## Charges Are Filed For Pickup Theft

Multiple charges were pending early this week against two young Quitaque men accused of stealing a pickup from a Flomot resident.

The pickup, a 1978 Chevrolet owned by Malcolm Turner, was found early Saturday morning two miles East of Turkey by Hall County deputy Johnny Butler. Turner did not realize the vehicle had been taken until lawmen notified him Saturday. It had been parked in front of his house North of the Community Building in Flomot. Motley County Sheriff Alton Marshall estimated it had been stolen between midnight and 5 a.m.

There was between \$800 and \$1,200 damage done to the vehicle. When it was

found, the pickup was still running, in gear, and had been run against a state highway sign. The two youths are suspected of being intoxicated when the incident occurred.

Marshall said officers had a sworn statement from one of the boys, an 18 year old, that they had taken the pickup. But both the 18 year old and his juvenile friend denied taking the CB radio which was missing from the pickup Saturday.

The Tom Ross family, of Flomot, had all the butane taken out of their tank and a butane hose stolen sometime Friday. Marshall said he did not think there was any connection between the Turner case and the Ross case. Investigation is continuing in both cases.

## Motley Co. Students Make Honor Roll At Texas Tech

Five Motley County students were among more than 4,000 students at Texas Tech University who qualified for the deans honor rolls in the six colleges during the fall semester.

They were Susan M. Hunter, daughter of Mr. and Mrs. Wayne Hunter of Flomot; Marilee Martin, daughter of Mr. and Mrs. Wilburn Martin of Flomot; Arnold W. Parker, son of Mr. and Mrs. Arnold O. Parker of Matador; Lynda Elliott Fogerson of Silvertown and Larry Elliott of Lubbock,

daughter and son of Mr. and Mrs. Ted Elliott of Matador.

To qualify for the dean's honor roll a student must have a grade point average of 3.0 or more on a 4.0 scale and must have taken as many as 12 semester hours of work.

Texas Tech University has an enrollment of more than 22,000 students in six colleges: Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering and Home Economics.

## Motley County Girls, Boys Are District Champions

BY CARLA HART

Both the Motley County boys and girls basketball squads finished district play Tuesday night with 8-0 records to capture District Championship honors, in what proved to be an exciting season for each team.

The girls defeated Jayton Tuesday, 40-24, after being hampered by turnovers early in the contest. Jayton led 8-4 at the end of the first quarter, and Motley County did not take the lead until 1:25 remained in the first half. But the girls led 19-14 at halftime and 24-16 after three quarters of play.

Sharlene Smith scored 10 points to be the Matadors' leading scorer, and helped the team to be the first girls squad to win district since 1962.

The boys, going into Tuesday's game already district champs, beat Jayton in a close 58-55 contest.

The Jaybirds were leading at the end of the first

quarter, 9-11, and the score was tied 24-24 at the half, but Motley County pulled away in the third quarter to lead

40-34. Jayton made a powerful comeback in the final period but failed to

## Drilling Continues On Wildcat Well

Working "twenty-seven hours a day, seven days a week," drilling crews continue to core deeper into the earth on the "rank wildcat" in the Dougherty community.

Labeled "the Dougherty Prospect," the wildcat is on Bundy Hal Campbell land, northeast of Dougherty. It is 16 miles West of Matador.

The 48th daily report was filed Friday morning, a spokesman told The Hesperian. Drilling started Dec. 16. Wayne Durrett of Level-land is the "pusher."

The spokesman declined to state how deep the crew had drilled, but stated that the operation was in the "intermediate" stage. He

added that "the string had been set."

The drilling operation could continue "possibly another month." The crew is "drilling to a possible TD in the granite."

Severely cold temperatures had been detrimental to the drilling crews although this has not halted the operation.

Jim Blodgett of Midland told The Hesperian during a Thursday phone conversation that the permit was issued for a 12,500 foot exploration.

He termed the Dougherty project "certain a wildcat... there is no nearby production.

## Search Continues For Cattle Brands

The search continues throughout Texas for outstanding cattle brands to include in another chapter of their history by "burning 'em in" Texas A&M University's "branded stairway".

Brands that were selected from Motley County to be placed in the new Animal Science Building at Texas A&M University by the Livestock subcommittee were:

J Z first brand registered in Motley County, April 1, 1891 by L. C. Lancaster. Cancelled April 21, 1930.

T 41 Cattle Brand on cattle driven to Motley County by the Matador Land and Cattle Company, and registered May 31, 1893. Discontinued Feb. 16, 1898.

