A Second Glance By Leon Watson

Zbigniew Brzezinski, Special Assistant to the President for National Security, is no dummy. He has showed a lot of craftiness in his plan to merge the United States with other countries, including developed European communist states.

We are in trouble, readers, and Jimmy Carter is Brzezinski's puppet, while David Rockefeller, in order to get richer, is known to have actually set up and funded the Trilateral Commission. David has Chase Bank forums in London, Brussels, Montreal and Paris.

Currently, in addition to being advisor to Carter, Brezezinski is Director of Research Institute of International Change, Professor of Public Law and Government and a member of the Russian Institute, all at Columbia University in New York.

The organizing meeting of the Trilateral Commission was held in July 1972 at Pocantico Hills in New York. Rockefeller and Brezezinski were there to head the thing.

In January of 1973 a formal proposal was made to the Ford Foundation to support the majority of the intellectual and

The funds were also to provide for administrative and promotional activities.

Paul Austin, head of Coca Cola, a Commission backer, arranged for Rockefeller to meet Carter. The Commission was looking for a man to send on the road to the White House and Carter just fit. There are now 16 members of the Carter administration who are associated with the Commission.

What does all this mean? From any point of view -- economic, political or social -- the most influential planning group in the world is under the direction of the Trilateral Commission in New York, Paris and Tokyo.

It proposes to construct a new world order around the more advanced world and the third world.

The Commission is pressing hard on congressmen to convince the people they serve that the soverignty of America is not as important as a united world order.

Efforts are made also, and are succeeding, to reach into grade school and high school education, to teach our youngsters that America is just a little part of a big world and an effort must be made to forge a community of the developed nations that would embrace the Atlantic states, the more advanced European Communist states, and Japan.

This just touches the high points of a very big and ugly situation. Be careful who you vote for and send to Washington. We need strong men who will help us keep our soverignty, freedom of religion, speech, and our own money system.

I seem to be the only editor around taking shots at the powerful Trilateral Commission. But I've got news for them -- I've just begun.

Janis Sherrod, our social security representative, asked me the other day what we could do about this conspiracy that has so easily come upon us:

Well, the average citizen can obey the law, pay his taxes and pray. He can pray for the freedom of this nation and for the leaders of this nation, that they might enact laws which would let us keep our sovereignty. He can pray for Carter, Rockefeller, and Brezezinski; then he can vote. Violence is not the answer.

There are others who are fighting the commission, tooth and nail. Let us support those in congress who support our sovereignty. Let us spread the word that the Carter administration is not out for the welfare of the American people, rather the pocketbooks of international traders.

I've never voted a split-ticket before. Well, there is always a first time.

Larry Fortenberry, convicted August 1977 in Plainview of killing Sheriff Jinks Wilson on November 12, 1976, was in Matador Monday to stand before district judge George Miller. It was for a change of venue for cases dealing with aggravated robbery and unprohibited use of a motor vehicle.

County Sheriff Alton Marshall and Ranger Leo Hicks of Childress, picked up Fortenberry at Huntsville prison and took him to Crosbyton last Thursday. Monday he was transported to Motley County for the pre-trial hearing. He is now back on death-row at Huntsville

Wilson was shot to death three miles east of Matador as he and a friend, John : Rogers, stopped to investigate two men tampering with Rogers' car on the roadside. Rogers was wounded. Both men were hit by shotgun blasts.

Stacy Carter, Fortenberry's companion the day Wilson was shot, is now serving out a sentence in North Carolina. It was reported that both men were escapees from Houma, La. jail at the time Wilson was shot.

Mustangs Throw Motley Matadors

By Willy Palmer

In their district opener Friday night the Motley County Matadors were shutout for the fourth consecutive time by a score of 25--0.

The Claude Homecoming crowd cheered their team on as they accumulated 426 total rushing yards against the Motley defense. This was done in spite of courageous performances on behalf of Robert Parker, Mike Green, and the whole defensive secondary composed of Mark Wason, Julian Zabielski, and Lester Campbell. The secondary did not allow a single pass completion for the second week in a row as Claude quarterbacks were 0 completions out of 5 attempts for the night.

Turning in good performances on the offensive unit were quarterback Parker, runningback Randy Meredith, and center Harvey Lee. The Matadors tried for a field goal in the second quarter but Zabielski's shot was wide to the left.

Before the homecoming crowd Friday night the Matadors will face the Happy Cowboys who are also winless in district as they ...ere beaten 19--12 by Silverton Friday night. The favored latadors will try to break a 4 game losing streak with this ontest. All are urged to attend the game and support their team,

Dear Mr. Watson, During the Democratic Primary this spring, I strongly supported Governor Dolph Briscoe because he best represented my conservative philosophy. In fact, I served as the Governor's reginal coordinator in 32 counties, including you own. This fall, I am actively working for Bill Clements for Governor because he is the only candidate that represents the same conservative philosophy of the vast majority of Texas, people like Governor Brisoce and myself.

