## Hospital Board Meeting Report

The Motley County Hospital Board met Tuesday, July 10 at 6:30 a.m. at Billie Dean's Restaurant.

The minutes and bills were read with expenses being \$5,115.47 leaving a balance of \$13,763.98. They have enough interest to finish the year bearing any large unexpected expenses. Hoyle reported the Audit is being prepared by Gary Lancaster, CPA.

Bob Davis, new Board member and also a board member of South Plains Health Providers, reported that work is being done in the main office to correct the recent billing problem for this Clinic office.

There was no further business, meeting adjourned.

## Roaring Springs City Council Meeting Report

The Roaring Springs City Council met Thursday July 5 at 6:30 p.m. with all members present except for Billy Hand.

Mrs. Stanley Ho-Gland was present to ask if they could get the sewer line run to their property south of Roaring Springs where they had moved in a house. Councilman Thacker said they would get measurements and a price and get back to them in a week.

Minutes were read and approved. Mayor Watson said they needed to do something about the water cut-offs that were installed with the new water system. Several of the cut-off pipes extend above the road and out in the road around town and caused problems for the motor grader. Council decided to call the construction foreman Ken Robinson and ask him to come see about correcting this problem.

A letter from Federal Emergency Management Agency was read. No action was taken.

Council discussed and passed for the city to pay the water bill at the Depot, as it has to show on the Computer records who pays this bill.

Council went into closed session at this time. No decisions were made.

## "Days Gone By" Renewed Many Memories at 1990 Tri-Annual Flomot Homecoming

DAYS GONE BY renewed many memories to former students, teachers and residents who returned for the 1990 Tri-Annual Flomot Homecoming and program held at 7:00 p.m., Saturday, July 7 at the Community Center.

Wilburn Martin opened the program with everyone singing, "God Bless America" and then told, "It Could Be Worse" recalling the 1930's when you considered it exciting that a candle bug got entrapped inside a lamp chimney or a cat fell into the cistern. Those adding nostalgia, relating past events were Jane Jones Nall of Wellington, Alvin Gates of Oklahoma City and Jimmie Hunter of Flomot.

Odell Washington of Lakeland, Florida was recognized for traveling the farthest to attend the Homecoming and Mrs. S.W. (Mattie) Skinner of Quitaque attending the Flomot School at the earliest date (1905) and oldest ex-resident attending. They, also recognized members of the 1945-46 football team and Mollie Burleson, of Floydada, wife of the coach of this team, the late W.E. Burleson.

The first Flomot Homecoming was held in 1954. Continuing the DAYS GONE BY, past presidents of the Association were named: Lewis Amick, Wilburn Martin, Joe Speer, Sam Ross, Malcolm Turner, D.M. Gilbert, M.C. Jones, Jimmy Ross, Doyle Calvert, Bill D. Washington, Herb Martin and Donnie Turner. They did not have a 1990 Homecoming Queen, but past queens recognized were Frances Jones Hambricht, Nova Martin Turner, Bernice Tanner Bond, Judy Gilbert Heiskell, Frances Jones Tibbets, Kathy Martin Shorter, Anita Hunter, June Ross Hale, Teresa Lee Roberts, Gwen Calvert Reed, Lessie Gresham Pope and Kayla Johnson. Wilburn Martin presented the Memo-

rial Tribute and read a list of the deceased during the past three years. In the business session, Seab Washington, president, introduced Homecoming Assn. officers for 1993: Johnney Turner, President; Ronald Clay, Vice-President and Erma Washington, Secretary and Treasurer. Mr. Washington expressed his appreciation for the donations, the committees, the new chairs for Community Center, a gift from Mr. and Mrs. Donnie Turner and all others who helped in any way with Homecoming arrangements.

R.D. Jones of Amarillo and Wayne Hunter on guitars presented musical entertainment with tuneful renditions of San Antonio Rose, Steel Guitar Rag, Sweet Bunch of Daisies, Goofoos, Dark Town Strutters Ball and 12th Street Rag.

