## Operation Motorcide July Fourth 1979

The Texas Department of Public Safety will be on full alert with all uniform services on roads and highways in the state of Texas to control traffic during the Fourth of July Operation Motorcide 1979. This alert period will begin at 6 p.m. July 3rd, and continue through midnight July 4, 1979. During this time, highway activities are expected to increase. With this anticipation, the Department of Public Safety has estimated that 13 persons will lose their lives in traffic accidents. Operation Motorcide will last 30 hours, and each motorist will be responsible placed on the individual driver at

this time of highly congestive traffic. The responsible driver will be able to recognize the hazard, understand the defense, and act in time. This will entail recognition of the drinking driver, the tired driver, the speeding driver, and the wreckless driver. Understanding the defense will depend on such things as alertness, knowledge of the road rules, understanding of the physical forces that act upon moving vehicles, and capabilities of the motorist to handle 3000 pounds of moving metal under stress conditions. Acting in time will be reflected in skillful maneuvering actions by

the defensive driver. The National Safety Council says that accidents occur when one or more conditions are not working properly. The condition of the vehicle can play a definite part in preventing accidents. Bad breaks, poorly adjusted headlights, and old worn tires certainly contribute to motor vehicle accidents. The condition of light can cause accidents to occur unexpectedly when the bright sunlight shines directly in the driver's eyes. Keep in mind that your Texas Highway Patrol investigates more fatal accidents in the darkness than it does during daylight hours.

The condition of the road will effect the safe driving ability of the motorist when warning signs in construction areas are not heeded. A mismarked striping on the pavement could easily be the cause of a head-on-crash. The condition of the weather definitely has a large bearing on accidents. When an automobile reaches 55 miles per hour on rainy, wet streets, it hydro-plains, and stopping distance is greatly increased. This is a cause of many crashes. The condition of traffic is fluid with time. Daytime, at the rush hour in metropolitan complex

## New Housing Units To Be Built In Matador

Bids were opened Tuesday by the local housing authority for the construction of an 11 unit housing complex which should be completed in Matador within the next half year.

Two bids were received and Constructors Inc of Ardmore, Okla., was accepted as the lowest bid, according to Kenneth Marshall, chairman of the Matador Authority. "The complex should be

completed 150 days after construction begins," Marshall said after the bids meeting Tuesday. "But before construction begins we need to take care of warranty deeds and other paper work."

The original plan called for a 12 unit complex to be built on the open lot northeast of the Courthouse, but it became necessary to drop back to an 11 unit building to stay within the \$234,000 figure which the authority had borrowed from FHA.

### A Little Town

- A little town is where you don't have to guess who your enemies are. Your friends will tell you.
- A little town is where few people can get away with lying about the year they were born. Too many other people can remember.
- A little town is where people with various ailments can air them properly to sympathetic ears.
- A little town is where, when you get the wrong number, you can talk for 15 minutes anyhow.
- A little town is where the ratio of good people to bad people is something like 100 to 1. That's nice to remember.
- A little town is where it is hard for anybody to walk to work for exercise because it takes too long to stop and explain to people in cars who stop, honk, and offer a ride.
- A little town is where city folks say there is nothing to do, but those who live there don't have enough nights in the week to make all the meetings and social functions.
- A little town is where everyone becomes a "neighbor" in time of need.
- A little town is where those same businessmen dig deep many times to help with countless fund-raising projects.
- A little town is where many teenagers say there's nothing to do and they are surprised to learn that their big city peers are saying the same thing.
- A little town, when all is said and done, is a nice place to live. ■

"The units will be one bedroom units which will rent for a minimum of \$106 per month, and two bedroom units which rent for a maximum of \$250 per month," Marshall said. "The actual rent will be determined by salary earned by the occupant. Marshall said the only way for persons to qualify to live in the complex is to fill out a written application after the building is completed, then the authority will screen each applicant by checking credit references and past records. County Commissioner Bill Jameson has agreed to help with the dirt work and landscaping will be completed by local citizens who donate trees, flowers etc. The complex, when finished, may be only the first of several new housing projects local officials will work on in the next few years.

