of The Dunlap Company dates back to 1893 when H.G. Dunlap opened a store in Wagoner, Indian Territory (later Oklahoma), shortly after the land rush of 1889.

Presently there are Dunlaps stores in Abilene, Amarillo, Big Spring, Lubbock, Midland, Odessa, Pampa, San Angelo and Victoria, Texas and Hobbs and Santa Fe, N.M.

Many people here will remember shopping at Gabriel's in Matador and Spur during the 50's.

## Couple Celebrates 50th Wedding Anniversary

R.L. and Lillie Brandon celebrated their 50th Wedding Anniversary on March 9. A reception was held at the Emmanuel Baptist Church Fellowship Hall on March 10. The couple celebrated the occasion by renewing their vows and exchanging gifts. Gifts of a diamond ring and a gold watch were given by the couple's children and grandchildren.

The couple then performed a cake-cutting ceremony and greeted guests. Guests from as far away as New York City came to join the couple in their celebration. Present were their children, Robert L. Brandon of Denver, Colorado, and Beverly Brandon Sweeney of Fort Worth; Grandchildren Kristi Brandon of Denton, Ronald Brandon of Houston, and Chandler, Kara, and Sean Sweeney of Fort Worth.

Son-in-law, John J. Sweeney, read a summary of important events which happened in the year of their marriage, 1940, as popular music of that era played in the background.

Also present were siblings of the couple, Frenchie Dewbre of Graham, Lila Greenroyd of Iowa Park, Minnie Lee Guillian of Wichita Falls, and Hallie Faye Burns of Paudcah. Carol Pressman of New York City, fiancée of Robert Brandon, flew in for the weekend. Many special friends from Weatherford added to this special event by coming to the reception, giving gifts, and sending flowers. One very special gift was given by Lillie's sister, Minnie Lee. She gave Lillie a 50th Anniversary plate which had been given to their mother and father on their 50th Anniversary.

## Rays of Hope

by Lola Eason

Time is such a priceless commodity. Time never stops, never slows down, never speeds up. Though we think it does sometimes. Some people have time on their hands, others never have a spare minute.

When our children were home, it seemed we never had enough time to spend with them. We had a very busy schedule, but we always made a point, if possible, that every member of the family be present at meal time. These were the times of sharing and letting the children give their opinions.

Time passes so quickly, we get so caught up in the whirl of today, in coming and going, in getting and doing. We often forget time is running out. With each passing day our lives are getting shorter. But God, who inhabits eternity, "Offers to deliver us from this absurdity." John 3:16 says, "For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life."

Naturally we all want to live longer. A new study on 10,000 Mormons, found the lowest death rate ever reported from disease and cancer. Epidemiologist, James

Enstrom of the University of California reported, "The key factor producing longevity among Mormons he studied were, never having smoked, getting regular exercise, good eating habits and among other things, regular Church attendance." Regular Church attendance was also cited to be indicative of social and family support which can contribute to longevity, reports E.P. News.

Maybe we should say, "If we want our lives less hectic and more rewarding, we should frequent the church more often and lead a disciplined lifestyle."

Step by Step  
author unknown

"He does not lead me year by year, nor even day by day; but step by step my path unfolds, my Lord directs my way. Tomorrow plans I do not know; I only know this minute, but He will say, "this is the way, by Faith now walk ye, in it." What need to worry then or fret? The God who gave his Son holds all my moments in his hand and gives them one by one."

An old quotation, "Only one life will soon be past, only what's done for Christ will last."

A gentle answer turns away wrath, but a harsh word stirs up anger. Proverbs 15:1

## Public Notice

### FINAL NOTICE

The Farmers Home Administration (FmHA) has received an application for financial assistance from the City of Roaring Springs, Motley County, Texas. The specific elements of this proposed action is to replace the existing potable water system, consisting of the construction of 2 water wells, 100,000 gallon standpipe storage tank, approximately 25,200 feet of 4 inch to 8 inch water lines and appurtenances to serve approximately 160 households. Portions of the proposed water distribution lines will be located within the floodplain as designated by the U.S. Department of Housing and Urban Development Flood Hazard Boundary Maps.

FmHA has determined there is no practical alternative to the location of the distribution lines within the designated floodplain. Any adverse impacts to the floodplain will be mitigated by prohibiting the extension of service to structures not existing in the floodplains as published in the Motley County Tribune, on January 25, and February 1, 1990.