Names were drawn for Do Gooders' quilt with Elmo Nall of Amarillo the lucky winner and the Southwest jersey, made by Coleen Burns of Grandbury, won by H.R. Cagel of Silverton. The money from chances sold on the jacket was donated to Homecoming Assn.

A Homecoming dance with the Caprock Swing Western Band of Silverton followed the program.

Wilburn Martin was in charge of the church services held Sunday at 11:00 a.m. at the Community Center with the Rev. Nathan Mulder, minister of the Flomot Baptist Church as speaker. Mrs. Joe Ike (Anna Beth) Clay was the pianist for the congregational singing led by Wayne Hunter.

A delicious barbecue lunch, catered by Dyers of Amarillo, concluded the activities.

The 405 persons who registered for Homecoming agreed, THERE'S SOMETHING REASSURING ABOUT DAYS GONE BY!

## Early Interest Shown in Plans For Ex-Students & Teachers Homecoming

Although dates for the 1990 Motley County school homecoming for Ex-Students and Ex-Teachers, set for September 28-29, are the earliest since the organization was formed, interest in this year's event has been accelerating since last November and December, when letters were received by friends and officers of the association.

Homecoming football game Friday night, Sept. 28 will be between Motley County and Claude, according to Kenneth Marshall, co-president with his wife, Mary, of the association of former students and teachers. The dates were set to conform with wishes expressed by local coaches, that homecoming would be held before district football games begin, Marshall said. One of the earliest homecoming was on October 3, 1981, and perhaps the latest was held on November 14, 1958.

Letters received by Hazel Walton Donovan, secretary of the organization include the November communication, which came from Marie Hunsucker Bald-

win (Mrs. Brewster) of Middlebury, Vermont, and one dated Dec. 6 from the Rev. Dr. Tom Sanders of Albany, California.

In his letter, Thomas Sanders (class of 1947) writes: "I was in Albuquerque, N.M. when the quake hit California in October and had intended to be in Matador one day for Homecoming. However, I had to return here as soon as possible instead. There was no damage to my place, but the Oakland Tribune elevators in the tower (23 floors) still don't work and all the tenants have had to leave (I still work at the Oakland Tribune). Minor damage was done to a number of buildings in Oakland. Anyway, we don't have tornadoes here! Enclosed is a check for my dues. I hope to come to a Homecoming in the near future. Yours truly, Tom Sanders."

Mrs. Baldwin writes that she and her husband were planning a visit to Matador in October, 1990 (thinking homecoming would again be held in that month) for the 50th reunion of her 1940 class. Others in

that class also have expressed interest in a reunion, including Mary Tipton Crider (Mrs. Jack) of Odessa, and Willena Wilkinson Hurt (Mrs. R.M.) of Lubbock, who is contacting other class members regarding plans and arrangements.

Linda Seigler Smith (Mrs. Ed) of Richardson, has also written in a letter dated Dec. 10, of plans to attend the 30th reunion of her class of 1960, this year. She writes, "I finally made it back to Matador for a homecoming and a class reunion this fall, and I couldn't believe what a great time I had. I hadn't seen so many of the class members in about 30 years and it was so nice to see all of them again. We talked and visited straight through the football game. I don't think I have laughed that much in a long time. We looked through old yearbooks, rehashed old school times and tried to figure out where everyone was. Everyone seemed so glad to see everyone else. Now, we are all looking forward to our 30th reunion. I told them I planned to come if I had to crawl on my hands and knees!"

## Commissioners hear Fire Department Report in regular monthly meeting

The invocation was given as the Commissioners court opened their regular July meeting on Monday, July 9 at 10:00 a.m.

James Gillespie, representing the Volunteer Fire Department, reported their bills were lower this month that the previous because they had gotten everything fixed. The department had made 51 calls to date for 1990 and have never had that many calls in a whole year. He also reported after the article by Marise Potts they had received approximately \$1000 in donations and certainly appreciated all the assistance. Commissioner Jameson informed Gillespie he had had reports and seen for himself that there were alcoholic beverages being consumed by the men during the fire fighting and thought this was dangerous. Gillespie stated they

had a policy that no alcoholic beverages were to be consumed by anyone while operating fire department equipment or during fire fighting and this would be taken care of.

