

\$2,000 Purse in World Championship Rodeo

judges have rendered their decision, a world championship amateur bronc rider will be crowned—and will claim a big chunk of the purse.

Omar Parks of Roaring Springs, President of the Old Settlers Rodeo Association made the announcement to the Tribune Tuesday afternoon. He said the rodeo is being staged through the cooperation of Morris Stephens of Silverton, who will furnish 48 head of salty broncs and Brahman bulls.

The first performance will be held Saturday night, October 29, when 24 head of pitching live stock will enter Old Settlers Arena. The next performance will be held at 2:30 Sunday afternoon, October 30, when 24 more animals will be tried. Parks said the classifications would include bareback broncs, saddle broncs and Brahma bulls. Admission to each performance will be \$1 for adults and 50c for children over 12.

Parks said two outstanding riders of West Texas have already made plans to enter the contests. They are Ed Workman of Olton and Rusty Welch of Jayton. All amateur riders are welcome to enter.

In addition to the bronc riding, jack-pot roping will be held in connection with both performances. No ropers will be barred, he declared.

The winner of the contests will be acclaimed amateur bronc riding champion of the world.

Roaring Springs Ready for Second Homecoming

Arrangements were concluded yesterday for the second homecoming of former students and graduates on October 22. Buzz Thacker, President of the Ex-Students' Association said registration will start Saturday at 1 p. m. in the school gymnasium. A program has been planned for three o'clock. At 5:30 p. m. a barbecue supper will begin in Old Settlers Pioneer Park, which will be concluded before the start of the Yellowjackets-Jaybirds football game at 8 p. m.

The football game, which will conclude the homecoming program will be the high point of the event. Many fans believe the game may be a decisive one with regard to the district championship. The Jayton Jaybirds are rated as one of the top teams in the district.

A football sweetheart will be crowned by the Yellowjackets between halves. The Jackets won their first conference game October 6, when they left the Girard Cardinals fluttering 65-18. The team rested last week during an open date, in order to be in prime condition for the Jaybirds homecoming game Saturday.

Superintendent Paul Sweatt, who is chairman of the homecoming finance, is in charge of the barbecue ticket sales. All members of the senior class are also engaged in selling tickets. Price of the barbecue tickets is 75c for adults and 50c for children.

Football fans from Matador and other neighboring communities are urged to attend the homecoming football game with the assurance that it will be one of the top six-man grid contests in the district this season.

RAIL DUST

By Douglas Meador

has a disarming tenderness appearing to reach for our memories first.

Its grandeur, its candor gleaming metal and Dallas is a plebeian country. Its wealth and beauty impressive, but it has too common, likeable people to become haughty. It is on the fierce tradition of efficiency without vision to its magnitude. Every man who has looked down Love Field knows it is not enough for one of the great air ports. Talk of a myth, Dallas is a city for Love Field and traffic will grow faster than the simple to everyone but Amon Carter Field has a value of the port by the process of building a fast lane road to down town. Love Field will be expanded and has become great in instead of because of its size. Dallas is naive and has a tendency to become the mistress of Texas.

day destroys the debris predecessor and the heart itself to sleep in the lonely of despair when the flame of life has gone out. It becomes an opiate and surrenders without protest. I looked at the man, who looked at me, and he was straight and tall, and he smiled and the of a smile was on his lips. He stepped out of an hour ago the resemblance to a friend could not have been more convincing. I wanted to shake him and shake his but I looked again and the light was gone. Time resumed its sequence.

profane man is a voluntary lobbyist for the devil.

character seldom attains more heights than in that when pleasure is surrendered to serve a friend who has no petition.

is a giraffe that aids so in keeping a respectable charter member of the century's last generation, I have granted the privilege of surveying the debris of misadventure stacked in windrows, the path I have traveled. It is more ghostly than realization that as a boy I was to disturbing weed with a hoe. Attacks were at times, making it necessary for me to sleep in the shade. Of course my parents had no knowledge of my true nature. They treated me for the wrong of my mother's. She had then as a bar of soap after a day's washing.

GARDEN CLUB SHOW RATED BLUE RIBBON

Outstanding flower show staged Saturday afternoon in the American Legion building by Matador Garden Club was declared exceptional, and rated a Blue Ribbon show by the judges. This rating (90% or above) is operation of Morris Stephens of Silverton, who will furnish 48 head of salty broncs and Brahman bulls.

The first performance will be held Saturday night, October 29, when 24 head of pitching live stock will enter Old Settlers Arena. The next performance will be held at 2:30 Sunday afternoon, October 30, when 24 more animals will be tried. Parks said the classifications would include bareback broncs, saddle broncs and Brahma bulls. Admission to each performance will be \$1 for adults and 50c for children over 12.

Parks said two outstanding riders of West Texas have already made plans to enter the contests. They are Ed Workman of Olton and Rusty Welch of Jayton. All amateur riders are welcome to enter.

In addition to the bronc riding, jack-pot roping will be held in connection with both performances. No ropers will be barred, he declared.

The winner of the contests will be acclaimed amateur bronc riding champion of the world.

Social Security Topic for Lions

expounded Tuesday by John G. Hutton of Lubbock, at the regular luncheon meeting of the Matador Lions Club. Mr. Hutton who is associated with the Lubbock Social Security office, was the principal speaker.

He said that although the Social Security law had been in effect 18 years, it was not until this year that the farmer was affected. Any actual farm operator whose net income is \$400 or more, must pay 3% of his income into Social Security. When the income reaches \$4,200 the balance is exempt from SS taxes.

On the other hand when a farmer who has paid SS taxes for six quarters (1 1/2 years) or more and has reached the age of 65 years, he may retire and receive Social Security payments between \$30 and \$95.50 per month. The size of the monthly pay checks will depend on the amount of income on which he has paid SS taxes.

Mr. Hutton said all trades and professions are now under the Social Security law with the exception of lawyers and doctors, who have maintained such strong lobbies that they have remained exempt.

He said all farm employees receiving as much as \$100 per year cash salary (any share-crop is not considered salary) must pay 2% of their incomes in Social Security taxes, which is matched by 2% by the farmer who is the employer.

Cotton-Picking Taxes

The question of Social Security taxes to cotton pickers was discussed by Mr. Hutton. He said if the cotton harvest was contracted the farmer was not obligated to pay any taxes. He said in that case it was the government's problem to collect from the contractor. He said, however when the farmer became the contractor, he would be responsible for reporting the Social Security taxes (2%) where the employee earned \$100 or more, and must match the tax with 2% from his own pocket. Mr. Hutton was introduced by County Agent Bill Palmeyer, who was program sponsor.

Lions Pay Tribute

Mrs. Bill Waybourn was an honored guest at the luncheon. Lion Bert Ezzell introduced her (continued on back page)

Homecoming Plans In Hands Of Exes

Homecoming plans for Matador ex-students and teachers on Nov. 11, are progressing at a rapid pace. Invitations and programs have been mailed to nearly 1,000 exes, with approximately three hundred more to be placed in the mail as soon as sufficient addresses are secured.

Response to the request for addresses has been gratifying, as has the payment of membership dues. Officials of the organization are receiving replies with membership dues in the mail daily.

Program for the day will be as follows:

9:00 a. m. Registration and coffee at High School building; 10:00 a. m. to 1:30 p. m. Class Reunions, to be arranged by classes desiring reunions; 1:45 p. m. Business meeting, school auditorium; 2:30 Chapel program and Pep Rally, school auditorium; 5:00 to 7:00, Buffet supper in American Legion building; 7:30 p. m. Football game, Matador vs Quitaque; 10 p. m. Open House for students, teachers, ex-students and former teachers.

P.T.A. Meeting Has Good Attendance

Good attendance marked the first general meeting of Matador Parent-Teacher Association, held Wednesday, Oct. 12, in the high school auditorium with Mrs. Melvin Meason, president, in charge.

The program as arranged, commemorated the anniversary of Texas Congress of Parents and Teachers, and included a brief history of the organization, given by Mrs. Forrest Campbell. The son, "Trees" was sung by Charlotte Campbell. The program was opened with a prayer by Mrs. A. J. Daffern.

Planting of three pecan trees on the campus was postponed until the proper time for planting, when a Tree Planting Ceremony will be held.

The second grade received the award for having the largest number of parents and friends present at the meeting. Refreshments were served with Mrs. Jinks Wilson as hostess.

Matadors Sack Up Cubs To Win First Conference

Starting their conference season last week by sacking up the Estelline Cubs 39-0, the Matador Matadors are scheduled to go into another conference contest tomorrow night against the Lakeview Eagles, here on Burlington Field.

The Matadors completely stymied the Cubs' supposedly potent offense and ran at will thru the defense. Garland Cartwright playing end for the Matadors, scored the first touchdown when he ran six yards in the first quarter. The Matadors really went to work in the second quarter to score three more touchdowns on fine runs by Arvin Ellithorp and Garland Cartwright, with the latter's coming from 64 yards out on an end around play.

At this point Coach Ray Hopkins inserted his freshman team and let them play the rest of the game with the exception of a few instances. The first string was back in the game long enough to score two more touchdowns on a pass from Graham to R. Hamilton for a total of 85 yards. Ellithorp rambling thru the line for 28 yards and a score.

