## TRAIL DUST

By  
DOUGLAS MEADOR

Trouble's sour wine matures best in the dark cellars of hate. Its bouquet is the stench of distrust, and it is frequently drunk from the cup of injured vanity.

Work that endures must foster the architecture of benevolence, with a foundation of charity. The roads men travel are littered with the ruins of estates where selfishness sought to build a wall around possessions, without being aware of certain futility.

The tide of years still flows upon the shore where my youth looked into the horizon and saw the sails, and felt the strong, clean wind from the sea. The harbor bears flotsom of the masts; the stained and tattered sails. My Ship of Dreams has become a houseboat pushed about by the tug of necessity.

A rabbit's foot in the pocket is seldom as effective as a willingness in the hand and faith in the heart.

Meat as a species are stupid, but divorce statistics indicate that the rate of separations decline sharply where the wife is a good cook. Wholesome food has an especial charm to which beauty is not competitive.

The beauty of simplicity is as the light of a cold, blue star, steadfast and creating its own splendor without the ornate ruses of pretense.

An abundance of wisdom does not always separate a man from his natural tendency toward folly.

### Hospital Patients

Patients admitted to Motley General Hospital since last Wednesday have been Jimmy Hale, E. G. McInroe and Mrs. McInroe and Melvin Brogdon.

Wade Morris is a patient in Motley General Hospital. Mrs. Audie Poteet is still a patient in Northwest Texas Hospital, Amarillo, following recent surgery.

## Matadors Cinch District

The Motley County Matadors grabbed the conference title in the final Zone game with Happy Friday night. The game ended in a score of 14-12.

Outstanding rusher for the Matadors was Harold Dempsey who scored both touchdowns: one on a 65 yard sprint, the second on a 12 yard roll out. Extra points came from a pass from Harold Dempsey to Robert Shannon. Mike Green had a good offensive game, carrying 15 times for a four yard average.

Injury plagued Matadors were unable to stop Happy's offensive that rolled up 19 first downs but managed to hold them off in crucial situations. Defensively Todd McCandless and Harold Dempsey did outstanding jobs.

This Friday's game with Groom has been cancelled due to the large number of injuries.

The two week lay-off will enable the Matadors to get everyone back into the line-up in time to play Ropesville on Friday, November 11, in Petersburg at 7:30 p.m. Motley County won the toss to be the home team in that game.

**Laura Grundy Is Sweetheart**  
Before Friday night's Homecoming game football captains crowned Laura Grundy Football Sweetheart. Laura is a Senior in High School this year and the daughter of Mr. and Mrs. L. B. Campbell and Roy Grundy. Laura is also serving as head cheerleader this year.

During halftime activities the Motley County Pep Club girls presented a routine to recorded music. This was enjoyed by everyone.

## UNICEF Drive Is Successful

It took hours of work and dedication. It took children in Halloween costumes with cartons. But, most of all, it took the help of residents of Matador who donated to UNICEF by participating in UNICEF Day activities.

First Baptist Church G.A.'s and Acteens, sponsors of the UNICEF Day Campaign, raised \$207.71. It was announced this week by chairperson, Frances Hobbs. This money allows UNICEF to assist 100 countries in Asia, Africa and Latin America launch important programs in health care, education, nutrition and social service. It also helps plan and establish child-care programs that give children in these countries a chance for a better life.

Even if you missed the local UNICEF Day activities, you can still help by sending your check to United States Committee for U.N.I.C.E.F., P.O. Box 4000, Grand Central Station, New York, New York, 10017. Think of it as giving vaccine against polio, or an incubator to help keep a premature baby alive, or even the cornerstone of a health center in a rural Thai province.

And as David Hartman, chairman of the 1977 UNICEF Day Campaign and host of "Good Morning, America," says, "Thank you... your support helps a child today and contributes to a better world tomorrow."

Girls that helped locally with the UNICEF drive are all members of G.A.'s and Acteens, First Baptist Church. Acteen girls acted as captains of each group and are listed as follows:

Group One: Jan Hart, Captain; Leigh Barton, Shauna Campbell, Vivian Sims, and Melea Taylor.

Group Two: Traci Green, Captain; Paka Barton, Korre Campbell, and DeAnn Phillips.