Gillespie reported on current progress of 911 Emergency System. Lamb County is being installed now and plans are for Floyd and Motley County to begin in September 1991.

The court passed the minutes as were outstanding bills. Reports were passed with J.P. collecting \$5,942.00.

Judge Whitaker asked the Court to pass a resolution officially making the week of July 9-14 Veterans Land Board Week. This passed.

The Judge also read a resolution asking the court to pass a request for the South Plains Community Action Center

to begin a Child Care Management System, through the Human Resources Department. Commissioner Russell said he had called different offices to find out more about this program and at this time had received no answers. No action was taken at this time.

The Court passed a resolution for the Court to secure funds for operation of County expenses as needed for 1990. Not to exceed \$100,000. After lengthy discussion, the Court plans to meet with County Department heads and discuss and plan cutbacks for the 1991 budget.

The Court stated that the payments for the newer equipment had definitely been a cutback, as the repair expenses had been more month than the monthly payments are now.

Meeting adjourned.

## Baseball Season Ends With Meeting And Annual Parents vs. Coaches Game

by Kathy Gillespie

The second general meeting of the Motley County Youth Organization was held Tuesday evening, July 10. A very good crowd attended the meeting. The officers appreciate everyone's attendance.

The meeting was called to order by the President, Kathy Gillespie. The minutes of the previous meeting and the treasurer's report were read by Kate Hunt. There was no old business.

Several topics were discussed under new business. A motion was made to limit the number of bases a runner could advance on an overthrow in T-Ball. The motion died for lack of a second. A motion was made to only allow the head coach to be chosen until after the draft, at which time the head coach could pick his assistants. The tie vote was broken by the president who voted against the motion. A motion was made to keep the teams the same and draft only the younger players. This motion also failed. A motion was made to improve the speaker system with the purchase of additional speakers if necessary. This motion passed.

There was no further business and the election of officers was held. The new officers are: President, Ellen Smith; Vice

## Family History Workshop Slated at Hotel Turkey

Historic Hotel Turkey is the unique setting on July 28 for a writer's workshop, "How to Write Your Family History as Fact or Fiction," conducted by author and literary consultant Cyndy Buchanan.

Fast-gaining a reputation as the place for family reunions, club celebrations, and company retreats, Hotel Turkey's fame has spread largely by word of mouth, even to distant shores. Recently the Johnsons received reservations from a German disc jockey, the first of perhaps many international visitors destined to visit the rugged beauty of the Caprock. Once popular with traveling salesmen and drummers, the hotel, recently included in the National Register of Historic Places, incorporates antiques, artifacts, and western art of the region into its decor.

Ms. Buchanan expressed excitement about being able to offer the workshop in the intimate surroundings of the bed and breakfast where hosts Jane and Scott Johnson create an ambiance of southern hospitality with a western twist.

"I help people write books, family or personal histories. Every family has a wealth of information to record," explained the teacher of Continuing Education classes at Texas Tech. "Most of those

taking the course are interested in preserving the history of their family as a gift for other members of the family."

Though a professional writer with national publishing experience, Buchanan's favorite role is that of teacher. "I love helping people. If they just have an idea of something they have always wanted to write, fiction or non-fiction, a script or a novel, I can work with them as a consultant." That role might include editing literary content, developing narrative ideas, or shaping philosophies into words.

When not busy helping students develop priceless story lines, for example, about the Vietnam war, cowboy tales, days of the depression, a share-cropper's daughter, murder of a relative, and many other anecdotes or tragedies of family

living, Buchanan serves on the National Cowboy Symposium committee and promotes cowboy poetry. She attends cutting contests with her horse Quannah and writes articles for western/horse magazines. Currently she is planning a barrel-riding clinic for rodeo queens.