## Lions Blood Drive Scheduled Here July 12

The Matador Lions Club will sponsor a drive for blood by South Plains Blood Services, starting at 1:30 p.m., Thursday July 12, at the American Legion Building. South Plains Blood Service serves an area of over 50 counties. The following is some basic information for persons who might be interested in being blood donors:

AGE: 17 through 65 years old. If state law requires written consent of parent or guardian for 17-year-olds, the acceptable minor donor permit form will be provided by

your community blood center. People 66 and over may donate if they obtain a doctor's written consent within 2 weeks of donation. WEIGHT: Minimum of 110 pounds (50 kg.). DONATION FREQUENCY: At least 8 weeks between donations. MEDICAL HISTORY: You may not donate blood if you have or had: Hepatitis (yellow Jaundice); active disease of heart, lung, kidney, liver, stomach; internal malignancy (cancer); diabetes requiring medication; addiction to injectable drugs; Epi-

lepsy, convulsions, frequent fainting spells. You may be temporarily deferred if you have or had: Acute symptomatic flu, cold, or upper respiratory infection; close contact with hepatitis in last 6 months; ear pierced, tattoos, or acupuncture in last 6 months; active infection or disease presently requiring medication; vaccinations in last 24 hours; some vaccinations have longer deferral periods; major surgery or blood transfusion in last 6 months; dental surgery in last 3 days; pregnancy in last 6

weeks; currently active allergies (symptomatic) requiring prescribed daily medication; traveled to malaria area in last 6 months. FOR YOUR INFORMATION: It is best that you eat a substantial meal before donating, preferably one low in fats. Fasting is not recommended. If you are taking vitamins, hormones, birth control pills, mild diet pills, thyroid medications, or antibiotics for acne, you may donate unless otherwise deferred. We will ask for your Social Security Number for identification purposes.

## Countdown Begins For July 4th Celebration

Plans are being finalized for the Motley County July 4th Celebration which will be held around the courthouse square, with music, booths, bingo, water polo, a Barbeque Meal, a movie, and a water dunking board. The Matador Senior Citizens will provide a concession stand and the Lions Club will hold bingo games in the American Legion Hall, while volunteer firemen cool things off with water polo. Max Barton will be selling fireworks on the west side of the square and a dunking board will be set up next to the Matador Tribune office. Various musical entertainers will play in front of Spot Cash Grocery and a street square dance is planned for later in the evening. A Chuck Wagon dinner will be served at 5 p.m. on the Courthouse square, with the trimmings of barbeque beans and potato salad. Walter Jones will be the chief cook for the meal.

organizations are welcome to join in the fun, and booths may be set up anywhere around the square as long as permission is obtained from property owners. Festivities will begin around 2 p.m. and residents are welcome to bring lunches or home made ice cream. The Courthouse basement will be left open for public restroom facilities.

Summer Little League Baseball championship playoff games will be played July 2 through July 5, with trophies being presented to first place teams in both Major and Minor divisions. The season ends Friday, June 29, with a minor league game between the Cougars and Bears, but regardless of which team wins, the Cougars will represent the league as first place team and play the winner of the Dodgers - Bears game, which will be July 2. The championship team will receive a trophy. In the major league the Astros and Red Sox will

play July 2 for second and third places in the division, then the winner of that game will take on the Rangers who finished first in the league. In both divisions the second place teams will play the first place teams on July 5 for trophies.

## Little League Baseball Schedules Final Games

## Safety Warning

County Sheriff Alton Marshall reminds residents to properly instruct their youngsters on the use of fireworks during the holidays and warn them of the hazards which could

happen from carelessness. Throwing fireworks at cars, pets or other people will not be tolerated and anyone using fireworks unsafely will be subject to disciplinary action.

### Notice

The July 5 issue of the Matador Tribune will be mailed out on Friday July 6 due to the printing press being closed for Independence Day during the regular printing time.

