Between the Lines

Anti-Inflation Strategy
By Elvin Dick

Vital is the fight against inflation both on a personal and especially on a national scale so as to prevent government solvency and thus prevent disaster and dictatorship as did happen to Germany in 1933 when Hitler took power with the help of the Depression.

Winston Churchill said the United States has a wonderful and powerful first class type of government, but warned that if the people learned to legislate free handouts from the government, it would mean self destruction. Is this not what is happening?

Don't forget what Lenin said, which was in order to conquer the U.S., the only way would be to destroy their economy first. This is happening!

Kruschev said "We will bury you" and "We will take over without firing a shot". This is happening! How did they conquer the Panama Canal? Without firing a shot? - Yes!

Preventing the destruction of our America through monetary means could be by trust busting, including monopolies and conglomerates, which are gaining too much power and sapping our strength. We have let them go too far. Teddy Roosevelt did it when he was president, so can we if we vote out all liberals who support liberal destructive economics.

Eighteen U.S. oil companies had \$4.9 billion in 1975. In 1973, they had only \$1.9 billion.

Take just Rockefeller's ownings, which is Exxon, Mobile, Conoco, Montgomery Wards, Sears, Avon, NBC, CBS, Safeway Stores and Santa Fe RR to name a few. Montgomery Wards was bought outright in March, 1977 by his Mobil Oil Company. He, David Rockefeller, also owns Chase Manhattan Bank, which controls the World Bank Account.

The huge oil companies are buying out motels, corporations, chemical and mineral companies as they are already making 25 - 30 percent excess over normal profits. This must stop!

Voting out liberals who are for liberal spending: Carter, Bensen, Kennedy, Bayh, Mondale, Javits and so on is a good way, remember.

Stop foreign aid to communist countries and nations such as the Arab (OPEC) countries who are blackmailing us with huge oil prices anyway.

Stop printing U.S. currency with no standard backing it.

Discontinue easily claimed bankruptcy monies to bankrupt individuals.

Withdraw from the United Nations which is serving little use to us, but does more so to our mortal enemies of the Red world. We are paying over half its costs.

Stop "busing".

Boycott the Rockefeller's companies forcing them to come down in oil prices. This could first be done by the farmer's movement, which would help them and non-farmers, winning support of the general public if handled in the right way. There are plenty of other companies to patronize besides the Rockefeller's.

Another way to fight inflation would be by means similar to Proposition 13.

The masses of people, by vote power, could take away the welfare-food stamp lobby power, which is about 35 percent of the voters. The way it is now, no politician can get into office unless he supports easy welfare give-away programs. Well, we outnumber the pro-welfare group, so we could establish a law which would deny politicians getting into office this way, by way of taxpayers picking up the tab and it not costing them a cent.

President Johnson did this by giving away money to vets, unemployed, blacks, poor, civil servants, armed services, etc., but the people finally caught on and he lost his public support.

Ford got nominated this way through New York. They went broke with this method (\$14,000 to garbage collectors for their votes, etc). At first, he scolded the public officials for doing this, but realizing it was election time, did this very thing he rebuked. He gave New York City millions and thus won all their votes. Reagan did not campaign there for he knew it was this way there.

Our dollar is worth 20c now and national debt is in the hundreds of billions. Take note, the time is urgent. The time is now!!

Seniors To Present Odds Are Against You

The Senior Play will be presented at Motley County High School Auditorium on Tuesday, May 15 at 7:30 p.m.

The name of the play is "Odds are Against You"

Characters for the play are: Gerald-Robert Shannon, Emily-Tanya Simpson, Susan-Ann Moore, Cathy-Debbie Phillips, Grandma Ed-Belinda Simpson, Grandma Bill-Carla Hart, Policeman no. 1-Robert Parker, Little Claude-Sammy Zarate, Zeke-Preston Pitts, Uncle Alfred-Johnny Roys, Mrs. Dorothy Evans-Glorius Sims, 2nd Policeman-Shannon Jameson.

The play is being directed by Danny James, Larry

Dearen, and Carrol Clancy. Class Sponsor is Wayland Moore.

Gerald Mondale, played by Robert Shannon has trouble enough coping with his lively daughters, Susan-Ann Moore and Cathy-Debbie Phillips. But, the grandmothers who share his house, deal him an extra dose of misery. Grandma Ed-Belinda Simpson and Grandma Bill-Carla Hart, want their own private wing added to the house. Not wanting to strain the family budget, they set about earning \$10,000 by becoming race horse owners. They buy a horse on credit from a notorious gangster on the advice of Uncle Alfred-Johnny

Roys. Two Frenchmen, Zeke-Preston Pitts, and Little Claude-Sammy Zarate, arrive to collect the debt. Then the trouble really starts. Aunt Gracie, played by Sharla Green, adds comic relief with her bird-brained twitter. With the appearance of two police officers, Robert Parker and Shannon Jameson, and a District Attorney, Mrs. Dorothy Evans-Glorius Sims, the situation finally is resolved amid much hilarity and touching family sentimentality.