50 Brand used by the Matador Land and Cattle Company, registered March 31, 1893, and representing the \$10,000 each put up by 5 men to form the capital of the Matador Ranch.

V cattle brand of the Matador Ranch, registered Feb. 16, 1898, and still in use.

H (Double H) registered by Harry Campbell August 17, 1901, first white person born in Motley County, and son of Henry Campbell, the person who put the Matador Ranch together. Used today by Harold Campbell.

T+ (T cross) registered by C. D. Bird, an original homesteader in Motley County. Used today by Lois Bird.

(Lazy F) Cattle brand for the Goodnight High Grade Cattle Company, registered by Al Barton, Manager on August 11, 1896. Used today by Pepper Jones, Quitaque.

r (Script r) Registered to the Red Lake Cattle Corporation on June 22, 1953 for the use on cattle grazing a shinnery pasture. Transferred to Johnny Stevens, Nov. 4, 1959.

Brands were placed on the stairway panel at the Kleberg Center by Steve Stevens, Matador, a student at Texas A&M at the time of the branding on Oct. 30, 1978.

+++

L. A. Maddox, chairman of the unique branding project, said that some 3,500 brands, or more, are expected to be imprinted on the 254 "county oak panels" in the University's new \$9.5 million Robert J. Kleberg Animal and Food Sciences Center.

"County Extension agents are working with their local beef cattle committees to select eight brands per county, and with historical societies to select other brands for the panels," Maddox, Texas Agricultural Extension Service beef cattle specialist, said. "We now have slightly more than 500 burned in."

There are some 200,000 brands recorded in Texas

and on file with the Texas and Southwestern Cattle Raisers Association in Fort Worth. This is the state's most complete record.

The "branding" was an idea of Dr. O. D. Butler, for many years head of Texas A&M's Animal Science Department and now associate vice president for agriculture and renewable resources. He said that not only are cattle brands a rich part of Texas livestock history but a prized possession of ranchers in identification of their cattle.

"We felt that the branding ceremonies would bring about a closer tie-in between cattlemen and our animal science facilities on campus

as well as with research and educational work throughout Texas," Butler said.

Application of the brands was initiated last June during a meeting of directors of the Texas and Southwestern Cattle Raisers Association. Officials of other livestock groups also are being invited for a "branding party".

Maddox said that branding ceremonies also will be conducted by Extension district groups until "all panels are branded." This probably will be about next April 2-3 when the annual Texas Animal Agriculture Conference is staged at Texas A&M.

The bride elect was graduated from Estacado High School and attended Angelo State University. The prospective bridegroom was graduated from Patton Springs High School and attended Texas Tech University.

### Social Security Tips

By Janis A. Sherrod  
S. S. Representative  
Question: I got a W-2 form that doesn't look like the W-2's that my friends got where they work. Is this O.K.?

Answer: If your company is filing its copy of the W-2 on some sort of magnetic tape, your W-2 could look different than that of your friends. Companies

that are not using the paper copy of the W-2 to send to the Social Security Administration are allowed to print out your wage information in a format that is compatible with their computers.

For further information regarding Social Security benefits please contact the Social Security office, 1401-B West 5th Street, Plainview, telephone 293-4371.

## Former Teacher Honored

A former science teacher in Matador High School, Dr. Ruth Hartgraves of Houston has received the 1978 Houstonian of the Year Award from The Foundation for Children Inc. The same award was received also by Dr. Goldie Ham of Houston. The recipients began practicing gynecology and obstetrics in the 1930's and are considered "female pioneers in the male-dominated field of medicine" according to a feature appearing in the Houston Post.

Dr. Hartgraves taught here from 1925 until 1928, when she entered medical school in Galveston. She was in the same class with the late Dr. J.S. Stanley. She was a popular member of the school faculty here, and returned in 1968 to attend Homecoming as the guest of Randall Whitworth and his wife, the late Margaret Whitworth.

Barbara McIntosh, reporter for the Houston Post, gives this account of Dr. Hartgraves' achievement with this observation, "Houston has been enriched by Ham's and Hartgraves' dedication to medicine."

**DR. HARTGRAVES...**  
When Ruth Hartgraves first moved in to Houston to begin her practice, she had a

spotlight installed on her car so she could see house numbers at night when she was out on call.

The native Texan, who received her medical degree from the University of Texas Mdeical Branch in Galveston, moved to Houston after completing internships at the New England Hospital for Women and Children in Boston and the New York Infirmary for Women and Children in New York City. She has been practicing medicine here for 43 years.