To register for one or both of the individually planned family history sessions, from 9 a.m. to 12 p.m. and 1:30 to 4:30 p.m., one may call Hotel Turkey at 806-423-1151. The costs is \$25 a person per session. A delicious home-cooked boarding house meal will be served in the hotel dining room for about \$5.50 each. If made immediately, hotel reservations may be secured for workshop participants on the night of July 27, one of the few nights unbooked at the busy bed and breakfast.

President, Bettye Stevens; Secretary-Treasurer, Deidra Clifton. The Commissioner and Assistant Commissioner were elected on the condition that they agree to serve. They are Charlie Johnson and Debra Scott, respectively.

There being no further business, the meeting was adjourned. Following the meeting there was an exciting softball game between the T-Ball Coaches and the Softball Coaches. Parents who wanted to play played for the league in which their children had played. The teams played a six-inning game and a five-inning game. Both games were one run ball games won by the T-Ball Coaches.

Again, the officers wish to thank everyone for attending the meeting and the game. It is the support of the community that allows the MCYO to be successful.

The Blanco Canyon Amphitheater is an outdoor theater designed, built and maintained as a labor of love by Crosby County volunteers. There are 700 plus reserved seats on permanent benches. Ticket holders are welcome to bring stadium seats for additional comfort.

## Home Economically Speaking

by Beverly Thomas, Home Extension Agent - Home Economics

### THE BEST RETURN ON YOUR MONEY IS PAYING OFF CREDIT CARD DEBT

The Tax Reform Act of 1986 changed the rules on consumer interest deductibility, but it's unclear whether consumers have altered their credit habits accordingly. Only 20 percent of the finance charges paid on consumer loans were deductible for 1989. In 1990, just 10 percent of the total will be deductible and in 1991, none of the finance charges will be deductible. That means with the national average interest rate of 18.66 percent credit cards, every \$100 of debt costs \$18.66 a year in interest.

Investors would have to have spectacular returns on their investments in order to match the return on repaying debt. A person in the 28 percent tax bracket would have to earn \$25.92 before taxes from a \$100 investment in order to match it. Those in the 33 percent tax bracket

would have to earn \$27.85 per \$100 before taxes to pay the interest on \$100 of credit-card debt.

The reality is that few people earn high yields without major risk. The average yield on a one-year bank certificate of deposit is currently 8 percent. Paying off credit-card debt and other consumer loans makes mathematical sense, so much that some financial advisors are urging people to pay cash or forego items.

Avoiding interest on consumer debt is not as simple as it sounds. To get maximum benefit, consumers would have to invest the money they would otherwise be spending on monthly payments. In the words of one advisor, "99 percent of the world doesn't have the discipline."

### CHECKING YOUR CREDIT REPORT

Before applying for a loan, it pays to check your credit report. Many financial counselors advise reviewing credit reports every several years regardless of whether a loan is needed.

Consumers can obtain a copy of their credit report for a fee (usually under \$20) from local credit agencies listed in the yellow pages of the telephone book. Consumers applying for a loan may want to ask the lender which credit bureau will be used and obtain a copy of the specific report from that bureau, since credit information may differ slightly from agency to agency. Reviewing credit reports not only allows reporting and challenging of errors, but can also allow preparation of explanations which will be required regarding existing or past credit problems.

### CHECKING UP ON SPECIAL SECURITY STATUS

In making employment decisions about the future, Social Security status may be a factor. Call the local Social Security office to obtain a request card. The mailed response will show how many quarters are left for a specified individual to contribute and approximately what retirement income can be anticipated. Ask for updated information periodically to monitor any changes which have occurred based on annual income or other factors.

Educational programs conducted by the Texas Agricultural Extension Service are for people of all ages regardless of socioeconomic level, race, color, sex, religion, handicap or national origin.

### THOUGHT FOR THE DAY:

The only people to get even with are those who have helped you!

Praise the Lord!

## Happy Birthday Granddaddy

Two blocks from a courthouse in a small town, there lives a large man with a golden heart bigger than Fort Knox.