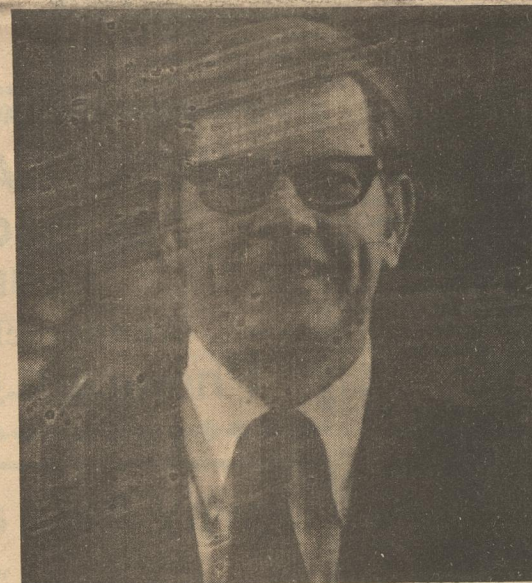

Group Three: Brenda Renfro, Captain; April Vandiver, Regina Mangram, Dena Renfro, and Kim Phillips.

Group Four: Reneigh Gwinn, Captain; Kay Nimmo, Shannon Campbell, and Tracey Jackson.

Group Five: Rhonda Stephens, Captain, Colleen Rose, Donna Mangram, and Bridgett Brown.

G.A. and Acteen leaders and volunteers who helped with the drive were: Mesdames Roy Hobbs, Fred Risser, Ronnie Vandiver, Larry Hoyle, Kenny Barton, Charles Renfro, Butch Renfro and Bundy Hal Campbell.

Mrs. Frances Hobbs said, "I would like to express my appreciation to all who donated money, to Bro. Jerry Golden, for all of his help and support, and to any person who had a part in making this drive successful."

Ray Farabee

## Farabee Announces For Re-election

State Senator Ray Farabee announced his candidacy today for re-election to the Texas Senate representing the 30th District. The 30th Senatorial District covers a twenty-nine county area in North Central and Northwest Texas including Motley County. Farabee, who is 45 and a Democrat, was elected to the State Senate in 1974 and is now completing his first term of office.

Lieutenant Governor Bill Hobby recently appointed Senator Farabee to the Legislative Budget Board which meets during the interim between sessions to prepare the budget for the State. He also serves on the Senate Finance Committee, the Jurisprudence Committee, and the Natural Resources Committee, which deals with issues concerning agriculture and energy.

The Texas Farmers Union presented Senator Farabee with the Senate Member Outstanding Legislative Service Award in 1975 and he recently received the Vocational Agriculture Teachers Association's Texas Distinguished Legislator Award.

Senator Farabee, in announcing his candidacy, said, "My first term in the Legislature has been productive and worthwhile. I was fortunate to receive excellent committee assignments and have sponsored legislation which is now law that benefits both the 30th District and the State of Texas. I would like to continue my public service in the Texas Senate. I want to utilize the experience and seniority which comes with a second term to serve the people of this area."

In 1975 TEXAS MONTHLY magazine selected Senator Farabee as the outstanding newcomer to the Senate and in 1977 named him as one of three senators among the ten best legislators in Texas. In making this selection, TEXAS MONTHLY cited him as being, "conscientious, hardworking, smart, fair, independent; someone who does his homework."

Karen House, Virgie Hunter and Debbie Haralson

## Homecoming Activities Highlight Weekend

Selection of a Homecoming Queen and Homecoming King, election of new officers, an entertaining program and class reunions were highlights of Homecoming Friday and Saturday for Motley and Matador High School ex-students and ex-teachers.

Welcome to the exes was extended by Debbie Smallwood Haralson, president of the Ex-Students and Teachers Association, to open the program Saturday afternoon. Invocation was by Larry Hoyle, and the list of deceased during the past year was read by Algie Groves. Secretary, Hazel Walton Donovan read the minutes of last year's homecoming.

An all-woman slate of officers was presented by the nominating committee, naming Dixie Barton Campbell (Mrs. Bundy Hal Campbell) president, and Sondra Stevens Francis (Mrs. Vann Francis) vice-president and re-electing Hazel Walton Donovan (Mrs. R. E. Donovan) secretary-treasurer.