The freshmen took over again and scored six points on a fine 20-yard run by Pat Green, the only upper classman on the field. Green also kicked three extra points during the evening.

The entire Matador team showed up exceptionally well on defense, but the play of the tackles, Capt. Alvin Lynn and Clay Jameson was outstanding as they smeared play after play for heavy losses.

Colorful Uniforms

Matador's traditional pride reached a new height Friday night during the game when the Drum & Bugle Corps paraded for the first time at home wearing the colorful new uniforms. The Corps received echoing rounds of applause for both their experience and the excellence of their work. The uniformed band is the realization of a quarter century community dream.

The Matador Mavericks, coached by J. E. Edwards, will play Turkey tonight and will close their season here next week (Thursday) when they play Estelline.

FARM BUREAU TO ELECT OFFICERS

A meeting of Motley County Farm Bureau members is scheduled here in the District Court room for Monday night, October 24, beginning at 7:30. Announcement was made this week by Frank Price, secretary-treasurer.

Purpose of the meeting is to elect officers and directors for the coming year, and also to propose remedies to alleviate present farm price conditions.

It is supposed that if a sound solution can be reached, it will be submitted through resolution to the state convention in Fort Worth, November 7, 8, and 9th.

New Pontiac Here Friday

The new 1956 Pontiac will go on display here tomorrow at the Matador Motor & Implement Co. showroom. Mike Hoyle, manager of the agency, said the new Pontiac is larger and more powerful than ever, with 15 new body styles and a choice of 57 colors. He said the new car will have 100 new safety features.

A new electronic radio will automatically select only the strongest, interference-free stations. An accessory luggage compartment light can be removed from the car and unreel to a maximum of 17 feet.

Hoyle said Pontiac is introducing another "famous first" this year with the new Stratoflight Hydra-Matic transmission. The car is offered in three series.

"We want to invite everyone to visit our showroom and see and drive the new Pontiac," Mr. Hoyle said, "because we believe it to be one of the finest automobiles ever built."

Program Complete For Variety Show

Scheduled for Tuesday, Oct. 25, at 7:30 p. m. in the high school auditorium, is a Variety Show which will be presented by members of the Matador High School Choir, under the direction of Mrs. L. D. Wilkerson. They will be assisted by the Elementary Girls Choir and the Hep Cat band.

One and one-half hours of clever musical numbers, skits and music in the "Hep Cat manner" will be given for the public to enjoy.

Everyone is invited to attend. Admission price is only fifty cents for adults and twenty-five cents for children under twelve years of age.

Proceeds of the entertainment will be placed in a fund for the use of the music department.

SINGING CROWD EXCEEDS PLANS

Attendance here Sunday at the Motley County Singing Convention exceeded previous plans. Seating facilities for the usual crowd had been made but more chairs were necessary until there was no space for them in the large American Legion building. It was the largest attendance in the singing group's 60-year history, according to President Randall Whitworth.

"It was without question, the largest crowd ever to attend one of our conventions," Mr. Whitworth declared. "We had some of the best singers ever gathered here and interest was better than ever before. Many who came early, remained until the meeting was concluded."

"We were worried to some extent about the food after our crowd filled the Legion building to capacity," he said, "but there was plenty of food for everyone. I have been attending the meetings all my life and the convention Sunday was the largest and best of them all. More than ten counties were represented by singers taking part on the program."

Mr. Whitworth said no business session was held Sunday in connection with the meeting. New officers are elected at spring meetings he said. The election was omitted at the convention this spring but Sunday it was decided to continue the custom of naming officers at the established spring meeting. The Motley County Singing Convention has been holding twice-a-year meetings for two-thirds of a century.

Ample Freight Cars To Haul County Milo Crop

Most of West Texas faces a crucial problem because of railway freight car shortage, but not Motley county. The QA&P Railway which serves the Kimbell elevator at Roaring Springs, has managed to keep ample cars for Paducah, Roaring Springs and Floydada.

"We have never been without cars," S. J. Braselton, manager of the elevator, said today, "and we feel the QA&P railroad is to be complimented for the outstanding service it has rendered the area."

"We have plenty of storage," Mr. Braselton said, "and we have cars to transport the grain. We have shipped about 25 cars and I estimate the crop is about 60% harvested."

Mr. Braselton said the crop is above average in this dry farming area, with the yield being 800 to 1200 pounds per acre as compared in former years with 600 to 800 pounds per acre.

Most of the milo is now going into the government loan at \$1.54 per 100 lbs. (net). Rain damage has been slight with the quality average at No. 2, which is eligible for the loan.

Earlier in the season Mr. Braselton sold about 50 truck loads of milo when there was a market for it. Government regulation prohibits the shipping of loan milo by truck. It must be shipped to storage by rail.

Shortage Is Critical

Meanwhile railroad officials are taking emergency measures to attempt to provide cars for the movement of the great grain sorghum crop being produced on the irrigated Plains. Only about 20% of the Plains crop has been harvested and millions of pounds are being dumped on the ground because of the freight car shortage.

A repetition of recent rains on the High Plains could ruin \$2,000,000 worth of grain today, according to John C. White, commissioner of agriculture. The threat is growing bigger every day as more grain is piled in the elevator yards.

Balloons Off To Wild, Blue Yonder

Nine toy balloons filled with helium gas were released here over the week-end by Bob Stanley, manager of Stanley Pharmacy. Each balloon bore a card advising the finder that he would receive \$1 for reporting his find to the Matador drug store.

The balloons shot upward until they were out of sight immediately after being released, Mr. Stanley said.

Release of the balloons was in connection with the 10th anniversary celebration of Stanley Pharmacy, held Thursday, Friday and Saturday. Mr. Stanley said response to the three-day celebration was good and expressed his gratitude to friends and customers for their interest and participation in the anniversary.

Balloons filled with helium gas were floated against the ceiling of the large, modern store, each bearing a long string. The balloons were given to children Saturday. Mr. Stanley filled the balloons from a drum of helium gas which he purchased especially for the occasion.

NEW SCHEDULE

Starting Friday Roaring Springs schools changed the school-day schedule by beginning classes 45 minutes earlier (8:15) and dismissing at 2:30 PM. The change in schedule was made to allow students to work in the harvest of cotton, sorghums, etc. The new schedule will remain in effect for an indefinite period, school officials declared.

COME TO CHURCH SUNDAY

Rattler Disturbs Distaff Golfers

Conditions are a little short of ideal for improving the game of women golfers at the Airport Golf Club. Only yesterday Mrs. Melvin Meason and some associates had their game disturbed by a rattlesnake squirming its way across the links.

Club rules do not specify the number of strokes as par for beating the head of a rattlesnake, but the item will probably receive attention at the next meeting of the rules committee.

The snake, at the start of the play, had six or seven rattlers and an optimistic view of the future. Meeting with the women golfers was unfortunate. It is ironic that the warm autumn day brought about the meeting. The fine weather caused the snake to take one more fling at summer, and brought the women to the golf course. Mrs. Meason said her game was disturbed by the intruder.

Others in the foursome were Mmes. Pat Sheridan, Marvin Vaughn and Bundy Campbell.

VISITING IN WACO

Mrs. Lenora Luckett is visiting in Waco in the home of her daughter and husband, Mr. and Mrs. Rowe Sams.

COME TO CHURCH SUNDAY

The Woman's Society of Christian Service of the Methodist church, will give a special program Sunday, Oct. 23, at 7 p. m. at the church, commemorating the tenth anniversary of the United Nations.

A feature of the program will be a special film concerning the UN, said Mrs. Sterling Price in making the announcement.

The public is cordially invited to attend the service.

COME TO CHURCH SUNDAY

Roaring Springs Assembly Of God Plans Homecoming

The Roaring Springs Assembly of God Church announced plans this week for a 10th anniversary and Homecoming service, Sunday, Oct. 23. All former members and evangelists are invited to attend.

Regular Sunday services will be observed with Sunday School at 10:00 a. m. and Worship Service at 11:00 a. m. A special service is arranged for 3:00 p. m. and regular evening services will be at 7:30 p. m.

A cordial invitation to attend these services is extended by the pastor, Mrs. Ben Dillard.

Mr. and Mrs. Freeman Thacker left Wednesday morning for a vacation trip and deer hunt at Pagosa Springs, Colorado, where Mr. Thacker hunts annually.

Program Complete For Variety Show

Scheduled for Tuesday, Oct. 25, at 7:30 p. m. in the high school auditorium, is a Variety Show which will be presented by members of the Matador High School Choir, under the direction of Mrs. L. D. Wilkerson. They will be assisted by the Elementary Girls Choir and the Hep Cat band.

One and one-half hours of clever musical numbers, skits and music in the "Hep Cat manner" will be given for the public to enjoy.

Everyone is invited to attend. Admission price is only fifty cents for adults and twenty-five cents for children under twelve years of age.

Proceeds of the entertainment will be placed in a fund for the use of the music department.

Misses Chryslin and Laree Mitchell of Amarillo are house guests of their aunt, Mrs. Buzz Thacker and Mr. Thacker.