His cotton colored hair reveals many things. It tells of the depression, the rigorous wars, but most important of all, it whispers the good times he had raising six children.

Richard Martin, is my grandfather. He is a very dedicated 78 year old man who works from sun-up til sun-down. Although his work takes up most of his time, his family is more important. When there is cheering up to do, we can depend on granddaddy Rich to liven us up. His smile is warmer than the sun and his love for his grandchildren is purer than the white on an angels wings.

Granddaddy likes to sit outside a lot. He always looks so peaceful and that makes me feel so good. With his big blue eyes sparkling in the sun, you would never think that granddaddy Rich was so much fun. His favorite joke or saying is "You better keep your eyes open. People are going to think your crazy walking around with them shut."

Grandparents are special people, but I think that when the good Lord made granddaddy Rich, he definitely broke the golden mold, because there is no one like him.

He is more than a grandfather, to me he is my very best friend.

Love,  
Tammy

## Social Security Tips

by Mary Jane Shanes

Many people in the Plainview area have reported to me that they have received solicitations in the mail that offer to do many things - provide information about the social security death benefit, obtain a social security number for an infant, help a new bride change her name in social security records, to name a few.

All of them have one thing in common - they all ask money to perform the same services provided free by social security. Please read these solicitations very carefully and if you have any questions about them, call us. Usually we can give you the information you need over the telephone, and it won't cost you anything.

Use our toll-free telephone number - 1-800-2345-SSA (1-800-234-5772). You can get the best service if you call between 7 and 9 a.m. or 5 and 7 p.m.

If you use one of these firms to get a social security number for your child or to change your name in our records, the best thing that could happen is that the process will be delayed. At the worst, you could lose your money and have nothing in return.

These firms cannot get a number for you. All they do is send you an application for a social security number card, tell you to fill it out, and mail it to the social security office serving you. You can do this yourself and save money by just calling us. You will get your number card about 2 weeks after you send us your application and supporting evidence.

The aim of those firms who want to

give you "free" information about the social security death benefit is to sell you insurance, or perhaps to build a list of prospects they can sell to an insurance company. So, unless you really want and need additional insurance, just toss this junk mail in your wastebasket. You can get any information you want about social security benefits by just calling us.

Some other firms offer to get you a free "Personal Earnings and Benefit Estimate Statement" if only you buy their product, a book or newsletter for example.

You can get your own free "Personal Earnings and Benefit Estimate Statement" by just calling social security and asking. There is no obligation. And the book being offered, well I have never seen one that contained any information that was not available free from social security. We have a variety of publications that explain all aspects of social security. They are free for the asking.

We are concerned that you may needlessly pay for services that the social security administration provides free, and that these businesses promote their services by fostering a false impression that either social security will not provide these services or it is difficult for the public to obtain them.

Remember, our services are free. So, just toss those direct mail solicitations in the trash. Our services are just as close as your telephone. Give us a call at 1-800-2345-SSA (1800-234-5772).

*Destroy, O Lord, and divide their tongues: for I have seen violence and strife in the city.*

## Burleson Memorial Roping

FRIDAY, SATURDAY & SUNDAY  
JULY 20-22, 1990

Cutting Horse Events, Open Pasture Roping  
MUCH MORE!

Most of the dryland cotton on the High Plains that wasn't included in the half-million or so acres estimated by Plains Cotton Growers, Inc. to be past redemption ten days ago appears to be holding its own, according to Dr. James Supak, Area Extension Cotton Agronomist at the Texas A&M Research and Extension Center north of Lubbock.

Supak describes cotton in this "status quo" condition as having adjusted to prevailing conditions to the extent that it isn't growing but remains alive and continues to hold a few small squares. In terms of yield potential, he adds, it has the calendar working against it, plus the uncertainty of whether squared now present will abort when it finally rains.

If so, the crop-making process begins all over, and cotton physiologists say it will take plants at least two weeks after moisture is restored to move back into a normal growth mode. Normal growth at this time of year is described as adding leaves and putting on a new square every three days.