With the incorporation of the mitigation measure, FmHA has determined that the locational impact is minor to the extent that the floodplain or wetland natural value or functions are not affected.

FmHA has assessed the potential environmental impacts of the proposed action and has determined that it will not significantly affect the quality of the human environment. Therefore, FmHA will not prepare an environmental impact statement for this project.

Other agencies participating in the proposed action include the United States Department of Commerce, Economic Development Administration, and the Community Development Block Grant Program administered by the Texas Department of Commerce.

Any written comments concerning this determination should be provided to Mr. Charles B. Hart, Community Programs Loan Specialist, Farmers Home Administration, 101 South Main, Suite 102, Temple, Texas 76501. FmHA will make no further decisions regarding this proposed action during this fifteen days. ### NOTICE OF TARIFF CHANGE TO CENTRANET® SERVICE

GTE Southwest Incorporated gives notice of its proposed tariff changes to CentraNet® service, which is a Central Office-based service that provides PBX-type features to multi-line business customers and is currently being offered in all company wire centers where such facilities exist to provide the service.

The Public Utility Commission of Texas approved a generic tariff for CentraNet® service up to 100 lines in Docket No. 7652. The proposed tariff revision would establish specific rates for CentraNet® service involving 101 to 400 lines. Other proposed revisions involve the rate applicable to changes, additions, or deletions to the data bases and a new rate is proposed for additional trunks.

The names of the three CentraNet® packages have changed from Standard, Premium, and Deluxe to CentraNet® 1000, CentraNet® 2000, and CentraNet® 3000, respectively. Direct Call Pickup has been added to the three CentraNet® packages while Multiple Call Park and Shared Speed Call 30 have been added to CentraNet® 2000, and Speed Call 30 and Call Forward Busy/No Answer Split have been added to CentraNet® 3000. Flexible Night Answer and Automatic Route Selection also have been added as new optional features.

The proposed changes and new service offerings have been assigned Docket No. 9251, and pursuant to Section 43(d) of the Public Utility Regulatory Act will become effective June 23, 1990. Rates for service will be applicable to customers who subscribe to the service as well as existing customers. Therefore, there will be no effect on any other rates of the company. The company's gross annual revenues will increase by approximately \$399,600, or less than one percent annually.

The proposed rates are on file with the Public Utility Commission of Texas, and are available for public inspection at the offices of GTE Southwest Incorporated. ## The Fable of the Snake

Many years ago, Indian youths would go away in solitude to prepare for manhood. One such youth hiked into a beautiful valley, green with trees, bright with flowers. There he fasted. But on the third day, as he looked up at the surrounding mountains, he noticed one tall rugged peak, capped with dazzling snow.

I will test myself against that mountain, he thought. He put on his buffalo-hide shirt, threw his blanket over his shoulders and set off to climb the peak.

When he reached the top he stood on the rim of the world. He could see forever, and his heart swelled with pride. Then he heard a rustle at his feet, and looking down, he saw a snake. Before he could move, the snake spoke:

"I am about to die," said the snake. "It is too cold for me up here and I am freezing. There is no food and I am starving. Put me under your shirt and take me down to the valley."

"No," said the youth. "I am forewarned. I know your kind. You are a rattlesnake. If I pick you up, you will bite, and your bite will kill me."

"Not so," said the snake. "I will treat you differently. If you do this for me, you will be special. I will not harm you."

The youth resisted awhile, but this was a very persuasive snake with beautiful markings. At last the youth tucked it under his shirt and carried it down to the valley. There he laid it gently on the grass, when suddenly the snake coiled, rattled and leapt, biting him on the leg.

"But you promised-" cried the youth.

"You knew what I was when you picked me up," said the snake, as it slithered away.

And now, wherever I go, I tell that story. I tell it especially to the young people of this nation who might be tempted by drugs. I want them to remember the words of the snake: You knew what I was when you picked me up.

A little boy went to Sunday School and was given a card with the Bible verse, "Have Faith in God."

Riding home on a bus, he opened the window and stuck out his hand. A gust of wind came along and blew the card away. "Stop the bus!" he cried. "I lost my faith in God."

When faith in God goes, man the thinker, loses his greatest thought; man the worker, loses his greatest motive; man the sufferer, loses his only refuge; man the sinner, loses his only Saviour; and man the mortal, loses his only hope.