The tickets to the 1979 Senior Play will go on sale next week and may be purchased from any member of the Senior Class.

MRS. AGNES AARON

Mrs. Aaron Named 1979 Sr. Citizen

By Wyona Gilbreath

Mrs. Agnes Aaron was chosen outstanding Senior Citizen for 1979 by the Matador Senior Citizens association and will attend the South Plains Senior Citizens Round May 15 and 16 in Lubbock.

Mrs. Agnes Aaron received a college degree from South Western State University of Weatherford, Oklahoma at the age of 68. Mrs. Aaron had a dream of going to college, but she married shortly after she finished high school and was never able to go. It was only after the last one of her eight children had gone from the nest, and her husband had died, that she was able to make her dream come true. "I did not want to stay home and feel sorry for myself," she said.

She enrolled at Altus Junior College in Altus, Oklahoma where she completed three semesters; then she transferred to the University where she graduated, cum laude on May the 18th, 1973, only a few months before her 69th birthday. Mrs. Aaron's major is English and Speech.

Mrs. Aaron said she would recommend college for older people. "The mind needs to be exercised just like any other part of the body. If people are alone, they need to have a goal or something to work for. Even those who are already college graduates

may choose courses that will be rewarding." Mrs. Aaron believes that Senior Citizens should welcome every opportunity to be with younger people and should choose friends who discuss ideas.

Mrs. Aaron joined the United Methodist Church in 1933 and has been active in the church ever since. She has been a commissioned lay pastor and for 16 years was pastor for a church in Western Oklahoma. She retired from that position in 1973. And has served as president of the Woman's Society of Christian Service, Charge Lay Leader, Lay Speaker, and Sunday School teacher. At this time she is teaching a class in the Methodist Church at Matador, Texas. She, also, enjoys teaching a Bible Class for a group at Roaring Springs, Texas.

Mrs. Aaron has several hobbies. In the summer she likes to make a garden. In the winter time she reads, sews and watches Television and is apt to make a visit to one of her children just any time.

Matador is indeed fortunate to have such a remarkable person, outstanding in Education, all community affairs for the betterment of our Community. Matador is proud of her.

Capitol Comments

By Foster Whaley

The recent Easter weekend was the last respite for Legislators before we move into the final busy weeks of the 66th session of the Texas Legislature.

The Senate has acted somewhat slowly recently with lengthy on-again, off-again filibusters. There have been some lively debates in the House, too, but the House calendar has remained crowded. This week alone, before Thursday adjournment, House members dealt with over 100 Senate and House bills and resolutions.

With so many bills coming out of committees and now reaching the floor of the House for debate, certain issues are drawing considerable attention from people in the District. My mail shows that you are concerned about the Blue Law, teacher pay raise, legalized bingo, mandatory headgear for motorcyclists, utility rate settings, and various bills related to child care services.

Many of you, I know, are keenly interested in the status of particular pieces of legislation. For your convenience, a Legislative Information Service was established in 1975. This was a joint venture of the House and Senate. The information

center is located in the Legislative Reference Library on the second floor of the Capitol. The toll free telephone number is 1-800-252-9693.

Seven operators are on duty Monday through Friday, 8 a.m. to 6 p.m. The operators use computer terminals to research a bill when persons call in with questions. The information is updated every ten to fifteen minutes.

Bills are indexed by number, author or subject matter. It is possible for you to call the toll free number and learn the status or committee scheduling of any bill introduced this session. I think this is a tremendous service for the people of Texas.

And, of course, my staff members in Pampa or Austin are always glad to answer any questions you may have regarding legislation, the judicial and executive branches, or administrative agencies.

In Austin: Representative Foster Whaley, Box 2910, Austin, Texas 78769; 512 475-3883 (office), 512 837-4873 (home).

In Pampa: Representative Foster Whaley, Rt. 1, Box 70, Pampa, Texas 79065; 806 669-3251.

Sammy Edington, Vice President of the Federal Intermediate Credit Bank of Houston, advised that the producer that is capable of adjusting his operation to changing conditions, will be the farmer of the future. He

also advised that, though money costs are high, the

RP PCA is still competitive. He also reported that the PCAs of America, through the FICBs, are the largest non-government entry into the money markets of the nation, second only to the Federal Government.