ALL IN THE FAMILY—Suzette is a dog, but her babies are not. The mixed breed female is currently nursing two kittens and five baby raccoons. She finished raising her puppies several weeks ago and decided to adopt the other pets around the house of Jon and Carla Jones of Roaring Springs. Suzette raised a raccoon once before and when it was grown.....it chased cars. She seems to be most lovable and has tried to mother, among other things, chickens. (Staff photo By Carla Jones)

## Mitzi Christopher Honored With Shower

Mrs. John Christopher, (nee Mitzi Marvel) was honored last Friday night with a Bridal Shower in the home of Mrs. Edna Dillard. Twenty guests called between 6:30 and 8:30 p.m. Special guests were her mother, Mrs. Kenneth Marvel, and her grandmother, Mrs. Rosetta Underwood, of Roaring Springs. Hostesses for the shower were Mrs. Edna Dillard, Mrs. Charlie

Lone, Mrs. L.A. Mullins, Mrs. Liza Kingery, Mrs. Bennie Dillard and Mrs. Benny Keltz. The refreshment table was laid with a white lace tablecloth and an arrangement of white daisies and baby breathe was the centerpiece. Cookies, mints, nuts, punch and coffee was served by Mrs. Charlie Long and Mrs. L.A. Mullins. Attending the registering table was Mrs. Liza Kingery.

## MRS. RANDY MCINROE Marshall, McInroe Exchange Vows

Miss Zanna Marshall became the bride of Randy Lee McInroe, Friday, June 15 at 7:00 p.m. in the First Baptist Church, Afton, Texas. Bob Reynolds of Brownfield officiated the double ring ceremony.

Parents of the couple are Mr. and Mrs. Ralph Marshall, Afton, and Mr. and Mrs. Bill McInroe, Levelland.

The church altar held two candelabras of ivory tapers entwined with greenery and a swag of turquoise carnations. A unity candle centered the altar. The aisle was marked with hurricane lamps entwined with greenery and turquoise bows.

Mrs. Howard Tra-week, Matador, presented prenuptial Organ musical selections as well as the traditional wedding marches.

Candlelighters were Bo and Buffi Bennett, of Spur.

As the bride came down the aisle on the arm of her father, she presented a red rose to her mother, and one to her new mother-in-law after the ceremony.

The bride wore a formal length gown of ivory organza over peau de soie, fashioned with a high Victorian neckline of cotton venise lace. The gown was of princess lines with a fitted bodice and full A-line skirt which was accented with small floral appliques. The hem was trimmed with a deep ruffle of heavy antique lace. The yoke and sleeves of the dresses were of unlined Nottingham lace and seed pearls. The sleeves were fitted and trimmed at the cuff with a small cluster of ivory and beige silk flowers attached to bridal illusion trimmed with small cotton venise lace.

The bride wore the traditional blue garter, and for something old, a gold locket given to her great-grandmother, McReynolds, in 1886, and a gold wedding band which had belonged to grandfather Marshall. Something borrowed was an English sixpence in her shoe belonging to Mrs. Howard Tra-week, and which had been carried by six other brides before her. Something new was her wedding attire.

The bride's bouquet was of turquoise carnations, stephanotis, gypsophelia, and a central gradenia. It was trimmed with turquoise and brown velveteen ribbon and carried atop an ivory lace-covered Bible.

Mr. Bobby Miller, Floydada, sang "There Is Love" before the processional and the "Wedding Prayer" after the ceremony which was closed by the lighting of the unity candle representing the unification of

the two lives of the couple into one. Miss Tamara Overcast, Shamrock, served as Maid of Honor. Other bridal attendants were Mrs. Carol Hester, Muleshoe, and Mrs. Kim Parker, Canyon. They wore floor-length gowns of turquoise Chantress, featuring an empire waistline and Victorian ruffled neckline. The yoke was trimmed with a matching ruffle and was open in the back. The long sleeves were trimmed with a matching ruffle. The attendants carried a nosegay of amber and turquoise carnations with turquoise and brown ribbon, and wore a matching cluster of flowers in their hair. Miss Amy McInroe, niece of the groom, was flower girl. She wore a mid-calf length gown which matched that of the other attendants and carried an ivory lace basket of assorted flower petals.

Mr. Paul Pharies, New Mexico, served as best man. Groomsman were Ronald and Travis McInroe, both of levelland. The groom and his attendants were outfitted in sandy beige western-cut tuxes. Ushers were Craig Forbis, Afton, and Timmy McInroe, Levelland. Registering guests at the wedding was Missy Kinney, Pitchfork Ranch.