Letters Received From Matador Exes

801 N. Grady
 Altus, Okla.
 16 Oct 1955

Dear Mrs. Donovan:

"I just received your letter today concerning the Third Annual Homecoming at Matador. Nancy and I definitely plan to be there. However, the Air Force could change my mind. I have heard many good comments concerning the previous Homecomings.

I would certainly like to see my class (38) have a reunion, but I know where so few are. I have written Maurice Reilly and B. F. Tunnell. B. F. answered and definitely cannot come. Buddy Davis was listed in the Tribune as one whose address was unknown. Here is the most recent address I have for him: Frank E. Davis, 1601, 15th St., Lubbock, Texas. Yours sincerely Jack." (Major Jack Robinson, Jr.)

"I WILL BE THERE IF I'M LIVING AND ABLE TO MOVE TURNEY" (J. T. Sparks, County Juvenile Officer, Abilene, Texas.)

Southern Methodist University
 Dallas, Texas
 10/17/55

"I want to be one of the first to send in my membership fee for this year, plus a dollar for last year.

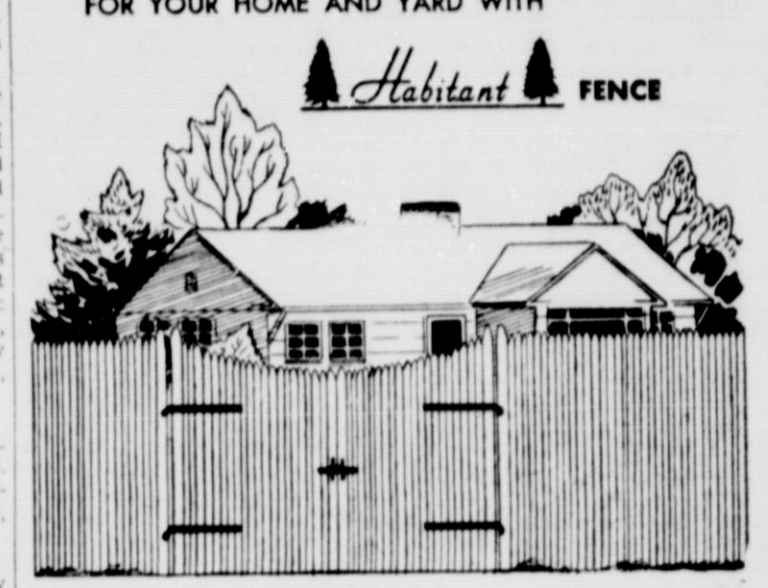

"Mr. Fee and I have just returned from a trip through the Arkansas and Missouri Ozarks and then on to South Bend, Indiana, for the Notre Dame vs. S.M.U. football game; therefore, it may not be possible for us to get away for another reunion and football trip so soon. Here's hoping that Matador handles Quataque better than S.M.U.'s tangle with the Irish.

"We will keep Nov. 11 free, hoping that we may come. In any case, best wishes to all members of the committees. As ever, Mae Sandlin Fee." (Chief Clerk, Registrar's Office.)

RETURNS TO HOSPITAL

W. A. Smallwood of Afton, who spent several weeks in the hospital at Spur following a heart attack, has returned to the hospital during the past week, after suffering a recurring attack.

NEW BEAUTY AND PROTECTION FOR YOUR HOME AND YARD WITH

Habitant FENCE

Habitant Stockade type fence, patterned after the rugged stockades of the early American settlers, is both beautiful and practical. Tightly assembled peeled Michigan white cedar pickets enclose your property... provide utmost privacy and sturdy protection for your lawn and garden. Habitant Rustic Wood Fences are available in distinctive styles ranging from low-spaced picket and lattice designs to high tight assembled and woven styles, factory fabricated to fit your ground plan. Habitant fence gives you a trim, uniform fence of dependable quality and sound, lasting construction. It is shipped in sections, including single or double gates with all hardware attached, ready to install. You can easily put up Habitant Fence yourself or we will give you an estimate for complete installation.

From where I sit... by Joe Marsh

Tie This One For Consideration—

Closed the office early last Saturday to go after pheasants with Pops Foster. I used fewer shells than the old gentleman and took home more birds—but not because I did better shooting.

I'd borrowed a dog for the occasion. Pops took along Blue, his ancient pointer. Several times I noticed Pops walk up to a clump of bushes Blue had pointed at and fire into the air—though he hadn't flushed a single bird.

Naturally, I wanted to know why. "Well," he said sheepishly, "I've been hunting with that dog for 11 seasons. His nose isn't much help any more—but I'd rather waste a shell than let him know."

From where I sit, Pops always shows consideration for people, too. For instance, this is a small thing, but he puts a bottle of beer on ice for me when I visit him—though he never takes anything but coffee himself. Even if he doesn't agree with me on a matter of personal choice (which is his right) he'd rather not make a "point" of letting me know.

Joe Marsh

Mrs. L. M. Wingerd Of Brownfield Gives Book Review At Meeting Of Study Club

"The Road To Bithynia" a novel of Luke, The Beloved Physician, by Frank G. Slaughter, was reviewed by Mrs. L. M. Wingerd of Brownfield, for members of El Progreso Study Club at a meeting in the music room of the grade school, Thursday.

The story is of Luke and his close association with Paul and other early Christians, following the crucifixion. The fast moving narrative is climaxed by Luke's inspiration to record his work of research into the life of Christ, which includes the beautiful story of the Nativity.

Three piano numbers were given by Mrs. Johnnie Stevens and Mrs. Glenn Woodruff, at two pianos, to introduce the program on "Fine Arts". They were "When Day Is Done" (Katchen), "Falling In Love" (Rogers and Hammerstein) and "Kitten On The Keys" (Confrey). Prayer by Mrs. Ben Keltz concluded the program.

A gift, on behalf of the club was presented to Mrs. Wingerd by the president, Mrs. J. L. Woodruff.

Tea was served by the hostess, Mrs. Glenn Woodruff, following adjournment.

Present were, Mesdames J. R. Moore, L. D. Wilkerson, Forrest Campbell, W. W. Clements, A. J. Daffern, G. E. Hamilton, W. F. Jacobs, W. D. Lipscomb, Bill McCaghren, W. N. Pipkin, D. E. Pitts, Sr., Seth Simpson, Freeman Thacker, Fred Simpson, Ralph Stapleton, A. C. Traweck, Jr., Furman Vinson, C. P. Waybourn, J. R. Whitworth, U. L. Willie and Miss Mary Keith. Mrs. Stevens, as well as Mrs. Wingerd was a guest at the meeting.

Mrs. W. R. Tilson of Denton visited here during the week-end with her son and family, Mr. and Mrs. Tom Tilson and attended the Matley County Singing convention.

Seed Processing Shown In Film At Garden Club Meet

Seed processing was shown in a film as part of the program for Matador Garden Club in regular meeting Monday afternoon in the home of Mrs. D. E. Pitts, Sr. County Agent Bill Palmeyer presented the film, produced by the Ferry-Morse Seed Company, in which were shown all the processes used in the development, selection and care used over a period of as much as five years, in developing a seed variety. The film also showed all the stages used from planting to the final packaging of garden, field and flower seeds.

At the conclusion of the film, Mr. Palmeyer gave a talk on insect control, giving the names of the best formulas to use for the chewing and sucking types of insects that infest fields, gardens and flower beds.

Mrs. W. N. Pipkin led a discussion on the different phases of the flower show held Saturday, and all agreed that an outstanding show had been staged and that great improvements were being displayed in flower arrangements over past shows.

The following members were present: Mmes. L. J. Barkley, F. C. Bourland, Forrest Campbell, W. W. Clements, G. E. Hamilton, W. F. Jacobs, Bob Martin, Seth Sager, Melton Thacker, A. C. Traweck, Jr., C. P. Waybourn, Harry Willett, Clotele Horn and U. L. Willie; Mrs. Pipkin and the hostess, Mrs. Pitts.

"From the place of his habitation he looketh upon all the inhabitants of the earth. He fashioneth their hearts alike; he considereth all their works."

In his Introduction, Steichen explains, "We sought and selected photographs, made in all parts of the world, of the gamut of life from birth to death with emphasis on the daily relationships of man to himself, to his family, to the community and to the world; we live in... The Family of Man has been created in a passionate spirit of devoted love and faith in man."

Prologue is by Carl Sandburg, who discovered in the collection, the Brotherhood of Man.

"... Everywhere the sun, moon and stars, the climates and weathers, have meanings for people," the great bard writes. "Though meanings vary, we are alike in all countries and tribes in trying to read what sky, land and sea say to us. Alike and ever alike we are on all continents in the need of love, food, clothing, work, speech, worship, sleep, games, dancing, fun. From tropics to arctic humanity lives with these needs so alike, so inexorably alike."

Which underwrites a recent statement from our own Mary White, in far-off Elm, Alaska, in a letter to Virginia Burns. "I went to Sunday School last Sunday but there was none. David Saccus is the only man who will take the lead. He was gone, so nothing was carried on. Same old trouble churches in the states have... the make-up of people the world over is the same. Read Psalms 33:13-15 and you will see why here on the Arctic Circle they feel and act like they do in Matador, Texas.

"The Lord looketh from heaven; he beholdeth all the sons of men.