New directors are Olivia Campbell Barton, Vaden Hays, Pat Green and the retiring president, Debbie Smallwood Haralson. Hold-over directors are Debra Garrison Scott, Kenneth Thompson, Gale Stafford and Jesse Perkins.

Sharlene Berryman Rattan, class of 1967, was elected Homecoming Queen and John Moore of Southampton, Pa., was elected Homecoming King. He was a member of the class of 1917.

## Pallmeyer Receives Service Award

COLLEGE STATION - (Spl.) W. C. "Bill" Pallmeyer, Motley County Extension agent at Matador since 1953, received the prestigious Texas Superior Service Award in ceremonies here Friday, October 28.

His award was presented during special ceremonies held at Texas A&M University by the Texas Agricultural Extension Service.

Pallmeyer was cited "for unique and effective leadership in developing outstanding educational programs -- particularly in peanut production and marketing -- to improve the quality of life and net income for Motley County residents."

In announcing the award, Dr. Daniel C. Pfannstiel, Extension director, said "peanut producers in Motley County credit Pallmeyer with spearheading a program that has made the county a major peanut-producing area of the state."

Through Pallmeyer's efforts, said Pfannstiel, a strong County Program Building Committee has built a program based on problem prevention, rather than problem control. More than 1,000 acres each produce almost 4,000 pounds of high-grade peanuts during the county's short growing season -- to make the county a leader in that community.

Additionally, a teaching program based on educational meetings, demonstrations, tours and evaluations has shown producers the most effective ways to produce and market their peanut crop. This program has been expanded to serve area producers, said Pfannstiel.

Practices that producers have adopted as a result of these methods include crop rotation, double-row planting on top of beds, width reduction on rows, management of water applications to reduce fertilizer leaching, and pest management techniques.

Besides Pallmeyer's success with the peanut program, the agent also provides leadership to a total Extension agricultural program that involves in-depth programs for all major agricultural crops and 4-H and youth development.

A native of Steiner, Texas, Pallmeyer has served with the National Association of County Agricultural Agents. He also has received the career guidance award from that organization on three separate occasions. He was named the business and Professional Award Winner for the Upper Peace Soil and Water Conservation District in 1974, and has received other professional and industry awards.

The class of 1917 received special recognition and corsages were presented the women, Lilly Guthrie Edmondson of Topton, Okla., and Ethel Jenkins Payne. Matador Mr. Moore was presented a boutonniere. Another member of the class, Dr. Albert Traweck, had met with the group for lunch at the home of Josephine Moore Hamilton.

Mary and Dick Moore traveled the farthest -- 2200 miles from Tacoma, Wash., to be here for Homecoming. Miss Verlin Reeves was recognized as the earliest graduate (1914) present. She is also a former teacher in the local schools. In addition to the class of 1917, other classes that held reunions were recognized: 1927, 1947, 1957 and 1967. Former Homecoming Queens were also recognized.

A most interesting and entertaining program was presented by Virgie Sparks Hunter of Slaton, who graduated here in 1921. She holds Bachelor's and Master's degrees from Texas Tech University.

Mrs. Hunter, who began her teaching career at the Bird Ranch school, recounted many humorous incidents which she experienced during her 34 years as a teacher -- the last six years as principal in the Slaton schools. She taught one year in Maryland, and also supplied as a relief teacher in Alaska for two months.

"The rewards of teaching are more than just a pay check -- memories are the most," she declared as she concluded her talk with a poem, "I'm Still Kicking -- I Ain't Dead Yet." Since her retirement, Mrs. Hunter has traveled extensively in Hawaii, South America, Europe and the Far East.

Mrs. Hunter shared the spotlight with another Matador graduate, Karen Elliott House of Washington, D.C., class of 1966, who spoke briefly about her work as Washington correspondent for the Wall Street Journal and her current assignment covering the energy program. She paid tribute to her former English teacher, Mrs. Reece (Grace) Timmons, and said, "You may leave Matador -- but Matador doesn't leave you."

In adjourning the 1977 Homecoming, Mrs. Haralson expressed her appreciation to everyone who helped in any way in preparing for the activities, which included the barbecue supper served Saturday night, and the dance which followed at the VFW building.