During that time, her profession and the city both have changed drastically. One thing that hasn't changed, however, is Hartgraves' love of and dedication to medicine. Although as a child she never met a woman doctor, she always wanted to be one.

During her Career, Hartgraves has been president of the American Medical Women's Association, was the only Texan to receive that association's Elizabeth Blackwell Award, was awarded an honorary doctor of science degree from Southwestern University and was appointed clinical professor emeritus of obstetrics and gynecology at the University of Texas Medical School.

Her "hobby," Hartgraves says, is continuing her education in the constantly changing world of medicine. She attends weekly classes at Baylor and recently returned from an international medical conference in West Berlin.

Explaining why there still are comparatively few American woman doctors, Hartgraves says, "I think it's because it's such a hard field ... you sacrifice many things that American women are not so interested in doing."

overtake the Matadors.

Lester Campbell was leading scorer for the boys with 20 points.

Friday, February 2, the Matadors hosted the McAdoo Eagles in two very exciting games.

In girls action, the Motley team led the Eagles at half-time 22-9. Play picked up after half-time and the Matadors came out with the win, 46 to 40.

Sharlene Smith led the scoring for the Matadors with 12 points, while Becky Curry sank 23 for McAdoo.

### BOYS WIN AFTER FOUR OVERTIMES

The boys game proved to be a real exciting contest. At the half, Motley led by only 3 points, 29-26. At the end of the third quarter, both

teams were tied at 41. At the end of regulation play, the Matadors and the Eagles were again tied at 51. Thus began a series of four consecutive nervous and exciting overtimes, ending at 55-55; 57-57; 61-61 and at the end of the fourth overtime the score was Motley 65, McAdoo 63.

Robert Parker sealed the Eagles fate when he sunk the two deciding free throws. Thus giving the Matadors a 65 to 64 win.

Robert Parker dominated scoring for the Matadors with 22 points, while Lance Harris had 14 points for McAdoo.

Tuesday, January 30, the Motley Matadors travelled to Guthrie to take on the

Jaguars in the second half of district play.

At the end of the first half, Motley County held a narrow lead over Guthrie, 24-21. Holding the Jaguars down to only 6 points in the third quarter, the M.C. team took a substantial lead to defeat Guthrie 64 to 40.

Pamela Pitts led the scoring for M.C. with 16 points. Melanie Keith had 32 for Guthrie.

+++

In the boys' game, Preston Pitts scored 19 points for the Matadors in their defeat over the lacking Jaguars. Even though Gibson scored 20 points, the Jaguars were soundly defeated by the Matadors, with the score of 82 to 39.

## Should Apply Promptly For Retirement Checks

People under 65 who want reduced social security retirement benefits should keep a close eye on the calendar, a social security representative said recently.

It used to be that a person applying for retirement checks after age 62 could have benefits paid retroactively for up to 12 months, she said. But that was changed by the 1977 social security amendments. Now, except in a few specified instances, retroactive payments

can be paid only to those retiring after age 65.

The spokesperson said that a worker under 65 should apply no later than the month he or she wants benefits to start to be sure of receiving all potential benefits. A person applying later could miss out on one or more months of benefits.

Also, widows and widowers 60 to 65 who wish to receive survivors' benefits should apply for benefits in the month of the worker's death. Otherwise, one

or more months' benefits could be lost.

For more information about applying for benefits, contact any social security office. The people there will be glad to answer your questions about social security. The address and telephone number of the nearest social security office can be found in the telephone directory under "Social Security Administration."

## The heat pump

"THE ELECTRIC SAVINGS MACHINE"

**A good bargain!**

A heating system that's more than 200% efficient may seem like something out of the future. But it isn't. It's yours today, with the electric heat pump. Because when correctly installed in a properly insulated home, the heat pump produces two units of heat for each single unit of electricity it uses. The heat pump operates by using the future's most abundant energy source, solar energy. It transfers heat that's always present in sun-warmed outside air into your home during the winter. And reverses the process, pumping heat outdoors during the summer.

WEST TEXAS UTILITIES COMPANY

If you have plans to buy, build, or remodel, or are looking for a new heating and cooling system for your home, call a local heat pump dealer or talk with WTU. We will arrange for a WTU heating and cooling specialist to contact you. Learn more about the easy-to-install, economical electric heat pump—your most energy-efficient heating and cooling system buy.