"From the place of his habitation he looketh upon all the inhabitants of the earth.

"He fashioneth their hearts alike; he considereth all their works."

Class 1, "A Bit of Finery" (miniature arrangement): Mrs. Kim Wilkinson, 1st; Mrs. Vance Gilbreath, 2nd; Mrs. B. M. Eubank, 3rd; Mrs. Bob Stanley, Honorable Mention.

Class 2, "Get Along Little Dogie" (small arrangement): Mrs. W. N. Pipkin, 1st; Mrs. Seth Sager, 2nd; Mrs. Lloyd Latimer, 3rd; Mrs. Clotele Horn, Honorable Mention.

Class 3, "Come and Get It" (arrangement of fruits, vegetables and/or feed, etc.): Mrs. Harry Willett, 1st; Mrs. Bob Martin, 2nd; Mrs. Lloyd Latimer, 3rd; Mrs. C. P. Waybourn, Honorable Mention.

Class 4, "Ranch Hands" (mass arrangements of autumn flowers and foliage): Mrs. Seth Sager, 1st; Mrs. Albert Traweck, Jr., 2nd; Mrs. W. N. Pipkin, 3rd; Mrs. Warren Clements, Honorable Mention.

Class 5, "Fair to Middling" (line arrangements): No first; Mrs. L. J. Barkley, 2nd; Mrs. W. F. Jacobs, 3rd; Mrs. C. P. Waybourn, Honorable Mention.

Class 6, "Circuit Riders Round Up" (an arrangement suitable for Church): Miss Amy Glenn, 1st; Mrs. D. E. Pitts, Sr., 2nd; Mrs. B. M. Eubank, 3rd; Mrs. J. L. Woodruff, Honorable Mention.

Class 7, "Survivors of the Trail" (arrangement in antique containers; Group A, The Aristocrats; Mrs. Forrest Campbell, 1st; Mrs. W. N. Pipkin, 2nd; Mrs. Kim Wilkinson, 3rd; Mrs. Albert Traweck, Jr., Honorable Mention; Group B, The Nestors; Mrs. Warren Clements, 1st; Mrs. Seth Sager, 2nd; Mrs. H. H. Schweitzer, 3rd; Mrs. M. S. Thacker, Honorable Mention.

Class 8, "Tall in the Saddle" (vertical arrangement; foliage and dried material): Mrs. Clotele Horn, 1st; Mrs. Seth Sager, 2nd; Mrs. H. H. Schweitzer, 3rd; Mrs. M. S. Thacker, Honorable Mention.

Class 9, "The Little Shaver" (an arrangement for juniors): Kenneth Pitts, 1st.

Section II, Horticulture: Annuals, (Marigolds, single): Mrs. A. C. Traweck, Jr., 1st; Mrs. Minnie Hines, 2nd; Mrs. Ben Keltz, 3rd; Mrs. Kim Wilkinson, Honorable Mention; (Celosia, single): Mrs. W. F. Jacobs, 1st; Mrs. Freeman Thacker, 2nd; (Zinnias, any type): Mrs. Turner Campbell, 1st; Mrs. Lloyd Latimer, 3rd.

Dahlias, (Cactus): Mrs. L. J. Barkley, 1st; (Decorative): Mrs. D. E. Pitts, Sr., 1st; Mrs. J. L. Woodruff, Honorable Mention.

Perennials, (Chrysanthemums, any type): Mrs. W. N. Pipkin, 1st; Mrs. D. E. Pitts, Sr., 2nd; Mrs. W. F. Jacobs, 3rd; (Any perennial): Mrs. W. W. Clements, 1st; Mrs. Harry Willett, 2nd.

Roses, (White): Mrs. W. N. Pipkin; (Blended Color): Mrs. J. M. Jackson; (Pink Radiance): Mrs. A. C. Traweck, Jr.; (Red Radiance): Mrs. Freeman Thacker, 1st; (Red, or others): Mrs. D. E. Pitts, Sr., 1st.

Berried or fruit Trees and Shrubs, (Shrubs): Mrs. C. P. Waybourn, 1st; Mrs. D. E. Pitts, Sr., Honorable Mention; (Trees): Mrs. C. P. Waybourn; (Others): Mrs. Lloyd Latimer, 1st.

ELECT OFFICERS

Jan Barton was named president of the eighth grade Club in an election of officers held Friday. Other officers for the coming year are: Bobbie Shaw, vice-president; Billy Pohl, sec-treas., and Carl Pohl, reporter.

Your Biggest Bargain...

YEARS AGO, practically all that prescription could do was to alleviate the patient's pains and make him a little more comfortable—while nature did a slow job of curing the ailment. But today's prescription, containing wonder drugs completely unknown years ago, cures the ailment in hours, not weeks... keeps the patient out of the hospital or gets him out after a few days... and puts him back on his feet in a hurry.

That's why we say:

TODAY'S PRESCRIPTION IS THE BIGGEST BARGAIN IN HISTORY

Matador Variety

Pied Pinions

BY MRS. J. M.

We'll never know, most likely, who mailed us a postal card from Childress recently. The correspondent side was blank.

Our thanks to Mr. Frederic Oheim, Managing Editor of the New Braunfels Zeitung, Chronicle when he quoted from this column recently i.e. We are old longer than we are young) and added, "Mrs. M. had been associating with a group of young matrons.

Now wasn't that nice of Mr. O. — for not just saying "young" matrons. ...

Fun was had by all who entertained Thursday night at Childress, for Fort Worth and Big D. Mr. M. was headed for an Ad Meet, the Bundy Campbells, Ben Edwards's and Billy Watson were bound for the big game; and we were just bound—going along for the trip.

It gave us another opportunity to do some more seeing out at the fair grounds, of sights missed on our trip the previous week end. So much walking to get where you want to be, one gets weary long before making the rounds.

Press Day activities with Lola Pohl and daughter, Carolyn and our niece, Nola Lee included a tour through the automobile building (according to the girls, one must be informed and able to converse about the latest car models if one would be popular with members of the opposite sex); a walk through General Exhibits building enroute to the ice arena and rinkside seats at the Capades (Thanks to Mr. Thad Ricks); thence to the Electric bldg, and down the Midway for the girls a ride or two before settling down for a delightful interlude of watching the "Fabulous and World Famous Dancing Waters". Which is just that and more, an indescribable fantasia of beauty, color, and rhythmic fountains of water swaying and leaping to music. We haven't yet figured out where we got the idea we were going to see a sort of water ballet of dancing girls.

The return visit to the fair was for the sole purpose of viewing "The Family of Man"—the greatest photographic exhibition of all time; containing 503 pictures from 68 countries, created by Edward Steichen for the Museum of Modern Art.

WINNERS LISTED IN FLOWER SHOW

Prize-winning entries in both Horticulture and Arrangement divisions in the flower show held Saturday by Matador Garden Club, won for Mrs. W. N. Pipkin, the sweepstakes award.

Winners in the various classes of the divisions, as selected by the judges are as follows:

Section I, Arrangements: Class 1, "Water Hole", Mrs. Forrest Campbell, 1st; Mrs. Seth Sager, 2nd; Mrs. G. E. Hamilton, 3rd; Mrs. J. L. Woodruff, Honorable

Section II, Horticulture: Annuals, (Marigolds, single): Mrs. A. C. Traweck, Jr., 1st; Mrs. Minnie Hines, 2nd; Mrs. Ben Keltz, 3rd; Mrs. Kim Wilkinson, Honorable Mention; (Celosia, single): Mrs. W. F. Jacobs, 1st; Mrs. Freeman Thacker, 2nd; (Zinnias, any type): Mrs. Turner Campbell, 1st; Mrs. Lloyd Latimer, 3rd.

Dahlias, (Cactus): Mrs. L. J. Barkley, 1st; (Decorative): Mrs. D. E. Pitts, Sr., 1st; Mrs. J. L. Woodruff, Honorable Mention.

Announcing the Fabulous '56 Pontiac

Introducing A BIG AND VITAL GENERAL MOTORS "AUTOMOTIVE FIRST"!

A new Strato-Flight Hydra-Matic—coupled with Pontiac's 227-H.P. Strato-Streak V-8—results in performance so new and dramatic it must be experienced to be believed!

With all that's newest in glamour—and all that's greatest in "go"—the fabulous '56 Pontiac, now on display, awaits your hands on the wheel. And when you drive it, you will get the biggest thrill in all your motoring experience—because this car is really loaded! The big and vital General Motors "First", which heads its long list of look-ahead features, couples the two most advanced high performance developments in the industry: 1. An all-new, big-bore Strato-Streak V-8 engine that puts 227 blazing horse power at your toot-pip.

2. A completely new Strato-Flight Hydra-Matic that delivers this terrific "go" with a smooth surge of power at any speed. You now sweep from take-off to top performance with the ease of a sailplane. You slow down for traffic, speed up for passing, or gun for a high bill with the changing pressure of your toe on the accelerator—the only sign of effort. You may have had it smooth before—but never like this! It literally must be experienced to be believed. That's plenty—but there's much more to make this a date to be long remembered.