Assuming a good rain July 10, earliest reasonable hope considering July 5 forecasts, dryland cotton would begin squaring again around July 24 and blooms would appear about mid-August. That, Supak says, leaves precious little time for setting fruit with a chance to mature before the normal frost date in early November.

Cotton in dire straits generally lies west of highway 87, stretching down from Tulia through Plainview, Lubbock

Lamesa and on down across the northeast corner of Martin County. Cotton east of this line for the most part has had more rain and still has a fair chance of reasonable yields with favorable conditions the remainder of the growing season.

Acreage-wise, PCG estimates that about 1.2 million of the 1.9 million dryland acres thought to have been planted in the region lies in the western area. No doubt there are exceptions, but a large majority of this acreage falls in the status quo category described by Dr. Supak.

Many of the most seriously affected producers, who know the condition of their crops all too well, are filing form 574's (intent to abandon) at county ASCS offices, and those with federal crop insurance are asking adjusters to "zero out" their crops. And, in desperation, they're asking PCG and other about chances for disaster payments.

Possibilities of a disaster program, PCG says, aren't very encouraging. The only hope appears to be the bill introduced in late May by Senator Lloyd Bentsen (D-TX). There was thought that it might be attached to the 1990 farm bill recently reported by the committee, but that didn't happen.

So the bill will have to be offered as an amendment on the Senate floor or be acted on as separate legislation. But PCG and other farm advocates reluctantly admit that existing budgetary restraints make prospects of success for either strategy somewhat less than rosy.

### U.S. Representative Bill Sarpalius' Office to be in Matador

U.S. Rep. Bill Sarpalius' office will be in Matador on July 17 from 10:00 to 11:00 a.m. at the Courthouse.

The mobile office allows the congressman to bring his office's services directly to his constituents. A representative from the Congressman's office will be on hand to assist with constituent questions. "I have always believed that to be an

effective public servant you have to go to the people and hear their wants and needs," Sarpalius said. "I was elected not just to represent you, but to serve you. That's why I have this mobile office."

The mobile office will be traveling to each town in the district on a monthly basis. For more information contact Aaron Alejandro, District Coordinator, at (817) 767-0541.

## Letter To The Editor

Editor, Mayor, City Council:

Members elected by the citizens of Matador. I am sure that you are all experiencing the same anger, frustration that I feel toward our cable service.

In recent weeks we have had any number of times when our service has been completely off the air and fuzzy receptions.

At the same time of our rate increases we were led to believe we would have more choice of stations. We do, BUT we now have four Denver stations that have the same programs except for the time, other than Denver's P.B.S. station.

Our KMAC station is forever sorry receptions. And it is a better news station than 11 or 13. If you read your newspaper, which is always late, you will have noticed the rates that are charged for different city's cable and the number of

stations received.

Matador has a higher rate for the number of stations received than most large cities in Texas. That is a crock as far as I am concerned. Where do we get off this roller coaster? I understand that the cable company has appeared before the city council any number of times to request and present their side of the story. Well, what ever they promised they are doing a sorry job. I could tell it like it is with several four letter words but will let you say your own. If I could have a choice I would cancel in a minute. But I can't afford a "dish" with all the extra equipment and I do enjoy having a T.V. But we are really being had by Mission Cable Co. How about it council members, and Mr. Mayor, can't we do better than this?

### TO OUR VALUED MISSION CABLE CUSTOMERS IN MATADOR

Due to an unfortunate incident our cable system received a very strong power surge which did considerable damage to the main transmission line. The nature of the way our equipment is designed causes it to sometimes not go out immediately; instead over a period of days different pieces will fail. We are very sorry that it wasn't a problem that could be solved by just changing some equipment. We apologize for your inconvenience, and it is our desire to provide you with great television entertainment, good service, and create and maintain good customer relations with you. For that reason I wish to offer our sincere apologies, if at any time during this outage period we were not as courteous in handling your warranted complaints as we should have been.