Have faith in God through His Son. Then you'll have happiness here and heaven hereafter.

# Letter to the Editor

Dear Editor:

## AMERICAN BAR ASSOCIATION HAS DECLARED WAR ON CHRISTIANITY

Christianity in America is increasingly coming under attack by civil government regulation and limitation. Recently, private litigants have begun to bring suits against the Church and Christian Ministries. All the signs point toward a rapid escalation of these attacks on both fronts in the very near future.

The primary focus will center on tort litigation which was the subject of a seminar conducted May 5 and 6, 1989 (and almost every week since somewhere in the country) in San Francisco, sponsored by the Section of Tort and Insurance Practice, Section of Individual Rights and Responsibilities and the Division for Professional Education of the American Bar Association.

At the top of the ABA brochure advertising the seminar was the very distressing statement that the seminar was for "Attorneys who want to be on the leading edge of an explosive new area of law." Christianity was placed on notice that there is a "new area of law" coming against it, and it is "explosive."

The new weapon is the tort suit, and it was described by several of the speakers as a "Nuclear Weapon." Shockingly, it is the American Bar Association, which used to be the most prestigious legal organiza-

tion in the United States, but now it is approaching the ACLU as the most anti-Christian, anti-American and anti-Christian organization in the United States, is taking the lead in training the trial lawyers of America to fire this new weapon at Christians, Ministers and Christian Organizations.

The opening subject of the American Bar Association, was entitled "Expanding Use of Tort Law Against Christianity." This set the tone for the entire seminar. The first speaker under this topic was a trial lawyer who entitled his presentation "Tort Law as an Ideological Weapon." He was followed by another trial lawyer who spoke on "Tort Law as Essential Restraint on Christianity."

The whole thrust of these presentations was how tort law was and would be used against Christian Organizations and individuals. **WAR HAS BEEN DECLARED BY THE AMERICAN BAR ASSOCIATION AGAINST CHRISTIANITY AND IT IS IN A FIGHT TO THE DEATH!**

Well Christians are you going to sit in your Spiritual Foxholes and let these anti-Christians destroy Christianity or are you going to put on the whole armour of God and fight these devils? It's all up to you.

Sincerely,  
Willie Martin

To the Editor:

A retraction is needed on the "To the Editor" column printed last week, as the wording, 'adul' should be 'Adolph' and on the same article, 'Iacocca' is the President of Chrysler and not General Motors.

\*\*\*\*\*

Famous quotations by our leaders of this great U.S.A. of ours as follows:  
General Douglas McArthur - "I shall return."  
General George S. Patton - "Do not feed them, shoot them."

Dr. Luther King - "I had a vision."  
Disabled Veterans dream - "send back the Jap crap and buy U.S.A. made."

I take my hat off to a man that helped restore the Statue of Liberty and defends the U.S.A. made products that are superior, and once again my fellow Americans, buy U.S.A. made and keep our working force with jobs for our people first.

And now that our great country is overstocked with Jap crap and German junk, what else are the so-called leaders planning to let into our country's pollution, is the question being asked.

In Texas, our signs read, 'Keep Texas Clean'. Then may I ask about the Jap crap being built in Texas, by our own people, who either forgot the meaning of U.S.A. made or don't care for our country's wel-

fare. The U.S.A. automobile is going to demonstrate that American made is superior to any junk that is shipped to our country that fills our fields, backyards and car lots as the best, but not in the West. We clean up the junk sent to us and make a superior product from the Jap crap and German made and with this in mind, we will build back our place in the world as number one.

Who will love and preserve peace for all human rights and its Democratic way of life. Thank you Mr. Iacocca for helping preserve our Lady of Freedom, who stands at our gate of freedom.

Now that we showed the world that being free is the way of life, let's start to clean up our U.S.A. of the mess that we overlooked being busy to help the ones that needed us and round up the intruders that are here illegally and send the infiltrators back to where they came from so decent and honest people get their chance to be U.S.A. citizens. Let's get our flag waving at parades. Let's teach our children what our flag means to an American. Wave our flag on the days of our heroism and remembrance and most of all, our fallen and deceased Veterans of all races and creed and especially the Gold Star Mothers who gave up their sons and daughters for this great country of ours.

A Veteran,  
John R. Deputala

### BAGWORM CONTROL

It's almost time for bagworms to come out of their bags and begin feeding on our trees and shrubs. Last year several people asked me about controlling bagworms. Unfortunately they asked too late.