There's smart, new beauty and luxury for America's most distinctive car. There's the safety of big brakes and road-hugging length... the security of a smooth new ride and sure-footed cornering. There are many, many other things which mark this beauty as the glamorous pattern for tomorrow's cars. But come in and see for yourself. Take a long look at the six luxurious new Four-door and Two-door Catalina hardtops. Sample the results of its fabulous General Motors "First". Sure as you enjoy thrilling action, here's your next car!

Highlights and Sidelights FROM your State CAPITOL

By VERN SANFORD
Texas Press Association

AUSTIN—Texas public schools will get state aid this year whether integrated or segregated.

Right of both to state aid was upheld last week by the Texas Supreme Court. It says the U. S. Supreme Court decision overturns Texas' school segregation laws but does not force immediate integration.

Apparently the court action removed need for a special session of the legislature.

Litigation originated in Big Spring. Suit was brought by the Texas Citizens Council in district court to prevent payment of state funds to mixed schools. High court judges, in effect, upheld District Judge Charlie N. Sullivan's ruling that portions of state law requiring segregation are unconstitutional.

Gov. Allan Shivers was quick to point out that neither the state nor U. S. courts set a deadline for desegregation, but both leave it to local school authorities.

Atty. Gen. John Ben Shepperd who had sided with the Citizens Council, merely said the decision "settles the law in Texas on a statewide basis." He added that timing will be a "district-by-district matter."

Hospitals Move Forward
A priority list has been set up to use the remaining \$10 million in the state hospital building program fund during the next two years.

On the day a new medical and surgical building was dedicated at the Austin State Hospital, the

State Board for Hospitals and Special Schools decided on this order for new projects, by cities: Mexia, Wichita Falls, Austin, San Antonio and Abilene.

Two others, one in Austin, one in Harlingen, are under construction now.

Governor Shivers spoke at the dedication of the \$1,312,000 medical-surgical hospital in Austin.

Narcotics Hearings Under Way
Texas has been labeled a "national gateway" for illegal narcotics trade from Mexico. Witnesses so testified before U. S. Sen. Price Daniel's subcommittee in Austin.

Department of Public Safety Director Homer Garrison charged that Mexican authorities are not cooperating with Texas officers in trying to halt the flow of dope across the border. Garrison and W. E. Naylor, chief narcotics agent of the department, testified that 90 per cent of the heroin and 98 per cent of the marijuana reaching Texas or flowing through Texas, came from Mexico.

Daniel invited the Mexican secretary of state and the Mexican representative on the narcotics committee of the United Nations to attend hearings. They did not show up at Austin, however.

From Austin, hearings went to San Antonio, Houston, Dallas and Fort Worth.

Judge Criticized, Supported
Judge Lloyd Davidson of the Court of Criminal Appeals has been the target for both verbal brickbats and bouquets.

Davidson, a new judge, tripped the scales in the court's two-to-one decision nullifying 104 Duval County indictments on grounds the grand jury was illegally constituted.

Atty. Gen. John Ben Shepperd and Duval Co. District Atty. Sam Burris were sharply critical of the court's opinion. They announced plans to file a motion for re-hearing and said they were considering a motion to disqualify Davidson. He had "expressed himself" on the cases before they came before him as a judge, they contended.

Meanwhile, Hunt and Hopkins County Bar Associations sent telegrams affirming their faith

1956 PONTIAC 870 FOUR-DOOR SEDAN MORE POWERFUL — The popular Pontiac 870 four-door sedan offers more power and higher performance in 1956 with its bigger 205 h.p. Strato-Streak V-8 engine, and an improved Hydra-Matic transmission that gives smooth economical performance. Displacement of the 1956 Strato-Streak V-8 has been increased to 316.6 cubic inches and compression raised to 8.9:1. Exciting new colors in "Vogue" two-toning, sumptuous interiors and new styling features add new beauty to the four-door sedans, available in all three series.

in the integrity of Davidson and the court. Hunt lawyers expressed regret that "politicians have seen fit to abuse Judge Davidson."

Texas Farm Income Down
Texas farm income for the first eight months of the year dropped six percent below 1954.

Decreases in prices of 16 of the 19 major farm commodities account for the slump, said the University of Texas Bureau of Business Research.

Reported down were cotton, cottonseed, wheat, oats, flax, rice, calves, hogs, wool and poultry. Corn prices remained about the same. Increases were noted for grain sorghum, peanuts, cattle, sheep and lambs, mohair, eggs, milk and fruits and vegetables.

Though cotton prices are down prospective production is up. U. S. Department of Agriculture forecasts put the 1955 Texas crop at four million bales, 150,000 bales more than was expected a month ago. This would be two per cent more than in 1954, 18 per cent above average.

Ramsey Choice Explained
Lt. Gov. Ben Ramsey was chosen national Democratic Committeeman, at the suggestion of U. S. Sen. Lyndon B. Johnson, the Senator explained.

The suggestion was made to Governor Shivers, when the latter paid a visit to the Senator's ranch home where he is recuperating from a heart attack.

Johnson explained that when Shivers returned to Austin, he mentioned the discussion to Ramsey. The Lieutenant Governor then called Johnson to talk over the matter. Ramsey said he wasn't asking for the job, but would take it if it would help solve a difficult situation.

Further discussion between Johnson and House Speaker Sam Rayburn resulted in the choice which surprised many Texans. Short Snorts—Lt. and Commissioner J. Earl Rudder, chairman of the Veterans Land Board, announced the board will resume loans to World War II veterans on Nov. 1. The board will have about \$6 million available to service loans to an additional 1,000 veterans.

Ralph Wolf, former Waco mayor, was named executive director of the State Building Commission, and steps have started for construction of two \$3 million state buildings in Austin. Texas has dropped from 12th to 17th in national traffic safety ratings by states, according to the Texas Safety Association. Texans entering the armed forces during September totaled 4,899 and 4,249 were separated.

COUNTY AGENT PALLMEYER SAYS:

Hens Need Light

The use of artificial lights to keep hens on the job for 13 hours each day during the short days of fall and winter is a management practice which pays dividends.

The extra hours of light are needed for stimulating hormone production. Light picked up

through the hen's eye stimulates a gland to produce and secrete the hormone. It is this hormone production which determines the amount and length of light exposure needed for top egg production.

Clean 60 watt light bulbs located six feet above the floor and 14 feet apart should produce enough light. A clean 12 inch shallow dome reflector used with each bulb will give a good light distribution. The lights should be used over the entire house so that all hens will be exposed during the time the lights are on.

Most poultrymen find it convenient to use automatic timing switches for turning the lights on early enough each morning so the combined artificial and sunlight equals 13 hours before normal sunset. Gradual changes must be made in the setting of the time switch to take care of the decrease or increase in the number of daylight hours. Abrupt changes in the daily length of artificial lighting may upset the hens enough to cause them to molt and lay fewer eggs.

Lights should be kept on all day when the weather is cloudy or rainy. Many egg producers have seen their hens drop in egg production about a week after several days period of cloudy weather. And finally, check not only the length of daylight but the intensity of light during the 13 hour period.

Formula For Orphan Pigs

Texas swine producers are troubled with the problem of raising orphan pigs. What to do? Elmo V. Cook, Travis County agricultural agent, reports that Mrs. Bernard Jacobs, wife of one of the most successful hog raisers in central Texas, has the

know how. Currently she is raising 10 pigs from the litter of a sow which "broke down" and lets them cannot raise them.

Her orphan pig formula is a pint of milk, preferably from a cow, one-half pint of Karo molasses. If the sow produces abundant milk with a percentage of fat, Mrs. Jacobs uses a little less water in the formula. She commences feeding the pigs with a teaspoonful of the shallow pan as soon as possible. She does this by holding a spoon in the pan at the second or third feeding.

The formula will take care of about 10 new born pigs at a feeding. Mr. Cook says that half or two hours interval every three hours and as possible—usually in about a week. By the time the pigs are a week old they will eat the milk as much as at birth.

At present the Jacobs family has five full litters, numbering more than 50 live, healthy pigs. "The waters wear the stone though washes away the sand that grow out of the dust of earth, and thou destroyest the hope of man."—The Book of Black Friday was September 24, 1869.

Mr. and Mrs. L. M. Timmons have moved to the Hal Courtney place while he is building his new home.

Mr. and Mrs. C. W. Cox and children of Paducah visited her parents, Mr. and Mrs. J. B. Hoover over the weekend.

Mrs. Sinclair Hughes of Lubbock spent the weekend with her parents, Mr. and Mrs. D. H. McGinley.

Mr. and Mrs. N. L. Cook and son, and Bill Slekel of Abilene, visited Mr. and Mrs. Pete Timmons, Sunday.

Mrs. Byrd Bain and son, R. A. of Amarillo visited here Friday in the home of Mr. and Mrs. T. W. Bain, and with friends here.

Mr. and Mrs. Sam Moore of Childress visited Sunday with their daughter and family, Mr. and Mrs. J. N. Thomas.

Mrs. J. D. Elliott was in Plainview over the weekend, visiting her husband, and Mr. and Mrs. Reece Timmons, who are employed there.

Mr. and Mrs. Paul Cruse and son visited relatives in Turkey over the weekend.

Mr. and Mrs. Edward Payne of Childress visited Mr. and Mrs. Delmont Hays, Sunday. Dale Lane was also a visitor in the Hays home.