Speaker at the Stamford meeting, J.T. Smith, Farm and Ranch Editor, warned against too much federal interference in agriculture and industry. Smith said cattlemen cut herds extensively after the 1973 beef freeze, slaughtering many cows and heifers, which made it difficult to rebuild herds. The cattleman suffered for 5 years, starting to recover in 1978, and are now functioning strong in 1979.

Elected to serve on the 1980 Nominating Committee were George Neaves, Spur Office; Joe Tidwell, Munday Office; Johnny Kainer, Stamford Office; Johnny Turner, Matador Office; and Claude Andrews, Childress Office.

Following the meetings, a barbecue lunch was served to stockholders and guests.

Programs For Club By Guest Speakers

Guest speakers presented the program for El Progresso Club at the past two meetings. For Gentlemen's Evening, April 13, Alvin Lynn, science and geology teacher in the Dumas School system, brought a program on the subject of geological research, and on April 26, a program on Africa was presented by Mr. and Mrs. Jack Hutton of Turkey.

The meeting last Thursday was in the home of Mrs. Bill McCaghren, with Mrs. John Hamilton as leader. President, Mrs. Franklyn Price opened the meeting and welcomed the guests.

Quotation for the day, "Africa, the awakening giant. 'The wind of change is blowing through the continent,'" was read by the leader as an introduction to the subject, "Malawi, the Switzerland of Africa."

Mr. Hutton, a Church of Christ minister, and his wife told of five years spent as teachers and missionaries in the small province of Malawi in south Africa. They alternately talked and showed slides depicting the lifestyle of the natives, whom they described as very friendly and eager to learn.

"Our work there," Mr. Hutton said, "was to teach the leaders, so that they in turn might teach the people about Christ. They have a pagan religion which embraces a remote god, approached through witch doctors. Theirs is an agricultural civilization and there is no potential for industries."

Mr. and Mrs. Hutton sang a song in Chichewa, the language of the natives of that particular area, and answered questions from the members. They also had several articles of interest on display, made and used by the natives which they employed, both for entertainment and daily use.

Concluding the enjoyable program was the Inspirational Thought by Mrs. Joe Campbell.

Mrs. McCaghren was assisted by her daughter, Mrs. Darwin Scott of Palestine, TX., in Serving refreshments of punch, coffee and cookies. Others present, in addition to those mentioned were, Miss Mary Keith and Mesdames Carl King, Harold Campbell, Una Simpson, Robert Darsey, W.N. Pipkin, Furman Vinson, E.A. Day, W.F. Jacobs, Frank Pohl, William Lucas, and Douglas Meador.

"POTTERY traces the history of man," Alvin Lynn told the members and their guests at the Gentlemen's Evening banquet. "Geology is the study of the earth while archaeology is the study of man's past, to his remains."

He traced civilization from the time man began to gather food, then became hunters and farmers, identified as the Paleo, Clovis, Folsom, Archaic and other ages until pottery came into existence. The pottery and other artifacts found at grave sites, Lynn explained, made possible the identity of the many tribes of Indians that roamed the continent. He is especially interested in the pottery found in Arizona, and in New Mexico, most famous of which perhaps is the Santa Clara.

Born and reared at Whiteflat, Alvin was introduced by Mrs. Furman Vinson. He is a 1956 graduate of Matador High School and graduated from West Texas State University, majoring in geology. He has taught in Dumas since 1964 and in recent years has become interested in pottery making, as a hobby. He and his wife, Nadine spend most of their vacations digging for Indian

artifacts. It was while on one of these trips that they became acquainted with an Indian woman, who taught them many valuable facts concerning the art of making pottery. They brought slides to show, of this interesting hobby, and also several objects, including some necklaces, which he had made.

In 1978, Alvin Lynn was honored with the Joyce Dillow award in Dumas, which is given someone who has helped enhance the historical aspects of the county.

An honored guest with Mr. and Mrs. Lynn at the El Progresso affair, was his mother, Mrs. L.L. Lynn of Matador. Other guests and members present were Mrs. Erin Shearer of Alpine, Mr. and Mrs. Harold Campbell, Mr. and Mrs. Joe Campbell, Mr. and Mrs. R.E. Campbell Jr., Mrs. Robert Darsey, Mr. and Mrs. Bill Moss, Mr. and Mrs. E.A. Day, Mr. and Mrs. J.E. Edwards, Mr. and Mrs. C.D. Garrison, Mrs. John Hamilton, Mrs. John V.