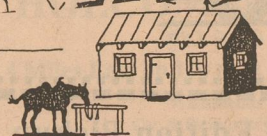

The worms were already in their bags which makes chemical control almost impossible. I don't think there will be as many bagworms this year due to the extremely cold temperatures we had this winter, however there will still be some emergence.

The best way to control bagworms is to pick the bags from your trees in the winter and burn them. If you didn't do this, then insecticides will have to be

timed right to get good control. Insecticides should be applied in April, May and June if large numbers of bagworms are found. Insecticides containing Sevin<sup>®</sup>, Dursban<sup>®</sup> and Malathion usually do a good job of controlling bagworms. You should always read and follow carefully the instructions on the labels of insecticides.

Officials of Plains Cotton Growers, Inc. have secured Phillip C. Burnett of Memphis, TN as one of two guest speakers for the 25-county producer organization's 33rd annual meeting on Thursday, April 5. Registration for the event will be at 9:00 a.m. in the east end of Lubbock Memorial Civic Center Banquet Hall. The official meeting is to conclude at noon, followed by a catfish and chicken buffet luncheon served to all attendees.

Burnett is Executive Vice President of the National Cotton Council (NCC), the U.S. industry's multi-segment organization headquartered in Memphis, with offices in Washington, London and Hong Kong. He joins a previously announced speaker, Lester J. Smith of Greensboro, NC, on the PCG program. Smith is Vice President and Director of Purchasing for Cone Mills, the largest American producer of denim and corduroy.

The producer meeting is scheduled in conjunction with the April 5 through 7 Texas Cotton Ginners Association convention and trade show, which annually fills the Civic Center with over 6,000 ginners, producers, oil millers, warehousemen and industry suppliers. Exhibitors from all across the Cotton Belt, normally numbering over 125, will have on display equipment and materials related to all phases of cotton production, transportation and processing. If history repeats, they will occupy every inch of the 300,000 square foot facility's exhibition space and spill over into parking lots.

PCG is fortunate to get two such knowledgeable individuals to address its membership, says Executive Vice President Donald Johnson. The ability of our

farmers to move a step ahead of our competitors in satisfying cotton quality needs of textile customers, he adds, will have a lot to do with the future of High Plains cotton production. "And I feel certain we can learn a lot about customer satisfaction from Lester Smith."

In addition to his position with Cone Mills, Smith, a textile engineering graduate of Texas Tech University, is a member of the American Textile Manufacturers Institute Cotton Committee, the New York Cotton Exchange Board of Managers, and a member of the U.S. Department of Agriculture's Advisory Committee on Cotton Quality Measurement.

The other speaker, Phil Burnett, Johnson continues, is one of the best qualified people in the nation to analyze the ins and outs of current Washington debate on a 1990 farm law. At least for the next several years, Johnson states, provisions of the next farm law will be a dominant factor throughout the agriculture economy and especially in the High Plains cotton economy.

Burnett became executive vice president of the National Cotton Council in February of this year after seven years as president of the Cotton Board that administers producer-funded research and promotion programs conducted by Cotton Incorporated. He joined the NCC field staff in 1966, was later promoted to the executive vice president's staff, and in 1972 advanced to the Council's assistant Washington representative. In 1977 he returned to the council's Memphis office as program coordinator and assistant to the executive vice president, a position he held for four years before joining the Cotton Board.

## Public Notice

Southwestern Bell Telephone Company intends to file an application with the Texas Public Utility Commission to introduce new optional services - Call Control Options. The initial service areas will be Laredo, McAllen and Austin. Expansion into other service areas will be based on availability. Customers in other areas will be notified when these services become available.

Call Control Options include six new services - Call Blocker, Call Cue, Call Return, Priority Call, Call Trace and Selective Call Forwarding. The features will be available to single-line residence and business customers.

**Call Blocker** - enables the customer to block incoming calls from a maximum of three specified telephone numbers and/or to block the last incoming call.

**Call Cue** - enables the customer to automatically redial the last outgoing telephone number dialed. If the recalled number is busy, equipment will monitor the line for a maximum of 30 minutes and will let the customer know when the call can go through.

**Call Return** - enables the customer to automatically redial the telephone number of the most recent incoming call. If the number is busy, Call Return will continue to dial the number for up to 30 minutes, or until it completes the call.