Mr. and Mrs. J. J. Berry and Mr. and Mrs. Dale Hill and son, Wayne, Tommie and Jimmie Boyd, Mrs. Gene Shirley and daughter, all of Amarillo; Anna Lois and Hazel Martin of Childress; Miss Betty Davis, H. E. Davis and Rev. Coy Finley were Sunday visitors in the J. B. Hoover home.

Announcing the Fabulous '56 Pontiac

Introducing A BIG AND VITAL GENERAL MOTORS "AUTOMOTIVE FIRST"!

A new Strato-Flight Hydra-Matic—coupled with Pontiac's 227-H.P. Strato-Streak V-8—results in performance so new and dramatic it must be experienced to be believed!

With all that's newest in glamour—and all that's greatest in "go"—the fabulous '56 Pontiac, now on display, awaits your hands on the wheel. And when you drive it, you will get the biggest thrill in all your motoring experience—because this car is really loaded! The big and vital General Motors "First", which heads its long list of look-ahead features, couples the two most advanced high-performance developments in the industry: 1. An all-new, big-bore Strato-Streak V-8 engine that puts 227 blazing horse-power at your toe-tip.

2. A completely new Strato-Flight Hydra-Matic* that delivers this terrific "go" with smooth surge of power at any speed. You now sweep from take-off to top performance with the ease of a sailplane. You slow down for traffic, speed up for passing, or gun for a high hill with the hanging pressure of your toe on the accelerator the only sign of effort. You may have had it smooth before—but never like this! It literally must be experienced to be believed. That's plenty—but there's much more to make this a date to be long remembered.

There's smart, new beauty and luxury for America's most distinctive car. There's the safety of big brakes and road-hugging length... the security of a smooth new ride and sure-footed cornering. There are many, many other things which mark this beauty as the glamorous pattern for tomorrow's cars. But come in and see for yourself. Take a long look at the six luxurious new Four-door and Two-door Catalina hardtops. Sample the results of its fabulous General Motors "First". Sure as you enjoy thrilling action, here's your next car! *Optional at extra cost.

SEE AND DRIVE IT! ON DISPLAY TOMORROW

Matador Motor and Implement Co.

Shown In Matador FRIDAY the Fabulous '56 Pontiac

WE INVITE YOU

To visit our showroom tomorrow . . . See, Admire, Drive the greatest Pontiac ever built The fabulous New '56 . . . The car of the future is here now . . . The Beautiful, Wonderful Pontiac!

Highlights and Sidelights FROM your State CAPITOL

By VERN SANFORD
Texas Press Association

AUSTIN—Texas public schools will get state aid this year whether integrated or segregated.

Right of both to state aid was upheld last week by the Texas Supreme Court. It says the U. S. Supreme Court decision over- turns Texas' school segregation laws but does not force immediate integration.

Apparently the court action removed need for a special session of the legislature.

Litigation originated in Big Spring. Suit was brought by the Texas Citizens Council in district court to prevent payment of state funds to mixed schools. High court judges, in effect, upheld District Judge Charlie N. Sullivan's ruling that portions of state law requiring segregation are unconstitutional.

Gov. Allan Shivers was quick to point out that neither the state nor U. S. courts set a deadline for desegregation, but both leave it to local school authorities.

Atty. Gen. John Ben Shepperd who had sided with the Citizens Council, merely said the decision "settles the law in Texas on a statewide basis." He added that timing will be a "district-by-district matter."

Hospitals Move Forward
A priority list has been set up to use the remaining \$10 million in the state hospital building program fund during the next two years.

On the day a new medical and surgical building was dedicated at the Austin State Hospital, the

State Board for Hospitals and Special Schools decided on this order for new projects, by cities: Mexia, Wichita Falls, Austin, San Antonio and Abilene.

Two others, one in Austin, one in Harlingen, are under construction now.

Governor Shivers spoke at the dedication of the \$1,312,000 medical-surgical hospital in Austin.

Narcotics Hearings Under Way
Texas has been labeled a "national gateway" for illegal narcotics trade from Mexico.

Witnesses so testified before U. S. Sen. Price Daniel's subcommittee in Austin.

Department of Public Safety Director Homer Garrison charged that Mexican authorities are not cooperating with Texas officers in trying to halt the flow of dope across the border. Garrison and W. E. Naylor, chief narcotics agent of the department, testified that 90 per cent of the heroin and 98 per cent of the marijuana reaching Texas or flowing through Texas, came from Mexico.

Daniel invited the Mexican secretary of state and the Mexican representative on the narcotics committee of the United Nations to attend hearings. They did not show up at Austin, however.

From Austin, hearings went to San Antonio, Houston, Dallas and Fort Worth.

Judge Criticized, Supported
Judge Lloyd Davidson of the Court of Criminal Appeals has been the target for both verbal brickbats and bouquets.

Davidson, a new judge, tripped the scales in the court's two-to-one decision nullifying 104 Duval County indictments on grounds the grand jury was illegally constituted.

Atty. Gen. John Ben Shepperd and Duval Co. District Atty. Sam Burris were sharply critical of the court's opinion. They announced plans to file a motion for re-hearing and said they were considering a motion to disqualify Davidson. He had "expressed himself" on the cases before they came before him as a judge, they contended.

Meanwhile, Hunt and Hopkins County Bar Associations sent telegrams affirming their faith

1956 PONTIAC 870 FOUR-DOOR SEDAN MORE POWERFUL — The popular Pontiac 870 four-door sedan offers more power and higher performance in 1956 with its bigger 205 h.p. Strato-Streak V-8 engine, and an improved Hydra-Matic transmission that gives smooth economical performance. Displacement of the 1956 Strato-Streak V-8 has been increased to 316.6 cubic inches and compression raised to 8.9:1. Exciting new colors in "Vogue" two-toning, sumptuous interiors and new styling features add new beauty to the four-door sedans, available in all three series.

in the integrity of Davidson and the court. Hunt lawyers expressed regret that "politicians have seen fit to abuse Judge Davidson."

Texas Farm Income Down
Texas farm income for the first eight months of the year dropped six percent below 1954.

Decreases in prices of 10 of the 19 major farm commodities account for the slump, said the University of Texas Bureau of Business Research.

Reported down were cotton, cottonseed, wheat, oats, flax, rice, calves, hogs, wool and poultry. Corn prices remained about the same. Increases were noted for grain sorghum, peanuts, cattle, sheep and lambs, mohair, eggs, milk and fruits and vegetables.

Though cotton prices are down prospective production is up. U. S. Department of Agriculture forecasts put the 1955 Texas crop at four million bales, 150,000 bales more than was expected a month ago. This would be two per cent more than in 1954, 18 per cent above average.

Ramsey Choice Explained
Lt. Gov. Ben Ramsey was chosen national Democratic

Committee member, at the suggestion of U. S. Sen. Lyndon B. Johnson, the Senator explained. The suggestion was made to Governor Shivers, when the latter paid a visit to the Senator's ranch home where he is recuperating from a heart attack.

Johnson explained that when Shivers returned to Austin, he mentioned the discussion to Ramsey. The Lieutenant Governor then called Johnson to talk over the matter. Ramsey said he wasn't asking for the job, but would take it if it would help solve a difficult situation.

Further discussion between Johnson and House Speaker Sam Rayburn resulted in the choice which surprised many Texans.

Short Snorts—Land Commissioner J. Earl Rudder, chairman of the Veterans Land Board, announced the board will resume loans to World War II veterans on Nov. 1. The board will have about \$6 million available to service loans to an additional 1,000 veterans.

Ralph Wolf, former Waco mayor, was named executive director of the State Building Commission, and steps have started for construction of two \$3 million state buildings in Austin.

Texas has dropped from 12th to 17th in national traffic safety ratings by states, according to the Texas Safety Association.

Texas entering the armed forces during September totaled 4,698 and 4,249 were separated.

COUNTY AGENT PALLMEYER SAYS:

Hens Need Light

The use of artificial lights to keep hens on the job for 13 hours each day during the short days of fall and winter is a management practice which pays dividends.

The extra hours of light are needed for stimulating hormone production. Light picked up

Tribune, Matador, Matley County, Texas, Thursday, October 20, 1955

through the hen's eye stimulates a gland to produce and secrete the hormone. It is this hormone production which determines the amount and length of light exposure needed for top egg production.

Clean 60 watt light bulbs located six feet above the floor and 14 feet apart should produce enough light. A clean 12 inch shallow dome reflector used with each bulb will give a good light distribution. The lights should be used over the entire house so that all hens will be exposed during the time the lights are on.

Most poultrymen find it convenient to use automatic timing switches for turning the lights on early enough each morning so the combined artificial and sunlight equals 13 hours before normal sunset. Gradual changes must be made in the setting of the time switch to take care of the decrease or increase in the number of daylight hours.

At present, the Jacobs five full litters, numbering more than 50 live, healthy pigs.

Formula For Orphan Pigs
Texas swine producers are troubled with the problem of raising orphan pigs. What to do? Elmo V. Cook, Travis County agricultural agent, reports that Mrs. Bernard Jacobs, wife of one of the most successful hog raisers in central Texas, has the

know how. Currently she is raising 10 pigs from the litter which "broke down" from sows having so many litters they cannot raise them.