I can't speak for Governor Briscoe, but I can point out that his daughter and son-inlaw have publicly endorsed Bill Clements, as have Red Nunley of Sabinal, the Governor's close friend and longtime business partner; Dr. Sterling Fly of Uvalde, a member of the University of Texas Board of Regents and the Governor's personal physician; Ross Watkins of Uvalde, a member of the Texas A&M Board of Regents and a close friend of the Governor: and Lewis Bracy of Uvalde President of the Governor's bank and one of his close friends. The list of well-identified Briscoe backers now supporting Bill Clements goes on and on.

Mr. Hill knows he is distorting the truth when he claims that 95 percent of the Briscoe leadership is behind him now. Six of Governor

Alumni Directory Brought Up To Date

A directory of Matador High School alumni has been brought up to date from 1961 to the present year and will include also those who have attended or graduated from Motley High School since the consolidation of county schools in 1972.

The new directory will also include the first roster which contained names and addresses of former students and teachers from the first graduating class of 1908 through 1961.

The original directory was proposed by the late W. R. Tilson during a business meeting of Ex-Students and Ex-Teachers at Homecoming Nov. 11, 1960 when he made the motion that a roster be made of ex-students and teachers, with their addresses. The following year the motion was carried out by the secretary, Hazel blessing. Walton Donovan and Lucretia Edwards Campbell.

This year, Mrs. Donovan and Mrs. Campbell have endeavored to bring the names and addresses up to the present, and appealed to the public for assistance in getting new addresses. They received little response however, and in a number of cases, the

Briscoe's 12 regional coordinators, including myself, already have publicly endorsed Bill Clements, as have more than 70 county coordinators. In more than 170 counties, Briscoe regional or county coordinators are publicly supporting and working for **Bill Clements**.

We are supporting Bill Clements this year because the race for the Governor's office is not a case of Democrats versus Republicans, rather it is a case of conservatives versus liberals. Bill Clements is the conservative and John Hill is the liberal

This is the first time Bill Clements has run for public office and he is doing so now because, like a lot of us, he wants less government and less federal interference in our lives. Bill Clements is a proven manager and administrator, a free enterpriser--not a professional politician like his opponent, who has been running for the office for the past 10 years.

Conservatives around the state know John Hill and they know they can't trust him. Mr. Lubbock, Texas Hill engineered the liberal take-over of the State Democratic Party - the first time this has ever happened in Texas history - and he personally supported a Mc-Govern campaign worker to

be state party chairman. Those of us supporting Bill Clements are doing so because

we are committed to electing another conservative as governor. Thank you for hearing me out on this issue so vital to the future of our state. Sincerely. T. L. Roach

current addresses are still unlisted, and a number of Homecoming letters have been returned to the secretary, due to an incorrect address.

"Even though an address might be incorrect on the new directory, we still would appreciate having the correct address for our pernament file," Mrs. Donovan stated.

Although compiling the names and addresses was a monumental undertaking, the big task was that of making stencils and mineographing the directories. This was done by Miss Rachel Patton. Assisting with the project of collecting and typing the material, then assembling the pages were Nell Webb Brotherton, Cora Bostick Smallwood, Janie Norman Hardin, and Mrs. Billy R. (Faye) Slover.

A special thanks is extended to these workers by Mrs. Donovan and Mrs. Campbell, who declared, "Although we appreciate all the help we received, there is no way we could have had this directory without the work done by Rachel Patton. She not only did the printing (mimeographing) for us, but caught a number of errors in our copy.'

The directories will be distributed during Homecoming Friday and Saturday, at the school. A small charge will be made to pay for the expense of materials involved, according to officials of the Ex-students and teachers association.

Marshall Re-elected

W. H. "Buck Marshall of Roaring Springs was re-elected to the Upper Pease board of directors last Wednesday. Marshall represents zone five of the district.

The purpose of the Upper Pease SWCD, with headquarters in Matador, is to promote sound soil and water conservation programs on farm and ranch lands within the district and to serve as a voice for farmers and ranchers on conservation matters and other issues affecting private property rights of landowners. The board of directors coordinates the conservation efforts of

various local, state and federal agencies and other organizations and has authority to enter into working agreements with these governmental agencies and private concerns to carry out its purposes.

As one of five individuals serving on the district board of directors, Marshall will be responsible for district policies and procedures for carrying out the district program within the framework of the Texas soil conservation district law.

In Texas there are 198 soil and water conservation districts. Each is a legal subdivision of state government organized by local agricultural landowners with the assistance of the Texas State Soil and Water Conservation Board. Unlike most other legal subdivisions of state government, SWCD's do not have the powers of taxation or eminent domain. All conservation programs managed by the districts are of a voluntary nature to the landowner or operator.

In Motley County the Upper Pease SWCD is assisted in carrying out conservation programs by the soil conservation service.

Modern American men nave a knack for knowing how to put a look together, and this year, those in the know will be going a separates way

Vested suits these days have four or five pieces instead of just three, and a man can interchange them to create as many different looks as the occasion or his mood demands.