## NASA To Present Program At School

Motley Co. High School will host the National Aeronautics and Space Administration's lecture-demonstration program Monday, November 7 at 12:40, which will be conducted by Fred Kubesh. Mr. Kubesh is a faculty member of California State University, representing the Johnson Space Center, Houston. He is serving as an Aerospace Education Specialist for NASA.

Mr. Kubesh received his Bachelor of Science degree from the University of Houston and his Master's degree in Education from Prairie View A&M University. He has also completed graduate work in geology and oceanography at Texas A&M University. In addition, he has eight years experience as a science teacher and coach in Texas public and parochial school systems.

The Aerospace Education System Project is a lecture-demonstration program designed to acquaint the educational community and the general public with the role of the National Aeronautics and Space Administration in the exploration of air and space.

The demonstrations are conducted by Aerospace Education Specialists, who are teachers authoritatively informed on the space sciences and the activities of NASA. They present assembly programs and work in the classroom with the teachers and students.

A typical assembly program lasts approximately 50 minutes and includes discussions and demonstrations of aeronautics, rocketry, propulsion systems, satellites, probes, orbits, human factors, communications and manned space flight.

The programs are presented without charge to the requesting school or organization.

Following the auditorium program, the lecturer is available for classroom visits for further indepth discussions of space topics directly related to specific disciplines or to the special interests of the students.

Mrs. Arlan Winegarner

### Vows Are Pledged

Miss Peggy Jean Marrs became the bride of Arlan Ray Winegarner, Saturday, October 22, at 2:30 p.m. in Martin's Garden room in Spearman. Lloyd Hall of Crosbyton officiated the double ring ceremony.

Parents of the couple are Mr. and Mrs. Bruce Marrs of Matador and Mr. and Mrs. Herbert Winegarner of Campo, Colorado.

Mrs. Bob Hinds of Campo presented prenuptial music selections as well as the traditional wedding march. Verlan Winegarner, brother of the groom, sang "Annie's Song," and Mrs. Gary Ross of Lubbock sang "Whither Thou Goest."

Given in marriage by her father, the bride wore a formal length gown of candlelight giana knit, designed by the bride and hand made by her mother. The dress was fashioned with a shaped standing collar of silk organza and edged with Venise lace. The empire bodice featured a yoke of silk organza with matching lace adorning the yoke and contour shaped waistline. The full sleeves were gathered into V-shaped cuffs with button and loop closings edged with lace. The chapel length train extended from a bustle back effect. Her veil was a Juliet cap of lace and pearls which held two tiers of finger-tip length bridal illusion edged with lace.

The bride carried a cascade bouquet of silk gardenias and sweet pea accented with babys breath and tinted in the bride's chosen colors. Streamers of candlelight ribbon were tied with love knots.

Mrs. John Dunlap, Floydada, sister of the bride, served as matron of honor. She wore a formal length terra cotta giana knit gown featuring a drawstring waistline forming a blouson and bateau neckline. Short flared kimona sleeves slit at the shoulder with attached self ties to form shoulder gathers. She carried a rose trio of long stemmed silk peace roses

roses in the bride's chosen colors.

Guest's tables were covered with white cloths and centered with silk peace roses and babys breath in white vases.

For a wedding trip to points of interest in Arkansas and Oklahoma, the bride wore a tailored two-piece suit of beige suede cloth accented with a pin stripe blouse and silk corsage of gardenias, sweet pea and babys breath.

Upon their return, Mr. and Mrs. Winegarner will be at home in Spearman where she will continue as Extension Economist and he will be employed by Hansford Imp-lement Company.

Out-of-town guests were Mr. and Mrs. C. F. Parnell, Mr. and Mrs. Ben Marrs and Matt, and Mrs. B. H. Marrs all of Paducah; Mr. and Mrs. Verne Marrs of Kerrville; Mrs. Nelda Bray and Miss Audna Clark of Memphis; Mr. and Mrs. M. G. Gordon of Pampa; Mr. and Mrs. Max Stafford and Trenton, Mrs. Van Stafford, Pauline and Cindy Stafford all of Keyes, Oklahoma; Mr. and Mrs. Ward Rattan of Matador and Andy Millican of Springfield, Colorado.