Thank you very sincerely,  
Dorton Canon, Mission Cable

### Is Suffering Always Evil?

When one raises the subject of human suffering, many people generally assume that all evil is suffering and all suffering is evil. Is this presupposition true? Is the negative value which many place on evil its real value?

The Bible states that our primary purpose in existing is to honor and glorify God, (Ecc. 12:13) This being true, everything that takes a person away from God is evil and everything that brings a person toward God is good.

When this standard is accepted, one sees the events of his or her world in a different light. It is possible then that the riches, honors and pleasures of this world could be actually hindrances rather than helps. In other words, these things could prove harmful to our relationship with our God. It is quite conceivable that illness, loss of money, or even the loss of friends might ultimately serve some good purpose. Under certain circumstances, poverty is better than riches. Our Lord said, "A man's life consisteth not in the abundance of the things which he possesseth" (Luke 12:15). Too often the things of this world blind us to the spiritual things and thus become to us a curse rather than a blessing. We do not believe that riches, honors, and pleasures are to be viewed as evil. These things can also be blessings. It depends on one's attitude toward them and how he or she uses them. Do these things draw one closer to God, or do they take one further away? No one would claim that suffering in and of itself is good. But what is good that through suffering one is often brought into submission to God's will.

It may be that the frowns of the world are better than its honors. It is quite possible that illness could bring blessing. Many would consider this completely unreasonable. Remember Ecc. 12:13? Our primary concern in living is to honor and glorify our God. The one who spends some time on his or her back in a hospital room often sees things in a clearer light than while going through life without a care or worry. This is not to say that one should rejoice in illness, but rather to accept it in a manner consistent with Biblical Truths. Therein is the blessing found, both to the person involved and to those with whom he or she comes into contact.

The City of Roaring Springs, Texas will hold a second public hearing at 7:00 p.m. on July 16, 1990 at the Depot, in regard to the submission of an application to the Texas Department of Commerce for a Texas Community Development Program (TCDP) grant. Topics to be discussed will include the application for sewer system improvements in the amount of approximately \$200,000.00 and the estimated amount of funds proposed for activities that will benefit low and moderate income persons. The application will be available for review at City Hall during regular business hours. The Depot is accessible to the handicapped.

### NOTICE OF OPPORTUNITY

Notice is hereby given that the Caprock Community Action Association, Inc. is seeking financial assistance from the U.S. Department of Transportation under the Section 18 grant program. Grant funds will be used to continue providing rural public transportation on demand responsive schedule. Based on location, services may require a 24-hour advance request. Services are available in Crosby, Dickens, Floyd, Hale, King, and Motley counties. Special provisions for the elderly and handicapped are available. The system will charge fares, however, some passengers may qualify for fare subsidy.

Copies of the grant proposal are available for inspection by the public at 224 S. Berkshire, Crosbyton, Texas 79322.

### NOTICE OF RATE CHANGE REQUEST

Cap Rock Telephone Company, Inc. hereby gives notice that on May 15, 1990, the company filed with the Public Utility Commission of Texas a request to reduce rates for certain optional services. These changes may become effective as early as June 19, 1990. Rates for local service will not change as a result of this filing.

The proposed changes include reductions to both the recurring and the non-recurring rate for Tone Dialing service and

Custom Calling services. The Company also proposes to reduce the non-recurring rate for Nonpublished Telephone Number service. In addition, the Company proposes to waive the Service Connection Charges associated with Custom Calling services for 90 days from the date the new services become available in the remaining exchanges that do not currently offer Custom Calling Services.

It is estimated that the proposed changes will result in an annual revenue decrease of approximately \$3096.00 or a decrease of .001% of Cap Rock's annual revenues. Existing tone dialing and custom calling service customers may experience a rate reduction as a result of the proposed filing. Persons with questions or who desire more information about the proposed filing are encouraged to contact the company by telephone at (806) 271-3336 or in person at 121 E. Third St., Spur, TX 79370.