The reception following the ceremony was held in the basement of the church. The bride's table was covered with a floor-length ivory cotton cloth with an heirloom ivory crocheted overlay. The centerpiece was a pair of crystal candlesticks entwined with greenery which flanked the bride's bouquet. The three tiered wedding cake was ivory with fresh flowers of turquoise on the top and central layers. Serving at the bride's table was Miss Jan Martin, Afton, Mrs. Cheryl Brummet, Lubbock, Faye B. Wilcher, Possum Kingdom Lake, and Mrs. Theatus Green, Spur. They served from crystal and silver appointments.

The groom's table was covered with a brown floor-length linen cloth trimmed in heavy ivory lace with a tan crocheted overlay. Serving German chocolate cake and coffee from silver and gold appointments was Mrs. Polly Savage, Seminole, and Mrs. Debbie McInroe, Levelland.

For traveling, the bride wore a three-piece suit of turquoise silk and a gardenia corsage from her bouquet. The bride is a graduate of Patton Springs School, and Texas Tech University. The groom is a graduate of Levelland High School and is employed by the 6666 Ranch where the couple will make their home after a wedding trip.

## George Washington Has A Sense of Humor

By Earlene Jameson

George Washington of Lakeland, Florida may not adorn the one dollar bill, but he has a sense of humor about his name. The George Washington to whom I am referring is a former Motley County resident and will be remembered as George Odell Washington of Flomot.

Mr. Washington graduated from Matador High School at mid-term in 1936. He was a member of the 1936 undefeated Matador football team, coached by Harvey G. Stanford, that is considered one of the best if not the best football team Matador has on record. Other members on the "A" squad were Raby Webb, Bebe Gates, Will Pritchett, Beryl Blackshear, Clayton "Red" Titus and Bodie Brown of Flomot; Albert "Grandpa" Willis and Forrest Faulkner of Whiteflat and R.E. Campbell, Jr. and Norris Ford of Matador.

In the spring of 1939, Mr. Washington received his degree from West Texas State University in Canyon and taught school in Spearman before joining the U.S. Navy in World War II. He played pro football for two years with the former Oakland Giants in the old Pacific Coast League. He moved to Lakeland and was president of the Florida Northern District Coaching Association before entering the heavy equipment business. He is a coach of Little League baseball teams and his Lakeland team won second place honors in the 1974 Florida State Series.

The following article about Mr. Washington appeared in the Lakeland Tribune by staff writer, Walt Belcher:

"Hello, is George Washington there?" I laughed. I didn't mean to. George Washington is an important symbol. On one dollar bills and in portraits, he never smiles.

But it is hard to ask for George and keep a straight face, even if this George couldn't see my

grin over the phone.

The man who answered the phone chuckled too. See, he's had callers asking for George for years and he still laughs. So it goes, being named after the father of our country has been a lot of laughs for George Washington.

The George Washington I'm talking about has neither a powdered wig nor a wooden tooth. He's alive and well right here in Polk County, Florida.

He is a 62 year old heavy equipment salesman whose handle has risen more than a few eyebrows, netted dozen of wisecracks and broken

up even the most deadpan of the long distance telephone operators.

"Whenever I call on a new client and he's not in and I have to leave my name, there is always this pause when I give it to the secretary," says Washington. "They're not sure it is real. They think it might be a joke."

Washington says wisecracks are more frequent in July and February. However this Washington was born on January 4 in West Texas.

"Actually I'm related to the other George Washington, the famous one," he said. "I'm a sixth cousin, if you go back far

enough." While that hardly enough to make motel owners want our George Washington for an overnight guest, it is enough to give him a certain amount of prestige.

But our George was never in politics. He did play pro-football, was an outstanding coach and a U.S. Navy man and no one ever forgot his name.

"It's helpful being George," he said. "In sales especially. I take all the kidding in stride, but it does get a little annoying when some kid calls me up on the phone and asks, 'How's Martha?'"