### Club Is Presented Program On Travel

Travel was the subject of the program presented Thursday, Oct. 27, at regular meeting of El Progreso Study Club at the home of Mrs. John Hamilton. Speaker was Mrs. Virgie Hunter of Slaton, retired teacher.

Mrs. Hamilton served as leader and introduced Mrs. Hunter, a former resident of the county, who has traveled extensively since her retirement. Her program, "Travelogue of the Far East," which she narrated as she showed slides of five countries which she toured last March.

Tokyo, she said, was the cleanest city she visited on the tour, as well as the safest. "Criminals know they will be punished, so there is little crime there as compared to our own rate. The citizens maintain strict discipline both in the home and in the schools."

Scenes included many of shrines in addition to familiar scenes, such as Mt. Fuji. Ancient shrines included the Nikko Buddha. Also visited were Teoko-Osaki, Taiwan and Taipei. The flight then took them to Kyoto-Osaki on the China mainland, divided by river, from Red China.

The Islands of Hong Kong offered many interesting sights, from a marble palace and mansions, to the hovels of the destitute. "Most interesting were the Golden Buddha - made of five tons of gold, and the Temple of the Emerald Buddha." Because of the lack of burial grounds, huge burial urns were in evidence.

Singapore, Mrs. Hunter described as "different, very clean and very expensive."

Mrs. Hunter touched briefly on her teaching career by showing interesting slides made in Alaska, while she taught for two months in the small village of Nuiqsuit, only 18 miles from the Arctic Ocean.

Inspirational Thought by Mrs. W. C. Pallmeyer concluded the program.

Mrs. Franklin Price, president, conducted a short business session preceding the program, and announced plans for the "Gentlemen's Evening" dinner, November 10, at the First Baptist Church. She also reminded members to bring gifts to be sent to the patients at the Wichita Falls State Hospital.

Others present were Miss Mary Keith, Mesdames Harold Campbell, Ben Keltz, E. A. Day, J. L. Woodruff, W. F. McCaghren, Frank Pohl, D. E. Pitts, Ralph Stapleton and Douglas Meador, and a guest, Mrs. Henry Ford.

Visiting Sunday in the home of Mr. and Mrs. Kim Wilkinson were their daughter and husband, Mr. and Mrs. Roland Hurt of Lubbock and Mrs. Wilkinson's sister and husband, Mr. and Mrs. Arnold Wallace of Crosbyton. Visiting Monday in the Wilkinson home were Mr. Wilkinson's nephews and families, Mr. and Mrs. Floyd Garrison of Portland, Oregon, Porter Garrison of Amarillo and Guy Garrison of Floydada.

# Michael Peacock Attends Training

Graduation exercises Friday afternoon, October 21, in St. Louis, Mo., climaxed a week of intensive training for Michael L. Peacock, of Phoenix, Arizona. He and 38 other Management Trainees of the Ralston Purina Company took part in a headquarters school designed to update the sales force at the Chow Division.

Held at the Learning Center of the Purina Agricultural Institute in downtown St. Louis, the Basic Sales School combined information gathered from both research and marketing segments of Ralston Purina. One and a half days were spent in the middle of the week touring the sprawling Gray Summit Research Farm operated by the livestock feed manufacturing company. At the farm, Peacock and the other "students" saw tests being conducted with experimental feeds and ultra-modern equipment. "The basic concept conveyed that when any new techniques are developed to bring the American farmer produce more food at a faster, more economical rate, it will very likely come from research work being conducted at the Gray Summit Research Farm," Peacock said.

Peacock is a team member of the largest livestock manufacturing company in the world, Ralston Purina Company, which was founded in 1854. Peacock's feed is U.S. livestock than the next four largest feed companies combined. He has been with the Chow Division of Ralston Purina since June, 1977. Mike is the son of Mr. and Mrs. B. L. Peacock of Roaring Springs, and a former, Motley County, resident.

## Researcher Honored

**IOWA PARK (Sp.)** - Agricultural scientist, Woodfin, presented Woodfin with a certificate for "distinguished and devoted service" to the Texas Agricultural Experiment Station. Woodfin is the station's official agricultural research agency - and is the Texas A&M University Agricultural Extension Center.