**Priority Call** - provides the customer with a distinctive alerting signal, ring or Call Waiting Tone (if the customer has subscribed to Call Waiting), when the customer is called from a maximum of three preselected telephone numbers.

**Call Trace** - enables the customer to initiate a trace of the last incoming call received. The number, date and time will be recorded by Southwestern Bell Telephone so that the call's origin can be identified.

**Selective Call Forwarding** - enables the customer to forward incoming calls from specified telephone numbers (maximum of three) to another telephone number.

### Proposed Rates (monthly)

	Residence		Business	
	Individual	Packaged	Individual	Packaged
Call Blocker	\$3.00	3.00	\$3.00	2.00

Installation charges for residence customers will be \$2.70 per feature, with a maximum installation charge of \$5.40 per request per line. Installation charges for business customers will be \$5.40 per feature, with a maximum installation charge of \$10.75 per request per line.

The proposed date for Call Control Options to be offered is May 1, 1990. These services, however, will not immediately be available to all customers in all areas of the state. Customers in other areas will be notified when these services become available.

Call Control Options are projected to generate first-year annual revenues of \$1,761,000.

Persons who wish to comment on this application should notify the commission by April 20, 1990. Requests for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, or you may call the Public Utility Commission Public Information Office at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.

\*\*In addition to the \$1.00 monthly rate, Call Trace will cost \$8.00 per use.

# Social Security Tips

by Mary Jane Shanes

The 1989 annual report of the Board of Trustees of the Social Security trust funds showed that the retirement, survivors, and disability insurance trust funds in fiscal year 1988 increased \$38.8 billion. In the same report, the trustees predicted that in 1989 income to the trust funds would increase to \$294 billion with an outgo of approximately \$236 billion. The annual report due in May 1990 on the 1989 social security finances is expected to show similar results. This helps to assure payment of retirement benefits when "baby boomers" reach retirement age.

With the continued increase in the social security trust funds, many people ask why this surplus is not used to raise social security benefits. But, to consider the increase a "surplus" is a misconception, since the amount in the trust funds is not above what is needed, but merely a reserve to meet the financial commit-

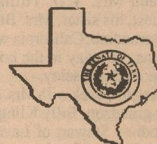

ment to workers in the next century, when today's young workers will become eligible for social security benefits.

During 1989, about 130 million workers worked in employment or self-employment covered by social security, and 39 million persons received benefit payments each month.

Although the funds are projected to reach \$1 trillion by the turn of the century and peak at about \$2.8 trillion in today's dollars by the year 2020, benefit payments after that will exceed tax income, and social security will use the accumulated reserves to meet its obligations.

The social security program is soundly financed, and it is predicted that benefits will be paid well into the next century. But, if the trust funds are used for other needs, the purpose of the reserves would be defeated.

## TEXAS SENATE WEEK IN REVIEW

AUSTIN - Texas lawmakers return this week for a final attempt at resurrecting a public school finance bill before the special session ends at midnight Wednesday (March 28).

If the Legislature fails to pass an education bill this week, Gov. Bill Clements has promised to call a second special session, possibly in early April.

The Legislature has been in special session since February 27 to come up with a plan to equalize funding among the state's 1,068 public school districts.

The State Supreme Court has ruled the state's school funding distribution plan unconstitutional and has set a May 1 deadline for a plan to narrow the funding gap between rich and poor school districts.

Early last week, the Senate passed and sent to the House a bill calling for a \$1.3 billion school funding increase for fiscal 1990-91.

By week's end, however, the House had dropped the Senate bill in favor of a \$511 million first-year funding plan. But after more than eight hours of floor debate in the House, that bill failed on a vote of 101-45.

As a means of starting over in the short time remaining in the current session, the House Public Education Committee was to meet Monday (March 26) to consider a compromise education funding bill. Specifics of that measure had not been worked out at week's end last Friday.

The current legislative session is also likely to end this week without passage of a judicial reform bill.

The state is under a separate court order to change its method of selecting judges.

U.S. district Judge Lucius Bunton III ruled last year that the state's method of electing judges on an at-large, county-wide vote dilutes the minority vote in the state's most populous counties.

In other Senate action last week, the Senate Health and Human Services Committee met with officials from the Texas Department of Human Services (DHS) to discuss the agency's projected \$850 million deficit.