## MOTORCIDE

From Page One

are extremely hazardous, in the congested areas. Night time makes for sudden unexpected collisions at crossroads in the rural localities. The condition of the driver is the main source of maladjustment for most accidents in both rural and city driving. It is estimated that at least 50 percent of all fatal accidents involve a drinking driver. Those persons who operate motor vehicles for long periods of time without a rest period, develop "Highway Hypnosis." This condition is caused by fatigue and monotonous driving, allowing the mind to wander, in turn reduces alertness and reflexes.

The Fourth of July will produce many extra vehicles on the highways. From these added motorist comes traffic snarles, and with traffic snarles comes nervous tension and impatience. The best way to make a trip is to plan the trip well in advance. Always understand two things: If you leave late, plan on arriving later, and remember that the most dangerous mile you drive is the next mile ahead. These two maximums really mean: You can't make up time lost on the road by speeding, and only the defensive driver will survive in today's modern made of transportation.

Major C.W. Bell, Regional Commander of the DPS's 60 counties said, "Defensive Driving, is driving to prevent accidents in spite of the incorrect actions of others and adverse conditions." He caution-

ed the Texas motorist to wear seat belts at all times. The National Safety Council has statistics showing that a person has a five to one chance of surviving if he remains in the auto during violent crashes. These are much better odds than being thrown from the vehicle just before it rolls over you. The human body does not fair too well when that much weight (3000 pounds) is forced upon it under these rollover accidents. Remember, when a person is thrown from a rollover crash, such as can occur at almost any speed, that person will usually be thrown in the path of the vehicle.

Despite the fact that 13 persons are predicted to die in traffic accidents this Fourth of July on this state's highways, your Texas Department of Public Safety will do everything reasonable to help you, the Texas motorist, prevent an accident. If you are in need of directions, or have engine trouble, call upon the trooper on the road to give you assistance. That black and white patrol car can mean the difference between a safe, secure trip, and that of great physical loss in many cases. The Department has a moto of "Courtesy, Service, and Protection."

Major Bell summed up the situation by saying, "We in this Region hope to have the safest Fourth of July on record this year. The American public are the people this celebration is for, and what better way to celebrate than by keeping alive."

**Matador Lions Club Officers Installed**

Current year for Matador Lions Club was brought to a close Tuesday, June 19 with installation of officers for the coming year, during regular luncheon meeting of the club, at the American Legion Building.

Lion Paul Westbrook of Floydada, a Zone Chairman in District 2-T2, installed the local officers, only seven of whom were present. These were, James Gillespie, President, Ronnie Vandiver, 1st V.P., Bob Stanley, Lion Tamer, Miss Rachel Patton, Sweetheart, and Walter Jones, Kirby Campbell and Vann Francis, Directors.

The slate of officers includes L.B. Campbell, 2nd V.P., Alan Bingham, 3rd V.P., Joe Freeman, Secretary, Roy G. Stephens, Director, J.R. Whitworth, Permanent Director, John M. Russell, Tail Twister and W.F. McCaghren, Recorder. Miss Linda Nimmo is Lions Queen for 1978-79 and will be succeeded by a new queen later in the year.

President-elect Gillespie presented outgoing president Lion Franklin Price with a past-president's plaque for his service in that office.

Announcement was

made by Lion Price that the club will sponsor a bloodbank drive July 12, starting at 1:30 p.m. at the American Legion Building.

Also announced were committee members for July, August and September, as follows: Program committee, Furman Vinson, Frank Pohl and Howard Traweek; Flag Committee: Emilio Aguilar, Walter Jones and Mike Hoyle.

"A successful Lions Club requires everybody working," Lion Westbrook stressed as he installed the officers. "It is a privilege to work in an organization such as this, and I am glad to welcome the Matador Lions Club into District 2-T2. We are also glad to have Lion Forrest Campbell serving as Deputy District Governor." The Matador club had formerly been affiliated with District 2-T1.

Lion Tamer Bob Stanley introduced as a visitor, Gene Griffin of Lockney, who will join the Motley County School faculty this fall as football coach.

Appreciation was expressed for the barbecue lunch served by Lion Walter Jones.

**Precautions Urged For Summer Food Care**

With hot, summer weather rapidly approaching, many people will be cooling off with homemade ice cream. However, failure to follow certain precautions can result in food poisoning, points out Al B. Wagner with the Texas Agricultural Extension Service, Texas A&M University System.