A money-saving, as well as manly looking way to dress, separates can start with a pair of slacks and then be built up with sport jackets, weaters, shirts and vests. Many vests today are reversible to make still more combinations possible

An entire set of separates, and many of the parts, will probably be given to glad-den Dad this Father's Day.

According to men's fashion expert Ed Haggar, chairman of the board of Haggar Company, a leader in men's separates, color will be the link most men will use to relate their separates, and the man confident of his own taste will take advantage of new-textured and knitted fabrics and patterns to effect combinations that express himself individually

Madras will be seen in vests and linings, as well as in slacks and jackets. Muted glen plaids, small checks and linen look solids in new open-weave fabrications will

TODAY'S MAN MAKES HIS CLOTHES go well together from a collection of smart Haggar separates. be important in putting toother interesting gether combinations. Fabrics are lightweight, comfortable and cool.

The fashion direction is "at ease" and multipurpose, and many men are finding it a pleasure.

Dear Hazel and Dixie: Bless You and thanks again for reminding me of the Homecoming reunion. The year '75 was a highlight for me - wish Ernest could have been with me

I am sending you a check to apply to either the Matador Cemetery Association or the reunion, whichever needs it most. It is in memory of my classmates of 1925 who have passed on. ## **Program of Music Features Crooner**

America's unforgettable Bing Crosby was the subject presented in a program for El Progresso Club, Thursday, Oct. 12, at the home of Mrs. W. N. Pipkin. Mrs. Frank Pohl, assisted by Mrs. W. F. Jacobs brought a profile of the famous crooner's life, in narration and song.

Mrs. John Hamilton presided in the absence of the president, Mrs. Franklin Price, and Mrs. W. F. McCaghren was program leader.

Mrs. Pohl introduced Bing Crosby's biography with a tribute: "Bing Crosby (1903 -1977) was the Sweet Singer of all Seasons . . . the sound of him was unmistakable to many Americans beyond a certain age and during the early days of his career when most radio stations played his records at least 15 minutes per day. If fashion, depression, peace and war are<sup>o</sup> raw materials for history -- music is history's storehouse of memories that are evoked when a familiar refrain is heard."

Following her introduction, Mrs. Pohl played piano arrangements of several of Bing's most popular numbers, "When the Blue of the Night Meets the Gold of the Day," "Easter Parade" and "White Christmas," with Mrs. Jacobs singing the verses and leading the group in singing the choruses

His career as a movie star. when he and Bob Hope were teamed in the "Road" series, and also as a star in several outstanding pictures such as "Going My Way," furthered Crosby's career as a singer, and made famous many other songs, including "The Bells of St. Mary's," which Mrs. Pohl played as a piano solo. She then played "Blue Hawaii," and was joined by Mrs. Jacobs in singing the lyric. Mrs. Jacobs also sang and led the club in singing "Dear Hearts and Gentle People."

"Until Elvis Presley, Ging had sold more records than anyone on earth " Mrs Pohl

time of his death was at least \$100 million dollars; including interest in films, records, orange juice, baseball, race horses, cattle, real estate and oil, with holdings in Snyder. Texas oil.

Mrs. Pohl quoted Bob Hope's final tribute to his friend of long standing, which reflects that of his many admirers: "If friends could be made to order, I would have asked for one like him."

Inspirational Thought was by Mrs. Jacobs to conclude the program.

During a business session following the program, Mrs. Harold Campbell reported on an executive meeting of Santa Rosa District which she had attended Wednesday in Iowa Park. Mrs. Campbell, district 1st Vice President will be elevated to the office of President Elect in the near future due to a move to San Antonio by the current president elect

Roll call, "As I Remember Bing Crosby," was answered by Miss Mary Keith and Mesdames D. E. Pitts. Douglas Meador and R. E. Campbell Jr., in addition to Mmes. Pipkin, McCaghren, Jacobs, Hamilton and Harold Campbell.

Hattie Marshall. **Records Kept On 170 Mi** 

The records of earnings covered by social security for over 170 million men, women, and children are kept at Social Security Headquarters, each identified by that person's name and social security number, a social security representative said recently.

A person's earnings record is very important. That record will be checked when a person applies for benefits to determine if the person worked long enough in jobs covered by social security and to determine the amount of benefits.

Because there is a limited time in which errors can be corrected, people should check their record every 3 years or so. A free post card form for this

period, and the employer's name and address. If Forms W-2, pay slips, or other proof of unreported wages is available, they should be included. A person's earnings record does not show the amount of taxes he or she paid. It shows

periods of employment in-

volved, wages paid in each

only the amount of earnings reported. Benefits are figured from the amount of earnings reported, not from the amount of taxes paid. The spokesperson said it is

not possible to pay in extra taxes with the idea of getting higher benefits later on.

Contact any social security office for more information about earnings records, or about any aspect of social security. The address and telephone number of the nearest social security office can be found in the telephone directory under "Social Security Administration."