Mr. Woodfin has shown a deep concern in solving agricultural problems of the Rolling Plains. He has the ability to relate his research on vegetables and pecans to practical uses such as home gardens and the growing local interest in pecan culture. His studies on fertilizers and irrigation broadened his experience base even further. He has shown a continuing interest in the welfare of his co-workers and the people of Texas served by the Experiment Station, said McCall.

A native of South Georgia, Woodfin has a B.S. degree in dairy products from Texas Tech University. Following the Experiment Station, he worked in private industry in Dallas and Wichita Falls. He plans to continue to make the Experiment Station his home.

### FACTS & FIGURES

The world population in the year 1800 was estimated to be 960 million. In 1950, that figure had almost tripled to reach 2.4 billion persons!

Today, the world population is estimated to be some 3.5 billion. According to current forecasts, the population of our planet will increase to approximately 6.5 billion by the end of this century!

This means that in 25 years' time almost three times as much food as we grow today will have to be produced. One worldwide corporation, Hoechst (pronounced Herkst), is involved in solving problems of world hunger and disease and spends nearly \$400 million a year on research. That's more than \$1.5 million every working day! In the U.S., American Hoechst Corporation, which last year invested \$21 million in research, is best known for its Foster Grant sunglasses.

In the last 10 years Hoechst has marketed more than 2,000 new products that will improve our standard of living. Many of these were developed at the central research center in Frankfurt, Germany, which is one of the largest private research centers in the world.

## Cotton Module To Be Shown

Cotton producers and ginners will get a firsthand look at how cotton modules are constructed and handled at a demonstration and field day at the Wilbarger Memorial Auditorium in Vernon, Thursday, Nov. 17, starting at 9:00 a.m.

Topics of discussion will include proper methods of module building, cost of module building equipment, preserving cotton lint and seed quality, and effects of proper defoliation and cultural practices on storing seed cotton.

A panel of producers and ginners will also comment on the potential of using a module building system according to Bill Palmeyer, Motley County Extension Agent.

Following a luncheon sponsored by equipment compan-

ies, the entire module building concept will be demonstrated, including new dump trailers, the module transporter truck and module builder. More than \$200,000 worth of equipment will be on display.

"The cotton module building is designed to allow producers to store harvested cotton in a central location in the field or gin yard and then to haul it to the gin at a later date. This has a number of advantages, such as allowing the producer to make maximum use of his harvesting capacity and to be independent of ginning capacity, thereby harvesting the cotton when it is ready without having to worry about having enough trailers," says Dr. Calvin Parnell, Extension Ginning & Mechanization Specialist.

## Winners Announced

Rice And Chicken

A TASTY TWOSOME of chicken and rice is as tempting to the budget as it is to the taste buds.

There are almost as many reasons to enjoy a rice and chicken combination as there are ways to serve it.

Both foods are easy to digest and neither is hard on your food budget.

Chicken is low in saturated fat, high in unsaturates and mild in flavor, which means it will combine well with all sorts of vegetables, spices and seasonings.

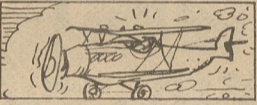

Rice is not only easy to eat and low in fat, it's a good source of B complex vitamins, calcium and iron.

Together, in dishes such as Baked Chicken with Rice and Corn Dressing, they make a tasty meal that's elegant enough for company, economical enough for the family and enjoyable for all.

### BAKED CHICKEN WITH RICE AND CORN DRESSING

- 1 broiler/fryer (2-1/2 to 3 pounds), quartered
- 2 tablespoons butter or margarine
- 2 teaspoons lemon juice
- Salt and pepper
- 1/4 pound bulk pork sausage
- 3/4 cup sliced green onions
- 3/4 cup chopped celery
- 3 cups cooked rice, cooked in chicken broth
- 1 can (12 ounces) whole kernel corn, drained

Brush chicken with butter and lemon juice. Season with salt and pepper. Bake, skin side up, at 375 degrees about 30 minutes. Cook sausage, green onions and celery until vegetables are tender. Add rice, corn and salt and pepper to taste. Mix well. Spoon dressing around chicken and continue baking 30 minutes longer. Makes 4 servings.