Last summer, 22 food poisoning outbreaks involving 292 people across the United States were associated with homemade ice cream, Wagner, a food technologist, explains.

Investigators found Salmonella in most of the 73 hospitalized patients. Most often, dirty, cracked or ungraded eggs from a non-commercial

origin were the source of the bacteria.

"Don't cut corners on homemade ice cream ingredients," warns Wagner.

The food technologist suggests certain precautions when making ice cream to avoid food poisoning.

Begin by washing all freezer parts with hot, soapy water and rinsing thoroughly.

Use only good quality ingredients. Never use cracked or dirty eggs or milk or cream of questionable quality.

Before adding fruit, wash it thoroughly, and don't use soft, overripe segments.

Lastly, always cook the ice cream mix before freezing, advises Wagner.

## LETTERS TO THE EDITOR

Dear Editor,  
Caprock Trapper's Asso. held our wild game barbecue, rifle and shotgun shoots, May 6. We would like to thank the Matador Tribune and all the area residents and members that made it a safe and successful event. We are looking forward to September gathering. Also we would like to say thank you to the various merchants too numerous to name here, for contributing merchandise and door prizes. Over 200 attended and no one went away

hungry. We'd like to ask everyone who intends to sell fur at our fur sales this upcoming season to be sure and attend our July meeting which will be held the first Friday night in July, which is July 6, at 8:00 p.m. in the Dickens Civic Center. It will be to your benefit to be there. Some purposed changes are being made by one of the officers and you should be there to vote on it. Watch the Tribune for information on upcoming events. Preston Mynatt, Public Relations Officer, Caprock Trapper's Assn., Dickens

## Baptist Women Have Recent Bible Study

Mrs. Edgar Lee presented a Bible study on the subject, "The Great Eschatological Discourse," when the Dorcas group of the Baptist Women met Tuesday, June 19 at the home of Mrs. C.D. Garrison. The introduction covered the destruction of Jerusalem, with the remainder of the study, covering the

"last days," to be resumed at the next meeting. Calendar of Prayer for Baptist missionaries was read by Mrs. Eddie Russell. Others present were Miss Verlin Reeves, Miss Rachel Patton and Mesdames Velma Fulfer, Bill Dunning, J.D. Craven, Douglas Meador, Audrey Price and Mrs. Lee.

## Ranchers Cautioned About Overstocking

Ranchers should resist the temptation to increase stocking rates even though pastures now have abundant vegetative growth. That suggestion comes from Dr. Bobby J. Ragsdale, range specialist with the Texas Agricultural Extension Service, Texas A&M University System. According to Ragsdale, much of the current forage growth is from cool season annuals. Warm season perennials recover more slowly from drouth conditions such as those that plagued most of Texas the past few years. "Since livestock repeatedly graze good forage plants, increasing stocking rates will not allow such plants to

recover from drouth damage," explains Ragsdale. "Instead of increasing stocking rates, cattlemen should shape up herds now by reducing overall numbers or keeping numbers constant," contends the specialist. He suggests marketing low producers, open cows, and younger calves and lambs. "Good management can produce more pounds of product from fewer animals," notes Ragsdale. The specialist says low stocking rates allow range conditions to improve, leading to future stocking rate increases. Improved range conditions also provide partial insurance against the next drouth.

Social Security Representative

Question: My doctor has scheduled me for some diagnostic tests at a nearby laboratory. Will my medical insurance under Medicare pay for the tests?

Answer: Medical insurance can help pay for diagnostic tests provided by an independent laboratory, but the laboratory must be certified by Medicare for the services you receive. Not all laboratories are certified by Medicare and some are certified only for certain kinds of tests. Your doctor should be able to tell you whether the laboratory is certified and whether the tests are covered by medical insurance.

# Avoid Duplication of Insurance Benefits

Persons eligible for Medicare Health Insurance benefits who seek to supplement their coverage by purchasing additional private insurance should be sure that they are not buying coverage already provided by Medicare, warns Ray Purcell, Manager of the Plainview Social Security office.

Purcell says that Dallas Regional officials of HEW's Health Care Financing Administration (HCFA), The Federal agency that administers the Medicare and Medicaid programs, are concerned that many elderly Medicare beneficiaries are being sold duplicative or overpriced supplementary insurance policies.