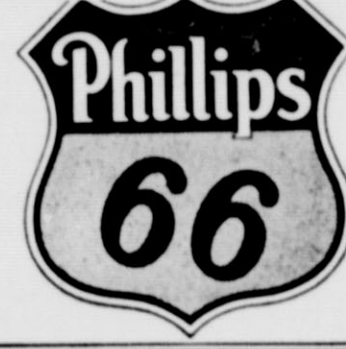

Her orphan pig formula is from a cow; one-half pint of Karo molasses. If the cow is producing abundant milk use a percentage of fat. Mrs. Jacobs uses a little less water with a teaspoonful salt. The formula she commences with a teaspoonful salt. The pigs to take food and shallow pan as soon as possible spoon in the pan at the week or third feeding.

The formula will take about 10 new born pigs at feeding. Mr. Cook says as the pigs are fed at one-half hour intervals every three hours and into solid pig pellets as soon as possible—usually in about a week. By the time the pig is a week old they will eat times as much as at birth.

"The waters wear the stone though washed away the dust that grow out of the dust of earth; and thou destroyest hope of man."—The Book of Job, Chapter 14, Verse 7.

Campbell Honored With Birthday Party

Party Saturday afternoon at City park honored Gary Campbell on the occasion of his birthday. Miniature books and beach balls were given for favors.

Guests included Mrs. Campbell's mother, Mrs. Clotele Horn, in serving plate cake and orange punch to the fifty youngsters. The party favors featured a Halloween motif of orange and black.

ATTENDING RELATIVES

T. Hammerley of Treasure Calif., teacher in the Corps Electronic School, dining here with his mother, C. M. Colley and other relatives.

Former Resident Dies At Plainview

Mrs. Velma Fulfer attended funeral services at Plainview Thursday for Mrs. R. O. Sanford 55, a resident of Plainview the past 15 years, and a former resident of this community. She will be remembered here as Altie Moring, who lived here a number of years ago. She was a niece of the late W. M. Fulfer.

Survivors include her husband a son, Newell, of Amarillo; a daughter, Mrs. C. B. Fondren of Plainview and 3 grandchildren.

Mr. and Mrs. W. H. Crawford and daughter, Susan of Quanah were visitors here Sunday in the home of Mr. and Mrs. Jack Luckett. Mr. Crawford is mill foreman of Quannah Cotton Oil Mill.

Roaring Springs School Lunch Room Patrons Increase

The Roaring Springs School lunch room is progressing nicely under the direction of Mrs. Hazel Bridges and Mrs. Charles Owens. The number of pupils and faculty personnel now eating in the lunch room has increased from approximately seventy-five last year, to one hundred and forty this year, school officials declare.

The following menu is being served this week:

Monday: Vienna sausage, English peas, creamed potatoes, salad, bread, milk and peach cobbler; Tuesday: Tuna salad, lima beans, tomatoes and noodles, buttered rice, bread, milk and lemon cake; Wednesday: Roast beef, brown beans, creamed potatoes, hot rolls, milk, banana pudding; Thursday: Meat loaf, green beans, creamed potatoes, salad, bread, milk, gingerbread with icing; Friday: Macaroni and cheese, blackeyed peas, potato salad, hot rolls, milk cookies and Jello.

POLIO ANTIBODIES PROTECT CARRIERS

(Editor's note: This is the second of a series of five articles on what parents should know about the Salk polio vaccine. Under Dr. Van Riper's direction the National Foundation sponsored the research development of the vaccine and he is in charge of the Foundation's program for vaccinating children in the first and second grades of school.)

"Why did my child get polio? None of his playmates had it. Many a parent suddenly confronted with the dreaded diagnosis of paralytic polio, has asked this."

The answer is that one of the child's playmates, or some other person who was not ill himself, did indeed have the polio virus and did communicate it. The unwitting carrier was protected by polio antibodies in his blood. The child who came down with paralytic polio was not.

Had that child been given the vaccine that Dr. Jonas E. Salk developed with support from the March of Dimes, he might have been spared paralysis. His parents could not have been sure of this—no vaccine protects everybody—but the chances would have been somewhere between 60 and 90 per cent that the child would have been brought through his infection with, at worst, a brief illness, and more likely with no illness at all.

Your doctor cannot tell you whether your child has been immunized naturally to paralytic polio through previous "silent infections." There is no simple, practical test he can make in his office. That is why every child should have the protection of the Salk vaccine—and for that matter why every young adult should have it too as soon as enough vaccine is available.

The vaccine achieves pretty much the same preventive effect artificially, that an actual polio infection does naturally; that is, it sets in motion the human chemistry which produces protective antibodies. Unlike gamma globulin, it does not introduce antibodies, ready-made, into the blood stream in given, limited supply. Rather, it is a miniature "Point 4" Program—helping the body to help itself.

The only way science has found to trigger this latest self-defense when nature has failed to do it is through the use of the virus itself—by introducing inactivated virus directly into the body. In a small minority of instances nothing happens; in most people the reaction to the presence of the virus is a quick emergency output of antibodies. It would be easy enough to do this dangerously. Dr. Salk's job was to find a way to do it safely. It was complicated, moreover, by the fact that there are three types of the polio virus, any one of which can cause paralysis. Hence all three types had to be

embodied in the vaccine. Dr. Salk rendered the virus harmless to human beings by "killing" it with a solution of formaldehyde. By the Salk method it is inactivated so that it cannot cause paralysis, yet not so completely "dead" that it loses its effect on antibody production.

Thus what happens in a Salk vaccination may be described as in the nature of a sham battle, in which the human system is conditioned to defend itself against a harmless facsimile of the polio virus, and after which it remains armed and ready in case the real thing comes along.

As soon as Dr. Salk and his colleagues learn how long the effect of one course of Salk vaccine lasts and when, if ever, further booster shots are needed, immunity to paralytic polio can be made lifelong. When the day of universal vaccination comes, at least three out of four of those persons who are now susceptible to paralysis will be forever safe from it. This means that almost all of America's children will be free to the threat, and their parents free of the fear.

Mr. and Mrs. L. K. Faulkner and baby daughter, Rhonda of Plainview, visited during the week-end with her parents, Mr. and Mrs. George McMahon.

J. C. McBride, accompanied by his son and daughter, Earl and Mrs. R. A. Stafford spent the week-end in Amarillo visiting with relatives and friends.

Editor and Mrs. Douglas Meador spent the week-end in Dallas where he attended annual Texas Press Association Ad Meet, and a Journalism Forum at Southern Methodist University.

her sister and brother-in-law, Mr. and Mrs. Henry Ford, who drove to San Angelo, Saturday night, to meet and accompany her here. She plans to be here until after the Matador Homecoming.

TO NEW ORLEANS

Elmer Stearns left by plane this morning from Lubbock, for a week-end trip to New Orleans, La., where he will join his daughter and family. Mr. and Mrs. B. E. Shaw, Jr., and sons, Wiley and David, of Downers Grove, Ill. Mr. Shaw is making a business trip there and his family is accompanying him.

McAdoo News

By Mrs. G. G. Allen

Mrs. J. W. Faulkner of Spur is recuperating at the home of her daughter, Mrs. D. E. Allen after hospitalization in Lubbock and Spur, following a fall which resulted in a broken hip.

Mr. and Mrs. Howard Story and baby, William Wyatt, of Electra visited relatives here Tuesday. Mrs. S. J. Griffin returned home after spending the week with the Storys and caring for her new grandson.

Mr. and Mrs. R. E. Higgins visited in Stamford from Sunday until Wednesday in the home of their son, David Higgins and family.

Mrs. Molly Harris and Miss Opal Nickels were shopping in Lubbock, Tuesday.

Mr. and Mrs. O. M. Bailey of Cross Plains were week-end guests in the home of Mr. and Mrs. Roy Nickels.

Mr. and Mrs. Ralls Brumfield of Ralls were Sunday afternoon callers in the L. E. Bass home.

Mr. and Mrs. M. C. Formby spent the week-end in Plainview in the home of their son and wife, Mr. and Mrs. Marshall

Formby.

Mr. and Mrs. Alex Lambert of Clovis, N. M. visited here over the week-end.

Mr. and Mrs. J. B. Barton visited in Lubbock, Sunday with his mother, Mrs. Edna Barton. Mr. and Mrs. J. W. Holland of Amarillo met them there for a visit. Mark Holland accompanied his parents home after spending the week with his grandparents.

Mr. and Mrs. Frank Macon and Alton of Levelland, visited Saturday night and Sunday in the home of her mother, Mrs. Katie Phifer. They also visited other relatives.

Mr. and Mrs. Willie Phifer visited in Dickens, Sunday in the home of Mr. and Mrs. Roy Ward.

Mrs. Maggie Macon of Levelland visited Saturday and Sunday in the Palo Grissom home. Mrs. Palo Grissom visited relatives in Lubbock, Tuesday and Wednesday.

Mr. and Mrs. Bennie McWilliams and children of Abilene visited during the week-end with his parents, Mr. and Mrs. L. H. McWilliams.