Stevens, Mrs. W.F. Jacobs, Miss Laura Jacobs of Farwell, Mrs. Clay Jameson, Mr. and Mrs. Carl King, Miss Mary Keith, Keith Patton, Mrs. Wm.E. Lucas, William E. Lucas, Mrs. Douglas Meador, Mrs. R.E. Donovan, Mrs. Ted Elliott, Mr. and Mrs. Bill McCaghren, Mr. and Mrs. W.C. Pallmeyer, Mr. and Mrs. Franklin Price, Mr. and Mrs. W.N. Pipkin, Mrs. D.E. Pitts, Mr. and Mrs. Frank Pohl, and Mr. and Mrs. Furman Vinson.

Mrs. Frank Price, president, thanked Mrs. Pohl for presenting organ music as the members and guests assembled in the auditorium of First Baptist Church; the food committee, Mesdames Darsey, Jacobs and Edwards, and the decoration committee, Mesdames Hamilton, Pallmeyer and Pitts.

Decorations included rocks and miniature prehistoric animals, combined with ivy and floral arrangements, to accent the program theme.

Art of Eggery Presented To Predicta Study Club

The intricate art of Eggery was presented by Mrs. Leona Moore from Wichita Falls, to members of the Predicta Study Club at their regular meeting Thursday evening, April 19 in the Roaring Springs depot. Eggery, the art of decorating eggs, was originated in Russia in the early 1700's by Carl Faberge. Asked by the Czar of Russia to create a beautiful gift for his wife, Csarina, he decorated an egg with gold and real jewels. The tradition is still prevalent in Europe today to present a specially decorated egg as a gift a symbol of new life.

Mrs. Moore has attended seminars in New York, Washington D.C. and San

Francisco, where she recently returned from the International Eggery Show, where she won honorable mention for an original creation, a miniature tree, with leaves of dyed gar shells, appearing when the 3 hinged sides open with a tree on the outside of each hinged section.

Displaying nearly 100 eggs of various sizes and designs, Mrs. Moore gave the history and stories of her work.

A canary egg stick pin was a hit, as the needle point designed roses and jewels that completely covered the eggs, that were put on one at a time. Small doors opened to present miniature dools, fully dressed in lovely

costumes, hand made of bread dough, or to show a miniature room, complete to the last detail. Many eggs had concealed music boxes or lights, and the hand-painted quail egg necklaces were especially popular.

Mrs. Moore was the house guest of Mrs. M.S. Thacker, and will be remembered by many local people. She is the twin sister of former resident, Leota Mosely, now of Corpus Christi.

Attending the program Thurs night, besides regular members were guests from Matador, Roaring Springs, Afton, Lubbock, and Wichita Falls, with approximately 40 people attending.

Farm & Ranch Reports Needed

During late May and June, many Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff. The information gathered through the questionnaires and interviews provides the basis for determining the acreage devoted to the crops and midyear livestock numbers for the state of Texas and for each county.

Crop and livestock reports provide a dependable, unbiased picture of Texas' most important industry—agriculture. The estimates

Exporters use them in planning and promoting the sale of agricultural products abroad.

Prompt and accurate completion of the survey forms provides for more reliable estimates and helps to reduce survey costs.

All individual farm and ranch information is kept confidential, and only state and county summaries become part of the final published estimate.

This is a cooperative effort of the USDA's Economics, Statistics, and Cooperatives Service and the Texas Department of Agriculture.

in these reports are tools to help farmers and ranchers work out their planting, breeding, feeding, storing, producing, and marketing plans.

Farm organizations and legislatures use them in planning programs. The

estimates are also used in establishing the various government program acreage and payment levels to farmers for the state and county.

"It's 2 A.M. and I feel rotten. Who has time to read medicine labels?"

Sorry, there is no excuse for not reading the medicine label. The label tells you what it's for, how much to take and how often to take it. It's important information. Before you take any medicine, read the label. Medicines can't help you if you don't take them right.

Social Security Tips

Virginia DeWitt
Social Security Representative

Question: I will be eligible for Medicare later this year, and I'm trying to decide whether I will need additional health insurance. What exactly does Medicare cover? Exactly does Medicare cover?

Answer: Medicare hospital insurance helps pay for inpatient hospital care and, after a hospital stay, for inpatient care in a skilled nursing facility and for home health services. Medicare medical insurance helps pay for doctors' services, outpatient hospital services, outpatient physical therapy and speech pathology services, and a number of other medical services and supplies not covered by hospital insurance. For more information, ask for a copy of "A brief explanation of Medicare" at any social security office.

For further information regarding Social Security benefits please contact the Social Security office, 1401-B West 5th Street, Plainview, telephone 293-4371.