Faced with the need for additional funding or cuts in programs that serve the state's neediest citizens, DHS officials drew criticism from committee members for failing to produce figures on the scope of the deficit.

Ron Lindsey, DHS Commissioner, told the committee those figures would be available in early April.

The committee also heard testimony from a large number of people who would be directly affected by the proposed cuts in services to the disabled, the elderly, and the poor.

The committee is scheduled to meet again April 3 to hear more testimony on the DHS budget crisis.

The Senate and the House were to reconvene Monday afternoon (March 26).

THANK YOU TO THE VOTERS OF PRECINCT 4 FOR YOUR SUPPORT AND VOTE.

I AM LOOKING FORWARD TO SERVING YOU AS YOUR JUSTICE OF THE PEACE

J.T. SWIM

## Public Notice

Southwestern Bell Telephone Company hereby gives notice that it has filed an application requesting the PUC to declare Southwestern Bell's intrastate Billing and Collection market subject to significant competition and to authorize the following form of pricing flexibility: detariffing of the rates, terms and conditions of the Billing and Collection services now offered in Section 8 of Southwestern Bell's intrastate Access Service Tariff. Approval of the application as filed would result in all tariff sheets in Section 8 (Billing and Collection) of Southwestern Bell's Intrastate Access Service Tariff being cancelled, and the service thereafter being provided on a contract basis. Through this application, using procedures established by P.U.C. SUBST. R. 23.27, Southwestern Bell seeks to obtain uniformity of rates, rules and regulations for intrastate and interstate Billing and Collection services.

Approval of this application would remove all rates, terms and conditions applicable to billing and collection from Southwestern Bell's Intrastate Access Service Tariff. Intrastate billing and collection service would continue to be subject to PUC regulatory oversight only to the extent that (1) Southwestern Bell would be required to maintain current price lists at the Commission for the service, and (2) the revenues or losses from the service would be subject to the regulatory treatment specified in P.U.C. SUBST. R. 23.27(p). Further, under procedures established by P.U.C. SUBST. R. 23.27, the PUC's General Counsel, the Public Utility Counsel or any affected person could seek a subsequent review of the rates, terms and conditions of this service.

Persons who wish to intervene or otherwise participate in these proceedings, or who would like further information, should call or contact the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, (512) 458-0100. Further information may also be obtained by calling the Public Information Office at (512) 458-0227, or (512) 458-0221, teletypewriter for the deaf.

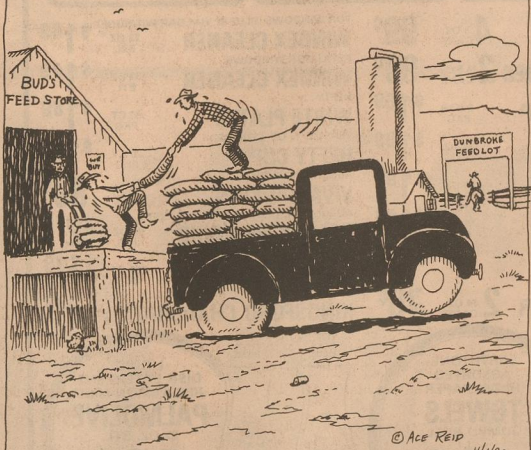

The PUC has assigned this matter to Docket No. 9224. A prehearing conference will be held on April 19, 1990, at 9:00 a.m. at the Commission's offices at 7800 Shoal Creek Boulevard in Austin, Texas. The deadline for filing motions to intervene is April 26, 1990.

### EDUCATION PROGRAM OFFERED BY TECH

The Division of Continuing Education at Texas Tech University has tentatively agreed to offer a Masters of Education degree program to our rural area through classes to be held at Motley County High School.

This program would consist of 36 semester hours without a thesis or 30 semester hours and a written thesis.

Students would begin the program in September of 1990. An applicant would need to hold a Bachelor's Degree from an accredited College or University and to have a score of at least 850 on the Graduate Record Examination before the completion of 12 graduate level hours.

Anyone interested in beginning this course of study should contact Lucretia Campbell at (806) 347-2274 or Lindy Stafford at (806) 347-2804 after 5:00 p.m. We need to be able to notify the Office of Education of a projected number of student enrollment by April 15, 1990. Please contact us as soon as possible.

A meeting will be held in Matador with Continuing Education representatives as soon as we have names of those interested. This meeting will be held to explain the degree programs offered and make plans for offering these courses.