Mr. and Mrs. John Formby spent Saturday night in Hereford in the home of their son and wife, Mr. and Mrs. Clint Formby. On Sunday they visited the Marshall Formbys in Plainview.

Robert Nickels received word Saturday of the death of his sister, Mrs. Mary Dunn, in Waco. Mr. Nickels, Mr. and Mrs. R. E. Nickels, Mr. and Mrs. George Potts, accompanied by Mrs. Denzil McMillan and sons, Tommy and Ronnie attended funeral services in Waco, on Monday.

Mr. and Mrs. R. E. Higgins visited in Lubbock, Sunday in the home of their son and wife, Mr. and Mrs. Robert Higgins. Wendell Jones of Lubbock spent the week-end with his grandparents, Mr. and Mrs. T. R. Jones, while his parents, Mr. and Mrs. Lavoie Jones attended State Fair in Dallas.

Mr. and Mrs. Dale Neff and children of Dougherty were Sunday dinner guests in the Noble Neff home.

Mr. and Mrs. Ewell Buckner and Rex visited his parents, Mr. and Mrs. E. B. Buckner, Sunday and attended services at the Church of Christ.

Mr. and Mrs. Frankie Dickinson entertained with a 42 party Friday night. Refreshments of cake, coffee and hot chocolate were served to Mr. and Mrs. Walter McCormick, Mr. and Mrs. Noble Neff and Mr. and Mrs. B. C. Hardin, Jr.

Mr. and Mrs. O. E. Lumsden of Springlake, visited Sunday in the home of their daughter, the Bobby Hardins.

Mr. and Mrs. Geo. B. Killian and daughter, Beth of Amarillo, were week-end visitors in the home of her parents, Rev. and Mrs. J. C. Arnold.

Cleta Nell Allen accompanied friends from Crosbyton, to Amarillo for a week-end visit.

Mr. and Mrs. Will Eldredge visited Sunday in Crosbyton in the home of her sister, Mrs. B. G. McDuff and family.

Mrs. S. J. Tutthill is spending the week in Hereford with Mrs. J. T. Rose.

Mr. and Mrs. Hilton Jones and family of Ralls, visited Sunday in the homes of their parents, Mr. and Mrs. C. A. Allen and Mr. and Mrs. T. R. Jones.

Mr. and Mrs. L. H. McCormick and Sue of Spur visited in the home of their daughter and family, Mr. and Mrs. Walter McCormick, Sunday.

Mr. and Mrs. John Formby and Mrs. Leo Griffin were shopping in Floydada, Tuesday.

Mr. and Mrs. L. C. Hickman visited last week in the home of her sister and family, Mr. and Mrs. J. D. Anderson of near Stamford.

Mrs. Bobby Hardin and children accompanied her mother, Mrs. O. E. Lumsden of Springlake, to Bowie for a visit with her grandparents, from Sunday until Wednesday.

Governor Proclaims Texas Beef Week

BEEF WEEK IN TEXAS was officially proclaimed by Governor Allan Shivers for October 30-November 5. Governor Shivers presents the proclamation to Texas Beef Council president Leo Welder, Victoria, and J. D. Sartwell, Houston, Council vice-president.

Texas Beef Week Date Announced

AUSTIN, Oct. 18—Beef Week in Texas was today officially proclaimed for October 30-November 5 by Governor Allan Shivers, who delivered a formal proclamation to Texas Beef Council officials Leo Welder of Victoria and J. D. Sartwell of Houston.

This is the first anniversary of the Beef Council's state-wide "eat-more-beef" week, which was launched in 1954. A recent survey of meat retailers indicated beef sales are up 17 per cent since the first Beef Week last year.

"The cattle industry is one of the oldest and greatest in Texas and cattlemen have always played important roles in the growth and development of our state," the Governor's proclamation read in part.

Local celebrations will be held in more than 200 Texas communities, according to Mr. Welder, president of the Council. The lead-off event will be a Beef Supper in Fort Worth, October 31, with Senator Price Daniel as principal speaker.

Restaurants, hotels and food retailers are also participating by emphasizing beef during the week. Two million recipe folders will be distributed through retail stores.

Disease, Neglect Cause Blindness

AUSTIN—The irreplaceable gift of sight is being lost to one American every 20 minutes.

If that figure—estimated by the National Society for the Prevention of Blindness—holds true for all population segments throughout the United States, it means 4 Texans are being visited by sightlessness every day.

Even as you read this some man, woman, or child is standing on the brink of a life of permanent darkness, about to join the 300,000 Americans who are already enduring the bleak enormity of blindness.

More than 14,000 of the 300,000 Americans currently blind are Texans, according to official estimates.

What causes blindness? The State Department of Health lists three contributing factors: disease, accidents, and neglect.

"Blindness brought on through neglect really is no worse than that caused by disease or an accident," says Dr. Henry A. Holle, commissioner of health. "But somehow it seems worse. It's so unnecessary."

If all children were given a thorough eye examination prior to entering school for the first time, and if all visual defects were corrected or placed under

Tribune, Matador, Motley County, Texas, Thursday, October 20, 1955

treatment at that time, a major step in the prevention of blindness in childhood would be taken, Dr. Holle believes.

Frequent Examination Advised

"But a single examination is not enough. A child grows quickly. His eyes, like every other body organ, are constantly changing. Sometimes the change is a defect."

The health official judges that "at least half of all cases of blindness occurring from year to year could be prevented through use of the sight-saving knowledge at hand."

For example: some 300,000 industrial accidents occur each year. 1500 of them resulting in permanent blindness. The mere use of goggles would cut these figures to negligible proportions. And as for disease-caused

blindness, modern surgical methods now restore or improve vision in 19 of 20 cases of cataract, the leading cause of blindness in the United States.

When parents or teachers serve a child holding an inch closer to the nose, head while reading, or make eye-blinking, health officials agree it should be interpreted as a sign of impending eye trouble.

Other conditions which indicate eye trouble are eye aches, frequent styes and eye lids, or persistent watering of either eye.

Mrs. Jack Norman, vice president of the National Society for the Prevention of Blindness, says that Mr. and Mrs. W. B. Heath.

'56 Chevrolet sets new Pikes Peak record in top-secret test!

Not long ago a hush hush, camouflaged '56 Chevrolet scorched the nerve-breaking road up Colorado's Pikes Peak for a new NASCAR* certified record—the first time that old King of the Mountains has seen a new official stock car record in years! And what a road! 170 chilling turns and no guardrail! It's the first and only time a new model ever proved itself such a great road car before its introduction! The '56 Chevrolet showed the kind of performance that makes driving safer and more fun. So wait for the car that beat the King of the Mountains!

*National Association for Stock Car Auto Racing whose officials timed and certified the performance of this production model.

Deaths Rise with the Mercury

A sudden spell of hot weather brings a sharp increase in deaths, especially among the aged and the chronically ill, and increases the need for special care for such persons.

When, in early July in New York City, temperatures for six days of one week ran above 87 degrees—and on four successive days above 90 with a high of 96—deaths rose 39.7 per cent over those for the comparable week in 1954. The 1954 temperature averaged 71.1 degrees, with a high of 83.

Deaths from high blood pressure increased most—by 115 per cent. Vascular lesions accounted for an increase of 61.1 per cent and arteriosclerotic heart disease for 32.7 per cent. Cancer deaths increased by 31.6 per cent in the 1955 hot week over the figures for the 1954 week of moderate temperature.

As the numbers of persons past 65 in our population increase, the fatal effects of heat may be expected to become a matter of ever-growing concern. There are approximately 14 millions in that age group today and, by 1960, the number will have increased to about 18 millions.

Although diseases involving the heart and blood vessels are still common causes of death among the elderly, new scientific developments are producing drugs to combat them. For the painful heart condition known as angina pectoris, a new drug called Peritrate—a first cousin of the explosive nitroglycerin—has been established as the most effective in prevention of angina attacks.

For high blood pressure, there is a new drug, hexamethonium chloride, taken by mouth. It has been adjudged the most valuable agent for the control of runaway pressures. Its original oral form

has recently been combined with reserpine, the "tranquilizing agent" derived from the root Rauwolfia which Indian physicians have been using for hundreds of years. Studies have shown that the combination relieves symptoms of high blood pressure with small doses.

Heat is becoming less of a hazard to life and health as a result of medical discoveries, of new temperature controlling devices, and new advances in engineering. Single-room air conditioning units are now commonplace and the promise is made by heating engineers that year-around heating-cooling units, run by nuclear power, may be available for private homes in less than a decade.

(continued from page one)

and explained that she and her husband, Bill Waybourn, had been responsible for organizing the Matador Drum and Bugle Corps for raising funds for the uniforms and other civic work in aiding the organization. He said the club, the school and the city of Matador were grateful for the work Mr. and Mrs. Waybourn have done.

Boss Lion John Stevens announced that Lion Freddie Wellington would supervise the Lions' 35th, and named Lions as a committee to work details of the affair. Scouts will aid in the carnival, working with the Lions assigned on the committee.

Excellent club luncheon Tuesday, was served by the Plomat Ex-Teachers and Students Association. An impressive autumn motif was used in the table decorations (besides the fine home-cooked foods). Money received for serving the luncheon will be used to augment the association's general fund, it was announced.