According to Jerry Sconce, HCFA's Regional Administrator, some Medicare beneficiaries are being taken advantage of by a few unscrupulous insurance agents, often posing as representatives of Medicare or the Social Security Administration. Sconce has recently

contacted State Insurance Commissioners asking their cooperation in identifying and controlling such sales practices.

The problem is a costly one, said Sconce, citing a recent report by the U.S. House select committee on aging which estimated that senior citizens are "being taken" for \$1 billion a year by a few insurance companies and their agents. The committee report also noted that some companies which specialize in selling this type of insurance return an average of 50 cents on the premium dollar while others return as much as 90 cents for similar coverage.

Sconce urges senior citizens considering buying a supplemental plan to be sure that they are not duplicating existing Medicare coverage and to seek out policies that pay a high return in benefits.

He further warned that any insurance salesman representing himself as connected

with Medicare or Social Security should be viewed with suspicion since no Federal employee is authorized to engage in this activity. Sconce urged the public to report any such misrepresentation to the local Social Security office and to the State Insurance Commissioner.

**TOURNAMENT AT CHILDRESS**  
Geneva and La Voe played in a tournament Wednesday, June 20, at the Childress Country Club... La Voe won first in first flight and received a necklace with a Childress CC emblem on it, and Geneva won third place in 3rd flight and received a key chain with a CC emblem on it.

And they both won door prizes -- La Voe, a certificate at Beauty Salon and Geneva, a Merle Norman travel kit. At the luncheon, place favors were golf towels, Bic razors and emery boards. They reported a most enjoyable day.

**THURSDAY PLAY DAY**  
-- Twelve players reported: Dorothy, Tommy, Laverna, Leona, Mickey, Loys, Francine, Geneva, Louise, Winifred, Pam and Kathy. Play was a "brownie" on No. 3, and these were lucky and won balls: Tommy, Louise, Dorothy and Francine.

Following play, these enjoyed lunch at Roaring Springs Cafe -- Mickey, Leona, Francine, Louise, Kathy, Geneva, Winifred and Dorothy.

**FLORIDA SCRAMBLE**  
Sunday, 15 players entered -- and they reported they had a "ball". Teams were: Jake G., Laverna, Don W., and Louise; Clay, Tommy, John and Nell; Howard, Loys, Marvin and Geneva; Francine, Joe and Jerry Long.

Jake's and Clay's teams tied for first and second with 64; Howard's team was 3rd (65) and Francine's team (68) had to walk.

**"It's 2 A.M. and I feel rotten. Who has time to read medicine labels?"**

Sorry, there is no excuse for not reading the medicine label. The label tells you what it's for, how much to take and how often to take it. It's important information. Before you take any medicine, read the label. **Medicines can't help you if you don't take them right.**

**Remedy For A Heat Wave**

Even before summer officially arrives, there can be days that are scorcher and the best advice is to be prepared. To greet the school bus set, how about Cranberry Punch, a sparkling drink that combines Kool-Aid unsweetened soft drink mix with cranberry juice cocktail or cranberry-apple drink. It's a flavor combination children appreciate, and each serving contributes toward their daily requirement of vitamin C. Doubly appreciated are Crunchy Peanut Butter Balls and a basket of fresh fruit on a sultry, sweltering afternoon in June.

**CRANBERRY PUNCH**  
Combine 1 envelope strawberry, cherry, raspberry or orange flavor unsweetened soft drink mix, 1/2 cup sugar, 1 bottle (16 fl. oz.) cranberry juice cocktail or cranberry-apple drink and 6 cups water with ice in large nonmetal pitcher or bowl. Stir until soft drink mix and sugar are dissolved. Makes 2 quarts or 16 servings.

**CRUNCHY PEANUT BUTTER BALLS**  
Combine 1 cup creamy peanut butter, 2/3 cup sweetened condensed milk, 1/2 cup crunchy nutlike cereal nuggets and 1/4 cup raisins in bowl, mixing well. Roll into balls and roll in 1/2 cup additional cereal. Store in refrigerator. Makes 3-1/2 dozen candies.