The first woman to fly solo from England to Australia was Amy Johnson in 1930.

GOLF WINNERS - were presented trophies at a luncheon held Thursday in the home of M. Lucretia Campbell. They were: Geneva Wilson, Frances Hobbs, Louise Barton, H. Donovan, Laverna Price and Leona Cox.

## THINK SMALL

The smallest recorded freshwater fish and the shortest of all vertebrates is the dwarf pygmy goby (Pandaka pygmaea) found in the Philippines. Adult males measure only .28 to .38 of an inch, making them smaller than their own name.

A small computer the size of a desk is not only easy to operate, but can provide small businessmen with many of the same benefits big companies get from their big computers. Called the IBM System/32, it can improve inventory control and generate key reports that can make a major contribution to the management of a business. Yet it fits in almost anywhere.

The smallest book printed with moveable metal type measures a mere .1131 x .1131 inches and is bound in red calfskin to a thickness of .059 inches. It was published in Scotland in 1975.

**ADULT-CHILD NEED COMMUNICATION**

**COLLEGE STATION**  
Adult-child communication requires some adapting, says Debby Johnson, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System. Conversing with a child requires a special skill, Miss Johnson says.

A four-year-old does not grasp adult concepts and styles of communication. For example, children have little appreciation for teasing and sarcasm, which most adults tend to use throughout their conversations with other adults.

To talk with a child, advises the specialist, first put yourself on the child's level. Children spend their days gazing upward in attempting to make eye contact with adults, so bend down and "level" yourself with children.

Try to use soft tones. This can help calm or soothe a child. Loudness and verbal abuse only upset a child. Even adults react unfavorably to harsh tones, Miss Johnson says.

Above all, children deserve respect. It is only when they are treated with respect that they learn to respect others. The way adults relate to children can affect children's attitudes toward adults in later years.

Explore your children's thoughts, says the specialist. Give children a chance to talk.

"Think -- before you speak -- of the impact of your words and the way you use them on a child's self-concept."

**HEW Plan Developed To Control Costs**

WASHINGTON (AP) - The government has proposed standards aimed at eliminating one of every 10 general hospital beds in the nation while improving the care of patients. The proposed regulation, the first national standard set for hospitals, is part of a national plan to bring soaring

hospital costs and growth under control.

The plan, developed by the Department of Health, Education, and Welfare, would limit the number of general hospital beds in a community to four per cent 1,000 population and would require hospitals to maintain an average occupancy rate of 80 per cent.

This would mean about 100,000 of the current 950,000 hospital beds would have to be phased out by the time the standards are fully implemented in 1984.

It also would set frequency standards for certain specialized medical procedures so that only hospitals that regularly perform such procedures could offer them. The standards would require that:

A metropolitan hospital would have to perform at least 2,000 deliveries a year in order to maintain an obstetrical unit.

An institution that provides open heart surgery should perform at least 200 such procedures each year.

Hospital units offering radiation therapy to cancer patients should be limited to one for every 150,000 people or should serve at least 450 new patients each year.

There should be at least 20 beds in a hospital pediatric unit and such units should maintain an average annual occupancy rate of 65 to 80 per cent.

The final regulations will be issued in December or January, after the public has had a chance to comment on the proposals. Local health service agencies then would have one year to draw up plans for putting the standards into effect and four additional years to actually put them into effect.

**BAKED MACARONI AND CHEESE**

- 1 lb. elbow macaroni
- 1 lb. sharp cheese, grated
- 1/2 cup grated Parmesan cheese
- 1/2 cup butter or margarine
- 1/2 cup flour
- 3 cups milk
- 1/4 teaspoon seasoned pepper salt to taste
- 1/4 cup chopped onion

Cook and drain macaroni, turn into a large bowl. Add cheese and mix. Melt the butter or margarine, stir in flour. Add milk and seasonings, stir until smooth. Add onions. Continue to cook and stir until very thick. Add the sauce to the macaroni and mix well. Spoon into a large greased ring mold, or a casserole. Bake in a moderate oven, 350 degrees, 35-40 minutes. If using ring mold, let stand about 20 minutes before turning out. Serve with a garnish of sliced tomatoes dipped in French dressing, then sprinkled with basil or oregano. Makes 12 or more servings.
